E. Any area of land largely in a natural condition and containing natural features of scenic, ecological or scientific interest or importance. The presence of human-made development does not preclude an area from this classification if that development is not likely to remain or leave a permanent mark upon the natural character of the area or is essential to the operation of the area as a wilderness or natural area, as long as the development detracts only minimally from the area's natural character. 6. Restrictions on public access. Post notice of any restrictions to public access at points commonly used to access the land or at a facility or structure where such rules and notices are regularly posted. The director may restrict public access to any portion of the land or waters within the bureau's jurisdiction when the restrictions reasonably relate to protecting public health, safety or welfare or the economic interests or natural resources of the State; and [PL 2019, c. 110, §2 (AMD).]

7. Minimum staffing levels. Determine minimum levels of staffing for all state parks, except Baxter State Park, and historic sites and national parks that are controlled and managed by the State. When making a determination of staffing levels under this subsection, the director shall consider for each park and historic site the following:

§1805. Designation of ecological reserve

The director may designate ecological reserves on parcels of land under the jurisdiction of the bureau. The director may designate ecological reserves or remove the designation of a parcel of land as an ecological reserve only in conjunction with the adoption of a management plan for a particular parcel of land, and the process for adoption of that management plan must provide for public review and comment on the plan. When a proposed management plan includes designation of an ecological reserve, the director shall notify the joint standing committee of the Legislature having jurisdiction over public lands matters of the proposal. When a proposed management plan includes the removal of a parcel of land of 10 acres or more as an ecological reserve, the director shall submit a report to the joint standing committee of the Legislature having jurisdiction over public lands matters prior to the bureau's updating the accompanying management plan for the parcel of land. The report must include a description of the parcel of land, the reasons for the removal of the designation as an ecological reserve, the intended uses of the parcel of land and the benefits to the public as a result of the removal of the designation as an ecological reserve. The joint standing committee of the Legislature having jurisdiction over public lands matters may report out a bill relating to the subject matter of the report. [PL 2021, c. 516, §1 (AMD).]

1. Allowed uses. The director may within an ecological reserve allow uses that are compatible with the purpose of the ecological reserve and do not cause significant impact on natural community composition or ecosystem processes. Uses that the director may allow include nonmanipulative scientific research, public education and nonmotorized recreation activities such as hiking, cross-country skiing, primitive camping, gathering of materials for cultural and traditional use by a member of a federally recognized Wabanaki Indian nation, tribe or band in this State, hunting, fishing and trapping. For the purposes of this subsection, "primitive camping" means camping in a location without facilities or where facilities are limited to a privy, fire ring, tent pad, 3-sided shelter and picnic table. The removal of trees and construction of facilities associated with these allowed uses are allowed. The director may allow other uses when their impact remains low and does not compromise the purpose of the ecological reserve. Recreational use of surface waters is under the jurisdiction of the Department of Inland Fisheries and Wildlife. [PL 2021, c. 516, §1 (AMD).]

2. Trails and roads for motorized vehicle use. The director shall allow the continuing use of an existing snowmobile trail, an all-terrain vehicle trail or a road if the director determines the trail or road is well designed and built and situated in a safe location and its use has minimal adverse impact on the ecological value of an ecological reserve and it cannot be reasonably relocated outside the ecological reserve.

A new snowmobile or all-terrain vehicle trail or a new road is allowed only if the director determines all of the following criteria are met:

- A. No safe, cost-effective alternative exists; [PL 1999, c. 592, §3 (NEW).]
- B. The impact on protected natural resource values is minimal; and [PL 1999, c. 592, §3 (NEW).]
- C. The trail or road will provide a crucial link in a significant trail or road system. [PL 1999, c. 592, §3 (NEW).]

[PL 2021, c. 516, §1 (AMD).]

3. Incompatible uses. Uses that are incompatible with the purpose of an ecological reserve are not allowed. Incompatible uses include timber harvesting, salvage harvesting, commercial mining and commercial sand and gravel excavation. For the purposes of this subsection, "salvage harvesting" means the removal of dead or damaged trees to recover economic value that would otherwise be lost. [PL 1999, c. 592, §3 (NEW).]

4. Resource protection measures. The director shall take action to control a wildfire occurring on an ecological reserve or spreading to bureau lands. The director may authorize a prescribed burn in an ecological reserve if necessary to replicate natural processes that maintain specific natural

communities or rare species populations. The director may implement predetermined wildfire tactics to protect the integrity of the landscape and shall use minimal impact suppression tactics to the extent possible.

The director may use pesticides, including herbicides, and sanitation harvests to control insect and disease outbreaks only in response to:

- A. A specific threat to the functioning of a native ecosystem or managed wildlife habitat; [PL 1999, c. 592, §3 (NEW).]
- B. A specific threat to human health or safety; or [PL 1999, c. 592, §3 (NEW).]
- C. A condition that is likely to result in significant damage to adjacent lands if control is not exercised. [PL 1999, c. 592, §3 (NEW).]

For the purposes of this subsection, "sanitation harvest" means the removal of trees that have been attacked or are in imminent danger of attack by insects or disease in order to prevent these insects or diseases from spreading to other trees.

[PL 2021, c. 516, §1 (AMD).]

5. Limits on acreage designated as ecological reserves. The total land acreage designated as ecological reserves may not exceed 115,000 acres. No more than 8% of the operable timberland acres on public reserved lands and nonreserved public lands may be designated as ecological reserves. For the purposes of this subsection, "operable timberland" means land the bureau considers viable for commercial timber harvest operations and does not include inoperable lands, which are lands not suitable for timber production due to topography or hydrologic setting. Inoperable lands include ledges, steep slopes, nonforested barrens, mountaintops, nonforested wetlands and other nonproductive sites. Lands donated or acquired after the effective date of this section with the condition that the donated or acquired land be designated an ecological reserve are not included when calculating acreage limits under this subsection.

The designation of land as an ecological reserve may not result in a decline in the sustainable harvest level on land under the jurisdiction of the bureau to less than the average annual harvest for the preceding 10 years. For purposes of this subsection, "sustainable harvest level" means the amount of forest products that can be harvested over time without reducing timber inventory and is determined by the operable timberland acres of land and the forest growth rate.

[PL 2021, c. 516, §1 (AMD).]

6. Reporting requirements. The bureau shall report the status of ecological reserves under the reporting requirements of subchapters 3 and 4.

[PL 2021, c. 516, §1 (AMD).]

Except as provided in this section, timber harvesting on public reserved lands and nonreserved public lands may not exceed in total an average of 160,000 cords per year over any 3-year period. If an independent timber inventory conducted after July 1, 2015 establishes a different sustainable harvest, the department, upon recommendation from staff within the bureau based on opinions of silvicultural experts in public reserved lands management and data from the most recent physical forest inventory, may adopt by rule a different harvesting level consistent with the most recent physical forest inventory, as long as the harvesting level is also consistent with multiple use objectives, existing management plans and the department's most recent integrated resource policy for public reserved and nonreserved public lands, state parks and state historic sites. Rules adopted pursuant to this section are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A and must be reviewed by the joint standing committee of the Legislature having jurisdiction over public reserved and nonreserved public lands matters. SUBCHAPTER 2

PARKS AND HISTORIC SITES

§1811. Management of wilderness or natural areas

The bureau shall establish wilderness or natural areas, or both, from among lands classified as state parks and shall manage those areas primarily to preserve their natural character and features, and any use or development that threatens the character and features of those wilderness and natural areas is prohibited. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

§1812. Acquire interests in land; eminent domain; leases with the United States

With the consent of the Governor and the commissioner, the director may acquire on behalf of the State land or any interests in land within this State, with or without improvements, by purchase, gift or eminent domain for purposes of holding and managing the same as parks or historic sites. When acquiring land or interest in land, the director shall examine options for obtaining public vehicular access rights to the land. If an acquisition is made that does not include guaranteed public vehicular access, the director shall describe the acquisition in the report required under section 1817 and the justification for that acquisition. The right of eminent domain may not be exercised to take any area or areas for any one park that singly or collectively exceed 200 acres, nor may it be exercised to take any developed or undeveloped mill site or water power privilege in whole or in part or any land used or useful in connection therewith or any land being used for an industrial enterprise. The right of eminent domain may not be exercised without prior review by the joint standing committee of the Legislature having jurisdiction over conservation matters. [PL 2009, c. 356, Pt. B, §1 (AMD).]

Before exercising any eminent domain power, the bureau shall notify the owners of any lands proposed for acquisition and shall, at their request, afford those landowners the opportunity of a public hearing to testify as to the necessity and propriety of taking such lands. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

With the consent of the Governor and the commissioner and upon terms and conditions determined to be advantageous to the people of this State and consistent with this chapter, the director may negotiate and execute any lease or other agreement for the administration, maintenance, supervision, use and development of state parks that are acquired and owned by the Federal Government. The director may, with like consent, accept on behalf of the State deeds of gift or other conveyances to lands or interests in lands suitable for administration, maintenance, supervision, use and development as state parks or historic sites under this subchapter. Such lands or interest in those lands, when so acquired, whether title thereto is in the United States or otherwise, are subject to administration, maintenance, supervision, use and development by the bureau during the terms of any lease or agreement under this section. With respect to lands or interest in lands that are included in any park or parks acquired and owned by the Federal Government and administered under this subchapter, the State shall retain concurrent jurisdiction with the Federal Government in and over all such lands. Any civil or criminal process issuing under the authority of this State may be executed on those lands in the same manner and to the same effect as if those lands were privately owned, and exclusive jurisdiction in and to those lands reverts to the State when they cease to be owned by the United States. Such lands are exempt from all taxes and assessments while they are the property of the United States. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

§1813. Acquisition of railroad rights-of-way for open space or recreation corridors

For the purpose of establishing, preserving or enhancing corridors for use for open space or recreation, the director may acquire with the consent of the Governor and the commissioner, by license, lease, purchase, gift or eminent domain, railroad rights-of-way upon which rail service is no longer operated except that the right of eminent domain may not be exercised without prior review by the joint standing committee of the Legislature having jurisdiction over conservation matters. When railroad rights-of-way or interests in railroad rights-of-way are taken by eminent domain, the proceedings must be in accordance with this section and are not subject to Title 35-A, chapter 65. For purposes of these acquisitions, the term "owner" as used in this section means the person holding the dominant rights in the property immediately prior to the termination of the operation of rail service and that person's successors and assigns. Acquisitions pursuant to this subsection are not subject to any limitation in acreage. [PL 2009, c. 356, Pt. B, §2 (AMD).]

