[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

§214. Enforcement

1. The superintendent may, through the Attorney General of this State, invoke the aid of the Superior Court through proceedings instituted in any county of this State to enforce any lawful order made or action taken by the superintendent. In such proceedings, the Superior Court may make such orders, either preliminary or final, as it considers proper under the facts established before it.

[RR 2021, c. 1, Pt. B, §159 (COR).]

2. §216. Records; inspection; destruction

1. The superintendent shall carefully preserve in the bureau and in permanent form a correct account of all the superintendent's transactions and of all fees and money received by the superintendent by virtue of the superintendent's office, together with all financial statements, examination reports, correspondence, filings and documents duly received by the bureau. The superintendent shall hand the same over to the superintendent's successor in office.

[RR 2021, c. 1, Pt. B, §160 (COR).]

2. All records of the bureau are subject to public inspection, except as otherwise expressly provided by law as to particular matters; and except that records, correspondence and reports of investigation in connection with actual or claimed violations of this Title or prosecution or disciplinary action for those violations are confidential. The confidential nature of any such record, correspondence or report may not limit or affect use of the same by the superintendent in any such prosecution or action. This subsection does not preclude participation by the superintendent in the establishment of an interstate complaint handling system that may involve the sharing of information with insurance regulatory officials in other jurisdictions and with the National Association of Insurance Commissioners, as long as the names of the complainant and insured remain confidential. This subsection does not preclude the dissemination of aggregate ratios of consumer complaints to the public by the superintendent. Only complaints received in writing are included in the calculation of the complaint ratio. A complaint received by electronic means is considered a written complaint. For the purposes of this subsection, a "consumer complaint" means any written complaint that results in the need for the bureau to conduct further investigation or to communicate in writing with a regulated entity for a response or resolution to the complaint. The superintendent shall adopt rules necessary to define the method for calculating complaint ratios. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

[PL 2001, c. 165, Pt. A, §1 (AMD).]

3. All records and documents of the bureau are subject to subpoena by a court of competent jurisdiction.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. The superintendent may destroy unneeded or obsolete records and filings in the bureau in accordance with provisions and procedures applicable to administrative agencies of the State in general. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

5. In order to assist the superintendent in the regulation of insurers in this State, it is the duty of the superintendent to maintain as confidential a document or information received from the National Association of Insurance Commissioners or International Association of Insurance Supervisors, public officials of other jurisdictions and members of supervisory colleges in which the superintendent participates pursuant to section 222, subsection 7-B, agencies of the Federal Government, the Financial Industry Regulatory Authority, the National Association of Registered Agents and Brokers or political subdivisions or other agencies of this State, if the document or the information has been provided to the superintendent with notice that it is confidential under the laws of the jurisdiction that is the source of the document or information.

A. Any information furnished pursuant to this subsection by or to the superintendent that has been designated confidential by the official, agency or other entity furnishing the information remains the property of the agency furnishing the information and must be held as confidential by the recipient of the information, except as authorized by the official, agency or other entity furnishing the information to the superintendent, with prior notice to interested parties and consistent with other applicable laws. The authority of the superintendent, pursuant to paragraph B, to permit further disclosure to a 3rd party or to the public of information shared by the superintendent is subject to the same requirements and conditions that apply if the superintendent discloses the information directly to a 3rd party or to the public. [PL 2013, c. 238, Pt. A, §1 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

B. The superintendent may share information, including otherwise confidential information, with the National Association of Insurance Commissioners or International Association of Insurance Supervisors, public officials of other jurisdictions and members of supervisory colleges in which the superintendent participates pursuant to section 222, subsection 7-B, agencies of the Federal Government, the Financial Industry Regulatory Authority, the National Association of Registered Agents and Brokers or political subdivisions or other agencies of this State, if the recipient of the information agrees to maintain the same level of confidentiality as is available under Maine law and has demonstrated that it has the legal authority to do so. [PL 2017, c. 115, §1 (AMD).]

B-1. The superintendent may authorize a contractor retained pursuant to section 208, or any other person outside the bureau that is otherwise designated to act on behalf of the superintendent, to receive confidential information. The recipient of confidential information is under the direction and control of the superintendent, is subject to the same confidentiality standards and requirements as the superintendent and shall act in a purely advisory capacity. The recipient of confidential information shall comply with the requirements of this paragraph.

(1) Access to confidential information may not be granted unless the recipient agrees in writing that:

- (a) The recipient will maintain the confidentiality of any confidential information that the superintendent has authorized the recipient to access, and establish appropriate procedures to protect such information from unauthorized access or use;
- (b) Ownership of any confidential information shared by the superintendent pursuant to this paragraph remains with the superintendent and that the use of such information by the recipient is subject to the direction of the superintendent;
- (c) The recipient will not store confidential information obtained or created under the contract in a permanent file or database after the work involving the information is completed;

(d) The recipient will provide prompt notice to the superintendent of any subpoena, request for disclosure or request for production of confidential information; and

(e) The recipient will consent to intervention by an insurer in any judicial or administrative action in which the recipient may be required to disclose confidential information about the insurer that has been shared pursuant to this paragraph.

(2) The recipient of confidential information shall confirm in writing to the superintendent that the recipient is free from conflicts of interest and will conduct ongoing monitoring for conflicts of interest for the duration of the work involving the confidential information. [PL 2021, c. 521, §3 (NEW).]

C. The superintendent may enter into one or more written agreements with the National Association of Insurance Commissioners governing sharing and using information under this subsection that:

(1) Specify procedures and protocols regarding the confidentiality and security of information shared with the National Association of Insurance Commissioners pursuant to this paragraph, including procedures and protocols for sharing by the National Association of Insurance Commissioners with other state, federal or international insurance regulators;

(2) Specify that ownership of information shared with the National Association of Insurance Commissioners pursuant to this paragraph remains with the superintendent and that the use of information by the National Association of Insurance Commissioners is subject to the direction of the superintendent;

(2-A) Prohibit the National Association of Insurance Commissioners from storing confidential information in a permanent file or database after the analysis of the confidential information is completed, other than liquidity stress test information obtained pursuant to section 222, subsection 8, paragraph B-1, subparagraph (3);

(3) Require prompt notice to be given by the National Association of Insurance Commissioners to any insurer whose confidential information is in the possession of the National Association of Insurance Commissioners pursuant to this paragraph when that information is the subject of a request or subpoena for disclosure or production; and

(4) Require the National Association of Insurance Commissioners to consent to intervention by an insurer in any judicial or administrative action in which the National Association of Insurance Commissioners may be required to disclose confidential information about the insurer shared with the National Association of Insurance Commissioners pursuant to this paragraph. [PL 2021, c. 521, §4 (AMD).]

D. This subsection does not alter prohibitions or restrictions applicable to ex parte contacts in the course of an adjudicatory proceeding in which a state agency is a party. [PL 2013, c. 238, Pt. A, §1 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

E. For purposes of this subsection, "other agencies of this State" includes bureau personnel and consultants designated as serving in an advocacy capacity in an adjudicatory proceeding before the superintendent. [PL 2013, c. 238, Pt. A, §1 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

1. **Discretionary investigations.** In addition to examinations and investigations expressly authorized, the superintendent may conduct investigations of insurance matters as the superintendent considers proper upon reasonable cause to determine whether any person has violated any provision of this Title or to secure information useful in the lawful administration of any such provision. The cost of these investigations must be borne by the State.

[PL 1991, c. 26 (NEW).]

2. Response to inquiries. All insurers and other persons required to be licensed pursuant to this Title and Title 24 shall respond to all lawful inquiries of the superintendent within 10 business days of receipt of the inquiry and to all follow-up inquiries of the superintendent within 5 business days of receipt. If a substantive response cannot in good faith be provided within the required time, the person required to respond shall so advise the superintendent and provide the reason for the inability to respond. 1. For the purpose of determining its financial condition, fulfillment of its contractual obligations and compliance with the law, the superintendent shall examine the affairs, transactions, accounts, records and assets of each authorized insurer, and of any person as to any matter relevant to the financial affairs of the insurer or to the examination, as often as the superintendent determines advisable. In determining the nature, scope and timing of an examination, the superintendent shall consider criteria, including, but not limited to, the results of financial statement analyses and ratios, changes in management or ownership, actuarial opinions, reports of independent certified public accountants and other criteria adopted by the National Association of Insurance Commissioners and published in its Financial Condition Examiners Handbook or Market Regulation Handbook, as applicable, or their successor publications. Except as otherwise expressly provided, domestic insurers must be examined at least once every 3 years, unless the superintendent defers making an examination for a longer period; but in no event may an authorized insurer be examined less frequently than once every 5 years. Examination of an alien insurer is limited to its insurance transactions, assets, trust deposits and affairs in the United States, except as otherwise required by the superintendent.

[PL 2017, c. 169, Pt. B, §1 (AMD).]

2. The superintendent shall in like manner examine each insurer applying for an initial certificate of authority to transact insurance in this State.

3.

3-A. The superintendent may accept a full examination report by the insurance regulatory authority of the insurance company's state of domicile or port-of-entry state for any foreign or alien insurer licensed in this State in lieu of an examination by the superintendent if, at the time of the examination, that regulatory authority was accredited under the National Association of Insurance Commissioners' Financial Regulation Standards and Accreditation Program or if the examination was performed under the supervision of an accredited insurance regulatory authority or with the participation of one or more examiners who are employed by an accredited insurance regulatory authority and who, after a review of the examination workpapers and report, state under oath that the examination was performed in a manner consistent with the standards and procedures required by the regulatory authority.

[PL 2021, c. 16, §2 (AMD).]

4. As far as practical, the examination of a foreign or alien insurer must be made in cooperation with the insurance supervisory officials of other states in which the insurer transacts business. Duties may be divided among the participating states in any manner consistent with the standards established by the laws of this State that are applicable to foreign and alien insurers.

[PL 1993, c. 313, §4 (AMD).]

5. Examination of health carriers. The superintendent shall examine the market conduct of each domestic health carrier, as defined in section 4301-A, subsection 3, and each foreign health carrier with at least 1,000 covered lives in this State, offering a health plan as defined in section 4301-A, subsection 7, no less frequently than once every 5 years. An examination under this subsection may be comprehensive or may target specific issues of concern observed in the State's health insurance market or in the company under examination. In lieu of an examination conducted by the superintendent, the superintendent may participate in a multistate examination, or, in the case of a foreign company, approve an examination by the company's domiciliary regulator upon a finding that the examination and report adequately address relevant aspects of the company's market conduct within this State.

§221-A. Financial audit requirements

1. Purpose. The purpose of this section is to provide the superintendent with a means of improved financial monitoring of insurers doing business in this State. This mechanism of increased financial surveillance of insurers shall not be a substitute for financial examinations required or authorized by this Title generally.

[PL 1985, c. 330, §1 (NEW).]

2. Definitions. As used in the section, unless the context indicates otherwise, the following terms have the following meanings.

A. "Accountant" and "independent certified public accountant" mean an independent certified public accountant or firm licensed to practice in the State or in any state recognizing similar reciprocal licensing requirements and who is a member in good standing of the American Institute of Certified Public Accountants. [PL 1985, c. 330, §1 (NEW).]

3. Audits required. All insurers, excepting insurers transacting business in this State pursuant to the terms of chapter 51, shall cause to be conducted an annual audit by an independent certified public accountant. Each domestic insurer shall file an audited financial report with the superintendent on or before June 1st for the year ending December 31st preceding. An extension of the filing deadline may be granted by the superintendent upon a showing by the insurer or its accountant that there exists valid justification for such an extension. A foreign or alien insurer shall file an audited financial report upon the superintendent's request. A firm of independent certified public accountants engaged to perform an audit of an insurer shall substitute the appointed audit partner in charge with another audit partner in charge at least once every 5 years. An accountant substituted for pursuant to this subsection may not serve as a partner in charge of that audit until 5 years after the date of substitution, unless the superintendent waives this requirement on the basis of unusual circumstances upon application by the insurer.

[PL 2009, c. 511, Pt. A, §1 (AMD).]

4. Content of annual audited financial reporting. Annual audited financial reporting must consist of the following.

A. Financial statements furnished under this section must be examined by independent certified public accountants in accordance with generally accepted auditing standards as prescribed by the American Institute of Certified Public Accountants. The opinion of the accountant must cover all years for which a financial presentation is made.

The opinion expressed concerning the financial statements filed under this section must conform with the accounting practices prescribed or permitted by the superintendent or the insurance supervisory official of the insurer's state of domicile. An insurer, with the approval of the superintendent, may file audited consolidated or combined financial statements in lieu of separate annual audited financial statements if the insurer is part of a group of insurance companies that uses a pooling agreement and such an insurer cedes all of its direct and assumed business to the pool or if the insurer has executed a 100% reinsurance agreement with one or more of the insurers in the group and the pooling or reinsurance agreement affects the solvency of the insurer or the integrity of the insurer's reserves. In those cases, a columnar consolidating or combining worksheet must be filed with the report.

The opinion must be expressed to the insurer by the accountant on the accountant's letterhead and show the address of the office issuing that opinion, must be manually executed and dated. [PL 1993, c. 313, §6 (AMD).]

B. Financial statements, as a minimum, must consist of:

- (1) Balance sheet;
- (2) Statement of gain or loss from operations;

C. The statement must include an independent certified public accountant's report respecting evaluation of internal controls. [PL 1993, c. 313, §6 (AMD).]

D. The statement must include an independent certified public accountant's letter, in conformance with standards established by the National Association of Insurance Commissioners, attesting to that certified public accountant's qualifications, possession of license and subscription to the code of professional ethics and pronouncements issued by the American Institute of Certified Public Accountants. [PL 1999, c. 113, §6 (AMD).]

[PL 1999, c. 113, §6 (AMD).]

5. Rules authorized. The superintendent shall promulgate such rules as shall be necessary to effectuate provisions of this section.

[PL 1985, c. 330, §1 (NEW).]

6. Application and effective date. For those insurers doing business in this State that are subject to this section, the filing of the initial annual audited financial reports required under this section are due June 30, 1986, covering the calendar year December 31, 1985. Similar recurring reports are due each June 1st thereafter.

[PL 1999, c. 113, §7 (AMD).]

7. Exemptions. Upon written application of any insurer subject to this section, the superintendent may grant an exemption of the filing requirements under this section if the superintendent finds upon review of the application that compliance would constitute a financial hardship upon the insurer.

An insurer is exempt from the filing requirements of this section for any year in which the insurer's annual statement reflects:

A. Nationwide business in an amount less than \$1,000,000 in written premium plus reinsurance assumed; and [PL 2009, c. 511, Pt. A, §2 (NEW).]

B. Outstanding loss reserves in an amount less than \$1,000,000. [PL 2009, c. 511, Pt. A, §2 (NEW).]

[PL 2009, c. 511, Pt. A, §2 (RPR).]

8. Required notice concerning adverse financial condition. Each insurer retaining an independent certified public accountant to represent it with respect to the report which the insurer is required to file pursuant to this section shall, as a condition of its written terms of engagement of the accountant, require that:

A. The accountant immediately notify in writing each member of the board of directors of the insurer and the superintendent upon any determination by the independent certified public accountant that the insurer has materially misstated its financial condition as reported in the annual statement required under section 423 for the year ending December 31st preceding; and [PL 1989, c. 846, Pt. C, §2 (AMD); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. If the accountant, subsequent to the date of the audited financial report required by this section, becomes aware of material subsequent facts that would have affected the accountant's report, the accountant shall provide the pertinent information upon the accountant's determination to the parties identified in this subsection. [RR 2021, c. 1, Pt. B, §165 (COR).]

1. Examination.

[PL 2013, c. 238, Pt. A, §2 (RP); PL 2013, c. 238, Pt. A, §34 (AFF).]

1-A. Examination. For purposes of ascertaining compliance with law, or relationships and transactions between any person as defined hereafter and any insurer or proposed insurer subject to this section, the superintendent may as often as the superintendent determines to be advisable examine the accounts, records, documents and transactions pertaining to or affecting the insurance affairs or proposed insurance affairs, or transactions of the insurer or proposed insurer as may be in the possession of any holding company, its subsidiaries or affiliates as is necessary to ascertain the financial condition, including the enterprise risk to the insurer by the ultimate controlling party, or legality of conduct of the insurer or proposed insurer or the insurance holding company system as a whole or any combination of entities within the insurance holding company system and to verify the accuracy of any information provided or required to be provided to the superintendent pursuant to this section.

A. The superintendent's investigatory and examination authority under this subsection extends to the examination of:

(1) Any business entity structured to hold the stock of an insurance company, or person holding the shares of voting stock or policyholder proxies of an insurer as voting trustee or otherwise, for the purpose of controlling the management thereof;

(2) Any insurance producer, adjuster or consultant or other insurance or reinsurance representative or intermediary or any person acting as or purporting to be any of the foregoing;

(3) Any person having a contract giving that person by its terms or in fact the exclusive or dominant right to manage or control the insurer; and

(4) Any person in this State engaged in or proposing to be engaged in or acting as or purporting to be so engaged or proposing to be engaged in the business of insurance or in this State assisting in the promotion, formation or financing of an insurer or insurance holding corporation or corporation or other group financing an insurer or the production of its business. [PL 2013, c. 238, Pt. A, §3 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

B. Subject to the limitations contained in this subsection and in addition to the powers that the superintendent has under section 221 and sections 223 to 228 relating to the examination of insurers, the superintendent may order an insurer registered under subsection 8 to produce records, books or papers in the possession of the insurer or affiliates as may be necessary to verify the accuracy of the information required to be provided to the superintendent under this section and any additional information pertinent to transactions between the insurer and affiliates. The books, records, papers and information are subject to examination in the same manner as prescribed in this chapter for an examination conducted under section 221, except that expenses incurred by the superintendent in examining an affiliate that is not an insurer must be borne by the registered insurer subject to the limitations of section 228, subsection 1. The superintendent may issue subpoenas, administer oaths and examine any person under oath for purposes of determining compliance with this subsection. [PL 2013, c. 238, Pt. A, §3 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

C. A member of an insurer's insurance holding company system shall comply fully and accurately with a request by the insurer to provide it with information necessary to respond to an examination request by the superintendent pursuant to this section. [PL 2013, c. 238, Pt. A, §3 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

D. The superintendent may order an insurer registered under subsection 8 to produce information not in the possession of the insurer if the insurer can obtain access to the information pursuant to contractual relationships, statutory obligations or any other lawful method. If the insurer cannot obtain the information requested by the superintendent, the insurer shall provide the superintendent a written objection with a detailed explanation of the reason that the insurer cannot obtain the information and the identity of the holder of the information. It is a violation of this section to submit an objection to production of information without a reasonable basis or to fail to produce information on the basis of an objection that the superintendent has denied after notice and opportunity for hearing. [PL 2013, c. 238, Pt. A, §3 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

[PL 2013, c. 238, Pt. A, §3 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

2. Definitions. As used in this section, unless the context otherwise requires, the following words shall have the following meanings.

A. Affiliate. "Affiliate" of, or a person "affiliated" with, a specific person means a person who directly or indirectly controls, or is controlled by, or is under common control with the person specified. [PL 1975, c. 356, §1 (RPR).]

A-1. Beneficial owner. "Beneficial owner" of a voting security, voting insurance policy or guaranty capital share means any person or group of persons acting in concert who, directly or indirectly, through any contract, arrangement, proxy appointment, understanding, relationship or otherwise, has or shares:

(1) Voting power over the security, policy or guaranty capital share, including the power to vote or to direct the voting of the security, policy or share; or

- (2) Investment power over the security, policy or share, including the power to dispose or to direct the disposition of the security, policy or share.

The superintendent may determine that persons are acting in concert, either on the superintendent's own initiative or upon application of an interested person, based upon evidence that actions taken by those persons, if consummated, may permit the exercise of common control, directly or indirectly, over the domestic insurer. The absence of a determination by the superintendent that persons are acting in concert shall not be construed to exempt those persons from compliance with the requirements of this section. [PL 1989, c. 385, §1 (NEW).]

A-2. "Continuing director" means:

- (1) Any member of a domestic insurer's board of directors, while that person is a member of the board of directors, who was a member of that board of directors prior to the time that any person acquires control of the domestic insurer or any person controlling the insurer; and
- (2) Any successor of a continuing director, while the successor is a member of the board of directors, who is recommended or elected to succeed a continuing director by a number of continuing directors equal to a majority of continuing directors in office immediately preceding the acquisition of control. [PL 1991, c. 37, §1 (NEW).]

B. Control.

(1) "Control," including "controlling," "controlled by" and "under common control with," means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or nonmanagement services, or otherwise, unless the power is solely the result of an official position with or a corporate office held by the person. Control is presumed to exist if any person is the beneficial owner of 10% or more of the voting securities or guaranty capital shares, if applicable, or has the right to cast 10% or more of the votes in the election of directors or other governing body of any other person. A beneficial owner may rely in determining the amount of voting securities of any person outstanding upon information set forth in that person's most recent quarterly or annual report filed with the Securities and Exchange Commission pursuant to the Exchange Act unless the beneficial owner knows or has reason to believe that the information contained in the quarterly or annual report is inaccurate. Two or more domestic mutual insurance companies that have restricted their licensed territories to the State are not considered subject to this section merely because those insurance companies commonly share facilities, incurred expenses or personnel services or otherwise utilize cost allocations based on generally accepted accounting principles including pro rata sharing of assumed risks. A person may have more than one controlling person, even if those controlling persons are not acting in concert.

(2) Notwithstanding the presumption of control contained in subparagraph (1), the superintendent, upon application of the insurance company, may determine that the insurer is not controlled by the person presumed to control it. In addition, the superintendent, after notice and an opportunity to be heard, may determine, notwithstanding the absence of the presumption in subparagraph (1), that a person does control an insurance company or companies.

(3) The presumption of control contained in subparagraph (1) does not apply to a securities broker-dealer holding, in the usual and customary broker's function, less than 20% of the voting securities of another person. [PL 2013, c. 238, Pt. A, §4 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

B-2. Enterprise risk. "Enterprise risk" means an activity, circumstance, event or series of events involving one or more affiliates of an insurer that, if not remedied promptly, is likely to have a material adverse effect upon the financial condition or liquidity of the insurer, or of its insurance holding company system as a whole, including, but not limited to, anything that would cause or exacerbate a risk-based capital event as described in sections 6453 to 6456 or would cause the insurer to be in unsound or hazardous financial condition as determined by the superintendent. [PL 2013, c. 238, Pt. A, §6 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

D-1. [PL 1993, c. 313, §7 (RP).]

D-2. "Net gain from operations" means:

- (1) For life insurers, the net income or loss after dividends to policyholders and federal income taxes but before the inclusion of net realized capital gains or losses; and
- (2) For nonlife insurers, the net income or loss after dividends to policyholders and federal income taxes and net realized capital gains or losses. [PL 2017, c. 169, Pt. B, §3 (AMD).]

D-3. Own risk and solvency assessment or ORSA. "Own risk and solvency assessment" or "ORSA" means a confidential internal assessment that is conducted by an insurer or insurance holding company system of the material and relevant risks associated with its current business plan and the sufficiency of its capital resources to support those risks and that is appropriate to the nature, scale and complexity of the operations of the insurer or insurance holding company system. [PL 2013, c. 238, Pt. A, §8 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

[PL 2013, c. 238, Pt. A, §8 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

D-6. "Internationally active insurance group" means an insurance holding company system that meets the following criteria:

- (1) The group has premiums written in at least 3 countries;
- (2) The percentage of gross premiums written outside the United States is at least 10% of the insurance holding company system's total gross written premiums; and
- (3) Based on a 3-year rolling average, the total assets of the insurance holding company system are at least \$50,000,000,000 or the total gross written premiums of the insurance holding company system are at least \$10,000,000,000. [PL 2017, c. 169, Pt. B, §4 (NEW).]

[PL 1991, c. 828, §4 (AMD).]

B. If an insurer ceases to control a subsidiary, it shall dispose of any investment therein made pursuant to this section within 3 years from the time of the cessation of control or within such further time as the superintendent may prescribe, unless at any time after the investment was made, the investment met the requirements for investment under any other section of this Title and the insurer has notified the superintendent thereof. A. Except as provided in paragraph B, a person other than the issuer may not make a tender offer for, or a request or invitation for tenders of, or an agreement to exchange securities for, or otherwise acquire any voting security, or any security convertible into a voting security, of a domestic insurer or of any person controlling a domestic insurer if, as a result of the consummation thereof, the person making the tender offer, request or agreement would, directly or indirectly, acquire actual or presumptive control of the insurer or controlling person, and a person may not enter into an agreement to merge with or otherwise acquire actual or presumptive control of a domestic insurer or its controlling person, unless:

- (1) The person has filed with the superintendent and has sent the domestic insurer an application containing the information required by paragraph C;
- (2) The offer, request, invitation, agreement or acquisition has been approved by the superintendent in the manner prescribed in subsection 7; and
- (3) Ten days has elapsed from the date of approval by the superintendent and no injunction or other court order precludes consummation of the offer, request, invitation, agreement or acquisition. [PL 2013, c. 238, Pt. A, §11 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

B. A controlling person of a domestic insurer seeking to divest its controlling interest in the domestic insurer in any manner, including any partial divestiture that would cause that person to cease to be a controlling person, shall file with the superintendent, with a copy to the insurer, confidential notice of its proposed divestiture at least 30 days before the cessation of control, unless the divestiture transaction consists of the transfer of the divesting person's interest to one or more acquiring persons, all of whom have reported their respective acquisitions pursuant to paragraph A. Unless the superintendent grants an exemption under paragraph D, the divesting person shall file an application substantially similar to the application required under paragraph C, with such modifications as the superintendent determines to be appropriate based on the nature of the transaction. The superintendent shall decide whether to approve the application using the criteria in subsection 7, paragraph A and may hold a public hearing if the superintendent determines that a hearing is in the interests of policyholders or the public. If 20 days has elapsed after the superintendent's receipt of a notice filed under this paragraph and the superintendent has not disapproved the proposed divestiture or postponed its effective date pending further review, the superintendent is deemed to have granted an exemption under paragraph D, subparagraph (2). [PL 2013, c. 238, Pt. A, §11 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

C. The list must include the information required by division (a) for each individual listed;
- (2) The source, nature and amount of the consideration used or to be used in effecting the merger or other acquisition of control, a description of any transaction through which funds were or are to be obtained for any such purpose, including any pledge of the insurer's stock or the stock of any of its subsidiaries or controlling affiliates, and the identity of persons furnishing consideration. If a source of consideration is a loan made in the lender's ordinary course of business, the identity of the lender is confidential if the person filing the application so requests;
- (3) Fully audited financial information as to the earnings and financial condition of each acquiring person for the preceding 5 fiscal years, or for a lesser period if the acquiring person and any predecessors have been in existence for less than 5 years, and similar unaudited information as of a date not earlier than 90 days before the filing of the application;
- (4) Any plans or proposals that each acquiring person may have to liquidate the insurer, to sell its assets or merge or consolidate it with any person or to make any other material change in its business or corporate structure or management;
- (5) The number of shares of any security referred to in paragraph A that each acquiring person proposes to acquire, the terms of the offer, request, invitation, agreement or acquisition referred to in paragraph A and a statement as to the method by which the fairness of the proposal was arrived at;
- (6) The amount of each class of any security referred to in paragraph A that is beneficially owned or concerning which there is a right to acquire beneficial ownership by each acquiring person;
- (7) A full description of any contracts, arrangements or understandings with respect to any security referred to in paragraph A in which any acquiring person is involved, including but not limited to transfer of any of the securities, joint ventures, loan or option arrangements, puts or calls, guarantees of loans, guarantees against loss or guarantees of profits, division of losses or profits or the giving or withholding of proxies. The description must identify the persons with whom the contracts, arrangements or understandings have been entered into;
- (8) A description of the purchase by any acquiring person of any security referred to in paragraph A during the 12 calendar months preceding the filing of the application, including the dates of purchase, names of the purchasers and consideration paid or agreed to be paid;
- (9) A description of any recommendations to purchase any security referred to in paragraph A made during the 12 calendar months preceding the filing of the application by any acquiring person or by anyone based upon interviews with or at the suggestion of the acquiring person;

(10) Copies of all tender offers for, requests or invitations for tenders of, exchange offers for and agreements to acquire or exchange any securities referred to in paragraph A and copies of any additional related soliciting material that has been distributed;

(11) The terms of any agreement, contract or understanding made or proposed to be made with any broker-dealer as to solicitation of securities referred to in paragraph A for tender and the amount of any fees, commissions or other compensation to be paid to broker-dealers with regard to the solicitation of securities referred to in paragraph A;

(12) An agreement by the person required to file the application to provide the annual enterprise risk report required by subsection 8, paragraph B-1, subparagraph (1) for as long as control by the person exists;

(13) An acknowledgement by the person required to file the application that the person and all subsidiaries within its control in the insurance holding company system will provide information to the superintendent upon request as necessary to evaluate enterprise risk to the insurer;

(14) A statement as to whether or not the proposed transaction will result in an increase in market share in this State in any line of insurance as specified in the annual statement required to be filed under section 423 for one or more insurers with combined market share greater than 5% and, if so, such further information on the competitive impact of the proposed transaction as the superintendent requires by rule or order; and

(15) Such additional information as the superintendent may prescribe by rule or order. [PL 2021, c. 521, §10 (AMD).]

D. The superintendent may exempt a person otherwise subject to the requirements of this subsection and subsection 7 from some or all of those requirements if the person demonstrates to the satisfaction of the superintendent that an exemption will not be detrimental to the interests of policyholders in the State or the public and that the transaction satisfies at least one of the following criteria:

(1) The interests of the State in regulating the transaction are minimal relative to the interests of other jurisdictions or are minimal relative to the impact of the transaction as a whole;

(2) The person proposes a divestiture of control under paragraph B and the superintendent determines that the prior approval process is not necessary in the circumstances of the transaction;

(3) A party proposing to acquire presumed control submits a disclaimer fully disclosing all material relationships and bases for affiliation with the insurer and demonstrating to the satisfaction of the superintendent that the person will not be acquiring actual control. As a condition of granting an exemption under this subparagraph, the superintendent may require the person to agree to reasonable restrictions on the exercise of rights or powers that might otherwise tend to result in control;

(4) The superintendent elects to participate in a consolidated approval proceeding conducted under the laws of one or more other states pursuant to subsection 7-A, paragraph E; and

(5) The transaction involves the control of a person that is not primarily engaged in the business of insurance, directly or through its affiliates, and there will be no material impact on the management or operations of a domestic insurer.

A person requesting an exemption under this paragraph must agree to provide additional information if needed by the superintendent and to postpone the effective date of the transaction if ordered by the superintendent while the request for exemption is pending. [PL 2013, c. 238, Pt. A, §11 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

E. A broker-dealer that is exempt from the requirements of this section pursuant to subsection 2, paragraph B, subparagraph (3) shall disclose to the superintendent the identity of any person, or group of persons the broker-dealer knows or reasonably believes to be acting in concert, on whose behalf the broker-dealer knows or reasonably believes that the broker-dealer holds 5% or more of the voting securities of a domestic insurer or of any entity the broker-dealer knows or reasonably believes to be a controlling person of a domestic insurer. A broker-dealer shall disclose to the superintendent on request the beneficial owners of any securities held by the broker-dealer of any entity that is, or that the superintendent believes might be or might become, a member of the insurance holding company system of an insurer subject to registration under subsection 8. [PL 2013, c. 238, Pt. A, §11 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

[PL 2021, c. 521, §10 (AMD).]

5. Tender offer material. All requests or invitations for tenders or advertisements making a tender offer or requesting or inviting tenders of such voting securities for control of a domestic insurer or its controlling person made by or on behalf of any such person must contain any information specified in subsection 4-C as the superintendent may prescribe and must be filed with the superintendent at the time that material is first published or sent or given to security holders. Copies of any additional material soliciting or requesting such tender offers subsequent to the initial solicitation or request must contain the information that the superintendent may prescribe as necessary or appropriate in the public interest or for the protection of policyholders and must be filed with the superintendent at the time copies of that material are first published or sent or given to security holders.

[PL 2013, c. 238, Pt. A, §12 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

6. Information as to applicant. If a person required to file an application under subsection 4-C is a partnership, limited partnership, syndicate or other group, the superintendent may require that the information called for by subsection 4-C must be given with respect to each partner of the partnership or limited partnership, each member of the syndicate or group and each person who controls any such partner or member. If a person required to file an application under subsection 4-C is a corporation, the superintendent may require that the information called for by subsection 4-C must be given with respect to the corporation and each officer and director thereof and each person who is directly or indirectly the beneficial owner of more than 10% of the outstanding securities of the corporation.

[PL 2013, c. 238, Pt. A, §13 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

7. Approval, disapproval of proposed change of control.

A. The superintendent shall hold a hearing in accordance with the procedures set forth in section 231 and Title 5, chapter 375, subchapter 4, within 30 days after the application required by subsection 4-C has been filed with the superintendent. The superintendent shall make a determination within 30 days after the conclusion of that hearing. The superintendent shall approve any purchase, exchange, merger or other change of control referred to in subsection 4-C unless the superintendent finds that:

(1) After the change of control, the domestic insurer could not satisfy the requirements for the issuance of a certificate of authority according to requirements in force at the time of the issuance or last renewal or continuation of its certificate of authority to do the insurance business that it intends to transact in this State;

(2) The effect of the purchases, exchanges, merger of a controlling person of the insurer or other changes of control may be substantially to lessen competition in insurance in this State or tend to create a monopoly in this State or would violate the laws of this State or of the United States relating to monopolies or restraints of trade;

(3) The financial condition of an acquiring person would jeopardize the financial stability of the insurer or prejudice the interest of its policyholders;

(4) The plans or proposals that the acquiring or divesting person has to liquidate the insurer, to sell its assets or to merge it with any person, or to make any other major change in its business or corporate structure or management, are unfair or prejudicial to policyholders;

(5) The competence, experience and integrity of those persons who would control the operation of the insurer indicate that it would not be in the interest of policyholders or the public to permit them to do so;

(6) Any merger of a domestic insurer does not comply with section 3474; or

(7) The change of control would tend to affect adversely the contractual obligations of the domestic insurer or its ability and tendency to render service in the future to its policyholders and the public. [PL 2021, c. 16, §3 (AMD).]

B. Paragraph A, subparagraphs (3) to (7) do not apply to any change of control if and to the extent that the superintendent, by rule or by order, exempts the change of control from the provisions of those subparagraphs as not included within the purpose of this subsection. [PL 2013, c. 238, Pt. A, §14 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

C. Merger, consolidation or bulk reinsurance as to a domestic insurer may be effectuated only pursuant to the applicable provisions of chapter 47, subchapter 4 and sections 3875, 4108 and 4109, as related to organization and powers of insurers. [PL 2013, c. 238, Pt. A, §14 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

D. Violation.

(1) Failure to file the application required under subsection 4-C constitutes a violation of this section.

(2) Effectuation of or any attempt to effectuate an acquisition of control of, divestiture of control of or merger with a domestic insurer earlier than 30 days after the filing of the application required by subsection 4-C, before the superintendent's decision if a hearing is held or after disapproval by the superintendent of the acquisition, divestiture or merger, constitutes a violation of this section. [PL 2013, c. 238, Pt. A, §14 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

[PL 2021, c. 16, §3 (AMD).]

7-A. Consolidated proceedings. If a proposed change of control requires, or is part of a series of related transactions that require, the approval of the insurance regulators of more than one state, a person filing an application under subsection 4-C with respect to the change of control may file a request for a consolidated approval proceeding with the National Association of Insurance Commissioners.

A. The applicant shall file a copy of the application made under subsection 4-C with the National Association of Insurance Commissioners within 5 days after making the request for a consolidated approval proceeding. [PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

B. Within 10 days after receiving notice from the National Association of Insurance Commissioners of a request for a consolidated approval proceeding, the superintendent shall issue an order, with notice to the applicant and to the National Association of Insurance Commissioners, specifying whether the superintendent elects to participate in the consolidated proceeding or to opt out of the consolidated proceeding. [PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

C. If the superintendent opts out of the consolidated approval proceeding pursuant to paragraph B, the superintendent shall hold a public hearing under subsection 7 unless the superintendent grants an exemption under subsection 4-C, paragraph D. Opting out of the consolidated proceeding does not preclude or limit the superintendent's authority to coordinate a proceeding conducted under

subsection 7 with the consolidated proceeding or with other parallel proceedings in other states. [PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

D. With the agreement of the other participating insurance regulators, the superintendent may initiate a consolidated approval proceeding under this paragraph to render decisions on all applications within the scope of the order of consolidation issued by the superintendent. A consolidated approval proceeding convened under this paragraph is a public adjudicatory proceeding. Except as provided in this paragraph, the proceeding must be conducted in the same manner as a proceeding under subsection 7.

(1) A person who would have the right to participate in a proceeding on any of the consolidated applications held under subsection 7 or substantially similar laws of other states has the right to participate in the proceeding.

(2) The chief insurance regulator of a participating state has the right to participate in making the decision or in designating a decision-making panel.

(3) The proceeding is public to the same extent as a proceeding conducted under subsection 7, except that deliberations of a decision-making panel are not public proceedings and communications in the course of those deliberations among panel members and their advisers, other than the decision itself, are not public records.

(4) The proceeding may be held in any state with a significant connection to the subject transactions or in a nearby location in an adjacent state. Sessions may be held in different states. Provision must be made for parties, witnesses, insurance regulators and members of the public to attend and participate in the proceeding by telecommunication.

(5) The superintendent, decision-making panel or presiding officer may vary the applicable procedural requirements under this Title and Title 5 to the extent the superintendent, panel or presiding officer determines to be reasonably necessary for the fair and effective administration of a consolidated multistate proceeding.

(6) The decision is subject to judicial review in the same manner as a final agency action of the superintendent. [PL 2021, c. 16, §4 (AMD).]

E. The superintendent may participate, including serving as a decision maker or member of a decision-making panel, in a consolidated approval proceeding conducted under the laws of one or more other states if the consolidated proceeding provides for a public hearing with substantially similar rights of participation and judicial review as a proceeding conducted pursuant to paragraph D. If the superintendent elects under this paragraph to participate in a consolidated proceeding that is conducted under the laws of one or more other states, the application is exempt from further review under this section pursuant to subsection 4-C, paragraph D, subparagraph (4) and the consolidated proceeding, notwithstanding the superintendent's participation, is not subject to any provisions of the law of this State governing adjudicatory proceedings, judicial review, public records or public meetings. [PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

[PL 2021, c. 16, §4 (AMD).]

7-B. Supervisory colleges. In order to assess the business strategy, financial position, legal and regulatory position, risk exposure including enterprise risk, risk management and governance processes of a domestic insurer that is part of an insurance holding company system with international operations, the superintendent may participate in a supervisory college with other regulators charged with supervision of the insurer or its affiliates, including other state, federal and international regulatory agencies. A supervisory college may be convened as either a temporary or permanent forum for communication and cooperation among the regulators charged with the supervision of the insurer or its affiliates.

A. The superintendent's powers with respect to supervisory colleges include, but are not limited to:

- (1) Initiating the establishment of a supervisory college or participating in a supervisory college initiated by one or more other regulators;
- (2) Entering into agreements providing the basis for cooperation between the superintendent and the other participating regulators and for the activities of the supervisory college, including but not limited to agreements for sharing confidential information under section 216, subsection 5;
- (3) Obtaining and providing assistance in examinations conducted under subsection 1-A or under the examination authority of other participating jurisdictions;
- (4) Clarifying the membership and participation of other regulators in the supervisory college;
- (5) Clarifying the functions of the supervisory college and the role of other regulators, including the designation of the superintendent or another member of the supervisory college as a group-wide supervisor;
- (6) Coordinating the ongoing activities of the supervisory college, including planning meetings, supervisory activities and processes for information sharing; and
- (7) Establishing a crisis management plan. [PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

B. A domestic insurer whose activities are subject to this subsection is liable for and shall pay the reasonable expenses of the superintendent's participation in a supervisory college, including reasonable travel expenses. The superintendent may establish a regular assessment to the insurer for the payment of these expenses. [PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

C. This section may not be construed to delegate to a supervisory college the authority of the superintendent to regulate or supervise an insurer or its affiliates within this State. [PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

[PL 2013, c. 238, Pt. A, §15 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

7-C. Groupwide supervision. This subsection governs groupwide supervision.

A. The superintendent is authorized to act as the groupwide supervisor in accordance with the provisions of this subsection for any internationally active insurance group, or any other insurance holding company system that has requested the identification of a groupwide supervisor pursuant to this subsection, or to acknowledge another regulatory official as the groupwide supervisor if the insurance group:

- (1) Does not have substantial insurance operations in the United States;
- (2) Has substantial insurance operations in the United States, but not in this State; or
- (3) Has substantial insurance operations in the United States and this State, but the superintendent has determined pursuant to the factors set forth in paragraphs B and G that the other regulatory official is the appropriate groupwide supervisor. [PL 2017, c. 169, Pt. B, §6 (NEW).]

B. In cooperation with other state, federal and international regulatory agencies, and in consultation with the insurance group, the superintendent shall identify a single groupwide supervisor for each internationally active insurance group that includes an insurer registered under subsection 8 and has the discretion to identify a single groupwide supervisor for any other insurance holding company system that has requested that the superintendent identify a groupwide supervisor. The superintendent may determine that the superintendent is the appropriate groupwide supervisor for

an insurance group that conducts substantial insurance operations concentrated in this State or may acknowledge that a regulatory official from another jurisdiction is the appropriate groupwide supervisor for the insurance group. The superintendent shall consider the following factors when making a determination or acknowledgment under this paragraph and shall reconsider that determination or acknowledgment if the superintendent finds that there has been a material change in the following factors:

- (1) The place of domicile of the insurers within the insurance group that hold the largest share of the group's written premiums, assets or liabilities;
- (2) The place of domicile of the top-tiered insurer or insurers in the insurance holding company system of the insurance group;
- (3) The location of the executive offices or largest operational offices of the insurance group;
- (4) The recommendation made by a regulatory official who is a candidate for designation under the criteria in this paragraph but has notified the superintendent that a different regulatory official would be a more appropriate groupwide supervisor;
- (5) Whether another regulatory official is acting or is seeking to act as the groupwide supervisor under a regulatory system that the superintendent determines to be:
 - (a) Substantially similar to the system of regulation provided under the laws of this State; or
 - (b) Otherwise sufficient in terms of providing for groupwide supervision, enterprise risk analysis and cooperation with other regulatory officials; and
- (6) Whether another regulatory official acting or seeking to act as the groupwide supervisor provides the superintendent with reasonably reciprocal recognition and cooperation. [PL 2017, c. 169, Pt. B, §6 (NEW).]

C. If another regulatory official is acting as the groupwide supervisor of an insurance group subject to groupwide supervision under this subsection, the superintendent shall acknowledge that regulatory official as the groupwide supervisor and may not consider designating the superintendent as the groupwide supervisor under paragraph B unless there is a material change in the insurance group that results in:

- (1) The insurance group's insurers domiciled in this State holding the largest share of the group's premiums, assets or liabilities; or
- (2) This State being the place of domicile of the top-tiered insurer or insurers in the insurance holding company system of the insurance group. [PL 2017, c. 169, Pt. B, §6 (NEW).]

D. If more than one regulatory official is acting as the groupwide supervisor of an insurance group, the superintendent is authorized to cooperate with any of them under paragraph G. [PL 2017, c. 169, Pt. B, §6 (NEW).]

E. Pursuant to subsection 1-A, the superintendent is authorized to collect from any insurer registered pursuant to subsection 8 all information necessary to determine whether the superintendent should act as the groupwide supervisor of an insurance group or whether the superintendent should acknowledge another regulatory official to act as the groupwide supervisor. Before issuing a determination that an insurance group is subject to groupwide supervision by the superintendent, the superintendent shall notify the insurer registered pursuant to subsection 8 and the ultimate controlling person within the insurance group. The insurance group has no less than 30 days to provide the superintendent with additional information pertinent to the pending determination. The superintendent shall publish on the bureau's publicly accessible website the identity of all insurance groups that the superintendent has determined are subject to groupwide supervision by the superintendent. [PL 2017, c. 169, Pt. B, §6 (NEW).]

F. If the superintendent is the groupwide supervisor for an insurance group, the superintendent is authorized to engage in any of the following groupwide supervision activities:

- (1) Assess the enterprise risks within the insurance group to ensure that:
 - (a) The material financial condition and liquidity risks to the members of the insurance group that are engaged in the business of insurance are identified by management; and
 - (b) Reasonable and effective mitigation measures are in place;
- (2) Request, from any member of the insurance group, information necessary and appropriate to assess enterprise risk, including, but not limited to, information about the members of the insurance group regarding:
 - (a) Governance, risk assessment and management;
 - (b) Capital adequacy; and
 - (c) Material intercompany transactions;
- (3) Coordinate and, through the authority of the regulatory officials of the jurisdictions where members of the insurance group are domiciled, compel development and implementation of reasonable measures designed to ensure that the insurance group is able to promptly recognize and mitigate enterprise risks to members of the insurance group that are engaged in the business of insurance;
- (4) Communicate with other state, federal and international agencies that regulate members of the insurance group and share relevant information subject to the confidentiality provisions of subsection 13-A, through supervisory colleges as set forth in subsection 7-B or otherwise;
- (5) Enter into agreements with or obtain documentation from any insurer registered under subsection 8, any member of the insurance group and any other state, federal and international regulatory agencies for members of the insurance group, providing the basis for or otherwise clarifying the superintendent's role as groupwide supervisor, including provisions for resolving disputes with other regulatory officials. Such agreements or documentation may not serve as evidence in any proceeding that any insurer or person within an insurance holding company system not domiciled or incorporated in this State is doing business in this State or is otherwise subject to jurisdiction in this State; and
- (6) Other groupwide supervision activities, consistent with the authorities and purposes set out in subparagraphs (1) to (5), as considered necessary by the superintendent. [PL 2017, c. 169, Pt. B, §6 (NEW).]

G. If the superintendent acknowledges that another regulatory official from a jurisdiction that is not accredited by the National Association of Insurance Commissioners is the groupwide supervisor, the superintendent is authorized to cooperate reasonably, through supervisory colleges or otherwise, with groupwide supervision undertaken by the groupwide supervisor, as long as:

- (1) The superintendent's cooperation is in compliance with the laws of this State; and
- (2) The regulatory official acknowledged as the groupwide supervisor also recognizes and cooperates with the superintendent's activities as a groupwide supervisor for other insurance groups as applicable. When such recognition and cooperation is not reasonably reciprocal, the superintendent is authorized to refuse recognition and cooperation. [PL 2017, c. 169, Pt. B, §6 (NEW).]

H. The superintendent is authorized to enter into agreements with or obtain documentation from any insurer registered under subsection 8, any affiliate of the insurer and other state, federal and international regulatory agencies for members of the insurance group in order to provide the basis

for or otherwise clarify a regulatory official's role as groupwide supervisor. [PL 2017, c. 169, Pt. B, §6 (NEW).]

I. The superintendent may adopt rules necessary for the administration of this subsection. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2017, c. 169, Pt. B, §6 (NEW).]

J. A registered insurer subject to this subsection is liable for and shall pay the reasonable expenses of the superintendent's participation in the administration of this subsection, including the engagement of attorneys, actuaries and any other professionals and all reasonable travel expenses. [PL 2017, c. 169, Pt. B, §6 (NEW).]

[PL 2017, c. 169, Pt. B, §6 (NEW).]

8. Registration of holding company system insurers.

A. An insurer that is authorized to do business in this State and that is a member of an insurance holding company system shall register with the superintendent, except that these requirements do not apply to a foreign insurer domiciled in a jurisdiction that in the opinion of the superintendent has adopted by statute or regulation disclosure statements and standards substantially similar to those contained in this section. An insurer domiciled in a jurisdiction that has not adopted by statute or regulation disclosure requirements and standards substantially similar to those contained in this section may be treated as a domestic insurer for purposes of this section. Each insurer that is subject to registration under this subsection shall register within 15 days after it becomes subject to registration, and annually thereafter by May 1st, unless the superintendent, for good cause shown, extends the time for registration and then an insurer shall register within that extended time. This section does not prohibit the superintendent from requesting any authorized insurer that is a member of an insurance holding company system and not subject to registration under this section to provide a copy of the registration statement or other information filed by such insurer with the insurance regulatory authority of its state of domicile. Upon request of the insurer or of the insurance regulatory authority of another jurisdiction in which the insurer is authorized to transact insurance, the superintendent at the insurer's expense shall furnish a copy of the registration statement or other information filed by a domestic insurer with the superintendent pursuant to this section; [PL 2013, c. 238, Pt. A, §16 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

B. An insurer subject to registration shall file a registration statement with the superintendent on a form and in a format prescribed by the National Association of Insurance Commissioners. The registration statement must contain current information about:

- (1) The capital structure, general financial condition, ownership and management of the insurer and of any person controlling the insurer;
- (1-A) The identity and relationship of every member of the insurance holding company system;
- (2) The following transactions currently outstanding between the insurer and its affiliates:
 - (a) Loans and other investments, and purchases, sales or exchanges of securities of the affiliate by the insurer or of the insurer by its affiliates;
 - (b) Purchases, sales or exchanges of assets;
 - (c) Transactions not in the ordinary course of business;
 - (d) Guarantees or undertakings for the benefit of an affiliate that result in an actual contingent exposure of the insurer's assets to liability, other than insurance contracts entered into in the ordinary course of the insurer's business;
 - (e) All management and service contracts and all cost-sharing arrangements, other than cost allocation arrangements based upon generally accepted accounting principles;

- (f) Reinsurance agreements;
- (g) Dividends and other distributions to shareholders; and
- (h) Consolidated tax allocation agreements;

(2-A) Any pledge of the insurer's stock, including stock of any subsidiary or controlling affiliate, for a loan made to any member of the insurance holding company system;

(2-B) If requested by the superintendent, financial statements of or within the insurance holding company system, including all affiliates. The required financial statements may include but are not limited to annual audited financial statements filed with the United States Securities and Exchange Commission pursuant to the Exchange Act. An insurer required to file financial statements pursuant to this subparagraph may satisfy the request by providing the superintendent with the most recently filed parent corporation financial statements that have been filed with the United States Securities and Exchange Commission;

(3) Other matters concerning transactions between the insurer and any affiliate as may be required by the superintendent; and

(4) Any other information required by the superintendent by rule; [PL 2013, c. 238, Pt. A, §17 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

B-1. The controlling person with ultimate control of an insurer subject to registration shall file an annual enterprise risk report in accordance with subparagraph (1) and, if applicable, shall file any additional reports required by this paragraph. The reports must be filed with the lead state regulator of the insurance holding company system as determined by the procedures within the NAIC Financial Analysis Handbook or successor publication.

(1) The enterprise risk report must be appropriate to the nature, scale and complexity of the operations of the insurance holding company system and must, to the best of the controlling person's knowledge and belief, identify the material risks within the insurance holding company system, if any, that could pose enterprise risk to the insurer.

(2) Except as otherwise provided in this subparagraph, the ultimate controlling person of an insurer subject to registration shall file an annual group capital calculation concurrently with the registration required by paragraph A. The report must be completed as directed by the lead state regulator in accordance with the group capital calculation instructions, which may permit the lead state regulator to allow a controlling person that is not the ultimate controlling person to file the group capital calculation.

(a) An insurance holding company is exempt from filing the group capital calculation if it has only one insurer within its holding company structure and that insurer is not licensed outside this State to transact insurance, does not write business outside this State and does not assume reinsurance from any other insurer.

(b) An insurance holding company is exempt from filing the group capital calculation if it is required to perform a group capital calculation specified by the Board of Governors of the Federal Reserve System and the lead state regulator has obtained the current group capital calculation from the board of governors. If this State is the insurance holding company system's lead state, the superintendent shall request the calculation from the board of governors under the terms of information sharing agreements in effect.

(c) An insurance holding company is exempt from filing the group capital calculation if its groupwide supervisor is located within a non-United States jurisdiction that the superintendent has designated as a reciprocal jurisdiction pursuant to section 731-B, subsection 1, paragraph B-3, subparagraph (1), division (b) and that recognizes the United States system of group supervision and group capital regulation.

- (d) An insurance holding company is exempt from filing the group capital calculation if its groupwide supervisor is located in a non-United States jurisdiction and:
- (i) The lead state regulator meets the requirements for accreditation under the NAIC financial standards and accreditation program and the insurance holding company system provides information to the lead state regulator, either directly or indirectly through the groupwide supervisor, that the lead state regulator has determined to be satisfactory to allow the lead state to comply with the NAIC group supervision approach, as detailed in the NAIC Financial Analysis Handbook or successor publication; and
 - (ii) The groupwide supervisor recognizes and accepts the group capital calculation as the worldwide group capital assessment for United States insurance groups that operate in that non-United States jurisdiction, consistent with criteria specified by the superintendent by rule.
- (e) Notwithstanding divisions (c) and (d), a non-United States-based insurance holding company system shall file a group capital calculation limited to its United States operations if its lead state regulator determines, after any necessary consultation with other supervisors or officials, that requiring a United States group capital calculation is appropriate for prudential oversight and solvency monitoring purposes or for ensuring the competitiveness of the insurance marketplace.
- (f) If this State is an insurance holding company system's lead state, the superintendent may exempt the ultimate controlling person from filing an annual group capital calculation or may accept a limited group capital filing or report in accordance with criteria specified by the superintendent by rule. An exemption or modification granted under a substantially similar law of another jurisdiction that is the lead state of an insurance holding company system that includes a domestic insurer applies to a filing otherwise required by this subparagraph.
- (g) If the lead state regulator determines that an insurance holding company system no longer meets one or more of the requirements for an exemption from filing the group capital calculation under this subparagraph, the insurance holding company system shall file the group capital calculation at the next annual filing date unless given an extension by the lead state regulator based on reasonable grounds shown.
- (3) The ultimate controlling person of an insurer subject to registration shall file the results of a liquidity stress test for each data year for which the insurer's insurance holding company system is within the scope of that year's NAIC Liquidity Stress Test Framework, as determined by the lead state regulator.
- (a) If this State is the lead state, the determination that an insurer is within scope or out of scope must be based on whether the insurer or its insurance holding company system meets at least one threshold in the applicable scope criteria, unless the superintendent determines, in consultation with the NAIC Financial Stability Task Force or its successor organization, that there is good cause to exclude an insurer or insurance holding company system that meets one or more thresholds or to include an insurer or insurance holding company system that does not meet any of the thresholds. In making that determination, the superintendent shall consider the goal of providing a stable experience base and avoiding insurers moving in and out of scope frequently.
 - (b) A liquidity stress test under this subparagraph must be performed, and its results must be filed, in accordance with the NAIC Liquidity Stress Test Framework's instructions and reporting templates for that data year.

(c) For the purposes of this subparagraph, any change to the NAIC Liquidity Stress Test Framework, including the data to be used in applying the scope criteria, is effective on January 1st of the year following the calendar year when the change is adopted by the NAIC. [PL 2021, c. 521, §11 (AMD).]

B-2. An insurer subject to registration shall file statements confirming that the insurer's board of directors oversees corporate governance and internal controls and that the insurer's officers or senior management have approved and implemented and continue to maintain and monitor corporate governance and internal control procedures; [PL 2013, c. 238, Pt. A, §18 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

B-3. A domestic insurer that is subject to registration, and has annual premium of \$500,000,000 or more or is a member of an insurance holding company system with annual premium of \$1,000,000,000 or more, shall conduct an own risk and solvency assessment in accordance with the requirements of this paragraph and the ORSA guidance manual at least annually, and also at any time when there are significant changes to the risk profile of the insurer or its insurance holding company system, except as otherwise provided in subparagraph (1). For purposes of this paragraph, "premium" means direct written and unaffiliated assumed premium, including international direct and assumed premium but excluding premiums reinsured with the Federal Crop Insurance Corporation within the United States Department of Agriculture, Risk Management Agency and with the National Flood Insurance Program within the United States Department of Homeland Security, Federal Emergency Management Agency.

(1) This paragraph does not apply if:

(a) The insurer is an agency, authority or instrumentality of the United States, its possessions and territories, the Commonwealth of Puerto Rico, the District of Columbia or a state or political subdivision of a state;

(b) The insurer and its insurance holding company system did not meet either of the minimum premium criteria of this paragraph in the financial statements immediately preceding their most recent financial statements and the superintendent has not required compliance with this paragraph under subparagraph (2); or

(c) The superintendent has granted a waiver from the requirements of this paragraph based upon unique circumstances. In deciding whether to grant a waiver, the superintendent may consider the type and volume of business written by the insurer, the ownership and organizational structure of the insurer and its insurance holding company system and any other factor the superintendent considers relevant to the insurer or the insurer's insurance holding company system. If the insurer's insurance holding company system includes insurers domiciled in more than one state, the superintendent shall coordinate with the lead regulator and with other domiciliary regulators in considering whether to grant the insurer's request for a waiver.

(2) The superintendent may require an insurer that does not meet either of the minimum premium criteria of this paragraph to comply with the requirements of this paragraph if:

(a) The superintendent determines that the insurer should be subject to this paragraph due to unique circumstances, including, but not limited to, the type and volume of business written by the insurer, the ownership and organizational structure of the insurer and its insurance holding company system, federal agency requests and international supervisor requests;

(b) The insurer is subject to a corrective order or required to adopt a risk-based capital plan under sections 6453 to 6456;

- (c) The superintendent has determined in accordance with rules adopted by the superintendent that the insurer is in hazardous financial condition; or
 - (d) The superintendent has determined that the insurer otherwise exhibits qualities of a troubled insurer.
- (3) If an insurer's insurance holding company system has annual premium of \$1,000,000,000 or more, the assessment and reporting required by this paragraph must be conducted for each insurer within the insurance holding company system, either on a systemwide basis or separately for insurers or combinations of insurers within the insurance holding company system.
- (4) An insurer subject to this paragraph shall maintain a risk management framework to assist the insurer with identifying, assessing, monitoring, managing and reporting on its material and relevant risks. An insurer may satisfy this requirement by participating in an applicable risk management framework maintained by the insurance holding company system of which the insurer is a member.
- (5) An insurer subject to this paragraph shall prepare and submit regular ORSA summary reports that satisfy the requirements of this subparagraph and shall provide additional information to the superintendent upon request.
- (a) Beginning no later than 2015, the ORSA summary report must be prepared at least annually, on a timetable consistent with the insurer's internal strategic planning processes, and submitted to the lead regulator of the insurer's insurance holding company system, as determined by the procedures within the NAIC Financial Analysis Handbook or successor publication. If the superintendent is not the lead regulator, the insurer shall submit the insurer's or insurance holding company system's most recent ORSA summary report to the superintendent on request.
 - (b) The ORSA summary report must be prepared consistent with the ORSA guidance manual. Documentation and supporting information must be maintained and made available upon examination by or upon request of the superintendent.
 - (c) The insurer's or insurance holding company system's chief risk officer, or other executive having responsibility for the oversight of the insurer's enterprise risk management process, shall sign the ORSA summary report attesting to the best of the signer's belief and knowledge that the insurer applies the enterprise risk management process described in the ORSA summary report and that a copy of the report has been provided to the insurer's board of directors or the appropriate committee of the board.
 - (d) An insurer may comply with this paragraph by providing the most recent ORSA summary report and a report or reports that are substantially similar to the ORSA summary report that are provided by the insurer or another member of its insurance holding company system to the insurance commissioner of another state or to an insurance supervisor or regulator of a foreign jurisdiction if that report provides information that is comparable to the information described in the ORSA guidance manual. Any report in a language other than English must be accompanied by an English translation.
- (6) The superintendent's review of the ORSA summary report, and any additional requests for information, must be consistent with accepted regulatory procedures for the analysis and examination of multistate or global insurers and insurance groups. [PL 2021, c. 521, §12 (AMD).]
- C. An insurer does not need to disclose on the registration statement filed pursuant to this subsection information that is not material to the purposes of this section. Sales, purchases, exchanges, loans or extensions of credit or investments involving 1/2 of 1% or less of an insurer's

admitted assets as of December 31st immediately preceding are not material for purposes of this section, except:

- (1) For purposes of the group capital calculation and liquidity stress test in accordance with paragraph B-1, subparagraphs (2) and (3);
 - (2) When the instructions for a specific filing specify a different materiality threshold or specify that no materiality threshold applies; or
 - (3) As the superintendent otherwise provides by rule or order. [PL 2021, c. 521, §13 (AMD).]
- D. Each registered insurer shall keep current the information required to be disclosed in its registration statement by reporting on forms provided by the superintendent all material changes or additions on or before the 15th day of the month following that in which it learns of each such change or addition; [PL 1975, c. 356, §1 (NEW).]
- E. The superintendent shall terminate the registration of any insurer which demonstrates that it is no longer a member of an insurance holding company system; [PL 1975, c. 356, §1 (NEW).]
- F. Two or more affiliated insurers subject to registration hereunder may file a consolidated registration statement or consolidated reports amending their respective consolidated statements or their individual registration statements so long as such consolidated filings correctly reflect the condition of and transactions between such persons; [PL 1975, c. 356, §1 (NEW).]
- G. The superintendent may allow or require any insurer, which is authorized to do business in this State and which is part of an insurance holding company system, to register on behalf of any affiliated insurer which is required to register under paragraph A and to file all information and material required to be filed under this section; [PL 1975, c. 356, §1 (NEW).]
- H. This section shall not apply to any insurer, information or transaction if and to the extent that the superintendent by rule, regulation or order shall exempt the same from the provisions of this section as not comprehended within the purposes thereof; [PL 1975, c. 356, §1 (NEW).]
- I. Any person may file with the superintendent a disclaimer of affiliation with any authorized insurer. A disclaimer of affiliation may be filed by the insurer or any member of an insurance holding company system. The disclaimer must fully disclose all material relationships and bases for affiliation between the disclaiming person and the insurer as well as the bases for disclaiming affiliation.
- (1) An approved disclaimer relieves the disclaiming person of the duty to register under this section.
 - (2) A disclaimer is deemed approved unless the superintendent, within 30 days after receipt of a complete disclaimer, including any additional information required by the superintendent, either disallows the disclaimer or notifies the disclaiming person that a hearing will be held on the disclaimer.
 - (3) The superintendent may condition the approval of a disclaimer on terms and conditions reasonably designed to ensure that the disclaiming person will not exercise actual control or acquire the right to actual control over the insurer without triggering the prior approval process under subsections 4-C and 7.
 - (4) If the superintendent takes action on a disclaimer without hearing, including the imposition of conditions not agreed to by the disclaiming person, an aggrieved person has the right to a hearing.
 - (5) The superintendent may rescind the approval of a disclaimer, after notice and opportunity for hearing, on the basis of new information or changed circumstances demonstrating the

existence of control over the insurer. [PL 2013, c. 238, Pt. A, §20 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]
[PL 2021, c. 521, §§11-13 (AMD).]

