A boiler or pressure vessel condemned in this State must be stamped "XXX Me.," and the chief inspector must immediately be notified of the condemnation. [PL 2013, c. 70, Pt. C, §27 (AMD).]

The stamp "XXX Me." placed on condemned boilers must be made across the registration mark or number of the boiler, or if the boiler has no registration mark or number, a stamp must be placed in the location of this mark as determined by the rules of the code. [PL 1995, c. 560, Pt. H, §14 (NEW); PL 1995, c. 560, Pt. H, §17 (AFF).]

§15113. Registration; stamping

A boiler, except one exempt under section 15102, may not be operated in this State unless the boiler is registered in the office of the director upon blanks to be furnished by the director upon request. The completed blanks must contain information regarding maker's name, type of construction, date of construction, age, location and when last inspected and other information as may be required. [PL 2013, c. 70, Pt. C, §28 (AMD).]

A pressure vessel, except those exempt under section 15102, may not be installed and operated in this State after June 30, 1974, unless it is constructed, inspected and stamped in conformity with Section VIII of the code and is registered with and approved by the director. [PL 2013, c. 70, Pt. C, §28 (AMD).]

The director may conduct shop inspections. The shop shall pay the required fee for the inspection. [PL 2013, c. 70, Pt. C, §28 (AMD).]

A pressure vessel that does not bear the code stamping may be registered with and approved by the director, if the person desiring to install the vessel makes application to the director and files a copy of the manufacturer's data report or a copy of the construction details together with material specifications for review and approval prior to installation. [PL 2013, c. 70, Pt. C, §28 (AMD).]

After a boiler or pressure vessel has been registered with the director, the director shall furnish and the owner or user shall stamp or have stamped a number as given, on the shell of the boiler in the space commonly used for such purposes, with letters and figures not less than 3/8 of an inch high. A temporary inspection certificate may be issued without an internal inspection being made. If the boiler or pressure vessel is insured, the temporary inspection certificate may not be issued until recommended in writing by the authorized inspector of the company insuring the boiler or pressure vessel and by the chief inspector or one of the deputies; or, if the boiler or pressure vessel is not insured, the temporary inspection certificate must be recommended in writing by at least 2 authorized state inspectors. §15117. Inspection required; certificates issued

Each boiler or pressure vessel used or proposed for use within this State, except boilers or pressure vessels exempt under section 15102, must be thoroughly inspected by the chief inspector, a deputy

inspector or an authorized inspector as to its design, construction, installation, condition and operation. When any boiler or pressure vessel inspected as specified by the director is found to be suitable and to conform to the rules of the director, the chief inspector shall issue to the owner or user of that boiler or pressure vessel, upon payment of a fee to the director, an inspection certificate for each boiler or pressure vessel. The fee under section 15104-C must be set by the director. Inspection certificates must specify the maximum pressure that the boiler or pressure vessel inspected is allowed to carry. The inspection certificate may be valid for not more than 14 months from the date of inspection in the case of boilers and 38 months from the date of inspection in the case of pressure vessels and must be posted under glass in the engine or boiler room containing the boiler or pressure vessel or an engine operated by it or, in the case of a portable boiler, in the office of the plant where it is temporarily located. [PL 2013, c. 70, Pt. C, §31 (AMD).]

In accordance with the provisions of the Maine Administrative Procedure Act, the chief inspector or any deputy inspector may at any time suspend an inspection certificate when, in the inspector's opinion, the boiler or pressure vessel for which it was issued may not continue to be operated without menace to the public safety. An authorized inspector has corresponding powers with respect to inspection certificates for boilers and pressure vessels insured by the company employing the inspector. [PL 2013, c. 70, Pt. C, §31 (AMD).]

Not more than one inspection fee may be collected for the inspection of any one boiler or pressure vessel made in any one year, unless additional inspections are required by the owners or users of the boiler or pressure vessel or unless the boiler or pressure vessel has been inspected and an inspection certificate has been refused, withheld or withdrawn or unless an additional inspection is required because of the change of location of a stationary boiler or pressure vessel. [PL 2013, c. 70, Pt. C, §32 (AMD).]