If the bureau decides to acquire property by eminent domain, it must have the property appraised and offer to the owner just compensation for the interests acquired. The bureau must file in the registry of deeds for each county in which the property lies a notice of the taking that contains a description of the property and of the interest taken and the name or names of the owner or owners. The bureau may join one or more properties in the same notice, whether those properties are in the same or different ownership. A check in the amount of the award and a copy of the notice of taking must be served upon the owner or owners. If there is more than one owner, the check may be served upon any one of the owners of each separate property. The notice of the taking must be published once in a newspaper of general circulation in each county where the property lies, and that publication constitutes service on any unknown owner or owners or other persons who may have a claim or interest in the property. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

Railroad rights-of-way or other interests within the jurisdiction of the United States Interstate Commerce Commission may not be acquired by eminent domain. [PL 1997, c. 678, §13 (NEW).]

If any owner is aggrieved by the bureau's award, the owner may appeal from it to the Kennebec County Superior Court or the Superior Court in the county in which the land lies within 30 days after the date of service or publication of the notice of the taking. The appeal must be taken by filing a complaint setting forth the facts upon which the case will be tried according to the Maine Rules of Civil Procedure. The Superior Court shall determine damages by a jury verdict or, if all parties agree, by the court without a jury or by a referee or referees and shall render judgment for any damages, with interest when it is due. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

Except in the case of an acquisition by license or lease and unless otherwise specifically excepted by the bureau, all reversionary and servient rights in and any other conflicting claims to property acquired pursuant to this section terminate and are extinguished forever as of the date of the acquisition by the bureau. Any person who makes a claim to the property must mail a written notice to the owner and the bureau. Any person damaged by the extinguishing of those rights may make claim for damages in accordance with the eminent domain appeal procedures of this section within 2 years of the date of the acquisition. The burden of proving the validity, compensability and value of any claim is upon the claimant. Notice of the acquisition must be given to the apparent holders of such interests as provided in this section. If the bureau determines that the property acquired may be subject to reversionary or servient interests or other conflicting claims, in order to avoid double or multiple liability, the bureau may make a blanket award of compensation for the acquisition and, instead of serving the award check on the owner, request that the Treasurer of State establish an interest-bearing account into which the full amount of that compensation is deposited. The funds and any interest accrued must be disposed of as follows. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

1. No claims made or action filed within 2-year period. If the 2-year period for filing a claim for damages for the extinguishment of a reversionary or servient right or other conflicting claim expires and no claim has been made or action filed, then the Treasurer of State upon request by the bureau shall pay the funds deposited, including any interest accrued, to the owner as defined in this section. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

2. Claims made or action filed within 2-year period. If one or more claims have been made or an action filed prior to the expiration of the 2-year period for filing a claim for damages, then the owner as defined in this section must be made a party to those claims and the Treasurer of State shall distribute the deposited funds, including any interest accrued, in accordance with the final order entered in such proceedings, including any appeals. [PL 1997, c. 678, §13 (NEW).]

As a result of the difficulty of determining the identities and addresses of the possible holders of reversionary or servient rights or other conflicting claims, personal notice to those holders and their mortgagees is deemed given if the bureau mails a notice of the acquisition, including a description of its effect of extinguishing those rights, first class postage prepaid, to each person shown in the real estate tax records of the municipality in which the property lies as the apparent owner of land abutting the property taken. Notice must be posted in the municipal office building, if any, for that municipality and must be published once in a newspaper of general circulation in the county in which the property lies. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

§1814. Convey land

Consistent with section 598-A, the bureau may sell and convey lands under this subchapter and improvements on those lands. With the consent of the Governor and the commissioner and subject to the provisions of section 598-A, the bureau may convey interests in lands or lease the same. Any lease to the Federal Government requires the approval of the Legislature. Any lease entered into must be canceled or revoked after due notice of intention to cancel or revoke the lease by action of the bureau when the use for which that lease was given has been abandoned or materially modified or whenever the conditions imposed in any lease have been broken. [PL 1999, c. 240, §1 (AMD); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

§1814-A. Easements across rail trails

To the extent permitted by the deed or other instrument of ownership, the director, with the consent of the Governor and the commissioner, may sell or otherwise convey a right of access by easement across a rail trail as provided in this section. For the purposes of this section, "rail trail" means a former railroad right-of-way that is no longer used for rail service, in which the department has an ownership interest and that is managed by the department for use as a recreational trail. [PL 2011, c. 278, §5 (NEW).]

1. Notice. At least 30 days prior to conveying a right of access by easement under this section, the director shall notify interested parties of the proposed conveyance, providing the location and purpose of the access easement and the anticipated date of conveyance. The notice must provide a name and contact information for a person at the bureau to whom inquiries may be made and comments submitted. For the purposes of this section, "interested parties" means owners of property abutting the parcel on which the proposed right of access is located, local trail clubs, statewide trail associations, the municipality in which the proposed easement is located, the Land for Maine's Future Board, each Legislator and other persons with a known interest in the use of the segment of the rail trail affected by the proposed conveyance. [PL 2011, c. 278, §5 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

2. Terms of conveyance. The access easement must include terms that ensure the transaction does not unreasonably interfere with the safety, maintenance and continuity of the rail trail. The access easement must ensure that public investment in the rail trail is protected by a negotiated exchange of value. The exchange of value may include, but is not limited to, negotiated improvements to the rail

trail or payment of survey, title and appraisal expenses associated with the conveyance of the right of access by easement.

[PL 2011, c. 278, §5 (NEW).]

3. Proceeds from sale of an access easement. Proceeds from the sale of a right of access by easement under this section must be deposited in the Parks General Operations Fund established under section 1825.

[PL 2019, c. 343, Pt. Y, §1 (AMD).]

4. Opportunity for review by legislative committee. A Legislator receiving notification under subsection 1 may notify the director of concerns and may in writing request review of the proposed access easement by the joint standing committee of the Legislature having jurisdiction over parks and lands matters. A Legislator requesting a review under this subsection shall notify the chairs of the joint standing committee of the request.

When a request for legislative review is received under this subsection, the director may not finalize the transfer until the legislative committee has met and reviewed the proposed transaction.

§1815. Transfer lands to another agency; receive lands from another agency

Consistent with section 598-A, the bureau may transfer the responsibility for the management of lands under this subchapter to any other state agency upon conditions and for periods the bureau specifies when such a transfer is pursuant to a management plan and the transfer has received the written consent of the agency to which the management responsibilities are being transferred, the Governor and the commissioner. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

The bureau may accept the care, custody, control and responsibility for the management of lands to be classified as state parks or historic sites from other state agencies with the written consent of the transferor agency, the Governor and the commissioner. Nothing in this section or section 1814 may be construed to negate or affect obligations of the State undertaken in any existing lease, easement or other binding agreement or obligation of the State undertaken by the acceptance of any deed or other grant of an interest in real property. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

§1816. Grant licenses and permits

Consistent with section 598-A, with the consent of the Governor and the commissioner, the bureau, by revocable license or agreement, may grant to any person, firm or corporation exclusive rights and privileges to the use and enjoyment of portions of lands acquired or managed under this subchapter. Any license or agreement granted or entered into must be canceled or revoked after due notice of intention to cancel or revoke the license or agreement by action of the bureau when the use for which that license was given has been abandoned or materially modified or whenever the conditions imposed in any license or agreement have been broken. [PL 1997, c. 678, §13 (NEW).]

7. Comprehensive outdoor recreation plan. Beginning January 1, 2003 and every 5 years thereafter, the director shall submit a state comprehensive outdoor recreation plan to the joint standing committee of the Legislature having jurisdiction over state parks and public lands matters, referred to in this subsection as the "committee of legislative oversight." The plan submitted by the bureau for review and approval by the National Park Service to establish the bureau's eligibility for funding from the land and water conservation fund under 16 United States Code, Section 4601-11 meets the requirements of this subsection. If federal funding is not available for updating the state plan, the bureau may make a written request to the committee of legislative oversight for an extension for submitting the plan. Upon receiving an extension request, the committee of legislative oversight shall discuss the advisability of an extension and the availability of state funds for preparation of the update. The committee may authorize an extension by writing to the director and stating the year by which an update must be received. After 2025, all revenue in excess of \$5,476,268, after all other adjustments have been made, accrues to a nonlapsing dedicated revenue account to be used for capital improvements at state parks and historic sites; this account may also be used to match federal allocations from the land and water conservation fund established pursuant to the federal Land and Water Conservation Fund Act of 1965. The harmonious and coordinated management of the various resources without impairing the productivity of the land and with consideration being given to the relative values of the various resources and not necessarily to the combination of uses that will give the greatest dollar return or the greatest unit output. [PL 1997, c. 678, §13 (NEW).]

[PL 1997, c. 678, §13 (NEW).]

2. Sustained yield. "Sustained yield" means the achievement and maintenance in perpetuity of a high-level regular periodic output of the various renewable resources of the public reserved lands without impairing the productivity of the land.

The Legislature further declares that it recognizes that such free and reasonable public access may be restricted to ensure the optimum value of such lands as a public trust but that such restrictions, if and when imposed, must be in strict accordance with the requirements set out in this section.

2. Establishment of restrictions on public access.

1. Purpose. The Legislature declares that it is in the public interest and for the general benefit of the people of this State that title, possession and the responsibility for the management of the public reserved lands be vested and established in the bureau acting on behalf of the people of the State, that the public reserved lands be managed under the principles of multiple use to produce a sustained yield of products and services by the use of prudent business practices and the principles of sound planning and that the public reserved lands be managed to demonstrate exemplary land management practices, including silvicultural, wildlife and recreation management practices, as a demonstration of state policies governing management of forested and related types of lands.

[PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

2. Management plans. The director shall prepare, revise from time to time and maintain a comprehensive management plan for the management of the public reserved lands in accordance with the guidelines in this subchapter. The plan must provide for a flexible and practical approach to the coordinated management of the public reserved lands. In preparing, revising and maintaining such a management plan the director, to the extent practicable, shall compile and maintain an adequate inventory of the public reserved lands, including not only the timber on those lands but also the other multiple use values for which the public reserved lands are managed. In addition, the director shall consider all criteria listed in section 1858 for the location of public reserved lands in developing the management plan. The director is entitled to the full cooperation of the Division of Geology, Natural Areas and Coastal Resources, the Department of Inland Fisheries and Wildlife and the Maine Land Use Planning Commission in compiling and maintaining the inventory of the public reserved lands. The director shall consult with those agencies as well as other appropriate state agencies in the preparation and maintenance of the comprehensive management plan for the public reserved lands. The plan must provide for the demonstration of appropriate management practices that will enhance the timber, wildlife, recreation, economic and other values of the lands. All management of the public reserved lands, to the extent practicable, must be in accordance with this management plan when prepared.

Within the context of the comprehensive management plan, the commissioner, after adequate opportunity for public review and comment, shall adopt a specific action plan for each unit of the public reserved lands system. Each action plan must include consideration of the related systems of silviculture and regeneration of forest resources and must provide for outdoor recreation including remote, undeveloped areas, timber, watershed protection, wildlife and fish. The commissioner shall provide adequate opportunity for public review and comment on any substantial revision of an action plan. Management of the public reserved lands before the action plans are completed must be in accordance with all other provisions of this section.

[PL 2013, c. 405, Pt. C, §9 (AMD).]

The bureau and the Department of Inland Fisheries and Wildlife shall communicate and coordinate land management activities in a manner that ensures that the total number of acres of land open to hunting on public reserved lands and lands owned and managed by the Department of Inland Fisheries and Wildlife does not fall below the acreage open to hunting on January 1, 2008. These acres are subject to local ordinances and state laws and rules pertaining to hunting.

The rules must permit bear baiting at sites that are accessible by road and sites that are not accessible by road but are accessible by water. Rules adopted under this subsection are routine technical rules as described in Title 5, chapter 375, subchapter 2-A.

2. Grant of permits. The bureau may grant permits and enter into contracts to cut timber, harvest grass and wild foods, tap maple trees for sap and cultivate and harvest crops provided that such permits and contract rights create revocable licenses to the permittee or party to the contract and do not create any real property interest in the public reserved lands. Permits and contracts for the harvesting of timber from the reserved public lands must include a provision requiring that persons engaged in timber harvesting on the public reserved lands be compensated at rates not less than the most recently issued prevailing wage and piece rates and equipment allowances for the pulpwood and logging industry as determined by the Department of Labor, Bureau of Labor Standards.

If the Department of Labor does not determine a prevailing wage or piece rate for a timber harvesting occupation or an equipment allowance for a type of harvesting equipment, the director may establish those rates by referring to prevailing rates and allowances in the industry for that occupation or type of equipment. 2. Public Reserved Lands Acquisition Fund. To accomplish the purposes of this subchapter, there is established the Public Reserved Lands Acquisition Fund. All income or proceeds received by the bureau from the sale, exchange or relocation of any public reserved lands must be recorded on the books in a separate account and must be deposited with the Treasurer of State to be credited to the Public Reserved Lands Acquisition Fund. Any interest earned on this money must also be credited to the fund.

3. Expenditures of fund. All money credited to the fund must be used exclusively to purchase and assemble quantities of lands of sizes and locations that the director determines best fulfill the purposes of this subchapter. Lands acquired with this money are considered to be public reserved lands. The State shall hold and manage these lands subject to the same terms and conditions that apply to other public reserved lands. There is appropriated to pay for this property as much of the funds raised from income designated in subsection 2 and paid into the State Treasury as necessary to pay for the purchase of real property to be held and managed as public reserved lands. The director, with the prior approval of the Governor and the commissioner, shall authorize the State Controller to draw the director's warrant for such a purchase at any time. Any remaining balance must continue from year to year as a fund available only for the purposes of this section.

C. The sale is for fair market value of the parcel as determined by the director, taking into account factors including the effect of ownership of the parcel upon the value of the adjoining private property. [PL 1997, c. 678, §13 (NEW).]

Before making any sale, the director shall make a written finding with respect to the requirements of this subsection. The written finding must be available for public inspection at the director's office during regular working hours.

The measure of damages is the highest price those materials would bring at the usual place of sale of the materials. If the trespass is willful, the court shall assess treble damages and the costs of maintaining the action. For the purposes of this section, a trespass is willful if the land upon which the materials were cut, destroyed or taken, or from which the materials were carried away, was posted with conspicuous notices of state ownership at or near the point where roads entered into the state-owned land; if the land is otherwise posted or identified in a manner reasonably likely to come to the attention of intruders; or if the intruder had actual knowledge of the fact of state ownership.

§1858. Location of public reserved lands

1. Public reserved lands. In every township or plantation existing on October 3, 1973 or organized after that date there must be reserved, as the Legislature directs, 1,000 acres of land, and in the same proportion in all tracts less than a township, for the exclusive benefit of the State. This land must be of average quality, situation and value as to timber and minerals as compared to other land in the township or plantation. Title to these reserved public lots is in the State. All future earnings attributable to those public lots belong to the State to be used for the management and preservation of the public lots as state assets.

[PL 1997, c. 678, §13 (NEW).]

2. Location by agreement. In townships or tracts sold and not incorporated, the public reserved lots may be selected and located by the commissioner and the proprietors by a written agreement describing the reserved lands by metes and bounds, signed by the parties and recorded in the commissioner's office. The plan or outline of the lands selected must be:

A. Entered on the plan of the township or tract in the commissioner's office; and [PL 1997, c. 678, §13 (NEW).]

B. Recorded in the registry of deeds in the county in which the township or tract is located. [PL 1997, c. 678, §13 (NEW).]

[PL 1997, c. 678, §13 (NEW).]

3. Location without agreement. When the commissioner and the proprietors of a tract or township described in subsection 1 can not agree on the location of the public reserved lands, the commissioner may petition the Superior Court in the county where the land lies to appoint a committee of 3 disinterested persons. The court shall issue a warrant under the seal of the court to those persons requiring them to locate the public reserved lot or lots in the township or tract as soon as possible. The public reserved lot or lots must be of average quality compared to other lands in the tract or township.

A. Before taking any action, the members of the committee formed under this subsection must be sworn before a dedimus justice. A certificate of the swearing must be endorsed on the court's warrant. [PL 1997, c. 678, §13 (NEW).]

B. At least 30 days before their first meeting, the members of the committee shall announce their appointment and the time and place of their meeting to perform their duties by:

(1) Publishing a notice in a newspaper of general circulation in the State, to be designated by the court; and

(2) If ordered by the court to do so, posting written notification in 2 or more public places in the same plantation or town. [PL 1997, c. 678, §13 (NEW).]

C. The members of the committee shall make a signed return of the court's warrant and their activity under it to the Superior Court when they have completed their service. Upon acceptance by the court and after being recorded in the registry of deeds in the county or registry district where the land is located, within 6 months, the public reserved lot or lots must be legally assigned and located. [PL 1997, c. 678, §13 (NEW).]

D. In a proceeding for the location of public reserved lots under this subsection, an appeal may be taken to the Law Court as in other actions. [PL 1997, c. 678, §13 (NEW).]

[PL 1997, c. 678, §13 (NEW).]

4. Subdivided lands. When portions or lots are reserved for public uses in a tract of land to be divided, they must first be set out, of an average quality and situation, and a return made of that reserved land to the commissioner's office, with a description of its quality and location. The commissioner's return of partition, accepted and recorded as provided, is a valid location of the reserved lands. [PL 1997, c. 678, §13 (NEW).]

5. Incorporation into town; location. When, in the grant of any townships or parts of townships, certain portions are reserved for public uses and those portions have not been located in severalty before the townships or parts are incorporated into a town, the Superior Court in the county where the land lies, on application of the assessors of the town, may appoint a committee of 3 disinterested persons of the county. The court shall issue a warrant under seal of the court to those persons requiring them to locate the reserved portion according to the terms of the grant as soon as possible. If the use or purpose of the reservation is prescribed in the grant, they shall set off and locate the lots accordingly.

A. Before taking action under the warrant, the members of a committee formed under this section must be sworn to the faithful discharge of the duty assigned them. A certificate of the swearing must be endorsed on the court's warrant. [PL 1997, c. 678, §13 (NEW).]

B. At least 30 days before locating the reserved portions, the members of the committee shall announce their appointment and the time and place of their meeting to perform their duties by publishing a notice in a newspaper of general circulation in the State, to be designated by the court, and by posting written notices in 2 or more public places in the same town. [PL 1997, c. 678, §13 (NEW).]

C. The members of the committee shall make a return of the court's warrant and their activity under it to the Superior Court when they have completed their duties. Upon acceptance by the court and after being recorded in the registry of deeds in the county or registry district where the land is located, within 6 months, the reserved portions must be legally assigned and located. [PL 1997, c. 678, §13 (NEW).]

[PL 1997, c. 678, §13 (NEW).]

6. Criteria for location. Whenever land reserved for public use is located under this subchapter and the commissioner makes the return of partition under subsection 4, the determination as to what

lands are of average quality, situation and value as compared with the other lands in the township must include, but may not be limited to, appropriate consideration of the following criteria:

- A. Contiguity to other public lands; [PL 1997, c. 678, §13 (NEW).]
- B. Public recreation needs; [PL 1997, c. 678, §13 (NEW).]
- C. Accessibility to roads, highways and other transportation; [PL 1997, c. 678, §13 (NEW).]
- D. Proximity to centers of population; [PL 1997, c. 678, §13 (NEW).]
- E. Needs of state agencies; [PL 1997, c. 678, §13 (NEW).]
- F. Scenic quality; [PL 1997, c. 678, §13 (NEW).]
- G. Value as to minerals; [PL 1997, c. 678, §13 (NEW).]
- H. Value as to timber; [PL 1997, c. 678, §13 (NEW).]
- I. The preservation of significant natural, recreation and historic resources, including wildlife habitat and other areas critical to the ecology of the State; and [PL 1997, c. 678, §13 (NEW).]
- J. The provisions of any applicable comprehensive or long-range management plans for the use of those public reserved lands. [PL 1997, c. 678, §13 (NEW).]

