

Members of the Judiciary Committee, I am writing to urge you to vote “ought to pass” on LD 2239.

My name is Grace Clark. I am 20 years old and I live in Winslow.

I have seen and heard stories of what happens to women like me who are left alone with dangerous men pretending to be women. Women of all ages have been assaulted by these biological men. They have received threats of violence and have been subject to sexual harassment. This bill would allow women to feel safe in public by ensuring that their gender-specific restrooms and locker rooms are only available to biological women.

Please listen to your constituents, the people of Maine, and vote Ought to Pass on LD 2239. Thank you.