9. Transactions with affiliates; standards. Transactions by insurers subject to registration with their affiliates are subject to the following standards.

A. The terms, including any charges or fees for services performed, must be fair and reasonable. [PL 1991, c. 828, §5 (AMD).]

A-1. Agreements for management services and cost sharing must include any provisions required by the superintendent by rule. [PL 2017, c. 169, Pt. B, §7 (AMD).]

B. The books, accounts and records of each party must be so maintained as to disclose clearly and accurately the nature and details of the transaction, including all accounting information necessary to support the reasonableness of any charges or fees. [PL 1991, c. 828, §5 (AMD).]

C. The insurer's surplus to policyholders following any dividends or distributions to stockholder affiliates must be reasonable in relation to the insurer's outstanding liabilities and adequate to its financial needs. [PL 1991, c. 548, Pt. B, §3 (AMD).]

D. Expenses incurred and payment received must be allocated to the insurer in conformity with customary insurance accounting practices consistently applied. [PL 1991, c. 828, §5 (NEW).]

D-1. If an insurer subject to this Title is determined by the superintendent to be in hazardous financial condition as defined by rule or a condition that would be grounds for a delinquency proceeding under chapter 57, the superintendent may require the insurer to secure and maintain either a deposit, held by the Treasurer of State on behalf of the superintendent, or a bond, as determined by the insurer at the insurer's discretion, for the protection of the insurer for the duration of a contract or agreement or the duration of the condition for which the superintendent required the deposit or the bond. In determining whether a deposit or a bond is required, the superintendent shall consider whether concerns exist with respect to the affiliated person's ability to fulfill all of its contracts or agreements if the insurer were to be put into liquidation. If the insurer is determined to be in hazardous financial condition or in a condition that would be grounds for a delinquency proceeding, and a deposit or bond is required, the superintendent has discretion to determine the amount of the deposit or bond, not to exceed the aggregate value in any one year of all contracts or agreements secured by the deposit or bond, and whether the deposit or bond should be required for a single contract, multiple contracts or a contract with a specific person. [PL 2021, c. 521, §14 (NEW).]

D-2. All records and data of the insurer held by an affiliate are and remain the property of the insurer, must be subject to control of the insurer, must be identifiable and must be segregated or readily capable of segregation, at no additional cost to the insurer, from all other persons' records and data. This includes all records and data that are otherwise the property of the insurer, in whatever form maintained, including, but not limited to, claims and claim files, policyholder lists, application files, litigation files, premium records, rate books, underwriting manuals, personnel records, financial records and similar records within the possession, custody or control of the affiliate. At the request of the insurer or its receiver, the affiliate shall allow the insurer or receiver to obtain a complete set of all records of any type that pertain to the insurer's business and obtain access to the electronic operating systems on which the data is maintained or software that runs those systems either through assumption of licensing agreements or otherwise and shall restrict the use of the data by the affiliate if it is not operating the insurer's business. The affiliate shall provide a waiver of any landlord lien or other encumbrance to give the insurer access to all records and data in the event of the affiliate's default under a lease or other agreement. [PL 2021, c. 521, §15 (NEW).]

D-3. Premiums or other funds belonging to the insurer that are collected by or held by an affiliate are the exclusive property of the insurer and are subject to the control of the insurer. Any offset in the event that an insurer is placed into receivership is subject to section 4381. [PL 2021, c. 521, §16 (NEW).]

E. A domestic insurer shall notify the superintendent in writing at least 30 days in advance, unless the superintendent authorizes a shorter period, before entering into or materially amending or modifying any of the following kinds of transactions with any member of its holding company system:

(1) Sales, purchases, exchanges, loans or extensions of credit, guarantees or investments that are equal to or exceed:

(a) With respect to nonlife insurers, the lesser of 3% of the insurer's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(b) With respect to life insurers, 3% of the insurer's admitted assets as of December 31st of the preceding year; or

(c) With respect to nonprofit hospital and medical service organizations and their 100% controlled affiliates that operate as monoline health insurers or health maintenance organizations, the lesser of 5% of the entity's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(2) Loans or extensions of credit to any person who is not an affiliate, if the insurer makes the loan or extension of credit with the agreement or understanding that the proceeds in whole or in substantial part are to be used to make loans or extensions of credit to, purchase assets of or make investments in any affiliate of the insurer if the loan, extension of credit, purchase or investment is equal to or exceeds:

(a) With respect to nonlife insurers, the lesser of 3% of the insurer's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(b) With respect to life insurers, 3% of the insurer's admitted assets as of December 31st of the preceding year; or

(c) With respect to nonprofit hospital and medical service organizations and their 100% controlled affiliates that operate as monoline health insurers or health maintenance organizations, the lesser of 5% of the entity's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(3) All reinsurance pooling agreements, and all reinsurance agreements in which the reinsurance premium or a change in the insurer's liabilities, or the projected reinsurance premium or a projected change in the insurer's liabilities in any of the next 3 years, equals or exceeds 5% of the insurer's surplus to policyholders, as of December 31st of the preceding year, including those agreements that may require as consideration the transfer of assets from an insurer to a nonaffiliate if an agreement or understanding exists between the insurer and nonaffiliate that any portion of the assets will be transferred to one or more affiliates of the insurer;

(4) All management agreements, cost-sharing arrangements, tax allocation agreements, service contracts and guaranties, with the exception of guaranties that are quantifiable in amount and do not exceed, in the aggregate, the lesser of 0.5% of admitted assets and 10% of surplus as regards policyholders as of December 31st of the preceding year;

(5) Any transactions that are part of a plan or series of like transactions with persons within the holding company system if the transactions when aggregated over any 12-month period exceed the reporting thresholds of this paragraph. If the superintendent determines that those

separate transactions were entered into for the purpose of avoiding regulatory review by circumventing statutory reporting requirements, that determination is a sufficient basis for disapproving the transactions under this subsection; and

(6) Any other material transactions specified by rule that the superintendent has determined may adversely affect the interests of the insurer's policyholders.

A notice of amendment or modification of a transaction must include the reasons for the change and the financial impact on the domestic insurer. The insurer shall notify the superintendent within 30 days after terminating an agreement previously reported under this paragraph.

The superintendent shall disapprove a transaction that is subject to this paragraph if the transaction violates the standards of this section or other applicable law or adversely affects the interests of policyholders. The superintendent's failure to make a determination on a proposed transaction within 30 days after it has been submitted for review has the effect of an approval, unless the superintendent has issued a notice of adjudicatory hearing on the proposal in accordance with section 230. [PL 2017, c. 169, Pt. B, §8 (AMD).]

Any violation of this subsection, in addition to the penalties contained in subsection 14, renders the transactions voidable at the initiative of the superintendent or otherwise under applicable law. The superintendent's approval of a transaction in accordance with this section, whether actual or by acquiescence, may not override any applicable law and does not operate to authorize any transaction that would be contrary to law if it involved an insurer not a member of the same holding company system.

[PL 2021, c. 521, §§14-16 (AMD).]

10. Insurer's surplus; adequacy factors. For the purposes of this section, in determining whether an insurer's surplus to policyholders is reasonable in relation to the insurer's outstanding liabilities and adequate to its financial needs, the following factors, among others, may be considered:

A. The size of the insurer as measured by its assets, capital and surplus, reserves, premium writings, insurance in force and other appropriate criteria; [PL 1975, c. 356, §1 (NEW).]

B. The extent to which the insurer's business is diversified among the several lines of insurance; [PL 1975, c. 356, §1 (NEW).]

C. The number and size of the risks insured in each line of business; [PL 1975, c. 356, §1 (NEW).]

D. The extent of the geographical dispersion of the insurer's insured risks; [PL 1975, c. 356, §1 (NEW).]

E. The nature and extent of the insurer's reinsurance program; [PL 1975, c. 356, §1 (NEW).]

F. The quality, diversification and liquidity of the insurer's investment portfolio; [PL 1975, c. 356, §1 (NEW).]

G. The recent past and projected future trend in the size of the insurer's surplus as regards policyholders; [PL 1993, c. 313, §10 (AMD).]

H. The quality and liquidity of investments in subsidiaries or affiliates. The department may discount any such investment or treat any investment as a nonadmitted asset for purposes of determining the adequacy of surplus as regards policyholders whenever the investment so warrants; [PL 1993, c. 313, §10 (AMD).]

I. The adequacy of the insurer's reserves; [PL 1993, c. 313, §10 (AMD).]

J. The surplus as regards policyholders maintained by other comparable insurers in respect of the factors set out in this subsection; and [PL 1993, c. 313, §10 (AMD).]

K. The quality of the company's earnings and the extent to which the reported earnings include extraordinary items. [PL 1993, c. 313, §10 (NEW).]
[PL 2013, c. 238, Pt. A, §22 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

11. Dividends and distributions.

[PL 1993, c. 313, §11 (RP).]

11-A. Extraordinary dividends.

[PL 2009, c. 511, Pt. A, §3 (RP).]

11-B. All other dividends and distributions.

[PL 2009, c. 511, Pt. A, §4 (RP).]

11-C. Dividends and distributions. The superintendent shall review all dividends and distributions declared or paid by any insurer registered under subsection 8 at least annually.

A. An insurer shall notify the superintendent within 5 days after the declaration of any dividend or distribution. If the dividend or distribution is not disapproved pursuant to paragraph B and is not an extraordinary dividend as defined in paragraph C, the insurer may pay the dividend or distribution once the superintendent has approved the payment or 10 days have elapsed after the superintendent's receipt of notice. [PL 2009, c. 511, Pt. A, §5 (NEW).]

B. The superintendent shall issue an order restricting or disallowing the payment of dividends and distributions if the superintendent determines that the insurer's surplus would not be reasonable in relation to the insurance company's outstanding liabilities, that the insurer's surplus would be inadequate to that company's financial needs, that the insurer's financial condition would constitute a condition hazardous to policyholders, claimants or the public or that a violation of subsection 4-C prevents the superintendent from sufficiently understanding the enterprise risk to the insurer posed by its affiliates or by its insurance holding company system. [PL 2013, c. 238, Pt. A, §23 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

C. An extraordinary dividend may not be paid until affirmatively approved by the superintendent or until at least 60 days after the superintendent has received a request to pay an extraordinary dividend.

(1) For purposes of this subsection, "extraordinary dividend" means any dividend or distribution, other than a pro rata distribution of a class of the insurer's own securities, that:

(a) When aggregated with all other dividends and distributions paid or proposed to be paid by the insurer less than a full year before the payment date, exceeds the greater of 10% of the insurer's surplus to policyholders as of December 31st of the preceding year and the net gain from operations for the preceding calendar year;

(b) Is declared within 5 years after any acquisition of control of a domestic insurer or of any person controlling that insurer, unless it has been approved by a number of continuing directors equal to a majority of the directors in office immediately preceding that acquisition of control; or

(c) Is not paid entirely from unassigned funds. For purposes of this division, 50% of the net of unrealized capital gains and unrealized capital losses, reduced, but not to less than zero, by that portion of the asset valuation reserve attributable to equity investments, must be excluded from the calculation of unassigned funds.

(2) An insurer may declare an extraordinary dividend on a conditional basis, subject to the superintendent's approval. A declaration pursuant to this subparagraph does not confer any rights upon stockholders until the superintendent has approved the payment or the 60-day review period has elapsed. [PL 2017, c. 169, Pt. B, §9 (AMD).]

[PL 2017, c. 169, Pt. B, §9 (AMD).]

12. Verification of information.

[PL 2013, c. 238, Pt. A, §24 (RP); PL 2013, c. 238, Pt. A, §34 (AFF).]

13. Confidential communications.

[PL 2013, c. 238, Pt. A, §25 (RP); PL 2013, c. 238, Pt. A, §34 (AFF).]

13-A. Confidential information. This section applies to holding company information that is in the possession or control of the superintendent or that is in the possession or control of the National Association of Insurance Commissioners as a result of a filing under this section or as a result of information sharing by the superintendent as authorized by this section.

A. For purposes of this subsection, "holding company information" means any of the following documents, materials and other information if the document, material or other information has not specifically and expressly been designated as a public record by other applicable law:

- (1) Information obtained by the superintendent pursuant to an examination or investigation pursuant to subsection 1-A to the same extent as the information would have been confidential if obtained in an examination or investigation conducted under section 220 or 221;
- (2) A registration statement or report filed under subsection 8, including all supporting information;
- (2-A) Any group capital calculation or liquidity stress test, including all supporting information, conducted under the authority of a non-United States financial supervisor or the Board of Governors of the Federal Reserve System;
- (3) A report filed under subsection 9, including all supporting information;
- (4) A notice of proposed divestiture filed under subsection 4-C, paragraph B, until the divestiture transaction has occurred;
- (5) A disclosure of the beneficial owner of securities made by a broker-dealer pursuant to subsection 4-C, paragraph E;
- (6) The identity of a lender that is to finance a proposed transaction if declared confidential under subsection 4-C, paragraph C, subparagraph (2);
- (7) Information filed in support of any required attestation of risk management or internal controls under subsection 4-C, paragraph C, subparagraph (12) or (13);
- (8) A competitive impact statement filed under subsection 4-C, paragraph C, subparagraph (14), including all supporting information;
- (8-A) Groupwide supervision information reported or provided to the superintendent under subsection 7-C;
- (9) Information obtained under an information-sharing agreement entered into pursuant to this section to the extent that it is protected by the confidentiality provisions of the agreement;
- (10) Information obtained pursuant to this section from a jurisdiction other than this State to the extent that it is confidential under the laws of the jurisdiction in which it is normally maintained; and
- (11) Information obtained under this section to the extent that it is confidential under other applicable law, including, but not limited to, section 216, section 225 and Title 1, section 402, subsection 3. [PL 2021, c. 521, §17 (AMD).]

B. Except as otherwise provided by paragraphs D and E or specifically and expressly provided by other applicable law, holding company information is confidential, is not a public record, is not subject to a subpoena, is not subject to discovery or admissible as evidence in any private civil action and may not be made public by the superintendent without prior written consent of the

relevant insurer. The privilege provided under this paragraph does not supersede any other applicable privilege or confidentiality protection, nor does disclosure of confidential holding company information to the superintendent constitute a waiver of any such privilege or protection. Neither the superintendent nor any person who received holding company information from or under the authority of the superintendent under this section may be permitted or required to testify in any private civil action concerning holding company information that is confidential under this subsection. [PL 2013, c. 238, Pt. A, §26 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

C. The superintendent may share holding company information that is confidential under this subsection only in accordance with the requirements of section 216, subsection 5 and the following additional requirements.

(1) The recipient of the information must agree in writing to maintain the same level of confidentiality as is available under Maine law. This requirement may be satisfied through a multilateral confidentiality agreement to which both the superintendent and the recipient are parties.

(2) The superintendent may not share confidential holding company information with or through the National Association of Insurance Commissioners except in accordance with an information-sharing agreement entered into in accordance with section 216, subsection 5, paragraph C.

(3) If the recipient of the information is in the United States, the recipient's state must have statutes or rules that expressly protect holding company information at a level at least equivalent to the protections provided by this subsection and section 216, subsection 5.

(4) ORSA-related information subject to subsection 8, paragraph B-3 may, with the written consent of the insurer, be shared with a person under contract with the superintendent pursuant to section 208. In addition, any agreement for sharing ORSA-related information with the person under the contract with the superintendent or with the National Association of Insurance Commissioners must further provide that:

(a) The recipient of the information agrees in writing to maintain the confidentiality and privileged status of the ORSA-related information and has verified in writing the legal authority to maintain confidentiality; and

(b) Any preauthorization granted under the agreement for further sharing of information provided by the superintendent must be limited to only the domiciliary regulators of other insurers in the same insurance holding company system.

(5) If the superintendent authorizes a contractor to have access to liquidity stress test information provided pursuant to subsection 8, paragraph B-1, subparagraph (3), the superintendent shall disclose the identity of the contractor to the applicable insurers. [PL 2021, c. 521, §§18, 19 (AMD).]

D. This subsection does not prohibit the superintendent from using holding company information in the furtherance of any regulatory or legal action brought as a part of the superintendent's official duties. [PL 2013, c. 238, Pt. A, §26 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

E. Unless otherwise provided by applicable law, the superintendent may, after giving notice and opportunity for hearing to the insurer and any affiliates, controlling person or other persons that would be affected, order one or more items of holding company information, other than ORSA-related information, to be made a public record in its entirety or in redacted form if the superintendent determines that public disclosure will be in the interest of policyholders, shareholders or the public. [PL 2013, c. 238, Pt. A, §26 (NEW); PL 2013, c. 238, Pt. A, §34 (AFF).]

F. Except as otherwise required under this section, directly or indirectly publicly disseminating a statement in print or electronically regarding a group capital calculation required under subsection 8, paragraph B-1, subparagraph (2) or its resulting group capital ratio, a liquidity stress test required under subsection 8, paragraph B-1, subparagraph (3) or its results or supporting disclosures of any insurer or any insurance group or of any component derived in the calculation by any insurer, producer or other person engaged in any manner in the insurance business is prohibited. The insurer may publish in a written publication an announcement the sole purpose of which is to rebut any materially false statement or inappropriate comparison if the materially false statement or inappropriate comparison relating to a group capital calculation, group capital ratio, liquidity stress test or test results or supporting disclosures is published in any written publication and the insurer is able to demonstrate to the superintendent with substantial proof the falsity of that statement or the inappropriateness, as the case may be. [PL 2021, c. 521, §20 (NEW).]

G. A group capital calculation required under subsection 8, paragraph B-1, subparagraph (2) or its resulting group capital ratio or a liquidity stress test required under subsection 8, paragraph B-1, subparagraph (3) or its results and supporting disclosures is not a means to rank any insurers or insurance holding company systems. [PL 2021, c. 521, §21 (NEW).]

[PL 2021, c. 521, §§17-21 (AMD).]

14. Penalties.

A. Any person who willfully violates any of the provisions of this section, or the rules and regulations promulgated by the superintendent under authority thereof, or any person who willfully, in a filing pursuant to subsection 4-C or a registration pursuant to subsection 8, paragraph B, makes any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein not misleading, must upon conviction be fined not more than \$1,000 or imprisoned not more than 3 years, or both; [PL 2013, c. 238, Pt. A, §27 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

B. Any person who is found, after notice and opportunity to be heard, to have willfully violated any of the provisions of this section or any rule or regulations promulgated by the superintendent under the authority thereof, shall, in addition to any other penalty provided by law, forfeit to this State the sum of \$50 for a first violation and an additional sum of \$25 for each day such violation shall continue; [PL 1975, c. 356, §1 (NEW).]

C. In addition to other remedies and penalties provided in this section or otherwise available under the laws of this State, any violation of this section is hereby declared to be an unfair method of competition or an unfair or deceptive act and practice in the business of insurance subject to the provisions of chapter 23 and in addition, the superintendent may, after notice and hearing:

- (1) Refuse to issue, refuse to renew or reissue, revoke or suspend for a period not exceeding one year any license or certificate of authority issued or to be issued to any person found to have violated any of the provisions of this section;
- (2) After notice and hearing impose by order and administrative forfeiture upon such person, enforceable by such revocation, suspension or refusal to issue, renew or reissue of any such license or licenses or otherwise pursuant to the law of this State, in an amount not to exceed \$100 for each such violation and for each day's continuance thereof;
- (3) Proceed in a court of competent jurisdiction within or without this State against such person, if an insurer, upon the applicable grounds provided for the rehabilitation, conservatorship or liquidation of an insurer or for an injunction to prevent a violation of this section or to reverse or hold invalid any transaction made in violation of this section;
- (4) Issue such administrative orders to require compliance with this section, including the filing of evidence of compliance and periodic reporting as to such compliance, enforceable by such

revocation, suspension or refusal to issue, renew or reissue of any such license or licenses or otherwise pursuant to the laws of this State; or

(5) Any or all of the foregoing. [PL 1975, c. 356, §1 (NEW).]
[PL 2007, c. 466, Pt. D, §3 (AMD); PL 2013, c. 238, Pt. A, §27 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

14-A. Recovery.

A. If an order for liquidation or rehabilitation of a domestic insurer has been entered, the receiver appointed under that order has the right to recover on behalf of the insurer:

(1) From any parent corporation or holding company or person or affiliate who otherwise controlled the insurer, the amount of any distributions other than distributions of shares of the same class of stock paid by the insurer on its capital stock; or

(2) Any payment in the form of a bonus, termination settlement or extraordinary lump-sum salary adjustment made by the insurer or by any subsidiary of that insurer to a director, officer or employee when the distribution or payment pursuant to this subparagraph or subparagraph (1) is made at any time during the one year preceding the petition for liquidation, conservation or rehabilitation, subject to the limitations of paragraphs B, C and D. [PL 1993, c. 313, §13 (NEW).]

B. Such a distribution is not recoverable if the parent corporation or affiliate shows that when paid the distribution was lawful and reasonable and that the insurer did not know and could not reasonably have known that the distribution could adversely affect the ability of the insurer to fulfill its contractual obligations. [PL 1993, c. 313, §13 (NEW).]

C. Any person who was a parent corporation or holding company or a person who otherwise controlled the insurer or affiliate at the time distributions were paid is liable up to the amount of distributions or payments under paragraph A that the person received. Any person who otherwise controlled the insurer at the time the distributions were declared is liable up to the amount of the distributions the person would have received if that person had been paid immediately. If 2 or more persons are liable for the same distributions, those persons are jointly and severally liable. [PL 1993, c. 313, §13 (NEW).]

D. The maximum amount recoverable under this subsection is the amount needed in excess of all other available assets of the impaired or insolvent insurer to pay the contractual obligations of the impaired or insolvent insurer and to reimburse any guaranty funds. [PL 1993, c. 313, §13 (NEW).]

E. To the extent that any person liable under paragraph C is insolvent or fails to pay claims due pursuant to paragraph C, its parent corporation or holding company or person who otherwise controlled it at the time the distribution was paid, is jointly and severally liable for any resulting deficiency in the amount recovered from the parent corporation or holding company or person who otherwise controlled it. [PL 1993, c. 313, §13 (NEW).]

[PL 1993, c. 313, §13 (NEW).]

14-B. Supervision, seizure, conservatorship or receivership proceedings. This subsection governs an affiliate's obligations under supervision, seizure, conservatorship or receivership proceedings against an insurer.

A. An affiliate that is party to an agreement or contract with a domestic insurer that is subject to subsection 9, paragraph E, subparagraph (4) is subject to the jurisdiction of a supervision, seizure, conservatorship or receivership proceeding against the insurer and to the authority of a supervisor, rehabilitator or liquidator for the insurer appointed pursuant to chapter 57 for the purpose of

interpreting, enforcing and overseeing the affiliate's obligations under the agreement or contract to perform services for the insurer that are:

- (1) An integral part of the insurer's operations, including, but not limited to, management, administrative, accounting, data processing, marketing, underwriting, claims handling and investment functions and any other similar functions; or
- (2) Essential to the insurer's ability to fulfill its obligations under insurance policies. [PL 2021, c. 521, §22 (NEW).]

B. The superintendent may require that an agreement or contract subject to subsection 9, paragraph E, subparagraph (4) for the provision of services described in paragraph A, subparagraph (1) or (2) specify that the affiliate consents to jurisdiction as set forth in this subsection. [PL 2021, c. 521, §22 (NEW).]

[PL 2021, c. 521, §22 (NEW).]

15. Additional powers. The powers, remedies, procedures and penalties provided in this section shall be in addition to, and not in limitation of, any other powers, remedies, procedures and penalties otherwise provided by law.

[PL 1975, c. 356, §1 (NEW).]

16. Separability of provisions. If any provision of this section or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of this section which can be given effect without the invalid provision or application, and for this purpose the provisions of this section are separable.

[PL 1975, c. 356, §1 (NEW).]

17. Jurisdiction of courts; service of process. Any person obtaining or attempting to obtain control of a domestic insurer is subject to the jurisdiction of the courts of this State and to service of process in the manner provided in this Title. Unless a valid appointment of an agent for service of process is on file with the superintendent pursuant to another provision of this Title, the person is deemed to have appointed the superintendent as agent for service of process, and service may be made in the same manner as provided in section 2105.

[PL 1999, c. 113, §14 (AMD).]

18. Rules. The superintendent may adopt reasonable rules to carry out provisions of this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2013, c. 238, Pt. A, §28 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

19. Supplemental to existing provisions. This section, as to insurance holding company systems, supplements in particular those provisions contained in sections 407, subsection 2; 410, subsection 1, paragraph B; 413; 423-C; 425; 1115; 1136; 3414; 3474; 3475; 3476; 3483; 3875 and 4407; and the provisions of this section are deemed to supersede or modify any such provisions or any other provisions of this Title to the extent inconsistent therewith.

§223. Conduct of examination; access to records; correction

1. Whenever the superintendent determines to examine the affairs of any person, the superintendent shall designate one or more examiners and instruct them as to the scope of the examination. The superintendent may designate a bureau employee or may designate an examiner outside the bureau who has been retained pursuant to section 208. Examiners may be attorneys, appraisers, independent actuaries, independent certified public accountants or other professionals and specialists with skills relevant to the examination. The examiner shall, upon demand, exhibit the examiner's official credentials to the person under examination.

A. An examiner may not be designated by the superintendent if the examiner directly or indirectly has a conflict of interest or is affiliated with the management of or owns a pecuniary interest in any person subject to examination under sections 221 and 222. This section may not be construed to preclude automatically an examiner from being:

- (1) A policyholder or claimant under an insurance policy;
- (2) A grantor of a mortgage or similar instrument on the examiner's residence to a regulated entity if done under customary terms and in the ordinary course of business;
- (3) An investment owner in shares of regulated diversified investment companies; or
- (4) A settlor or beneficiary of a "blind trust" into which any otherwise impermissible holdings have been placed. [PL 1991, c. 828, §7 (NEW).]

[PL 2017, c. 169, Pt. B, §11 (AMD).]

2. The superintendent shall conduct each examination in an expeditious, fair and impartial manner, consistent with current guidelines and procedures adopted from time to time by the National Association of Insurance Commissioners and published in its Financial Condition Examiners Handbook or Market Regulation Handbook, as applicable, or their successor publications.

[PL 2017, c. 169, Pt. B, §12 (AMD).]

3. Upon any such examination, the superintendent, or the examiner if specifically so authorized in writing by the superintendent, shall have power to administer oaths, and to examine under oath any individual as to any matter relevant to the affairs under examination or relevant to the examination.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. Every person being examined, its officers, attorneys, employees, agents and representatives shall make freely available to the superintendent or designated examiners the accounts, records, documents, files, information, assets and matters of that person in that person's possession or control relating to the subject of the examination and shall facilitate the examination. The refusal of any insurer to submit to examination is grounds for revocation or refusal of a license or renewal license.

[PL 1991, c. 828, §8 (AMD).]

5. If the superintendent or examiner finds any accounts or records to be inadequate, or inadequately kept or posted, the superintendent may employ experts to reconstruct, rewrite, post or balance them at the expense of the person being examined, if such person has failed to maintain, complete or correct such records or accounting after the superintendent or examiner has given such person written notice and a reasonable opportunity to do so.

[RR 2021, c. 1, Pt. B, §166 (COR).]

6. Neither the superintendent nor any examiner shall remove any record, account, document, file or other property of the person being examined from the offices or place of such person, except with the written consent of such person in advance of such removal or pursuant to an order of court duly obtained. §225. Examination report; contents; prima facie evidence in certain proceedings

1. Upon completion of an examination, the examiner in charge shall make a true report thereof which shall comprise only facts appearing upon the books, records or other documents of the person examined, or from an appraisal of assets, or as ascertained from the sworn testimony of its officers or agents or other individuals examined concerning its affairs, and such conclusions and recommendations as may reasonably be warranted from such facts. The report of examination shall be verified by the oath of the examiner in charge thereof.

[PL 1969, c. 132, §1 (NEW).]

2. Such a report of examination of an insurer so verified shall be prima facie evidence in any delinquency proceeding against the insurer, its officers, employees or agents upon the facts stated therein, and whether or not the report has then been filed in the bureau as provided in section 226.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. §226. Examination reports; distribution, hearing; as evidence

1. Within 60 days after completion of the examination, the superintendent shall deliver a copy of the verified examination report to the person examined, together with a notice affording that person 20 days or an additional reasonable period as the superintendent for good cause may allow, within which to review the report and recommend changes to the report.

[PL 1999, c. 113, §15 (AMD).]

2. If requested by the person examined, within the period allowed under subsection 1, or if determined advisable by the superintendent without such request, the superintendent shall hold a hearing relative to the report and may not file the report in the bureau until after the hearing and the superintendent's order on the report; except that the superintendent may furnish a copy of the report to the Governor, Attorney General or Treasurer of State pending final decision and, if the copies are so furnished, they are confidential until the other requirements of this section with regard to examination reports have been satisfied. In lieu of convening a hearing, the superintendent may reopen the examination or, if supported by the information obtained, may adopt some or all of the modifications proposed by the person examined.

[PL 2011, c. 320, Pt. A, §4 (AMD).]

3. If no such hearing has been requested or held, the examination report, with such modifications, if any, thereof as the superintendent deems proper, shall be accepted by the superintendent and filed in the bureau upon expiration of the review period provided for in subsection 1. A copy of the report must also be furnished by the secretary of the insurer, if incorporated, or by the attorney-in-fact, if a reciprocal insurer, to each member of the insurer's board of directors or board of governors, if a reciprocal insurer, and the certificate of the secretary or attorney-in-fact that a copy of the examination report has been so furnished must be deemed to constitute knowledge of the contents of the report by each such member.

[RR 2021, c. 1, Pt. B, §168 (COR).]

6. The report when so filed in the bureau is admissible in evidence in any action or proceeding brought by the superintendent against the person examined, or against its officers, employees or agents. In any such action or proceeding, the superintendent or the superintendent's examiners may at any time testify and offer proper evidence as to information secured or matters discovered during the course of an examination, whether or not a written report of the examination has been either made, furnished or filed in the bureau.

§228. Examination expense

1. The expense of examination of an insurer or of any person regulated under section 222, must be borne by the person examined. Such expense may include only the reasonable and proper hotel and travel expenses of the superintendent and the superintendent's examiners and assistants, including expert assistance, and examiners furnished for the purpose by other states in which the insurer is authorized to transact insurance, reasonable compensation as to such examiners and assistants and incidental expenses as necessarily incurred in the examination. As to expense and compensation, involved in any such examination the superintendent may give due consideration to scales and limitations recommended by the National Association of Insurance Commissioners and outlined in the examination manual sponsored by that association.

[RR 2021, c. 1, Pt. B, §170 (COR).]

2. Such person examined shall promptly pay to the superintendent the expenses of the examination upon presentation by the superintendent of a reasonably detailed written statement thereof. Any insurer with total admitted assets as of the end of the preceding calendar year of \$50,000,000 or greater must comply with this section in satisfaction of the examination assessment.

[PL 1997, c. 660, Pt. B, §1 (AMD).]

3. Except that in lieu of payment of examination expense as above required, a domestic insurer with total admitted assets of less than \$50,000,000 has the right, at its option, of making an annual payment to the superintendent of an examination expense allotment in an amount equal to .001 of its total admitted assets as of the end of the preceding calendar year, which must be made on March 1st with the filing of the insurer's annual statement with the superintendent; or, if the insurer's admitted assets exceed \$10,000,000, but do not exceed \$50,000,000, the insurer has the right, at its further option, to pay to the superintendent with respect to any examination the lesser of:

A. The expense of the examination as determined pursuant to subsections 1 and 2 above; or [PL 1969, c. 132, §1 (NEW).]

B. An annual amount equal to .001 of the first \$10,000,000 of the insurer's admitted assets plus .0002 of the remainder of such assets, limited, however, to insurers whose admitted assets do not exceed \$25,000,000 as such assets are shown by the insurer's financial statement filed with the superintendent for the year-end next preceding the commencement of the examination, such

payment to be made on March 1st with the filing of the insurer's annual statement with the superintendent; or [PL 1997, c. 660, Pt. B, §2 (AMD).]

C. If the admitted assets of the insurer exceed \$25,000,000, but do not exceed \$50,000,000, an annual payment of an examination expense allotment of an amount equal to .001 of the first \$10,000,000 of the insurer's admitted assets, plus .0002 of the next \$15,000,000 of such assets, plus .000175 of the remainder of such assets as are shown by the insurer's financial statement filed with the superintendent for the preceding calendar year. B. Upon written application for a hearing by a person aggrieved by any act or impending act, or by any report or order of the superintendent, other than an order for the holding of a hearing, or order on a hearing, or pursuant to such order, of which hearing such person had notice. The application shall briefly state the respects in which the applicant is so aggrieved, together with the ground to be relied upon for the relief to be demanded at the hearing. The superintendent may require that the application be signed and sworn to.

[PL 1987, c. 220, §2 (AMD).]

4. If the superintendent finds that the application is timely and made in good faith, that the applicant would be so aggrieved if the applicant's grounds are established and that such grounds otherwise justify the hearing, the superintendent shall hold the hearing within 30 days after filing of the application, or within 30 days after the application has been sworn to, whichever is the later date, unless in either case the hearing is postponed by mutual consent. The hearing must be held in conformity with the provisions contained in the Maine Administrative Procedure Act.

§237. Assessment for expense of maintaining the Bureau of Insurance

The expense of maintaining the Bureau of Insurance must be assessed annually by the Superintendent of Insurance against all insurers and health maintenance organizations licensed to do business in this State in proportion to their respective direct gross premium written on business in this State during the year ending December 31st immediately preceding the fiscal year for which assessment is made. The annual assessment upon all insurers must be applied to the budget of the bureau for the fiscal year commencing July 1st. For any biennial period, total assessment must be in an amount not exceeding .002 of total direct premiums written. When the superintendent calculates the amount of the annual assessment, the superintendent must consider, among other factors, the staffing level required to administer the responsibilities of the bureau. [PL 1997, c. 79, §2 (AMD).]

1. Expense of examination. The expense of examination of an insurer or of any person regulated by section 222 continues to be borne by the person examined. The expense of examination consistent with section 228 may not be considered when determining the assessment for maintaining the Bureau of Insurance.

[PL 1997, c. 79, §2 (AMD).]

2. Direct gross premium. Based on the annual statement filed by each insurer pursuant to section 423 or health maintenance organization pursuant to section 4208, the superintendent shall ascertain the amount of direct gross premium it received in that year. For the purpose of this section only, "direct gross premiums" means and includes policy, membership, annuity considerations and other fees, policy dividends applied in payment for insurance and other considerations for insurance received by insurers or health maintenance organizations, on account of policies or contracts covering subjects of insurance, or risks located, resident or to be performed in this State, after deducting return premiums or dividends actually returned or credited to policyholders.

[PL 1997, c. 79, §2 (AMD).]

3. Minimum assessment. In any year in which an insurer or health maintenance organization has no direct gross premium writings in this State, or in which direct gross premium written is not sufficient to produce at the rate prescribed an amount equal to or in excess of \$100, the minimum assessment payable by any insurer or health maintenance organization is \$100.

[PL 1997, c. 79, §2 (AMD).]

4. Notification of assessment. On or before July 1st of each year, the superintendent shall forward to each insurer or health maintenance organization an itemized bill of the amount due for the annual assessment, the amount due for filing of the annual statement pursuant to sections 423 and 601 and the amount due for the certificate of authority annual continuation fee pursuant to section 601. When an extension of the time of filing an annual statement is granted for good cause by the superintendent pursuant to section 423, subsection 1, or section 4208, the insurer or health maintenance organization must be assessed a provisional amount of \$100. Upon receipt of the insurer's or health maintenance organization's annual statement, the provisional assessment must be adjusted to effect a final assessment for the fiscal year at the same rate utilized by the superintendent and levied upon all insurers by the general assessment of July 1st.

[PL 1997, c. 79, §2 (AMD).]

5. Time of payment. Time of payment for the annual assessment, the annual statement filing fee and the annual continuation fee must be made on or before August 10th.

[PL 1995, c. 544, §1 (AMD).]

6. Revocation or suspension. If the annual assessment, annual statement filing fee or annual continuation fee is not paid to the superintendent on or before the prescribed date, the license or certificate of authority of an insurer or health maintenance organization to transact business in this State

may be revoked or suspended by the superintendent after a hearing or upon waiver of hearing by the insurer or health maintenance organization until the annual assessment, annual statement filing fee and annual continuation fee is paid. A reinstatement of certificate of authority may not be made prior to payment of the balance of the annual assessment, annual statement filing fee or continuation fee.

[PL 1997, c. 79, §2 (AMD).]

7. Recalculation of assessment. Immediately following the close of the fiscal year ending June 30, 1987, and at the close of each 2nd succeeding fiscal year, the superintendent shall recalculate the assessment made against each party assessed after giving recognition to actual expenditures of the bureau during the preceding biennial period. On or before October 1st, the superintendent shall render to each party assessed a statement showing the difference between their respective recalculated assessment and the amount they had paid with respect to the preceding biennium. Any overpayment of annual assessment resulting from complying with the requirements of this section must be refunded or, at the option of the assessed party, applied as a credit against the assessment for the succeeding fiscal year. Any overpayment of \$100 or less must be applied as a credit against the assessment for the succeeding fiscal year.

[PL 1997, c. 79, §2 (AMD).]

8. Deposit with Treasurer of State. The superintendent shall deposit all payments made pursuant to this section with the Treasurer of State. The money must be used for the sole purpose of paying the expenses of the Bureau of Insurance.

[PL 1997, c. 79, §2 (AMD).]

9. Exclusions. This section does not apply to fraternal benefit societies, as defined in section 4101; assessment mutual insurance companies, as defined in section 3603; and joint underwriting associations, subject to section 2322-A.

[RR 2021, c. 2, Pt. A, §67 (COR).]

10. Applicability. This section applies with respect to insurers for fiscal years commencing on or after July 1, 1986 and to health maintenance organizations for fiscal years commencing on or after July 1, 1997.

Except:

A. An insurer holding a valid certificate of authority to transact insurance in this State on January 1, 1970 may, if otherwise qualified therefor until January 1, 1989, continue to be so authorized while possessing paid-in capital stock, if a stock insurer, or surplus, if a mutual or reciprocal insurer, as required for such authority immediately prior to January 1, 1970. [PL 1991, c. 385, §2 (AMD).]

B. Prior to January 1, 1989, the superintendent may not authorize such an insurer to transact any other kinds of insurance unless it complies with the requirements as to capital stock, if a stock insurer, or basic surplus, if a mutual or reciprocal insurer, as applied to all kinds of insurance it proposes to transact, as provided in the table contained in this paragraph.

A health, life and health or multiple line (as described in section 409) insurer may qualify for a certificate of authority to transact a legal services insurance business, as described in chapter 38, if it is otherwise qualified therefor and possesses and thereafter maintains, in addition to the amounts described in the following table, an additional amount of unimpaired paid-in capital stock, if a stock insurer, or unimpaired basic surplus, if a foreign mutual or reciprocal insurer, of not less than \$500,000.

C. Until January 1, 1989, a domestic mutual insurer formed prior to January 1, 1968, and while possessing surplus of not less than \$200,000 may be authorized to transact, in addition to the types of insurance it was transacting prior to July 24, 1984, any other additional kinds of insurance authorized by its charter; subject to those minimum required basic surplus amounts applicable as to foreign mutual insurers as contained in the table in paragraph B, if the insurer is to transact life insurance together with any one or more of property, casualty, surety or marine and transportation insurances. [PL 1987, c. 78, §1 (AMD).]

D. Domestic mutual insurers holding a certificate of authority upon January 1, 1989, if otherwise qualified, and possessed of basic surplus in minimum required amounts as contained in the table in this paragraph may continue to be so authorized, provided those insurers continue to possess and maintain unimpaired basic surplus funds as determined in this paragraph and applicable to those lines or kinds of insurance permitted by its certificate of authority immediately prior to January 1, 1989. Upon application by any such insurer and written approval by the superintendent, the insurer's certificate of authority may be extended to permit the writing of other kinds or lines of insurance if the insurer is qualified and possessed of basic surplus funds in amounts contained in the table in this paragraph. A domestic mutual insurer holding a certificate of authority prior to January 1, 1989, but which does not possess and maintain basic surplus in the minimum required amounts contained in the table in this paragraph, may continue to be authorized to transact insurance in this State and to write other kinds or lines of insurance, subject to the approval of the superintendent, as long as it maintains 100% reinsurance and has no liabilities.

For the purposes of this paragraph, any assuming reinsurer must be a corporation which possesses the ability to exercise control of the ceding insurer, must be an insurance company possessed of a certificate of authority to transact the same kinds of insurance in this State as those assumed and shall file a consolidated annual statement as required by section 423.

A health, life and health or multiple line (as described in section 409) insurer may qualify for a certificate of authority to transact a legal services insurance business, as described in chapter 38, if it is otherwise qualified therefor and possesses and thereafter maintains, in addition to the amounts

described in the following table, an additional amount of unimpaired paid-in capital stock, if a stock insurer, or unimpaired basic surplus, if a foreign mutual or reciprocal insurer, of not less than \$500,000.

| Kind or Kinds of Insurance | Domestic Mutual Insurers |

| Casualty | 750,000 |
| Marine and Transportation | 1,000,000 |
| Property | 500,000 |
| Surety | 1,000,000 |
| Title | 350,000 |
| Multiple Line (as defined in section 409) | 1,250,000 |
| All line (as defined in section 409) | 2,500,000 |

E. An insurer that otherwise possesses funds as required under this subsection shall at all times maintain policyholders' surplus, combined paid-in capital stock, if any, and surplus, reasonable in amount, as determined by the superintendent, in relation to the kinds and amount of insurance it has in force, or being written and retained by it, net of applicable reinsurance. In making any such determination, the superintendent shall give due consideration to any applicable standards approved or adopted by the National Association of Insurance Commissioners and to the desirability of substantial uniformity as to such requirements among the respective states. [PL 1991, c. 385, §2 (AMD).]

F. A health maintenance organization as a division or line of business is subject to this paragraph.

(1) An insurer that operates a health maintenance organization as a division or a line of business shall possess and maintain policyholder's surplus, including paid-in capital stock if any, as otherwise required by this section and in addition shall meet the surplus requirements of section 4204-A.

(2) A nonprofit hospital or medical service organization that operates a health maintenance organization as a division or as a line of business shall possess and maintain subscriber reserves as defined in Title 24, section 2301, subsection 9-A, paragraph H, subparagraph (2) and in an amount required by the superintendent and in addition shall meet the surplus requirements of section 4204-A. [RR 2021, c. 2, Pt. A, §68 (COR).]

[RR 2021, c. 2, Pt. A, §68 (COR).]

2. Capital and surplus requirements are based upon all the kinds of insurance transacted by the insurer in any and all areas in which it operates or proposes to operate, whether or not only a portion of such kinds are to be transacted in this State.

[PL 1969, c. 132, §1 (NEW).]

3. As to surplus required for authority to transact one or more kinds of insurance and thereafter to be maintained, domestic mutual legal reserve insurers hereafter formed are governed by chapter 47.

§412. Deposits

1. No insurance company other than a domestic real estate title insurance company or a domestic mutual fire insurance company that is transacting only the business of fire, marine or glass on the assessment plan may do so in this State unless it makes and maintains a deposit with the Superintendent of Insurance, as security for all its policyholders, of securities that are determined eligible for deposit under section 1253. The deposit must be maintained in a minimum actual market value that, exclusive of interest, may never be less than \$100,000. The deposit must be retained by the superintendent and disposed of as directed by section 1263.
[PL 1999, c. 113, §16 (AMD).]

2. Any admitted foreign insurance company may file with the superintendent a certificate of the insurance supervisory official of such other jurisdiction that the supervisory official holds in trust and on deposit for benefit of all the policyholders of the company a deposit of not less than \$100,000 in such securities as are required or permitted to be deposited with that supervisory official by the laws of that jurisdiction. These securities are to be of a character consistent with investment authority in such jurisdiction. Such certificate must contain a statement by the supervisory official that the supervisory official is satisfied that the actual market value of these securities is of minimum value of \$100,000. A deposit may not be required to be maintained in this State while such a deposit, if so certified, is retained by the supervisory official.
[RR 2021, c. 1, Pt. B, §178 (COR).]

3. The superintendent shall receive and hold in trust deposits made under this section by any domestic insurance company in compliance with the laws of this or any other state, to enable it to do business in this or any other state, and in like manner shall hold deposits made by a foreign company under the laws of this State. The company making such deposit shall be entitled to any investment income thereon and with the superintendent's consent, if not inconsistent with the laws under which such deposit was made, may exchange in whole or in part such securities comprising the deposit for other approved securities of equal value.
[PL 1975, c. 77 (RPR).]

4. The superintendent shall not authorize an alien insurer to transact insurance in this State unless it makes in this State through the superintendent and thereafter continuously maintains a deposit, representing funds in excess of all the insurer's liabilities under insurance contracts in force in the United States of America, of a fair market value in amount not less than the minimum paid-in capital

stock required under this Title of a foreign stock insurer authorized to transact like kinds of insurance in this State. The superintendent may require additional trustee surplus funds in reasonable amount to secure the interest of beneficiaries under policies insured by the alien insurer. In addition to the foregoing trustee surplus account, an alien insurer authorized pursuant to this Title shall establish and maintain in one or more states of the United States a deposit or deposits of trust assets of a kind and quality as generally required by this section. The value of the deposit or deposits shall be at least equal to those obligations resulting from insurance in force in the United States. The deposit or deposits shall, if located outside the State, be subject to administration standards comparable to those contained in this Title. The deposit shall be held in trust for the exclusive benefit of the insurer's policyholders and creditors in the United States of America.

A. In lieu of such a deposit made or maintained in this State, the superintendent shall accept the certificate in proper form of the insurance supervisory official having general supervision of insurers in any other state to the effect that a deposit of like quality and amount, or part thereof, by such insurer is being maintained for like purposes in public custody or control pursuant to the laws of such state. [PL 1975, c. 77 (NEW).]
[PL 1985, c. 330, §2 (AMD).]

5. All such deposits in this State are subject to the provisions of chapter 15 (Administration of Deposits).

§413-A. Alien insurer; port of entry

1. Port of entry. An alien insurer that has been authorized by the superintendent to use the State as its port of entry for the transaction of business in the United States is considered a domestic insurer to the extent provided in this section. An alien insurer that has been approved by another state to use that state as its port of entry is considered to be domiciled in that state in the same manner, if there is a valid reciprocity agreement between that state and this State or if the superintendent has determined that the applicable laws of that state are substantially similar to this section and its implementing rules. [PL 1999, c. 113, §17 (AMD).]

2. Rules. The superintendent shall adopt rules establishing the terms and conditions of port of entry authorization, which include without limitation:

A. The requirements an alien insurer must satisfy to qualify for port of entry authorization. These requirements must include, at a minimum:

- (1) Agreement to adhere to all laws applicable to domestic insurers;
- (2) Maintenance of appropriate trust surplus or other adequate security within the State;
- (3) Maintenance of records of all United States operations within the State; and
- (4) Maintenance of a separate financial reporting system for United States operations; [PL 1995, c. 375, Pt. D, §1 (NEW).]

B. The procedures for obtaining, maintaining and terminating port of entry authorization; and [PL 1995, c. 375, Pt. D, §1 (NEW).]

C. Modifications of the provisions of this Title, and of the rules adopted by the superintendent that apply to domestic insurers, as the superintendent determines necessary for the appropriate regulation of alien insurers with port of entry authorization. [PL 1995, c. 375, Pt. D, §1 (NEW).]

§414. Issuance, refusal of authority, ownership of certificate

1. If upon completion of its application, the superintendent finds that the insurer has met the requirements therefor under this Title, and that the insurer has furnished evidence satisfactory to the superintendent that its methods of operation are not such as would render its proposed operation hazardous to the public or its policyholders in this State, the superintendent shall issue to the insurer a proper certificate of authority; otherwise, the superintendent shall issue an order refusing such certificate.

[RR 2021, c. 1, Pt. B, §179 (COR).]

2. The certificate of authority, if issued, shall state the insurer's name, home office address, state or country of organization, and the kinds of insurance the insurer is authorized to transact throughout this State. At the insurer's request, the superintendent may issue a certificate of authority limited to particular types of insurance or coverages within a kind of insurance as defined in chapter 9.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. Although issued and delivered to the insurer, the certificate of authority at all times shall be the property of the State of Maine. Upon any expiration, suspension or termination thereof, the insurer shall promptly deliver the certificate to the superintendent.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. Insurers required to file an annual statement must, as a condition to the issuance or continuance of a certificate of authority, provide the National Association of Insurance Commissioners with all information required for participation in the Insurance Regulatory Information System. This filing must contain the insurer's current annual statement convention blank and, if requested by the superintendent or the National Association of Insurance Commissioners, publicly available financial reports of any affiliated insurers or other entities necessary for analyzing any insurer licensed in this State. Each statement furnished by an insurer must be manually executed by those persons who are required by section 423 to verify an annual statement utilizing the prescribed jurat. Any amendments and addendums to the annual statement subsequently filed with the superintendent must also be filed with the National Association of Insurance Commissioners. Insurers shall provide written certification to the superintendent that they have complied with this subsection when they file their annual statements. This subsection does not apply to any insurer doing business under chapter 51.

In the absence of bad faith, fraud or intentional act, an officer or an employee of the National Association of Insurance Commissioners may not be subject to civil liability for libel, slander or any other cause of action in tort as a result of processing data or other information filed by insurers under this subsection or distribution of reports prepared on the basis of that information to insurance regulatory officials of any state that has subscribed to and used the Insurance Regulatory Information System through the National Association of Insurance Commissioners. Information provided to the superintendent that is held confidential by the National Association of Insurance Commissioners must be held confidential by the superintendent unless that information is relevant to any hearing conducted by the superintendent pursuant to section 229 or an order requiring disclosure is issued by the Superior Court.

[PL 1991, c. 828, §13 (AMD).]

5. The superintendent may require insurers subject to this section to make available any accountant's work papers created during an audit.

A. The superintendent may review the accountant's work papers upon timely notice to the insurer. The superintendent may photocopy or otherwise record the contents of work papers during the review. [PL 1989, c. 846, Pt. C, §3 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. Any work papers or copies of work papers under the superintendent's custody or control are confidential and are not subject to public inspection. [PL 1989, c. 846, Pt. C, §3 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

C. The work papers of an insurer's subsidiaries, parent or other corporate affiliates are deemed to be the insurer's work papers to the extent that the work papers reference transactions between the insurer and the subsidiary, parent or corporate affiliate and affect the insurer's final equity determination. [PL 1989, c. 846, Pt. C, §3 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

D. The insurer shall, as a condition of the accountant's engagement, require accountants:

(1) To retain any work papers prepared in connection with an audit of the insurer for at least 6 years after the close of a reporting period; and

(2) To provide the work papers, or a copy, to the insurer at the insurer's request. [PL 1989, c. 846, Pt. C, §3 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

E. For purposes of this subsection, the term "work papers" includes, but is not limited to, schedules, analyses, reconciliations, abstracts, memoranda, narratives, flow charts, copies of company records or other documents prepared or obtained by the accountant and the accountant's employees in conducting the examination of the insurer. §415-A. Termination of certificate of authority

An authorized insurer which elects to terminate its license authority in this State, in whole or in part, shall submit a withdrawal plan designed to protect policyholders and claimants which is subject to approval by the superintendent. The insurer shall submit its plan at least 60 days prior to its proposed date of withdrawal. The plan shall include, but not be limited to, requirements and procedures for meeting the insurer's existing contractual obligations, providing security in the event of a subsequent insolvency and meeting any applicable statutory obligations. The plan shall also comply with any further terms and conditions which are prescribed by rules adopted by the superintendent. In order to protect the interest of the people of this State, the superintendent may require the insurer to make a deposit of securities of a nature and type eligible under section 1253, to be held in trust by the treasurer in the name of the superintendent. [PL 1985, c. 330, §5 (NEW).]

If an insurer's license authority is revoked, suspended or otherwise terminated in a manner other than by its election, the superintendent shall issue an order which prescribes terms and conditions related to the license termination which shall, to the extent practicable, conform to the requirements governing withdrawal plans as prescribed by this section and rules promulgated under this section. In the event that an insurer attempts to terminate its license authority in this State without filing a withdrawal plan acceptable to the superintendent, the superintendent shall issue an order prescribing the terms and conditions of the termination. Any order issued pursuant to this section, including an order directing an insurer to produce relevant information, may be enforced as provided by section 214. [PL 1985, c. 330, §5 (NEW).]

SECTION HISTORY

PL 1985, c. 330, §5 (NEW).

§416. Petition for suspension or revocation of certificate of authority; mandatory grounds

1. Notwithstanding Title 4, chapter 5, and Title 5, section 10051, the superintendent shall refuse to continue or shall suspend or revoke an insurer's certificate of authority:

- A. If such action is required by any provision of this Title; [PL 1983, c. 419, §1 (AMD).]
- B. If a foreign insurer and it no longer meets the requirements for a certificate of authority, on account of deficiency of capital or surplus or otherwise; [PL 1983, c. 419, §1 (AMD).]

C. If a domestic insurer and it has failed to cure an impairment of capital or surplus within the time allowed therefor by the superintendent under this Title or is otherwise no longer qualified for the certificate of authority; [PL 1983, c. 419, §1 (AMD).]

D. If the insurer's certificate of authority to transact insurance therein is suspended or revoked by its state of domicile, or state of entry into the United States, if an alien insurer; or [PL 1969, c. 132, §1 (NEW).]

E. For failure of the insurer to pay taxes on its premiums as required by law. [PL 1969, c. 132, §1 (NEW).]

[PL 1999, c. 547, Pt. B, §44 (AMD); PL 1999, c. 547, Pt. B, §80 (AFF).]

2. Except in case of insolvency or impairment of required capital or surplus, or suspension or revocation by another state as referred to in subsection 1, paragraph D, the superintendent shall give the insurer at least 20 days notice in advance of any such refusal, suspension or revocation under this section and of the particulars of the reasons therefor. If the insurer requests a hearing thereon within the 20 days, the request automatically stays the superintendent's proposed action until the superintendent's order is made on that hearing. Hearings held pursuant to this subsection must be held in conformity with Title 5, chapter 375, subchapter 4.

[RR 2021, c. 1, Pt. B, §180 (COR).]

3. If an action initiated by the superintendent to suspend or revoke an insurer's certificate of authority is based on subsection 1, paragraphs B or C, a sworn statement of financial condition of the insurer signed by an officer of the insurer which indicates that the insurer no longer meets the requirements for a certificate of authority shall be prima facie proof that the requirements for a certificate of authority are not met.

1. Notwithstanding Title 4, chapter 5 and Title 5, section 10051, the superintendent may refuse to continue or may suspend or revoke an insurer's certificate of authority if the superintendent finds, after a hearing thereon or upon waiver of hearing by the insurer, that the insurer has violated or failed to comply with any lawful order of the superintendent, or has willfully violated or willfully failed to comply with any lawful rule of the superintendent, or has violated any provision of this Title other than those for violation of which suspension or revocation is mandatory.

A. Is in unsound condition, or is being fraudulently conducted, or is in such condition or using such methods and practices in the conduct of its business as to render its further transaction of insurance in this State currently or prospectively hazardous or injurious to policyholders or to the public; [PL 1983, c. 419, §2 (AMD).]

B. With such frequency as to indicate its general business practice in this State, has without just cause failed to pay, or delayed payment of, claims arising under its policies, whether the claim is in favor of an insured or is in favor of a 3rd person; or, with like frequency, without just cause compels insureds or claimants to accept less than the amount due them or to employ attorneys or

to bring suit against the insurer or an insured to secure full payment or settlement of such claims; [RR 2021, c. 1, Pt. B, §181 (COR).]

C. Upon suspending a certificate of authority under this subsection, the superintendent shall promptly schedule a hearing on the matter, to be held within 30 days of the suspension. The superintendent shall make a determination within 30 days after the conclusion of that hearing.

§423-C. Reports of material transactions

1. **Report required.** Every domestic insurer must file a report with the superintendent, on or before the 15th day of each month, if it has engaged in a material investment or reinsurance transaction

during the preceding month that has not already been separately reported to the superintendent or submitted to the superintendent for prior review.

[PL 1995, c. 375, Pt. A, §1 (NEW).]

2. Material transactions defined. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Material investment transaction" means an acquisition or disposition of an asset or the aggregate of a series of related acquisitions or related dispositions during a 30-day period that is nonrecurring, not in the ordinary course of business and involving more than 5% of the reporting insurer's total admitted assets as reported in its most recent statutory statement filed with the superintendent. Asset acquisitions and dispositions include without limitation a purchase, sale, lease, exchange, merger, consolidation, succession, mortgage, hypothecation, assignment, whether for the benefit of creditors or otherwise, abandonment or destruction. Asset acquisition does not include the construction or development of real property for the use of the reporting insurer or the acquisition of materials for such construction or development. [PL 1995, c. 375, Pt. A, §1 (NEW).]

B. "Material reinsurance transaction" means:

(1) A transaction involving property and casualty business, including accident and health business written by a property and casualty insurer, that involves more than 50% of either the insurer's total ceded written premium or the insurer's total ceded indemnity and loss adjustment reserves;

(2) A transaction involving life, annuity or accident and health business that causes a change, either positive or negative, in the current total reserve credit taken for all life, annuity and accident and health business of more than 50% from the total reserve credit taken for such business in the insurer's most recent annual statement. "Total reserve credit" includes reserve credit taken for unearned premiums, reserve credit taken other than for unearned premiums and amounts recoverable on paid and unpaid losses for all reinsurance ceded;

(3) Any transaction in which either:

(a) An authorized reinsurer representing more than 10% of the insurer's total reserve credit for business ceded is replaced by one or more unauthorized reinsurers; or

(b) Previously established collateral requirements have been reduced or waived for one or more unauthorized reinsurers representing collectively more than 10% of the insurer's total reserve credit for business ceded; or

(4) Transactions otherwise falling within the scope of this paragraph do not need to be reported if:

(a) In the case of a property and casualty insurer, the insurer's total ceded written premium represents, on an annualized basis, less than 10% of its total written premium for direct and assumed business;

(b) In the case of a life, annuity and accident and health insurer, the total reserve credit taken for business ceded represents, on an annualized basis, less than 10% of the statutory reserve requirement before any cession; or

(c) The transaction falls within the scope of a previously reported reinsurance agreement.

[RR 1995, c. 2, §51 (COR).]

[RR 1995, c. 2, §51 (COR).]

3. Reporting procedures. Reports for material investment transactions and material reinsurance transactions must follow the following procedures.