[PL 1997, c. 678, §13 (NEW).]

7. Application. Nothing in this section may be construed to require the location of unlocated public reserved lands. The commissioner shall determine the desirability of locating unlocated public reserved lands in the preparation and maintenance of the management plans for the public reserved lands. In those townships in which public reserved lands remain unlocated, the commissioner shall take appropriate steps to ensure that the State receives its proportionate share of common income and that the lands are not subjected to waste by the other cotenants.

[PL 1997, c. 678, §13 (NEW).]

SECTION HISTORY

PL 1997, c. 678, §13 (NEW).

§1859. Funding for educational programs related to logging and forestry

1. Legislative findings. Whereas expenditures from the Public Reserved Lands Management Fund established under section 1849, subsection 2 must be consistent with the public trust limitations embodied in the Constitution of Maine, Article X; and the Constitution of Maine, Article X designates the public lots for the benefit of the schools in this State; and educating new loggers and foresters in the State will help to ensure that the public reserved lands continue to be managed to demonstrate exemplary land management practices, the Legislature declares that authorizing grants under this section is consistent with the Legislature's responsibility as trustee.

[PL 2017, c. 289, §9 (NEW).]

2. Educational grant program established; eligibility. The bureau shall establish, maintain and administer an educational grant program, referred to in this section as "the grant program," and an application system for the grant program to allow an eligible public secondary program, career and technical education program and public postsecondary educational program to apply for an educational grant under the grant program. Only an educational program at a public secondary or public postsecondary educational institution or career and technical education center that is related to logging or forestry, referred to in this section as "an eligible educational program," is eligible to receive funding under the grant program.

[PL 2017, c. 289, §9 (NEW).]

3. Grants; source of funds; limits. An approved eligible educational program may receive grants of up to \$50,000, if available, from the grant program. The source of the funds for the grants is the

Public Reserved Lands Management Fund established under section 1849, subsection 2. Total distributions from the Public Reserved Lands Management Fund under the grant program may not exceed \$300,000 in the 2 fiscal years of the state budget biennium.

[PL 2017, c. 289, §9 (NEW).]

4. Permitted use of funding. An eligible educational program that receives a grant under the grant program may use the grant in more than one year if such an extended use is approved by the bureau during the application process. Grants received through the grant program may be used only for educational purposes, including but not limited to upgrading existing logging equipment. Any grants issued to an eligible educational program must supplement, not supplant, existing school funding.

[PL 2017, c. 289, §9 (NEW).]

5. Participation of regional managers. The bureau shall include managers of any regional public reserved lands units established by the bureau in the process established for approving the distribution of funds to eligible educational programs under the grant program and shall ensure that the managers are involved with, or have the option to be involved with, any eligible educational program that receives funding through the grant program.

[PL 2017, c. 289, §9 (NEW).]

6. Rulemaking. The bureau shall adopt rules to carry out the purposes of this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

SUBCHAPTER 5

SUBMERGED AND INTERTIDAL LANDS

§1861. Submerged Lands Fund

1. Fund established. All revenues from the activities of the bureau under section 1862 must be deposited with the Treasurer of State to be credited to the Submerged Lands Fund, which is established as a nonlapsing, dedicated fund and referred to in this section as the "fund." Any interest earned on this money must be credited to the fund. The fund is administered by the bureau.

[PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

2. Permissible uses. Money credited to the fund may be used to manage submerged lands pursuant to section 1862, provide grants to municipalities pursuant to section 1863 and remove abandoned watercraft pursuant to this subchapter.

[PL 1997, c. 678, §13 (NEW).]

3. Expenditure of funds. Money in the fund must be expended on the operating expenses of the bureau's submerged lands leasing program pursuant to section 1862. Any funds available in excess of the amount needed for the bureau's submerged lands operating expenses must be expended in accordance with section 1863 and this subchapter.

[PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

PL 1997, c. 678, §13 (NEW). PL 2011, c. 657, Pt. W, §7 (REV). PL 2013, c. 405, Pt. A, §24 (REV).

§1862. Submerged and intertidal lands owned by State

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Commercial fishing activity" means any activity involving the landing or processing of shellfish, finfish or other natural products of the sea or other activities directly related to landing or processing shellfish, finfish or natural sea products. "Commercial fishing activity" includes loading or selling those products and fueling. [PL 1997, c. 678, §13 (NEW).]

B. "Dockominium" means slip space that is sold or leased by a lessee of submerged lands to a boat or vessel owner for more than one year. [PL 1997, c. 678, §13 (NEW).]

C. "Fair market rental value," for all uses of submerged lands except slip space rented or otherwise made available for private use for a fee, means the municipally assessed value per square foot for the adjacent upland multiplied by a reduction factor plus a base rate based on the use of the leased submerged land as specified in this section. This value is then multiplied by the square foot area of the proposed lease area to determine the annual rental rate. For slip space rented or otherwise made available for private use for a fee, the fair market rental value is the gross income from that space multiplied by a reduction factor as specified in this section based on the use of the leased submerged land. [PL 2009, c. 316, §1 (AMD); PL 2009, c. 316, §7 (AFF).]

D. "Gross income" means the total annual income received by a lessee from seasonal or transient rental to the general public of slip space over submerged land. For dockominiums, slips that are part of a residential condominium, boat clubs and other facilities with slip space that is not rented or leased to the general public, the director shall determine gross income by calculating a regional average slip space rental fee and applying that to the portion of total linear length of slip space made available to private users for any portion of that year. [PL 1997, c. 678, §13 (NEW).]

D-1. [PL 2009, c. 316, §2 (RP); PL 2009, c. 316, §7 (AFF).]

E. "Occupying," in terms of a structure or alteration, means covering the total area of the structure or alteration itself to the extent that the area within its boundaries is directly on or over the state-owned lands. [PL 1997, c. 678, §13 (NEW).]

E-1. "Offshore project" means a project that extends beyond localized development adjacent to a single facility or property. "Offshore project" includes, but is not limited to, tanker ports, ship berthing platforms requiring secondary transport to shore, an interstate or international pipeline or cable and similar projects. "Offshore project" does not include a shore-based pier, marina or boatyard or utility cable and pipelines serving neighboring communities or islands. "Offshore project" does not include a wind, tidal, wave or other renewable ocean energy project. [PL 2009, c. 615, Pt. B, §1 (AMD).]

F. "Permanent" means occupying submerged and intertidal lands owned by the State during 7 or more months during any one calendar year. [PL 1997, c. 678, §13 (NEW).]

F-1. "Renewable ocean energy project" means one or more of the following located in coastal wetlands, as defined by Title 38, section 480-B, subsection 2:

(1) An offshore wind power project, as defined by Title 38, section 480-B, subsection 6-A or by Title 38, section 482, subsection 8, and with an aggregate generating capacity of 3 megawatts or more;

(2) A community-based offshore wind energy project, as defined by section 682, subsection 19;

(3) A hydropower project, as defined by Title 38, section 632, subsection 3, that uses tidal or wave action as a source of electrical or mechanical power; or

(4) Other development activity that produces electric or mechanical power solely through use of wind, waves, tides, currents, ocean temperature clines, marine biomass or other renewable sources in, on or over the State's coastal waters, as defined by section 6001, subsection 6, to the 3-mile limit of state ownership recognized under the federal Outer Continental Shelf Lands Act, 43 United States Code, Chapter 29, Subchapter III (2009), and that includes both "generating facilities," as defined by Title 35-A, section 3451, subsection 5 and "associated facilities," as defined by Title 35-A, section 3451, subsection 1. [PL 2009, c. 615, Pt. B, §1 (NEW).]

G. "Slip space" means the area adjacent to a pier or float that is used for berthing a boat. [PL 1997, c. 678, §13 (NEW).]

[PL 2009, c. 615, Pt. B, §1 (AMD).]

2. Submerged lands leasing program. The director may conduct a submerged lands leasing program under which, except as otherwise provided by subsection 13, the director may lease, for a term of years not exceeding 30 and with conditions the director considers reasonable, the right to dredge, fill or erect permanent causeways, bridges, marinas, wharves, docks, pilings, moorings or other permanent structures on submerged and intertidal land owned by the State. The director may refuse to lease submerged lands if the director determines that the lease will unreasonably interfere with customary or traditional public access ways to or public trust rights in, on or over the intertidal or submerged lands and the waters above those lands.

A. For fill, permanent causeways, bridges, marinas, wharves, docks, pilings, moorings or other permanent structures and for nonpermanent structures occupying a total of 500 square feet or more of submerged land or occupying a total of 2,000 square feet or more of submerged land if used exclusively for commercial fishing activities:

(1) Except as otherwise provided by subsection 13, the director shall charge the lessee a rent that practically approximates the fair market rental value of the submerged land. The reduction factors and base rate for use categories are as follows:

(a) A reduction factor of 0% with no base rate or rental fee for nonprofit organizations or publicly owned facilities that offer free public use or public use with nominal user fees. Public uses include, but are not limited to, municipal utilities and facilities that provide public access to the water, town wharves, walkways, fishing piers, boat launches, parks, nature reserves, swimming or skating areas and other projects designed to allow or enhance public recreation, fishing, fowling and navigation and for which user fees are used exclusively for the maintenance of the facility;

(b) A reduction factor of 0.1% plus a base rate of \$0.025 per square foot for commercial fishing uses of renewable aquatic resources. Commercial uses of renewable aquatic resources include, but are not limited to, facilities that are directly involved in commercial fishing activities. Such facilities include, but are not limited to, fish piers, lobster impoundments, fish processing facilities and floats or piers for the storage of gear;

(c) A reduction factor of 2% for any slip space rented or otherwise made available for private use by commercial fishing boats for a fee;

(d) A reduction factor of 0.2% plus a base rate of \$0.05 per square foot for water-dependent commerce, industry and private uses. Water-dependent commerce, industry and private uses other than commercial uses of renewable aquatic resources include, but are not limited to, all facilities that are functionally dependent upon a waterfront location, can not reasonably be located or operated on an upland site or are essential to the operation of the

marine industry. Such facilities include, but are not limited to, privately owned piers and docks, cargo ports, private boat ramps, shipping and ferry terminals, tug and barge facilities, businesses that are engaged in watercraft construction, maintenance or repair, aquariums and the area within marinas occupied by service facilities, gas docks, breakwaters and other structures not used for slip space;

(e) A reduction factor of 4% for any slip space rented or otherwise made available for private use for recreational boats for a fee; and

(f) A reduction factor of 0.2% for upland uses and fill located on submerged lands prior to July 1, 2009 and 0.4% for new upland uses and fill after July 1, 2009 plus a base rate of \$0.05 per square foot. Upland uses include, but are not limited to, all uses that can operate in a location other than on the waterfront or that are not essential to the operation of the marine industry. These facilities include, but are not limited to, residences, offices, restaurants and parking lots. Fill must include the placement of solid material other than pilings or other open support structures upon submerged lands.

