**Subject:** Support for ND formulary rules

**This message originates from outside the Maine Legislature.**

Hello,

I'm writing in support for Naturopathetic doctors. I had a thyroidectomy quite a few years ago. I've had many health issues since then. My Primary care doctors only looked at my thyroid labs and said they look normal even though I was having medical issues. I finally looked into a ND doctor and am so glad I did. I felt heard. My medical issues were due to my thyroidectomy. I had labs done that my primary care doctors never did and received treatment. I value a doctor who looks at the whole picture and not just symptoms.

Sincerely,  
Jennifer Feely