- A. A report of a material investment transaction must include the following information:
- (1) Date of the transaction;
 - (2) Manner of acquisition or disposition;

- B. A report of a material reinsurance transaction must include the following information:
- (1) Effective date of the nonrenewal, cancellation or revision of the reinsurance agreement affected by the transaction;
 - (2) The description of the transaction with an identification of the initiator of the transaction;
 - (3) Purpose of or reason for the transaction; and
 - (4) If applicable, the identity of the replacement reinsurers. [PL 1995, c. 375, Pt. A, §1 (NEW).]
- C. Material transactions must be reported on a nonconsolidated basis unless the insurer is part of a consolidated group of insurers that uses a pooling arrangement of 100% reinsurance agreement that affects the solvency and integrity of the insurer's reserves, and the insurer has ceded substantially all of its direct and assumed business to the pool. An insurer is considered to have ceded substantially all of its direct and assumed business to a pool if the insurer has less than \$1,000,000 total direct and assumed written premiums during a calendar year that are not subject to a pooling arrangement and the net income of the business not subject to the pooling arrangement represents less than 5% of the insurer's capital and surplus. [PL 1995, c. 375, Pt. A, §1 (NEW).]
[PL 1995, c. 375, Pt. A, §1 (NEW).]

The annual report supplements must contain sufficient detail for the public to understand the components of cost incurred by authorized health insurers and health maintenance organizations as well as the annual cost trends of these carriers. The superintendent shall develop standardized definitions of each reported measure. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2017, c. 169, Pt. A, §5 (NEW).]

E. [PL 2021, c. 521, §23 (RP).]
[PL 2021, c. 521, §23 (AMD).]

2. Disclosure requirement. This subsection governs corporate governance annual disclosure filings.

A. A domestic insurance carrier shall file a corporate governance annual disclosure in accordance with this subsection no later than June 1st of each calendar year. The carrier's insurance group may file the CGAD on behalf of the carrier.

[PL 2017, c. 169, Pt. A, §5 (NEW).]

C. A CGAD may provide information regarding corporate governance at the level of the group's ultimate controlling parent or intermediate holding company, at the individual legal entity level or at any combination of these levels depending upon how the domestic insurance carrier or insurance group has structured its system of corporate governance. The domestic insurance carrier or insurance group is encouraged to make the CGAD at the level:

LIMITS OF RISK

§721. Limits of risk

1. No insurer shall retain any risk on any one subject of insurance, whether located or to be performed in this State or elsewhere, in an amount exceeding 10% of its surplus to policyholders.
[PL 1969, c. 132, §1 (NEW).]

2. A "subject of insurance" for the purposes of this section, as to insurance against fire and hazards other than windstorm, earthquake and other catastrophic hazards, includes all properties insured by the same insurer which are customarily considered by underwriters to be subject to loss or damage from the same fire or the same occurrence of any other hazard insured against.
[PL 1969, c. 132, §1 (NEW).]

3. Reinsurance ceded as authorized by subchapter 3 must be deducted in determining risk retained. As to surety risks, deduction must be made of the amount assumed by any authorized cosurety and the value of any security deposited, pledged or held subject to the surety's consent and for the surety's protection.

§731-A. Acceptance of reinsurance

An insurer may accept reinsurance only of such kinds of risks, and retain risk thereon within such limits, as the insurer is otherwise authorized to insure. [PL 1989, c. 846, Pt. E, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

SECTION HISTORY

PL 1989, c. 846, §§E2,4 (NEW).

§731-B. Credit for reinsurance

1. Except to the extent that the liabilities ceded are secured in accordance with subsection 3, credit for reinsurance is allowed a domestic ceding insurer as either an asset or a deduction from liability on account of reinsurance ceded only when the reinsurance is ceded to a solvent assuming insurer that:

A. Is licensed to transact insurance or reinsurance in this State, provided the assuming insurer maintains surplus as regards policyholders in an amount not less than the sum of paid-in capital stock, if any, and surplus as otherwise required for a certificate of authority for the kinds and amount of insurance and assumed reinsurance the insurer has in force net of any applicable ceded reinsurance. If the assuming insurer is licensed as a special purpose reinsurance vehicle pursuant to section 782 and maintains capital and surplus in accordance with the requirements of section 787, credit for reinsurance under a special purpose reinsurance vehicle contract, as defined in section 781, subsection 15, is allowed only to the extent that:

- (1) The fair value of the assets held by or for the benefit of the ceding insurer equals or exceeds the obligations due and payable to the ceding insurer by the special purpose reinsurance vehicle under the special purpose reinsurance vehicle contract;
- (2) The assets are held in accordance with the requirements in subchapter 6;
- (3) The assets are administered in the manner and pursuant to arrangements under subchapter 6;
- (4) The assets are held or invested in one or more of the forms allowed in section 795; and
- (5) The contract complies with all other relevant requirements of subchapter 6; [PL 2007, c. 386, §1 (AMD).]

B. Is domiciled and licensed in a state that employs standards regarding credit for reinsurance substantially similar to those applicable under this section, if the insurer:

- (1) Submits to the authority of this State to examine its books and records; and
- (2) Except where reinsurance is ceded and assumed pursuant to pooling arrangements among insurers in the same holding company system, maintains a surplus regarding policyholders in an amount not less than \$20,000,000; [PL 1991, c. 828, §16 (AMD).]

B-1. Is accredited as a reinsurer in this State, in accordance with the following standards.

- (1) To apply for accreditation, a reinsurer shall file with the superintendent a written application on a form prescribed by the superintendent, accompanied by the fee prescribed in section 601, subsection 26 and an agreement to submit to the jurisdiction of the courts of this State and to the authority of the superintendent to examine the reinsurer's books and records.
- (2) An accredited reinsurer must be licensed to transact insurance or reinsurance in at least one state, or in the case of a United States branch of an alien reinsurer, that reinsurer must be entered through and licensed to transact insurance or reinsurance in at least one state.
- (3) An accredited reinsurer shall file with the superintendent, as part of its application and annually thereafter, a copy of its annual statement filed with the insurance department of its state of domicile or United States port of entry and a copy of its most recent audited financial statement.
- (4) A reinsurer applying for accreditation that maintains a surplus as regards to policyholders in an amount not less than \$20,000,000 is deemed to be accredited if the reinsurer's application is not denied by the superintendent within 90 days after submission of the application. The superintendent has the discretion to grant accreditation to an applicant with a surplus less than \$20,000,000 subject to such terms and conditions as the superintendent determines to be necessary and appropriate for the protection of domestic ceding insurers and their policyholders; [PL 2021, c. 16, §6 (AMD).]

B-2. Is certified as a reinsurer in this State and secures its obligations in accordance with this paragraph.

- (1) To be eligible for certification, the assuming insurer must meet the following requirements:
 - (a) The assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a jurisdiction determined by the superintendent to be a qualified jurisdiction pursuant to subparagraph (3);
 - (b) The assuming insurer must maintain minimum capital and surplus, or its equivalent, in an amount to be determined by the superintendent pursuant to rules adopted under subsection 7;
 - (c) The assuming insurer must maintain financial strength ratings from 2 or more rating agencies determined by the superintendent to be acceptable pursuant to rules adopted under subsection 7;
 - (d) The assuming insurer must agree to submit to the jurisdiction of this State and to appoint an agent for service of process in the same manner as provided for authorized insurers under section 421 and agree to provide security for 100% of the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers if the assuming insurer resists enforcement of a final United States judgment;
 - (e) The assuming insurer must agree to meet applicable information filing requirements as determined by the superintendent, both with respect to an initial application for certification and on an ongoing basis. Documents filed with the superintendent by the assuming insurer

- are not public records if the documents are confidential under the laws of the assuming insurer's domiciliary jurisdiction;
- (f) The assuming insurer must pay the application fee prescribed in section 601, subsection 26-A and, to the extent provided in rules adopted under subsection 7, must agree to pay reasonable costs of review; and
- (g) The assuming insurer must satisfy any other requirements for certification established by the superintendent.
- (2) An association including incorporated and individual unincorporated underwriters may be a certified reinsurer. In order to be eligible for certification, in addition to satisfying the requirements of subparagraph (1):
- (a) The association may satisfy its minimum capital and surplus requirements through the capital and surplus equivalents, net of liabilities, of the association and its members, which must include a joint central fund that may be applied to any unsatisfied obligation of the association or any of its members, in an amount determined by the superintendent to provide adequate protection;
- (b) The incorporated members of the association may not be engaged in any business other than underwriting as a member of the association and must be subject to the same level of regulation and solvency control by the association's domiciliary regulator as are the unincorporated members; and
- (c) Within 90 days after its financial statements are due to be filed with the association's domiciliary regulator, the association shall provide to the superintendent an annual certification by the association's domiciliary regulator of the solvency of each underwriter member of the association or, if a certification is unavailable, financial statements, prepared by independent public accountants, of each underwriter member of the association.
- (3) The superintendent shall create and publish a list of jurisdictions that are qualified to serve as the domiciliary regulators of certified reinsurers.
- (a) In order to determine whether the domiciliary jurisdiction of an alien assuming insurer is eligible to be recognized as a qualified jurisdiction, the superintendent shall evaluate the appropriateness and effectiveness of the reinsurance supervisory system of the jurisdiction, both initially and on an ongoing basis, and consider the rights, benefits and the extent of reciprocal recognition afforded by the jurisdiction to reinsurers licensed and domiciled in the United States. To be recognized as qualified, a jurisdiction must agree to share information and cooperate with the superintendent with respect to all certified reinsurers domiciled within that jurisdiction. A jurisdiction may not be recognized as a qualified jurisdiction if the superintendent has determined that the jurisdiction does not adequately and promptly enforce final United States judgments and arbitration awards. The superintendent may consider additional factors.
- (b) If the National Association of Insurance Commissioners has published a list of recommended qualified jurisdictions, the superintendent shall consider that list in determining qualified jurisdictions. If the superintendent recognizes a jurisdiction as qualified that does not appear on the list published by the National Association of Insurance Commissioners, the superintendent shall make detailed findings of fact supporting the recognition in accordance with criteria to be developed in rules adopted under subsection 7.
- (c) United States jurisdictions that are accredited by the National Association of Insurance Commissioners must be recognized as qualified jurisdictions.

- (d) If a certified reinsurer's domiciliary jurisdiction ceases to be a qualified jurisdiction, the superintendent may suspend the reinsurer's certification indefinitely, in lieu of revocation.
- (4) The superintendent shall assign a rating to each certified reinsurer, giving due consideration to the financial strength ratings that have been assigned by rating agencies determined to be acceptable pursuant to rules adopted under subsection 7. The superintendent shall publish a list of all certified reinsurers and their ratings.
- (5) A certified reinsurer shall secure all obligations assumed from United States ceding insurers under this subsection, and under comparable laws of other states, at a level consistent with its rating and in a form acceptable to the superintendent, in compliance with rules adopted under subsection 7.
- (a) If the security is insufficient, the superintendent shall reduce the allowable credit by an amount proportionate to the deficiency and may impose further reductions in allowable credit upon finding that there is a material risk that the certified reinsurer's obligations will not be paid in full when due.
- (b) The reinsurer may secure its obligations as a certified reinsurer through a multibeneficiary trust that meets the requirements of paragraph C and subsection 2-A, with the following modifications.
- (i) The maximum credit allowable may exceed the value of the qualifying security to the extent provided in this subparagraph.
- (ii) The minimum trusteed surplus is \$10,000,000, rather than the amount specified in paragraph C.
- (iii) If the certified reinsurer also maintains a multibeneficiary trust for obligations required to be fully secured under paragraph C or comparable laws of other states, the certified reinsurer shall maintain separate trust accounts for its obligations incurred under reinsurance agreements issued or renewed with reduced security as permitted by this paragraph or comparable laws of other United States jurisdictions and for its obligations that are required to be fully secured. The trust accounts may not be approved as qualifying security unless the reinsurer has bound itself, by the language of the trust and by agreement with the insurance regulator with principal oversight of each such trust account, to apply, upon termination of any such trust account, the remaining surplus of that trust to the extent necessary to fund any deficiency of any other such trust account.
- (c) If a certified reinsurer does not secure its obligations through a qualifying multibeneficiary trust, it must secure its obligations to the ceding insurer consistent with the requirements of subsection 3, except that the maximum credit allowable may exceed the value of the qualifying security to the extent provided in this subparagraph.
- (d) For purposes of this subparagraph, a certified reinsurer whose certification has been terminated for any reason must be treated as a certified reinsurer required to secure 100% of its obligations, unless the superintendent has continued to assign a higher rating, as permitted by other provisions of this section, to a certified reinsurer in inactive status or to a reinsurer whose certification has been suspended.
- (6) If an applicant for certification has been certified as a reinsurer in a jurisdiction accredited by the National Association of Insurance Commissioners, the superintendent may defer to that jurisdiction's certification to grant certification in this State and may defer to the rating assigned by that jurisdiction.

(7) A certified reinsurer that ceases to assume new business in this State may request to maintain its certification in inactive status in order to continue to qualify for a reduction in security for its in-force business. An inactive certified reinsurer shall continue to comply with all applicable requirements of this subsection, and the superintendent shall assign a rating that takes into account, if relevant, the reasons why the reinsurer is not assuming new business; [PL 2021, c. 16, §6 (AMD).]

B-3. Meets each of the conditions established in subparagraphs (2) to (8).

(1) For purposes of this paragraph, the following terms have the following meanings.

(a) "Covered agreement" means an agreement, entered into pursuant to the federal Dodd-Frank Wall Street Reform and Consumer Protection Act, 31 United States Code, Sections 313 and 314, that is in effect or in a period of provisional application and addresses the elimination, under specified conditions, of collateral requirements as a condition for entering into any reinsurance agreement with a ceding insurer domiciled in this State or for allowing the ceding insurer to recognize credit for reinsurance.

(b) "Reciprocal jurisdiction" means a jurisdiction that is:

(i) A non-United States jurisdiction that is subject to an in-force covered agreement with the United States, as long as each agreeing jurisdiction is within its legal authority to enter the agreement, or, in the case of a covered agreement between the United States and the European Union, a member state of the European Union;

(ii) A United States jurisdiction that meets the requirements for accreditation under the financial regulation standards and accreditation program of the National Association of Insurance Commissioners; or

(iii) A qualified jurisdiction, as determined by the superintendent pursuant to paragraph B-2, subparagraph (3), that meets certain additional requirements, consistent with the terms and conditions of covered agreements, as specified by the superintendent by rule.

(2) The assuming insurer must have its domicile or head office in, and be licensed in, a reciprocal jurisdiction.

(3) The assuming insurer must have and maintain on an ongoing basis minimum capital and surplus, or its equivalent, calculated according to the methodology applicable in its domiciliary jurisdiction, in an amount established by rule. If the assuming insurer is an association that includes incorporated and individual unincorporated underwriters, it must have and maintain on an ongoing basis minimum capital and surplus equivalents, net of liabilities, calculated according to the methodology applicable in its domiciliary jurisdiction, and a central fund containing a balance in amounts established by rule.

(4) The assuming insurer must have and maintain on an ongoing basis a minimum solvency or capital ratio, as applicable, as established by rule. If the assuming insurer is an association that includes incorporated and individual unincorporated underwriters, it must have and maintain on an ongoing basis a minimum solvency or capital ratio, as applicable, in the jurisdiction where the assuming insurer has its head office or is domiciled, as applicable.

(5) The assuming insurer must agree, and provide adequate assurance to the superintendent in a form specified by the superintendent by rule, as follows:

(a) The assuming insurer must provide prompt written notice and explanation to the superintendent if it fails to meet the minimum requirements set forth in subparagraph (3) or (4) or if any regulatory action is taken against it for serious noncompliance with applicable law;

- (b) The assuming insurer must consent in writing to the jurisdiction of the courts of this State and to the appointment of the superintendent as agent for service of process. The superintendent may require the assuming insurer to include such consent in each reinsurance agreement for which credit is taken under this paragraph. This division does not limit or in any way alter the capacity of parties to a reinsurance agreement to agree to alternative dispute resolution mechanisms, except to the extent that such agreements are unenforceable under applicable insolvency or delinquency laws;
- (c) The assuming insurer must consent in writing to pay all final judgments, wherever enforcement is sought, that are obtained by a ceding insurer or its legal successor and that have been declared enforceable in the jurisdiction where the judgment was obtained;
- (d) Each reinsurance agreement for which credit is taken under this paragraph must include a provision requiring the assuming insurer to provide security for the full amount of the assuming insurer's liabilities attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists enforcement of a final judgment that is enforceable under the law of the jurisdiction where the final judgment was obtained or resists enforcement of a properly enforceable arbitration award, whether the judgment or award is obtained by the ceding insurer or by its legal successor on behalf of its resolution estate. As used in this division, "resolution estate" means the estate of an insurer or reinsurer that has been placed into a receivership or comparable legal status; and
- (e) The assuming insurer must confirm that it is not participating in any solvent scheme of arrangement that involves this State's ceding insurers and must agree to notify the ceding insurer and the superintendent and to provide security for the full amount of the assuming insurer's liabilities to the ceding insurer should the assuming insurer enter into such a solvent scheme of arrangement. Such security must be in a form consistent with the provisions of paragraph B-2 and subsection 3 and as specified by the superintendent by rule.
- (6) The assuming insurer or its legal successor must provide, on behalf of itself and any legal predecessors, certain documentation to the superintendent as specified by the superintendent by rule, if requested by the superintendent.
- (7) The assuming insurer must maintain a practice of prompt payment of claims under reinsurance agreements, pursuant to criteria established by rule.
- (8) The supervisory authority for insurance for the jurisdiction of the assuming insurer must confirm to the superintendent on an annual basis that, as of the preceding December 31st or the annual date specified in statute for reporting to that supervisory authority in the assuming insurer's jurisdiction, the assuming insurer complies with the requirements of subparagraphs (3) and (4).
- (9) The assuming insurer may provide additional information on a voluntary basis.
- (10) The superintendent shall promptly create, publish and administer a list of reciprocal jurisdictions as described in this subparagraph.
- (a) The superintendent shall include all reciprocal jurisdictions identified in subparagraph (1), division (b), subdivisions (i) and (ii) in the list maintained pursuant to this subparagraph.
- (b) If the National Association of Insurance Commissioners has published a list of recommended reciprocal jurisdictions, the superintendent shall consider that list and may defer to that list in determining whether a jurisdiction qualifies as a reciprocal jurisdiction pursuant to subparagraph (1), division (b), subdivision (iii). The superintendent may

determine that a jurisdiction that does not appear on the recommended list is a reciprocal jurisdiction in accordance with criteria established in rules adopted by the superintendent.

(c) If a jurisdiction has been determined to be a reciprocal jurisdiction pursuant to subparagraph (1), division (b), subdivision (iii), the superintendent, in accordance with a process established by rule by the superintendent, may determine that the jurisdiction is no longer a reciprocal jurisdiction and remove it from the list of reciprocal jurisdictions upon a determination that the jurisdiction no longer meets the conditions of this paragraph. Upon removal of a reciprocal jurisdiction from the list, credit for reinsurance ceded to an assuming insurer that has its head office or is domiciled in that jurisdiction is allowed only as otherwise allowed pursuant to this section.

(11) The superintendent shall promptly create, publish and administer a list of assuming insurers that have satisfied the conditions set forth in subparagraphs (2) to (8) for recognition for credit for reinsurance. The superintendent may add an assuming insurer to the list if it has been listed under a substantially similar law by a jurisdiction accredited by the National Association of Insurance Commissioners or if, upon a request for recognition of eligibility, the assuming insurer submits the information to the superintendent as required under subparagraph (5) and complies with any additional requirements that the superintendent may impose by rule, except to the extent that those requirements conflict with an applicable covered agreement.

(12) If the superintendent determines that an assuming insurer no longer meets one or more of the conditions of this paragraph, the superintendent may suspend or revoke the recognition of the assuming insurer for credit for reinsurance under this paragraph in accordance with procedures established by rule.

(a) While an assuming insurer's recognition for credit is suspended, a reinsurance agreement issued, amended or renewed after the effective date of the suspension does not qualify for credit under this paragraph. Credit may be granted only to the extent that the assuming insurer's obligations under the contract are secured in accordance with other provisions of this subsection or with subsection 3.

(b) If an assuming insurer's recognition for credit is revoked, credit for reinsurance may not be granted after the effective date of the revocation with respect to any reinsurance agreements entered into by the assuming insurer, including reinsurance agreements entered into before the date of revocation, except to the extent that the assuming insurer's obligations under the contract are secured in a form acceptable to the superintendent and consistent with other provisions of this subsection or with subsection 3.

(13) If a ceding insurer that has been granted credit under this paragraph is subject to a legal process of rehabilitation, liquidation or conservation, the ceding insurer or its representative may seek and, if determined appropriate by the court in which the proceedings are pending, may obtain an order requiring the assuming insurer to post security for all outstanding ceded liabilities.

(14) This paragraph does not limit or in any way alter the capacity of parties to a reinsurance agreement to agree on requirements for security or other terms in that reinsurance agreement, except as expressly prohibited by this section or other applicable law or rule.

(15) Credit under this paragraph may be taken only for reinsurance pursuant to reinsurance agreements entered into, renewed or amended on or after the effective date of this paragraph and only with respect to losses incurred or reserves reported on or after the date on which the assuming insurer has met all eligibility requirements pursuant to subparagraphs (2) to (8) or the effective date of the new reinsurance agreement, amendment or renewal, whichever is later.

This subparagraph does not alter or impair a ceding insurer's right to take credit for reinsurance, to the extent that credit is not available under this paragraph, as long as the reinsurance qualifies for credit under any other applicable provision of this section.

(16) Nothing in this paragraph:

- (a) Authorizes an assuming insurer to withdraw or reduce the security provided under any reinsurance agreement except as permitted by the terms of the agreement; or
- (b) Limits, or in any way alters, the capacity of parties to any reinsurance agreement to renegotiate the agreement; [PL 2021, c. 16, §6 (NEW).]

C. Maintains a trust fund in a qualified United States financial institution for the payment of the valid claims of its United States ceding insurers, their assigns and successors in interest.

(1) The assuming insurer shall report annually to the superintendent information substantially the same as that required to be reported on the National Association of Insurance Commissioners Annual Statement form by licensed insurers to enable the superintendent to determine the sufficiency of the trust fund.

(2) In the case of a single assuming insurer, the trust must consist of a trustee account representing the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers and, in addition, unless the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least 3 full years, must include a trustee surplus of at least \$20,000,000. The trust must provide that after the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least 3 full years, the insurance regulator with principal oversight of the trust may authorize a reduction in the required trustee surplus, but only after a finding, based on an assessment of the risk, that the new required surplus level is adequate for the protection of United States ceding insurers, policyholders and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and must consider all material risk factors, including when applicable the lines of business involved, the stability of the incurred loss estimates and the effect of the surplus requirements on the assuming insurer's liquidity or solvency. The minimum required trustee surplus may not be reduced to an amount less than 30% of the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers covered by the trust.

(3-A) A group including incorporated and individual unincorporated underwriters may secure its obligations with funds held in trust in compliance with the following standards.

(a) For reinsurance ceded under reinsurance agreements with an inception, amendment or renewal date on or after January 1, 1993, the trust must consist of a trustee account in an amount at least equal to the respective underwriters' several liabilities attributable to reinsurance ceded by United States domiciled ceding insurers to any underwriter that is a member of the group.

(b) Notwithstanding the other provisions of this section, for reinsurance ceded under reinsurance agreements with an inception date on or before December 31, 1992 and not amended or renewed after that date, the trust must consist of a trustee account in an amount not less than the respective underwriters' several insurance and reinsurance liabilities attributable to business written in the United States.

(c) In addition, the group shall maintain a trustee surplus of at least \$100,000,000 held jointly for the benefit of the United States domiciled ceding insurers of any member of the group for all years of account.

An incorporated member of the group may not be engaged in any business other than underwriting as a member of the group and is subject to the same level of solvency regulation and control by the group's domiciliary regulator as are the unincorporated members. Within 90 days after its financial statements are due to be filed with the group's domiciliary regulator, the group shall provide to the superintendent an annual certification by the group's domiciliary regulator of the solvency of each underwriter member of the group or, if a certification is unavailable, financial statements prepared by independent public accountants.

(4-A) The superintendent in rules adopted pursuant to subsection 7 may establish alternative criteria for approval of a reinsurance trust if the superintendent determines that the criteria provide adequate protection to policyholders of United States ceding insurers and are in substantial conformance with standards approved by the National Association of Insurance Commissioners.

(5) The trust must be established in a form approved by the superintendent and consistent with any rules adopted by the superintendent pursuant to this section. The form of the trust and any amendments to the trust must also have been approved by the insurance regulatory official of the state where the trust is domiciled or of another state that, pursuant to the terms of the trust instrument, has accepted principal regulatory oversight of the trust. The trust instrument must provide that contested claims are valid and enforceable upon the final order of any court of competent jurisdiction in the United States. The trust must vest legal title to its assets in the trustees of the trust for the benefit of the assuming insurer's United States ceding insurers, their assigns and successors in interest. The trust and the assuming insurer are subject to examination, as determined by the superintendent, at the assuming insurer's expense. The trust must remain in effect for as long as the assuming insurer has outstanding obligations due under the reinsurance agreements subject to the trust.

(6) The trustees of the trust shall report to the superintendent in writing by February 28th of each year, setting forth the balance of the trust and listing the trust's investments at the end of the preceding year and certifying the date of termination of the trust, if so planned, or certifying that the trust does not expire before December 31st of the current year.

(7) The corpus of the trust is to be valued as any other admitted asset or assets; or [PL 2021, c. 16, §6 (AMD).]

D. Does not meet the requirements of paragraph A, B, B-1, B-2, B-3 or C, but only with respect to risks located in a jurisdiction where that reinsurance is required by law. The superintendent may waive the requirements of subsections 2 and 5 to the extent that compliance with those requirements is not feasible for compulsory reinsurance subject to this paragraph. The superintendent for good cause after notice and opportunity for hearing may disallow or reduce the credit otherwise permitted under this paragraph. [PL 2021, c. 16, §6 (AMD).]

[PL 2021, c. 16, §6 (AMD).]

1-A. The superintendent may suspend or revoke a reinsurer's accreditation or certification under subsection 1, after notice and opportunity for hearing, for failure to meet the applicable requirements of subsection 1 or on any ground that would warrant similar action against the certificate of authority of an authorized insurer.

A. A suspension or revocation under this subsection may not take effect until after the superintendent's order following a hearing, unless:

- (1) The reinsurer waives its right to a hearing;
- (2) The superintendent's order is based on regulatory action by the reinsurer's domiciliary jurisdiction or the voluntary surrender or termination of the reinsurer's eligibility to transact

insurance or reinsurance business in its domiciliary jurisdiction or in the primary certifying state of the reinsurer under subsection 1, paragraph B-2, subparagraph (6); or

(3) The superintendent finds that an emergency requires immediate action and a court of competent jurisdiction has not stayed the superintendent's action. [PL 2013, c. 238, Pt. B, §7 (NEW).]

B. While a reinsurer's accreditation or certification is suspended pursuant to this subsection, no reinsurance contract issued or renewed after the effective date of the suspension qualifies for credit under subsection 1 except to the extent that the reinsurer's obligations under the contract are secured in accordance with subsection 3. If a reinsurer's accreditation or certification is revoked pursuant to this subsection, no credit for reinsurance may be granted after the effective date of the revocation except to the extent that the reinsurer's obligations under the contract are secured in accordance with subsection 1, paragraph B-2, subparagraph (5) or subsection 3. [PL 2013, c. 238, Pt. B, §7 (NEW).]

C. The superintendent may deny an application for accreditation or certification under subsection 1, or may impose conditions or restrictions on a reinsurer's accreditation or certification, on any ground for which accreditation or certification may be suspended or revoked. [PL 2013, c. 238, Pt. B, §7 (NEW).]

[PL 2013, c. 238, Pt. B, §7 (NEW).]

2. The credit permitted by subsection 1 is not to be allowed unless the assuming insurer agrees in the reinsurance agreements:

A. That, if the assuming insurer fails to perform its obligations under the terms of the reinsurance agreement, the assuming insurer, at the request of the ceding insurer:

(1) Will submit to the jurisdiction of any court of competent jurisdiction in any state of the United States;

(2) Will comply with all requirements necessary to give the court jurisdiction; and

(3) Will abide by the final decision of the court or of any Appellate Court in the event of an appeal; and [PL 1989, c. 846, Pt. E, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. To designate the superintendent or an attorney as its attorney upon whom may be served any lawful process in any action, suit or proceeding instituted by or on behalf of the ceding company, as required in section 421. [PL 1989, c. 846, Pt. E, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

This provision is not intended to conflict with or override the obligation of the parties to a reinsurance agreement to arbitrate their disputes, if such an obligation is created in the agreement.

[PL 1989, c. 846, Pt. E, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

2-A. Credit for reinsurance may not be allowed on the basis of a trust maintained pursuant to subsection 1, paragraph C unless the assuming insurer agrees in the trust agreements to the following conditions.

A. Notwithstanding any other provisions in the trust instrument, if the trust fund contains an amount less than the amount required by this section, or if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the commissioner with regulatory oversight over the trust or with an order of a court of competent jurisdiction directing the trustee to transfer to the commissioner with regulatory oversight all of the assets of the trust fund. [PL 2001, c. 47, §5 (NEW).]

B. The assets must be distributed by and claims must be filed with and valued by the commissioner with regulatory oversight in accordance with the laws of the state in which the trust is domiciled

that are applicable to the liquidation of domestic insurance companies. [PL 2001, c. 47, §5 (NEW).]

C. If the commissioner with regulatory oversight determines that the assets of the trust fund or any part of the assets of the trust fund are not necessary to satisfy the claims of the United States ceding insurers of the grantor of the trust, the assets or part of the assets of the trust fund must be returned by the commissioner with regulatory oversight to the trustee for distribution in accordance with the trust agreement. [PL 2001, c. 47, §5 (NEW).]

D. The grantor shall waive any right otherwise available to it under United States law that is inconsistent with this subsection. [PL 2001, c. 47, §5 (NEW).]

[PL 2001, c. 47, §5 (NEW).]

2-B. Through rules adopted under subsection 7, the superintendent may establish additional requirements that reinsurance agreements that are subject to this subsection must satisfy to qualify for credit.

A. This subsection applies only to reinsurance of:

- (1) Life insurance policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits;
- (2) Universal life insurance policies with provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period;
- (3) Variable annuities with guaranteed death or living benefits;
- (4) Long-term care insurance policies; or
- (5) Other life and health insurance and annuity products for which the National Association of Insurance Commissioners adopts model regulatory requirements with respect to credit for reinsurance. [PL 2017, c. 169, Pt. C, §2 (NEW).]

B. Requirements established under this subsection may address:

- (1) The valuation of assets or reserve credits;
- (2) The amount and forms of acceptable security, in accordance with rules that may supplement or modify the requirements of subsection 3; and
- (3) The circumstances pursuant to which credit will be reduced or eliminated. [PL 2017, c. 169, Pt. C, §2 (NEW).]

C. Requirements established under this subsection may take into consideration the results of applying the valuation manual adopted under section 959 to ceded policies whose statutory reserves are calculated according to a prior methodology. [PL 2017, c. 169, Pt. C, §2 (NEW).]

D. Requirements established with respect to reinsurance described in paragraph A, subparagraphs (1) and (2) may apply to any treaty for which the risk ceded includes:

- (1) Policies issued on or after January 1, 2015; or
- (2) Risk on policies issued before January 1, 2015 and ceded in connection with the treaty, in whole or in part, on or after January 1, 2015. [PL 2017, c. 169, Pt. C, §2 (NEW).]

E. This subsection does not apply to cessions to an assuming insurer that:

- (1) Is certified in this State pursuant to subsection 1, paragraph B-2;
- (2) Maintains at least \$250,000,000 in capital and surplus as determined in accordance with section 901-A, excluding the impact of any permitted or prescribed practices, and is:
 - (a) Licensed in at least 26 states; or

(b) Licensed in at least 10 states and licensed or accredited in a total of at least 35 states;
or

(3) Is eligible for credit for assumed reinsurance by reciprocity pursuant to subsection 1, paragraph B-3. [PL 2021, c. 16, §7 (AMD).]
[PL 2021, c. 16, §7 (AMD).]

3. An asset or a reduction from liability for the reinsurance ceded to an assuming insurer not meeting the requirements of subsection 1 is allowed in an amount not exceeding the liabilities carried by the ceding insurer. The reduction must equal the value of funds held by or on behalf of the ceding insurer, including funds held in trust for the ceding insurer, under a reinsurance contract with such assuming insurer as security for the payment of obligations under the contract, if such security is held in the United States subject to withdrawal solely by, and under the exclusive control of, the ceding insurer or, in the case of a trust, held in a qualified United States financial institution. This security may be in the form of:

A. Cash; [PL 1989, c. 846, Pt. E, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. Securities listed by the Securities Valuation Office of the National Association of Insurance Commissioners, including those designated as exempt from filing in the purposes and procedures manual of the Securities Valuation Office, and qualifying as admitted assets; [PL 2021, c. 16, §8 (AMD).]

C. Clean, irrevocable, unconditional letters of credit, issued or confirmed by a qualified United States financial institution no later than December 31st of the year for which filing is being made and in the possession of the ceding company on or before the filing date of its annual statement.

(1) A letter of credit from an issuer determined to be acceptable as of the date of issuance or the date of confirmation of the letter, notwithstanding the issuing or confirming institution's subsequent failure to meet applicable standards of issuer acceptability, continues to be acceptable as security until its expiration, extension, renewal, modification or amendment, whichever first occurs. The ceding insurer shall replace a nonqualifying letter of credit at its earliest opportunity.

(2) The letter of credit must indicate that it is not subject to any condition or qualification outside the letter of credit, and that the beneficiary need only draw a sight draft under the letter and present the letter to obtain funds and that no other document need be presented; or [PL 2021, c. 16, §9 (AMD).]

D. Any other form of security that the superintendent may permit by rule adopted as set forth in subsection 7. [PL 2021, c. 16, §10 (NEW).]
[PL 2021, c. 16, §§8-10 (AMD).]

4. For purposes of this section, a "qualified United States financial institution" means an institution that:

A. Is organized or, in the case of a United States branch or agency office of a foreign banking organization, is licensed under the laws of the United States or any state of the United States; [PL 1991, c. 828, §17 (AMD).]

B. Is regulated, supervised and examined by federal or state authorities having regulatory authority over banks and trust companies; and [PL 1991, c. 828, §17 (AMD).]

C. Has been determined by the superintendent or the Securities Valuation Office of the National Association of Insurance Commissioners to meet standards of financial condition and standing that are considered necessary and appropriate to regulate the quality of financial institutions whose letters of credit will be acceptable to the superintendent. [PL 1991, c. 828, §17 (NEW).]
[PL 1991, c. 828, §17 (AMD).]

4-A. "Qualified United States financial institution" means for purposes of those provisions of this section specifying those institutions that are eligible to act as a fiduciary of a trust an institution that:

A. Is organized or in the case of a United States branch or agency office of a foreign banking organization licensed under the laws of the United States or any state of the United States and has been granted authority to operate with fiduciary powers; and [PL 1991, c. 828, §18 (NEW).]

B. Is regulated, supervised and examined by federal or state authorities having regulatory authority over banks and trust companies. [RR 1993, c. 1, §56 (COR).]
[RR 1993, c. 1, §56 (COR).]

5. Credit is allowed as an asset or deduction from liability to any ceding insurer only for reinsurance ceded to an assuming insurer qualified under this section, except that no credit is allowed, unless the reinsurance contract provides, in substance, that in the event of the insolvency of the ceding insurer, the reinsurance is payable under a contract or contracts reinsured by the assuming insurer on the basis of reported claims allowed by the court, without diminution because of the insolvency of the ceding insurer. The payments must be made directly to the ceding insurer or to the ceding insurer's domiciliary receiver unless the contract or other written agreement specifically provides another payee in the event of the insolvency of the ceding insurer or unless the assuming insurer, with the consent of the direct insured or insureds, has assumed the policy obligations of the ceding insurer as direct obligations of the assuming insurer to the payees under the reinsured policies and in substitution for the obligations of the ceding insurer to those payees.

The reinsurance agreement may condition the payments upon written notice by the ceding insurer's domiciliary receiver to the assuming insurer of the pendency of a claim on the contract reinsured within a reasonable time after the claim is filed in the proceeding where the claim is to be adjudicated. During the pendency of such a claim, any assuming insurer may investigate the claim and interpose, at the assuming insurer's own expense, any defenses in the proceeding that the assuming insurer determines available to the ceding insurer or to the ceding insurer's receiver. The expenses may be filed as a claim against the insolvent ceding insurer to the extent of its proportionate share of the benefit that may accrue to the ceding insurer solely as a result of the defense undertaken by the assuming insurer. When 2 or more assuming insurers are involved in the same claim and a majority in interest elect to interpose a defense to the claim, the expense must be apportioned in accordance with the terms of the reinsurance agreement as though the expense had been incurred by the ceding insurer.

[PL 2001, c. 47, §7 (AMD).]

6.

[PL 1999, c. 113, §21 (RP).]

7. The superintendent may adopt rules, subject to Title 5, chapter 375, to implement this section. Rules adopted under this section are routine technical rules pursuant to Title 5, chapter 375, subchapter II-A.

reinsurance agreement. An insurer licensed in this State may not transfer obligations or risks on contracts of insurance issued to or owned by residents of this State to an insurer that is not licensed in this State. An insurer domiciled in this State may not assume obligations or risks on contracts of insurance issued to or owned by policyholders residing in another state unless it is licensed in the other state or the insurance regulatory official of that state has approved the assumption. [PL 1993, c. 603 (NEW).]

B. A licensed foreign insurer that enters into an assumption reinsurance agreement that transfers the obligations or risks on contracts of insurance issued to or owned by residents of this State shall file or cause to be filed the assumption certificate with the superintendent a copy of the notice of transfer and an affidavit that the transaction is subject to substantially similar requirements in the state of domicile of both the transferring and assuming insurer. [PL 1993, c. 603 (NEW).]

C. A licensed foreign insurer that enters into an assumption reinsurance agreement that transfers the obligations or risks on contracts of insurance issued to or owned by residents of this State shall obtain prior approval of the superintendent and be subject to all other requirements of this subchapter unless the transferring and assuming insurers are subject to assumption reinsurance requirements adopted by law or rule in the jurisdiction of their domicile, which are substantially similar to those contained in this subchapter. [PL 1993, c. 603 (NEW).]

SECTION HISTORY

PL 1993, c. 603 (NEW).

§764. Rights of policyholder

1. Right to reject. Every policyholder has the right to reject the transfer and novation of the contracts of insurance. A policyholder electing to reject the assumption transaction shall return to the transferring insurer the preaddressed, postage-paid response card or other written notice and indicate on the response card that the assumption is rejected.

[PL 1993, c. 603 (NEW).]

2. Payment of premium. Payment of the next premium to the assuming company after notice is received is determined to indicate the policyholder's acceptance of the transfer to the assuming insurer and a novation is determined to have been effected if the premium notice clearly states that payment of the premium to the assuming insurer constitutes acceptance of the transfer. The premium notice must also provide a method for the policyholder to pay the premium while reserving the right to reject the transfer. With respect to a home service business or any other business not using premium notices, the disclosures and procedural requirements of this subsection are to be set forth in the notice of transfer required by section 763, subsection 1, paragraph A and in the assumption certificate.

[PL 1995, c. 329, §6 (AMD).]

3. Additional notice. No fewer than 24 months after the mailing of the initial notice of transfer required under section 763, if positive consent to the transfer and assumption has not been received or consent has not been determined to have occurred under subsection 1, the transferring company shall send to the policyholder a 2nd and final notice of transfer as specified in section 763, subsection 1. If the policyholder does not reject the transfer during the one-month period immediately following the date on which the transferring insurer mailed the 2nd and final notice of transfer, the policyholder's consent is determined to have occurred and novation of the contract is effected. With respect to the home service business, the 24 and one-month periods must be measured from the date of delivery of the notice of transfer pursuant to section 763, subsection 1, paragraph A.

[PL 1993, c. 603 (NEW).]

4. Response cards. The transferring insurer is deemed to have received the response card on the date it is postmarked. A policyholder may also send a response card by facsimile or other electronic transmission or by registered mail, express delivery or courier service, in which case the response card is determined to have been received by the assuming insurer on the date of actual receipt by the transferring insurer.

§765. Effect of consent by the policyholder

If a policyholder consents to the transfer pursuant to section 764 or if the transfer is effected under section 766, there is a novation of the contract of insurance subject to the assumption reinsurance agreement with the result that the transferring insurer is relieved of all insurance obligations or risks transferred under the assumption reinsurance agreement and the assuming insurer is directly and solely liable to the policyholder for those insurance obligations or risks. [PL 1993, c. 603 (NEW).]

SECTION HISTORY

PL 1993, c. 603 (NEW).

§766. Authority of the insurance regulatory official

1. Transfer in the best interest of the policyholders. If an insurer domiciled in this State or in a jurisdiction having a substantially similar law is determined by the domiciliary insurance regulatory official to be in hazardous financial condition or an administrative proceeding has been instituted against it for the purpose of reorganizing or conserving the insurer, and the transfer of the contracts of insurance is in the best interest of the policyholders, as determined by the domiciliary insurance regulatory official, a transfer and novation may be effected notwithstanding the provisions of this subchapter. This may include a form of implied consent and adequate notification to the policyholder of the circumstances requiring the transfer as approved by the insurance regulatory official.

[PL 1993, c. 603 (NEW).]

2. Protection. Notwithstanding any other provision of law, in the event that a transfer and novation is effected by a decision of a domiciliary insurance regulatory official under this section, the residents of this State whose policies are transferred to an unlicensed insurer are entitled to full protection under chapter 57, subchapter III and chapter 62.

SUBCHAPTER 6

SPECIAL PURPOSE REINSURANCE VEHICLE

§781. Definitions

As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings. [PL 2003, c. 249, §2 (NEW).]

1. Aggregate limit. "Aggregate limit" means the maximum sum payable to the ceding insurer under a special purpose reinsurance vehicle contract.

[PL 2003, c. 249, §2 (NEW).]

2. Catastrophe excess of loss property reinsurance. "Catastrophe excess of loss property reinsurance" means excess of loss reinsurance for a catastrophe layer of a reinsurance program, written on either a per occurrence or aggregate basis.

[PL 2003, c. 249, §2 (NEW).]

3. Catastrophe life or health reinsurance. "Catastrophe life or health reinsurance" means reinsurance of life, health or annuity products that transfers mortality, morbidity, survival or other related risks in excess of existing proportional or nonproportional automatic and facultative treaties newly placed or in force on the same risks.

[PL 2003, c. 249, §2 (NEW).]

4. Ceding insurer. "Ceding insurer" means an insurer that enters into a special purpose reinsurance vehicle contract with a special purpose reinsurance vehicle and includes a reinsurer retroceding assumed reinsurance to a special purpose reinsurance vehicle. A group of affiliated insurers under common control entering into a special purpose reinsurance vehicle contract on a coordinated basis is considered a single ceding insurer.

[PL 2003, c. 249, §2 (NEW).]

5. Control. "Control," including the terms "controlling," "controlled by" and "under common control," means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or nonmanagement services, or otherwise, unless the power is the result of an official position with or corporate office held by the person. Control is presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote or holds proxies representing 10% or more of the voting securities of any other person. This presumption may be rebutted by a showing that control does not exist. Notwithstanding this subsection, for the purposes of this subchapter, the fact that a special purpose reinsurance vehicle exclusively provides reinsurance to a ceding insurer under a special purpose reinsurance vehicle contract is not by itself sufficient grounds for a finding that the reinsurance vehicle or the special purpose reinsurance vehicle organizer or owner is controlled by or under common control with the ceding insurer.

[PL 2003, c. 249, §2 (NEW).]

6. Fair value. "Fair value" means:

A. As to cash, the amount of cash; and [PL 2003, c. 249, §2 (NEW).]

B. As to an asset other than cash:

(1) The amount at which that asset could be bought or sold in a current transaction between arms-length, willing parties;

(2) The quoted market price for the asset in active markets must be used if available; and

(3) If quoted market prices are not available, a value determined using the best information available considering values of like assets and other valuation methods, such as present value

of future cash flows, historical value of the same or similar assets or comparison to values of other asset classes the value of which have been historically related to the subject asset. [PL 2003, c. 249, §2 (NEW).]

[PL 2003, c. 249, §2 (NEW).]

7. Fully funded. "Fully funded" means, with respect to a special purpose reinsurance vehicle contract, that the fair value of the assets under the control of the ceding insurer or held in trust for the benefit of the ceding insurer under the special purpose reinsurance vehicle contract on the date on which the special purpose reinsurance vehicle contract is effected, equals or exceeds the aggregate limit as defined in subsection 1.

[PL 2007, c. 386, §2 (AMD).]

7-A. Impairment. "Impairment" or "impaired" means, with respect to a special purpose reinsurance vehicle or any of its protected cells, that either:

A. The available capital of the special purpose reinsurance vehicle or protected cell has fallen below the applicable initial capital requirement without the approval of the superintendent; or [PL 2007, c. 386, §3 (NEW).]

B. The fair value of the assets under the control of the ceding insurer or held in trust for the benefit of the ceding insurer under a special purpose reinsurance vehicle contract is less than the aggregate limit remaining under the contract as of the time the determination is made. [PL 2007, c. 386, §3 (NEW).]

[PL 2007, c. 386, §3 (NEW).]

8. Indemnity trigger. "Indemnity trigger" means a transaction term by which the special purpose reinsurance vehicle's obligation to pay the ceding insurer for losses covered by a special purpose reinsurance vehicle contract is triggered by the ceding insurer incurring a specified level of losses.

[PL 2003, c. 249, §2 (NEW).]

9. Insolvency. "Insolvency" or "insolvent" means that the special purpose reinsurance vehicle or one or more of its protected cells is unable to pay its obligations when they are due unless the obligations are the subject of a bona fide dispute.

[PL 2007, c. 386, §4 (AMD).]

10. Nonindemnity trigger. "Nonindemnity trigger" means a transaction term by which the special purpose reinsurance vehicle's obligation to pay the ceding insurer under a special purpose reinsurance vehicle contract arises from the occurrence or existence of some event or condition other than the ceding insurer incurring a specified level of losses under its insurance or reinsurance contracts.

[PL 2003, c. 249, §2 (NEW).]

11. Permitted investments. "Permitted investments" means those investments that meet the qualifications under section 795.

[PL 2003, c. 249, §2 (NEW).]

11-A. Protected cell. "Protected cell" means a separate account established and maintained by a special purpose reinsurance vehicle for one special purpose reinsurance vehicle contract and the accompanying insurance securitization with a ceding insurer as further provided for in section 784-A.

[PL 2007, c. 386, §5 (NEW).]

12. Qualified United States financial institution. "Qualified United States financial institution" means for purposes of meeting the requirements of a trustee as specified in section 784 a financial institution that is eligible to act as a fiduciary of a trust and:

A. Is organized or, in the case of a United States branch or agency office of a foreign banking organization, is licensed under the laws of the United States or any state; and [PL 2003, c. 249, §2 (NEW).]

B. Is regulated, supervised and examined by federal or state authorities having regulatory authority over banks and trust companies. [PL 2003, c. 249, §2 (NEW).]
[PL 2003, c. 249, §2 (NEW).]

13. Reinsurance vehicle. "Reinsurance vehicle" means a special purpose reinsurance vehicle.
[PL 2003, c. 249, §2 (NEW).]

14. Special purpose reinsurance vehicle. "Special purpose reinsurance vehicle" means an entity domiciled in and organized under the laws of this State that has received a limited certificate of authority from the superintendent under this subchapter exclusively for the limited purpose of entering into and effectuating special purpose reinsurance vehicle insurance securitizations, special purpose reinsurance vehicle contracts and other related transactions permitted by this subchapter.
[PL 2003, c. 249, §2 (NEW).]

15. Special purpose reinsurance vehicle contract; contract. "Special purpose reinsurance vehicle contract" or "contract" means a contract between the special purpose reinsurance vehicle and the ceding insurer pursuant to which the special purpose reinsurance vehicle agrees to pay the ceding insurer an agreed amount upon the occurrence of a triggering event.
[PL 2003, c. 249, §2 (NEW).]

16. Special purpose reinsurance vehicle insurance securitization; insurance securitization. "Special purpose reinsurance vehicle insurance securitization" or "insurance securitization" means a package of related risk transfer instruments, capital market offerings and facilitating administrative agreements by which proceeds are obtained by a special purpose reinsurance vehicle directly or indirectly through the issuance of securities and are held in trust or under the control of the ceding insurer pursuant to the requirements of this subchapter to secure the obligations of the special purpose reinsurance vehicle under one or more special purpose reinsurance vehicle contracts with one or more ceding insurers, when investment risk to the holders of these securities is contingent upon the obligations of the special purpose reinsurance vehicle to the ceding insurer or ceding insurers under the special purpose reinsurance vehicle contract in accordance with the transaction terms.
[PL 2007, c. 386, §6 (AMD).]

17. Special purpose reinsurance vehicle organizer; organizer. "Special purpose reinsurance vehicle organizer" or "organizer" means one or more persons that have organized or intend to organize a special purpose reinsurance vehicle under authority obtained as specified in this subchapter.
[PL 2003, c. 249, §2 (NEW).]

18. Special purpose reinsurance vehicle securities; securities. "Special purpose reinsurance vehicle securities" or "securities" means the securities issued by a special purpose reinsurance vehicle.
[PL 2003, c. 249, §2 (NEW).]

[PL 2007, c. 386, §7 (AMD).]

3. Additional information. The superintendent shall notify the special purpose reinsurance vehicle organizer if any additional information is needed in order to review the application and shall approve or deny the application within 60 days after determining that the application is complete.

The limited certificate of authority must state that the special purpose reinsurance vehicle's authorization to be involved in the business of insurance is limited only to the reinsurance activities that the special purpose reinsurance vehicle is allowed to conduct pursuant to this subchapter.

[PL 2003, c. 249, §2 (NEW).]

6. Documentation of insurance securitization. The special purpose reinsurance vehicle organizer shall provide a complete set of the documentation of the insurance securitization to the superintendent upon closing of any transactions, including an opinion of legal counsel with respect to

compliance with this subchapter and any other applicable laws as of the effective date of any transaction.

[PL 2007, c. 386, §8 (AMD).]

7. Changes in plan of operation. Any material change to the special purpose reinsurance vehicle's plan of operation filed pursuant to subsection 2, including, but not limited to, the initiation of a new insurance securitization to continue the activities of the special purpose reinsurance vehicle pursuant to this subchapter after expiration and full satisfaction of the initial securitization transactions, requires prior approval of the superintendent. A change in the counterparty to swap transactions for an existing insurance securitization as allowed under this subchapter is not considered a material change unless the special purpose reinsurance vehicle's managers know or should know that the new counterparty presents a substantial risk of default.

§783. Limited purpose of special purpose reinsurance vehicle

Special purpose reinsurance vehicles authorized under this subchapter are created for the limited purpose of entering into insurance securitization transactions with investors and related agreements to pay one or more ceding insurers agreed-upon amounts under a special purpose reinsurance vehicle contract upon the occurrence of triggering events related to the insurance business of the ceding insurer. A special purpose reinsurance vehicle may not issue a contract for assumption of risk or indemnification of loss other than a special purpose reinsurance vehicle contract. [PL 2003, c. 249, §2 (NEW).]

SECTION HISTORY

PL 2003, c. 249, §2 (NEW).

§784. Approved transactions and operation of special purpose reinsurance vehicles

1. Contracts. Special purpose reinsurance vehicles authorized under this subchapter may enter into and effectuate special purpose reinsurance vehicle contracts with one or more ceding insurers as long as the contracts:

A. Obligate the reinsurance vehicle to indemnify the ceding insurer for losses; [PL 2003, c. 249, §2 (NEW).]

B. Are securitized in full through a single special purpose reinsurance vehicle insurance securitization or, if protected cells are used, through a single special purpose reinsurance vehicle insurance securitization for each protected cell; and [PL 2007, c. 386, §10 (AMD).]

C. Are fully funded and secured with assets held in trust in accordance with the requirements of this section pursuant to agreements proposed under this subchapter, and invested in a manner that meets the criteria set forth in section 795. [PL 2003, c. 249, §2 (NEW).]

[PL 2007, c. 386, §10 (AMD).]

2. Eligible lines of business. A special purpose reinsurance vehicle contract may only provide catastrophe excess of loss property reinsurance coverage or catastrophe life or health reinsurance coverage, unless the superintendent adopts rules pursuant to section 797 specifying additional lines of business that may be reinsured by a special purpose reinsurance vehicle or approves a waiver of the requirement of this subsection for good cause shown with respect to a particular application.

[PL 2007, c. 386, §11 (AMD).]

3. Multiple ceding insurers. A special purpose reinsurance vehicle may enter into contracts with multiple ceding insurers only if each contract is attributable to a different protected cell or if:

A. The special purpose reinsurance vehicle reinsures no more than 10 ceding insurers; and [PL 2003, c. 249, §2 (NEW).]

B. Each ceding insurer has no more than \$50,000,000 in surplus as reported in its most recent financial statement filed with its domiciliary regulator, as of the date the special purpose reinsurance vehicle is licensed. A group of ceding insurers under common control may elect to be treated as separate insurers for purposes of this subsection, but only if each insurer in the group that is reinsured by the same special purpose reinsurance vehicle is counted separately for purposes of the 10-credent limit. [PL 2003, c. 249, §2 (NEW).]

[PL 2007, c. 386, §12 (AMD).]

4. Terms of operation. A special purpose reinsurance vehicle may enter into agreements with 3rd parties and conduct business necessary to fulfill its obligations and administrative duties incident to the insurance securitization and the special purpose reinsurance vehicle contract. The agreements may include entering into swap agreements or other transactions that have the objective of leveling timing differences in funding upfront or ongoing transaction expenses or managing credit or interest rate risk of the investments in trust to ensure that the assets held in trust are sufficient to satisfy payment or repayment of the securities issued pursuant to an insurance securitization transaction and any other obligations of the special purpose reinsurance vehicle. In fulfilling its function, the special purpose reinsurance vehicle shall adhere to the following requirements and shall, to the extent of its powers, ensure that contracts obligating other parties to perform certain functions incident to its operations are substantively and materially consistent with the following requirements and guidelines.

A. A special purpose reinsurance vehicle must have a distinct name, which must include the designation "SPRV" or "Special Purpose Reinsurance Vehicle." The name of the reinsurance vehicle may not be deceptively similar to, or likely to be confused with or mistaken for, any other existing business name registered in this State. [PL 2003, c. 249, §2 (NEW).]

B. Unless otherwise provided in the plan of operation, the principal place of business and office of any reinsurance vehicle organized under this subchapter must be located in this State. [PL 2003, c. 249, §2 (NEW).]

C. The assets of a reinsurance vehicle must be preserved and administered by or on behalf of the reinsurance vehicle to satisfy the liabilities and obligations of the reinsurance vehicle incident to the insurance securitization and other related agreements including the contract. [PL 2003, c. 249, §2 (NEW).]

D. Except as provided in paragraph D-1, assets of the reinsurance vehicle that are pledged to secure obligations of the reinsurance vehicle to a ceding insurer under a contract must be held in trust and administered by a qualified United States financial institution serving as trustee. The qualified United States financial institution may not control, be controlled by or be under common control with the reinsurance vehicle or any ceding insurer. [PL 2007, c. 386, §13 (AMD).]

D-1. If approved by the superintendent, the reinsurance vehicle and the ceding insurer may enter into a written agreement, in compliance with the ceding insurer's applicable domiciliary credit for reinsurance laws, under which the assets pledged as security, in lieu of being held in trust, are held in the United States subject to withdrawal solely by the ceding insurer and under its exclusive control. The security agreement may not be approved unless the superintendent determines that the agreement is consistent with the purposes of this subsection, that the ceding insurer has unconditional access to the funds necessary to fulfill the reinsurance vehicle's obligations to the ceding insurer and that the assets withheld under the control of the ceding insurer are never less than the amount that would otherwise be required to be held in trust. [PL 2007, c. 386, §13 (NEW).]

E. The trust described in paragraph D must be governed by a written agreement between the reinsurance vehicle and the ceding insurer that creates one or more trust accounts into which all

pledged assets must be deposited and held until distributed in accordance with the trust agreement. The pledged assets must be held by the trustee at the trustee's office in the United States and may be held in certificated or electronic form. [PL 2007, c. 386, §13 (AMD).]

F. The provisions for withdrawal by the ceding insurer of funds from the trust must comply with the ceding insurer's applicable domiciliary credit for reinsurance laws and be clean and unconditional, subject only to the following requirements:

- (1) The ceding insurer has the right to withdraw assets from the trust account at any time without notice to the reinsurance vehicle subject only to written notice to the trustee from the ceding insurer that funds in the amount requested are due and payable by the reinsurance vehicle;
- (2) No other statement or document need be presented in order to withdraw assets, except that the ceding insurer may be required to acknowledge receipt of withdrawn assets;
- (3) The trust agreement described in paragraph E must indicate that it is not subject to any conditions or qualifications outside of the trust agreement;
- (4) The trust agreement described in paragraph E may not contain references to any other agreements or documents; and
- (5) Reference may not be made to the fact that these funds may represent reinsurance premiums or that the funds have been deposited for any specific purpose. [PL 2007, c. 386, §13 (AMD).]

G. The trust agreement described in paragraph E must be established for the sole use and benefit of the ceding insurer at least to the full extent of the reinsurance vehicle's obligations to the ceding insurer under the contract. In the case of more than one ceding insurer or more than one reinsurance contract with the same ceding insurer, a separate trust agreement must be entered into with each ceding insurer and a separate trust account must be maintained for each ceding insurer. [PL 2007, c. 386, §13 (AMD).]

H. The trust agreement described in paragraph E must provide for the trustee to:

- (1) Receive assets and hold all assets in a safe place;
- (2) Determine that all assets are in a form that the ceding insurer or the trustee, upon direction by the ceding insurer, may whenever necessary negotiate the assets, without consent or signature from the reinsurance vehicle or any other person or entity;
- (3) Furnish to the reinsurance vehicle, the superintendent and the ceding insurer a statement of all assets in the trust account referred to in paragraph E reported at fair value upon its inception and at intervals no less frequent than the end of each calendar quarter;
- (4) Notify the reinsurance vehicle and the ceding insurer within 10 days of any deposits to or withdrawals from the trust account referred to in paragraph E;
- (5) Upon written demand of the ceding insurer, immediately take steps necessary to transfer absolutely all right, title and interest in the assets held in the trust account referred to in paragraph E to the ceding insurer and deliver physical custody of the assets to the ceding insurer; and
- (6) Allow no substitutions or withdrawals of assets from the trust account referred to in paragraph E except on written instructions from the ceding insurer. [PL 2003, c. 249, §2 (NEW).]

I. The trust agreement described in paragraph E must provide that at least 30 days but not more than 45 days before termination of the trust account written notification of termination must be delivered by the trustee to the ceding insurer. [PL 2007, c. 386, §13 (AMD).]

J. The trust agreement described in paragraph E may be made subject to and governed by the laws of any state in addition to the requirements for the trust as provided in this subchapter as long as the state is disclosed in the plan of operation filed with and approved by the superintendent. [PL 2003, c. 249, §2 (NEW).]

K. The trust agreement described in paragraph E must prohibit invasion of the trust account referred to in paragraph E for the purpose of paying compensation to or reimbursing the expenses of the trustee. [PL 2003, c. 249, §2 (NEW).]

L. The trust agreement described in paragraph E must provide that the trustee be liable for the trustee's own negligence, willful misconduct or lack of good faith.

(1) Notwithstanding the provisions of paragraph F, subparagraphs (3) to (5) and paragraph M, subparagraph (5), when a trust agreement described in paragraph E is established in conjunction with a contract, then the trust agreement may provide that the ceding insurer shall undertake to use and apply any amounts drawn upon the trust account without diminution because of the insolvency of the ceding insurer or the reinsurance vehicle for the following purposes:

(a) To pay or reimburse the ceding insurer amounts due to the ceding insurer under the contract, including, but not limited to, unearned premiums due to the ceding insurer if not otherwise paid by the reinsurance vehicle in accordance with the terms of that trust agreement; or

(b) When the ceding insurer has received notification of termination of the trust account referred to in paragraph E and when some or all of the reinsurance vehicle's obligations under the specific contract remain unliquidated and undischarged 10 days before the termination date, to withdraw amounts equal to the undischarged obligations and deposit the amounts in a separate account in the name of the ceding insurer in any qualified United States financial institution apart from its general assets in trust for the sole purpose of discharging any contractual obligations of the reinsurance vehicle that may remain executory after the withdrawal and for any period after the termination date. Assets so held must revert to the reinsurance vehicle when they are no longer necessary to secure the obligations of the reinsurance vehicle and may not exceed the sum of the following amounts as determined in good faith by the ceding insurer:

(i) Losses and loss expenses paid by the ceding insurer but not recovered from the reinsurance vehicle;

(ii) Reserves for losses reported and outstanding;

(iii) Reserves for losses incurred but not reported;

(iv) Reserves for loss expenses;

(v) Reserves for unearned premiums; and

(vi) Any additional amount necessary to maintain full funding of the aggregate limit remaining under the contract if the period of coverage or the agreed-upon period of loss development has yet to expire.