If the director determines that the municipally assessed value of the adjacent upland is not an accurate indicator of the value of submerged land, the director may make adjustments in the municipally assessed value so that it more closely reflects the value of comparable waterfront properties in the vicinity or require the applicant to provide an appraisal of the submerged land. The appraisal must be approved by the director.

For offshore projects where municipally assessed value for the adjacent upland or submerged lands appraisals are unavailable or the director determines that such assessment or appraisals do not accurately indicate the value of the submerged land, the director may establish the submerged lands annual rental rate and other public compensation as appropriate by negotiation between the bureau and the applicant. In such cases the annual rent and other public compensation must take into account the proposed use of the submerged lands, the extent to which traditional and customary public uses may be diminished, the public benefit of the project, the economic value of the project and the avoided cost to the applicant. If the State's ability to determine the values listed in this paragraph or to carry out negotiations requires expertise beyond the program's capability, the applicant must pay for the costs of contracting for such expertise;

(2) After October 1, 1990, the director may revalue all existing rents to full fair market rental value. Rents for all uses except slip space may be adjusted annually as needed over a period not to exceed 5 years until the full fair market rental value is reached. After the full fair market rental value is reached, the director may revalue rents for all uses except slip space every 5 years based on changes in municipally assessed value and programmatic cost adjustments to the base rate. Adjustments to the base rate may not exceed 4% per year. Rents for slip space may fluctuate annually depending on the gross income of the facility;

(3) Except as otherwise provided by subsection 13, the director may also lease a buffer zone of not more than 30 feet in width around a permanent structure located on submerged or intertidal land, as long as the lease is necessary to preserve the integrity and safety of the structure and that the Commissioner of Marine Resources consents to that lease;

(4) Any existing or proposed lease may be subleased for the period of the original lease for the purpose of providing berthing space for any boat or vessel;

(5) No portion of an existing or proposed lease may be transferred from a person subleasing that portion to provide berthing space for any boat or vessel except for a transfer to heirs upon death of the sublessee holder or a transfer to the original leaseholder subject to terms agreed to by the lessor and sublessee at the time of the sublease. This subparagraph does not apply to any subleasing arrangements entered into before June 15, 1989; and

(6) The director may grant the proposed lease if the director finds that, in addition to any other findings that the director may require, the proposed lease:

- (a) Will not unreasonably interfere with navigation;
- (b) Will not unreasonably interfere with fishing or other existing marine uses of the area;
- (c) Will not unreasonably diminish the availability of services and facilities necessary for commercial marine activities; and
- (d) Will not unreasonably interfere with ingress and egress of riparian owners. [PL 2009, c. 615, Pt. B, §1 (AMD); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

B. For dredging, impounded areas and underwater cables and pipelines, the director shall develop terms and conditions the director considers reasonable. [PL 1997, c. 678, §13 (NEW).]

C. The director shall charge an administrative fee of \$100 for each lease in addition to any rent. A fee of \$200 must be charged for a lease application that is received after work has begun for the proposed project. [PL 2003, c. 254, §1 (AMD).]

D. Except as otherwise provided by subsection 13, the minimum rent to which any lease is subject is \$150 per year. [PL 2009, c. 615, Pt. B, §1 (AMD).]

E. [PL 2007, c. 540, §1 (AMD); MRSA T. 12 §1862, sub-§2, ¶E (RP).]

F. Within 15 days of receipt of a copy of an application submitted to the Department of Environmental Protection for a general permit under Title 38, section 480-HH or Title 38, section 636-A, the director shall, if requested by the applicant, provide the applicant a lease option, to be effective on the date of receipt of the application, for use of state-owned submerged lands that are necessary to fulfill the project purposes as identified in the application. Within 30 days of receiving notice and a copy of a general permit granted pursuant to Title 38, section 480-HH or Title 38, section 636-A, the director shall waive the review procedures and standards under this section and issue a submerged lands lease for the permitted activity. The term of the lease must be consistent with that of the permit, including any extension of the permit, and the period of time needed to fully implement the project removal plan approved pursuant to Title 38, section 480-HH or Title 38, section 636-A, as applicable. The director may include lease conditions that the director determines reasonable, except that the conditions may not impose any requirement more stringent than those in a permit granted under Title 38, section 480-HH or Title 38, section 636-A, as applicable, and may not frustrate achievement of the purpose of the project. [PL 2009, c. 270, Pt. B, §1 (NEW).]

In making findings pursuant to this subsection regarding a renewable ocean energy project, the director shall adopt all pertinent findings and conclusions in a permit issued for the project pursuant to chapter 206-A or pursuant to Title 38, chapter 3, subchapter 1, article 5-A or 6 or Title 38, chapter 5, subchapter 1, article 1, subarticle 1-B, as applicable, and may condition issuance of a lease for such a project on receipt of all pertinent approvals by the Department of Environmental Protection or the Maine Land Use Planning Commission, as applicable, and other conditions the director considers reasonable. [PL 2009, c. 615, Pt. B, §1 (AMD); PL 2011, c. 657, Pt. W, §7 (REV); PL 2011, c. 682, §38 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

2-A. Lease renewal. A lessee who is in compliance with all terms of that person's lease may apply at any time to renew the lease. The director shall approve the lease renewal if the existing lease complies with or can be amended to comply with all applicable laws, rules and public trust principles in effect at the time of the renewal application. This subsection applies to all leases in effect on the effective date of this subsection and to all leases executed on or subsequent to the effective date of this subsection.

[PL 1997, c. 678, §13 (NEW).]

3. Easements. The director may grant, upon terms and conditions the director considers reasonable, assignable easements for a term not to exceed 30 years for the use of submerged and intertidal lands for the purposes permitted in subsection 2. The grantee shall pay an administrative fee of \$100 for each easement at the time of processing and a registration fee of \$50 due every 5 years. An administrative fee of \$200 must be charged for an easement application that is received after work has begun for the proposed project. The director may refuse to grant an easement for the use of submerged and intertidal lands if the director determines that the easement will unreasonably interfere with customary or traditional public access ways to or public trust rights in, on or over the intertidal or submerged lands and the waters above those lands. The director may grant an easement for submerged and intertidal lands if a structure:

A. Is for the exclusive benefit of the abutting upland owner for charitable purposes as defined in the United States Internal Revenue Code, Section 501, (c) (3); [PL 1997, c. 678, §13 (NEW).]

B. Occupies a total of not more than 500 square feet of submerged and intertidal land for any lawful purpose and is permanent; or [PL 1997, c. 678, §13 (NEW).]

C. Occupies a total of not more than 2,000 square feet of submerged and intertidal land for the exclusive purpose of commercial fishing activities and is permanent. [PL 1997, c. 678, §13 (NEW).]

[PL 2003, c. 254, §2 (AMD).]

4. Adjustment of terms. The director may adjust from time to time, consistent with the provisions of this section, conditions applicable to any leasehold or easement entered into under this section in any parcel of state-owned submerged or intertidal land. Rent may not be charged for leases entered into before July 1, 1984 if the actual use of the leased land is eligible for an easement under subsection 3. [PL 1997, c. 678, §13 (NEW).]

5. Review of uses. In the case of easements, the director shall review from time to time the purposes for which the land conveyed has actually been used, and, in the event any such purpose is found to be inconsistent with the criteria set forth in subsection 3 for eligibility for an easement, the easement must terminate and the director may enter into a leasehold agreement with the holder of the easement in accordance with subsection 2. [PL 1997, c. 678, §13 (NEW).]

6. Constructive easements. The owner of any structure actually upon submerged and intertidal lands on October 1, 1975 is deemed to have been granted a constructive easement for a term of 30 years on the submerged land directly underlying the structure. Beginning on January 1, 1991, the bureau shall undertake a registration program for all structures granted constructive easements. Constructive easements are subject to administrative and registration fees for easements pursuant to subsection 3. The director shall develop procedures, rules and registration forms necessary to accomplish the purposes of this subsection. The bureau shall complete the registration of constructive easements on or before December 31, 1996. [PL 1997, c. 678, §13 (NEW).]

7. Consultation. The director shall consult with the commissioner, the Commissioner of Marine Resources, the Commissioner of Inland Fisheries and Wildlife and any other agencies or organizations the director considers appropriate in developing and implementing terms, conditions and consideration for conveyances under this section. When rental terms under subsection 13 for a renewable ocean energy project are at issue, the director also shall consult with the Public Utilities Commission. The director may determine to make proprietary conveyances under this section solely on the basis of the issuance of environmental or regulatory permits by other appropriate state agencies. [PL 2009, c. 615, Pt. B, §1 (AMD).]

8. Rules.
[PL 2001, c. 604, §12 (RP).]

9. Public compensation. Except as otherwise provided by subsection 13, with respect to any lease, including, but not limited to, leases for offshore projects, when the director determines that the public should be compensated for the loss or diminution of traditional and customary public uses resulting from the activities proposed by the lessee, the director may negotiate with the lessee to provide public access improvements such as walkways, boat launching ramps, parking space or other facilities or negotiate a fee in lieu of such improvements as a condition of the lease. The determination of loss or diminution of traditional and customary public uses and appropriate public compensation must be made in consultation with local municipal officials.

[PL 2009, c. 615, Pt. B, §1 (AMD).]

10. Aquaculture exemption. A lease for the use of lands under this section is not required for the development and operation of any aquaculture facility if the owner or operator of the facility has obtained a lease from the Commissioner of Marine Resources under section 6072. Ancillary equipment and facilities permanently occupying submerged lands on the lease site and not explicitly included in the lease granted by the Commissioner of Marine Resources are not exempt from the requirements of this section.

