Subject: In Support of LD 2242, the Major Substantive rules provisionally adopted by the Board of Complementary Healthcare Providers

This message originates from outside the Maine Legislature.

To whom it may concern:

I am strongly in favor of supporting LD 2242 as I feel as though our naturopathic doctor, Corrie Marinaro, from New England Naturopathic Healthcare, has changed our lives. ND's should be able to prescribe the same medicines as other doctors with equity amongst other states.

My son was diagnosed with lymes disease at four years old. He developed cognitive impairment in addition to food and environmental allergies due to leaky gut that evolved from his diagnosis. Our doctor met us where we were and has changed his life for the better by prescribing him with remedies that could treat these ailments. He is now a happy eight year old getting ready for baseball season.

Please consider passing this legislation.