(2) The provisions to be included in the trust agreement described in paragraph E pursuant to this paragraph may instead be included in the underlying contract. [PL 2003, c. 249, §2 (NEW).]

M. A special purpose reinsurance vehicle contract must contain provisions that:

(1) Require the reinsurance vehicle to :

(a) Enter into a trust agreement described in paragraph E and establish a trust account referred to in paragraph E for the benefit of the ceding insurer; or

(b) Enter into a security agreement described in paragraph D-1.

The trust agreement or security agreement must specify what recoverables or reserves or both the agreement is to cover;

(2) Stipulate that assets pledged as security be valued according to their current fair value for purposes of the contract and may consist only of permitted investments;

(3) If applicable, require the reinsurance vehicle, before depositing assets with the trustee, to execute assignments or endorsements in blank or to transfer legal title to the trustee of all shares, obligations or any other assets requiring assignments in order that the ceding insurer or the trustee upon the direction of the ceding insurer may whenever necessary negotiate any such assets without consent or signature from the reinsurance vehicle or any other entity;

(4) Require that all settlements of account between the ceding insurer and the reinsurance vehicle be made in cash or its equivalent; and

(5) Stipulate that the reinsurance vehicle and the ceding insurer agree that the assets in any trust account referred to in paragraph E and established pursuant to the provisions of the contract may be withdrawn by the ceding insurer at any time notwithstanding any other provisions in the contract and must be used and applied by the ceding insurer or any successor by operation of law of the ceding insurer, including, but not limited to, and subject to the provisions of section 793, any liquidator, rehabilitator, receiver or conservator of the ceding insurer, without diminution because of insolvency on the part of the ceding insurer or the reinsurance vehicle, only for the following purposes:

(a) To transfer all such assets into one or more trust accounts pursuant to paragraph L for the benefit of the ceding insurer pursuant to the terms of the contract and in compliance with this subchapter; and

(b) To pay any other amounts that the ceding insurer claims are due under the contract. [PL 2007, c. 386, §13 (AMD).]

N. The contract entered into by the reinsurance vehicle may contain provisions that give the reinsurance vehicle the right to seek approval from the ceding insurer to withdraw from the trust account referred to in paragraph E all or part of the assets contained in the trust account and to transfer the assets to the reinsurance vehicle as long as:

(1) The reinsurance vehicle shall at the time of the withdrawal replace the withdrawn assets with other qualified assets having a fair value equal to the fair value of the assets withdrawn and that meet the requirements of section 795; and

(2) After the withdrawals and transfer, the fair value of the assets in the trust account referred to in paragraph E securing the obligations of the reinsurance vehicle under the contract is no less than an amount needed to satisfy the full funding requirement of the contract. The ceding insurer has the sole discretion to determine whether these provisions have been satisfied but may not unreasonably nor arbitrarily withhold its approval. [PL 2003, c. 249, §2 (NEW).]

O. The contract must provide that investors in the reinsurance vehicle agree that any obligation to repay principal, interest or dividends on the securities issued by the reinsurance vehicle must be reduced upon the occurrence of a triggering event, to the extent that the assets of the reinsurance vehicle held in trust for the benefit of the ceding insurer are remitted to the ceding insurer in fulfillment of the obligations of the reinsurance vehicle under the contract. [PL 2003, c. 249, §2 (NEW).]

P. Assets held by a reinsurance vehicle in trust must be valued at their fair value. [PL 2003, c. 249, §2 (NEW).]

Q. The proceeds from the sale of securities by the reinsurance vehicle to investors must be deposited with the trustee or under the control of the ceding insurer as described in this subchapter and must be held or invested in accordance with the requirements of section 795. [PL 2007, c. 386, §13 (AMD).]

R. A reinsurance vehicle organized under this subchapter may engage only in fully funded contracts to support in full the ceding insurer's exposures assumed by the reinsurance vehicle. A contract must be indemnity-triggered unless the superintendent adopts rules pursuant to section 797 authorizing nonindemnity-triggered contracts and addressing the treatment of the portion of the risk that is nonindemnity-based, including accounting, disclosure, risk-based capital treatment and the manner in which risks associated with a nonindemnity-based contract may be evaluated and managed. Assets of the reinsurance vehicle may be used to pay interest or other consideration on any outstanding debt or other obligation of the reinsurance vehicle and nothing in this paragraph may be construed or interpreted to prevent a reinsurance vehicle from entering into a swap agreement or other transaction that has the effect of guaranteeing interest or other consideration. [PL 2003, c. 249, §2 (NEW).]

S. In the special purpose reinsurance vehicle insurance securitization, the contracts or other relating documentation must contain provisions identifying the reinsurance vehicle that enters into the reinsurance securitization and the contracts or other documentation must clearly disclose that the assets of the reinsurance vehicle and only those assets are available to pay the obligations of that reinsurance vehicle. Notwithstanding this paragraph, and subject to the provisions of this subchapter and any other applicable law, the failure to include such language in the contracts or other documentation may not be used as the sole basis by creditors, reinsurers or other claimants to circumvent the provisions of this subchapter. [PL 2003, c. 249, §2 (NEW).]

T. A reinsurance vehicle is not authorized to:

- (1) Issue or otherwise administer primary insurance policies;
- (2) Have any obligation to the policyholders or reinsureds of the ceding insurer;
- (3) Enter into a contract with a person that is not licensed or otherwise authorized to conduct the business of insurance or reinsurance in at least its state or country of domicile; or
- (4) Assume or retain exposure to insurance or reinsurance losses for its own account that is not initially fully funded by proceeds from an insurance securitization that meets the requirements of this subchapter. [PL 2003, c. 249, §2 (NEW).]

U. At the cessation of business of a reinsurance vehicle, the limited certificate of authority granted by the superintendent under section 782 expires and the reinsurance vehicle may no longer be authorized to conduct activities pursuant to this subchapter until a new certificate of authority is issued pursuant to a new filing in accordance with section 782. The completion of a reinsurance vehicle's securitization activities does not constitute the cessation of business for purposes of this paragraph if the reinsurance vehicle's approved business plan contemplates additional securitizations. [PL 2007, c. 386, §13 (AMD).]

V. It is unlawful for a reinsurance vehicle to lend or otherwise invest or place in custody, trust or under management any of its assets with or to borrow money or receive a loan or advance from, other than by issuance of the securities pursuant to an insurance securitization, from anyone convicted of a felony, anyone who is untrustworthy or of known bad character or anyone convicted of a criminal offense involving the conversion or misappropriation of fiduciary funds or insurance accounts, theft, deceit, fraud, misrepresentation or corruption. [PL 2003, c. 249, §2 (NEW).]

W. A special purpose reinsurance vehicle may purchase reinsurance with the approval of the superintendent to retrocede risks assumed through a special purpose reinsurance vehicle contract. Reinsurance purchased by the reinsurance vehicle does not reduce the aggregate limit of the

reinsurance vehicle or the covered protected cell and may only be credited toward the funding requirements of the reinsurance vehicle or the covered protected cell to the extent that the ceding insurer has a direct right of recovery against the retrocessionaire that is secured by assets deposited with the trustee or under the control of the ceding insurer in accordance with this section and held or invested in accordance with the requirements of section 795. [PL 2007, c. 386, §13 (NEW).]
[PL 2007, c. 386, §13 (AMD).]

PL 2003, c. 249, §2 (NEW). PL 2007, c. 386, §§10-13 (AMD).

§784-A. Protected cells

1. Establishment of protected cells. A special purpose reinsurance vehicle may establish and maintain one or more protected cells with the prior written approval of the superintendent, subject to compliance with the provisions of this section.

A. A protected cell may be established only for the purpose of insuring or reinsuring risks of one or more special purpose reinsurance vehicle contracts with the intent of facilitating an insurance securitization. The establishment of a protected cell in compliance with this section in connection with a lawful insurance securitization does not constitute a fraudulent conveyance, a scheme to defraud creditors or a transaction of business for a fraudulent purpose. [PL 2007, c. 386, §14 (NEW).]

B. Each protected cell must be accounted for separately on the books and records of the special purpose reinsurance vehicle to reflect the financial condition and results of operations of the protected cell, net income or loss, dividends or other distributions for the special purpose reinsurance vehicle contract with each cell and other factors as may be provided in the special purpose reinsurance vehicle contract, insurance securitization transaction documents, plan of operation or business plan, or as required by the superintendent. The special purpose reinsurance vehicle must establish administrative and accounting procedures necessary for the proper attribution of protected cell assets and protected cell liabilities to each protected cell. The directors of a special purpose reinsurance vehicle shall keep the protected cell assets and liabilities attributable to each protected cell separate and separately identifiable from the assets and liabilities of the special purpose reinsurance vehicle's general account and from the protected cell assets and liabilities attributable to any other protected cell. [PL 2007, c. 386, §14 (NEW).]

C. Amounts attributed to a protected cell under this section, including assets transferred to a protected cell account, are owned by the special purpose reinsurance vehicle, and the special purpose reinsurance vehicle is not and may not hold itself out to be a trustee with respect to those protected cell assets of that protected cell account. [PL 2007, c. 386, §14 (NEW).]

D. All attributions of assets and liabilities between a protected cell and the general account must be in accordance with the plan of operation approved by the superintendent. No other attribution of assets or liabilities may be made by a special purpose reinsurance vehicle between the special purpose reinsurance vehicle's general account and its protected cell or cells. The special purpose reinsurance vehicle must attribute all insurance obligations, assets and liabilities relating to a special purpose reinsurance vehicle contract and the related insurance securitization transaction, including any securities issued by the special purpose reinsurance vehicle as part of the insurance securitization and any taxes or other obligations arising by operation of law, to the associated protected cell. [PL 2007, c. 386, §14 (NEW).]

E. The assets of a protected cell are not chargeable with liabilities arising out of a special purpose reinsurance vehicle contract related to or associated with another protected cell. More than one special purpose reinsurance vehicle contract may not be attributed to the same protected cell unless

those special purpose reinsurance vehicle contracts are intended to be, and ultimately are, part of a single securitization transaction. [PL 2007, c. 386, §14 (NEW).]

F. A sale, exchange or other transfer of assets may not be made by the special purpose reinsurance vehicle between or among any of its protected cells without the consent of the superintendent, the ceding insurer or insurers and the holders of the securities issued by each protected cell. [PL 2007, c. 386, §14 (NEW).]

G. A sale, exchange, transfer of assets, dividend or distribution may not be made from a protected cell without the superintendent's approval except as authorized in advance under the special purpose reinsurance vehicle contract or related insurance securitization transaction documents and may not be approved if the sale, exchange, transfer, dividend or distribution would result in insolvency or impairment with respect to a protected cell. [PL 2007, c. 386, §14 (NEW).]

H. A special purpose reinsurance vehicle may pay interest or repay principal, or both, and make distributions or repayments in respect of any securities attributed to a particular protected cell from assets or cash flows relating to or emerging from the special purpose reinsurance vehicle contract and the insurance securitization transactions that are attributable to that particular protected cell in accordance with the provisions of this subchapter or as otherwise approved by the superintendent. [PL 2007, c. 386, §14 (NEW).]

[PL 2007, c. 386, §14 (NEW).]

2. Approval of protected cells. A special purpose reinsurance vehicle contract with or attributable to a protected cell does not take effect without the superintendent's prior written approval, and the addition of each new protected cell constitutes a change in the business plan requiring the superintendent's prior written approval and the amendment of the special purpose reinsurance vehicle's limited certificate of authority. The superintendent may retain legal, financial and examination services from outside the bureau to examine and investigate the application for a protected cell, the reasonable cost of which may be charged against the applicant, or the superintendent may use internal resources to examine and investigate the application, the reasonable cost of which may be charged against the applicant up to a maximum of \$12,000, or both. The application for approval of a protected cell must include a plan of operation for the protected cell consistent with the requirements of section 782, subsection 2, paragraph H.

[PL 2007, c. 386, §14 (NEW).]

3. Minimum capital requirements. A special purpose reinsurance vehicle with protected cells shall possess and maintain capitalization in each protected cell in the amount and manner required for a special purpose reinsurance vehicle in section 787 and, in addition, shall possess and maintain minimum capitalization separate and apart from the capitalization of its protected cell or cells in an amount determined by the superintendent after giving due consideration of the special purpose reinsurance vehicle's business plan, feasibility study and proforma financial statements, including the nature of the risks to be insured or reinsured.

[PL 2007, c. 386, §14 (NEW).]

4. Status of protected cells. A protected cell is not a legal person separate from the special purpose reinsurance vehicle. However, a protected cell must have its own distinct name or designation that includes the words "protected cell" and all protected cells must be identified by name in the special purpose reinsurance vehicle's limited certificate of authority. The special purpose reinsurance vehicle shall hold all assets attributable to the protected cell in one or more separately established and identified protected cell accounts bearing the name or designation of that protected cell.

A. The assets of a protected cell are available only to the ceding insurer and other creditors of that protected cell and may not be used to pay expenses or claims other than those attributable to the protected cell. Creditors with respect to a protected cell are not entitled to any recourse against the protected cell assets of other protected cells or the assets of the special purpose reinsurance vehicle's

general account. If an obligation of a special purpose reinsurance vehicle relates only to the general account, the creditor is entitled to have recourse with respect to that obligation only to the assets of the general account. [PL 2007, c. 386, §14 (NEW).]

B. Protected cell assets may not be pledged or otherwise encumbered except for the benefit of creditors of that protected cell in furtherance of the securitization in accordance with the approved plan of operation. [PL 2007, c. 386, §14 (NEW).]

C. All contracts or other documentation reflecting protected cell liabilities must clearly indicate that only the protected cell assets are available for the satisfaction of those protected cell liabilities. In all special purpose reinsurance vehicle insurance securitizations involving a protected cell, the contracts or other documentation effecting the transaction must contain provisions identifying the protected cell to which the transaction is attributed. In addition, the contracts or other documentation must clearly disclose that the assets of that protected cell, and only those assets, are available to pay the obligations of that protected cell. However, failure to include express language attributing obligations under a contract to a protected cell does not give a party the right to void or reform the contract if the party had notice that the contract related to a protected cell. [PL 2007, c. 386, §14 (NEW).]

D. If the special purpose reinsurance vehicle enters into a contract involving more than one protected cell, the rights and obligations relating to each protected cell must be several rather than joint and the contract must make clear provisions for their apportionment between protected cells. [PL 2007, c. 386, §14 (NEW).]

E. In any action or proceeding involving the potential for monetary recovery by or against a special purpose reinsurance vehicle with protected cells, or for nonmonetary relief relating to a particular protected cell or cells, any process, pleading or order must name the specific cell or cells affected, including if applicable the general account. [PL 2007, c. 386, §14 (NEW).]

[PL 2007, c. 386, §14 (NEW).]

5. Separate administrative services. A special purpose reinsurance vehicle may contract with or arrange for an investment advisor, commodity trading advisor or other 3rd party to manage the assets or administer the obligations of a protected cell, if all remuneration, expenses and other compensation arising out of services performed with respect to that protected cell are payable only from the assets of that protected cell or, with the approval of the superintendent, from the assets of the special purpose reinsurance vehicle's general account.

[PL 2007, c. 386, §14 (NEW).]

6. Notice of impairment or insolvency. A special purpose reinsurance vehicle with protected cells shall notify the superintendent in writing within 10 business days after the special purpose reinsurance vehicle or any protected cell becomes impaired or insolvent.

[PL 2007, c. 386, §14 (NEW).]

7. Conversion to protected cell framework. A special purpose reinsurance vehicle without protected cells may apply to the superintendent in accordance with subsection 2 to revise its plan of operation to establish one or more protected cells. If there is an existing insurance securitization in force at the time of the application, the revised plan of operation must provide for the establishment of a protected cell for that securitization and the transfer to the protected cell of all assets and liabilities relating to the securitization.

[PL 2007, c. 386, §14 (NEW).]

8. Termination of protected cell. At the cessation of business of a protected cell in accordance with the plan approved by the superintendent, the special purpose reinsurance vehicle shall close out the protected cell account and the superintendent shall modify the limited certificate of authority to reflect the termination.

[PL 2007, c. 386, §14 (NEW).]

SECTION HISTORY

§785. Powers

1. Powers. A special purpose reinsurance vehicle authorized under this subchapter has the powers to enter into contracts and to conduct other commercial activities necessary to fulfill the purposes of this subchapter. These activities may include, but are not limited to, entering into contracts, issuing securities of the special purpose reinsurance vehicle and complying with the terms of the contracts, entering into trust agreements, swap agreements and any other agreements necessary to effectuate an insurance securitization in compliance with the limitations and pursuant to the authorities granted to the reinsurance vehicle under this subchapter or the plan of operation approved by the superintendent. [PL 2003, c. 249, §2 (NEW).]

2. Bylaws. A special purpose reinsurance vehicle organized or doing business under this subchapter is capable of suing or being sued and may make or enforce contracts in relation to the business of the reinsurance vehicle; may have and use a common seal and in the name of the reinsurance vehicle or by a trustee chosen by the board of directors is capable of taking, purchasing, holding and disposing of real and personal property for carrying into effect the purposes of its organization; and may by its board of directors, trustees, officers or managers make bylaws and amendments to the bylaws not inconsistent with the laws or the constitution of this State or of the United States. A. There has been embezzlement, wrongful sequestration, dissipation or diversion of the assets of the reinsurance vehicle or protected cell intended to be used to pay amounts owed to the ceding insurer or the holders of special purpose reinsurance vehicle securities; or [PL 2007, c. 386, §19 (AMD).]

B. [PL 2007, c. 386, §19 (AMD).]

[PL 2007, c. 386, §19 (AMD).]

3-A. Protected cells. The following provisions apply to the insolvency of a special purpose reinsurance vehicle with protected cells or to the insolvency of a protected cell.

A. The insolvency of one protected cell does not constitute the insolvency of any other protected cell or of the special purpose reinsurance vehicle itself. The insolvency of a special purpose reinsurance vehicle does not constitute the insolvency of any of its solvent protected cells and is not a basis for the receivership of any solvent protected cell capable of independent operation. [PL 2007, c. 386, §19 (NEW).]

C. The assets attributed to a protected cell may not be applied to the liabilities attributed to another protected cell or to the reinsurance vehicle generally, except that:

(2) A general liability of an insolvent special purpose reinsurance vehicle may be apportioned equitably in whole or in part to one or more of its protected cells if the Superior Court determines that the liability arises out of the operations of the protected cell or cells and that the interests of innocent creditors of the protected cell or cells are not unreasonably impaired; and

(3) If assets or liabilities have been commingled, or have been wrongfully transferred between protected cells or between a protected cell and the general account, the Superior Court shall

trace the assets and attribute them to the proper accounts, giving due consideration to the terms of any relevant governing instrument or contract. [PL 2007, c. 386, §19 (NEW).]

D. The plan of rehabilitation or liquidation of any special purpose reinsurance vehicle with protected cells must make reasonable provision for the continued operation of all solvent protected cells, which may involve the formation of one or more new special purpose reinsurance vehicles or the transfer of one or more protected cells. A. Notwithstanding the provisions of chapter 57, an application or petition in any delinquency proceeding relating to a ceding insurer or any temporary restraining order or injunction issued in any such proceeding may not prohibit the transaction of any business by a reinsurance vehicle, including any payment by a reinsurance vehicle made pursuant to a special purpose reinsurance vehicle security or any action or proceeding against a reinsurance vehicle or its assets. [PL 2003, c. 249, §2 (NEW).]

B. Notwithstanding the provisions of chapter 57, subchapter 2, the commencement of a summary proceeding or other interim proceeding commenced prior to a formal delinquency proceeding with respect to a reinsurance vehicle and any order issued by the court in such proceeding may not prohibit a reinsurance vehicle from making a payment pursuant to a special purpose reinsurance vehicle security or contract or from taking any action required to make the payment. B. A receiver of a special purpose reinsurance vehicle may not void a nonfraudulent transfer by the reinsurance vehicle of money or other property made to a ceding insurer pursuant to a special purpose reinsurance vehicle contract or made to or for the benefit of any holder of a special purpose reinsurance vehicle security on account of the special purpose reinsurance vehicle security. [PL 2003, c. 249, §2 (NEW).]
[PL 2007, c. 386, §19 (AMD).]

6. Fulfillment of obligations. With the exception of the fulfillment of the obligations under a special purpose reinsurance vehicle contract and notwithstanding any other provisions of this subchapter or other law of this State to the contrary, the assets of a special purpose reinsurance vehicle including assets held in trust may not be consolidated with or included in the estate of a ceding insurer in any delinquency proceeding against the ceding insurer under this subchapter for any purpose, including, without limitation, distribution to creditors of the ceding insurer.
[PL 2003, c. 249, §2 (NEW).]

7. Domiciliary receiver. Notwithstanding any other provision of this subchapter:

A. The domiciliary receiver of a special purpose reinsurance vehicle domiciled in another state is vested by operation of law with the title to all of the assets, property, contracts and rights of action and all of the books, accounts and other records of the reinsurance vehicle located in this State. The domiciliary receiver has the immediate right to recover all such vested property, assets and

causes of action of the reinsurance vehicle located in this State ; and [PL 2007, c. 386, §19 (AMD).]

B. An ancillary proceeding may not be commenced or prosecuted in this State against a special purpose reinsurance vehicle domiciled in another state. [PL 2003, c. 249, §2 (NEW).]

§952. Calculation of reserve liabilities

1. The superintendent shall annually value, or cause to be valued, the reserve liabilities, hereinafter called reserves, for all outstanding life insurance policies and annuity and pure endowment contracts of every life insurer transacting business in this State in accordance with this subchapter, except that in the case of an alien insurer, such valuation must be limited to its United States business; and may certify the amount of any such reserves, specifying the mortality table or tables, rate or rates of interest and methods, net level premium method or other, used in the calculation of such reserves. In calculating such reserves, the superintendent may use group methods and approximate averages for fractions of a year or otherwise. In lieu of the valuation of the reserves required of any foreign or alien insurer, the superintendent may accept any valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when such valuation complies with the minimum standard herein provided. For policies and contracts issued before the operative date of the valuation manual or not addressed by the valuation manual, reserves must be determined according to sections 953 to 958-A. For policies and contracts issued after the operative date of the valuation manual, reserves must be determined according to sections 959 and 960 and as specified by the valuation manual.

[PL 2013, c. 238, Pt. C, §3 (AMD).]

Before the operative date of the valuation manual, the superintendent by rule shall define the specifics of the opinion. On and after the operative date of the valuation manual, if the valuation manual has prescribed specific requirements applicable to the opinion, the opinion must comply with those requirements. The superintendent by rule may add any other items considered necessary to the scope of the opinion.

The superintendent may provide by rule for a transition period for establishing any higher reserves that the appointed actuary may consider necessary in the opinion required by this subsection.

D. In the case of an opinion required to be submitted by a foreign or alien insurer, the superintendent may accept the opinion filed by that insurer with the insurance supervisory official of another state if the superintendent determines that the opinion reasonably meets the requirements applicable to an insurer domiciled in this State. [PL 1993, c. 634, Pt. B, §1 (NEW); PL 1993, c. 634, Pt. B, §4 (AFF).]

E. [PL 2013, c. 238, Pt. C, §5 (RP).]

§953. Minimum standards

1. This subsection applies only to policies and contracts issued prior to January 1, 1948, or such earlier date after July 21, 1945, as shall have been elected by an insurer as the date on and after which it would comply with the standard nonforfeiture law.

Except as otherwise provided in subsection 3, the legal minimum standard of value for such life insurance policies issued on or after the first day of September, 1931, by any life insurer chartered by this State, shall be the American Experience Table of Mortality with interest at 3 1/2% per year. Any such life insurer may, at its option, value its insurance policies issued on and after such day, in accordance with their terms on the basis of the American Men Ultimate Table of Mortality with interest not higher than 3 1/2% per year by the net level premium method. Reserves for all such policies and contracts may be calculated, at the option of the insurer, according to any standards which produce

greater aggregate reserves for all such policies and contracts than the minimum reserves required by this subsection.

[PL 1975, c. 342, §1 (AMD).]

2. This subsection applies only to policies and contracts issued on and after January 1, 1948, or the earlier date after July 21, 1945, as shall have been elected by an insurer as the date on and after which it would comply with the standard nonforfeiture law.

Except as otherwise provided in subsection 3 and section 953-A, the minimum standard for the valuation of all those policies and contracts shall be the commissioners reserve valuation method defined in section 954, 3 1/2% interest, or in the case of policies and contracts, other than annuity and pure endowment contracts, issued on or after December 31, 1975, 4% interest, and the following tables, or in the case of these policies and contracts, other than annuity and pure endowment contracts, issued on or after January 1, 1980, 4 1/2% interest, and the following tables.

A. Standard Ordinary Mortality Table. For all ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in these policies, -- the Commissioners 1941 Standard Ordinary Mortality Table; provided that the Commissioners 1958 Standard Ordinary Mortality Table shall be the table for the minimum standard for those policies issued on and after January 1, 1966, or such earlier date after September 12, 1959, as shall have been elected by an insurer as the date on and after which it would use such table as the basis for minimum cash surrender values and nonforfeiture benefits under the standard nonforfeiture law and prior to the operative date of the Standard Nonforfeiture Law for Life Insurance, section 2532-A; provided that for any category of those policies issued on female risks all modified net premiums and present values referred to in sections 951 to 957 may be calculated according to an age not more than 3 years younger than the actual age of the insured, or in the case of those policies issued on or after January 1, 1980, according to an age not more than 6 years younger than the actual age of the insured. For those policies issued on or after the operative date of the Standard Nonforfeiture Law for Life Insurance, section 2532-A, the Commissioners 1980 Standard Ordinary Mortality Table, or at the election of the company for any one or more specified plans of life insurance, the Commissioners 1980 Standard Ordinary Mortality Table with Ten-Year Select Mortality Factors or any ordinary mortality table, adopted after 1980 by the National Association of Insurance Commissioners, that is approved by regulation promulgated by the superintendent for use in determining the minimum standard of valuation for the policies. [PL 1983, c. 346, §2 (AMD).]

B. Standard Industrial Mortality Table. For all industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in the policies, -- the 1941 Standard Industrial Mortality Table; provided that the Commissioners 1961 Standard Industrial Mortality Table, or any industrial mortality table, adopted after 1980 by the National Association of Insurance Commissioners, that is approved by regulation promulgated by the superintendent for use in determining the minimum standard of valuation for those policies, shall be the table for the minimum standard for those policies issued on and after January 1, 1968, or such earlier date after September 1, 1963, as shall have been elected by the insurer as the date on and after which it would use such table as the basis for minimum cash surrender values and nonforfeiture benefits under the standard nonforfeiture law. [PL 1983, c. 346, §2 (AMD).]

C. Standard Annuity Mortality Table or Annuity Mortality Table. For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in those policies -- the 1937 Standard Annuity Mortality Table or, at the option of the insurer, the Annuity Mortality Table for 1949, Ultimate, or any modification of either of these tables approved by the superintendent. §953-A. Applicable interest rates

1. The interest rates used in determining the minimum standard for the valuation of the following shall be the calendar year statutory valuation interest rates, as defined in this section:

A. All life insurance policies issued in a particular calendar year, on or after the operative date of the Standard Nonforfeiture Law for Life Insurance, section 2532-A; [PL 1983, c. 346, §3 (NEW).]

B. All individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1984, or January 1, 1983, at the election of the insurer; [PL 1983, c. 346, §3 (NEW).]

C. All annuities and pure endowments purchased in a particular calendar year on or after January 1, 1984, or January 1, 1983, at the election of the insurer, under group annuity and pure endowment contracts; and [PL 1983, c. 346, §3 (NEW).]

D. The net increase, if any, in a particular calendar year after January 1, 1984, or January 1, 1983, at the election of the insurer, in amounts held under guaranteed interest contracts. [PL 1983, c. 346, §3 (NEW).]

An insurer electing January 1, 1983, in lieu of January 1, 1984, in paragraph B, C or D, shall notify the superintendent of its election by written notice no later than December 31, 1983.

[PL 1983, c. 346, §3 (NEW).]

2. The calendar year statutory valuation interest rates, I, shall be determined as follows and the results rounded to the nearest 1/4 of 1%:

A. For life insurance:

$$I = .03 + W (R_1 -.03) + W (R_2 -.09)$$

2 [PL 1983, c. 346, §3 (NEW).]

B. For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options:

$I = .03 + W(R - .03)$ [PL 1983, c. 346, §3 (NEW).]

where R_1 is the lesser of R and $.09$,

R_2 is the greater of R and $.09$,

R is the reference interest rate defined in this section, and W is the weighting factor defined in this section; [PL 1983, c. 346, §3 (NEW).]

C. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in paragraph B, the formula for life insurance stated in paragraph A shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of 10 years, and the formula for single premium immediate annuities stated in paragraph B shall apply to annuities and guaranteed interest contracts with guarantee duration of 10 years or less; [PL 1983, c. 346, §3 (NEW).]

D. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium annuities stated in paragraph B shall apply; and [PL 1983, c. 346, §3 (NEW).]

E. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in paragraph B shall apply. [PL 1983, c. 346, §3 (NEW).]

If the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year, determined without reference to this sentence, differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than 1/2 of 1%, the calendar year statutory valuation interest rate for those life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980, by using the reference interest rate defined for 1979, and shall be determined for each subsequent calendar year, regardless of when the Standard Nonforfeiture Law for Life Insurance, section 2532-A, becomes operative.

[PL 1983, c. 346, §3 (NEW).]

3. The weighting factors in the formulas in subsection 2 are given in the following tables:

A. Weighting Factors for Life Insurance:

| Guarantee Duration (Years) | Weighting Factors |
|------------------------------------|----------------------|
| 10 or less | .50 |
| More than 10, but not more than 20 | .45 |
| More than 20 | .35 |

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values or both which are guaranteed in the original policy; [PL 1983, c. 346, §3 (NEW).]

B. Weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options: .80; [PL 1983, c. 346, §3 (NEW).]

C. Weighting factors for other annuities and for guaranteed interest contracts, except as stated in paragraph B, shall be as specified in subparagraphs (1), (2) and (3), according to the rules and definitions in subparagraphs (4), (5) and (6):

(1) For annuities and guaranteed interest contracts valued on an issue year basis:

| Guarantee Duration (Years) | Weighting Factor for Plan Types | | |
|-------------------------------------|---------------------------------|-----|-----|
| | A | B | C |
| 5 or less: | .80 | .60 | .50 |
| More than 5, but not more than 10: | .75 | .60 | .50 |
| More than 10, but not more than 20: | .65 | .50 | .45 |
| More than 20: | .45 | .35 | .35 |

(2) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in subparagraph (1) increased by:

| Plan Type | | |
|-----------|-----|------|
| A | B | C |
| .15 | .25 | .05; |

(3) For annuities and guaranteed interest contracts valued on an issue year basis, other than those with no cash settlement options, which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than 12 months beyond the valuation date, the factors shown in subparagraph (1) or derived in subparagraph (2) increased by:

| Plan Type | | |
|-----------|-----|------|
| A | B | C |
| .05 | .05 | .05; |

(4) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of 20 years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guarantee duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence;

(5) Plan type as used in the subparagraphs (1), (2) and (3) tables is defined as follows.

(a) Plan Type A. At any time policyholder may withdraw funds, only: With an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; without that adjustment, but in installments over 5 years or more; as an immediate life annuity; or no withdrawal permitted.

(b) Plan Type B. Before expiration of the interest rate guarantee, policyholder may withdraw funds, only: With an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; without that adjustment, but in installments over 5 years or more; or no withdrawal permitted. At the end of interest rate guarantee, funds may be withdrawn without that adjustment in a single sum or installments over less than 5 years.

(c) Plan Type C. Policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than 5 years, either: Without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund; and

(6) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue year basis. As used in this section, an issue year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract, and the change in fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund. [PL 1983, c. 346, §3 (NEW).]

[PL 1983, c. 346, §3 (NEW).]

4. The reference interest rate referred to in subsection 2 is defined as follows:

A. For all life insurance, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30th of the calendar year next preceding the year of issue, of Moody's Corporate Bond Yield Average-Monthly Average Corporates, as published by Moody's Investors Service, Inc.; [PL 1983, c. 346, §3 (NEW).]

B. For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of 12 months, ending on June 30th of the calendar year of issue or year of purchase, of Moody's Corporate Bond Yield Average-Monthly Average Corporates, as published by Moody's Investors Service, Inc.; [PL 1983, c. 346, §3 (NEW).]

C. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in paragraph B, with guarantee duration in excess of 10 years, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30th of the calendar year of issue or purchase, of Moody's Corporate Bond Yield Average-Monthly Average Corporates, as published by Moody's Investors Service, Inc.; [PL 1983, c. 346, §3 (NEW).]

5. In the event that Moody's Corporate Bond Yield Average-Monthly Average Corporates is no longer published by Moody's Investors Service, Inc., or in the event that the National Association of Insurance Commissioners determines that Moody's Corporate Bond Yield Average-Monthly Average Corporates, as published by Moody's Investors Service, Inc. is no longer appropriate for the

determination of the reference interest rate, then an alternative method for determination of the reference interest rate, which is adopted by the National Association of Insurance Commissioners and approved by regulation promulgated by the superintendent, may be substituted.

§954. Commissioners reserve valuation method defined

1. Policies providing for uniform insurance and uniform premiums. Except as otherwise provided in subsection 2 and section 957, reserves according to the commissioners reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums, shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of paragraph A over paragraph B as follows:

A. A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per year payable on the first and each subsequent anniversary of such policy on which a premium falls due. Such net level annual premium shall not exceed the net level annual premium on the 19-year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy; [PL 1979, c. 453, §5 (NEW).]

B. A net one-year term premium for those benefits provided in the first policy year. [PL 1983, c. 346, §4 (AMD).]

[PL 1983, c. 346, §4 (AMD).]

1-A. Reserve. For any life insurance policy issued on or after January 1, 1987, for which the contract premium in the first policy year exceeds that of the 2nd year and for which no comparable additional benefit is provided in the first year for that excess and which provides an endowment benefit or a cash surrender value, or a combination thereof, in an amount greater than that excess premium, the reserve according to the commissioners reserve valuation method as of any policy anniversary occurring on or before the assumed ending date, defined in this subsection as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than that excess premium, shall, except as otherwise provided in section 957, be the greater of the reserve as of that policy anniversary calculated as described in subsection 1 and the reserve as of that policy anniversary calculated as described in subsection 1, but with the value defined in subsection 1, paragraph A, being reduced by 15% of the amount of that excess first year premium, all present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date, the policy being assumed to mature on that date as an endowment, and the cash surrender value provided on that date being considered as an endowment benefit. In making this comparison, the mortality and interest bases stated in sections 953 and 953-A shall be used.

Reserves according to the commissioners reserve valuation method for:

A. Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums; [PL 1983, c. 346, §5 (NEW).]

B. Group annuity and pure endowment contracts, purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership or sole

proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under the United States Internal Revenue Code, Section 408, as now or hereafter amended; [PL 1983, c. 346, §5 (NEW).]

C. Disability and accidental death benefits in all policies and contracts; and [PL 1983, c. 346, §5 (NEW).]

D. All other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts, [PL 1983, c. 346, §5 (NEW).]

shall be calculated by a method consistent with the principles of the preceding provisions of this section, except that any extra premiums charged because of impairments or special hazards shall be disregarded in the determination of modified net premiums.

[PL 1983, c. 346, §5 (NEW).]

2. Annuity and pure endowment contracts. This subsection shall apply to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under the United States Internal Revenue Code, Section 408, as now or hereafter amended.

Reserves according to the commissioners annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability or accidental death benefits in such contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by such contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of such contract, that become payable prior to the end of such respective contract year. The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate, or rates, specified in such contracts for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of such contracts to determine nonforfeiture values.

§955. Minimum reserves

1. Minimum aggregate reserves for life insurance policies. An insurer's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, that are subject to section 953, subsection 2 may not be less than the aggregate reserves calculated in accordance with the method set forth in sections 954 and 957-A and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for these policies.

[PL 1993, c. 634, Pt. B, §2 (NEW).]

2. Minimum aggregate reserves for all policies. The aggregate reserves for all policies, contracts and benefits may not be less than the aggregate reserves determined necessary by the appointed actuary in the opinion required by section 952-A.

§956. Optional reserve calculation

1. Reserve calculation. Reserves for any category of policies, contracts or benefits as established by the superintendent that are subject to section 953, subsection 2, may be calculated at the option of the insurer according to any standards that produce greater aggregate reserves for that category than those calculated according to the minimum standard provided in section 955, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, may not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided.

[PL 1993, c. 634, Pt. B, §3 (NEW).]

2. Lower standard of valuation. Any insurer that adopts any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard provided in section 955 may adopt, with the approval of the superintendent, any lower standards of valuation, but not lower than the minimum required, except that for the purposes of this section the holding of additional reserves previously determined necessary by the appointed actuary in the opinion required by section 952-A may not be determined to be the adoption of a higher standard of valuation.

§957. Deficiency reserve

If the gross premium charged by any life insurer on any policy or contract which is subject to section 953, subsection 2, is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve thereon, but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for that policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest and method actually used for that policy or contract, or the reserve calculated by the method actually used for that policy or contract, but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in sections 953 and 953-A. [PL 1983, c. 346, §7 (AMD).]

For any life insurance policy issued on or after January 1, 1987, for which the gross premium in the first policy year exceeds that of the 2nd year and for which no comparable additional benefit is provided in the first year for that excess and that provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than that excess premium, the foregoing provisions of this section must be applied as if the method actually used in calculating the reserve for that policy were the method described in section 954, ignoring the 2nd paragraph of section 954. The minimum reserve at each policy anniversary of such a policy is the greater of the minimum reserve calculated in accordance with section 954, including the 2nd paragraph of that section, and the minimum reserve calculated in accordance with this section. §957-A. Superintendent's authority to approve certain plans

1. In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurance company based on then estimates of future

experience, or in the case of any plan of life insurance or annuity which is of such a nature that the minimum reserves cannot be determined by the methods described in sections 954 and 957, the reserves which are held under any plan of that type must:

- A. Be appropriate in relation to the benefits and the pattern of premiums for that plan; and [PL 1983, c. 346, §8 (NEW).]
- B. Be computed by a method which is consistent with the principles of this Standard Valuation Law, [PL 1983, c. 346, §8 (NEW).]

 - (2) Assumptions to be prescribed for risks over which the insurer does not have significant control or influence; and

- (1) Is consistent with the minimum standard of valuation for policies and contracts issued before the operative date of the valuation manual; or
 - (2) Develops reserves that quantify the benefits and guarantees, and the funding, associated with the policies and contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events that have a reasonable probability of occurring; [PL 2013, c. 238, Pt. C, §9 (NEW).]

[PL 2013, c. 238, Pt. C, §9 (NEW).]

4. Examination. For an insurer subject to this section, the superintendent may hire, contract with or otherwise engage a qualified actuary, at the insurer's expense, to perform an actuarial examination of the insurer and provide an opinion on the appropriateness of any reserve assumption or method used by the insurer or to review and provide an opinion on the insurer's compliance with any requirement of this subchapter. The superintendent may rely on any actuarial opinion issued on behalf of another insurance regulator in the United States that is relevant to an insurer's compliance with this subchapter.
[PL 2013, c. 238, Pt. C, §9 (NEW).]

5. Corrections. The superintendent may require an insurer to change any assumption or method as determined necessary by the superintendent to comply with the requirements of the valuation manual or this subchapter, and the insurer shall adjust the reserves as required by the superintendent. [PL 2013, c. 238, Pt. C, §9 (NEW).]

6. Violations. Violations of this subchapter are subject to all remedies specified in section 12-A or otherwise available by law. [PL 2013, c. 238, Pt. C, §9 (NEW).]

PL 2013, c. 238, Pt. C, §9 (NEW).

§960. Requirements for principle-based reserves

1. Scope. This section applies to all policies and contracts for which principle-based reserving is required by the valuation manual, unless exempted by the superintendent in accordance with the following standards:

- A. An exemption under this subsection may not be granted unless the insurer is licensed and doing business exclusively in this State; [PL 2013, c. 238, Pt. C, §9 (NEW).]
- B. The exemption must be in writing; [PL 2013, c. 238, Pt. C, §9 (NEW).]

- D. The exemption may apply to all business written by the insurer or to specific policy or contract forms or product lines; and [PL 2013, c. 238, Pt. C, §9 (NEW).]
- E. An insurer granted an exemption under this subsection shall value its reserves using the assumptions and methods used before the operative date of the valuation manual, in addition to any requirements established by the superintendent by rule or by the terms of the order granting the exemption. [PL 2013, c. 238, Pt. C, §9 (NEW).]

[PL 2013, c. 238, Pt. C, §9 (NEW).]

2. Standards. An insurer shall establish reserves for policies and contracts subject to this section using a valuation methodology that meets all applicable requirements of the valuation manual and that:

- A. Quantifies the benefits and guarantees, and the funding, associated with the policies and contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events that have a reasonable probability of occurring during the lifetime of the policies and contracts. For policies and contracts with significant tail risk, the methodology must reflect conditions appropriately adverse to quantify the tail risk; [PL 2013, c. 238, Pt. C, §9 (NEW).]
- B. Incorporates assumptions, risk analysis methods and financial models and management techniques that are consistent with, but not necessarily identical to, those used within the insurer's

overall risk assessment process, while recognizing potential differences in financial reporting structures and any prescribed assumptions or methods; [PL 2013, c. 238, Pt. C, §9 (NEW).]

C. Incorporates assumptions that are derived in one of the following manners:

- (1) The assumption is prescribed in the valuation manual; or
- (2) For assumptions that are not prescribed in the valuation manual, the assumptions are:
 - (a) Established using the insurer's available experience, to the extent that it is relevant and statistically credible; or
 - (b) To the extent that insurer-specific data is not available, relevant or statistically credible, established using other relevant, statistically credible experience; and [PL 2013, c. 238, Pt. C, §9 (NEW).]

D. Provides margins for uncertainty including adverse deviation and estimation error, such that the greater the uncertainty the larger the margin and resulting reserve. [PL 2013, c. 238, Pt. C, §9 (NEW).]

[PL 2013, c. 238, Pt. C, §9 (NEW).]

3. Oversight and controls. An insurer using a principle-based valuation for one or more policies or contracts subject to this section as specified in the valuation manual shall:

A. Establish procedures for corporate governance and oversight of the actuarial valuation function consistent with those described in the valuation manual; [PL 2013, c. 238, Pt. C, §9 (NEW).]

B. Provide to the superintendent and the insurer's board of directors an annual certification of the effectiveness of the internal controls with respect to the principle-based valuation. Such controls must be designed to ensure that all material risks inherent in the liabilities and associated assets subject to principle-based valuation are included in the valuation and that valuations are made in accordance with the valuation manual. The certification must be based on the controls in place as of the end of the preceding calendar year; and [PL 2013, c. 238, Pt. C, §9 (NEW).]

C. Develop, and file with the superintendent upon request, a principle-based valuation report that complies with standards prescribed in the valuation manual. [PL 2013, c. 238, Pt. C, §9 (NEW).]
[PL 2013, c. 238, Pt. C, §9 (NEW).]

4. Formulaic components. A principle-based valuation may include a formulaic reserve component and must do so when prescribed by the valuation manual or required by the superintendent. [PL 2013, c. 238, Pt. C, §9 (NEW).]

5. Applicability of rules. Rules adopted by the superintendent pursuant to this subchapter before January 1, 2014 do not apply to policies, contracts or actuarial opinions issued on or after the operative date of the valuation manual unless expressly made applicable by rule or order of the superintendent. §1124. Mortgage loans

1. An insurer may invest in bonds, notes or evidences of indebtedness other than those described in section 1109 (corporate obligations), which are secured by first or 2nd mortgages, or deeds of trust upon improved real property located in the United States or Canada, including leasehold estates having an unexpired term of not less than 21 years, inclusive of the term or terms which may be provided by enforceable options of renewal, if the underlying real property is not subject to any prior lien, and subject to the following requirements.

A. The security for the loan must be a first or 2nd lien upon such real property; and [PL 1979, c. 458, §6 (AMD).]

B. In the case of leaseholds, there must not be any condition or right of reentry or forfeiture not insured against under which the insurer is unable to continue the lease in force for the duration of the loan. [PL 1969, c. 132, §1 (NEW).]

[PL 1979, c. 458, §6 (AMD).]

2. Nothing herein shall prohibit any investment by reason of the existence of any prior lien for ground rents, taxes, assessments, common area maintenance charges or other similar charges not yet delinquent.

[PL 1979, c. 458, §7 (AMD).]

3. A loan secured by a 2nd mortgage or deed of trust may be made or acquired if, although junior in lien to a prior existing mortgage covering the same real property or leasehold interest thereof, the net amount actually advanced by the insurer under its mortgage plus the balance of principal and accrued interest then remaining unpaid under such prior mortgage does not exceed the amount which the insurer otherwise could have invested in such mortgage loan. The total loans or investments made under this subsection by an insurer shall not exceed 2% of its total admitted assets, and no such loan or investment shall be made or acquired by an insurer if the mortgagor, without the approval of the insurer, may increase the principal amount of the indebtedness secured by the prior mortgage except to the extent that the amount of that increase is applied in reduction of the loan or investment held by the insurer.

[PL 1979, c. 458, §8 (AMD).]

4. Such a mortgage loan or loans made or acquired by an insurer on any one property shall not at time of investment by the insurer be in amount in excess of 80% of the fair market value of the property or permit amortization over a period in excess of 40 years, or, in the case of leasehold interest, be in

excess of 75% of the fair market value of such interest or permit amortization over a period exceeding 4/5 of the lease term remaining at the time of the loan inclusive of the term or terms which may be provided by enforceable options of renewal, provided that this provision shall not be deemed to prohibit an insurer from investing in a nonamortizing mortgage loan so long as the period of nonamortization does not exceed 5 years and the aggregate amount of nonamortizing mortgage loans made under this subsection shall not exceed 30% of the insurer's assets. Prior to the investment, the value of the property or of the leasehold interest shall be determined, for the purposes of the investment, by a competent appraiser.

[PL 1981, c. 257 (AMD).]

5. In applying the limitations under subsection 4, there may be excluded from the amount invested that portion guaranteed by the Administrator of Veterans' Affairs pursuant to the Servicemen's Readjustment Act of 1944, as amended, or insured by the Federal Housing Administration under the National Housing Act, as amended, or by other United States or Canadian government agency.

[PL 1969, c. 132, §1 (NEW).]

6. An insurer may invest in purchase money mortgages or like securities received by it upon the sale or exchange of real property acquired pursuant to section 1125. Subsection 4 shall not apply as to such investments.

[PL 1969, c. 132, §1 (NEW).]

7. An insurer may invest in a mortgage participation, which for this purpose shall mean a bond, note or other evidence of indebtedness forming part of an issue of bonds, notes or other evidences of indebtedness which are secured by the same mortgage or deed of trust and shall also mean an instrument evidencing a participation in a bond, note or other evidence of indebtedness so secured, provided that the following requirements are met:

A. The underlying mortgage or deed of trust otherwise qualifies for investment as a mortgage loan under this section; and [PL 1979, c. 458, §10 (NEW).]

B. Either:

(1) The entire indebtedness secured by the same mortgage or deed of trust is held by the insurer;

(2) The insurer holds a senior participation giving it substantially the rights of a first or 2nd mortgagee, and a position of priority over the other holders of participations in that indebtedness; or

(3) Each participation is of equal rank. [PL 1979, c. 458, §10 (NEW).]

[PL 2023, c. 59, §3 (AMD).]

2. Counter-party limitations. Except as otherwise expressly provided, an insurer may not invest in or may not incur counter-party exposure to any one person if, after giving effect to those investments and that counter-party exposure, the aggregate of those investments in and that counter-party exposure to that person would exceed 10% of the insurer's admitted assets, with the following exceptions:

A. Government obligations pursuant to section 1156, subsection 2, paragraph A; [PL 2001, c. 524, §3 (AMD).]

B. Policy loans pursuant to section 1158; and [PL 2001, c. 524, §3 (AMD).]

C. Index mutual funds, but as to this exception, only with the prior approval of the superintendent and limited to 20% of the insurer's admitted assets. [PL 2001, c. 524, §3 (NEW).]

[PL 2023, c. 59, §3 (AMD).]

3. Other investment limitations. Other investment limitations are as provided in particular sections of this chapter.

§1156. Reserve and other investments

1. Standard of care. When investing the assets of an insurer, the directors and officers of the insurer shall perform their duties in good faith and with that degree of care that an ordinarily prudent person in a like position would use under similar circumstances.

[PL 1987, c. 399, §14 (NEW).]

2. Investment classes. Subject to section 1155, the assets of an insurer may be invested in the following classes, subject to the percentage limitations contained in this subsection:

A. Obligations issued, assumed, guaranteed or insured by the United States or by any state or by the District of Columbia, or any other governmental unit in the United States, its territories or possessions, or by any agency or instrumentality of any of those, provided that those obligations are by law payable, as to both principal and interest, from taxes upon all property or income within the jurisdiction of that governmental unit, or from adequate special revenues pledged or appropriated or otherwise by law required to be provided for the purpose of that payment, but not including special assessments on properties benefitted by local improvements unless adequate security is evidenced by the ratio of assessment to the value of those properties, or unless the obligation is additionally secured by an adequate guaranty fund required by law; [PL 1987, c. 399, §14 (NEW).]

B. Obligations issued, assumed, guaranteed or accepted by domestic institutions or by trustees or receivers of those institutions, and preferred shares of any of those institutions, provided that without the prior approval of the superintendent, no domestic insurer may acquire any high-yield or medium grade obligations of any institution if:

(1) The aggregate amount of all medium grade obligations and all high-yield obligations then held by the insurer exceeds 20% of its admitted assets;

- (2) The aggregate amount of all high-yield obligations then held by the insurer exceeds 10% of its admitted assets;
 - (3) The aggregate amount of all high-yield obligations rated 5 or 6 by the Securities Valuation Office of the National Association of Insurance Commissioners or, if not valued by the National Association of Insurance Commissioners, rated the equivalent of 5 or 6 by Moody's Investors Service, Inc., Standard and Poor's Corporation, Fitch Investors Service, Inc. or Duff and Phelps, Inc., exceeds 3% of admitted assets;
 - (4) The aggregate amount of all high-yield obligations rated 6 by the Securities Valuation Office of the National Association of Insurance Commissioners or, if not valued by the National Association of Insurance Commissioners, rated the equivalent of 6 by Moody's Investors Service, Inc., or rated D by Standard and Poor's Corporation, Fitch Investors Service, Inc., or Duff and Phelps, Inc., exceeds 1% of admitted assets;
 - (5) The aggregate amount of medium grade obligations issued, guaranteed or insured by any one institution then held by the insurer exceeds 1/2 of 1% of its admitted assets; or
 - (6) The aggregate amount of high-yield obligations issued, guaranteed or insured by any one institution then held by the insurer exceeds 1/2 of 1% of its admitted assets. [PL 1993, c. 313, §26 (RPR).]
- C. Obligations secured by liens on real property or interests in real property located within the United States and not eligible under paragraph A or B acquired directly or indirectly through limited partnership interests, general partnership interests, joint ventures, stock of an investment subsidiary or membership interests in a limited liability company, trust certificates or other similar instruments if, at the time of the acquisition, the obligation does not exceed:
- (1) Ninety percent of the fair market value of the real estate, if the mortgage loan is secured by a purchase money mortgage or like security received by the insurer upon disposition of the real estate;
 - (2) Eighty percent of the fair market value of the real estate, if the mortgage loan requires immediate scheduled payment in periodic installments of principal and interest, has an amortization period of 30 years or less and requires periodic payments made no less frequently than annually. Each periodic payment must be sufficient to ensure that at all times the outstanding principal balance of the mortgage loan may not be greater than the outstanding principal balance that would be outstanding under a mortgage loan with the same original principal balance, with the same interest rate and requiring equal payments of principal and interest with the same frequency over the same amortization period. Mortgage loans that are otherwise permitted under this subparagraph may provide for a payment of the principal balance before the end of the period of amortization of the loan. For residential mortgage loans, the 80% limitation may be increased to 97% if acceptable private mortgage insurance has been obtained; or
 - (3) Seventy-five percent of the fair market value of the real estate for mortgage loans that do not meet the requirements of subparagraph (1) or (2).

A mortgage loan that is secured by other than a first lien may not be acquired under this paragraph unless the insurer is the holder of the first lien. For purposes of this paragraph, the amount of an obligation required to be included in the calculation of the loan-to-value ratio may be reduced to the extent the obligation is insured by the Federal Housing Administration or guaranteed by the Administrator of Veterans' Affairs, or their successors. A mortgage loan that is acquired under this paragraph and is restructured in a manner that meets the requirements of a restructured mortgage loan in accordance with the National Association of Insurance Commissioners accounting practices

and procedures manual or successor publication continues to qualify as a mortgage loan under this paragraph. [PL 1999, c. 715, §12 (AMD).]

D. Investments in real property or interests therein located in the United States, held directly or evidenced by partnership interests, stock of corporations, trust certificates or other instruments and acquired:

- (1) As an investment for the production of income or to be improved or developed for that investment purpose; or
- (2) For the convenient accommodation of the insurer's business.

After giving effect to any of those types of investments, the aggregate amount of investments made under subparagraph (1) may not exceed 20% of the insurer's total admitted assets; the aggregate amount of investments made under subparagraph (2) may not exceed 10% of the insurer's total admitted assets; and the aggregate amount of investments made under this paragraph may not exceed 25% of the insurer's total admitted assets. Investments under subparagraph (1) in any single property, including improvements on that property, may not in the aggregate exceed 2% of the insurer's total admitted assets; [PL 1993, c. 313, §27 (AMD).]

E. Investments in personal property or interests in that property located or used wholly or in part within the United States, held directly or evidenced by partnership interests, stock of corporations, trust certificates or other instruments, provided that, after giving effect to any investment of that type, the aggregate amount of those investments will not exceed 10% of the insurer's total admitted assets and provided that investments under this paragraph in any single item of personal property will not in the aggregate exceed 1% of the insurer's total admitted assets; [PL 1987, c. 399, §14 (NEW).]

F. Investments, other than investments described in paragraph D or E and in addition to investments authorized by section 1157, in common stock, partnership interests, trust certificates or other equity interests, other than preferred shares, of domestic institutions, provided that, after giving effect to any investment of that type under this paragraph, the aggregate amount of those investments will not exceed 20% of the insurer's total admitted assets; [PL 1987, c. 399, §14 (NEW).]

F-1. Investment practices entered into under section 1153, subsection 4 or section 1160, subsection 6; [PL 2001, c. 471, Pt. D, §24 (NEW).]

G. The following foreign investments in and investment practices with persons domiciled in foreign jurisdictions:

- (1) Canadian securities and investments substantially of the same classes as those eligible for investment under paragraphs A to F, but the aggregate amount of those investments that are held at any time by any insurer may not exceed 10% of total admitted assets, except when a greater amount is permitted pursuant to subparagraph (2), in which case this subparagraph is not applicable;
- (2) In the case of any insurer that is authorized to do business in a foreign country or possession of the United States or that has outstanding insurance, annuity or reinsurance contracts on lives or risks resident or located in a foreign country or possession of the United States, securities and investments in that foreign country or possession that are substantially of the same classes as those eligible for investment under paragraphs A to F, but the aggregate amount of such investments in a foreign country or a possession of the United States and of cash in the currency of that country or possession that is at any time held by that insurer may not, except as provided in paragraph H, exceed 1 1/2 times the amount of its reserves and other obligations under those contracts or the amount that that insurer is required by law to invest in that country or possession, whichever is greater;

(3) Foreign investments in and foreign investment practices with persons domiciled in foreign jurisdictions that are substantially of the same classes as those eligible for investment under this chapter, if after giving effect to the investment or transaction:

(a) The aggregate amount of foreign investments then held by the insurer and foreign investment practices then engaged in by the insurer under this subparagraph does not exceed 20% of its admitted assets; and

(b) The aggregate amount of foreign investments then held by the insurer and foreign investment practices then engaged in by the insurer under this subparagraph in a single foreign jurisdiction does not exceed 10% of its admitted assets if the foreign jurisdiction has a sovereign debt rating of "1" from the Securities Valuation Office of the National Association of Insurance Commissioners or 3% of its admitted assets if the foreign jurisdiction has a sovereign debt rating other than "1" from the Securities Valuation Office of the National Association of Insurance Commissioners; and

(4) Investments and investment practices denominated in foreign currencies whether or not they are foreign investments acquired or foreign investment practices engaged in pursuant to subparagraphs (1) or (3), or additional foreign currency exposure as a result of the termination or expiration of a hedging transaction with respect to investments or investment practices denominated in a foreign currency if:

(a) The aggregate amount of investments then held by the insurer and investment practices then engaged in by the insurer under this subparagraph denominated in foreign currencies does not exceed 10% of its admitted assets; and

(b) The aggregate amount of investments then held by the insurer and investment practices then engaged in by the insurer under this subparagraph denominated in the currency of a single foreign jurisdiction does not exceed 10% of its admitted assets if the foreign jurisdiction has a sovereign debt rating of "1" from the Securities Valuation Office of the National Association of Insurance Commissioners or 3% of its admitted assets if the foreign jurisdiction has a sovereign debt rating other than "1" from the Securities Valuation Office of the National Association of Insurance Commissioners.

An investment or an investment practice is not considered denominated in a foreign currency if the insurer enters into one or more hedging transactions permitted under section 1153, subsection 4 to hedge the foreign currency exchange rate risk associated with such investment or investment practice; and [PL 1999, c. 715, §13 (AMD).]

H. Investments that do not qualify or are not permitted under any other paragraph of this subsection; as long as:

(1) After giving effect to any investment made under this paragraph, the aggregate amount of those investments does not exceed 14% of total admitted assets, except that investments made under this paragraph in institutions or property not located within the State may not exceed 10% of total admitted assets; and, if the insurer makes investments described in paragraphs A to G and elects to charge those investments against the quantitative limits in this paragraph instead of the quantitative limits in paragraphs A to G, then the aggregate amount invested under this paragraph in those types of investments may not exceed 5% of total admitted assets for any one of those types of investments;

(2) Investments that are neither interest bearing nor income entitled are subject to all of the provisions of this paragraph; and the aggregate amount of those investments held at any one time may not exceed 3% of total admitted assets;

(3) The investment limitations contained in this chapter, qualitative or otherwise, do not apply to loans or investments made or acquired under this paragraph, provided that no loan or

investment made or acquired under this paragraph may be represented by any asset determined to be nonadmitted pursuant to section 901-A or rules adopted under that section; any loan or investment expressly prohibited under section 1160; or agents' balances, or amounts advanced to or owing by agents, except as to policy loans, mortgage loans and collateral loans to those agents otherwise authorized under this chapter; or

(4) The insurer shall keep a separate record of all loans and investments made or acquired under this paragraph. Any such loan or investment that, subsequent to the date of making or acquisition, has attained the standard of eligibility and qualifies under any other provision of this chapter may be considered to have been made or acquired under and in compliance with that provision and may no longer be considered to have been made or acquired under this paragraph. [PL 2001, c. 471, Pt. A, §27 (AMD).]

[PL 2001, c. 471, Pt. A, §27 (AMD); PL 2001, c. 471, Pt. D, §24 (AMD).]

3. Determination of eligibility. The eligibility of any investment under any paragraph of subsection 2 must be determined at the time of acquisition, except that investments qualified under subsection 2, paragraph H, may be requalified at a later date under another provision of this chapter, if the relevant conditions are satisfied at the time of such requalification.

§1157. Investment in subsidiaries

1. Investment or acquisition. Subject to the limitations contained in subsection 5, an insurer may invest in, or otherwise acquire, subsidiaries engaged or organized to engage in any businesses lawful under the laws of the jurisdictions in which those subsidiaries are organized.

[PL 1987, c. 399, §14 (NEW).]

2. Authorization. Except as provided in section 1153, subsection 3, investments in subsidiaries authorized by this section may not be authorized under any other section of this chapter.

[PL 1987, c. 399, §14 (NEW).]

3. Superintendent; order of disposition. At any time after the acquisition by the insurer of any subsidiary, other than a holding company engaged solely in the ownership or control of other subsidiaries, or a subsidiary referred to in subsection 5, paragraph B, subparagraph (1) or (2), the superintendent may order its disposition if the superintendent finds, after notice and an opportunity to be heard, that its continued retention is materially adverse to the interests of the insurer's policyholders. The insurer has at least 36 months to effect the disposition. If that disposition is not so effected, the subsidiary may not thereafter be allowed as an asset of the insurer.