[PL 1997, c. 678, §13 (NEW).]

11. Revenues. Except as otherwise provided by subsection 13, all revenues from the bureau's activities under this section accrue to the Submerged Lands Fund established in section 1861.

[PL 2009, c. 615, Pt. B, §1 (AMD); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

12. Annual report dealing with submerged lands. The bureau shall prepare and submit a written report on or before March 1st of each year to the joint standing committee of the Legislature having jurisdiction over submerged lands matters. The report must include the following information:

A. A complete account of the income and expenditures pertaining to submerged lands during the preceding fiscal year; [PL 2013, c. 256, §9 (AMD).]

B. A summary of the bureau's management activities during the preceding fiscal year regarding leases, easements and other appropriate subjects; [PL 2013, c. 256, §10 (AMD); PL 2013, c. 405, Pt. A, §24 (REV).]

C. A summary of any Shore and Harbor Management Fund grants made under section 1863; and [PL 1997, c. 678, §13 (NEW).]

D. A description of the proposed budget, including allocations for the bureau's dedicated funds and any revenues of the bureau from leases and easements for the following fiscal year. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

The joint standing committee of the Legislature having jurisdiction over submerged lands matters shall review the report and submit a written recommendation regarding the bureau's proposed budget to the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs on or before March 15th of each year.

[PL 2013, c. 256, §§9, 10 (AMD); PL 2013, c. 405, Pt. A, §24 (REV).]

13. Special provisions regarding renewable ocean energy projects. The provisions in this subsection govern renewable ocean energy projects.

A. The Legislature finds that:

(1) The State's coastal waters and submerged lands provide unique and valuable opportunities for development of wind and tidal power and, potentially, other indigenous, renewable ocean energy resources, such as wave power;

- (2) Climate change and related degradation or loss of marine resources and related human uses make development of and transition to use of renewable ocean energy resources consistent with sound stewardship of the State's public trust resources;
 - (3) Proper and efficient functioning of certain generation and associated facilities that use the energy potential of the State's indigenous, renewable ocean energy resources depends upon their deployment in a marine environment and, accordingly, such facilities may to the extent necessary be located in, on or over state-owned submerged lands; and
 - (4) With appropriate provision for avoidance and minimization of and compensation for harm to existing public trust-related uses and resources, such as fishing and navigation; consideration of potential adverse effects on existing uses of the marine environment; restoration of affected lands upon completion of authorized uses pursuant to permitting criteria; and adequate compensation to the public for use of its trust resources pursuant to state submerged lands leasing criteria, development of these renewable ocean energy resources in appropriate locations promises significant public trust-related benefits to the people of this State for whom the State holds and manages submerged lands and their resources. [PL 2009, c. 615, Pt. B, §1 (NEW).]
- B. In accordance with the findings in paragraph A, the following provisions apply to an application for a lease or easement for a renewable ocean energy project.
- (1) No more than 30 days prior to filing applications in accordance with this paragraph, an applicant for a lease or easement for a renewable ocean energy project shall participate in a joint interagency preapplication meeting that includes the Department of Marine Resources and is in accordance with permitting procedures of the Department of Environmental Protection or the Maine Land Use Planning Commission, as applicable.
 - (2) An applicant for a lease or easement for a renewable ocean energy project must file and certify to the director that it has filed completed applications for requisite state permits under chapter 206-A or Title 38, chapter 3, subchapter 1, article 5-A or 6 or Title 38, chapter 5, subchapter 1, article 1, subarticle 1-B, as applicable, prior to or concurrently with submission of its submerged lands lease application under this section and shall provide a copy of any such applications to the director upon request.
 - (3) The director shall provide notice to the Marine Resources Advisory Council under section 6024 and any lobster management policy council established pursuant to section 6447 in whose or within 3 miles of whose designated lobster management zone created pursuant to section 6446 the proposed development is located. The Marine Resources Advisory Council and any lobster management policy council notified pursuant to this subparagraph may provide comments within a reasonable period established by the director, and the director shall consider the comments in making findings pursuant to subsection 2, paragraph A, subparagraph (6).
 - (4) The director may issue a lease or easement for a hydropower project, as defined in Title 38, section 632, subsection 3, that uses tidal or wave action as a source of electrical or mechanical power, for a term not to exceed 50 years, as long as the lease term is less than or equal to the term of the license for the project issued by the Federal Energy Regulatory Commission.
 - (5) If requested by an applicant, and with provision for public notice and comment, the director may issue one or more of the following for a renewable ocean energy project prior to issuance of a 30-year lease for the project:
 - (a) A lease option, for a term not to exceed 2 years, that establishes that the leaseholder, for purposes of consideration of its application for state permit approvals under chapter 206-A or Title 38, chapter 3, subchapter 1, article 5-A or 6 or Title 38, chapter 5, subchapter

1, article 1, subarticle 1-B, as applicable, has title, right or interest in a specific area of state submerged lands needed to achieve the purposes of the project as described in conceptual plans in the lease application;

(b) A submerged lands lease, for a term not to exceed 3 years, that authorizes the leaseholder to undertake feasibility testing and predevelopment monitoring for ecological and human use impacts as described in conceptual plans in the lease application and conditioned on receipt of requisite federal, state and local approvals; and

(c) A submerged lands lease, for a term not to exceed 5 years, that authorizes the leaseholder to secure requisite federal, state and local approvals and complete preoperation construction, as long as the applicant provides detailed development plans describing all operational conditions and restrictions.

(6) Except as otherwise provided in this paragraph, the annual rent for a wind energy demonstration project for which a general permit has been issued under Title 38, section 480-HH is \$10,000 per year for the term of the general permit. The annual rent for a tidal energy demonstration project for which a general permit has been issued under Title 38, section 636-A is \$100 per acre of submerged lands occupied by the project for the term of the general project, except that the annual rent may not exceed \$10,000. As used in this paragraph, "submerged lands occupied" includes the sum of the area on which turbines, testing and monitoring equipment, anchoring or mooring lines, submerged transmission cables or other structures are placed and any additional area from which the director finds it necessary to exclude transient public trust uses to avoid unreasonable interference with the project's purposes. An annual rent is not required for an offshore wind energy demonstration project located in the Maine Offshore Wind Energy Research Center, as designated by the department under section 1868, subsection 2.

(7) The director shall charge a lessee an annual rent in accordance with a fee schedule, established by the bureau by rule, that balances state goals of assurance of fair compensation for use and mitigation of potential adverse effects on or conflict with existing uses of state-owned submerged lands that are held in trust for the people of the State with state renewable ocean energy-related goals, including state wind energy generation goals established in Title 35-A, section 3404, subsection 2. Rules adopted pursuant to this subparagraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

(8) The director may not require additional public compensation pursuant to subsection 9.

(9) The director may issue a lease for a buffer zone comprising a land or water area around permanent structures located on submerged or intertidal land if:

(a) The director determines such a buffer zone is necessary to preserve the integrity or safety of the structure or fulfill the purposes of the project; and

(b) The director consults with the Commissioner of Marine Resources regarding the need for such a buffer, its location and size and options to minimize its potential effects on existing uses. 14. Prohibition on oil and natural gas exploration, development and production.

Notwithstanding any other provision of law to the contrary, the director may not permit, approve or otherwise authorize any oil or natural gas exploration, development or production in, on or under the submerged and intertidal land owned by the State.

As used in this subsection, "development" has the same meaning as in Title 38, section 570-AA, subsection 1; "exploration" has the same meaning as in Title 38, section 570-AA, subsection 2; and "production" has the same meaning as in Title 38, section 570-AA, subsection 3.

§1863. Shore and Harbor Management Fund

1. Creation of fund. The Shore and Harbor Management Fund, referred to in this section as the "fund," is established as a nonlapsing fund to support shore and harbor management improvement activities. The fund is administered by the director.

[PL 1997, c. 678, §13 (NEW).]

2. Purpose. The purpose of the fund is to support shore and harbor management improvement activities by providing grants to municipalities and funds to state agencies. These activities include but are not limited to the development of harbor management plans and public access facilities. A portion of the fund, not to exceed 25% of available revenues, may be used to support management programs on state-owned coastal islands under the jurisdiction of the bureau.

3. Fund sources. Annual revenues, less funds deposited in the Renewable Ocean Energy Trust pursuant to section 1863-A and operating expenses from the submerged and intertidal lands program and the abandoned watercraft program and conveyances of submerged and intertidal lands by the Legislature, must be deposited in the fund.

[PL 2009, c. 615, Pt. B, §2 (AMD).]

4. Administration. The director shall develop criteria for awarding grants under this section. Money in the fund not immediately required pursuant to this section must be invested by the Treasurer of State as authorized by Title 5, section 138. Interest on these investments must be credited to the fund.

[PL 2009, c. 615, Pt. B, §3 (NEW).]

2. Administration. The Treasurer of State shall administer the trust as provided in this section.

[PL 2009, c. 615, Pt. B, §3 (NEW).]

3. Sources of funds. The following funds must be transferred on receipt to the Treasurer of State for deposit in the trust:

A. Eighty percent of the submerged lands leasing rental payments for renewable ocean energy projects under section 1862, subsection 13 and offshore wind energy demonstration projects and tidal energy demonstration projects for which a general permit has been issued under Title 38, section 480-HH or Title 38, section 636-A, respectively; and [PL 2009, c. 615, Pt. B, §3 (NEW).]

B. The State's share, pursuant to 43 United States Code, Section 1337(p)(2)(B), of federal revenues from alternative energy leasing. [PL 2009, c. 615, Pt. B, §3 (NEW).]
[PL 2009, c. 615, Pt. B, §3 (NEW).]

