Subject: Support to the Maj Substantive rules provisionally adopted by the complementary healthcare providersDear

This message originates from outside the Maine Legislature.

Dear Ms. Cayford,

I have benefited greatly over the past decade from treatment and recommended formulas from my local Naturopath here in Ellsworth. I hear that an updated formulary has been approved by the Board of Complementary Healthcare and the AG, and am sure it will benefit me, my wife and many others receiving naturopathic care in Maine. I strongly recommend that this updated formulary be implemented and that you do all that you are able to see these rules are enacted. Thank you for your attention.

Sincerely,

Shep Erhart
Franklin, ME