[RR 2021, c. 2, Pt. A, §69 (COR).]

4. Name. The name of any subsidiary may not be such as to mislead or deceive the public.

[PL 1987, c. 399, §14 (NEW).]

5. Limitations. Subject to the exceptions in paragraph B, investments in subsidiaries of an insurer are limited as follows.

A. Except with the approval of the superintendent, that insurer may not make, directly or indirectly, an investment in any subsidiary if that investment would bring the aggregate net cost of investments in all subsidiaries to an amount in excess of the lesser of 10% of the insurer's total admitted assets or 50% of the insurer's surplus as regards policyholders or if that investment would bring the aggregate net investment in that subsidiary to an amount in excess of 2% of those total admitted assets. [PL 1993, c. 313, §29 (AMD).]

B. Investments made directly or indirectly in the following subsidiaries are not subject to the limitations contained in paragraph A or in section 1155 or 1156, nor are these investments to be counted in determining compliance with those limitations:

- (1) Subsidiaries, all of whose stock is owned by one or more insurers, engaged or organized to engage exclusively in the ownership or management of assets authorized under this chapter as investments for the insurer;
- (2) Subsidiaries engaged or organized to engage in the kinds of business in which the insurer may engage, provided that the aggregate net cost of the insurer's investments in all such subsidiaries may not exceed 50% of its surplus as to policyholders; and
- (3) A subsidiary that is a depository institution, or any company that controls such an institution, that is subject to the federal Gramm-Leach-Bliley Act, Sections 104(c) and 306(2), 113 Stat. 1338, as long as the insurer's total investment in all such subsidiaries does not exceed 5% of the insurer's admitted assets.

An investment described in section 3415 is not considered as an investment in a subsidiary in determining compliance with the limitations of this subsection. [PL 1999, c. 715, §14 (AMD).]

C. Subject to paragraph B, the "net cost of investment" is defined to be the sum of: The total money or other consideration expended and obligations assumed in the acquisition or formation of a subsidiary, including all organizational expenses and contributions to capital and surplus of that subsidiary; and all amounts expended in acquiring additional common stock, preferred stock, debt obligations and other securities, and all contributions to the capital or surplus, of a subsidiary subsequent to its acquisition or formation; less returns of capital, repayments of principal and any other payments reducing the investment in the subsidiary. [PL 1987, c. 399, §14 (NEW).]

D. Investments made or acquired by subsidiaries referred to in paragraph B, subparagraph (1) are considered to be made or acquired directly by the insurer, pro rata, in the case of a subsidiary not wholly owned and, to such extent, are subject to all the provisions and limitations on the making of investments specified in this chapter with respect to investments by the insurer; must be valued in accordance with the provisions of section 901-A and any other applicable provisions of this Title and any applicable rules adopted by the superintendent; and must be located pursuant to section 3408. Those subsidiaries are subject to examination by the superintendent under section 221, subsection 1 and section 222, subsection 1-A. [PL 2013, c. 238, Pt. A, §31 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

E. There shall be excluded from all computations under paragraph A any investment by an insurer in any subsidiary, or by one subsidiary in another subsidiary, to the extent that such investment is reinvested in another subsidiary, but amounts so reinvested shall thereafter be included in such computations unless further excluded or exempted by this chapter. [PL 1987, c. 399, §14 (NEW).]

[PL 2013, c. 238, Pt. A, §31 (AMD); PL 2013, c. 238, Pt. A, §34 (AFF).]

6. Valuation of subsidiary stock. In determining the financial condition of an insurer, all investments made directly or indirectly in the stock of its subsidiaries must be valued in accordance with section 901-A and any rules adopted under that section. [PL 2001, c. 72, §16 (AMD).]

7. Application of law. Except as provided in section 1155, investments in subsidiaries made pursuant to this section are not subject to any other restrictions or prohibitions contained in this chapter. [PL 1987, c. 399, §14 (NEW).]

§1158. Policy loans

A life insurer may lend to its policyholder, upon pledge of the policy as collateral security, any sum not exceeding the cash surrender value of the policy; or may lend against pledge or assignment of any of its supplementary contracts or other contracts or obligations, as long as the loan is adequately secured by that pledge or assignment. Loans so made are eligible investments of the insurer. [PL 1987, c. 399, §14 (NEW).]

§1159. Special investments; separate accounts

1. Special investments. Except as may be provided with respect to reserves for guaranteed benefits and funds referred to in subsection 2:

A. Amounts allocated to any separate account established by the insurer pursuant to section 2537, separate accounts and accumulations on those accounts may be invested and reinvested without regard to any requirements or limitations prescribed by this chapter except for the provisions of section 1156, subsection 1; and [PL 1987, c. 399, §14 (NEW).]

B. Except as provided in subsection 2, paragraph B, the investments in that separate account or accounts may not be taken into account in applying the investment limitations otherwise applicable to the investments of the insurer. [PL 1987, c. 399, §14 (NEW).]

[PL 1987, c. 399, §14 (NEW).]

2. Separate accounts. Except with the approval of the superintendent and under such conditions as to investments and other matters as the superintendent may prescribe, which must recognize the guaranteed nature of the benefits provided, an insurer may not guarantee the value of the assets allocated to a separate account, or any interest in that account, or the investment results of that account, or the income from that account, to a contract holder, without limitation of liability under all those guarantees to the extent of the interest of the contract holder in assets allocated to that separate account, unless:

A. To the extent that the applicable agreements provide that the assets in that separate account are not chargeable with liabilities arising out of any other business of the insurer, the assets allocated to that separate account are invested subject to the requirements and limitations on investments imposed by section 1156, subsection 2, as though the aggregate assets allocated to that separate account were the insurer's total admitted assets; or [RR 2021, c. 1, Pt. B, §192 (COR).]

B. The assets allocated to that separate account are invested subject to the requirements and limitations on investments imposed by section 1156, subsection 2, as though they were part of the general assets of the insurer. [PL 1987, c. 399, §14 (NEW).]

§1160. Prohibited transactions and investment underwriting

1. Purchase of own common stock. A stock insurer may not purchase its own common stock, except for the purpose of mutualization under chapter 47; for retirement; or pursuant to a plan for investment or loan submitted in writing by the insurer to the superintendent in advance, and which the superintendent has not disapproved within 20 days after the submission or within any additional

reasonable period as the superintendent may request, as being unfair or inequitable to the insurer's policyholders or stockholders.

[PL 1987, c. 769, Pt. A, §90 (AMD).]

2. Underwriting. No insurer may underwrite or participate in the underwriting of an offering of securities or property of any person. This provision may not be considered to prohibit:

A. The acquisition and ownership by the insurer of its subsidiary corporation acting as an investment adviser or principal underwriter of a management company or investment company registered with the United States Securities and Exchange Commission under the Investment Company Act of 1940, United States Code, Title 11, Section 72 and 102, and Title 15, Sections 80a-1 to 80a-52, as amended; [PL 1987, c. 399, §14 (NEW).]

B. The registration by the insurer, under the United States Securities Act of 1933, United States Code, Title 15, Sections 77a to 77aa or other applicable law, of restricted or other securities acquired and owned by it in the regular course of business; and [PL 1987, c. 399, §14 (NEW).]

C. The underwriting by an insurer individually or on its account jointly with one or more of its subsidiaries of the securities of any company that is engaged primarily in the business of investing in or holding securities or real property and to which the insurer or any of its subsidiaries renders management, investment advisory or sales services nor from participating in sales or purchases of those securities jointly with any person in the insurer's holding company system, as defined in section 222. [PL 1987, c. 399, §14 (NEW).]

[PL 1987, c. 399, §14 (NEW).]

3. Investments in affiliates. No insurer may purchase the stock of or otherwise invest in or lend its funds upon the security of any note or other evidence of indebtedness of any affiliate in the insurer's holding company system, except as authorized by section 222 or 1157, or lend its funds to any director or officer of the insurer or the spouse or child of any director or officer. This provision does not prohibit:

A. Policy loans authorized under section 1158. [PL 1999, c. 715, §15 (AMD).]

B. [PL 1999, c. 715, §15 (RP).]

C. [PL 1999, c. 715, §15 (RP).]

[PL 1999, c. 715, §15 (AMD).]

4. Encumbrance of securities.

[PL 1999, c. 715, §16 (RP).]

5. Disposition of property. An insurer may enter into any agreement to sell or withhold from sale any of its property, as long as the insurer is not participating in a prohibited underwriting. The disposition of an insurer's property shall be the responsibility of its board of directors, in accordance with its charter and bylaws.

[PL 1987, c. 399, §14 (NEW).]

6. Encumbrance of securities. An insurer may enter into securities lending transactions that are conducted directly, through a custodian bank that is a qualified bank, or through an agent, and may enter into repurchase transactions, reverse repurchase transactions and dollar roll transactions, subject to the following requirements.

A. The insurer's board of directors shall adopt a written plan regarding such transactions that specifies guidelines and objectives to be followed, such as:

(1) A description of how cash received will be invested or used for general corporate purposes of the insurer;

(2) Operational procedures to manage interest rate risk, counter-party default risk, the conditions under which proceeds from reverse repurchase transactions may be used in the

ordinary course of business and the use of acceptable collateral in a manner that reflects the liquidity needs of the transaction; and

(3) The extent to which the insurer may engage in these transactions. [PL 1999, c. 715, §17 (NEW).]

B. The insurer shall enter into a written agreement for all transactions authorized in this subsection other than dollar roll transactions. The written agreement must require each transaction to terminate no more than one year from its inception. The agreement must be made with the counter-party, except that, for securities lending transactions, the agreement may be through a custodian bank that is a qualified bank or the agreement may be with an agent acting on behalf of the insurer if the agent or the guarantor of the agent's obligations under the agreement is a qualified bank or a qualified business entity and if the agreement with the agent requires the agent to enter into separate agreements with each counter-party that are consistent with the requirements of this subsection and prohibits securities lending transactions under the agreement with the agent or its affiliates. [PL 1999, c. 715, §17 (NEW).]

C. Cash received in a transaction under this subsection, if not used by the insurer for its general corporate purposes in accordance with the plan adopted by the board of directors pursuant to paragraph A, must be invested in accordance with this chapter and in a manner that recognizes the liquidity needs of the transaction. For so long as any transaction under this subsection remains outstanding, the insurer, its agent or custodian shall maintain either physically or through the book entry systems of the Federal Reserve, Depository Trust Company, Participants Trust Company or other securities depositories approved by the superintendent:

- (1) Possession of acceptable collateral for the transaction;
- (2) A perfected security interest in acceptable collateral for the transaction; or
- (3) In the case of a foreign jurisdiction, title to, or rights of a secured creditor to, acceptable collateral for the transaction.

The amount of acceptable collateral required for the purposes of subparagraphs (1), (2) and (3) is the amount required pursuant to the provisions of the purposes and procedures manual of the Securities Valuation Office of the National Association of Insurance Commissioners or its successor publication. [PL 1999, c. 715, §17 (NEW).]

D. An insurer may not enter into a transaction under this subsection if, as a result of and after giving effect to the transaction:

- (1) The aggregate amount of securities then loaned to, sold to or purchased from any one counter-party under this subsection would exceed 5% of its admitted assets. In calculating the amount sold to or purchased from a counter-party under repurchase or reverse repurchase transactions, effect may be given to netting provisions under a written master agreement; or
- (2) The aggregate amount of all securities then loaned to, sold to or purchased from all counter-parties under this subsection would exceed 40% of its admitted assets. [PL 1999, c. 715, §17 (NEW).]

§1413. License requirement for business entities

1. License required. A business entity, whether it has a location in this State or not, must be licensed as an insurance producer, adjuster or consultant business entity in order to authorize individual licensees to act on the entity's behalf by engaging in insurance producer, adjuster or consultant activities

or in order to use the name of the business entity in insurance-related advertising in the State. A business entity has no authority to act on its own without an individual licensee. A license authority held by an individual licensee employed by a business entity does not transfer to other employees within that business entity. Licensure of a nonresident business entity does not depend upon the entity's maintaining a business entity license in another state. Business entity licensees are subject to the standards of section 407, subsection 2, when applicable, and section 408, subsections 1 and 4.

[PL 2001, c. 259, §14 (AMD).]

2. Officers; directors; members; partners. A business entity shall notify the superintendent of its members, directors, officers or partners, and of all executive officers and directors of entities owning and individuals owning, directly or indirectly, 51% or more of the outstanding voting securities of the applicant, within 14 days of a request for such information by the superintendent.

[PL 2011, c. 554, §3 (AMD).]

3. Responsible person. Each officer or director of a corporation, each officer and member of a limited liability company and each partner of a partnership who is acting as an insurance producer, adjuster or consultant shall obtain an insurance producer, adjuster, or consultant license. Officers, members and partners do not have to be individually licensed if they are not engaging in producer activities, are not acting as consultants or adjusters and are not being compensated based upon the volume of insurance business transacted. At least one individual licensee must be designated responsible for the business entity's compliance with the insurance laws and rules of this State. The responsible person shall ensure that every individual acting in the name of the entity does not act beyond the scope of that individual's license. The designated responsible person for each business entity shall maintain a list of all current home addresses and home telephone numbers for each individual designated to act in the name of the entity. The business entity shall notify the superintendent, within 14 days of every change of the designated licensed person responsible for the entity's compliance with laws and rules of this State. The designated responsible person is responsible for all correspondence with the business entity from the superintendent. If the responsible person in a business entity loses that person's license, the business entity license terminates if a new person is not designated as responsible for the business entity within 14 days.

[PL 2001, c. 259, §14 (AMD).]

4. Authority. Whenever a business entity changes the individuals designated to act in the name of the entity, the entity shall notify the superintendent within 30 days of those changes.

[PL 2001, c. 259, §14 (AMD).]

5. Resident branch offices. A resident business entity establishing more than one place of business in this State must procure a business entity branch registration for each location within the State. A resident branch office is any office location other than the location of the licensed business entity that regularly conducts insurance business or that is advertised as a location where the public may contact the business entity or its employees concerning insurance services. An office location that meets this definition that is itself a separate legal entity from the licensed business entity must obtain a separate business entity license and can not be registered as a branch office. The licensed person designated as responsible for the business entity is responsible for all branch locations.

[PL 2001, c. 259, §14 (AMD).]

6. Nonresident branch locations. A nonresident business entity doing business in this State shall procure a business entity license for its principal location and a branch office registration for each location doing business in the State. The licensed person designated as responsible for the business entity is responsible for all such branch locations.

8. Motor vehicle rental company. A rental company that primarily provides rental of motor vehicles to the public under a rental agreement that includes travel, baggage, liability or other related insurance coverage purchased by an individual in connection with and incidental to the rental of a motor vehicle, whether at the rental office or by preselection of coverage by the individual, shall obtain a limited insurance producer license under this chapter, and at least one employee at each office of the rental company located in the State shall obtain a limited insurance producer license.

[PL 1999, c. 270, §3 (NEW).]

An insurer or authorized representative of the insurer that terminates the appointment, employment or contract with a producer for any reason not set forth in section 1420-K shall notify the superintendent within 30 days following the effective date of the termination, using a format prescribed by the superintendent. Upon written request of the superintendent, the insurer shall provide additional information, documents, records or other data pertaining to the termination.

[PL 2001, c. 259, §24 (NEW).]

3. Ongoing notification requirement. The insurer or the authorized representative of the insurer shall promptly notify the superintendent in a format acceptable to the superintendent if, upon further review or investigation, the insurer discovers additional information that would have been reportable to the superintendent in accordance with subsection 1 had the insurer then known of its existence.

[PL 2001, c. 259, §24 (NEW).]

4. Copy of notification to be provided to producer. Notification to the producer and comments by the producer must be as follows.

A. Within 15 days after making the notification required by subsections 1, 2 and 3, the insurer shall mail a copy of the notification to the producer at the producer's last known address. If the producer is terminated for cause for any of the reasons listed in section 1420-K, the insurer shall provide a copy of the notification to the producer at the producer's last known address by certified mail, return receipt requested, postage prepaid or by overnight delivery using a nationally recognized carrier. [PL 2001, c. 259, §24 (NEW).]

The producer shall, by the same means, simultaneously send a copy of the comments to the reporting insurer and the comments become a part of the superintendent's file and accompany every copy of a report distributed or disclosed for any reason about the producer as permitted under subsection 6. [PL 2001, c. 259, §24 (NEW).]

[PL 2001, c. 259, §24 (NEW).]

5. Immunities. This subsection governs immunities.

A. In the absence of actual malice, an insurer, the authorized representative of the insurer, a producer, the superintendent or an organization of which the superintendent is a member that compiles the information concerning the termination and makes it available to other insurance commissioners or regulatory or law enforcement agencies is not subject to civil liability for making this information available, and a civil cause of action may not arise against these entities or their respective agents or employees as a result of reporting or providing information under this section.

[PL 2001, c. 259, §24 (NEW).]

B. In any action brought against a person that may have immunity under paragraph A for making any statement required by this section or providing any information relating to any statement that may be requested by the superintendent, the party bringing the action shall plead specifically in any allegation that paragraph A does not apply because the person making the statement or providing the information did so with actual malice. [PL 2001, c. 259, §24 (NEW).]

C. Paragraph A or B does not abrogate or modify any existing statutory or common law privileges or immunities. [PL 2001, c. 259, §24 (NEW).]
[PL 2001, c. 259, §24 (NEW).]

6. Confidentiality. Subject to limitations set out in this subsection, any documents, materials or other information in the control or possession of the bureau that is furnished by an insurer or producer or an employee or agent acting on behalf of the insurer or producer or that is obtained by the superintendent in an investigation pursuant to this section is confidential, is not subject to subpoena and is not subject to discovery or admissible in evidence in any private civil action except by a court order for good cause.

A. The superintendent is, however, authorized to use the documents, materials or other information in the furtherance of any regulatory or legal action brought as a part of the superintendent's duties. [PL 2001, c. 259, §24 (NEW).]

B. Neither the superintendent nor any person who received documents, materials or other information while acting under the authority of the superintendent may be permitted or required to testify in any private civil action concerning any confidential documents, materials or information except as ordered by a court for good cause. [PL 2001, c. 259, §24 (NEW).]

C. In order to assist in the performance of the superintendent's duties under this subchapter, the superintendent:

(1) May share documents, materials or other information, including the confidential and privileged documents, materials or information subject to paragraph A, with other state, federal and international regulatory agencies, with the National Association of Insurance Commissioners, its affiliates or subsidiaries or any successor organization, and with state, federal and international law enforcement authorities, provided that the recipient agrees to maintain the confidentiality of the documents, materials or other information;

(2) May receive documents, materials or information, including otherwise confidential and privileged documents, materials or information, from the National Association of Insurance Commissioners, its affiliates or subsidiaries or any successor organization, and from regulatory and law enforcement officials of other foreign or domestic jurisdictions and shall maintain as confidential or privileged any documents, materials or information received with notice or the understanding that it is confidential or privileged under the laws of the jurisdiction that is the source of the documents, materials or information; and

(3) May enter into agreements governing sharing and use of information consistent with this subsection. [PL 2001, c. 259, §24 (NEW).]

D. No waiver of any applicable privilege or claim of confidentiality in the documents, materials or information occurs as a result of disclosure to the superintendent under this section or as a result of sharing as authorized in paragraph C. [PL 2001, c. 259, §24 (NEW).]

E. Nothing in this subchapter prohibits the superintendent from releasing final, adjudicated actions including for cause terminations that are open to public inspection pursuant to Title 1, chapter 13, subchapter I to a database or other clearinghouse service maintained by the National Association of Insurance Commissioners, its affiliates or subsidiaries or any successor organization. [PL 2001, c. 259, §24 (NEW).]

[PL 2001, c. 259, §24 (NEW).]

[PL 2001, c. 259, §24 (NEW).]

2. Continuing education. §1494. Required contract provisions

A person acting in the capacity of an MGA may not place business with an insurer unless there is in force a written contract between the parties that sets forth the responsibilities of each party and, when both parties share responsibility for a particular function, specifies the division of those responsibilities. The contract must contain the following minimum provisions. [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

1. Termination. The insurer may terminate the contract for cause upon written notice to the MGA. The insurer may suspend the underwriting authority of the MGA during the pendency of any dispute regarding the cause for termination. However, the suspension of an MGA does not relieve the MGA of the responsibility to service business in existence at the time of the suspension.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

2. Accounting. The MGA shall render accounts to the insurer detailing all transactions and remit all funds due under the contract to the insurer on not less than a monthly basis.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

3. Bank as fiduciary. All funds collected for the account of an insurer must be held by the MGA in a fiduciary capacity in a bank that is a member of the Federal Reserve System. This account must be used for all payments on behalf of the insurer. The MGA may retain no more than 3 months' estimated claims payments and allocated loss adjustment expenses.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

4. Records. Separate records of business written by the MGA must be maintained. The insurer must have access and may copy all accounts and records related to its business in a form usable by the insurer. The superintendent must have access to all books, bank accounts and records of the MGA in a form usable to the superintendent. These records must be retained according to section 3408.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

5. Nonassignable. The contract may not be assigned in whole or part by the MGA.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

6. Guidelines. The contract must include appropriate underwriting guidelines including:

A. The maximum annual premium volume; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

B. The basis of the rates to be charged; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

G. Policy cancellation provisions; and [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

H. The maximum policy period. [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

The insurer has the right to cancel or not to renew any policy of insurance subject to all applicable laws and rules regarding the cancellation and nonrenewal of insurance policies.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

7. Settlement authority. If the contract permits the MGA to settle claims on behalf of the insurer:

A. All claims must be reported to the insurer in a timely manner; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

B. A copy of the claim file must be sent to the insurer at its request or as soon as it becomes known that the claim:

(1) Has the potential to exceed an amount determined by the superintendent or exceeds the limit set by the insurer, whichever is less;

- (2) Involves a coverage dispute;
- (3) May exceed the MGA's claims settlement authority;
- (4) Is open for more than 6 months; or
- (5) Is closed by payment of an amount awarded as a result of a judicial proceeding or an amount set by the insurer, whichever is less; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

C. All claim files must be the joint property of the insurer and MGA; except that, upon an order of liquidation of the insurer, the files become the sole property of the insurer or its estate. The MGA must have reasonable access to and may copy the files on a timely basis; and [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

D. Any settlement authority granted to the MGA may be terminated for cause upon written notice by the insurer to the MGA or upon the termination of the contract. The insurer may suspend the settlement authority during the pendency of any dispute regarding the cause for termination. Upon termination of the MGA's authority to settle claims, the MGA shall desist from any draw on funds of the insurer and shall immediately forward to the insurer all claims files with the MGA's immediate possession and any claims received thereafter. The MGA shall promptly transfer to the insurer any funds owed to the insurer or to any policyholder and shall transfer to the insurer any property of the insurer that is within the MGA's actual or constructive possession. [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

8. Transmission. When electronic claims files are in existence, the contract must address the timely transmission of the data.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

9. Interim profits. If the contract provides for a sharing of interim profits by the MGA and the MGA has the authority to determine the amount of the interim profits by establishing loss reserves or controlling claim payments or in any other manner, interim profits may not be paid to the MGA until one year after they are earned for property insurance business and 5 years after they are earned on casualty business and not until the profits have been verified pursuant to section 1495.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

10. Prohibitions. The MGA may not:

A. Bind reinsurance or retrocessions on behalf of the insurer, except that the MGA may bind facultative reinsurance contracts pursuant to obligatory facultative agreements if the contract with the insurer contains reinsurance underwriting guidelines including, for reinsurance both assumed and ceded, a list of reinsurers with which such automatic agreements are in effect, the coverages and amounts or percentages that may be reinsured and commission schedules; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

B. Commit the insurer to participate in insurance or reinsurance syndicates; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

C. Make use of any producer without ensuring that the producer is lawfully licensed in this State to transact the kind of insurance for which the producer is used; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

D. Without prior approval of the insurer, pay or commit the insurer to pay a claim over an amount specified by the insurer, net of reinsurance, which may not exceed 1% of the insurer's policyholder surplus as of December 31st of the preceding year; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

E. Collect any payment from a reinsurer or commit the insurer to any claim settlement with a reinsurer without prior approval of the insurer. If prior approval is given, a report must be promptly forwarded to the insurer; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

F. Make use of any producer who serves on the insurer's board of directors; [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

G. Jointly employ an individual who is employed with the insurer; or [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

H. Assign specific duties under a contract with an insurer to other parties. [PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

§1495. Duties of insurers

1. Records for each MGA. The insurer shall require and maintain on file an independent financial examination of current origin prepared on the basis of statutory accounting prescribed or permitted by the superintendent respecting each MGA with which the insurer has done business.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

2. Actuarial review. If an MGA establishes loss reserves, the insurer shall annually obtain the opinion of an actuary or actuaries who specialize in the type of insurance under consideration, attesting to the adequacy of loss reserves established for losses incurred and outstanding on business produced by the MGA. This requirement is in addition to any other required loss reserve certification.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

3. On-site review. The insurer shall periodically and at least semiannually conduct an on-site review of the underwriting and claims processing operations of the MGA.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

5. Notice of termination. Within 30 days of termination of a contract with an MGA, the insurer shall provide written notification of that termination to the superintendent.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

6. Quarterly review. An insurer shall review its books and records each quarter to determine if any producer has become, by operation of section 1492, subsection 3, an MGA as defined in that section. If the insurer determines that its producer has become an MGA, the insurer shall promptly notify the producer and the superintendent of that determination and the insurer and producer must fully comply with the provisions of this subchapter within 30 days.

[PL 1997, c. 573, §1 (NEW); PL 1997, c. 573, §2 (AFF).]

Upon receipt of a complete application for an administrator license, the superintendent shall investigate, to the extent the superintendent considers advisable, the applicant's experience, background and fitness for the license. The superintendent may obtain a credit and investigative report relative to the applicant from a recognized and established independent investigation and reporting agency. The superintendent may establish from time to time a reasonable uniform flat amount that the applicant must pay for the report. The report cost must be included with the application. The contents of the report are confidential.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

2. If the superintendent finds that the applicant is qualified for an administrator license, the superintendent shall promptly issue the license, which identifies the types of business in which the

applicant may engage; otherwise the superintendent shall refuse to issue the license and promptly notify the applicant.

[PL 2003, c. 469, Pt. E, §6 (AMD).]

3. Sections 1417 and 1418 apply to licenses issued under this chapter.

[PL 1997, c. 457, §29 (AMD); PL 1997, c. 457, §55 (AFF).]

4. Unless revoked or suspended under section 1907, an administrator license remains in effect as long as the holder of the license maintains in force and effect the bond required by section 1904 and pays the annual fee required by section 601 before the anniversary date of the license.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

5. An administrator shall submit an application to amend its license if the administrator desires to amend the types of business on its then-current license.

[PL 2003, c. 469, Pt. E, §7 (NEW).]

§1906. Administrator requirements

1. Each administrator shall identify to the superintendent any ownership interest or affiliation of any kind with any plan sponsor, health care service plan, health maintenance organization or insurer responsible directly or through reinsurance for providing benefits to any plan for which the administrator provides services as an administrator.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

2. An administrator shall provide services as an administrator only pursuant to a written agreement between the administrator and the plan sponsor, health care service plan, health maintenance organization or insurer. The administrator shall retain the written agreement as part of its records for the duration of the agreement and for 7 years after the agreement expires.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

3. An administrator shall maintain, in its principal office for the duration of the written agreement with any plan sponsor or insurer and for 7 years after the agreement expires, adequate books and records of all transactions involving a plan sponsor, health care service plan, health maintenance organization or insurer and covered individuals and beneficiaries. These books and records must be maintained in accordance with generally accepted standards of business recordkeeping. An administrator is not required to maintain copies of books and records if the originals are returned to the plan sponsor, health care service plan, health maintenance organization or insurer before the end of the 7-year period. The administrator shall maintain evidence of the return of the originals for the balance of the 7-year period.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

4. The administrator shall file with the superintendent the names and addresses of the insurers, health care service plans, health maintenance organizations and plan sponsors with whom the administrator has entered into written agreements. If an insurer, health care service plan, health maintenance organization or plan sponsor does not assume or bear the risk, the administrator must disclose the name and address of the ultimate risk bearer. In addition, at the time of a license renewal, the administrator shall also file with the superintendent for the most recent complete calendar year for all covered individuals in the State the total number of claims paid by the administrator by each plan sponsor and the total dollar amount of claims paid by each plan sponsor. This subsection applies to the initial application for an administrator's license and any renewal of a license.

[PL 2001, c. 457, §20 (AMD).]

5. An administrator may use advertising pertaining to the plan only if that advertising has been approved in advance by the plan sponsor, health care service plan, health maintenance organization or insurer.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

6. Upon receiving instructions from the plan sponsor, health care service plan, health maintenance organization or insurer, an administrator shall deliver promptly to covered individuals or beneficiaries all policies, certificate booklets, termination notices or other written communications.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

7. An administrator may not receive compensation from a plan sponsor, health care service plan, health maintenance organization or insurer that is contingent upon the loss ratio of the plan. This subsection does not, however, prevent the administrator from engaging in cost containment activities with a plan sponsor, health care service plan, health maintenance organization or insurer.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

8. An administrator may not receive from any plan sponsor, health care service plan, health maintenance organization, insurer, covered individual or beneficiary under a plan any compensation or other payments except as expressly set forth in the written agreement between the administrator and the plan sponsor, health care service plan, health maintenance organization or insurer.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

9. Upon request of the superintendent, an administrator shall make available for examination, either at the Bureau of Insurance or at the licensee's principal place of business, all basic organizational documents, including, but not limited to, articles of incorporation, articles of association, partnership agreements, trade name certificates, trust agreements, shareholder agreements and other applicable documents and all amendments to those documents, bylaws, rules and regulations or similar documents regulating the conduct of the administrator's internal affairs.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

10. When acting as an administrator, the acts of an insurance administrator are deemed to be the acts of the plan sponsor, health care service plan, health maintenance organization, fraternal benefit society, nonprofit hospital or medical service organization or insurer.

[PL 1997, c. 457, §30 (NEW).]

11. In addition to any other applicable provisions of law, the plan sponsor, health care service plan, health maintenance organization, fraternal benefit society, nonprofit hospital or medical service organization or insurer is accountable and may be penalized by the superintendent, as provided for in this Title, for the actions of its administrators.

SECTION HISTORY

PL 1989, c. 846, §§D2,E4 (NEW).

§1909. Fiduciary accounts and duties

1. Administrators shall hold in a fiduciary capacity all contributions and premiums received or collected on behalf of a plan sponsor or insurer, except service fees owed to the administrator pursuant to the written agreement between the plan sponsor, insurer, health care service plan or health maintenance organization and the administrator. These funds may not be used as general operating funds of the administrator. All contributions and premiums received or collected by the administrator from residents of this State that the administrator holds more than 30 days or deposits into an account that is not under the control of the plan sponsor, health care service plan, health maintenance organization or insurer, must be placed in a special fiduciary account, designated as an ATF. All resident and quasi-resident licensees required to maintain an ATF under this section shall maintain the ATF with one or more financial institutions located within the State and subject to jurisdiction of the courts of this State. Funds belonging to 2 or more plans may be held in the same ATF, provided the administrator's records clearly indicate the funds belonging to each plan. Checks drawn on the ATF must indicate on the face of the checks that the checks are drawn on the administrator's ATF.
[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

2. The administrator may make the following disbursements from the ATF:

A. Contributions and premiums due insurers or other persons providing life, accident and health, or workers' compensation coverage for a plan; [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. Return contributions and premiums to a plan or covered individual; [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

C. Commissions or administrative fees due to the administrator when earned under a written agreement; and [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

D. Transfers into the CASA of the administrator. [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

3. For each plan for which an ATF is required, the balance in the ATF must at all times be the amount deposited plus accrued interest, if any, less authorized disbursements. If the balance at the

financial institution, with respect to the ATF, is less than the amount deposited plus accrued interest, if any, less authorized disbursements, the administrator is presumed, for purposes of license revocation or suspension, to have misappropriated funds and to have acted in a financially irresponsible manner. [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

4. Before establishing an ATF that is interest bearing or income producing, the administrator shall disclose the nature of the account to the plan sponsor, health care service plan, health maintenance organization or insurer on whose behalf the funds are to be held. The administrator shall secure written consent and authorization from the plan sponsor, health care service plan, health maintenance organization or insurer for the investment of the money and disposition of the interest or earnings. An administrator may not make any investment that assumes a risk other than the risk that the obligor might not pay the principal when due. The administrator may not use specialized techniques or strategies that incur additional risks to generate higher returns or to extend maturities. Such techniques include, but are not limited to, the use of financial futures or options, buying on margins and pledging of ATF balances.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

5. Administrators may place ATF funds in interest bearing or income producing investments and retain the interest or income on the funds, provided the administrator obtains the prior written authorization of the plan sponsors, health care service plans, health maintenance organizations or insurers on whose behalf the funds are to be held. In addition to savings and checking accounts, an administrator may invest in the following:

A. Direct obligations of the United States or government agency securities with maturities of not more than one year; [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. Certificates of deposit, with a maturity of not more than one year, issued by financial institutions insured by the Federal Deposit Insurance Corporation (FDIC) or Federal Savings and Loan Insurance Corporation (FSLIC), provided any such deposit does not exceed the maximum level of insurance protection provided to certificates of deposit held by those institutions; [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

C. Repurchase agreements with financial institutions or government securities dealers recognized as primary dealers by the Federal Reserve System provided:

(1) The value of the repurchase agreement is collateralized with assets that are allowable investments for ATF funds;

(2) The collateral has a market value, at the time the repurchase agreement is entered into, at least equal to the value of the repurchase agreement; and

(3) The repurchase agreement does not exceed 30 days; [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

D. Commercial paper, provided the commercial paper is rated at least P-1 by Moody's Investors Service, Inc. or at least A-1 by Standard & Poor's Corporation; or [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

E. Money market funds, provided the money market fund invests exclusively in assets that are allowable investments pursuant to paragraphs A to D for ATF funds. [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

Each investment transaction must be made in the name of the administrator's ATF. The administrator shall maintain evidence of any such investments. Each investment transaction must flow through the administrator's ATF.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

6. The administrator shall hold in a fiduciary capacity all money that the administrator receives to pay claims and claim adjustment expenses. All resident and quasi-resident licensees shall place all such money for claims and claim adjustment expenses for residents of this State, whether received from a plan sponsor, health care service plan, health maintenance organization or insurer or from the administrator's ATF, in a special fiduciary account in a financial institution located in this State. The account must be designated a CASA. Funds belonging to 2 or more plans may be held in the same CASA, provided the administrator's records clearly indicate the funds belonging to each plan. Checks drawn on the CASA must indicate on the face of the checks that the checks are drawn on the administrator's CASA.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

7. No deposit may be made into a CASA and no disbursement may be made from a CASA except for claims and claim adjustment expenses. For each plan for which a CASA is required, the balance in the CASA must at all times be the amount deposited less claims and claims adjustment expenses paid. If the CASA balance is less than that amount, the administrator shall be presumed, for purposes of license revocation or suspension, to have misappropriated funds and to have acted in a financially irresponsible manner.

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

8. Administrators shall maintain detailed books and records that reflect all transactions involving the receipt and disbursement of:

A. Contributions and premiums received on behalf of a plan sponsor, health care service plan, health maintenance organization or insurer; and [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. Claims and claim adjustment expenses received and paid on behalf of a plan sponsor, health care service plan, health maintenance organization or insurer. [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

9. The detailed preparation, journalizing and posting of books and records required by subsection 8 must be maintained on a timely basis and all journal entries for receipts and disbursements must be supported by evidential matter that must be referenced in the journal entry so that receipts and disbursements may be traced for verification. Administrators shall prepare and maintain monthly financial institution account reconciliations of any ATF and CASA established by the administrator. Reconciliation of accounts is timely if accomplished not more than 45 days after the end of the month in which the transaction occurred. The reconciliation must include, at a minimum, the following:

A. The source and amount of any money received and deposited by the administrator, and the date of receipt and deposit; [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

B. The date each disbursement was made, the person to whom the disbursement was made and a written explanation of any difference between the amount disbursed and the amount billed or authorized; and [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

C. A description of the disbursement in sufficient detail to identify the source document substantiating the purpose of the disbursement. [PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

[PL 1989, c. 846, Pt. D, §2 (NEW); PL 1989, c. 846, Pt. E, §4 (AFF).]

10. Failure to accurately maintain the required books and records in a timely manner is deemed to be untrustworthy, hazardous or injurious to participants in the plan or the public and financially irresponsible.

All administrators who administer claims and who provide payment or reimbursement for diagnosis or treatment of a condition or a complaint by a licensed health care practitioner must accept the current standardized claim form for professional services approved by the Federal Government and submitted electronically. All administrators who administer claims and who provide payment or reimbursement for diagnosis or treatment of a condition or a complaint by a licensed hospital must accept the current standardized claim form for professional or facility services, as applicable, approved by the Federal Government and submitted electronically, and any claims for facility services must identify the physical location, including hospital off-campus locations, where services are provided. An administrator may not be required to accept a claim submitted on a form other than the applicable form specified in this section and may not be required to accept a claim that is not submitted electronically, except from a health care practitioner who is exempt pursuant to Title 24, section 2985. All services provided by a health care practitioner in an office setting must be submitted on the standardized federal form used by noninstitutional providers and suppliers. Services in a nonoffice setting may be billed as negotiated between the administrator and health care practitioner. 1. Carrier. "Carrier" means any insurance company, nonprofit hospital and medical service organization or health maintenance organization authorized to issue health plans in this State. For the purposes of this chapter, carriers that are affiliated companies or that are eligible to file consolidated tax returns are treated as one carrier and any restrictions or limitations imposed by this chapter apply as if all health plans delivered or issued for delivery in this State by affiliated carriers were issued by one carrier. For purposes of this chapter, health maintenance organizations are treated as separate organizations from affiliated insurance companies and nonprofit hospital and medical service organizations.

[PL 1995, c. 673, Pt. A, §3 (NEW).]

2. Private purchasing alliance. "Private purchasing alliance" or "alliance" means a corporation established under former Title 13-A, Title 13-B or Title 13-C to provide health insurance to its members through one or more participating carriers.

The superintendent shall specify by rule standards and procedures for the issuance and renewal of licenses for private purchasing alliances. [PL 1995, c. 673, Pt. A, §3 (NEW).]

§2006. Open lines for export

1. The superintendent may by order declare eligible for export generally and without compliance with section 2004, subsections 2, 3 and 4, any class or classes of insurance coverage or risk for which the superintendent finds, after a hearing of which notice was given to each insurer authorized to transact such class or classes in this State, that there is not a reasonable or adequate market among authorized insurers either as to acceptance of the risk, contract terms, or premium or premium rate. Any such order shall continue in effect during the existence of the conditions upon which predicated, but subject to earlier termination by the superintendent.

[PL 1997, c. 592, §52 (AMD).]

2. [PL 1997, c. 592, §54 (AMD).]

2. The superintendent shall from time to time publish a list of all surplus lines insurers determined by the superintendent to be eligible currently, and shall mail a copy of such list to each producer at the producer's office last of record with the superintendent. This subsection may not be construed to cast upon the superintendent the duty of determining the actual financial condition or claims practices of any unauthorized insurer; and the status of eligibility, if granted by the superintendent, may indicate only that the insurer appears to be sound financially and to have satisfactory claims practices, and that the superintendent has no credible evidence to the contrary. While any such list is in effect, the producer shall restrict to the insurers so listed all surplus lines business placed by the producer.

[PL 1997, c. 592, §54 (AMD).]

3. The superintendent shall approve a United States insurer's request for eligibility if the insurer:

4. The superintendent may list an insurer as eligible if it does not meet the minimum capital and surplus requirements of subsection 3 upon an affirmative finding of acceptability by the superintendent. The finding must be based upon such factors as quality of management, capital and surplus of any parent company, company underwriting profit and investment income trends, market availability and company record and reputation within the industry. The superintendent may not make an affirmative finding of acceptability if the nonadmitted insurer's capital and surplus is less than \$4,500,000.

[PL 2011, c. 331, §4 (NEW); PL 2011, c. 331, §§16, 17 (AFF).]

Such a certificate must be executed by the producer and show the description and location of the subject of the insurance, coverage, conditions and term of the insurance, the premium and rate charged and taxes collected from the insured, and the name and address of the insured and insurer. If the direct risk is assumed by more than

one insurer, the certificate must state the name and address and proportion of the entire direct risk assumed by each such insurer.

[PL 1997, c. 592, §55 (AMD).]

2. A producer may not issue any such certificate or any cover note, or purport to insure or represent that insurance will be or has been granted by any unauthorized insurer, unless the producer has prior written authority from the insurer for the insurance, or has received information from the insurer in the regular course of business that such insurance has been granted, or an insurance policy providing the insurance actually has been issued by the insurer and delivered to the insured.

[PL 1997, c. 592, §55 (AMD).]

3. If, after the issuance and delivery of any such certificate, there is any change as to the identity of the insurers, or the proportion of the direct risk assumed by an insurer as stated in the producer's original certificate, or in any other material respect as to the insurance evidenced by the certificate, the producer shall promptly issue and deliver to the insured a substitute certificate accurately showing the current status of the coverage and the insurers responsible under the certificate.

[PL 1997, c. 592, §55 (AMD).]

4. If a policy issued by the insurer is not available upon placement of the insurance and the producer has issued and delivered the certificate as provided in this section, upon request of the insured the producer shall as soon as reasonably possible procure from the insurer its policy evidencing the insurance and deliver the policy to the insured in replacement of the producer's certificate.

[PL 1997, c. 592, §55 (AMD).]

5. Any producer with surplus lines authority who knowingly or negligently issues a false certificate of insurance or who fails promptly to notify the insured of any material change with respect to such insurance by delivery to the insured of a substitute certificate as provided in subsection 3, upon conviction, is subject to the penalty provided by section 12-A or to any greater applicable penalty otherwise provided by law.

2. This section does not apply to:

A. Matters authorized to be done by the superintendent under the Unauthorized Insurers Process Act, sections 2102 to 2108; [PL 1973, c. 625, §141 (AMD).]

§2102. Purposes as related to Unauthorized Insurers

The purpose of section 12-A and sections 2102 to 2108 (Unauthorized Insurers Process Act) is to subject certain insurers to the jurisdiction of the superintendent and the courts of this State in suits and disciplinary proceedings as provided therein, by or on behalf of insureds or beneficiaries under insurance contracts or the superintendent. The Legislature declares its concern that many Maine residents hold insurance policies delivered in this State by unauthorized insurers, other than as to surplus lines coverages written pursuant to chapter 19, thus presenting to such residents the often insuperable obstacle of resort to distant courts for the assertion of legal rights under their policies; and that such insurers may induce residents to purchase insurance through false advertising sent into this State. In furtherance of such state interest, the Legislature herein provides a method of substituted service of process upon such insurers, declares that in so doing it exercises its power to protect Maine residents, to define, for the purposes of this chapter, what constitutes doing business in this State, and also exercises powers and privileges available to the State under Public Law 15, 79th Congress of the United States, chapter 20, 1st Session, S. 340, as amended, which declares that the business of insurance and every person engaged therein are subject to the laws of the several states. [RR 2021, c. 1, Pt. B, §204 (COR).]

4. Nothing in this section shall limit or abridge the right to serve any process, notice or demand upon any insurer in any other manner now or hereafter permitted by law.

1. Before an unauthorized insurer files or causes to be filed any pleading in any action or proceeding instituted against it under sections 2104 and 2105, such insurer shall:

A. Procure a certificate of authority to transact insurance in this State; or [PL 1969, c. 132, §1 (NEW).]

B. Deposit with the clerk of the court in which such action or proceeding is pending cash or securities, or file with such clerk a bond with good and sufficient sureties, to be approved by the court, in an amount to be fixed by the court sufficient to secure the payment of any final judgment which may be rendered in such action. The court may in its discretion make an order dispensing with such deposit or bond where the insurer makes a showing satisfactory to the court that it maintains in a state of the United States funds or securities, in trust or otherwise, sufficient and available to satisfy any final judgment which may be entered in such action or proceeding, and that the insurer will pay final judgment entered therein without requiring suit to be brought on such judgment in the state where such funds or securities are located. A. That such unauthorized insurer has not done any of the acts enumerated in section 2104; or [PL 1969, c. 132, §1 (NEW).]

In any such action against an unauthorized insurer, if the insurer has failed for 30 days after demand prior to the commencement of the action to make payment in accordance with the terms of the contract, and it appears to the court that such refusal was vexatious and without reasonable cause, the court shall allow to the plaintiff a reasonable attorney fee and include such fee in any judgment that may be rendered in such action, and in no event shall such fee be less than \$100. Failure of an insurer to defend any such action shall be deemed prima facie evidence that its failure to make payment was vexatious and without reasonable cause. [PL 1969, c. 132, §1 (NEW).]

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. Filing and status of foreign decrees. A copy of any foreign decree authenticated in accordance with the Act of Congress or the statutes of this State may be filed in the office of the clerk of any Superior Court of this State. The clerk, upon verifying with the superintendent that the decree or order qualifies as a foreign decree shall treat the foreign decree in the same manner as a decree of a Superior Court of this State. If the defendant shows the Superior Court that an appeal from the foreign decree is pending or will be taken, or that a stay of execution has been granted, the court shall stay enforcement of the foreign decree until the appeal is concluded, the time for appeal expires, or the stay of execution expires or is vacated, upon proof that the defendant has furnished the security for the satisfaction of the decree required by the state in which it was rendered; [PL 1969, c. 132, §1 (NEW).]

B. If the defendant shows the Superior Court any ground upon which enforcement of a decree of any Superior Court of this State would be stayed, the court shall stay enforcement of the foreign decree for an appropriate period, upon requiring the same security for satisfaction of the decree which is required in this State. 1. No person shall make or permit any unfair discrimination between individuals of the same class and equal expectation of life in the rates charged for any contract of life insurance or of life annuity or in the dividends or other benefits payable thereon, or in any other of the terms and conditions of such contract.

[PL 1969, c. 132, §1 (NEW).]

2. No person may make or permit any unfair discrimination between individuals of the same class and of essentially the same hazard in the amount of premium, policy fees, or rates charged for any policy or contract of health insurance or in the benefits payable thereunder, or in any of the terms or conditions of such contract, or in any other manner whatever. Nothing in this provision prohibits an insurer from providing incentives for insureds to use the services of a particular provider.

[PL 1985, c. 704, §3 (AMD).]

3. It shall be an unfair trade practice in the business of insurance for any insurer to discriminate unfairly against any person who has tested positive for the presence of the human immunodeficiency antigen or the presence of an antibody to the human immunodeficiency virus or who has Acquired Immune Deficiency Syndrome or AIDS, AIDS Related Complex (ARC) or HIV related diseases provided that nothing in this subsection prohibits an insurer from treating individuals of different classes and of unequal expectations of life, or essentially different hazards, differently in accordance with subsection 1 or 2.

[PL 1989, c. 176, §2 (NEW).]

4. It shall not be unfair discrimination for group life insurance policies or contracts subject to chapter 31 to contain an exclusion or restriction for death caused by Acquired Immune Deficiency Syndrome (AIDS), AIDS Related Complex (ARC) or HIV related diseases which existed 6 months prior to the individual's effective date of insurance if an actuarial justification is filed and approved by the superintendent. The exclusion or restriction may run for no longer than the incontestable period of the policy within the meaning of section 2615.

[PL 1989, c. 176, §2 (NEW).]

5. Definitions. As used in this section, "HIV" and "antibody to HIV" have the same meanings as set out in Title 5, section 19201.

[PL 1991, c. 3, §3 (NEW).]

6. Test results. No insurer may request any person to reveal whether the person has obtained a test for the presence of antibodies to HIV or a test to measure the virus or to reveal the results of such tests taken prior to an application for insurance coverage.

[PL 1991, c. 3, §3 (NEW).]

7. Discrimination prohibited; preexposure prophylaxis medication to prevent HIV infection. Notwithstanding any provision of law to the contrary, an insurer authorized to do business in this State may not:

A. Limit coverage or refuse to issue or renew coverage of an individual under a life, disability income or long-term care insurance policy due to the fact that the individual has been prescribed preexposure prophylaxis medication to prevent HIV infection; [PL 2019, c. 596, §1 (NEW).]

B. Consider the fact that an individual has been issued a prescription for preexposure prophylaxis medication to prevent HIV infection in determining the premium rate for coverage of that individual under a life, disability income or long-term care insurance policy; or [PL 2019, c. 596, §1 (NEW).]

C. Otherwise discriminate in the offering, issuance, cancellation, amount of coverage, price or any other condition of a life, disability income or long-term care insurance policy based solely and without any additional actuarial justification upon the fact that an individual has been issued a prescription for preexposure prophylaxis medication to prevent HIV infection. No insurer authorized to transact business in this State may refuse to insure or continue to insure, limit the amount, extent or kind of coverage available to an individual or charge an individual a rate different from that normally charged for the same coverage solely because the insured or the applicant for insurance is blind or partially blind. [PL 1985, c. 445 (RPR).]

An insurer authorized to transact business in this State may not refuse to insure or continue to insure, limit the amount, extent or kind of coverage available to an individual or charge an individual a rate different from that normally charged for the same coverage solely because the insured or the applicant for insurance has a physical or mental disability, as defined in Title 5, section 4553, subsection 7-A, other than blindness or partial blindness, unless the basis for that action is clearly demonstrated through sound actuarial evidence. §2159-B. Discrimination against victims of domestic abuse prohibited

1. Discrimination prohibited. An insurer, nonprofit hospital and medical service organization or health maintenance organization that issues life, health or disability coverage may not deny, cancel, refuse to renew or restrict coverage of any person or require the payment of additional charges based on the fact or perception that the person is, or may become, the victim of domestic abuse, under Title 19-A, section 4102. This subsection does not prohibit applying an underwriting or rating criterion to a victim of domestic abuse based on physical or mental history or other factors of general applicability regardless of the underlying cause and in accordance with the requirements of section 2159, subsections 1 and 2. An insurer, nonprofit hospital and medical service organization or health maintenance organization may not be held criminally or civilly liable for any cause of action that may result from compliance with this subsection. This subsection does not prohibit an insurer, nonprofit hospital and medical service organization or health maintenance organization from declining to issue coverage to an applicant known to be, or to have been, an abuser of the proposed insured.

[PL 2021, c. 647, Pt. B, §52 (AMD); PL 2021, c. 647, Pt. B, §65 (AFF).]

2. Justification of adverse insurance decisions. An insurer, nonprofit hospital and medical service organization or health maintenance organization that issues life, health or disability coverage that takes an action that adversely affects an applicant or insured on the basis of a medical condition that the insurer, nonprofit hospital and medical service organization or health maintenance organization knows or has reason to know is related to domestic abuse shall explain the reasons for its action to the applicant or insured in writing and shall demonstrate that its action, and any applicable policy provision:

A. Does not have the purpose or effect of treating abuse status as a medical condition or underwriting or rating criterion; [PL 2001, c. 16, §1 (NEW).]

B. Is not based upon any actual or perceived correlation between a medical condition and domestic abuse; [PL 2001, c. 16, §1 (NEW).]

C. Is otherwise permissible by law and applies in the same manner and to the same extent to all applicants and insureds with a similar medical condition or disability without regard to whether the medical condition or disability is related to domestic abuse; and [PL 2001, c. 16, §1 (NEW).]

D. Except for claims actions, is based on a determination made in conformance with sound actuarial principles and otherwise supported by actual or reasonably anticipated experience that there is a correlation between the medical condition or disability and a material increase in insurance risk. [PL 2001, c. 16, §1 (NEW).]

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Genetic characteristic" means any inherited gene or chromosome, or alteration of a gene or chromosome, that is scientifically or medically believed to predispose an individual to a disease, disorder or syndrome or to be associated with a statistically significant increased risk of development of a disease, disorder or syndrome. [PL 1997, c. 677, §2 (NEW).]

B. "Genetic information" means the information concerning genes, gene products or inherited characteristics that may be obtained from an individual or family member. [PL 1997, c. 677, §2 (NEW).]

C. "Genetic test" means a test for determining the presence or absence of an inherited genetic characteristic in an individual, including tests of nucleic acids, such as deoxyribonucleic acid, or DNA, ribonucleic acid, or RNA, or mitochondrial DNA, and tests of chromosomes or proteins in order to identify a predisposing genetic characteristic. [PL 1997, c. 677, §2 (NEW).]

D. "Carrier" means an insurer, nonprofit hospital and medical service organization or health maintenance organization. [PL 2009, c. 244, Pt. D, §1 (NEW).]

[PL 2009, c. 244, Pt. D, §1 (AMD).]

2. Discrimination in health, hospital and dental insurance. A carrier that issues individual or group hospital, health or dental insurance is subject to the requirements of this subsection. This subsection does not apply to accidental injury, specified disease, hospital indemnity, disability, long-term care and other limited benefit health insurance policies and contracts.

A. A carrier may not discriminate against an individual or eligible dependent on the basis of genetic information or the refusal to submit to a genetic test or make available the results of a genetic test or on the basis that the individual or eligible dependent received a genetic test or genetic counseling in the issuance, withholding, extension or renewal of any hospital confinement or other health insurance, as defined by the superintendent, by rule, or in the fixing of the rates, terms or conditions for insurance, or in the issuance or acceptance of any application for insurance. [PL 2009, c. 244, Pt. D, §2 (NEW).]

B. Except as provided in this paragraph, a carrier may not request or require an individual to undergo a genetic test.

(1) Nothing in this subsection limits the authority of a health care professional who is providing health care services to an individual to request that that individual undergo a genetic test.

(2) A carrier may request, but not require, that an individual undergo a genetic test if the conditions described in this subparagraph are met:

(a) The request is made pursuant to research that complies with 45 Code of Federal Regulations, Part 46 or equivalent federal regulations and any applicable state or local laws, rules or regulations for the protection of human subjects in research;

(b) The carrier clearly indicates to the individual to whom the request is made, or in the case of a minor child to the legal guardian of the individual, that compliance with the request is voluntary and noncompliance will have no effect on enrollment status or premium or contribution amounts;

(c) Genetic information collected or acquired under this subparagraph is not used for purposes of determining eligibility for benefits, computing premium or contribution amounts, applying any preexisting condition exclusion or any other activities related to the creation, renewal or replacement of a health insurance contract; and

(d) The carrier complies with all applicable federal laws and regulations. [PL 2009, c. 244, Pt. D, §2 (NEW).]

C. A carrier may not request, require or purchase genetic information for purposes of determining eligibility for benefits, computing premium or contribution amounts, applying any preexisting condition exclusion or any other activities related to the creation, renewal or replacement of a health insurance contract. [PL 2009, c. 244, Pt. D, §2 (NEW).]

D. A carrier may not request, require or purchase genetic information with respect to an individual prior to the individual's enrollment under the plan or coverage in connection with the enrollment. [PL 2009, c. 244, Pt. D, §2 (NEW).]

E. If a carrier obtains genetic information incidental to the requesting, requiring or purchasing of other information concerning an individual, the request, requirement or purchase is not considered a violation of paragraph D if the request, requirement or purchase is not in violation of paragraph C. [PL 2009, c. 244, Pt. D, §2 (NEW).]

F. A reference in this subsection to genetic information concerning an individual includes:

(1) With respect to an individual who is a pregnant woman, genetic information of any fetus carried by that individual; and

(2) With respect to an individual using an assisted reproductive technology, genetic information of any embryo legally held by the individual. [PL 2009, c. 244, Pt. D, §2 (NEW).]

[PL 2009, c. 244, Pt. D, §2 (RPR).]

3. Discrimination in life, disability and long-term care insurance. An insurer may not make or permit any unfair discrimination against an individual in the application of genetic information or the results of a genetic test in the issuance, withholding, extension or renewal of an insurance policy for life, credit life, disability, long-term care, accidental injury, specified disease, hospital indemnity or credit accident insurance or an annuity. For the purposes of this subsection, "unfair discrimination" includes, but is not limited to, the application of the results of a genetic test in a manner that is not reasonably related to anticipated claims experience.

A. If the superintendent has reason to believe that unfair discrimination has occurred and that a proceeding by the superintendent is in the interest of the public, the superintendent, in accordance with chapter 3, shall serve upon the insurer a statement of the charges. Upon a determination that the practice or act of the insurer is in conflict with this subsection, the superintendent shall issue an order requiring the insurer to cease and desist from engaging in the practice or act and may order payment of a penalty consistent with the provisions of section 12-A. [PL 1997, c. 677, §2 (NEW).]

B. If, in the issuance, withholding, extension or renewal of an insurance policy covered by this subsection, an insurer uses the results of a genetic test in compliance with this subsection, the insurer shall notify the individual who is the subject of the genetic test that such a test is required and shall obtain the individual's authorization in accordance with the requirements of chapter 24. If a genetic test is required, the insurer shall ensure that the individual states in writing whether the individual wishes to be informed of the test results and, if authorized by the individual, shall provide a copy of the test results, along with a written interpretation of the results by a qualified professional, to the individual or to a physician or other health care practitioner designated by the individual. [PL 1997, c. 677, §2 (NEW).]

[PL 1997, c. 677, §2 (NEW).]

4. Use of information obtained through direct-to-consumer genetic testing. In connection with the issuance, withholding, extension or renewal of an insurance policy for life, credit life, disability, long-term care, accidental injury, specified disease, hospital indemnity or credit accident insurance or an annuity, an insurer may not request, require, purchase or use information obtained from an entity providing direct-to-consumer genetic testing without the informed written consent of the individual who has been tested.

2. Discrimination prohibited. Notwithstanding any other provision of law, an insurer authorized to do business in this State may not:

D. Otherwise discriminate in the offering, issuance, cancellation, amount of coverage, price or any other condition of a life insurance, disability insurance or long-term care insurance policy based solely and without any additional actuarial justification upon the status of an individual as a living organ donor. An insurer that provides medical malpractice insurance in this State may not refuse to issue or renew coverage, cancel or restrict coverage, impose any sanctions, fines, penalties or rate increases or require the payment of additional charges by a health care professional who engages in legally protected health care activity or aids and assists legally protected health care activity on the sole basis that the health care professional is acting in violation of another state's law related to legally protected health care activity or aiding and assisting legally protected health care activity or is subject to an adverse action against the health care professional's license in another state for a violation of that state's law related to legally protected health care activity or aiding and assisting legally protected health care activity.

1. No property, casualty or surety insurer or any employee or representative thereof, and no broker, agent or solicitor as to such insurance shall pay, allow or give, or offer to pay, allow or give, directly or indirectly, as an inducement to insurance, or after insurance has been effected, any rebate, discount, abatement, credit or reduction of the premium named in a policy of insurance, or any special favor or advantage in the dividends or other benefits to accrue thereon, or any valuable consideration or inducement whatever, not specified or provided for in the policy, except to the extent provided for in an applicable filing with the superintendent as provided by law.

A creditor or lender may not, in connection with the extension of credit, interfere with the free choice of a borrower or purchaser under subsection 1 by imposing any unreasonable time or burden on an insurance agent or broker not affiliated with the lender or creditor that is not also imposed on an insurance agent or broker who is affiliated with the lender or creditor. "Affiliate" has the same meaning as set forth in section 1443-A, subsection 1,

paragraph A with respect to financial institutions and credit unions and in Title 9-A, section 4-403, with respect to supervised lenders.

[PL 1999, c. 127, Pt. A, §39 (AMD).]

2. Approval of insurer; written criteria. This section does not prevent the exercise by any lender or creditor of its right to approve the insurer selected by the borrower on a reasonable nondiscriminatory basis related to the solvency and assessment policies of the insurer and its ability to service the policy. A lender or creditor who exercises its rights under this subsection shall establish written criteria for approving the insurer selected by the borrower and in the event the creditor or lender actually denies an insurer under that criteria the lender or creditor must provide verbal notice to the customer within 3 business days and written notice within 10 business days. Upon request by a licensed insurer, agent, broker or consultant, a customer, a lender or creditor must within 10 business days of receiving the request provide a copy of its written criteria for approving an insurer.

[PL 1997, c. 315, §23 (AMD).]

2-B. Change of insurance carrier. A purchaser or borrower may change insurance carriers in connection with the extension of credit by a lender or creditor if the change does not violate a condition of the extension of credit regarding adequacy of coverage or other proper basis under subsection 2 or is otherwise prohibited by law.

[PL 1997, c. 315, §24 (NEW).]

3. Violation. A person who violates this section commits a civil violation and is subject to civil penalties and other remedies as provided in section 12-A. The Superior Court, on complaint by any person that this section is being violated, may issue an injunction against the violation and may hold in contempt and punish therefor in case of disregard of the injunction.

§2168-A. Tie-in sales of insurance

1. Definition. As used in this section, "tie-in sales" means the practice of tying the sale of one product to another.

[PL 1991, c. 49 (NEW).]