4. Disbursement of funds; required uses. The Treasurer of State shall annually disburse the funds in the trust for credit to the Ocean Energy Fund established within the Department of Marine Resources, in consultation with the Marine Resources Advisory Council established under section 6024, for use as follows:

A. Fifty percent to fund research, monitoring and other efforts to avoid, minimize and compensate for potential adverse effects of renewable ocean energy projects, as defined in section 1862, subsection 1, paragraph F-1, on noncommercial fisheries, seabirds, marine mammals, shorebirds, migratory birds and other coastal and marine natural resources, including but not limited to development, enhancement and maintenance of map-based information resources developed to guide public and private decision making on siting issues and field research to provide baseline or other data to address siting issues presented by renewable ocean energy projects. The department shall consult with the Department of Inland Fisheries and Wildlife in allocating funds it receives pursuant to this paragraph; and [PL 2011, c. 655, Pt. KK, §12 (AMD); PL 2011, c. 655, Pt. KK, §34 (AFF).]

B. Fifty percent to fund resource enhancement, research on fish behavior and species abundance and distribution and other issues and other efforts to avoid, minimize and compensate for potential adverse effects of renewable ocean energy projects, as defined in section 1862, subsection 1, paragraph F-1, on commercial fishing and related activities. §1864. Submerged Lands Advisory Board

(REPEALED)

SECTION HISTORY

PL 1997, c. 678, §13 (NEW). PL 2011, c. 344, §17 (RP).

§1865. Filled submerged and intertidal lands

1. Legislative intent; purpose. The Legislature finds that the ownership of certain areas along the State's coast and great ponds is uncertain because portions of the submerged and intertidal lands have been filled in so as now not to be subject to tidal action or below water. These lands were filled prior to the enactment of Public Law 1975, chapter 287, the Submerged Lands Act, as recodified by Public Law 1979, chapter 545. It appears that prior to the enactment of the Submerged Lands Act, and to some degree afterwards, these filled-in portions of the submerged or intertidal lands have been sold, leased, taxed and otherwise treated in good faith by municipalities and private citizens as if they were owned in fee by private parties. Due to the lack of readily available documentation of the natural low-water and high-water marks in most areas along the coast and great ponds, the process of setting the boundaries between submerged or intertidal lands and the upland would consume enormous time and expense for the State and the private parties.

The Legislature recognizes that the submerged lands are owned by the State for the benefit of the public. These lands are impressed with a public trust. This ownership and public trust is derived from the Massachusetts Colonial Ordinance of 1641-1647. As a result, submerged land is not, like ordinary private land, held in fee simple absolute but is impressed with the public trust, which gives the public's representatives an interest and responsibility in its development.

The Legislature finds that those portions of the submerged and intertidal lands that have been filled prior to October 1, 1975, the date the Submerged Lands Act was effective, are substantially valueless for trust uses and such lands may be disposed of without impairment of the public trust in what remains. The public benefit will be promoted by clarifying the status of real estate titles to such filled lands, thereby permitting full use and development.

[PL 1997, c. 678, §13 (NEW).]

2. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Filled land" means portions of the submerged and intertidal lands that have been rendered by human activity to be no longer subject to tidal action or below the natural low-water mark on October 1, 1975. [PL 1997, c. 678, §13 (NEW).]

B. "Intertidal land" means all land affected by the tides between natural high-water mark and either 100 rods seaward therefrom or the natural low-water mark, whichever is closer to the natural high-water mark. [PL 1997, c. 678, §13 (NEW).]

C. "Person" means individuals, partnerships, corporations and other private legal entities, but does not include the State and its political or government subdivisions or the Federal Government. [PL 1997, c. 678, §13 (NEW).]

D. "Submerged land" means all land affected by the tides seaward of the natural low-water mark or 100 rods from the natural high-water mark, whichever is closer to natural high-water mark and all land below natural low-water mark under great ponds. [PL 1997, c. 678, §13 (NEW).]

[PL 1997, c. 678, §13 (NEW).]

3. Declaration of clear title. Titles to properties and lands that once were or may have been submerged or intertidal lands subject to the State's ownership in public trust that were filled by October 1, 1975 are declared and released to the owners of any such filled lands by the State free of any claimed ownership in public trust to the extent the areas of these properties and lands were not submerged or intertidal lands on that date.

[PL 1997, c. 678, §13 (NEW).]

4. Confirmation. Any person claiming an interest in such land may seek confirmation from the bureau that particular land is filled land and receive a declaration that may be filed in the appropriate registry of deeds. Such confirmation may not be construed to create any rights of ownership in any person per se but is declaratory of the status of the land as to whether it had been filled by October 1, 1975. The application for confirmation must be filed on a form prescribed by the bureau, which must contain the following information:

A. Name and address of applicant; [PL 1997, c. 678, §13 (NEW).]

B. An accurate legal description of the filled land, proof that the land was filled by October 1, 1975 and sufficient details, such as a survey by a registered land surveyor, to locate the filled land on a map of general acceptability; [PL 1997, c. 678, §13 (NEW).]

C. The acreage of the filled land; [PL 1997, c. 678, §13 (NEW).]

D. The date acquired; [PL 1997, c. 678, §13 (NEW).]

E. Evidence that written notice of the application for confirmation has been sent to any other owners of record; and [PL 1997, c. 678, §13 (NEW).]

F. Other information necessary for the purposes of this section. [PL 1997, c. 678, §13 (NEW).]

A filing fee of \$50 must accompany each application to cover administrative costs. The money must be deposited and disbursed in accordance with section 1849 to accomplish the purposes of this section. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

5. Filing. The following provisions apply to filing.

A. The application may be filed with the bureau at any time. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

B. If the applicant demonstrates that the land is filled land as defined in subsection 2, paragraph A, the director shall issue a declaration to that effect. The director shall respond to the application within 30 days of the date the application is received by the director. [PL 1997, c. 678, §13 (NEW).]

[PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

6. Termination of leases. Any leases entered into by the director pursuant to section 1862 for filled land are terminated. Lessees may not be reimbursed for rental paid under such leases. [PL 1997, c. 678, §13 (NEW).]

7. Operation of this section; retroactive date. This section does not create a cause of action on behalf of any person against the State for damages or otherwise arising out of state ownership of lands before December 25, 1981. A declaration of confirmation by the bureau pursuant to subsection 4 does not constitute a decision by the State as to which claimant, if any, may have title, and the State, its officers, agents and employees are not liable to any person by reason of having made or having refused to make such a declaration. Failure to apply for or receive confirmation or a declaration under subsection 4 does not affect any rights granted or released by this section. This section may not be construed to affect the rules of law otherwise in force relating to accretion or reliction of filled or other lands along the great ponds or the coast, nor to either convey or release rights or interest acquired by the State in filled lands by gift, purchase or the power of eminent domain or to affect any obligations, rights or liabilities created by the operation of Title 38, sections 480-B to 480-F, 480-Q and 480-R or by permits issued under those sections. This section is retroactive to October 1, 1975. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

§1866. Abandoned watercraft

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Abandoned watercraft" means any watercraft that is inoperative and neglected, submerged or partially submerged or that has been left by the owner in coastal waters without intention of removal. This term includes motors, electronic and mechanical equipment and other machinery customarily used in the operation of watercraft. [PL 1997, c. 678, §13 (NEW).]

B. "Coastal waters" means those waters within the jurisdiction of the State under Title 1, section 2, including intertidal land as defined in section 572. [PL 1997, c. 678, §13 (NEW).]

C. "Owner" means the person who claims lawful possession of a watercraft by legal title or equitable interest in the watercraft. [PL 1997, c. 678, §13 (NEW).]

D. "Watercraft" means any type of vessel, boat, barge, float or craft 20 or more feet in length that is used or capable of use as a means of transportation on water. "Watercraft" includes seaplanes. [PL 1997, c. 678, §13 (NEW).]
[PL 1997, c. 678, §13 (NEW).]

2. Eligibility. An abandoned watercraft is subject to removal under this section only under the following conditions.

A. A permit under Title 38, section 9 has not been granted by the municipal board or commission entrusted with harbor management for the area. [PL 1997, c. 678, §13 (NEW).]

B. A landowner has not granted permission to a watercraft owner to abandon a watercraft on that landowner's property. [PL 1997, c. 678, §13 (NEW).]

C. Notice has been given the director within 120 days of the date that the municipal board or commission determines, in its opinion, that the watercraft has been abandoned. [PL 2003, c. 254, §4 (AMD).]

D. [PL 2003, c. 254, §4 (RP).]

Watercraft that have been abandoned prior to July 1, 1993 are not subject to removal under this section. The municipal board or commission entrusted with harbor management is responsible for the notice requirements under this subsection. [PL 2003, c. 254, §4 (AMD).]

3. Ownership. The municipal board or commission entrusted with harbor management shall attempt to determine the owner of a watercraft considered by that body to be abandoned. [PL 1997, c. 678, §13 (NEW).]

4. Responsibility of the director. The director is responsible for the following.

A. After notification under subsection 2, the director shall investigate any report of an abandoned watercraft and give notice to the owner if an owner can be identified. The notice must require the owner to respond within 15 days and to remove the watercraft from the coastal waters within 60 days of notification by the director or, if the watercraft is icebound, within 60 days of ice-out in the body of water where the watercraft is located. If the owner of a watercraft to whom the director has given notice does not respond to the notice and remove the watercraft within the time period specified or the owner can not be identified or contacted, the director may initiate removal of the watercraft. [PL 2003, c. 254, §5 (AMD).]

B. Beginning July 1, 1993 the director shall establish and implement, subject to available funding, a program to remove from coastal waters those abandoned watercraft that have been reported under subsection 3. The program must provide that, if another government agency is responsible for removal of an abandoned watercraft, the director shall notify that agency of the existence of that abandoned watercraft. Funding for removal by the director comes from funds available from the Submerged Lands Fund established under section 1861. [PL 1997, c. 678, §13 (NEW).]

C. The director may authorize a 3rd party to remove abandoned watercraft if the director is satisfied that the work will be completed. Ninety-five percent of the proceeds from the sale of the salvaged watercraft accrue to the 3rd party and 5% accrue to the Submerged Lands Fund established under section 1861. [PL 1997, c. 678, §13 (NEW).]

D. Notwithstanding the time periods for owner removal specified in paragraph A, if the director determines at any time that a watercraft is a health or safety hazard, the director may immediately remove the watercraft from the coastal waters. [PL 1997, c. 678, §13 (NEW).]

