§6171-B. Sustainable development of emerging fisheries

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Emerging fishery" means the commercial fishing for any marine organism, except herring and groundfish species, that requires a commercial fishing license issued under section 6501. [PL 2003, c. 248, §2 (AMD).]

B. "Endorsement" means an authorization, identified on a commercial fishing license issued under section 6501, to harvest, possess, transport and sell a specific marine organism for which there is an emerging fishery. [PL 1999, c. 297, §1 (NEW).]
[PL 2003, c. 248, §2 (AMD).]

2. Determination of sustainability. The commissioner may investigate conditions affecting marine resources and, with the advice and consent of the Marine Resources Advisory Council, may require a person to hold an endorsement to participate in an emerging fishery if the commissioner determines that a marine organism or its habitat is under increasing pressure that could impact its sustainability. The commissioner shall ensure that emerging fisheries do not develop at a rate that is not sustainable on a long-term basis.

Harvesters involved in an emerging fishery may petition the commissioner to investigate the sustainability of that emerging fishery.
[PL 1999, c. 297, §1 (NEW).]

3. Eligibility for endorsements. The commissioner may limit the number of endorsements issued to control the number of individuals engaged in commercial harvesting in an emerging fishery, based on criteria established by rule. The commissioner may require the collection and timely reporting of any biological or environmental data as a condition of the endorsement. The commissioner's authority to limit the number of endorsements issued for a specific marine organism is limited to a period of 3 years from the date of the issue of the first endorsement, renewable for one 3-year extension.
[PL 1999, c. 297, §1 (NEW).]

4. Endorsement required. Notwithstanding section 6501, a person may not fish for, take, possess, ship, transport or sell a marine organism for which an endorsement is required pursuant to subsection 2 unless that person holds a current commercial fishing license with an endorsement for that organism, except that a license with an endorsement is not required for that person to fish for, take, possess or transport the organism only for personal use.

A fee may not be charged for an endorsement required pursuant to this section.
[PL 1999, c. 297, §1 (NEW).]

5. Incidental harvest. Notwithstanding subsection 4, the taking or possession at sea of a marine organism for which an endorsement is required is not prohibited if the taking is incidental to the harvesting of another organism.
[PL 1999, c. 297, §1 (NEW).]

6. Rule-making authority. The commissioner may adopt rules to establish eligibility for endorsements, the number of endorsements issued and reporting requirements. Rules authorized by this section must be adopted and amended in accordance with the procedures outlined in subchapter II and are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.
[PL 1999, c. 297, §1 (NEW).]

7. Report. The commissioner, within 24 months of the issuance of the first endorsement for a marine organism, shall report to the joint standing committee of the Legislature having jurisdiction over marine resources matters regarding the status of the emerging fishery, management goals and objectives and control of access to the emerging fishery. In the report, the commissioner shall consider:

- A. The long-term sustainability of the resource; [PL 1999, c. 297, §1 (NEW).]
- B. The impact of harvesting on other fisheries; and [PL 1999, c. 297, §1 (NEW).]

C. The department's ability to enforce and administer the management program. [PL 1999, c. 297, §1 (NEW).]

The commissioner may classify areas through text descriptions and maps as the commissioner determines necessary, setting forth standards for closure of contaminated or polluted areas and for opening areas determined to no longer present a risk to public health, giving consideration to established state water quality standards, the most recently adopted federal sanitation standards or other state or federal public health standards, the most recent generally accepted research data and known sources of pollution in any area, in a manner to protect the public health and safety while allowing reasonable use of the State's marine organisms.

[PL 2011, c. 527, §2 (AMD).]

1-A. Federal waters. The commissioner may classify an area through text descriptions and maps to close waters under the jurisdiction of the Federal Government to the harvesting of a marine organism that the commissioner determines is or may become contaminated or polluted and to open waters under the jurisdiction of the Federal Government to the harvesting of marine organisms that the commissioner determines no longer present a risk to public health.

A warrant may not be issued to search a domicile or residential building or ancillary structures; and [PL 1991, c. 242, §1 (NEW).]

B. The commissioner may enter a privately owned domicile, building or structure only with the owner's permission and only in the presence of the owner or the owner's agent. [PL 1991, c. 242, §1 (NEW).]

For the purposes of this subsection, "commissioner" means the Commissioner of Marine Resources or an employee of the department authorized by the commissioner to inspect coastal waters and intertidal zones for sources of pollution.

The commissioner may collect statistics from any source and may require reporting of these statistics. The information collected by or reported to the commissioner is confidential and may not be disclosed in a manner or form that permits identification of any person or vessel, except when required by court order or when specifically permitted under this section. The commissioner may share data collected under this section with the National Marine Fisheries Service or successor organization for research or fisheries management purposes as long as federal laws and regulations protect the confidentiality of the shared data. The commissioner may share landings data collected under this subsection with the Bureau of Marine Patrol when necessary for the enforcement of reporting requirements under this section.