2. Prohibited tie-in sales. In the purchase of insurance, tie-in sales are an unfair trade practice when:

A. The consumer is required to place additional coverage with an insurer not of the consumer's choice in order to obtain a desired coverage; and [PL 1991, c. 49 (NEW).]

B. The consumer's alternative opportunities to purchase the desired coverage are severely limited or nonexistent. [PL 1991, c. 49 (NEW).]

[PL 1991, c. 49 (NEW).]

3. Penalties. An insurance contract sold in violation of the provisions of this section is voidable at the option of the consumer. Violations of this section are enforceable through section 12-A.

§2168-B. Solicitation or negotiation involving purchasers or borrowers

A licensed agent or broker affiliated with a lender or creditor may not solicit an application for an insurance contract in connection with the extension of credit or negotiate such a contract from a purchaser or borrower whom the agent or broker knows, or should have known, has applied to receive an extension of credit from that lender or creditor until such time as the creditor or lender has provided by hand or sent written notice to the purchaser or borrower of its action on the application or has documented in writing in the lender's or creditor's records its action on the application. This section does not limit the ability of a lender or creditor to do any of the following: [PL 1997, c. 315, §25 (NEW).]

1. Marketing activities. To engage at any time in marketing activities and solicitations for the sale of insurance, including through the mail or by telephone, that are not specifically directed toward purchasers or borrowers who have applied to receive an extension of credit. [PL 1997, c. 315, §25 (NEW).]

This section does not apply to group health and group life insurance to the extent authorized by chapters 31 and 35 when the insured is enrolled in the insurance policy, credit life and credit health insurance to the extent authorized by chapter 37, credit property insurance, credit involuntary unemployment insurance, forced placed property insurance, a vendor's single interest policy or any other insurance product as determined by the superintendent. [PL 1997, c. 315, §25 (NEW).]

"Affiliate" has the same meaning as set forth in section 1443-A, subsection 1, paragraph A with respect to financial institutions and credit unions and in Title 9-A, section 4-403 with respect to supervised lenders. [PL 1999, c. 127, Pt. A, §40 (AMD).]

§2169. Notice of free choice of agent or insurer

The creditor or lender at the time of application for the loan or at the outset of negotiations regarding the loan or sale shall inform the purchaser or borrower of that person's right of free choice in the selection of the agent and insurer through or by which the insurance in connection with the loan is to be placed, including the right to choose an agent or broker whether or not that agent or broker is affiliated with a creditor or lender. For purposes of this section, "affiliated" has the same meaning as set forth in section 1443-A, subsection 1, paragraph A, with respect to financial institutions and credit unions or in Title 9-A, section 4-403 with respect to supervised lenders. In conjunction with this notice, a creditor or lender shall inform its purchasers or borrowers that obtaining insurance products from a particular agent or broker does not affect credit decisions by the creditor or lender regarding the purchaser or borrower, unless the insurance product selected violates the terms of the extension of credit regarding adequacy of coverage or is otherwise not approved under section 2168, subsection 2. Another person may not interfere either directly or indirectly with the borrower's, debtor's or purchaser's free choice of an agent and of an insurer that complies with the requirements set out in section 2168 and the creditor or lender may not refuse an adequate policy so tendered by the borrower, debtor or purchaser. A creditor or lender may not reject an insurance product selected by a purchaser or borrower because the product was not obtained from or through an insurance agent or broker affiliated with the institution. For purposes of this section, the term "policy" includes, but is not limited to, any temporary contract or binder, by whatever name known, under the terms of which insurance coverage commences at a specified time, and continues until a finished policy is issued or the risk is declined and coverage is terminated. Upon notice of any refusal of this tendered policy, the superintendent shall order the creditor or lender to accept the tendered policy, if the superintendent determines that the refusal is not in accordance with the requirements set out in section 2168. Failure to comply with such an order of the superintendent is a violation of this section. [PL 1999, c. 127, Pt. A, §41 (AMD).]

This section does not apply to group health and group life insurance to the extent authorized by chapters 31 and 35 when the insured is enrolled in the insurance policy, credit life and credit health

insurance to the extent authorized by chapter 37, credit property insurance, credit involuntary unemployment insurance, forced placed property insurance, a vendor's single interest policy or any other insurance product as determined by the superintendent. [PL 1997, c. 315, §26 (NEW).]

§2169-A. Confidentiality of insurance information obtained by lenders

1. Prohibited use of information. If a lender or creditor requires a purchaser or borrower to provide insurance information in connection with the extension of credit, an insurance agent or broker affiliated with that lender or creditor may not later use the information obtained to solicit or offer insurance directly to the purchaser or borrower. "Insurance information" means copies of insurance policies, binders, rates and expiration dates not otherwise in the possession of the agent or broker. "Affiliate" has the same meaning as set forth in section 1443-A, subsection 1, paragraph A with respect to financial institutions and credit unions or in Title 9-A, section 4-403 with respect to supervised lenders.

[PL 1999, c. 127, Pt. A, §42 (AMD).]

2. Use of information with consent. Notwithstanding subsection 1, an insurance agent or broker affiliated with a lender or creditor may use the insurance information obtained from the purchaser or borrower to solicit or offer insurance to the customer if the customer consents in writing to the use of the information. This consent may not be a condition of the extension of credit to the customer.

[PL 1997, c. 315, §27 (NEW).]

3. Information permitted under Fair Credit Reporting Act. Notwithstanding subsection 1, a lender or creditor may exchange insurance information with its affiliates as permitted under the Fair Credit Reporting Act pursuant to Title 10, chapter 209-B or 15 United States Code, Chapter 41.

§2169-B. Use of consumer reports in insurance underwriting

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Adverse action" means a denial or cancellation of, an increase in any charge for or a reduction or other adverse or unfavorable change in the terms of coverage or amount of any insurance, existing or applied for, in connection with the underwriting of personal insurance. [PL 2003, c. 223, §1 (NEW).]

B. "Applicant" means an individual who has applied to be covered by a personal insurance policy with an insurer. [PL 2003, c. 223, §1 (NEW).]

C. "Consumer" means an individual insured whose credit information is used or whose insurance score is calculated in the underwriting or rating of a personal insurance policy or an applicant for a personal insurance policy. [PL 2003, c. 223, §1 (NEW).]

D. "Consumer report" has the same meaning as in 15 United States Code, Section 1681a(d). [PL 2013, c. 588, Pt. C, §7 (AMD).]

E. "Consumer reporting agency" has the same meaning as in Title 10, section 1308, subsection 3. [PL 2013, c. 588, Pt. C, §7 (AMD).]

F. "Credit information" means any credit-related information derived from a consumer report, found on a consumer report itself or provided on an application for personal insurance. "Credit information" does not include information that is not credit-related regardless of whether it is contained in a credit report or application or used to calculate an insurance score. [PL 2003, c. 223, §1 (NEW).]

G. "Insurance score" means a number or rating that is derived from an algorithm, computer application, model or other process that is based in whole or in part on credit information for the purposes of predicting the future loss exposure of an individual applicant or insured. [PL 2003, c. 223, §1 (NEW).]

H. "Personal insurance" means private passenger automobile, homeowners, motorcycle, mobile home owners and noncommercial dwelling fire insurance policies and boat, personal watercraft, snowmobile and recreational vehicle policies that are individually underwritten for personal, family or household use. [PL 2003, c. 223, §1 (NEW).]

[PL 2013, c. 588, Pt. C, §7 (AMD).]

2. Use of consumer reports. Notwithstanding this subsection, an insurer may use a consumer report as permitted under the Fair Credit Reporting Act pursuant to Title 10, chapter 209-B and 15 United States Code, Chapter 41. An insurer may use information obtained from a consumer reporting agency to calculate an insurance score for underwriting and rating purposes, except that an insurer may not:

A. Use an insurance score that is calculated using race, sex, sexual orientation, gender identity, religion, ancestry or national origin, income, address, zip code or marital status of a consumer as a factor; [PL 2021, c. 553, §15 (AMD).]

B. Deny, cancel or refuse to renew a policy of personal insurance solely on the basis of credit information without consideration of any other applicable underwriting factor independent of credit information and not expressly prohibited by paragraph A; [PL 2003, c. 223, §1 (NEW).]

C. Base an insured's renewal rates for personal insurance solely upon credit information, without consideration of any other applicable factor independent of credit information; [PL 2003, c. 223, §1 (NEW).]

D. Take an adverse action against a consumer solely because that consumer does not have a credit card account, without consideration of any other applicable factor independent of credit information; [PL 2003, c. 223, §1 (NEW).]

E. Consider an absence of credit information, the number of inquiries or an inability to calculate an insurance score in underwriting or rating personal insurance unless the insurer has demonstrated to the superintendent that an absence of credit information, the number of inquiries or an inability to calculate an insurance score is a relevant factor to the risk underwritten or rated by the insurer and the insurer applies this factor in a manner approved by the superintendent; or [PL 2003, c. 223, §1 (NEW).]

F. Take an adverse action against a consumer based on credit information unless an insurer obtains and uses a credit report issued or an insurance score calculated within 90 days before the date the policy is first written or renewal is issued. [PL 2003, c. 223, §1 (NEW).]

[PL 2021, c. 553, §15 (AMD).]

3. Notice of use of credit information. If credit information is used by an insurer, an insurer shall disclose, either on the insurance application or at the time the insurance application is taken, that credit information may be obtained by the insurer in connection with the application. The disclosure must be written or provided to an applicant in the same medium as the application for insurance. The insurer is not required to provide the disclosure statement required under this subsection to any insured on a renewal policy if such consumer has previously been provided a disclosure statement. An insurer may

demonstrate compliance with this subsection by using the following example disclosure statement: "In connection with this application for insurance, we may review your credit report or obtain or use a credit-based insurance score based on the information contained in that credit report. We may use a 3rd party in connection with the development of your insurance score."

[PL 2003, c. 223, §1 (NEW).]

4. Notice of adverse action. If an insurer makes an adverse action based on credit information, the insurer shall provide the consumer with notice as required by this subsection. The insurer shall provide:

A. Notice to the consumer that an adverse action has been taken in accordance with the requirements of the Fair Credit Reporting Act pursuant to Title 10, chapter 209-B and 15 United States Code, Chapter 41; and [PL 2013, c. 588, Pt. C, §9 (AMD).]

B. Notice to the consumer explaining the reason for the adverse action. The reason or reasons must be provided in sufficiently clear and specific language so that an individual can identify the basis for the insurer's decision to take an adverse action. The notice must include a description of up to 4 factors that were the primary influences of the adverse action. The use of a generalized term such as "poor credit history," "poor credit rating" or "poor insurance score" does not meet the explanation requirements of this paragraph. Standardized credit explanations provided by consumer reporting agencies or other 3rd-party vendors are deemed to comply with this paragraph.

[PL 2003, c. 223, §1 (NEW).]

[PL 2013, c. 588, Pt. C, §9 (AMD).]

5. Dispute resolution and error correction. If it is determined through the dispute resolution process set forth in 15 United States Code, Section 1681i(a)(5) that the credit information of a current insured was incorrect or incomplete and if the insurer receives notice of such determination from either the consumer reporting agency or from the insured, the insurer shall reunderwrite and rerate the consumer within 30 days of receiving the notice. After reunderwriting or rerating the insured, the insurer shall make any adjustments necessary, consistent with its underwriting and rating guidelines. If an insurer determines that the insured has overpaid premium, the insurer shall refund to the insured the amount of overpayment calculated back to the shorter of either the last 12 months of coverage or the actual policy period.

[PL 2013, c. 588, Pt. C, §10 (AMD).]

5-A. Rescoring. An insurer that uses insurance scores to underwrite or rate risks, upon request of the insured but no more often than once every 12 months, shall obtain an updated credit report and recalculate the insurance score and shall reunderwrite and rerate the consumer within 30 days of receiving the request. After reunderwriting or rerating the insured, the insurer shall make any adjustments necessary, consistent with its underwriting and rating guidelines, on the anniversary date or the effective date of the renewal of the policy.

[PL 2007, c. 74, §1 (NEW).]

6. Filing of insurance scoring models. An insurer that uses insurance scores to underwrite and rate risks shall file the scoring model or other scoring processes used by the insurer with the superintendent. A 3rd party may file scoring models on behalf of insurers. A filing that includes insurance scoring must include loss experience justifying the use of credit information if required by the superintendent. The insurance scoring model contained in a filing required under this subsection is confidential and not a public record within the meaning of Title 1, section 402, subsection 3.

[PL 2003, c. 223, §1 (NEW).]

7. Indemnification. An insurer shall indemnify, defend and hold agents harmless from and against all liability, fees and costs arising out of or relating to the actions, errors or omissions of a producer who obtains or uses credit information or insurance scores for an insurer, provided the producer, in the exercise of reasonable care, follows the instructions of or procedures established by the insurer and

complies with any applicable law or regulation. This subsection may not be construed to provide a consumer or other insured with a cause of action that does not otherwise exist in the absence of this subsection. This subsection may not be construed to indemnify a producer for the producer's omission when a producer elects not to obtain a credit-related insurance score in connection with an application for personal insurance coverage from an insurer that the producer represents if that insurer uses credit information as permitted under this section to underwrite that coverage.

[PL 2003, c. 223, §1 (NEW).]

§2170. Certain fees for handling insurance transactions in connection with loans prohibited

1. No person who makes a loan on real or personal property shall in connection with such a transaction make any separate charge to or require any fee from or require the payment of any money for handling insurance papers for an insurer, insurance agency, borrower, mortgagor or purchaser, other than the insurance premium on insurance written as additional security for the loan. This prohibition includes any separate charge or fee or payment of any money for the substitution by a borrower or a mortgagor or a purchaser of one insurance policy on the property for an existing policy on the property when the existing or substituted policy is provided through an insurer or insurance agent or broker licensed to do business in the State.

[PL 1969, c. 132, §1 (NEW).]

2. This section does not prohibit fees paid to a lender for handling or processing credit accident and health or credit life insurance not exceeding 10% of prima facie premiums as set forth by rules adopted by the superintendent.

[PL 1993, c. 208, §2 (AMD).]

3. Nothing in this section prevents the payment of the interest which may be charged on premium loans or premium advances in accordance with the security agreement, or the payment of dividends to group policyholders provided that the payment of dividends to group credit life and group credit health policyholders shall be subject to such rules and regulations as shall be promulgated by the superintendent.

5-A. Privacy. A navigator may not collect, use, disclose or retain personal information, as defined in section 2204, subsection 20, except for the purposes of performing the duties of a navigator or as permitted by an exchange under privacy standards adopted in accordance with the federal Affordable Care Act. An insurer may credit or refund any portion of the premium charges for an insurance policy for a clean fuel vehicle in order to encourage its policyholders to use clean fuel vehicles if insurance premiums on other vehicles are not increased to fund these credits or refunds. [PL 1997, c. 500, §7 (NEW).]

For purposes of this section, "clean fuel vehicle" means a vehicle that may be propelled by a clean fuel or a fuel-cell electric vehicle that uses any fuel. For purposes of this paragraph, "clean fuel" means

all products or energy sources used to propel motor vehicles, as defined in Title 29-A, section 101, other than conventional gasoline, diesel or reformulated gasoline, that, when compared to conventional gasoline, diesel or reformulated gasoline, result in lower emissions of oxides of nitrogen, volatile organic compounds, carbon monoxide or particulates or any combination of these. "Clean fuel" includes, but is not limited to, compressed natural gas; liquefied natural gas; liquefied petroleum gas; hydrogen; hythane, which is a combination of compressed natural gas and hydrogen; dynamic flywheels; solar energy; alcohol fuels containing not less than 85% alcohol by volume; and electricity. §2304-A. Rate filings

1. Every insurer shall file with the superintendent, except as to inland marine risks, which by general custom of the business are not written according to manual rates or rating plans, every manual rate, minimum premium, class rate, rating schedule or rating plan and every other rating rule, and every modification of any of the foregoing that it proposes to use. The filing must state the effective date of the filing and indicate the character and extent of the coverage contemplated. The filing must be made not less than 30 days in advance of the stated effective date unless that 30-day requirement is waived by the superintendent. The superintendent shall act on a filing no later than 30 days from receipt unless an extension is requested by the filer. A filing required under this section must be made electronically in a format required by the superintendent unless exempted by rule adopted by the superintendent. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

H. [PL 1991, c. 377, §10 (RP).]

[PL 2009, c. 14, §1 (AMD).]

2. Every insurer must file or incorporate by reference material that has been approved by the superintendent at the time rates are filed, including all supplementary rating, and supporting information to be used in support of or in conjunction with a rate. The information furnished in support of a filing may include or reference:

A. The experience or judgment of the insurer or information filed by an advisory organization on behalf of the insurer as permitted by sections 2321-D and 2321-E; [PL 1991, c. 377, §10 (RPR).]

B. The insurer's interpretation of any statistical data upon which it relies; [PL 1991, c. 377, §10 (RPR).]

C. The experience of other insurers or advisory organizations; or [PL 1991, c. 377, §10 (RPR).]

D. Any other relevant factors. [PL 1991, c. 377, §10 (RPR).]
[PL 1991, c. 377, §10 (RPR).]

3. An advisory organization filing of prospective loss costs and supplementary rating information must be filed for approval at least 60 days before it becomes effective. This period may be extended by the superintendent for an additional period not to exceed 60 days if written notice is given to the advisory organization that additional time is needed for the consideration of the filing. Upon written application by the advisory organization, the superintendent may authorize a filing that has been reviewed to become effective before the expiration of the waiting period or any extension of the waiting period. A filing is deemed to meet the requirements of this chapter unless disapproved by the superintendent within the waiting period or any extension of the waiting period.

If the superintendent has requested the advisory organization to furnish the information upon which it supports that filing, the waiting period commences as of the date that information is furnished.

[PL 1991, c. 377, §10 (RPR).]

4. When a filing is not accompanied by the information upon which the insurer supports that filing, the superintendent may require the insurer to furnish the information upon which it supports the filing.

Any filing may be supported by the experience, or judgment if experience is not available, of the insurer or advisory organization making the filing, the experience of other insurers or advisory organizations or any other factors that the insurer or advisory organization determines relevant. A filing and any other supporting information are open to public inspection after the filing becomes effective.

[PL 1991, c. 377, §10 (RPR).]

5. Specific inland marine rates on risks specially rated, made by an advisory organization, must be filed with the superintendent, become effective when filed, and are deemed approved and in compliance with the requirements of this chapter until the superintendent rejects the filing.

[PL 1991, c. 377, §10 (RPR).]

6. Filings of rates to be utilized in connection with one or more mass marketing plans as defined in section 2932 must clearly identify their applicability to those plans.

[PL 1991, c. 377, §10 (RPR).]

7. Except as provided in section 2304-C, a rate filing and its supporting data are confidential until the filing is approved.

[PL 2005, c. 121, Pt. C, §1 (AMD).]

8. Nothing in this chapter requires an advisory organization or its members or subscribers immediately to refile final rates or premium charges previously approved or lawfully in effect. Members or subscribers of an advisory organization are authorized to continue to use rates or premium charges approved or lawfully in effect before the effective date of this chapter.

§2304-B. Reference filings

1. An insurer may satisfy its obligations to make rate filings by becoming a participating insurer of a licensed advisory organization that makes reference filings of advisory prospective loss costs and

by authorizing the superintendent to accept reference filings on its behalf. The insurer's rates are the prospective loss costs filed by the advisory organization that have been approved in accordance with section 2321-E combined with the modifications and expense and profit factors filed by the insurer. [PL 1989, c. 797, §8 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

2. An insurer may request that its expense and profit factors and its loss cost modifications remain on file with the superintendent. Upon approval of an advisory organization loss cost reference filing, the insurer's rates are the combination of the approved prospective loss costs and the insurer's expense and profit factors and its loss cost modification filed with the superintendent. [PL 1989, c. 797, §8 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

3. If an insurer has authorized an advisory organization to file prospective loss cost information on its behalf, the insurer must make a filing with the superintendent pursuant to section 2304-A if it intends to delay, modify or in any way not adopt an approved loss cost filing. [PL 1989, c. 797, §8 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

4. An insurer's expense and profit factors and loss cost modifications must remain in effect until the insurer withdraws or refiles new factors pursuant to section 2304-A. The superintendent may request that an insurer provide supporting information for the filed expense and profit factors and loss cost modifications at any time. Notwithstanding this section, filings made by advisory organizations are subject to this section only to the extent permitted by law, and laws prohibiting activities or the filing of certain information by advisory organizations supersede the provisions of this section. [PL 1991, c. 377, §11 (NEW).]

1. Contents of filing. Every filing subject to this section must include the data, statistics, schedules or information necessary for the superintendent to determine whether the filing complies with this chapter. The superintendent may waive any noncompliance with this subsection if the superintendent determines that the noncompliance is immaterial. The required information includes, but is not limited to:

A. Rates:

- (1) Current rates by rating class at basic limits and larger optional limits of coverage; and

D. Classification exposure, premium and loss experience in the State for not less than the 5 most recent years available, and other experience determined to be credible in selecting the proposed classification relativities. Classification experience must be provided in any filing in which the filer has proposed changes to the classification relativities, but not less frequently than every 3 years; [PL 1991, c. 377, §11 (NEW).]

E. Expense provisions used in developing the proposed rates, an explanation of the procedure used to develop these provisions, and the actual historical expenses for each of the 3 most recent years available in the following categories: commissions; other acquisition expenses; general expenses; taxes, licenses and fees; unallocated loss adjustment expenses; and other expenses; [PL 1991, c. 377, §11 (NEW).]

G. An estimate of the investment income that will be earned on loss and loss adjustment expense reserves and unearned premium reserves during the period the rates are to be in effect and claims remain unpaid, and evidence that the filing gives full consideration to that estimated income. The filing must include the expected expense and claim payout pattern and an explanation of the derivation of the payout pattern; and [PL 1991, c. 377, §11 (NEW).]

H. Information regarding cost or expense control programs, procedures or practices implemented by the filer to improve efficiency of the company or to control or limit premium charges to insureds. [PL 1991, c. 377, §11 (NEW).]

[PL 1991, c. 377, §11 (NEW).]

2. Additional information. The superintendent may require, at any time, any additional information the superintendent determines necessary.

[PL 1991, c. 377, §11 (NEW).]

3. Assertion of confidential status. Any insurer, rating organization or advisory organization that asserts that any portion of a filing is entitled to confidential status for purposes of subsection 5, shall identify that portion of the filing at the time of filing and shall state the basis for the assertion.

[PL 1991, c. 377, §11 (NEW).]

4. Notice of filing. The superintendent shall maintain a list of all persons who request notice of physicians and surgeons liability insurance rate filings. Within 10 days of receipt of such a rate filing, the superintendent shall notify each person on that list.
[PL 1991, c. 377, §11 (NEW).]

5. Interested persons. Immediately after receiving a filing under this section, the superintendent shall grant access to the entire filing, including confidential information, to any interested person who pays premiums for physicians and surgeons liability coverage to the company that made the filing, and to any person or organization representing a group of such persons. Any person who has access to confidential information under this section shall maintain the confidentiality of that information by means of a confidentiality agreement or pursuant to a protective order of the superintendent.
[PL 1991, c. 377, §11 (NEW).]

6. Public hearing. The superintendent may hold a public hearing on any filing, as provided in sections 229 to 235. At the request of any person described in subsection 5, the superintendent shall, as required by section 229, hold a public hearing on the filing.
[PL 1991, c. 377, §11 (NEW).]

7. Procedures; rules. The superintendent may adopt rules under Title 5, chapter 375, establishing procedures for the administration of this section.
[PL 1991, c. 377, §11 (NEW).]

SECTION HISTORY

§2305. Exemption from filing

Under such rules and regulations as may be adopted, the superintendent may, by written order, suspend or modify the requirement of filing as to any kind of insurance, subdivision or combination thereof, or as to classes of risks, the rates for which cannot practicably be filed before they are used. Such orders, rules and regulations shall be made known to insurers and advisory organizations affected thereby. The superintendent may make such examination as determined advisable to ascertain whether any rates affected by such order meet the standards set forth in section 2303, subsection 1, paragraph B. [PL 1989, c. 797, §9 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

§2306. Disapproval of filing

1. If at any time the superintendent has reason to believe that a filing does not meet the requirements of this chapter, or violates any of the provisions of chapter 23, the superintendent shall, after a hearing held upon not less than 10 days' written notice, specifying the matters to be considered at such hearing, to every insurer and advisory organization which made such filing, issue an order specifying in what respects the superintendent finds that such filing fails to meet the requirements of this chapter, and stating when, within a reasonable period thereafter, such filing shall be deemed no longer effective. Copies of the order shall be sent to every such insurer and advisory organization. The order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in the order.
[PL 1989, c. 797, §10 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

2. No such order shall be issued by the superintendent with respect to the rate of an insurer, if such rate is one used by any other insurer, unless such order applies equally to all insurers using such rate. Such order may be issued to an insurer without being applicable to all other insurers using the same rate, if the basis for such order is that the insurer affected thereby could not otherwise, with safety to the public and to its policyholders, be permitted to continue to transact business.

B. A disclosure statement detailing the nature of the restriction or restrictions contained in the form and the manner in which the provisions of the restrictive form differ from an otherwise applicable filing is provided to and acknowledged by the applicant for insurance. [PL 1987, c. 337 (NEW).]

1. Application to the superintendent. Any insured aggrieved with respect to any filing, rate, expense or premium level that is in effect may make a written application to the superintendent for a hearing. 3. If, after such a hearing, the superintendent finds that the filing, rate, expense or premium level does not meet the requirements of this chapter, the superintendent shall issue a final order specifying in what respects the superintendent finds that the filing fails to meet the requirements of this chapter, or is unjust and unreasonable, and stating when, within a reasonable period thereafter, the filing, rate, expense or premium level shall be changed, replaced or determined no longer effective. 2. Every rating organization, advisory organization and insurer shall provide within this State reasonable means whereby any person aggrieved by the application of its rating system may be heard, in person or through an authorized representative, on written request to review the manner in which such rating system has been applied in connection with the insurance afforded that person. If the rating organization, advisory organization or insurer fails to grant or reject such request within 30 days after it is made, the applicant may proceed in the same manner as if that application had been rejected. Any party affected by the action of such rating organization, advisory organization or such insurer on such request may, within 30 days after written notice of such action, appeal to the superintendent, who, after a hearing held upon not less than 10 days' written notice to the appellant and to such rating organization, advisory organization or insurer, may affirm or reverse such action. [PL 1989, c. 797, §21 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

3. Upon a request by a person aggrieved by the application of the rating system or an insurer, or either of their authorized representatives, the person aggrieved has the right to a hearing held by the superintendent without the matter first being heard by the rating organization or insurer pursuant to subsection 2. Such hearing must be held within 60 days following receipt by the superintendent of a written request for a hearing. At least 30 days' written notice of the date, time and place of the hearing, together with a reasonably accurate description of the subject matter of the hearing, must be provided by the superintendent to the person aggrieved, the insurer and the rating organization. Upon request by any party, the hearing may be continued to allow a reasonable period for conducting investigation of the matter, discovery and preparation of factual and legal materials for the hearing. Each party to a hearing is entitled to only one continuance. Prior to continuation of a hearing, the superintendent shall, upon not less than 5 days' notice to all parties, conduct an informal prehearing conference at which the parties shall identify the issues to be addressed at the hearing, establish a schedule for all investigation, discovery and hearing preparation reasonably necessary based upon the nature and scope of the hearing and establish a date certain for the hearing. §2321-A. Licensing advisory organizations

1. No advisory organization may provide any service relating to the rates of any insurance subject to this chapter, and no insurer may utilize the services of that organization for those purposes unless the organization has obtained a license under subsection 3, paragraph C. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

2. No advisory organization may refuse to supply any services for which it is licensed in this State to any insurer authorized to do business in this State and offering to pay the fair and usual compensation for the services. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

3. The licensing of advisory organizations is governed by the following.

A. An advisory organization's application for a license must include:

- (1) A copy of its constitution, charter, articles of organization, agreement, association or incorporation, and a copy of its bylaws, plan of operation and any other rules or regulations governing the conduct of its business;
- (2) A list of its members and subscribers;
- (3) The name and address of one or more residents of this State upon whom notices, process affecting it, or orders of the superintendent may be served;
- (4) A statement showing its technical qualifications for acting in the capacity for which it seeks a license;
- (5) A biography of the ownership and management of the organization; and
- (6) Any other relevant information and documents that the superintendent may require. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

B. Every organization which has applied for a license must notify the superintendent of every material change in the facts or in the documents on which its application was based. Any amendment to a document filed under this section must be filed at least 30 days before it becomes effective. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

C. If the superintendent finds that the applicant and the natural persons through whom it acts are competent, trustworthy and technically qualified to provide the services proposed, and that all requirements of the law are met, the superintendent shall issue a license specifying the authorized activity of the applicant. The superintendent may not issue a license if the proposed activity would tend to create a monopoly or to lessen substantially the competition in any market. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

D. The superintendent may at any time, after hearing, revoke or suspend the license of an advisory organization that does not comply with the requirements and standards of this section. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

B. Engage in a boycott, on a concerted basis, of an insurance market. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

A. The fact that 2 or more insurers, whether or not members or subscribers of an advisory organization, use consistently or intermittently the same rates, rating plans, rating schedules, rating rules, policy or bond forms, rate classifications, rate territories, underwriting rules, surveys or inspections or similar materials is not sufficient in itself to support a finding that an agreement exists. [PL 1989, c. 797, §23 (NEW); PL 1989, c. 797, §§37, 38 (AFF).]

B. Two or more insurers having a common ownership or operating in this State under common management or control may act in concert between or among themselves with respect to any matters pertaining to those activities authorized in this chapter as if they constituted a single insurer. 1. Notwithstanding section 2321-B, subsection 2 and consistent with sections 2325, 2325-A, 2325-B and 2366, insurers, rating organizations and advisory organizations participating in joint underwriting, joint reinsurance pools or residual market mechanisms may, in connection with such activity, act in cooperation with each other in the making of rates, rating systems, policy forms, underwriting rules, surveys, inspections and investigations, the furnishing of loss and expense statistics or other information, or conducting research. Joint underwriting, joint reinsurance pools and residual market mechanisms are not considered to be advisory organizations.

[PL 2003, c. 671, Pt. B, §1 (AMD).]

§2323. Recording and reporting of loss and expense experience

1. The superintendent, acting pursuant to the Maine Administrative Procedure Act, Title 5, chapter 375, subchapter II, may promulgate reasonable rules and statistical plans, reasonably adopted to each of the rating systems on file , which may be modified from time to time and which shall be used thereafter by each insurer in the recording and reporting of its loss and countrywide expense experience, in order that the experience of all insurers be made available at least annually in such form and detail as may be necessary to aid the superintendent in determining whether rating systems comply with the standards set forth in section 2303. Such rules and plans may also provide for the recording and reporting of expense experience items which are specially applicable to this State and are not susceptible of determination by a prorating of countrywide expense experience. The superintendent may also adopt reasonable rules for companies to use in recording and reporting to the superintendent their rates and other information determined to be necessary or appropriate for the administration of this chapter and the effectuation of its purposes.

[PL 1989, c. 797, §26 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

2. In promulgating such rules and plans, the superintendent shall give due consideration to the rating systems on file with him, and in order that such rules and plans may be as uniform as is practicable among the several states, to the rules and to the form of the plans used for such rating systems in other states. No insurer shall be required to record or report its loss experience on a classification basis that is inconsistent with the rating system filed by it.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. The superintendent may designate one or more rating organizations, advisory organizations or other agencies to assist in gathering such experience and making compilations thereof, and such compilations shall be a public document.

[PL 1989, c. 797, §27 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

4. Each insurer shall report its loss or expense experience to the lawful rating organization, advisory organization or agency of which it is a member or subscriber, but is not required to report its

loss or expense experience to any rating organization, advisory organization or agency of which it is not a member or subscriber. Any insurer not reporting such experience to a rating organization, advisory organization or other agency may be required to report such experience to the superintendent. Any report of such experience of any insurer filed with the superintendent is confidential and may not be revealed by the superintendent to any other insurer or other person, but the superintendent may make compilations including such experience.

[PL 2011, c. 320, Pt. A, §8 (AMD).]

5. Group self-insurer. As used in this section, "insurer" shall include:

A. Insurer as defined in section 4; and [PL 1979, c. 658, §2 (NEW).]

B. Group self-insurer as defined in Title 39-A, section 403. [PL 1991, c. 885, Pt. E, §28 (AMD); PL 1991, c. 885, Pt. E, §47 (AFF).]

§2324. Interchange of rating plan data; consultation; cooperative action in rate-making

1. Acting in accordance with the procedures set forth in the Maine Administrative Procedure Act, Title 5, chapter 375, subchapter II, the superintendent may promulgate reasonable rules and plans for the interchange of data necessary for the application of rating plans.

[PL 1977, c. 694, §419 (RPR).]

2. In order to further uniform administration of rate regulatory laws, the superintendent and every insurer, advisory organization and rating organization may to the extent consistent with this chapter exchange information and experience data with insurance supervisory officials, insurers and rating organizations in other states and may consult with them with respect to rate making and the application of rating systems.

[PL 1989, c. 797, §28 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

3. Cooperation among rating organizations, advisory organizations and insurers in activities related to rate making or in other matters within the scope of this chapter is authorized, but the filings resulting from such cooperation are subject to all provisions of this chapter which are applicable to filings generally. The superintendent may review such cooperative activities and practices and if, after a hearing, the superintendent finds that any such activity or practice is unfair or unreasonable or otherwise inconsistent with this chapter, the superintendent may issue a written order specifying in what respects such activity or practice is unfair or unreasonable or otherwise inconsistent with this chapter, and requiring the discontinuance of such activity or practice.

§2325. Assigned risks

1. Agreements may be made among casualty insurers with respect to the equitable apportionment among them of insurance which may be afforded applicants who are in good faith entitled to but who are unable to procure such insurance through ordinary methods and such insurers may agree among themselves on the use of reasonable rate modifications for such insurance, such agreements and rate modifications to be subject to the approval of the superintendent.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. Every insurer undertaking to transact in this State the business of automobile and motor vehicle bodily injury, property damage liability, physical damage and medical payments insurance and every advisory organization that files rates for that insurance shall cooperate in the preparation and submission of a plan for the equitable apportionment among insurers of applicants for insurance who are in good faith entitled to, but who are unable to procure through ordinary methods, such insurance. Administration of the plan is the responsibility of the plan member insurers subject to regulatory oversight by the bureau. The plan must provide:

A. Reasonable rules governing the equitable distribution of risks by direct insurance, reinsurance or otherwise and their assignment to insurers; [PL 1989, c. 797, §29 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

B. Rates and rate modifications applicable to such risks, which may not be excessive, inadequate or unfairly discriminatory; [PL 1991, c. 667, §1 (AMD).]

C. The limits of liability that the insurer is required to assume, except that the maximum amount of physical damage coverage for commercial type vehicles must be determined by the superintendent based on the current cost of new vehicles but not to exceed a maximum amount of \$100,000; and [PL 1991, c. 667, §1 (AMD).]

D. A method whereby applicants for insurance, insureds and insurers may have a hearing on grievances and the right of appeal to the superintendent. [PL 1989, c. 797, §29 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

[PL 1991, c. 667, §1 (AMD).]

3. The plan referred to in subsection 2 must be filed in writing with the superintendent. The superintendent shall review the plan as soon as reasonably possible after filing in order to determine whether it meets the requirements set forth in subsection 2, paragraphs A, B, C and D. The plan, unless sooner approved in writing, must be on file for a waiting period of 30 days before it becomes effective. The plan is deemed approved unless disapproved by the superintendent within the waiting period.

Subsequent to the waiting period, the superintendent may disapprove the plan on the grounds that it does not meet the requirements set forth in subsection 2, paragraphs A, B, C and D, but only after a hearing held upon not less than 10 days' written notice to every insurer and advisory organization affected, specifying the matters to be considered at the hearing, and only by an order specifying in what respect the superintendent finds that the plan fails to meet the requirements, and stating when within a reasonable period thereafter the plan is deemed no longer effective. That order does not affect any assignment made or policy issued or made prior to the expiration of the period set forth in the order. Amendments to the plan must be prepared, filed and reviewed in the same manner as provided in this subsection with respect to the original plan.

The superintendent may, as necessary and in accordance with the Maine Administrative Procedure Act, initiate rulemaking with respect to the plan.

[PL 1991, c. 667, §2 (AMD).]

4. When the plan referred to in subsection 2 or amendments thereto have been approved or promulgated, no insurer shall thereafter issue a policy of automobile and motor vehicle bodily injury, property damage liability, physical damage and medical payments insurance or undertake to transact such business in this State, unless such insurer shall participate in such an approved or promulgated plan.

[PL 1969, c. 132, §1 (NEW).]

5. If, after hearing, the superintendent finds that any activity or practice of any insurer or advisory organization in connection with the operation of the plan referred to in subsection 2 is unfair or unreasonable or otherwise inconsistent with this section, the superintendent may issue a written order

specifying in what respects such activity or practice is unfair or unreasonable or otherwise inconsistent with this section and requiring the discontinuance of such activity or practice.

[PL 1989, c. 797, §30 (AMD); PL 1989, c. 797, §§37, 38 (AFF).]

6. The maximum limits of liability insurance offered by the Maine Automobile Insurance Plan for a personal automobile policy may not be less than \$250,000 per person for bodily injury liability, \$500,000 per occurrence for bodily injury liability and \$100,000 for property damage liability. A combined single limit of \$500,000 may be offered as an alternative to the mandatory split limits for bodily injury liability and property damage liability.

[PL 1991, c. 667, §3 (NEW).]

7. When a notice of cancellation for nonpayment of premium is issued by the Maine Automobile Insurance Plan or by an insurer to which the insured has been assigned by the plan, any premium paid by the insured but unearned within the policy term must be returned to the insured within 10 working days from the effective date of cancellation.

1. **Establishment.** Whenever a particular type of insurance is unavailable or unaffordable, the superintendent may establish a market assistance plan.

[PL 1987, c. 627 (NEW).]

2. **Definition.** For purposes of this section a "market assistance plan" is a voluntary agreement between the Bureau of Insurance and insurers that the insurers will write insurance at an agreed upon rate for those persons or groups that are unable to obtain coverage.

[PL 1987, c. 627 (NEW).]

3. **Notification.** Whenever the superintendent determines that a market assistance plan is needed, the superintendent shall notify all insurers authorized to write the type of insurance covered by the plan that a market assistance plan is being established and their participation in the plan is requested.

[PL 1987, c. 627 (NEW).]

4. **Participation.** Each insurer receiving a notice referred to in subsection 3, shall respond within 30 days to the notice. Their response shall indicate the extent to which they are willing to participate and any reasons why they do not wish to participate or only wish to participate on a limited basis.

[PL 1987, c. 627 (NEW).]

5. **Report.** The superintendent shall report to the joint standing committee of the Legislature having jurisdiction over insurance by January 30th of each year whether there is, or may be, within the year a lack of availability in any line of insurance.

F. "Modified policy form and rate filing" and "modified filing" mean any modified policy form and modified rate filed with the superintendent under subsection 9. [PL 2003, c. 671, Pt. B, §2 (NEW).]

G. "Net direct premiums" means gross direct written premiums on basic property and casualty insurance in this State less return premiums upon cancelled contracts, irrespective of reinsurance assumed or ceded. [PL 2003, c. 671, Pt. B, §2 (NEW).]

H. "Program" means the mandatory property and casualty insurance market assistance program described in this section. [PL 2003, c. 671, Pt. B, §2 (NEW).]

I. "Underserved areas or risk types," "underserved areas" and "underserved risk types" mean specific geographic areas or property risk types in this State that the superintendent designates by rule as not having reasonable access to basic property and casualty insurance. [PL 2003, c. 671, Pt. B, §2 (NEW).]

[PL 2003, c. 671, Pt. B, §2 (NEW).]

2. Authority to establish program. If the superintendent establishes a voluntary market assistance plan in accordance with section 2325-A to increase the availability of basic property and casualty insurance in this State and the superintendent determines after a public hearing that the number of insurers participating in the voluntary market assistance plan is insufficient or that a sufficient number of risks has not been written through the plan, then the superintendent may establish a mandatory property and casualty insurance market assistance program in accordance with this section. The superintendent shall adopt rules regarding the level of insufficient participation in the voluntary market assistance plan that is necessary for the establishment of a program under this section. The provisions in the rules governing a determination of insufficient participation in the voluntary market assistance plan must take into account the length of time the voluntary market assistance plan is operational.

[PL 2003, c. 671, Pt. B, §2 (NEW).]

3. Mandatory insurer participation. All insurers, except eligible surplus lines insurers, authorized to write and engaged in writing in this State, on a direct basis, basic property and casualty insurance shall cooperate in organizing a program as required by subsection 4. Every such insurer must be a member of the program and remain a member as long as the insurer has net direct premiums on basic property and casualty insurance in this State.

[PL 2003, c. 671, Pt. B, §2 (NEW).]

4. Required action by superintendent. If the superintendent determines that a program under this section should be established in accordance with the requirements of subsection 2, the superintendent shall:

- A. Order member insurers to cooperate in the organization of the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]
- B. Appoint the members of the governing committee in accordance with subsection 5; [PL 2003, c. 671, Pt. B, §2 (NEW).]
- C. Order the governing committee to develop a proposed plan of operation for the program in accordance with subsection 6, including a deadline for the submission of the plan; and [PL 2003, c. 671, Pt. B, §2 (NEW).]
- D. Initiate rulemaking in accordance with subsection 8. [PL 2003, c. 671, Pt. B, §2 (NEW).]
[PL 2003, c. 671, Pt. B, §2 (NEW).]

5. Governing committee. The governing committee of the program consists of 8 members as follows:

- A. Five members appointed by the superintendent who are full-time employees of member insurers; [PL 2003, c. 671, Pt. B, §2 (NEW).]
- B. Two members appointed by the superintendent who are licensed producers with property and casualty authority; and [PL 2003, c. 671, Pt. B, §2 (NEW).]

The terms of members of the governing committee and process for filling vacancies must be established in the plan of operation pursuant to subsection 6.
[PL 2003, c. 671, Pt. B, §2 (NEW).]

6. Plan of operation. The program must be operated by the governing committee established under subsection 5 pursuant to a plan of operation approved by the superintendent. The governing committee shall develop a plan of operation and submit the plan to the superintendent for approval. If the superintendent disapproves the proposed plan of operation, the governing committee must, within 30 days, submit for review an appropriately revised plan of operation and, if the governing committee fails to submit such a plan or if the revised plan is also disapproved by the superintendent, the superintendent must develop a plan of operation consistent with this section. The governing committee may, on its own initiative or at the request of the superintendent, amend the plan of operation with the approval of the superintendent.

The plan of operation must:

- A. Adopt a mechanism for the equitable apportionment of risks under the program, including the equitable distribution among member insurers of applications for basic property and casualty insurance to cover underserved areas or risk types from eligible applicants who are in good faith entitled to but who are unable to procure basic property and casualty insurance through ordinary methods in the voluntary admitted market; [PL 2003, c. 671, Pt. B, §2 (NEW).]
- B. Establish a methodology for the calculation and the payment of fees or commissions to producers with respect to eligible risks written through the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]
- C. Require that member insurers write basic property and casualty insurance for eligible applicants to cover underserved areas or risk types in accordance with each member insurer's underwriting guidelines and rating rules applicable to risks written through the program to the extent not

inconsistent with reasonable underwriting and rating rule limitations contained in rules adopted by the superintendent under subsection 8; [PL 2003, c. 671, Pt. B, §2 (NEW).]

D. Permit the use of rate filings and policy forms by member insurers, including:

- (1) The ability for member insurers to use existing forms and rates to write basic property and casualty insurance in the program;
- (2) The authority for member insurers to file modified policy forms and modified rates in accordance with subsection 9, including permissible surcharges on those policies in accordance with limits established by the superintendent by rule; and
- (3) The authority for the program to develop uniform policy forms and rates for use by member insurers subject to approval of the superintendent and the requirements of subsection 9; [PL 2003, c. 671, Pt. B, §2 (NEW).]

E. Establish a procedure for the possible future creation of a risk pooling arrangement or reinsurance program for the distribution of the losses and expenses of basic property and casualty insurance written through the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]

F. Provide that a member insurer is entitled to receive credit for voluntarily writing basic property and casualty insurance in underserved areas or on underserved risk types and that the participation in the program of an insurer who does so must be reduced in accordance with the mechanism of apportionment and distribution established under paragraph A; [PL 2003, c. 671, Pt. B, §2 (NEW).]

G. Establish a grievance process for applicants for insurance, insureds and member insurers with the program and a right to appeal those grievances to the superintendent after an initial decision by the governing committee; [PL 2003, c. 671, Pt. B, §2 (NEW).]

H. Establish procedures for the inspection of properties by or on behalf of member insurers; [PL 2003, c. 671, Pt. B, §2 (NEW).]

I. Establish a uniform process to inform owners of property in underserved areas or of underserved risk types of the specific circumstances and property characteristics that affect the insurability of the property including recommendations for improving the insurability of the property; [PL 2003, c. 671, Pt. B, §2 (NEW).]

J. Require that in order for an applicant to purchase basic property and casualty insurance through the program, the applicant must produce proof of 2 declinations from authorized insurers other than eligible surplus lines insurers, to write insurance on the property. The plan of operation must allow one of the declinations to be in the form of a cancellation or nonrenewal notice unless coverage has been ordered to stay in effect pending the outcome of a hearing before the superintendent, in which case the cancellation or nonrenewal notice may only be used as a declination in the person's application to the program if the decision in the hearing is in favor of the insurer; [PL 2003, c. 671, Pt. B, §2 (NEW).]

K. Establish a finite list of reasons a policy issued through the program may be cancelled, which may include nonpayment of premium, fraud or material misrepresentation; [PL 2003, c. 671, Pt. B, §2 (NEW).]

L. Stipulate that cancellation of policies issued through the program may not be effective less than 20 days after receipt by the insured of the notice of cancellation or, if the cancellation is for nonpayment of premium, may not be effective less than 10 days after receipt by the insured of the notice of cancellation and that a postal certificate of mailing to the named insured at the insured's last known address is conclusive proof of receipt on the 5th calendar day after mailing; [PL 2003, c. 671, Pt. B, §2 (NEW).]

M. Establish eligibility criteria for policies issued through the program, except that any eligibility criteria may not be inconsistent with the purposes for establishing the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]

N. Establish the limits of liability a member insurer is required to assume, except that for any policy issued through the program, the maximum amount of coverage for a dwelling on a residence premises does not exceed \$300,000, the maximum limit for any liability coverage does not exceed \$300,000 and any limits of liability for additional coverages, including coverage for loss or damage to other structures or tangible personal property or for loss of use, may not count toward the maximum coverage limits applicable to the dwelling or any liability coverage; [PL 2003, c. 671, Pt. B, §2 (NEW).]

O. Establish procedures for the efficient, economical, fair and nondiscriminatory administration of the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]

P. Authorize the governing committee to assess member insurers for reasonable expenses incurred in administering the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]

Q. Establish procedures to govern a member insurer's withdrawal from the program; and [PL 2003, c. 671, Pt. B, §2 (NEW).]

R. Include any other procedures or operational matters considered necessary by the governing committee with the approval of the superintendent. [PL 2003, c. 671, Pt. B, §2 (NEW).]
[PL 2003, c. 671, Pt. B, §2 (NEW).]

7. Operation of program contingent upon approval. The program may not become operational until rules have been adopted as required by this section and the superintendent has approved the plan of operation in accordance with subsection 6.
[PL 2003, c. 671, Pt. B, §2 (NEW).]

8. Rulemaking. In accordance with subsection 4, the superintendent may adopt rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules under Title 5, chapter 375, subchapter 2-A. Rules adopted under this section may include:

A. The designation of underserved areas or risk types; [PL 2003, c. 671, Pt. B, §2 (NEW).]

B. Reasonable limitations on underwriting guidelines applicable to all member insurers for the issuance of basic property and casualty insurance through the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]

C. A writing level based on net direct premiums under which an insurer may seek to limit its participation or seek exemption from participation in the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]

D. Maximum allowable caps on rating surcharges and limitations on rating rules for risks written through the program; [PL 2003, c. 671, Pt. B, §2 (NEW).]

E. The process by which the superintendent may suspend or terminate the program; and [PL 2003, c. 671, Pt. B, §2 (NEW).]

F. Any other provisions necessary to implement the requirements of this section. [PL 2003, c. 671, Pt. B, §2 (NEW).]
[PL 2003, c. 671, Pt. B, §2 (NEW).]

9. Modified policy form and rate filings. A modified policy form and modified rate developed by a member insurer must be filed with the superintendent. A modified rate to be used in connection with an existing policy form that consists solely of a permissible surcharge not in excess of the maximum allowable cap contained in rules adopted under subsection 8 may be used by a member insurer immediately upon filing that modified rate with the superintendent. For any other modified

filings, a modified policy form and modified rate must be filed with the superintendent not less than 30 days in advance of the stated effective date. A modified rate filing subject to the 30-day advance filing requirement must include any supplementary rating information to be used in conjunction with a rate and, to the extent available, sufficient supporting information to support a rate. A modified rate may not be excessive, inadequate or unfairly discriminatory with respect to risks written through the program. A modified policy form may only be disapproved for the grounds specified in section 2413. All modified policy form and rate filings are confidential until approved in accordance with applicable law.

[PL 2011, c. 320, Pt. A, §9 (AMD).]

10. Immunity from liability for inspections. There is no liability on the part of, and a cause of action does not arise against, member insurers, the program or the governing committee or agents or employees of any of them or the superintendent or the superintendent's authorized representatives with respect to any inspections to be undertaken by this section or for any acts or omissions in connection with those inspections or for any statements made in a report or communication concerning the insurability of the property.

[PL 2003, c. 671, Pt. B, §2 (NEW).]

11. Superintendent's authority to suspend. In the event of impairment or serious financial difficulty of a member insurer, the superintendent may suspend the application of the provisions of this section from applying to the financially distressed member insurer.

[PL 2003, c. 671, Pt. B, §2 (NEW).]

12. Expiration of program. A program established by the superintendent pursuant to this section expires 2 years from the date the program becomes operational unless terminated earlier by the superintendent or unless, after a public hearing, the superintendent determines, based on clear and convincing evidence, that continued operation of the program is necessary to address the unavailability of basic property and casualty insurance for underserved areas or risk types. For purposes of this subsection, the program becomes operational on the effective date of the first policy issued through the program. If the superintendent finds that continued operation of the program is necessary, then any person insured under the program must reapply for coverage as new business under the program at the next renewal date occurring after the date of the superintendent's order to continue the program. Any policy written through the program that is in force when the program is terminated continues in force until its stated expiration date in accordance with the terms and conditions of the policy and the provisions in the plan of operation.

[PL 2003, c. 671, Pt. B, §2 (NEW).]

13. Powers of superintendent. In addition to any powers conferred upon the superintendent by this or any other law, the superintendent has authority to supervise the program and may:

A. Examine and investigate the operation of the program and member insurers through free access to all the books, records, files, papers and documents relating to their operation and may summon, qualify and examine as witnesses all persons having knowledge of such operations, including the governing committee and its officers, employees and agents; [PL 2003, c. 671, Pt. B, §2 (NEW).]

B. Require reports from the program, the governing committee and member insurers concerning risks insured through the program as the superintendent considers necessary; [PL 2003, c. 671, Pt. B, §2 (NEW).]

C. Approve or disapprove modified policy forms, modified endorsements, modified rates and modified rating and rule manuals for use by member insurers; and [PL 2003, c. 671, Pt. B, §2 (NEW).]

D. Suspend or terminate the program in accordance with subsection 12 and any process established by rule. [PL 2003, c. 671, Pt. B, §2 (NEW).]

[PL 2003, c. 671, Pt. B, §2 (NEW).]

14. Penalties for violations. The superintendent may take any action permitted under section 12-A against a member insurer or any other person required to be licensed under this Title who violates this section or any other applicable law or rule.
[PL 2003, c. 671, Pt. B, §2 (NEW).]

15. Annual report. On or before March 31st of each year, the governing committee shall submit a report detailing the program's operations for the previous calendar year to the superintendent and the joint standing committee of the Legislature having jurisdiction over insurance and financial services matters. The annual report is a public record within the meaning of Title 1, chapter 13, subchapter 1.
[PL 2003, c. 671, Pt. B, §2 (NEW).]

16. Applicability of provisions. Insurance provided through the program is subject to all other laws relating to that type of insurance, except policies issued through the program are not subject to section 3007 or to chapter 41, subchapter 5. In the event there is a conflict between any express provision in this section and any other applicable law, then the provisions of this section control. Notwithstanding sections 2162 and 2303, a member insurer may utilize underwriting guidelines, modified policy forms, modified rates and rating rules that differ from its voluntary business with respect to insurance issued through the program, as long as the program underwriting guidelines, modified policy forms, modified rates and rating rules comply with this section, the plan of operation and the rules adopted by the superintendent.

The examination must be conducted in the same manner and is subject to the same applicable provisions as apply to examination of insurers in chapter 3. The reasonable costs of any such examination must be paid by the organization or association so examined. In lieu of any such examination, the superintendent may accept the report of an examination made by the insurance supervisory official of another state, pursuant to the laws of such state. [PL 2023, c. 405, Pt. A, §85 (AMD).]

If the examination of a rating organization is satisfied by acceptance of another state's report on that rating organization, the superintendent shall submit a report to the joint standing committee of the Legislature having jurisdiction over banking and insurance concerning the superintendent's analysis of that report, any deficiencies noted by the superintendent or in the other state's report and what action has been taken to correct those deficiencies. 1. Advisory organization. "Advisory organization" means any entity that either has 2 or more member insurers or is controlled either directly or indirectly by 2 or more insurers and that assists insurers in activities related to workers' compensation rate making. experience against the loss experience of policyholders in the same classification to produce a prospective premium credit, debit or unity modification.

5. Loss trending. "Loss trending" means any procedure for projecting developed losses to the average date of loss for the period during which the policies are to be effective.

SECTION HISTORY

§2382. Rate standards

The following standards apply to the making and the use of rates under this Act. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

1. Rates. Rates may not be excessive, inadequate, or unfairly discriminatory.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Excessive rates. Voluntary and residual market rates are subject to the following.

A. Rates in the voluntary market are not excessive. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. Rates in the residual market are excessive if they are likely to produce a long-term profit that is unreasonably high for the insurance provided and for surplus requirements or if expenses are unreasonably high in relation to services rendered. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Inadequate rates. A rate is not inadequate unless insufficient to sustain projected losses and expenses and the use of the rate has had a tendency to create a monopoly or, if continued, will tend to create a monopoly in the market or will cause serious financial harm to the insurer.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Unfair discrimination. Unfair discrimination exists if, after allowing for practical limitations, price differentials fail to reflect equitably the differences in expected losses and expenses. A rate is not unfairly discriminatory because different premiums result for policyholders with like loss exposures but different expenses, or like expenses but different loss exposures, so long as the rate reflects the differences with reasonable accuracy.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

5. Determination of compliance. Determination of compliance with standards for rate factors, expenses and profits is as follows.

A. In determining whether rates comply with standards under this section, due consideration may be given to:

- (1) Past and prospective loss and expense experience within and outside of the State;
- (2) Catastrophe hazards and contingencies;
- (3) Loadings for leveling premium rates over time;
- (4) Dividends or savings to be allowed or returned by insurers to their policyholders, members or subscribers; and
- (5) Past and prospective expenses, both countrywide and those specifically applicable to the State. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. The expense provisions included in the rates to be used by an insurer must reflect the operating methods of the insurer, and, so far as credible, its own actual and anticipated expense experience. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

C. Rates may contain provision for contingencies and allowance permitting a reasonable profit. In determining the reasonableness of profit, consideration must be given to all investment income attributable to premiums, the reserves associated with those premiums and the amount of capital and surplus allocable to the coverage of risks in the State. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

§2382-A. Payment of dividends

Nothing in this Act prohibits or regulates the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers, but in the

payment of such dividends there may be no unfair discrimination between policyholders. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

A plan for the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers is not a rating plan or system. [PL 1991, c. 885, Pt. A, §12 (NEW); PL 1991, c. 885, Pt. A, §13 (AFF).]

§2382-B. Uniform administration of classifications; reporting of rating and other information; membership in advisory organization

1. Uniform classification system; uniform experience rating plan. Every workers' compensation insurer, including self-insurers, shall adhere to a uniform classification system and uniform experience rating plan filed with the superintendent by an advisory organization designated by the superintendent and subject to the superintendent's disapproval. An insurer may develop subclassifications of the uniform classification system upon which a rate may be made; provided, however, that such subclassifications must be filed with the superintendent 30 days prior to their use. The superintendent shall disapprove a subclassification if:

A. The insurer fails to demonstrate that the data produced can be reported consistently with the uniform statistical plan and classification system; or [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. The proposed subclassification:

(1) Is not reasonably related to the exposure to claim;

(2) Is not adequately defined;

(3) Has not been shown to distinguish among insureds based on the potential for or hazard of loss; or

(4) Is or will be unfairly discriminatory. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Designation of advisory organization. The superintendent shall designate an advisory organization to assist the superintendent in gathering, compiling and reporting relevant statistical information. Every workers' compensation insurer shall record and report its workers' compensation experience to the designated advisory organization as set forth in the uniform statistical plan approved by the superintendent.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Filing of manual rules. The designated advisory organization shall develop and file manual rules, subject to the approval of the superintendent, reasonably related to the recording and reporting of data pursuant to the uniform statistical plan, uniform experience rating plan, and the uniform classification system. Every workers' compensation insurer shall adhere to the approved manual rules and experience rating plan in writing and reporting its business. An insurer may not agree with any other insurer or with an advisory organization to adhere to manual rules that are not reasonably related to the recording and reporting of data pursuant to the uniform classification system or the uniform statistical plan.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Advisory organization membership. Each workers' compensation insurer shall be a member or subscriber of the workers' compensation advisory organization designated by the superintendent.

§2382-C. Filing of rates and other rating information; filing of forms

1. Prefiling required. Every insurer shall file with the superintendent all rates and supplementary rate information to be used in the State, except as filed by an advisory organization as provided in section 2384-A. Such rates and supplementary rate information must be filed at least 30 days prior to the stated effective date. An insurer may adopt by reference, with or without deviation, the rates and supplementary rate information filed by another insurer. Upon application by the filer, the superintendent may authorize an earlier effective date.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Form and manner of filing. Rates filed pursuant to this section must be filed in a form prescribed by the superintendent. If a filing is not accompanied by the information the superintendent has required under this section, the superintendent shall notify the insurer as soon as possible and the filing is deemed as not made until the information is provided. A filing required under this section must be made electronically in a format required by the superintendent unless exempted by rule adopted by the superintendent. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2009, c. 14, §2 (AMD).]

3. Public records. All rates, supplementary rate information and any supporting information for risks filed under this Act are, as soon as filed, public records within the meaning of Title 1, chapter 13.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Additional period. The period during which the filing may not become effective may be extended by the superintendent for an additional period not to exceed 60 days if the superintendent gives written notice to the insurer or advisory organization that made the filing that the superintendent needs additional time for consideration of the filing.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

5. Advisory organization. Subject to the provisions of this Act, the designated workers' compensation and advisory organization shall file with the superintendent:

C. The uniform experience rating plans and rules; [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

D. The uniform classification plan and rules; [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

E. A uniform statistical plan and rules; and [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

6. Approved forms. Every insurance company issuing workers' compensation insurance policies covering the payment of compensation and benefits shall use only policy forms filed and approved pursuant to section 2412. Filings required by that section may be made on behalf of members and subscribers by an approved advisory organization.

C. Sufficient premium differentials to encourage safety; and [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

D. Provisions for reasonable and equitable limitations on the ability of policyholders to avoid the impact of past adverse claims experience through change of ownership, control, management or operation. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Experience rating. The uniform experience rating plan must be the exclusive means for providing premium adjustments based on the past claim experience of an insured employer. The experience rating plan must provide that the claims experience for the 3 most recent years for which data is available be considered on the following bases.

A. The claims and exposure for the most recent year for which data is available must be given 40% weight. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. The claims and exposure for the 2nd most recent year for which data is available must be given 35% weight. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

C. The claims and exposure for the 3rd most recent year for which data is available must be given 25% weight. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

If data is available for only 2 years of experience, the weighting must be 60% for the most recent year and 40% for the 2nd most recent year.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Merit rating. If an insured is not eligible for the experience rating plan, a merit rating plan must be applied using the following guidelines.

