

## **§9207. Collection of data**

Subject to the provisions in this section, the authority shall collect annually from communications service providers and any wireless providers that own or operate advanced communications technology infrastructure in the State data concerning infrastructure deployment for the purpose of developing mapping information to assist the authority in implementing the provisions of section 9202-A; pricing data for advertised retail pricing for broadband services offered in the State; and revenue data for the purpose of assessing communications service providers subject to section 9211. The authority shall permit providers that have provided data to the authority at a level of detail that the authority has determined acceptable to continue to provide the data in the same format. For mapping data, the authority, whenever possible, shall use data formats consistent with data formats used for mapping at the federal level. [PL 2019, c. 625, §9 (AMD).]

**1. Confidential information.** Data provided to the authority pursuant to this section is confidential. The authority shall adopt rules pursuant to section 9205, subsection 3 defining the criteria it will use to satisfy the requirements of this paragraph and the types of information that would satisfy the criteria. The authority may not remove the confidential designation under this subsection until those rules are finally adopted.

Upon such a request, the authority shall ensure that the information provided is viewed only by those members of the authority and staff who do not stand to gain a competitive advantage and that there are adequate safeguards to protect that information from members of the authority who could gain a competitive advantage from viewing the information.