E. If the director removes a watercraft from coastal waters under this subsection, the director may sell the watercraft. Any proceeds from the sale must first be applied to the costs to the State directly

related to the expense of removal of the watercraft. Any money that remains may be applied to any liens against the watercraft. Money that finally remains must accrue to the Submerged Lands Fund established under section 1861. [PL 1997, c. 678, §13 (NEW).]

F. Abandoned watercraft located on intertidal land may not be removed by the director without the permission of the landowner. [PL 1997, c. 678, §13 (NEW).]

G. The director may adopt rules governing abandoned watercraft in accordance with Title 5, chapter 375. [PL 1997, c. 678, §13 (NEW).]

[PL 2003, c. 254, §5 (AMD).]

5. Method of removal. The method of removal of abandoned watercraft, whether by the owner, by a 3rd party or by the State, must comply with all state and federal environmental laws. [PL 1997, c. 678, §13 (NEW).]

6. Civil action. If the State is not compensated for removal costs under the provisions of subsection 4, the State may bring a civil action against the owner of the abandoned watercraft to cover any cost of state removal of the abandoned watercraft from coastal waters. The court in its discretion may award an additional 50% of the cost of removal. The penalty is payable to the submerged lands leasing program pursuant to section 1862.

[PL 1997, c. 678, §13 (NEW).]

§1867. Sunken logs on submerged lands owned by State

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Log" means a portion of the trunk of a felled tree that has not been further processed for any end use. [PL 1997, c. 678, §13 (NEW).]

A-1. "Pulpwood" means a portion of a tree intended for use in the paper-making process. [PL 2001, c. 391, §1 (NEW).]

B. "Salvage" means any activity involved in the retrieval of sunken logs or pulpwood from submerged land. [PL 2001, c. 391, §2 (AMD).]

[PL 2001, c. 391, §§1, 2 (AMD).]

2. Title to sunken logs. The State reserves to itself title and ownership to all logs resting on submerged lands that are owned by the State.

[PL 1997, c. 678, §13 (NEW).]

3. Salvage and sale of sunken logs. The director may conduct a sunken log salvage program under which the director may issue a permit for the salvage of sunken logs on submerged lands owned by the State. The director may sell logs salvaged under the sunken log salvage program. Prior to conducting a log salvage operation on submerged lands, a person must obtain a sunken log salvage permit from the bureau and must obtain all other applicable permits from the appropriate local, state and federal agencies with jurisdiction over this activity. The bureau may not issue a permit for this activity if the director finds that the proposed sunken log salvage operations may unreasonably interfere with customary or traditional public access to or public trust rights or uses in, on or over the intertidal or submerged lands and the waters above those lands.

[PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

4. Rules.

[PL 2001, c. 604, §13 (RP).]

5. Revenues. The director shall charge an application fee of \$100 for each permit. The director may establish reasonable prices for the sale of salvaged logs. All revenues from the bureau's activities under this section accrue to the Submerged Lands Fund established in section 1861. [PL 1997, c. 678, §13 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

6. Pulpwood salvage exemption. A person who has been granted a charter or other specific authorization by the Legislature prior to June 30, 1998 to erect and maintain piers and booms to collect and store pulpwood in waters over submerged lands may salvage the pulpwood stored in compliance with that charter and is exempt from subsections 3 and 5 and rules pertaining to pulpwood salvage adopted under section 1803, as long as, prior to conducting a pulpwood salvage operation, that person:

- A. Provides documentation satisfactory to the bureau of the legislative charter or approval specifically authorizing pulpwood storage at the proposed salvage site; [PL 2001, c. 391, §3 (NEW); PL 2011, c. 657, Pt. W, §7 (REV); PL 2013, c. 405, Pt. A, §24 (REV).]

- (6) A stand table indicating species composition, size class and health of the original and residual stands;
- (7) The expected date of reentry;
- (8) A pesticide or other chemical treatment planned, excluding the use of herbicides before December 1, 1990; and

A request for approval on a form provided by the bureau must be completed and signed by the applicant. This paragraph may not be construed to excuse the applicant from obtaining other permits required by law. [PL 2003, c. 452, Pt. F, §5 (NEW); PL 2003, c. 452, Pt. X, §2 (AFF); PL 2011, c. 657, Pt. SUBCHAPTER 7

MAINE TRAILS SYSTEM

§1892. Maine Trails System

The director shall establish trails on state-owned lands and encourage the establishment of trails on private lands by government agencies and private organizations. The director is authorized to negotiate and acquire any interests determined necessary to establish and protect trails and, after consultation with interested parties, to designate certain trails as components of the Maine Trails System. In order to satisfy the purposes of this subchapter, the elements of any trail corridor must include a right-of-way and may include facilities and buffer areas. The director may acquire fee or lesser interest, such as scenic easement, in the rights-of-way and less-than-fee interest in buffer areas adjacent to the rights-of-way in order to protect the trails from incompatible developments. In all cases, such interest must be acquired to ensure both access to the trail and maintenance of appropriate conditions. [PL 1997, c. 678, §13 (NEW).]

If all reasonable efforts to acquire lands or interests therein by negotiation have failed and public exigency requires it, the director, with the consent of the Governor and the commissioner, may utilize the power of eminent domain to acquire any land determined necessary to provide passage via the most direct or practicable connecting trail right-of-way across such lands; however, not more than 25 acres in any one mile may be acquired without consent of the owner and that owner and adjacent landowners may not be precluded from using motorized vehicles across such trails to maintain reasonable access to their fee or other interests in land. The right of eminent domain may not be exercised without prior review by the joint standing committee of the Legislature having jurisdiction over conservation matters. [PL 2009, c. 356, Pt. B, §3 (AMD).]

The director may enter into agreements with private organizations and government agencies to provide for the maintenance of established trails. Local and regional government agencies and private organizations are encouraged to assume the primary responsibility for the establishment, maintenance and administration of local trails. When necessary, the director shall coordinate the efforts of

government agencies and private organizations to establish, maintain and administer trails that are regional in character. [PL 1997, c. 678, §13 (NEW).]

The director may adopt rules governing the use of the Maine Trails System as necessary to maintain the purposes of this subchapter and compatibility with federal regulations. [PL 1997, c. 678, §13 (NEW).]

1. Maine Trails System. The Maine Trails System consists of:

A. Trails designated to provide a variety of recreation opportunities. Recreation trails may be limited to foot, horse or other nonmotorized means of transportation or motorized means of transportation or a combination, as determined appropriate by the director; [PL 1997, c. 678, §13 (NEW).]

B. Trails providing for the appreciation of natural and primitive areas and for the conservation of significant scenic, historic, natural or cultural qualities of the areas through which the trails pass and offering primarily the experience of solitude and self-reliance in natural or near-natural surroundings. Rights-of-way and buffer areas may be established and maintained to further that experience, and no use or development is permitted that threatens the primitive character of the land. Nothing in this subchapter may be construed as excluding from a primitive trail system areas of development if such areas are determined by the director to be relatively insignificant compared to the system as a whole or if that development either is not likely to remain or leave a lasting mark or is integral to the trail system itself. Primitive trails may be restricted to foot traffic, including hiking, snowshoeing and skiing, except in those areas where the trails are on existing roads. The Appalachian Trail is included as a primitive trail in the Maine Trails System and other trails may also be included; and [PL 1997, c. 678, §13 (NEW).]

C. Camp sites, shelters and related public-use and management facilities to the extent that they do not interfere with the nature and purposes of the trails they serve. [PL 1997, c. 678, §13 (NEW).]
[PL 1997, c. 678, §13 (NEW).]

- (1) For all grants disbursed after July 1, 1984, the bureau shall adopt rules specifying how to apply for the grants, which projects are eligible and the formula for state support.
- (2) The bureau may charge a reasonable fee for these services and materials when the money credited to it under this paragraph is insufficient to satisfy the demand for the services and materials. All fees so collected must be deposited in the Snowmobile Trail Fund.
- (3) If any of the money is not expended during the year in which the money is collected, the unexpended balance does not lapse, but is carried as a continuing account available for the

F. "Water safety zone" means the area of water within 200 feet of shoreline, whether the shoreline of the mainland or of an island. [PL 2009, c. 312, §1 (NEW).]

[PL 2009, c. 312, §1 (NEW).]

2. Property rights. Nothing in this subchapter may be construed to affect private property rights or the State's ownership rights over inland waters.

[PL 2009, c. 312, §1 (NEW).]

3. Swim area prohibition. A person may not establish or maintain a swim line or a developed swim area without a permit issued under subsection 4.

A. [PL 2015, c. 252, §2 (RP).]

B. [PL 2015, c. 252, §2 (RP).]

[PL 2015, c. 252, §2 (AMD).]

4. Issuance of permit; revocation. The director may issue a permit to establish and maintain a swim line or a developed swim area within the water safety zone only to a qualified entity and only if

the swim line or developed swim area is designed solely to provide recreational swimming opportunities for the public.

A. If the director determines, after notice and an opportunity for hearing, that a swim line or developed swim area is being used for purposes other than to provide recreational swimming opportunities for the public, the director may revoke the permit. [PL 2015, c. 252, §2 (NEW).]

B. If the Commissioner of Inland Fisheries and Wildlife believes that a swim line or a developed swim area is being used for purposes other than to provide recreational swimming opportunities for the public and is interfering with boating or fishing, the commissioner shall notify the director and may request that the permit for the swim line or developed swim area be revoked pursuant to paragraph A. [PL 2015, c. 252, §2 (NEW).]

The length of the area delineated by a swim line or of a developed swim area may not exceed 50% of the entire length of the shore frontage of the property from which the developed swim area or the area delineated by a swim line extends or 200 feet, whichever is greater, except that in no event may the developed swim area or the area delineated by a swim line extend beyond the shore frontage of the property. The length of the developed swim area or of an area delineated by a swim line must be measured parallel to the shore.

[PL 2015, c. 252, §2 (AMD).]

5. Fee; expiration. Permits issued under subsection 4 expire 5 years after the date of issuance. The director shall establish by rule a fee for the permits. All revenues from fees must be deposited in the Boating Facilities Fund created under section 1896.

[PL 2015, c. 252, §2 (AMD).]

6. Enforcement. A municipally appointed inland harbor master, code enforcement officer or law enforcement officer is primarily responsible for the enforcement of this subchapter.

[PL 2009, c. 312, §1 (NEW).]