A. A plan must provide for the following credits or debits to be applied to the otherwise applicable manual premium, based on the number of lost-time claims of the insured during the most recent 3-year period for which statistics are available:

(1) No claims or a loss ratio of less than 1.0, an 8% credit;

(2) One claim resulting in a loss ratio greater than 1.0, no credit or debit; and

(3) Two or more claims resulting in a loss ratio greater than 1.0, an 8% debit. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. The insurer shall notify the insured of the premium adjustment and the reason for the adjustment. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Prior lost-time work-related injury. The experience rating or merit rating plan may not permit, in the calculation of experience modification factors, consideration of those lost-time claims attributable to work-related injuries that are aggravations of, or combine with, any prior lost-time work-

related injury to produce incapacity. The superintendent shall adopt rules to protect employers from the impact of these subsequent injury claims and to equitably compensate insurers that provide coverage to these employers.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

5. Retrospective rating. Nothing in this section prevents an insurer or an advisory organization from filing rating plans that provide for retrospective premium adjustments based on the insured's experience during the policy period. Except as provided in section 2386, subsection 8, in the voluntary market and the residual market retrospective rating plans must be voluntary and may not be used without the prior consent of the insured.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

6. Dividend plan. Nothing in this section prohibits an insurer from developing and operating a dividend plan based on the loss experience of the insured.

§2382-E. Disapproval of rates

1. Timing of disapproval. A rate that is found not to be in compliance with applicable sections of this Act may be disapproved at any time.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Basis of disapproval. The superintendent may disapprove a rate if the insurer fails to comply with the filing requirements under section 2382-C.

The superintendent shall disapprove a rate for the voluntary market if there is a finding that the rate is inadequate or unfairly discriminatory using the standards in section 2382.

The superintendent shall disapprove a rate for use in the residual market if there is a finding that the rate is excessive, inadequate or unfairly discriminatory, using the standards in section 2382.

The superintendent may disapprove, pursuant to this subsection, without hearing, rates that have not become effective. An insurer whose rates have been disapproved must be notified of the reason for disapproval and must be given a hearing upon a written request made within 30 days after the disapproval order.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Discontinuance of a rate; interim rates. Discontinuance of a rate and interim rates are subject to the following.

A. If the superintendent finds that a rate is not in compliance with the standards of section 2382 or is in violation of section 2382-C, the superintendent shall order that its use be discontinued for any policy issued or renewed after the date of the order, and the order may prospectively provide for premium adjustment of any policy then in force. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. Whenever an insurer has no legally effective rates as a result of the superintendent's disapproval of rates or other act, the superintendent shall, on request of the insurer, specify interim rates for the insurer that are adequate to protect the interests of all parties and may order that a specified portion of the premiums be placed in a special reserve established by the insurer and approved by the superintendent. When new rates become legally effective, the superintendent shall order the specially reserved funds or any overcharge in the interim rates to be distributed appropriately, except that adjustments that are minimal may not be required. §2383. Interchange of data

1. Exchange of information. To further uniform administration of rate regulatory laws, the superintendent, insurers and the designated advisory organization may exchange information and experience data with insurance regulatory officials, insurers and advisory organizations in other states and may consult with them with respect to the rating plans permitted by this Act. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Cooperation. Cooperation among advisory organizations or among advisory organizations and insurers in rating plans and other matters within the scope of this Act is authorized, but any filings resulting from such cooperation are subject to all provisions of this Act. The superintendent may review any such cooperative activities and practices and if, after hearing, any such activity or practice is found to violate the provisions of this Act, the superintendent may issue an order requiring the discontinuance of the activity or practice and may take any other action as permitted by law. D. Tests relating to market structure, market performance and market conduct. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

§2384-A. Advisory organization filing requirements

1. Filing. Every advisory organization shall file with the superintendent every pure premium, manual of rating rules, rating schedule and change, amendment or modification of the foregoing proposed for use in the State at least 30 days prior to the proposed effective date.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Effective date. The superintendent may extend the proposed effective date for an additional period not to exceed 60 days if the superintendent gives written notice to the advisory organization that made the filing that the superintendent needs additional time for consideration of the filing. The superintendent may require any additional information necessary to evaluate the filing.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Disapproval. The superintendent may disapprove, without hearing, an advisory organization filing that has not become effective if the pure premiums are excessive, inadequate or unfairly discriminatory or if the rating rules or rating procedure would produce premiums that are excessive, inadequate or unfairly discriminatory. §2384-B. Statistical recording and reporting

1. Collection and reporting system. The statistical advisory organization designated pursuant to section 2382-B, subsection 2 shall develop and file with the superintendent a plan that includes a comprehensive data collection and reporting system for insurers. The purpose of the system is to permit the superintendent, in a timely manner, to analyze insurance rates and claims practices of insurers.

[PL 2011, c. 83, §1 (AMD).]

2. Data collected. The data collection and reporting system must contain, at a minimum, the following:

A. Basic information on each claim, including:

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Special data calls. The superintendent may, with prior notice, require the insurer and self-insurer statistical advisory organizations to conduct special data calls to collect information usable to evaluate the costs or operations of the workers' compensation system. Any special data call imposed by the superintendent under this provision must give due consideration to the information collected and

maintained by insurers and self-insurers. Requests for information not being collected on the effective date of this subsection must be prospective.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Other data collection systems. The statistical advisory organization may rely on data collected and reported by other data gathering organizations or agencies, such as the Workers' Compensation Board or the Department of Labor. If the statistical advisory organization is to incorporate data from other sources, it must satisfy itself that the data is sufficiently complete and accurate for the purposes for which it is to be used. The Workers' Compensation Board and the Department of Labor shall assist the statistical advisory organization in the development and maintenance of a comprehensive data base by recording and making available information within the custody and control of each, respectively, pursuant to the request of the statistical advisory organization.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

5. Noncompliance penalties. The statistical advisory organization must include as part of its plan a means of monitoring member or subscriber compliance with the reporting requirements and must include a schedule of monetary penalties for failure to comply with reporting requirements.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

6. Reports. The superintendent shall prescribe the frequency of and schedule for reports by the statistical advisory organization. Reports must be required on at least an annual basis.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

7. Rules. The superintendent shall have the authority to adopt reasonable rules with respect to the recording and reporting of claim information, including the recording and reporting of expense or experience items that are not specifically applicable to the State but require an allocation of experience or expenses to the State.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

8. Confidentiality. Any report of information relating to a particular claim is confidential and may not be revealed by the superintendent, except that the superintendent may make compilations including this experience. Any information provided to the superintendent regarding self-insurance is confidential to the extent protected by Title 39-A, section 403.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

9. Accuracy. The statistical advisory organization shall take all reasonable steps to ensure the accuracy of the information provided to it and reported by it.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

The superintendent may suspend the reporting requirements of specific items for periods when information that is to be obtained from the Workers' Compensation Board is temporarily unavailable.

§2384-C. Data collection

1. Collection and reporting system. The superintendent shall adopt rules implementing a data collection system for the purpose of evaluating the costs and operation of the workers' compensation benefit delivery process. The rules must establish reasonable sampling procedures to identify and track

a sufficient number of claims to provide reliable information in a cost-effective manner. The superintendent shall, by rule, establish a cost-effective procedure to designate organizations to collect and compile data for insurers, except that an insurer able to demonstrate its ability to collect, compile and report data on its own claims is permitted to act as its own statistical organization for the purposes of this section. In this section, "statistical organization" includes an insurer acting as its own statistical organization.

[PL 2011, c. 83, §2 (AMD).]

2. Data collected. The data collection and reporting system must contain, at a minimum, the following:

A. Basic information on each surveyed claim, including:

- (1) The name and identification information of the employee, employer and insurer or self-insurer; and
- (2) The file identification number or numbers, insurance policy number and classification claim history; [PL 1993, c. 610, §2 (NEW).]

B. Claim history information on each claim surveyed, including:

- (1) The date of injury or exposures to disease, type of injury or exposure disclosure and affected body part;
- (2) The preinjury wage history, date of initial payment and whether claim is controverted; and
- (3) Identification of claim status, whether open, closed or reopened; [PL 1993, c. 610, §2 (NEW).]

C. Information concerning Workers' Compensation Board proceedings, including:

- (1) For each mediation and arbitration, the date, hearing officer, mediator or arbitrator for the proceeding and the resolution; and
- (2) For each hearing, the date, hearing officer and the decision of the hearing officer. If a disputed claim results in multiple hearing dates, the decision must be reported for the last hearing date; and [PL 1993, c. 610, §2 (NEW).]

D. Payment information on each claim, identified as open or closed, including:

- (1) Aggregate payments to date to physicians, hospitals or other medical providers;
- (2) Payments made to date for weekly compensation, impairment benefits, death benefits and funeral expenses, employee legal expenses, employer legal expenses, lump sums and vocational rehabilitation services;
- (3) With respect to all claims, separately stated incurred liability for medical care, indemnity and vocational rehabilitation; and
- (4) Identification as to whether there are benefit offsets for social security, unemployment insurance, employer-provided pensions or any other sources. [PL 1993, c. 610, §2 (NEW).]

[PL 1993, c. 610, §2 (NEW).]

3. Special data calls. The superintendent may, with prior notice, require the insurer and self-insurer statistical organizations to conduct special data calls or studies to collect information to evaluate the costs or operations of the workers' compensation system and to evaluate medical injury or disease outcomes of compensable claims. In any special data call imposed by the superintendent under this subsection, consideration must be given to the information collected and maintained by insurers and self-insurers. Requests for information not being collected on the effective date of this subsection must be prospective.

[PL 1993, c. 610, §2 (NEW).]

4. Other data collection systems. The statistical organizations may rely on data collected and reported by other data-gathering organizations or agencies, such as the Workers' Compensation Board or the Department of Labor, and shall coordinate with any other statutorily created medical data collection systems. If a statistical organization is to incorporate data from other sources, it must satisfy itself that the data is sufficiently complete and accurate for the purpose for which it is to be used. The Workers' Compensation Board and the Department of Labor shall assist the statistical organizations in the development and maintenance of a comprehensive data base by recording and making available information within the custody and control of each, respectively, pursuant to the request of the statistical organization. The superintendent may suspend the reporting requirements of specific items for periods when information that is to be obtained from the Workers' Compensation Board is temporarily unavailable or information is found to be unreliable and the unreliability is not a result of the reporting practices of the carriers or self-insurers. The superintendent may accept an established data collection mechanism that is substantially in compliance with the data elements specified in this section and otherwise meets the requirements of this section.

[PL 1993, c. 610, §2 (NEW).]

5. Noncompliance penalties. A statistical organization must include as part of its plan a means of monitoring member or subscriber compliance with the reporting requirements and must include a schedule of monetary penalties for failure to comply with reporting requirements. The statistical agent and companies are responsible for the accuracy of the data maintained and reported to the superintendent in the data base.

[PL 1993, c. 610, §2 (NEW).]

6. Reports. The superintendent shall prescribe the frequency of and schedule for reports by the statistical organization. Reports must be required on at least an annual basis.

[PL 1993, c. 610, §2 (NEW).]

7. Confidentiality. Any report of information relating to a particular claim is confidential and may not be revealed by the superintendent, except that the superintendent may make compilations including this information. Any information provided to the superintendent regarding self-insurance is confidential to the extent protected by Title 39-A, section 403.

[PL 1993, c. 610, §2 (NEW).]

8. Accuracy. The statistical organization shall take all reasonable steps to ensure the accuracy of the information provided to it and reported by it.

[PL 1993, c. 610, §2 (NEW).]

9. Retention of records. Each insurer or self-insurer shall retain its workers' compensation medical claim records for a period not less than 3 years from the date of injury or reported illness. Records may be retained through original source documents or electronic file storage.

[PL 1993, c. 610, §2 (NEW).]

10. Application. This section applies to all claims occurring on or after January 1, 1993.

2. Indemnity. Deductibles must be available for indemnity benefits in amounts of \$1,000 and \$5,000 per claim and in other reasonable amounts as may be approved by the superintendent. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Reimbursement. The deductible form must provide that the claim must be paid by the applicable insurer, which must then be reimbursed by the employer for any deductible amounts paid by the carrier. The employer is liable for reimbursement up to the limit of the deductible. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Deductible not required. An insurer is not required to offer a deductible to an employer if, as a result of a credit investigation, the insurer determines that the employee is not sufficiently financially stable to be responsible for the payment of deductible amounts. §2385-B. Disclosure of premium information

All policies issued to employers for workers' compensation insurance must disclose clearly to the employer as separate figures the base rate and the employer's experience modification factor. [PL 2001, c. 176, §1 (AMD).]

Upon request from an employer, when a policy is issued to an employer for workers' compensation insurance, it must be accompanied by a statement disclosing the percentages of premium expended during the previous year by the insurer for claims paid, loss control and other administrative costs, medical provider expenses, insurer and employee attorney's fees and private investigation costs. §2385-C. Workplace health and safety consultations

Workplace health and safety consultation services provided by workers' compensation insurance carriers to employers with an experience rating factor of one or more are subject to the following. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Workplace health and safety consultations" means a service provided to an employer to advise and assist the employer in the identification, evaluation and control of existing and potential accident and occupational health problems. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]
[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Standards for workplace health and safety consultations. The superintendent, in consultation with the Department of Labor, may adopt rules establishing the standards for approval of workplace health and safety consultations provided to employers by insurance carriers, including provision of adequate facilities, qualifications of persons providing the consultations, specialized techniques and professional services to be used and educational services to be offered to employers. [PL 1997, c. 592, §67 (AMD).]

3. Required coverage and premium. All insurance carriers writing workers' compensation coverage in the State shall offer workplace health and safety consultations to each employer as part of the workers' compensation insurance policy. [PL 1997, c. 592, §67 (AMD).]

4. Optional purchase from another provider. An employer may elect to purchase workplace health and safety consultation services from a provider other than the insurer. [PL 1997, c. 592, §67 (AMD).]

5. Notification to employer; request for consultation services. An insurance carrier writing workers' compensation insurance coverage shall notify each employer of the type of workplace health and safety consultation services available and the address or location where these services may be requested. The insurer shall respond within 30 days of receipt of a request for workplace health and safety consultation services. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

6. Reports to employers. In any workplace health and safety consultation that includes an on-site visit, the insurer shall submit a report to the employer describing the purpose of the visit, a summary of the findings of the on-site visit and evaluation and the recommendations developed as a result of the evaluation. The insurer shall maintain for a period of 3 years a record of all requests for workplace health and safety consultations and a copy of the insurer's report to the employer. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

7. Safe workplace responsibility. Workplace health and safety consultations provided by an insurer do not diminish or replace an employer's responsibility to provide a safe workplace. An insurance carrier or its agents or employees do not incur any liability for illness or injuries that result from any consultation or recommendation. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

§2385-D. Safety groups

A safety group is an insured plan that provides for an alternative source of insurance for members of an organization or association. An insurer may issue a workers' compensation and employers' liability policy or policies insuring a safety group if the following requirements are met. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

1. Filings. The organization or association shall file with the superintendent:

A. A copy of its articles of incorporation and bylaws or its agreement of association and rules governing the conduct of its business, all certified by the custodian of the originals; [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. An agreement that only a member of the organization or association is eligible for insurance as a member of the group and that it will notify its insurers within 10 days if any member fails to remain a member in good standing in accordance with the standards and rules of the organization or association; [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

C. A description of the operation and makeup of a safety committee which, by means of education and otherwise, will seek to reduce the incidence and severity of accidents or claims; and [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

D. An agreement, if the policy is a group policy, duly executed, guaranteeing that, if the insurer notifies the safety group of the nonpayment of a premium by an insured member within 60 days after the premium was due, the safety group will pay to the insurer the amount of any past due premium that does not exceed the amount of the dividends that are due the safety group or its members from the insurer. The safety group shall promptly notify the insurer of the known insolvency of any member of the group and shall request, upon learning of the insolvency, the removal of the member from the group. A copy of the resolution of the governing superintendent of the group authorizing the execution of the guarantee agreement must be filed with the superintendent and with the insurer issuing the group policy. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

3. Management. The safety group shall designate a person to act as the manager or authorized representative of the group. The manager or representative may be remunerated by the members for expenses, including all ordinary operating expenses of the group, but the amount charged to members may not exceed 10% of earned premiums.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Dividends. Dividends or returned premiums paid or credited to a safety group must be paid or credited to the individual members of the group, except that the indebtedness for any unpaid premium must be first deducted from any dividend or premium returned.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

5. Other requirements. Any safety group formed or operating under this section is subject to the requirements of sections 2931 to 2940, except that the safety group or the insurer may establish reasonable underwriting standards regarding eligibility for acceptance and continued membership of the safety group. These underwriting standards must be filed with the superintendent and may be disapproved by the superintendent if they unreasonably limit membership in the safety group.

A corporation, partnership, sole proprietorship or other business entity that provides staff, personnel or employees to be employed in the State to other businesses pursuant to a lease arrangement or agreement must, before becoming eligible to be issued a policy of workers' compensation insurance, register with the superintendent pursuant to Title 32, chapter 125. Employee leasing companies are

subject to rules applicable to workers' compensation insurance as adopted by the superintendent and to penalties as defined in Title 32, section 14058. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

§2385-F. Coverage denial

Workers' compensation coverage may not be issued to an employer or continued if it has been issued until the employer pays any undisputed premiums or assessments to a previous workers' compensation insurer, including a domestic mutual insurer established pursuant to section 3703, a group self-insurer approved pursuant to Title 39-A, section 403, subsection 4, or the workers' compensation residual market mechanism. If a premium or assessment is subject to a good faith dispute at the time of termination of a policy or if such a dispute becomes known as a result of a post-termination audit review or other reason after replacement coverage has been issued and if the premium or assessment remains unpaid upon resolution of the dispute by the bureau, this replacement coverage must be cancelled. [PL 1999, c. 121, §1 (AMD).]

SECTION HISTORY

PL 1995, c. 398, §1 (NEW). PL 1999, c. 121, §1 (AMD).

§2386. Workers' compensation insurance residual market mechanism

1. Participation. All insurers authorized to write workers' compensation and employers' liability insurance in this State shall participate in the workers' compensation insurance residual market mechanism, which is composed of an Accident Prevention Account and a Safety Pool. The residual market mechanism is not a state fund and the State has no proprietary interest in it or in any contributions made to it. This mechanism is exempt from any budgetary control or supervision by state agencies, except to the extent an insurance company is supervised or controlled by state agencies. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

2. Rules.

[PL 1995, c. 289, §7 (RP).]

3. Accident Prevention Account; eligibility. Eligibility for insurance from the Accident Prevention Account is as follows.

A. The Accident Prevention Account is an insurance plan that provides for the equitable apportionment among insurers of insurance that may be afforded applicants who are entitled to, but unable to, procure that insurance through ordinary methods because of their demonstrated accident frequency problem, measurably adverse loss ratio over a period of years or demonstrated attitude of noncompliance with safety requirements. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. An employer is eligible for insurance from the Accident Prevention Account if:

(1) The employer has at least 2 lost-time claims over \$10,000 and a loss ratio greater than 1.0 over the last 3 years for which data is available; and

(2) The employer has attempted to obtain insurance in the voluntary market and has been refused by at least 2 insurers that write that insurance in the State. For the purpose of this section, an employer is considered to have been refused if offered insurance only under a retrospective rating plan or plans. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

4. Safety Pool; eligibility. Eligibility under the Safety Pool is as follows.

A. The Safety Pool is an insurance plan that provides for an alternative source of insurance for employers with good safety records. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. An employer is eligible for the Safety Pool if that employer:

- (1) Has had no more than one lost-time claim in the last 3 years for which data is available, regardless of the resulting loss ratio;
- (2) Has a loss ratio that does not exceed 1.0 or has had no more than one lost-time claim over \$10,000 over the last 3 years for which data is available; or
- (3) Has been in business for less than 3 years, provided that the eligibility terminates if the employer's loss ratio exceeds 1.0 and the employer has at least 2 lost-time claims over \$10,000 each at the end of any year. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

C. A member of the Safety Pool who fails to meet eligibility requirements under paragraph B must be ordered to leave the Safety Pool after notice under former Title 39, section 23, subsection 1. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]
[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

5. Plan of operation. The superintendent shall adopt rules pursuant to Title 5, chapter 375, subchapter II, establishing a plan of operation for the residual market mechanism.

A. The plan must include an experience rating system and merit rating plan providing that the premium of each employer in the account is modified either prospectively or retrospectively. An experience modification may only be applied to the manual rate of the plan. The sensitivity of a rating system may vary by size of the risk involved. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. The plan must include a procedure to handle appeals filed pursuant to former Title 39, section 106, subsection 2, paragraph B. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

C. The plan must provide for premium surcharges for employers in the Accident Prevention Account based on their specific loss experience within a specified period or other factors that are reasonably related to their risk of loss.

(1) No premium surcharge may be applied to a risk whose threshold loss ratio is less than 1.0. The threshold loss ratio is based on the ratio of "L" to "P" where:

(a) "L" is the actual incurred losses of a risk during the previous 3-year experience period as reported, except that the largest single loss during the 3-year period is limited to the amount of premium charged for the year in which the loss occurred; and

(b) "P" is the premium charged to a risk during that 3-year period.

(2) Premium surcharges apply to a premium that is experience or merit rating modified.

(3) Premium surcharges are based on an insured's adverse deviation from expected incurred losses in the State. The surcharge is based on the ratio of "A" to "B" where:

(a) "A" is the actual incurred losses of a risk during the previous 3-year experience period as reported; and

(b) "B" is the expected incurred losses of a risk during that period as calculated under the uniform experience or merit rating plan multiplied by the risk's current experience or merit rating modification factor.

(4) The premium surcharge is as follows:

| Ratio of "A" to "B" | Surcharge |
|-------------------------------------|-----------|
| Less than 1.20 | None |
| 1.20 or greater, but less than 1.30 | 5% |
| 1.30 or greater, but less than 1.40 | 10% |
| 1.40 or greater, but less than 1.50 | 15% |
| 1.50 or greater | 20% |

D. Commissions under a plan must be established at a level that is neither an incentive nor a disincentive to place an employer in the residual market. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

E. In addition to factors in paragraphs A to C, any servicing contract must be approved on the basis of acceptable price and performance. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

F. If after notice and hearing the superintendent determines that insurers are unwilling to provide services that are reasonably necessary for the operation of the plan, the superintendent may award service contracts within various areas of the State on the basis of acceptable price and performance. If the superintendent chooses to award such contracts, the specifications must give special consideration to loss control, safety engineering and any other factor that affects safety. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

G. Beginning July 1, 1993, the plan must provide for a board of governors, which shall control the affairs and business of the residual market mechanism. The board of governors must be composed of 9 members, 5 of whom represent the business community of the State and 4 of whom represent insurers that are members of the residual market mechanism. The superintendent shall adopt rules to carry out the purposes of this paragraph.

(1) The representatives of insurers on the board of governors are elected by the membership at the annual meeting of the residual market mechanism for staggered terms of 3 years, with the first appointments of one member for one year, one member for 2 years and 2 members for 3 years. An insurer or a group of insurers under common ownership, management or control may not be represented by more than one person on the board of governors. [PL 1995, c. 289, §8 (AMD).]

[PL 1995, c. 289, §8 (AMD).]

5-A. Immunity. A member of the board of governors of the workers' compensation residual market pool created by Maine Insurance Rule Chapter 440 is immune from liability except for willful misconduct by the board member in the performance of the duties of a board member.

[PL 1993, c. 364, §2 (NEW).]

6. Rates. Rate filings for rates in the Accident Prevention Account and the Safety Pool must be made together and are subject to former section 2363.

A. A rate filing for the residual market must include experience and merit rating plans. The experience rating plan is the uniform experience rating plan. The merit plan must provide the maximum credits possible to Safety Pool members on the basis of individual loss experience, including frequency and severity, consistent with this chapter and sound actuarial principles. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. The superintendent shall review the rates, rating plans and rules, including rates for individual classifications and subclassifications, in the Accident Prevention Account and the Safety Pool at least once every 2 years and may review rates more frequently if necessary. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

C. In a residual market rate proceeding, the superintendent may order payment of dividends to insureds in the Safety Pool to the extent that the pool's experience supports them. The superintendent may adopt rules establishing a dividend plan for the Safety Pool to provide an incentive for implementation of safety programs by insureds in the pool. The superintendent may employ outside consultants to assist in the development of these rules, the costs of which must be paid by the Safety Education and Training Fund established under Title 26, section 61 to the extent that funds are available. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

7. Mandatory deductible. A deductible applies to all workers' compensation insurance policies issued to employers in the Accident Prevention Account that meet the following qualifications:

A. A net annual premium of \$20,000 or more subject to adjustment pursuant to this section in the State; [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. A premium not subject to retrospective rating; and [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

C. The employer's threshold loss ratio, as determined under subsection 4, paragraph B, subparagraph (1), is 1.0 or greater. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

The deductible is \$1,000 per claim but applies only to wage loss benefits paid on injuries occurring during the policy year. The sum of all deductibles in one policy year may not exceed the lesser of 15% of net annual premium or \$25,000. Each loss to which a deductible applies must be paid in full by the insurer. After the policy year has expired, the employer shall reimburse the insurer the amount of the deductibles. This reimbursement must be considered as premium for purposes of cancellation or nonrenewal.

For purposes of calculations required under this section, losses must be evaluated 60 days from the close of the policy year.

Annually, on July 1st, the superintendent shall, by rule, adjust the \$20,000 premium level established in this subsection to reflect any change in rates for the Accident Prevention Account and any change in wage levels in the preceding calendar year. Changes in wage levels are determined by reference to changes in the state average weekly wage, as computed by the Department of Labor. Any adjustment is rounded off to the nearest \$1,000 increment.

This subsection takes effect on the effective date of the first approved rate filing after the effective date of this Act.

[PL 1995, c. 560, Pt. G, §8 (AMD).]

8. Mandatory retrospective rating. The superintendent may impose retrospective rating plans under the following circumstances:

A. The superintendent shall by rule establish standards governing the application of retrospective rating plans under which the superintendent may order, after hearing, a retrospective rating plan for an employer in the Accident Prevention Account who has sufficient size in terms of premium and number of employees to warrant such rating and:

(1) For the 3 most recent years for which data is available, an experience modification factor and a loss ratio that may indicate a serious problem of workplace safety; or

(2) A demonstrated record of repeated serious violations of workplace health and safety regulations adopted under the Maine Revised Statutes, Title 26, chapter 6, or 29 United States Code, Chapter 15, whichever is applicable. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

B. The maximum premium, including any applicable surcharge under this section, may not exceed 150% of standard premium. [PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

9. Credits for qualifying safety programs. The superintendent shall adopt rules to establish dividend plans and premium credits between 5% and 15% of net annual premiums for policyholders that establish or maintain qualifying safety programs. The rules must identify the classifications by which policyholders are eligible for the credits and establish criteria for qualifying safety programs and procedures to be followed by servicing carriers in approving and auditing compliance with the safety programs. The superintendent may employ outside consultants to assist in the development of rules under this subsection, the costs of which must be paid by the Safety Education and Training Fund established under Title 26, section 61 to the extent that funds are available.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

10. Contracts; consultants.

[PL 1995, c. 289, §9 (RP).]

11. Report.

[PL 1995, c. 289, §9 (RP).]

12. Rules.

[PL 1995, c. 289, §9 (RP).]

13. Producer fees. The servicing carrier in the residual market shall pay a fee to the producer designated by the employer on renewed policies upon payment of premium due. The fee must be 4% of the first \$5,000 of renewal premium and 2.5% of renewal premium in excess of \$5,000. The fee must be based on the state standard premium.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

14. Termination of residual market mechanism. Workers' compensation and employers liability insurance coverage may not be issued through the workers' compensation insurance residual market mechanism on or after January 1, 1993.

[PL 1991, c. 885, Pt. B, §12 (NEW); PL 1991, c. 885, Pt. B, §13 (AFF).]

For retrospectively rated and large deductible policies, the insurer shall calculate a discounted standard premium amount utilizing estimated payrolls at policy inception, subject to the final determination upon audit, applying the insurer's manual rates, the insured's experience modification factor, any premium discount, expense constant and other debits or credits to a lawfully received premium. When calculating the discounted standard premium for policies with large deductibles, the maximum credit for the deductible option may not be greater than the amount approved by the superintendent in the most recent advisory loss cost filing for a \$5,000 indemnity deductible. §2393. Initial funding of pool

1. Payments by insurers. Insurers shall pay to the pool on or before January 1, 1996 the amount of \$65,000,000, as follows.

A. Major insurers shall pay to the pool 90% of the \$65,000,000 payment, which is \$58,500,000. Each major insurer shall pay to the pool that major insurer's allocated share of the payment required by this paragraph as determined in accordance with the following:

(1) If the major insurer's percentage of the total net direct written premium in the voluntary workers' compensation market in the State for the calendar years 1989 and 1990 was less than 3.4% according to data compiled by the National Council on Compensation Insurance, then the major insurer must pay to the pool \$4,906,000;

(2) If the major insurer's percentage of the total net direct written premium in the voluntary workers' compensation market in the State for the calendar years 1989 and 1990 was equal to or greater than 3.4%, according to data compiled by the National Council on Compensation Insurance, then the major insurer must pay \$4,906,000 less one of the following credits:

(a) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 25% for each of the calendar years 1989 and 1990, then \$1,811,000;

(b) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 10% for each of the calendar years 1989 and 1990, then \$1,772,000;

(c) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 10% for either calendar year 1989 or 1990, then \$807,000;

(d) If the major insurer's percentage of total net direct written premium in the voluntary market exceeded 7.5% for each of the calendar years 1989 and 1990, then \$596,000; or

(e) For any other major insurer that qualifies for credit under this subparagraph, \$289,000;

(3) One or more major insurers may agree in writing to pay more or less than the amount of their allocated share under subparagraph (1) or (2); except that:

(a) A major insurer may not pay less than the allocated share under subparagraph (1) or (2), unless the written agreement is executed by all major insurers that have timely paid or agreed in writing to timely pay in full at least their allocated share;

(b) The total amount of timely payments to the pool by major insurers is equal to or greater than \$58,500,000;

(c) The pool is made a 3rd-party beneficiary to a written agreement among certain major insurers that provides for:

(i) Timely payments to the pool by major insurers that are equal to \$58,500,000; and

(ii) An express right of the pool to enforce the payments required by that agreement; and

(d) Timely payment of any share agreed upon in writing pursuant to this subparagraph in an amount less than the allocated share under subparagraph (1) or (2) constitutes timely payment in full of an allocated share for purposes only of subsection 1, paragraph C or section 2396, subsection 1.

(4) If the total amount paid according to the requirements of subparagraphs (1), (2) and (3) exceeds \$58,500,000, the pool must disburse within 30 days the excess amount by refunding to each major insurer that has timely paid in full at least its allocated share under subparagraph

- (1) or (2) in direct proportion to the amount that each major insurer paid to the pool as part of the total major insurers' payment required by this paragraph. [PL 1995, c. 289, §11 (NEW).]
- B. Minor insurers shall pay to the pool 10% of the \$65,000,000 payment, which is \$6,500,000. Each minor insurer shall pay to the pool an allocated share of the payment required by this paragraph as determined in accordance with the following.
- (1) Except as provided in subparagraph (2), an allocated share equal to the sum of the amounts described in divisions (a) to (c) must be paid to the pool.
- (a) Minor insurers authorized to provide workers' compensation insurance in the State at any time during 1989 pay 59% of the \$6,500,000 payment, with each minor insurer paying a per capita share.
- (b) Minor insurers authorized to provide workers' compensation insurance in the State at any time during 1990 pay 38% of the \$6,500,000 payment, with each minor insurer paying a per capita share.
- (c) Minor insurers authorized to provide workers' compensation insurance in the State at any time during 1991 pay 3% of the \$6,500,000 payment, with each minor insurer paying a per capita share.
- (2) A minor insurer that qualifies for a partial exemption under this subparagraph shall pay to the pool the greater of \$10,000 or 2% of the minor insurer's average annual after-tax adjusted earnings for the 3 calendar years immediately prior to enactment of this chapter as reported in the minor insurer's annual statement filed with the superintendent. A minor insurer qualifies for a partial exemption from the per capita share payment required by this paragraph if, for the 3 calendar years immediately prior to enactment of this chapter, as reported in the minor insurer's annual statement filed with the superintendent, the minor insurer's:
- (a) Average annual after-tax adjusted earnings were less than \$2,000,000; and
- (b) Surplus as to policyholders did not exceed \$12,500,000.
- (3) A minor insurer that has not received a partial exemption under subparagraph (2) is entitled to participation credits determined as follows.
- (a) For any policy year beginning on or after January 1, 1989, the share for each minor insurer authorized to write workers' compensation insurance in the year to which the calculation in this division pertains is reduced by .05% for each .10% that its participation ratio for the year to which the assessment relates exceeds its participation ratio for the base period as calculated by dividing the minor insurer's net direct written premium for the base period by the total minor insurer's net direct written premium for the base period. For purposes of this division, "base period" means the calendar years 1983 to 1986. The participation ratio for the year to which the assessment relates is calculated by dividing the minor insurer's net direct written premium in that calendar year by the total net direct written premium of minor insurers that were authorized at any time during that year;
- (b) Credits earned by a minor insurer may not result in a minor insurer's participation ratio being adjusted to less than 1/2 of its otherwise allocated share;
- (c) For a minor insurer not authorized to write workers' compensation insurance in 1986, its adjusted participation ratio is 1/2 of its participation ratio in the year to which the calculation applies;
- (d) Any deficiency must be distributed among all minor insurers in proportion to the adjusted participation ratio, after credit adjustments; and

(e) For purposes of this subparagraph, "adjusted participation ratio" means a minor insurer's participation ratio as calculated in accordance with this subparagraph and after application of any credits. For purposes of this subparagraph, net direct written premium does not include premiums for residual market risks reinsured by the pool or retrospective rating plan adjustments on policies effective prior to January 1, 1988.

(4) The total amount of the differences between the following must be paid by those minor insurers that actually paid their allocated share as of January 1, 1996 by allocating the difference to those minor insurers in the same proportion as each such minor insurer's payment bears to the total aggregate amount actually paid by minor insurers as of January 1, 1996:

- (a) The otherwise allocated share payments under subparagraph (1); and
- (b) The payments made by minor insurers that qualify for a partial exemption as provided in subparagraph (2) and any participation credits under subparagraph (3).

(5) In the event a minor insurer for any reason fails to pay its allocated share, as described in this paragraph, by January 1, 1996, then the pool may charge the deficiency resulting from those uncollected amounts to all minor insurers that actually pay their allocated share as of January 1, 1996 by allocating that deficiency to those minor insurers in the same proportion as each such minor insurer's payment bears to the total aggregate amount actually paid by minor insurers as of January 1, 1996. Those minor insurers are subrogated to the pool's right to collect such amounts from the delinquent minor insurer.

(6) One or more minor insurers may agree in writing to pay more or less than the amount of their allocated share under subparagraphs (1) to (4), except that:

- (a) A minor insurer may not pay less than the allocated shares under subparagraphs (1) to (4) unless the written agreement is executed by all minor insurers that have timely paid or agreed in writing to timely pay in full at least their allocated share;
- (b) The total amount of timely payments to the pool by minor insurers is equal to or greater than \$6,500,000;
- (c) The pool is made a 3rd-party beneficiary to a written agreement among certain minor insurers that provides for:
 - (i) Timely payments to the pool by minor insurers that are equal to \$6,500,000; and
 - (ii) An express right of the pool to enforce the payments required by that agreement; and

(d) Timely payment of any share agreed upon in writing pursuant to this subparagraph in an amount less than the allocated share under subparagraphs (1) to (4) constitutes timely payment in full of an allocated share for purposes only of subsection 1, paragraph C or section 2396, subsection 1.

(7) If the total amount paid according to the requirements of subparagraphs (1) to (6) exceeds \$6,500,000, the pool must disburse within 30 days the excess amount by refunding to each minor insurer that has timely paid in full at least its allocated share under subparagraphs (1) to (4) in direct proportion to the amount that each minor insurer paid to the pool as part of the total minor insurers' payment required by this paragraph. [PL 1995, c. 289, §11 (NEW).]

C. The pool shall bill and collect from each insurer the allocated share established by paragraphs A and B. If an insurer has not timely paid its allocated share in full to the pool on or before January 1, 1996, then the insurer is considered delinquent and the following applies.

(1) The pool has all the rights, powers and authority to take all necessary and appropriate action, as determined in the pool's discretion, against the delinquent insurer to collect any

amounts not paid as and when due, and any deficiency is assessed interest at the rate of 10% per annum from January 1, 1996 until full payment from the insurer is received by the pool. The pool is entitled to an award of and reimbursement from any delinquent insurer of the costs of enforcement and collection of any amounts not paid as and when due, including all costs and expenses, reasonable attorney's and paralegal's fees and any other professional fees and expenses associated with the pool's enforcement and collection efforts.

(2) If the pool has received \$58,500,000 from major insurers or \$6,500,000 from minor insurers, valued as of January 1, 1996, the pool shall provide prompt written notice of this fact to insurers in the same category, either major or minor. Within 90 days following a request, the pool shall assign all such rights, powers and authority, including the entitlement to costs and expenses, to any insurers in the same category of the delinquent insurer that have requested an assignment and timely paid in full at least the allocated share established by paragraphs A and B.

(3) The pool has the right to set off any amounts due under this chapter to the pool from a delinquent insurer against any sums credited by or due from the pool to the delinquent insurer and against any other property of the delinquent insurer in the possession or under the control of the pool.

(4) Regardless of whether any action is taken pursuant to subparagraphs (1) to (3), the superintendent is authorized to exercise all authority as may be provided by and in accordance with law to take appropriate action against any delinquent insurer. In addition to any other authority the superintendent may possess under law, the superintendent upon notice and hearing may suspend a delinquent insurer's authority to transact the business of insurance in the State for so long as the insurer remains delinquent. The authority granted to the superintendent under this paragraph and jurisdiction vested in the bureau are concurrent with other actions by other parties authorized in this paragraph.

(5) Any collection by or on behalf of the pool, or amounts obtained by setoff with respect to a delinquent insurer, are retained by the pool, until the insurers in the same category as the delinquent insurer have paid the total amount required for that category, plus interest pursuant to subparagraph (1) and costs and expenses of the pool for collection in an amount not to exceed the delinquent share, valued as of January 1, 1996, to the pool. Any excess must be distributed within 90 days among the insurers in the same category as the delinquent insurer that have timely paid in full at least the allocated share established by paragraphs A and B in direct proportion to that insurer's payment to the pool as part of the total payments required by paragraph A or B, except that any collection on behalf of the pool as the result of an assignment pursuant to subparagraph (2) must be distributed as agreed among the insurers that receive the assignment from the pool.

(6) No defense or substantive argument that could have been raised or asserted related to an insurer's status as a major insurer or minor insurer or any purported contractual rights under prior or existing law is extinguished or otherwise abridged in any proceeding against a delinquent insurer instituted under subparagraphs (1) to (5). [PL 1995, c. 289, §11 (NEW).]

[PL 1995, c. 289, §11 (NEW).]

2. Payments by employers. Employers shall pay to the pool the following amounts.

A. Employers shall pay initial surcharges, in the manner described in this subsection, in an aggregate amount equal to \$110,000,000, calculated on a net present value basis using January 1, 1995 as the valuation date, a discount rate of 5% and the midpoint of each calendar quarter as the date of actual receipt of surcharge proceeds remitted to the pool for each calendar quarter. Proceeds included in determining when the \$110,000,000 initial surcharge is fully paid consist of:

- (1) All proceeds from surcharges under this chapter on policies with effective dates on or after July 1, 1995 and surcharges under this chapter on self-insured employers with plan years commencing on or after July 1, 1995; and
- (2) All proceeds from surcharges actually received in immediately available funds by the pool after 5:00 p.m., September 30, 1995, whether the proceeds result from a surcharge under this chapter or under laws existing prior to enactment of this chapter. [PL 1995, c. 289, §11 (NEW).]
- B. Proceeds from surcharges under existing laws actually received in immediately available funds by the pool on or before 5:00 p.m., September 30, 1995 may not be credited against the initial surcharge requirement. [PL 1995, c. 289, §11 (NEW).]
- C. The pool shall maintain records reflecting actual dates of receipt of proceeds from surcharges sufficient to enable the net present value calculation. [PL 1995, c. 289, §11 (NEW).]
- D. The initial surcharges must be paid in accordance with the following provisions.
- (1) Beginning July 1, 1995 every insurer writing workers' compensation insurance in the State shall collect from workers' compensation insurance policyholders and pay to the pool a surcharge on all surchargeable premiums received by the insurer for those policies. During the initial surcharge period, the surcharge is at a fixed rate of 6.32% of the surchargeable premium. The surcharge may be applied only to policies with an effective date on or after 12:01 a.m., July 1, 1995. All surcharges received by each insurer during the preceding calendar quarter must be remitted to the pool within 15 days following the end of each calendar quarter, except that servicing carriers shall remit on February 15th, May 15th, August 15th and November 15th of each year. Any surcharge proceeds not remitted on a timely basis accrue interest at the rate of 10% per annum from the due date until paid in full. The pool is entitled to reimbursement from any insurer failing to remit surcharge proceeds on a timely basis for the pool's costs of collection of those amounts, including all collection costs and fees, reasonable attorney's and paralegal's fees and any other professional fees and expenses associated with the pool's collection efforts. The surcharges described in this subparagraph do not apply to reinsurance recognized by the superintendent pursuant to Chapter 250, section 2, paragraph G or section 3, paragraph G, procured by an individual self-insured employer or a self-insured employer group.
- (2) Self-insured employers that secured their obligation to provide workers' compensation benefits under the Workers' Compensation Act through issuance or renewal at any point during the fresh start period of an insurance policy for any portion of any of the policy years 1988 to 1992 are subject to a surcharge as provided in the following.
- (a) During the initial surcharge period the rate of surcharge is 6.32% of the surchargeable premium as adjusted pursuant to this paragraph for the self-insured employer's current plan year utilizing estimated payroll as submitted with the self-insured employer's renewal application for authority to self-insure, in accordance with Chapter 250, section 2, paragraph C, subparagraph 1, division c or Chapter 250, section 3, paragraph C, subparagraph 1, division g as applicable, subject to audit pursuant to division (d), subdivision (iii). If the plan year in which a surcharge is collected or a credit is distributed is shorter than 12 months, due to a change in accounting period or termination of self-insurance authorization, the surcharge or credit for that plan year must be based upon the final audited payroll for the short plan year.
- (b) All surcharges must be collected or distributed on a plan year basis. In each plan year, the percentage of the surchargeable premium to be surcharged is the same percentage as is applied to an insured employer whose policy period coincided with the plan year.

(c) Except for a successor self-insured employer, each self-insured employer shall pay surcharges relating to only that portion of the policy years 1988 to 1992 in which the self-insured employer insured its workers' compensation obligations. The surcharge factor, as determined by the board under this chapter, must be adjusted to take into consideration the policy years or portions of policy years 1988 to 1992 in which a self-insured employer was self-insured.

The self-insured employer adjustment is determined as follows. The surcharge factor must be multiplied by the factor attributed to each of the years 1988 to 1992, as set forth in the table below. If a self-insured employer was insured only during a portion of a policy year, then the factor for that year is prorated based on the ratio of the number of days in the policy year during which the self-insured employer was insured to 365 days.

| Policy Year | Factor |
|-------------|--------|
| 1988 | 28.48% |
| 1989 | 30.70% |
| 1990 | 23.26% |
| 1991 | 11.55% |
| 1992 | 6.01% |

(d) The board shall administer the surcharges on self-insured employers as follows.

(i) The board shall issue surcharge billings to self-insured employers, pursue collection of all invoiced surcharges, initiate legal proceedings as necessary to collect surcharges and maintain records adequate to administer the surcharge process. The records of the board and of the bureau form the basis for identifying self-insured employers who are subject to this paragraph.

(ii) Annual surcharges may be paid in a single lump sum within 30 days of the receipt of the pool's invoice or in quarterly installments at the self-insured employer's option. The board shall issue a yearly invoice as soon as practicable after the self-insured employer's plan approval or renewal date and receipt of all necessary supporting information from the superintendent. Each invoice must contain a schedule of dates when quarterly installments are due and clearly state the policy year or years for which the surcharge is imposed, the surcharge percentage multiplied by the factor applicable to each policy year and the amount of the surchargeable premium.

(iii) Each individual self-insured employer shall report final audited payrolls to the pool not later than 60 days after the end of each plan year and each self-insured employer that is a member of a self-insured group or the group's administrator, as the group may select, shall report final audited payrolls to the pool not later than 120 days after the end of each plan year and shall remit with the audit information any additional surcharges resulting from the audit.

(iv) Upon the request of a self-insured employer, including a successor self-insured employer or an administrator of a self-insurance group, the board may determine whether there was a factual inaccuracy in the information underlying a surcharge billing issued by the board for the fresh start period or whether the surcharge calculated by the board is consistent with the provisions of this subparagraph. The request must be filed within 180 days from the date on which the final payment is due and must be in writing, including a statement of the reason for the request and the amount, if known, of the alleged overcharge. If an appeal based upon an alleged overcharge is sustained, the board shall refund the overcharge, together with any investment earnings on those amounts. If a self-insured employer is aggrieved by the final action or decision of the board, or if the board does not act on the written request within 60 days, the self-insured

employer may appeal to the superintendent within 60 days of such action or decision of the board. Notwithstanding a pending appeal, a self-insured employer must pay any surcharge billing issued by the board.

(e) Self-insured employers have the following obligations with respect to the surcharge process.

(i) As a condition of continuing authorization to self-insure, each self-insured employer and each group self-insurance administrator shall assist the board and the superintendent in the calculation, billing and collection of any applicable surcharge. The required assistance includes maintaining and providing, upon request of the board or the superintendent, actual premium history and all payroll and experience information necessary to calculate self-insured employer premiums, as specified in this subparagraph. Information provided by the self-insured employer is subject to audit by the pool and the superintendent at any time and self-insured employers shall provide to the pool, or its designee, and to the superintendent full and complete access to all books and records relating in any way to the audit. Group self-insurance administrators shall give prompt notice to the superintendent of any changes in group membership.

(ii) Information provided by self-insured employers to the board pursuant to this paragraph is confidential. The board shall protect the confidentiality of all self-insured employer information in its possession, whether the information is obtained directly from the self-insured employer or from the superintendent or a group administrator. All information relating to a self-insured employer provided pursuant to this paragraph and in the possession of the board or superintendent continues to be confidential until that information is destroyed.

(iii) A self-insurance group may act as the collection agent for its members. Any group so electing shall notify the board. The board shall bill the group on a consolidated basis. The group shall remit its entire quarterly payment to the board within 30 days after receiving the invoice, whether or not any members remain in default and notify the board and the superintendent of any delinquency.

(iv) Each self-insured employer shall make provisions for possible surcharges in the normal course of operations and pay the full amount of any surcharge installment within 30 days after receiving an invoice from the board or the self-insured employer's self-insurance group. Late payments are subject to interest at the rate of 10% per annum.

(v) The failure of any self-insured employer or self-insurance group to comply with its duties under this paragraph constitutes grounds for suspension, revocation, termination of the option to self-insure, expulsion from a self-insurance group or other appropriate sanctions authorized under section 12-A, in addition to all procedures for the collection of past-due accounts otherwise available by law to the board or the governing body of the self-insurance group.

(f) The superintendent has the following responsibilities with respect to the surcharge process.

(i) The superintendent shall furnish to the board, on a monthly basis, a list of all self-insurance plan approvals, renewals and anniversaries that have occurred since the last report or for any other reason were not included in any previous report, including all approvals, terminations and membership changes for group self-insurers. For each employer listed, the superintendent shall provide all available information necessary for the board's imputed calculations under this paragraph, including: the date the new plan year began; the self-insurance group, if any, to which the self-insured employer

belongs; the dates of coverage under each policy issued or renewed in policy years 1988 to 1992; the rating information for the current plan year, including estimated payroll by classification, premium rate for each classification, experience modification and other applicable rating adjustments; information relating to changes of ownership or control, changes of operations, changes of name or organizational structure; and other information necessary to determine successorship.

(ii) The superintendent shall supplement promptly the initial report as necessary, including any revision to the self-insured employer's rating information on audit, any other additions or corrections to incomplete or inaccurate information provided in the initial report and the length of the plan year, if shorter than 12 months.

(g) A successor self-insured employer is subject to surcharge on the same basis as the predecessor employer would be if still actively doing business and self-insured. If a self-insured employer is the successor to more than one employer, then the successor employer's self-insured employer adjustment is the sum of each predecessor employer's self-insured employer adjustment multiplied by the ratio of the employer's surchargeable premium for the 12-month period immediately preceding the succession transaction to the combined surchargeable premium of all predecessor employers for that 12-month period.

(i) If one or more of the predecessor employers was insured at the time of the succession transaction, its self-insured employer adjustment is calculated pursuant to division (c), (h) or (i) as if it had become self-insured at the time of the succession transaction.

(ii) If business operations that were covered under a single workers' compensation policy or certificate of self-insurance authority are subsequently separately owned by virtue of any succession transaction, dissolution, reincorporation or other transaction or series of transactions, for purposes of this subparagraph each business is treated as a distinct employer, subject to surcharge as either an insured employer or a self-insured employer.

(iii) If substantial changes in operations during the 12-month period immediately preceding the succession transaction make the 12-month surchargeable premium an inappropriate measure of a predecessor employer's workers' compensation exposure prior to the transaction, the board may adopt procedures for calculating an annualized premium in a manner consistent with the intent of this subparagraph.

(h) A self-insured employer that secured its obligation to provide workers' compensation benefits under the Workers' Compensation Act through a self-insurance program approved by the superintendent for the entirety of that self-insured employer's policy years 1988 to 1992, in which the self-insured employer actually had an obligation to secure benefits under the Workers' Compensation Act is not subject to the surcharge.

(i) Except for any successor self-insured employer, self-insured employers that commence operations in the State on or after July 1, 1995 are subject to surcharge under this subparagraph on the same basis as self-insured employers that secured compensation under the Workers' Compensation Act by the purchase of an insurance policy throughout the entire fresh start period.

(3) An employer may, as specified in this subparagraph, prepay all of its surcharges for a period of 10 consecutive policy years or plan years. The 10-year period starts with the employer's first renewal date or plan year following July 1, 1995. Within 30 days after the inception of the first plan year or first policy renewal date following July 1, 1995, if the employer intends to exercise this option, the employer must file with the pool written notice electing to make a lump-sum payment of surcharges and shall include with the notice the

employer's full lump-sum payment. If the election is not made within 30 days after the first day of the first plan year or policy year following July 1, 1995, the option expires and is no longer available. The pool shall implement such procedures for administering this option as the board determines necessary. An employer that elects this option shall reimburse the pool for its expenses of administering this option for that employer, including the cost of individually allocating those costs to individual employers, in accordance with billing procedures developed and implemented by the board. This subparagraph does not eliminate or limit the employer's liability to pay adjusted surcharges or supplemental surcharges pursuant to paragraph E or section 2394.

For purposes of this subparagraph, "lump-sum payment" is the surcharge for the first year multiplied by 10 and discounted to net present value using:

- (a) A 5% discount rate;
- (b) The first day of the first plan year or policy year starting on or after July 1, 1995; and
- (c) An assumption that the surcharge for each of the 10 plan years or policy years would have been paid on the first day of each subsequent plan year or policy year. [PL 2011, c. 524, §11 (AMD).]

E. The initial surcharge percentage may be adjusted by the pool in accordance with the following provisions.

(1) Each July 1st beginning in 2003, the board shall establish a surcharge percentage to be imposed on all workers' compensation insurance policies issued or renewed on or after that date until the effective date of any subsequent adjustment in the surcharge percentage established by the board; except that, if supplemental surcharges and assessments have commenced under section 2394, no further adjustments may be made under this subparagraph. The surcharge must be at a level determined by the board to be sufficient to produce cash receipts over the ensuing 24 months that, together with all other funds reasonably anticipated by the board to be available on a cash basis over that period, produce an amount not less than the pool's projected cash requirements to meet its obligations over that period. In making that determination, the board shall employ and rely upon the advice of professional and consulting services, including services available through the pool's internal staff, as the board determines necessary.

(2) If the surcharge percentage established under this subparagraph exceeds 6.32%, then a prepaid employer shall pay surcharges for that future assessment period at the same rate as those employers who paid annually, based upon the employer's surchargeable premium for the policy year or plan year to which the increased surcharge percentage applies. A prepaid employer may take a credit for the surcharges prepaid for that assessment period pursuant to section 2393, subsection 2, paragraph D, subparagraph (3) in an amount equal to the net present value calculated on a basis consistent with paragraph D, subparagraph (2), division (d), subdivision (ii). If the surcharge percentage is less than 6.32% for that future assessment period, then the pool shall refund to a prepaid employer an amount equal to the difference between the value of the lump-sum surcharge paid for the future assessment period calculated on a basis consistent with paragraph D, subparagraph (2), division (d), subdivision (ii) and the amount of surcharge due based upon the adjusted surcharge percentage and applicable surchargeable premium. For purposes of this subparagraph, "prepaid employer" means an employer who has elected to pay surcharges on a lump-sum basis pursuant to paragraph D, subparagraph (3).

(3) The board has authority to make interim adjustments in the surcharge percentage on or after July 1, 2003, to be effective on dates other than July 1st as specified by the board, to the extent considered necessary by the board to produce sufficient cash receipts from surcharges

over the ensuing 24 months that, together with all other funds reasonably anticipated by the board to be available on a cash basis to the pool over the ensuing 24 months, will be sufficient to meet the pool's anticipated cash requirements over that period.

(4) In projecting the pool's anticipated cash requirements, the board shall maintain a reserve equal to 25% of the cash expenditures of the pool over the immediately preceding 12-month period. [PL 1995, c. 289, §11 (NEW).]

F. The surcharges required by this subsection are considered premium for cancellation and nonrenewal purposes only and are not subject to premium tax, Maine Insurance Guaranty Association assessments, agents' commissions or other payments required on insurance policy premiums. [PL 1995, c. 289, §11 (NEW).]

G. Employer surcharges required by this chapter are suspended if:

(1) The board determines that the pool's assets are adequate to satisfy all remaining obligations, including any necessary repayment to insurers that satisfy the requirements of subparagraph (2); and

(2) The insurers and employers have been repaid by the pool in amounts necessary to produce a ratio of actual surcharges under this subsection paid by employers calculated on a net present value basis using January 1, 1995 as a valuation date and a discount rate of 5% to actual payments by insurers to the pool under subsection 1, valued as of January 1, 1996, not including employer surcharges remitted to the pool by insurers, that is the same as 11 to 6.5, for employers and insurers respectively. [PL 1995, c. 289, §11 (NEW).]

H. If the board suspends initial surcharges and the pool subsequently requires additional assets to satisfy remaining obligations, the board shall order additional initial surcharges consistent with this subsection. The board shall review the relationship between the pool's assets and liabilities as often as determined necessary by the board, but at least annually. Projections of assets and liabilities contained in any quarterly or annual statements of operation prepared by or at the direction of the board do not constitute a determination under this subsection. [PL 1995, c. 289, §11 (NEW).]

[PL 2011, c. 524, §11 (AMD).]

3. Payments by Maine Insurance Guaranty Association. The association shall pay to the pool \$1,538,039 on or before February 15th, May 15th, August 15th, and November 15th of each year for 40 consecutive calendar quarters beginning August 15, 1996.

A. Each payment made by the association to the pool under this subsection is treated as a covered claim pursuant to section 4435, subsection 4, except that any provision or authority for the association to seek reimbursement or recoupment from any source other than by assessments to association member insurers does not apply. This section does not limit or impair a member insurer's right to recoupment under section 4447. [PL 1995, c. 289, §11 (NEW).]

B. The quarterly payments by the association to the pool as required by this subsection must be made regardless of the financial condition or actual or projected cash requirements of the pool. [PL 1995, c. 289, §11 (NEW).]

[PL 1995, c. 289, §11 (NEW).]

§2394. Funding subsequent cash deficiencies

If the insurers have made payments to the pool totalling \$65,000,000 valued as of January 1, 1996 pursuant to section 2393, subsection 1 and the employers have paid surcharges totalling \$110,000,000 calculated on a net present value basis using January 1, 1995 as a valuation date and a discount rate of

5%, pursuant to section 2393, subsection 2, on each July 1st following the full payment date, or more often if the board considers it necessary: [PL 1995, c. 289, §11 (NEW).]

1. Determine cash requirements. The board shall determine the amount of cash receipts that will be required over the ensuing 24 months, in addition to all other funds reasonably anticipated by the board to be available on a cash basis over that period, to produce an amount not less than the pool's projected cash requirements to meet its obligations over that period. In making this determination, the board shall employ and may rely upon professional and consulting services, including such services as may be available through its internal staff, as the board considers necessary. If cash requirements determinations under this subsection commence, any cash requirements determinations and initial surcharge percentage adjustments under section 2393, subsection 2, paragraph E cease. In projecting the pool's anticipated cash requirements, the board shall maintain a reserve equal to 25% of the cash expenditures of the pool over the immediately preceding 12 months; and [PL 1995, c. 289, §11 (NEW).]

2. Establish supplemental surcharges and assessments. The pool shall establish, bill and collect supplemental surcharges from employers and assessments from insurers in an aggregate amount determined by the board to be sufficient to satisfy the pool's cash requirements, determined under subsection 1, in accordance with the following provisions.

A. Liability for funding cash requirements determined under subsection 1 is allocated 70% to employers and 30% to insurers. [PL 1995, c. 289, §11 (NEW).]

B. The pool shall establish a surcharge on employers, reflected as a percentage of surchargeable premium, that the board reasonably expects will be sufficient to generate cash receipts over the ensuing 24-month period equal to 70% of the pool's cash requirements for such period as determined pursuant to subsection 1. The resulting employer surcharges are billed and collected in the same manner as provided in section 2393, subsection 2, paragraph D. [PL 1995, c. 289, §11 (NEW).]

C. The pool shall establish, bill and collect from insurers assessments equal to the remaining 30% of the pool's cash requirements. Major insurers are responsible for 90% and minor insurers are responsible for 10% of these assessments.

(1) Assessments under this paragraph must be determined and billed quarterly by the pool in an amount equal to 42.9% of the cash receipts actually received by the pool from employer supplemental surcharges during the immediately preceding calendar quarter and must be allocated among existing insurers in the same category in direct proportion to amounts paid by or otherwise collected from those insurers by or on behalf of the pool under section 2393, subsection 1. Assessments billed by the pool must be paid within 30 days of the billing date.

(2) The enforcement provisions established by section 2393, subsection 1, paragraph C apply to assessments on insurers under this paragraph. [PL 1995, c. 289, §11 (NEW).]

D. For purposes of establishing the surcharge upon employers, the pool's cash requirements may not include any amounts necessary to compensate the pool for any failure by insurers to pay the full amount of the assessments charged to insurers under this subsection. [PL 1995, c. 289, §11 (NEW).]

[PL 1995, c. 289, §11 (NEW).]

For the purposes of this section, "full payment date" means the date on which insurers have paid the entire amount required pursuant to section 2393, subsection 1 and on which employers have paid the entire amount required pursuant to section 2393, subsection 2. [PL 1995, c. 289, §11 (NEW).]

The board has the exclusive right to retain any individual or organization as plan manager and to terminate the plan manager. The board is exclusively responsible for establishing the terms and conditions, including compensation, under which the plan manager serves.

5. Authority to borrow money. The pool may, when directed by the board, borrow money and enter into financing transactions in the name of and on behalf of the pool and issue evidences of indebtedness in connection with those transactions. To secure the payment of any indebtedness incurred pursuant to this subsection, the pool may pledge and create a lien upon any or all of its receivables or revenues or grant such other security interests in its property as the board determines reasonable and proper for the security of the holders of indebtedness. The terms and conditions of any borrowing, including, but not limited to, dates, maturities, interest and rates, must be established by the board.

[PL 1995, c. 289, §11 (NEW).]

Notwithstanding Title 1, section 302, a cause of action or administrative proceeding that could have been asserted or instituted, whether or not pending, prior to or on the effective date of this Act arising out of or relating to sections 2386 and 2386-A and their predecessor statutes, sections 2366 and 2367 or due to an insurer's performance as a servicing carrier or other participation in the residual market mechanism may not exist or be brought against the pool, the board or an insurer that has timely paid to the pool in full at least the allocated share pursuant to section 2393, subsection 1. This subsection does not apply to: claims by servicing carriers for quarterly reimbursement from the pool; claims arising from a written agreement among any of the major insurers and the pool relating to payment of the allocated share of a delinquent insurer pursuant to section 2393, subsection 1; claims by an individual policyholder against its insurer; or claims by employees for benefits under residual market policies.

1. Any individual of competent legal capacity may procure or effect an insurance contract upon the individual's own life or body for the benefit of any person. But a person may not procure or cause to be procured any insurance contract upon the life or body of another individual unless the benefits under such contract are payable to the individual insured or the individual insured's personal representatives, or to a person having, at the time when such contract was made, an insurable interest in the individual insured.

by objective standards related to age, service, sex or category of employment and that the proceeds created by that insurance program are used for the sole purpose of funding the corporation's preretirement or postretirement benefit programs covering at least a broad class of employees; and [RR 2011, c. 2, §30 (COR).]

