A. The holder of a smelt wholesale dealer's license may:

- (1) Take live smelts for resale from inland waters or private ponds. The taking of live smelts from inland waters must be in accordance with general rules adopted by the commissioner in regard to the taking of smelts. Except as provided in paragraph B, the holder of a smelt wholesaler's license shall comply with the same daily bag limit and the same tackle restrictions that apply to all other anglers and is subject to the same penalties for violations of those limits and restrictions. This subparagraph does not apply to a holder of a fish cultivator license as provided under section 12507;
- (2) Beginning on the date the body of water on which the smelts are taken is open to ice fishing and ending March 31st annually, use a drop net, a lift net or hook and line to take up to 8 quarts of smelts through man-made openings in the ice while fishing on the ice from specific inland

waters designated by the commissioner. A dip net may be used in conjunction with the above methods to assist with the handling and transporting of smelts. A licensee may keep the daily bag limit alive. The daily bag limit established under this subparagraph is for a 24-hour period, beginning at noon on a given day and ending at 11:59 a.m. the following day;

(2-A) In waters naturally free of ice, take smelts from noon to 2:00 a.m. by the use of a dip net in the usual and ordinary way. The commissioner may establish the daily bag limit by rule and a licensee may keep the daily bag limit of smelts alive. The daily bag limit established under this subparagraph is for a 24-hour period, beginning at noon on a given day and ending at 11:59 a.m. the following day. The commissioner may shorten the noon to 2:00 a.m. smelt fishing time frame by rule for enforcement or conservation purposes;

(3) Use artificial light for the purpose of luring smelts to a drop net or a lift net;

(4) Transport or possess at the holder's business facility more than the daily bag limit of smelts provided that the smelts were taken by the license holder in accordance with this section or acquired from a person licensed under this section to deal in live smelts;

(5) Designate others to assist in selling live smelts at the holder's business facility; and

(6) Transport or designate others to transport on the license holder's behalf live smelts in accordance with this subsection. [PL 2015, c. 301, §36 (AMD).]

B. The holder of a smelt wholesale dealer's license may not:

(1) When engaged in taking, or assisting in taking, live smelts for resale from inland waters, fail to exhibit the license to any agent of the commissioner upon request;

(2) Take multiple bag limits from waters governed by general rules regulating the taking of smelts in order to attain the 8-quart limit of smelts described in paragraph A, subparagraph (2);

(3) Use a seine to take smelts;

(4) Transport or possess at the holder's business facility more than the daily bag limit of smelts at any time unless the smelts were acquired in accordance with paragraph A, subparagraph (4). If the smelts were purchased from another person, the license holder must present a receipted invoice, bill of lading or bill of sale to any agent of the commissioner upon request;

(5) Transport from an inland water source to the licensee's place of business more than 8 quarts of live smelts;

(6) Permit any person to transport live smelts on the license holder's behalf directly from an inland water source;

(7) Attempt to take from the inland waters of the State live smelts for resale using drop nets through the ice unless the license holder marks all holes made in the ice by that license holder for that purpose. The holes must be marked either by evergreen boughs placed around the hole or by suspending at least one strand of fluorescent biodegradable tape at least 3 feet above the ice around the entire perimeter of the hole so that the tape is visible from all sides;

(8) Take smelts unless the holder uses an operable commercially manufactured number 14 fish grader to sort smelts by size during the taking of smelts. The holder shall liberate immediately all undersized smelts alive into the waters from which they were taken. For the purpose of this subparagraph, a commercially manufactured number 14 grader is a grader having a minimum grate size of 14/64 inches and that allows smelts to pass through at least 2 sides and the bottom of the grader. The commissioner may adopt rules to amend the grate size restrictions under this subparagraph if the commissioner determines such rules are necessary for conservation or enforcement purposes;

(9) Possess at that person's place of business any species of fish that may not legally be sold as bait;

(10) Use particles of food or any other type of bait or lure except light to lure smelts to a drop net or a lift net; or

(11) Use a dip net to take smelts unless that dip net meets the requirements under section 10001, subsection 12-A.

Each day a person violates this paragraph that person commits a Class E crime. [PL 2005, c. 237, §3 (AMD).]

For purposes of this subsection, live smelts are considered in possession of the licensee once the smelts have been removed from the inland waters and placed in a container.

[PL 2015, c. 301, §36 (AMD).]