1. Fraudulent; or

[PL 1969, c. 132, §1 (NEW).]

2. Material either to the acceptance of the risk, or to the hazard assumed by the insurer, such that the insurer in good faith would either not have issued the insurance or contract, or would not have issued it at the same premium rate, or would not have issued insurance in as large an amount, or would not have provided coverage with respect to the hazard resulting in the loss, if the true facts had been made known to the insurer as required either by the application for the policy or contract or otherwise. - (2) An application form if a written application is required and is made a part of the policy or contract; and
- (3) A certificate of coverage under a group policy or contract that is delivered or issued for delivery in this State. [PL 1997, c. 370, Pt. G, §1 (NEW).]

B. This section does not apply to surety bonds or to specially rated inland marine risks, or to policies, riders, endorsements or forms of unique character designed for and used with relation to insurance upon a particular subject or that relate to the manner of distribution of benefits or to the reservation of rights and benefits under life or health insurance policies and are used at the request of the individual policy holder, contract holder or certificate holder. [PL 1997, c. 370, Pt. G, §1 (NEW).]

C. An advisory organization licensed pursuant to section 2321-A may file forms pursuant to this section on behalf of its members and subscribers. The approval of such a filing does not restrict the right of an insurer authorized to use an advisory organization form to develop and file forms on its behalf in addition to or instead of the advisory organization form. [PL 1997, c. 370, Pt. G, §1 (NEW).]

[PL 1997, c. 370, Pt. G, §1 (RPR).]

1-A. An insurer may not provide coverage to a resident of this State under a group or blanket policy or contract issued and delivered outside this State unless the following requirements of this subsection are met.

A. For "other group" insurance policies as defined in sections 2612-A and 2808, all forms must be filed with and approved by the superintendent. [PL 1997, c. 370, Pt. G, §2 (NEW).]

(1) Must be filed with the superintendent at least 60 days before any solicitation in this State, with sufficient information concerning the nature of the group, including any trust agreements or association bylaws, to enable the superintendent to determine whether the group satisfies the statutory requirements for a trustee or association group; and

(2) May not have been disapproved. [PL 1997, c. 370, Pt. G, §2 (NEW).]

C. For group or blanket policies other than those specified in paragraphs A and B and in section 2858, the group certificates to be delivered or issued for delivery in this State must be filed with the superintendent at the superintendent's request and may not have been disapproved. [PL 2001, c. 258, Pt. H, §1 (AMD).]

At the expiration of the 30 days, the form so filed is deemed approved unless prior thereto it has been affirmatively approved or disapproved by order of the superintendent. Approval of the form by the superintendent constitutes a waiver of any unexpired portion of the waiting period. The superintendent shall act on a filing no later than 30 days from receipt unless an extension is requested by the filer. A filing required under this section must be made electronically in a format required by the superintendent unless exempted by rule adopted by the superintendent. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. At the expiration of the period so extended, and in the absence of prior affirmative approval or disapproval, any form is deemed approved. The superintendent may at any time, after hearing and for cause shown, withdraw any approval. [PL 2009, c. 14, §3 (AMD).]

3. Any order of the superintendent disapproving any such form or withdrawing a previous approval shall state the grounds therefor and the particulars thereof in such detail as reasonably to inform the insurer thereof. Any such withdrawal of a previously approved form shall be effective at expiration of such period, not less than 30 days after the giving of the order of withdrawal, as the superintendent shall in such order prescribe.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. The superintendent may, by order, exempt from the requirements of this section for so long as the superintendent considers proper any insurance document or form or type thereof as specified in such order, to which, in the superintendent's opinion, this section may not practicably be applied, or the filing and approval of which are, in the superintendent's opinion, not desirable or necessary for the protection of the public.

[PL 1989, c. 824, §2 (AMD); MRSA T. 24-A §2412, sub-§6 (RP).]

7. **Motor vehicle insurance identification cards.** Pursuant to this section, the superintendent, with the advice of the Secretary of State, shall adopt rules that prescribe both paper and electronic forms of a motor vehicle insurance identification card for evidence of liability insurance or financial responsibility required under Title 29-A. The superintendent shall require all insurance companies transacting business within this State to provide with each motor vehicle liability insurance policy a form of insurance identification card for each vehicle, describing the vehicle covered. When an insured has 5 or more motor vehicles registered in this State, the insurer may use the designation "all owned vehicles" on each card in lieu of a specific description. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2013, c. 72, §1 (AMD).]

§2436. Interest on overdue payments

1. A claim for payment of benefits under a policy or certificate of insurance delivered or issued for delivery in this State is payable within 30 days after proof of loss is received by the insurer and ascertainment of the loss is made either by written agreement between the insurer and the insured or beneficiary or by filing with the insured or beneficiary of an award by arbitrators as provided for in the policy. For purposes of this section, "insured or beneficiary" includes a person to whom benefits have been assigned. A claim that is neither disputed nor paid within 30 days is overdue. If, during the 30 days, the insurer, in writing, notifies the insured or beneficiary that reasonable additional information is required, the undisputed claim is not overdue until 30 days following receipt by the insurer of the additional required information; except that:

A. The time period applicable to a standard fire policy and to that portion of a policy providing a combination of coverages, as described in section 3003, insuring against the peril of fire must be 60 days, as provided in section 3002; and [PL 2009, c. 244, Pt. H, §1 (NEW).]

B. The time period applicable to individual life insurance must be 2 months as provided in section 2513. [PL 2009, c. 244, Pt. H, §1 (NEW).]

[PL 2009, c. 244, Pt. H, §1 (AMD).]

1-A. A claimant, including a health care provider, may submit simultaneously a claim for payment with all carriers potentially liable for payment of the claim whether primary or secondary. Payment or denial of a claim by each carrier must be made within 30 calendar days after the carrier has received all information needed to pay or deny the claim whether or not another carrier with which it is attempting to coordinate has acted on the claim. Upon request by a health care provider, a carrier shall provide the health care provider a method for making a claims payment using an electronic funds transfer through the automated clearinghouse network. Any payment made must be in accordance with rules adopted by the superintendent relative to coordination of benefits.

[PL 2023, c. 232, §1 (AMD).]

2. An insurer may dispute a claim by furnishing to the insured or beneficiary, or a representative of the insured or beneficiary, a written statement that the claim is disputed with a statement of the grounds upon which it is disputed. The statement must be based upon a reasonable investigation of the claim and must include sufficient detail to permit the insured or beneficiary to understand and respond to the insurer's position. For purposes of this subsection, a claim for payments under a policy or

certificate providing health care coverage is disputed if the insurer has denied the claim or has requested further information that is consistent with Bureau of Insurance Rule Chapter 850.

[PL 1999, c. 256, Pt. I, §1 (AMD).]

2-A. For a claim submitted by a health care provider or health care facility with respect to a carrier as defined in section 4301-A, subsection 3, for purposes of this section, a timely claim for payment of covered health care expenses must be submitted to a carrier in conformity with the requirements for standardized claim forms set forth in section 2753.

[PL 2023, c. 332, §2 (AMD).]

2-C. For a claim submitted by a health care provider or health care facility with respect to a carrier as defined in section 4301-A, subsection 3, for purposes of this section, "undisputed claim" means a manually or electronically submitted claim from a health care provider or health care facility that:

A. Contains all the required data elements necessary for accurate adjudication without the need for additional information; [PL 2023, c. 332, §3 (NEW).]

B. Is not materially deficient or improper, including lacking substantiating documentation required by the carrier; and [PL 2023, c. 332, §3 (NEW).]

C. Has no particular or unusual circumstances requiring special treatment that prevent payment from being made by the carrier. [PL 2023, c. 332, §3 (NEW).]

[PL 2023, c. 332, §3 (NEW).]

3. If an insurer fails to pay an undisputed claim or any undisputed part of the claim when due, the amount of the overdue claim or part of the claim bears interest at the rate of 1 1/2% per month after the due date. 1. Delivery. In addition to any other requirements of law, no policy forms, except as stated in section 2440, shall be delivered or issued for delivery in this State on or after the dates the forms must be approved under this Act unless:

B. It is printed, except for specification pages, schedules and tables, in not less than 10-point type, one-point leaded; [PL 1979, c. 267, §2 (NEW).]

2. Test score measured. For the purposes of this section, a Flesch reading ease test score shall be measured by the following method:

A. For policy forms containing 10,000 words or less of text, the entire form shall be analyzed. E. For purposes of this subsection, paragraphs B, C and D, the following procedures shall be used:

- (1) A contraction, hyphenated word or numbers and letters, when separated by space, shall be counted as one word;
- (2) A unit of words ending with a period, semicolon, or colon, but excluding headings and captions, shall be counted as a sentence; and
- (3) A syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. Where the dictionary shows 2 or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used; and [PL 1979, c. 267, §2 (NEW).]

4. Filings. Filings subject to this Act shall be accompanied by a certificate signed by an officer of the insurer stating that it meets the minimum reading ease score on the test used or stating that the score is lower than the minimum required but should be approved in accordance with section 2443. To confirm the accuracy of any certification, the superintendent may require the submission of further information to verify the certification in question.

The commission shall consider whether any subsequent amendments to the National Association of Insurance Commissioners' Long-term Care Insurance Model Act or Long-term Care Insurance Model Regulation adopted as of 2001 by the National Association of Insurance Commissioners require the amendment of the uniform standards established by the commission for long-term care insurance products;

For any product covered under the compact, other than long-term care insurance products, the commission has the authority to require an insurer to submit all or any part of its advertisement with respect to that product for review or approval prior to use, if the commission determines that the nature of the product is such that an advertisement of the product could mislead the public. The actions of commission as provided in this section have the force of law and are binding in the compacting states to the extent and in the manner provided in the compact;

[PL 2003, c. 680, §1 (NEW).]

5. Self-certification process. To exercise its rule-making authority and designate products and advertisements that may be subject to a self-certification process without the need for prior approval by the commission;

1. Membership. Each compacting state has one member. Each member must be qualified to serve in that capacity pursuant to applicable law of the compacting state. A member may be removed or suspended from office as provided by the law of the state from which the member is appointed. A vacancy occurring in the commission must be filled in accordance with the laws of the compacting state where the vacancy exists. This subsection may not be construed to affect the manner in which a compacting state determines the election or appointment and qualification of its own commissioner.
[PL 2003, c. 680, §1 (NEW).]

2. One vote. Each member is entitled to one vote and has an opportunity to participate in the governance of the commission in accordance with the bylaws. [PL 2003, c. 680, §1 (NEW).]

The commission may meet in camera only after a majority of the entire membership votes to close a meeting in whole or in part. products, determined from the records of the National Association of Insurance Commissioners for the prior year;

(2) Four members from those compacting states with at least 2% of the market based on the premium volume described in subparagraph (1) other than the 6 compacting states with the largest premium volume, selected on a rotating basis as provided in the bylaws; and

(3) Four members from those compacting states with less than 2% of the market based on the premium volume described in subparagraph (1) with one selected from each of the 4 zone regions of the National Association of Insurance Commissioners as provided in the bylaws. [PL 2003, c. 680, §1 (NEW).]

(1) Managing the affairs of the commission in a manner consistent with the bylaws and purposes of the commission;

(2) Establishing and overseeing an organizational structure within and appropriate procedures for the commission to provide for the creation of uniform standards and other rules, receipt and review of product filings, administrative and technical support functions, review of decisions regarding the disapproval of a product filing and review of elections made by a compacting state to opt out of a uniform standard. D. The management committee may, subject to the approval of the commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation as the commission determines appropriate. The executive director shall serve as secretary to the commission, but may not be a member of the commission. The executive director shall hire and supervise such other staff as may be authorized by the commission. [PL 2003, c. 680, §1 (NEW).]
[PL 2003, c. 680, §1 (NEW).]

6. Legislative committee. A legislative committee of state legislators or their designees is established to monitor the operations of, and make recommendations to, the commission, including the management committee. The manner of selection and term of any legislative committee member is set by the bylaws. Prior to the adoption by the commission of any uniform standard, revision to the bylaws, annual budget or other significant matter as may be provided in the bylaws, the management committee shall consult with and report to the legislative committee. [PL 2003, c. 680, §1 (NEW).]

7. Advisory committees. The commission shall establish 2 advisory committees, one composed of consumer representatives independent of the insurance industry and the other composed of insurance industry representatives. [PL 2003, c. 680, §1 (NEW).]

9. Corporate records of the commission. The commission shall maintain its corporate books and records in accordance with the bylaws.

[PL 2003, c. 680, §1 (NEW).]

10. Qualified immunity, defense and indemnification. The members, officers, executive director, employees and representatives of the commission are immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties or responsibilities. Nothing in this subsection may be construed to protect any person from suit or liability for any damage, loss, injury or liability caused by the intentional or willful and wanton misconduct of that person.

[PL 2003, c. 680, §1 (NEW).]

11. Defend. The commission shall defend any member, officer, executive director, employee or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from that person's intentional or willful and wanton misconduct. Nothing in this subsection may be construed to prohibit that person from retaining counsel.

[PL 2003, c. 680, §1 (NEW).]

12. Indemnification. The commission shall indemnify and hold harmless any member, officer, executive director, employee or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from the intentional or willful and wanton misconduct of that person.

SECTION HISTORY

PL 2003, c. 680, §1 (NEW).

§2478. Rules and operating procedures, rule-making functions of the commission and opting out of uniform standards -- Article 7

1. Rule-making authority. The commission shall promulgate reasonable rules, including uniform standards and operating procedures, in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding this subsection, in the event the commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of this chapter or the powers granted under this chapter, then such an action by the commission is invalid and has no effect. [PL 2003, c. 680, §1 (NEW).]

2. Rule-making procedure. Rules and operating procedures must be made pursuant to a rule-making process that conforms to the Model State Administrative Procedure Act of 1981 as amended, as may be appropriate to the operations of the commission. Before the commission adopts a uniform standard, the commission shall give written notice to the relevant state legislative committee in each compacting state responsible for insurance issues of its intention to adopt the uniform standard. The commission in adopting a uniform standard shall consider fully all submitted materials and issue a concise explanation of its decision. [PL 2003, c. 680, §1 (NEW).]

3. Effective date and opting out of uniform standard. A uniform standard becomes effective 90 days after its promulgation by the commission or such later date as the commission may determine. A compacting state may opt out of a uniform standard as provided in subsection 4. "Opt out" means any action by a compacting state to decline to adopt or participate in a promulgated uniform standard. All other rules and operating procedures, and amendments thereto, become effective as of the date specified in each rule, operating procedure or amendment. [PL 2003, c. 680, §1 (NEW).]

4. Procedure for opting out. A compacting state may opt out of a uniform standard either by legislation or regulation duly promulgated by the insurance department under the compacting state's administrative procedure act. If a compacting state elects to opt out of a uniform standard by regulation, it must give written notice to the commission no later than 10 business days after the uniform standard is promulgated, or at the time the state becomes a compacting state, and must find that the uniform standard does not provide reasonable protections to the citizens of the state, given the conditions in the state. The commissioner shall make specific findings of fact and conclusions of law, based on a preponderance of the evidence, detailing the conditions in the state that warrant a departure from the uniform standard and determining that the uniform standard would not reasonably protect the citizens of the state. The commissioner must consider and balance the following factors and find that the conditions in the state and needs of the citizens of the state outweigh:

A. The intent of the legislature to participate in, and the benefits of, an interstate agreement to establish national uniform consumer protections for the products subject to this chapter; and [PL 2003, c. 680, §1 (NEW).]

B. The presumption that a uniform standard adopted by the commission provides reasonable protections to consumers of the relevant product. [PL 2003, c. 680, §1 (NEW).]

Notwithstanding this subsection, a compacting state may at the time of its enactment of this compact, prospectively opt out of all uniform standards involving long-term care insurance products by expressly providing for such an option in the enacted compact, and opting out may not be treated as a material variance in the offer or acceptance of any state to participate in this compact. Opting out is effective at the time of enactment of this compact by the compacting state and applies to all existing uniform standards involving long-term care insurance products and those subsequently promulgated. [PL 2003, c. 680, §1 (NEW).]

5. Effect of opting out. If a compacting state elects to opt out of a uniform standard, the uniform standard remains applicable in the compacting state electing to opt out until such time as the legislation opting out is enacted into law or the regulation opting out becomes effective.

Once the opting out of a uniform standard by a compacting state becomes effective as provided under the laws of that state, the uniform standard has no further force and effect in that state unless and until the legislation or regulation implementing the opting out is repealed or otherwise becomes ineffective under the laws of the state. If a compacting state opts out of a uniform standard after the uniform standard has been made effective in that state, the opting out has the same prospective effect as provided under section 2485 for withdrawals.

[PL 2003, c. 680, §1 (NEW).]

6. Stay of uniform standard. If a compacting state has formally initiated the process of opting out of a uniform standard by regulation, and while the regulatory opting out is pending, the compacting state may petition the commission, at least 15 days before the effective date of the uniform standard, to stay the effectiveness of the uniform standard in that state. The commission may grant a stay if it determines the regulatory opting out is being pursued in a reasonable manner and there is a likelihood of success. If a stay is granted or extended by the commission, the stay or extension may postpone the effective date by up to 90 days, unless the stay is affirmatively extended by the commission. A stay may not be permitted to remain in effect for more than one year unless the compacting state can show extraordinary circumstances that warrant a continuance of the stay, including, but not limited to, the existence of a legal challenge that prevents the compacting state from opting out. A stay may be terminated by the commission upon notice that the rule-making process has been terminated.

[PL 2003, c. 680, §1 (NEW).]

7. Petition for judicial review of rule or operating procedure. Not later than 30 days after a rule or operating procedure is promulgated, any person may file a petition for judicial review of the rule or operating procedure. The filing of such a petition does not stay or otherwise prevent the rule or operating procedure from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the commission consistent with applicable law and may not find the rule or operating procedure to be unlawful if the rule or operating procedure represents a reasonable exercise of the commission's authority.

SECTION HISTORY

PL 2003, c. 680, §1 (NEW).

§2479. Commission records and enforcement -- Article 8

1. Public inspection and copying of information and records. The commission shall promulgate rules establishing conditions and procedures for public inspection and copying of its information and official records, except information and records involving the privacy of individuals and insurers' trade secrets. The commission may promulgate additional rules under which it may make available to federal and state agencies, including law enforcement agencies, records and information otherwise exempt from disclosure, and may enter into agreements with such agencies to receive or exchange information or records subject to nondisclosure and confidentiality provisions.

[PL 2003, c. 680, §1 (NEW).]

2. Laws pertaining to confidentiality or nondisclosure. Except as to privileged records, data and information, the laws of any compacting state pertaining to confidentiality or nondisclosure do not relieve any compacting state commissioner of the duty to disclose any relevant records, data or information to the commission. Disclosure to the commission may not be considered to waive or otherwise affect any confidentiality requirement. Except as otherwise expressly provided in this chapter, the commission is not subject to the compacting state's laws pertaining to confidentiality and

nondisclosure with respect to records, data and information in its possession. Confidential information of the commission remains confidential after such information is provided to any commissioner.

[PL 2003, c. 680, §1 (NEW).]

3. Compliance. The commission shall monitor compacting states for compliance with duly adopted bylaws, rules, including uniform standards, and operating procedures. The commission shall notify any noncomplying compacting state in writing of its noncompliance with commission bylaws, rules or operating procedures. If a noncomplying compacting state fails to remedy its noncompliance within the time specified in the notice of noncompliance, the compacting state is in default as set forth in section 2485.

[PL 2003, c. 680, §1 (NEW).]

4. Commissioner's authority to oversee market regulation. The commissioner of any state in which an insurer is authorized to do business or is conducting the business of insurance shall continue to exercise the commissioner's authority to oversee the market regulation of the activities of the insurer in accordance with the provisions of the state's law. The commissioner's enforcement of compliance with the compact is governed by the following provisions.

A. With respect to the commissioner's market regulation of a product or advertisement that is approved by or certified to the commission, the content of the product or advertisement does not constitute a violation of the provisions, standards or requirements of the compact except upon a final order of the commission issued at the request of a commissioner after prior notice to the insurer and an opportunity for hearing before the commission. [PL 2003, c. 680, §1 (NEW).]

B. Before a commissioner may bring an action for violation of any provision, standard or requirement of the compact relating to the content of an advertisement not approved by or certified to the commission, the commission, or an authorized commission officer or employee, must authorize the action. However, authorization pursuant to this paragraph does not require notice to the insurer, opportunity for hearing or disclosure of requests for authorization or records of the commission's action on such requests. [PL 2003, c. 680, §1 (NEW).]

1. Filing of product with commission. Insurers and 3rd-party filers seeking to have a product approved by the commission shall file the product with, and pay applicable filing fees to, the commission. Nothing in this chapter may be construed to restrict or otherwise prevent an insurer from filing its product with the insurance department in any state where the insurer is licensed to conduct the business of insurance, and such filing is subject to the laws of the states where filed.

[PL 2003, c. 680, §1 (NEW).]

2. Commission to establish filing and review processes. The commission shall establish appropriate filing and review processes and procedures pursuant to commission rules and operating procedures. Notwithstanding any other provision of this chapter, the commission shall promulgate

rules to establish conditions and procedures for providing public access to product filing information. In establishing such rules, the commission shall consider the interests of the public in having access to such information, as well as protection of personal medical and financial information and trade secrets that may be contained in a product filing or supporting information.

[PL 2003, c. 680, §1 (NEW).]

3. Product approved by commission may be sold in certain compacting states. Any product approved by the commission may be sold or otherwise issued in those compacting states in which the insurer is legally authorized to do business.

§2482. Review of commission decisions regarding filings -- Article 11

1. Appeal to review panel appointed by commission. Not later than 30 days after the commission has given notice of a disapproved product or advertisement filed with the commission, the insurer or 3rd-party filer whose filing was disapproved may appeal the determination to a review panel appointed by the commission. The commission shall promulgate rules to establish procedures for appointing a review panel and provide for notice and hearing. An allegation that the commission, in disapproving a product or advertisement filed with the commission, acted arbitrarily, capriciously or in a manner that is an abuse of discretion or otherwise not in accordance with the law is subject to judicial review in accordance with section 2474, subsection 4.

[PL 2023, c. 405, Pt. A, §86 (AMD).]

2. Commission may monitor, review and reconsider. The commission has authority to monitor, review and reconsider products and advertisements subsequent to their filing or approval upon a finding that the product does not meet the relevant uniform standard. Where appropriate, the commission may withdraw or modify its approval after proper notice and hearing, subject to the appeal process in subsection 1.

To fund the cost of its initial operations, the commission may accept contributions and other forms of funding from the National Association of Insurance Commissioners, compacting states and other sources. Contributions and other forms of funding from other sources must be of such a nature that the independence of the commission concerning the performance of its duties is not compromised.

[PL 2003, c. 680, §1 (NEW).]

2. Commission shall collect filing fee. 6. Commission to keep complete and accurate accounts. The commission shall keep complete and accurate accounts of all its internal receipts, including grants and donations, and disbursements of all funds under its control. The internal financial accounts of the commission are subject to the accounting procedures established under its bylaws. §2485. Withdrawal, default and termination -- Article 14

1. Withdrawal. The following provisions govern withdrawal from the compact.

A. Once effective, the compact continues in force and remains binding upon each compacting state. A compacting state may withdraw from the compact by enacting a statute specifically repealing the statute that enacted the compact. [PL 2003, c. 680, §1 (NEW).]

B. The effective date of withdrawal is the effective date of the repealing law. However, the withdrawal does not apply to any product filings approved or self-certified, or any advertisement of such products, on the date the repealing statute becomes effective, except by mutual agreement of the commission and the withdrawing state unless the approval is rescinded by the withdrawing state as provided in paragraph E. [PL 2003, c. 680, §1 (NEW).]

C. The commissioner of the withdrawing state shall immediately notify the management committee in writing upon the introduction of legislation repealing this compact in the withdrawing state. [PL 2003, c. 680, §1 (NEW).]

E. The withdrawing state is responsible for all obligations, duties and liabilities incurred through the effective date of withdrawal, including any obligations the performance of which extend beyond the effective date of withdrawal, except to the extent those obligations may have been released or relinquished by mutual agreement of the commission and the withdrawing state. The commission's approval of products and advertisements prior to the effective date of withdrawal continues to be effective and must be given full force and effect in the withdrawing state unless formally rescinded by the withdrawing state in the same manner as provided by the laws of the withdrawing state for the prospective disapproval of products or advertisements previously approved under state law. [PL 2003, c. 680, §1 (NEW).]

F. Reinstatement following withdrawal of any compacting state occurs upon the effective date of the withdrawing state's reenacting the compact. [PL 2003, c. 680, §1 (NEW).]
[PL 2003, c. 680, §1 (NEW).]

2. Default. The following provisions govern default.

A. If the commission determines that a compacting state has defaulted in the performance of any of its obligations or responsibilities under this compact, the bylaws or duly promulgated rules or operating procedures, then, after notice and hearing as set forth in the bylaws, all rights, privileges and benefits conferred by this compact on the defaulting state are suspended from the effective date of default as fixed by the commission. The grounds for default include, but are not limited to, failure of a compacting state to perform its obligations or responsibilities, and any other grounds designated in commission rules. The commission shall immediately notify the defaulting state in writing of the defaulting state's suspension pending a cure of the default. The commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the commission, the defaulting state must be terminated from the compact and all rights, privileges and benefits conferred by this compact are terminated from the effective date of termination. [PL 2003, c. 680, §1 (NEW).]

B. Product approvals by the commission or product self-certifications, or any advertisement in connection with such a product, that are in force on the effective date of termination remain in force in the defaulting state in the same manner as if the defaulting state had withdrawn voluntarily pursuant to subsection 1. [PL 2003, c. 680, §1 (NEW).]

C. Reinstatement following termination of a compacting state requires a reenactment of the compact. [PL 2003, c. 680, §1 (NEW).]
[PL 2003, c. 680, §1 (NEW).]

3. Dissolution of compact. The following provisions govern the dissolution of the compact.

A. The compact dissolves upon the date of the withdrawal or default of the compacting state that reduces membership in the compact to one compacting state. [PL 2003, c. 680, §1 (NEW).]

B. Upon the dissolution of this compact, the compact becomes void and is of no further effect, and the business and affairs of the commission must be wound up and any surplus funds must be distributed in accordance with the bylaws. [PL 2003, c. 680, §1 (NEW).]

§2487. Binding effect of compact and other laws -- Article 16

1. Laws of compacting state. Nothing in this chapter prevents the enforcement of any laws of a compacting state other than this compact, except as provided in subsection 2.

[PL 2003, c. 680, §1 (NEW).]

2. Exclusive provisions. For any product approved by or certified to the commission, the rules, uniform standards and any other requirements of the commission constitute the exclusive provisions applicable to the content, approval and certification of that product. For an advertisement that is subject to the commission's authority, any rule, uniform standard or other requirement of the commission that governs the content of the advertisement constitutes the exclusive provision that a commissioner may apply to the content of the advertisement. Notwithstanding this subsection, an action taken by the commission may not abrogate or restrict:

A. The access of any person to state courts; [PL 2003, c. 680, §1 (NEW).]

B. Remedies available under state law related to breach of contract, tort or other laws not specifically directed to the content of the product; [PL 2003, c. 680, §1 (NEW).]

3. Insurance products subject to laws. All insurance products filed with individual states are subject to the laws of those states.

[PL 2003, c. 680, §1 (NEW).]

4. Binding effect of compact. The compact is binding as follows.

A. All lawful actions of the commission, including all rules and operating procedures promulgated by the commission, are binding upon the compacting states. [PL 2003, c. 680, §1 (NEW).]

B. All agreements between the commission and the compacting states are binding in accordance with their terms. [PL 2003, c. 680, §1 (NEW).]

C. Upon the request of a party to a conflict over the meaning or interpretation of commission actions, and upon a majority vote of the compacting states, the commission may issue advisory opinions regarding the meaning or interpretation in dispute. [PL 2003, c. 680, §1 (NEW).]

D. In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of a compacting state, the obligation, duty, power or jurisdiction sought to be conferred by that provision upon the commission is ineffective as to that compacting state, and that obligation, duty, power or jurisdiction remains in the compacting state and must be exercised by the agency thereof to which that obligation, duty, power or jurisdiction is delegated by law in effect at the time this compact becomes effective. The policy may also provide that if interest on any indebtedness is not paid when due, it shall then be added to the existing indebtedness and shall bear interest at the same rate, and that if and when the total indebtedness on the policy, including interest due or accrued, equals or exceeds the amount of the loan value thereof, then the policy shall terminate and become void, but not until at least 30 days' notice has been mailed by the insurer to the last address, of record with the insurer, of the

1. No life insurance policy, other than industrial insurance, shall be delivered or issued for delivery in this State, if it contains any of the following provisions:

B. A provision for any mode of settlement at maturity of the policy of less value than the amount insured under the policy, plus dividend additions, if any, less any indebtedness to the insurer on or secured by the policy and less any premium that may by the terms of the policy be deducted. [PL 1969, c. 132, §1 (NEW).]

B. A provision giving the insurer the right to declare the policy void because the insured has had any disease or ailment, whether specified or not, or because the insured has received institutional, hospital, medical or surgical treatment or attention, except a provision which gives the insurer the right to declare the policy void if the insured has, within 2 years prior to the issuance of the policy, received institutional, hospital, medical or surgical treatment or attention and if the insured or claimant under the policy fails to show that the condition occasioning such treatment or attention was not of a serious nature or was not material to the risk. [PL 1969, c. 132, §1 (NEW).]

C. A provision giving the insurer the right to declare the policy void because the insured has been rejected for insurance, unless such right be conditioned upon a showing by the insurer that knowledge of such rejection would have led to a refusal by the insurer to make such contract. §2529. Nonforfeiture provisions

1. In the case of policies issued on or after January 1, 1970, no policy of life insurance, except as stated in section 2534, may be delivered or issued for delivery in this State, unless it shall contain in substance the following provisions, or corresponding provisions which in the opinion of the superintendent are at least as favorable to the defaulting or surrendering policyholder as are the minimum requirements hereinafter specified and which are essentially in compliance with section 2533-A:

A. Paid-up nonforfeiture benefit. That, in the event of default in any premium payment, the insurer will grant, upon proper request not later than 60 days after the due date of the premium in default, a paid-up nonforfeiture benefit on a plan stipulated in the policy, effective as of that due date, of such amount as may be hereinafter specified. In lieu of the stipulated paid-up nonforfeiture benefit, the insurer may substitute, upon proper request not later than 60 days after the due date of the premium in default, an actuarially equivalent alternative paid-up nonforfeiture benefit which provides a greater amount or longer period of death benefits or, if applicable, a greater amount or earlier payment of endowment benefits; [PL 1983, c. 346, §10 (AMD).]

B. Cash surrender value. That, upon surrender of the policy within 60 days after the due date of any premium payment in default after premiums have been paid for at least 3 full years in the case

of ordinary insurance or 5 full years in the case of industrial insurance, the insurer will pay, in lieu of any paid-up nonforfeiture benefit, a cash surrender value of such amount as may be hereinafter specified; [PL 1983, c. 346, §10 (AMD).]

C. Effective date of benefit. That a specified paid-up nonforfeiture benefit shall become effective as specified in the policy unless the person entitled to make such election elects another available option not later than 60 days after the due date of the premium in default; [PL 1983, c. 346, §10 (AMD).]

D. Cash surrender value if policy paid up. That, if the policy shall have become paid up by completion of all premium payments or if it is continued under any paid-up nonforfeiture benefit which became effective on or after the 3rd policy anniversary in the case of ordinary insurance or the 5th policy anniversary in the case of industrial insurance, the insurer will pay, upon surrender of the policy within 30 days after any policy anniversary, a cash surrender value of such amount as may be hereinafter specified; [PL 1983, c. 346, §10 (AMD).]

E. Mortality table and interest rate used. In the case of policies which cause, on a basis guaranteed in the policy, unscheduled changes in benefits or premiums, or which provide an option for changes in benefits or premiums other than a change to a new policy, a statement of the mortality table, interest rate, and method used in calculating cash surrender values and the paid-up nonforfeiture benefits available under the policy. In the case of all other policies, a statement of the mortality table and interest rate used in calculating the cash surrender values and the paid-up nonforfeiture benefits available under the policy, together with a table showing the cash surrender value, if any, and paid-up nonforfeiture benefit, if any, available under the policy on each policy anniversary either during the first 20 policy years or during the term of the policy, whichever is shorter, those values and benefits to be calculated upon the assumption that there are no dividends or paid-up additions credited to the policy and that there is no indebtedness to the insurer on the policy; and [PL 1983, c. 346, §10 (AMD).]

F. Method used in computing value and benefit. A statement that the cash surrender values and the paid-up nonforfeiture benefits available under the policy are not less than the minimum values and benefits required by or pursuant to the insurance law of the state in which the policy is delivered; an explanation of the manner in which the cash surrender values and the paid-up nonforfeiture benefits are altered by the existence of any paid-up additions credited to the policy or any indebtedness to the insurer on the policy; if a detailed statement of the method of computation of the values and benefits shown in the policy is not stated therein, a statement that such method of computation has been filed with the insurance supervisory official of the state in which the policy is delivered; and a statement of the method to be used in calculating the cash surrender value and paid-up nonforfeiture benefit available under the policy on any policy anniversary beyond the last anniversary for which such values and benefits are consecutively shown in the policy. [PL 1983, c. 346, §10 (AMD).]

[PL 1983, c. 346, §10 (AMD).]

2. Any of the foregoing provisions or portions thereof not applicable by reason of the plan of insurance may, to the extent inapplicable, be omitted from the policy.

[PL 1969, c. 132, §1 (NEW).]

3. The insurer shall reserve the right to defer the payment of any cash surrender value for a period of 6 months after demand therefor with surrender of the policy.

§2530. Cash surrender value

1. Any cash surrender value available under the policy in the event of default in a premium payment due on any policy anniversary, whether or not required by section 2529, shall be an amount not less than the excess, if any, of the present value, on that anniversary, of the future guaranteed benefits which would have been provided for by the policy, including any existing paid-up additions, if there had been no default, over the sum of:

A. Present value of adjusted premiums. The then present value of the adjusted premiums as defined in sections 2532 and 2532-A, corresponding to premiums which would have fallen due on and after that anniversary; and [PL 1983, c. 346, §11 (NEW).]

B. Amount of indebtedness. The amount of any indebtedness to the insurer on the policy. [PL 1983, c. 346, §11 (NEW).]
[PL 1983, c. 346, §11 (RPR).]

2. For any policy issued on or after the operative date of section 2532-A as defined therein, which provides supplemental life insurance or annuity benefits at the option of the insured and for an identifiable additional premium by rider or supplemental policy provision, the cash surrender value referred to in subsection 1 shall be an amount not less than the sum of the cash surrender value as defined in that subsection for an otherwise similar policy issued at the same age without that rider or supplemental policy provision and the cash surrender value as defined in that subsection for a policy which provides only the benefits otherwise provided by that rider or supplemental policy provision.
[PL 1983, c. 346, §11 (RPR).]

3. For any family policy issued on or after the operative date of section 2532-A as defined therein, which defines a primary insured and provides term insurance on the life of the spouse of the primary insured expiring before the spouse's age 71, the cash surrender value referred to in subsection 1 shall be an amount not less than the sum of the cash surrender value as defined in that subsection for an otherwise similar policy issued at the same age without that term insurance on the life of the spouse and the cash surrender value as defined in that subsection for a policy which provides only the benefits otherwise provided by that term insurance on the life of the spouse.
[PL 1983, c. 346, §11 (NEW).]

4. Any cash surrender value available within 30 days after any policy anniversary under any policy paid-up by completion of all premium payments or any policy continued under any paid-up nonforfeiture benefit, whether or not required by section 2529, shall be an amount not less than the present value, on that anniversary, of the future guaranteed benefits provided for by the policy, including any existing paid-up additions, decreased by any indebtedness to the insurer on the policy.

§2531. Paid-up nonforfeiture benefits

Any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment due on any policy anniversary shall be such that its present value as of such anniversary shall be at least equal to the cash surrender value then provided for by the policy or, if none is provided for, that cash surrender value which would have been required by sections 2529 to 2534 in the absence of the condition that premiums shall have been paid for at least a specified period. §2532. Adjusted premiums for policies issued before the operative date of section 2532-A

1. This section shall not apply to policies issued on or after the operative date of section 2532-A as defined therein.

[PL 1983, c. 346, §12 (RPR).]

2. Except as provided in subsection 4, the adjusted premiums for any policy shall be calculated on an annual basis and shall be the uniform percentage of the respective premiums specified in the policy for each policy year, excluding any extra premiums charged because of cover impairments or special hazards, that the present value, at the date of issue of the policy, of all those adjusted premiums shall be equal to the sum of:

A. The then present value of the future guaranteed benefits provided for by the policy; [PL 1983, c. 346, §12 (NEW).]

B. Two percent of the amount of insurance, if the insurance be uniform in amounts, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy; [PL 1983, c. 346, §12 (NEW).]

C. Forty percent of the adjusted premium for the first policy year; and [PL 1983, c. 346, §12 (NEW).]

D. Twenty-five percent of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less. [PL 1983, c. 346, §12 (NEW).]

In applying the percentages specified in paragraphs C and D, no adjusted premium may be deemed to exceed 4% of the amount of insurance or uniform amount equivalent thereto. The date of issue of a policy for the purpose of this section shall be the date as of which the rated age of the insured is determined.

[PL 1983, c. 346, §12 (RPR).]

3. In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent uniform amount thereof for the purpose of this section shall be deemed to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy, provided that in the case of a policy providing a varying amount of insurance issued on the life of a child under age 10, the equivalent uniform amount may be computed as though the amount of insurance provided by the policy prior to the attainment of age 10 were the amount provided by that policy at age 10.

[PL 1983, c. 346, §12 (RPR).]

4. The adjusted premiums for any policy providing term insurance benefits by rider or supplemental policy provision shall be equal to:

A. The adjusted premiums for an otherwise similar policy issued at the same age without those term insurance benefits, increased, during the period for which premiums for those term insurance benefits are payable, by [PL 1983, c. 346, §12 (NEW).]

B. The adjusted premiums for that term insurance. [PL 1983, c. 346, §12 (NEW).]

Paragraphs A and B shall be calculated separately and as specified in subsections 2 and 3, except that, for purposes of subsection 2, paragraphs B, C and D, the amount of insurance or equivalent uniform amount of insurance used in the calculation of the adjusted premiums referred to in paragraph B of this subsection shall be equal to the excess of the corresponding amount determined for the entire policy over the amount used in the calculation of the adjusted premiums in paragraph A.

[PL 1983, c. 346, §12 (RPR).]

5. Except as provided in subsection 6 and in section 2532-A, all adjusted premiums and present values referred to in sections 2529 to 2534 shall for all policies of ordinary insurance be calculated on the basis of the Commissioners 1958 Standard Ordinary Mortality Table, provided that, for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than 3 years younger than the actual age of the insured, and those calculations for all policies of industrial insurance shall be made on the basis of the Commissioners 1961 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits, provided that that rate of interest shall not exceed 3 1/2% each year, except that a rate of interest not exceeding 4% each year may be used for policies issued on or after December 31, 1975. In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit for ordinary insurance, the rates of mortality assumed may not be more than those shown in the Commissioners 1958 Extended Term Insurance Table and for industrial insurance rates of mortality may not be more than those shown in the Commissioners 1961 Industrial Extended Term Insurance Table. For insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the insurer and approved by the superintendent. [PL 1983, c. 346, §12 (RPR).]

6. In the case of policies issued on or after January 1, 1980, adjusted premiums and present values for any category of ordinary insurance issued on female risks may be calculated according to an age not more than 6 years younger than the actual age of the insured. All calculations for all policies of ordinary and industrial insurance shall be made on the basis of the rate of interest specified on the policy for calculating cash surrender values and paid-up nonforfeiture benefits, provided that the rate of interest shall not exceed 5 1/2% each year. [PL 1983, c. 346, §12 (NEW).]

§2532-A. Adjusted premiums for policies issued on or after January 1, 1989, or elected operative date of this section

1. This section shall apply to all policies issued on or after the operative date of this section as defined herein. Except as provided in subsection 7, the adjusted premiums for any policy shall be calculated on an annual basis and shall be that uniform percentage of the respective premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments or special hazards and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the date of issue of the policy, of all adjusted premiums shall be equal to the sum of:

- A. The then present value of the future guaranteed benefits provided for by the policy; [PL 1983, c. 346, §13 (NEW).]
- B. One percent of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years; and [PL 1983, c. 346, §13 (NEW).]
- C. One hundred twenty-five percent of the nonforfeiture net level premium as hereinafter defined. [PL 1983, c. 346, §13 (NEW).]

In applying the percentage specified in paragraph C, no nonforfeiture net level premium may be deemed to exceed 4% of either the amount of insurance, if the insurance be uniform in amount, or the average

amount of insurance at the beginning of each of the first 10 policy years. The date of issue of a policy for the purpose of this section shall be the date as of which the rated age of the insured is determined. [PL 1983, c. 346, §13 (NEW).]

2. The nonforfeiture net level premium shall be equal to the present value, at the date of issue of the policy, of the guaranteed benefits provided for by the policy divided by the present value, at the date of issue of the policy, of an annuity of one per annum payable on the date of issue of the policy and on each anniversary of the policy on which a premium falls due. [PL 1983, c. 346, §13 (NEW).]

3. In the case of policies which cause, on a basis guaranteed in the policy, unscheduled changes in benefits or premiums, or which provide an option for changes in benefits or premiums other than a change to a new policy, the adjusted premiums and present values shall initially be calculated on the assumption that future benefits and premiums do not change from those stipulated at the date of issue of the policy. At the time of any change of that type in the benefits or premiums the future adjusted premiums, nonforfeiture net level premiums and present values shall be recalculated on the assumption that future benefits and premiums do not change from those stipulated by the policy immediately after the change. [PL 1983, c. 346, §13 (NEW).]

4. Except as otherwise provided in subsection 7, the recalculated future adjusted premiums for any policy of that type shall be that uniform percentage of the respective future premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments and special hazards, and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the time of change to the newly defined benefits or premiums of all those future adjusted premiums shall be equal to the excess of:

A. The sum of the then present value of the then future guaranteed benefits provided for by the policy and the additional expense allowance, if any; over [PL 1983, c. 346, §13 (NEW).]

B. The then cash surrender value, if any, or present value of any paid-up nonforfeiture benefit under the policy. [PL 1983, c. 346, §13 (NEW).]

[PL 1983, c. 346, §13 (NEW).]

5. The additional expense allowance, at the time of the change to the newly defined benefits or premiums, shall be the sum of:

A. One percent of the excess, if positive, of the average amount of insurance at the beginning of each of the first 10 policy years subsequent to the change over the average amount of insurance prior to the change at the beginning of each of the first 10 policy years subsequent to the time of the most recent previous change, or, if there has been no previous change, the date of issue of the policy; and [PL 1983, c. 346, §13 (NEW).]

B. One hundred twenty-five percent of the increase, if positive, in the nonforfeiture net level premium. [PL 1983, c. 346, §13 (NEW).]

[PL 1983, c. 346, §13 (NEW).]

6. The recalculated nonforfeiture net level premium shall be equal to the result obtained by dividing paragraph A by paragraph B where:

A. Paragraph A equals the sum of:

(1) The nonforfeiture net level premium applicable prior to the change times the present value of an annuity of one per annum payable on each anniversary of the policy on or subsequent to the date of the change on which a premium would have fallen due had the change not occurred; and

- (2) The present value of the increase in future guaranteed benefits provided for by the policy; and [PL 1983, c. 346, §13 (NEW).]
- B. Paragraph B equals the present value of an annuity of one per annum payable on each anniversary of the policy on or subsequent to the date of change on which a premium falls due. [PL 1983, c. 346, §13 (NEW).]
[PL 1983, c. 346, §13 (NEW).]
7. Notwithstanding any other provisions of this section to the contrary, in the case of a policy issued on a substandard basis which provides reduced graded amounts of insurance so that, in each policy year, that policy has the same tabular mortality cost as an otherwise similar policy issued on the standard basis which provides higher uniform amounts of insurance, adjusted premiums and present values for that substandard policy may be calculated as if it were issued to provide those higher uniform amounts of insurance on the standard basis.
[PL 1983, c. 346, §13 (NEW).]
8. All adjusted premiums and present values referred to in this Standard Nonforfeiture Law for Life Insurance shall, for all policies of ordinary insurance issued after the operative date of this section, be calculated on the basis of the Commissioners 1980 Standard Ordinary Mortality Table or, at the election of the insurer for any one or more specified plans of life insurance, the Commissioners 1980 Standard Ordinary Mortality Table with 10-year select mortality factors; shall, for all policies of industrial insurance, be calculated on the basis of the Commissioners 1961 Standard Industrial Mortality Table; and shall, for all policies issued in a particular calendar year, be calculated on the basis of a rate of interest not exceeding the nonforfeiture interest rate as defined in this section for policies issued in that calendar year, provided that:
- A. At the option of the insurer, calculations for all policies issued in a particular calendar year may be made on the basis of a rate of interest not exceeding the nonforfeiture interest rate, as defined in this section, for policies issued in the immediately preceding calendar year; [PL 1983, c. 346, §13 (NEW).]
- B. Under any paid-up nonforfeiture benefit, including any paid-up dividend additions, any cash surrender value available, whether or not required by section 2529, shall be calculated on the basis of the mortality table and rate of interest used in determining the amount of that paid-up nonforfeiture benefit and paid-up dividend additions, if any; [PL 1983, c. 346, §13 (NEW).]
- C. An insurer may calculate the amount of any guaranteed paid-up nonforfeiture benefit, including any paid-up additions under the policy on the basis of an interest rate no lower than that specified in the policy for calculating cash surrender values; [PL 1983, c. 346, §13 (NEW).]
- D. In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1980 Extended Term Insurance Table for policies of ordinary insurance and not more than the Commissioners 1961 Industrial Extended Term Insurance Table for policies of industrial insurance; [PL 1983, c. 346, §13 (NEW).]
- E. For insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on appropriate modifications of the tables mentioned in this section; [PL 1983, c. 346, §13 (NEW).]
- F. Any approved commissioners standard ordinary mortality tables, adopted in accordance with paragraph H, may be substituted for the Commissioners 1980 Standard Ordinary Mortality Table with or without 10-year select mortality factors or for the Commissioners 1980 Extended Term Insurance Table; [PL 2013, c. 238, Pt. C, §11 (AMD).]
- G. Any approved commissioners standard industrial mortality tables, adopted in accordance with paragraph H, may be substituted for the Commissioners 1961 Standard Industrial Mortality Table

or the Commissioners 1961 Industrial Extended Term Insurance Table; and [PL 2013, c. 238, Pt. C, §11 (AMD).]

H. For policies issued before the operative date of the valuation manual, as defined in section 951-A, subsection 3, the superintendent may adopt rules approving commissioners standard mortality tables for use in determining the minimum nonforfeiture standard. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. For policies issued on or after the operative date of the valuation manual, the applicable commissioners standard mortality tables specified in the valuation manual are approved for use in determining the minimum nonforfeiture standard unless superseded by rule adopted by the superintendent. [PL 2013, c. 238, Pt. C, §12 (NEW).]

[PL 2013, c. 238, Pt. C, §§11, 12 (AMD).]

9. The nonforfeiture interest rate per annum for any policy issued in a particular calendar year must be equal to 125% of the calendar year statutory valuation interest rate for that policy as defined in the Standard Valuation Law, rounded to the nearer 1/4 of 1%, except as otherwise provided in the valuation manual for policies issued on and after the operative date of the valuation manual, as defined in section 951-A, subsection 3.

[PL 2013, c. 238, Pt. C, §13 (AMD).]

10. Notwithstanding any other provision in this code to the contrary, any refiling of nonforfeiture values or their methods of computation for any previously approved policy form which involves only a change in the interest rate or mortality table used to compute nonforfeiture values shall not require refiling of any other provisions of that policy form.

[PL 1983, c. 346, §13 (NEW).]

11. After the effective date of this section, any insurer may file with the superintendent a written notice of its election to comply with the provisions of this section after a specified date before January 1, 1989, which shall be the operative date of this section for that insurer. If an insurer makes no such election, the operative date of this section for that company shall be January 1, 1989.

§2532-B. Superintendent's authority to approve certain new plans

1. In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurer based on then estimates of future experience, or in the case of any plan of life insurance which is of such a nature that minimum values cannot be determined by the methods described in sections 2529 to 2532-A herein, then:

A. The superintendent must be satisfied that the benefits provided under the plan are substantially as favorable to policyholders and insureds as the minimum benefits otherwise required by sections 2529 to 2532-A herein; [PL 1983, c. 346, §14 (NEW).]

B. The superintendent must be satisfied that the benefits and the pattern of premiums of that plan are not such as to mislead prospective policyholders or insureds; and [PL 1983, c. 346, §14 (NEW).]

C. The cash surrender values and paid-up nonforfeiture benefits provided by that plan must not be less than the minimum values and benefits required for the plan computed by a method consistent with the principles of this Standard Nonforfeiture Law for Life Insurance, as determined by regulations promulgated by the superintendent. [PL 1983, c. 346, §14 (NEW).]

§2533. Calculation of cash surrender value of certain policies on default

Any cash surrender value and any paid-up nonforfeiture benefit, available under the policy in the event of default in a premium payment due at any time other than on the policy anniversary, shall be calculated with allowance for the lapse of time and the payment of fractional premiums beyond the last preceding policy anniversary. All values referred to in sections 2530 to 2532-A may be calculated upon the assumption that any death benefit is payable at the end of the policy year of death. The net value of any paid-up additions, other than paid-up term additions, shall be not less than the amounts used to provide those additions. Notwithstanding section 2530, additional benefits payable: [PL 1983, c. 346, §15 (AMD).]

1. Death or accident. In the event of death or dismemberment by accident or accidental means; [PL 1969, c. 132, §1 (NEW).]

2. Total disability. In the event of total and permanent disability; [PL 1969, c. 132, §1 (NEW).]

3. Reversionary annuity. As reversionary annuity or deferred reversionary annuity benefits; [PL 1969, c. 132, §1 (NEW).]

4. Term insurance benefits. As term insurance benefits provided by a rider or supplemental policy provisions to which, if issued as a separate policy, section 2529 to 2534 would not apply; [PL 1969, c. 132, §1 (NEW).]

5. Child term insurance benefits. As term insurance on the life of a child or on the lives of children provided in a policy on the life of a parent of the child, if such term insurance expires before the child's age is 26, is uniform in amount after the child's age is one, and has not become paid up by reason of the death of a parent of the child; and [PL 1969, c. 132, §1 (NEW).]

6. Other policy benefits. As other policy benefits additional to life insurance and endowment benefits; and premiums for all such additional benefits, shall be disregarded in ascertaining cash surrender values and nonforfeiture benefits required by sections 2529 to 2534, and no such additional benefits shall be required to be included in any paid-up nonforfeiture benefits. [PL 1969, c. 132, §1 (NEW).]

SECTION HISTORY

PL 1969, c. 132, §1 (NEW). PL 1983, c. 346, §15 (AMD).

§2533-A. Additional provisions for policies issued after January 1, 1987

1. This section, in addition to all other applicable sections of the Standard Nonforfeiture Law for Life Insurance, applies to all policies issued on or after January 1, 1987. Any cash surrender value available under the policy in the event of default in a premium payment due on any policy anniversary must be in an amount that does not differ by more than 2/10ths of 1% of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years, from the sum of:

A. The greater of zero and the basic cash value specified in subsection 2; and [RR 1993, c. 1, §60 (COR).]

B. The present value of any existing paid-up additions less the amount of any indebtedness to the company under the policy. [PL 1983, c. 346, §16 (NEW).]
[RR 1993, c. 1, §60 (COR).]

2. The basic cash value is equal to the present value, on that anniversary, of the future guaranteed benefits that would have been provided for by the policy, excluding any existing paid-up additions and

before deduction of any indebtedness to the insurer, if there had been no default, less the then present value of the nonforfeiture factors, as defined in subsection 3, corresponding to premiums that would have fallen due on and after that anniversary, except that the effects on the basic cash value of supplemental life insurance or annuity benefits or of family coverage, as described in section 2530 or 2532, whichever is applicable, must be the same as are the effects specified in section 2530 or 2532, whichever is applicable on the cash surrender values defined in that section.

[RR 1993, c. 1, §60 (COR).]

3. The nonforfeiture factor for each policy year must be an amount equal to a percentage of the adjusted premium for the policy year, as defined in section 2532 or 2532-A, whichever is applicable. Except as is required by subsection 4, that percentage:

A. Must be the same percentage for each policy year between the 2nd policy anniversary and the later of the 5th policy anniversary and the first policy anniversary at which there is available under the policy a cash surrender value in an amount, before including any paid-up additions and before deducting any indebtedness, of at least 2/10ths of 1% of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years; and [PL 1983, c. 346, §16 (NEW).]

B. Must be such that no percentage after the later of the 2 policy anniversaries, specified in paragraph A, may apply to fewer than 5 consecutive policy years. [PL 1983, c. 346, §16 (NEW).]
[RR 1993, c. 1, §60 (COR).]

4. No basic cash value may be less than the value that would be obtained if the adjusted premiums for the policy, as defined in section 2532 or 2532-A, whichever is applicable, were substituted for the nonforfeiture factors in the calculation of the basic cash value.

[RR 1993, c. 1, §60 (COR).]

5. All adjusted premiums and present values referred to in this section are for a particular policy calculated on the same mortality and interest bases as are used in demonstrating the policy's compliance with the other sections of the Standard Nonforfeiture Law for Life Insurance. The cash surrender values referred to in this section must include any endowment benefits provided for by the policy.

[RR 1993, c. 1, §60 (COR).]

6. Any cash surrender value available other than in the event of default in a premium payment due on a policy anniversary, and the amount of any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment must be determined in manners consistent with the manners specified for determining the analogous minimum amounts in sections 2529 to 2532-A and section 2533. The amounts of any cash surrender values and of any paid-up nonforfeiture benefits granted in connection with additional benefits such as those listed in section 2533, subsections 1 to 6, must conform with the principles of this section.

6. Any term policy of decreasing amount, which provides no guaranteed nonforfeiture or endowment benefits, on which each adjusted premium, calculated as specified in sections 2532 and 2532-A, is less than the adjusted premium so calculated, on a term policy of uniform amount, or renewal thereof, which provides no guaranteed nonforfeiture or endowment benefits, issued at the same age and for the same initial amount of insurance and for a term of 20 years or less expiring before age 71, for which uniform premiums are payable during the entire term of the policy;

[PL 1969, c. 132, §1 (NEW).]

2. §2536. Participating, nonparticipating policies -- right to issue

A life insurer may issue policies on either the participating basis or the nonparticipating basis, or on both bases, if the right or absence of right of participation is reasonably related to the premium charged and the insurer is otherwise not in violation of sections 2159 (unfair discrimination -- life insurance, annuities, and health insurance) or 2160 (rebates -- life, health and annuity contracts). [PL 1969, c. 132, §1 (NEW).]

SECTION HISTORY

§2537. Separate accounts

1. Any domestic insurer may establish one or more separate accounts, including that type known as a unit investment trust, as defined by the Investment Company Act of 1940, Stat. 789, 15 U.S.C. § 80a, et seq., as amended, and may allocate to such separate accounts, in accordance with the terms of a written contract or agreement or annuity or pension, profitsharing or retirement plan, whether or not qualified under the applicable provisions of the Internal Revenue Code, 68A Stat. 1, 26 U.S.C. § 1, et seq., as amended, with any individual or any group, any amounts, including without limitation proceeds applied under optional modes of settlement or under dividend options, paid or remitted to or held by the insurer which are to be applied to provide for life insurance or annuities and benefits incidental thereto, payable in fixed and guaranteed or variable dollar amounts, or both.

[PL 1973, c. 560, §3 (AMD).]

2. The amounts allocated to each account of that type and accumulations thereon may be invested and reinvested as provided in section 1159 (special investments: separate accounts). Amounts allocated to a separate account in the exercise of the power granted by this section shall be owned by the insurer, and the insurer shall not be, nor hold itself out to be, a trustee with respect to those amounts.

[PL 1987, c. 399, §15 (AMD).]

3. The income, gains and losses, realized or unrealized, from assets allocated to a separate account shall be credited to or charged against the separate account, without regard to other income, gains or losses of the insurer. If and to the extent so provided under the applicable contracts, that portion of the assets of any such separate account equal to the reserves and other contract liabilities with respect to such account shall not be chargeable with liabilities arising out of any other business the insurer may conduct.

[PL 1973, c. 560, §5 (AMD).]

4. Unless otherwise approved by the superintendent, assets allocated to a separate account shall be valued at their market value on the date of that valuation, or if there is no readily available market, then in accordance with the terms of the contract or the rules or other written agreement applicable to that separate account; except that, unless otherwise approved by the superintendent, the portion of the assets of that separate account at least equal to the insurer's reserve liability with regard to the guaranteed benefits and funds referred to in section 1159, if any, shall be valued in accordance with rules otherwise applicable to the insurer's assets.

[PL 1987, c. 399, §16 (AMD).]

5. If the contract or agreement provides for payment of benefits in variable amounts, it shall contain a statement of the essential features of the procedure to be followed by the insurer in determining the dollar amount of such variable benefits. Any such contract or agreement, under which the benefits vary to reflect investment experience, including a group agreement and any certificate in evidence of variable benefits issued thereunder, shall state that such dollar amount will so vary and shall contain on its first page a statement that the benefits thereunder are on a variable basis.

[PL 1973, c. 560, §7 (AMD).]

6. No insurer shall deliver or issue for delivery within this State any contract or agreement providing benefits in variable amounts under this section unless it is duly authorized to conduct a life insurance or annuity business within this State and has satisfied the superintendent that its condition or methods of operation in connection with the issuance of such contracts or agreements will not render its operation hazardous to the public or its policyholders in this State. In determining the qualification of an insurer requesting such authority, the superintendent shall consider, among other things:

A. The history and financial condition of the insurer; [PL 1969, c. 132, §1 (NEW).]

B. The character, responsibility and general fitness of the officers and directors of the insurer; and [PL 1969, c. 132, §1 (NEW).]

C. The law and regulation under which the insurer is authorized in the state of domicile to issue variable contracts. [PL 1973, c. 560, §8 (RPR).]

An insurer which issues variable contracts and which is a subsidiary of, or affiliated through common management or ownership with, another life insurer authorized to transact business in this State may be deemed by the superintendent to have met the provisions of this subsection, if either it or the parent or affiliated insurer meets the requirements hereof.

[PL 1973, c. 560, §§8, 9 (AMD); PL 1973, c. 585, §12 (AMD).]

7. Any insurer which establishes one or more separate accounts pursuant to subsection 1, to the extent it deems necessary to comply with the Investment Company Act of 1940, 54 Stat. 789, 15 U.S.C. § 80a, et seq., as amended, may amend its charter to provide, with respect to any separate account or any portion thereof, for the benefit of persons having beneficial interests therein, special voting and other rights and special procedures for the conduct of the business and affairs of such separate account or portion thereof, including without limitation special rights and procedures relating to investment policy, investment advisory services, selection of independent public accountants, and selection of a committee, the members of which need not be otherwise affiliated with the insurer, to manage the business and affairs of such separate account or portion thereof. In addition, the insurer may make such other provisions in respect to the separate account, as the insurer may deem appropriate to facilitate compliance with any requirements of, or pursuant to, any federal or state law, now or hereafter in effect. However, this subsection shall not in any manner affect existing laws pertaining to the voting rights of the policyholders of the insurer.

[PL 1969, c. 132, §1 (NEW).]

8. No sale, exchange or other transfer of assets may be made by an insurer between any of its separate accounts or between any other investment account and one or more of its separate accounts unless, in case of a transfer into a separate account, such transfer is made solely to establish the account or to support the operation of the contracts with respect to the separate account to which the transfer is made, and unless such transfer, whether into or from a separate account is made,

A. By a transfer of cash, or [PL 1969, c. 132, §1 (NEW).]

B. By a transfer of securities having a readily determinable market value, as long as such transfer of securities is approved by the superintendent. The superintendent may approve other transfers among such accounts if, in the superintendent's opinion, such transfers would not be inequitable. [RR 2021, c. 1, Pt. B, §226 (COR).]

[RR 2021, c. 1, Pt. B, §226 (COR).]

9. The insurer shall not, in connection with the allocation of investments or expenses, or in any other respect, discriminate unfairly between separate accounts or between separate and other accounts, but this subsection shall not require the insurer to follow uniform investment policies for its accounts.

[PL 1969, c. 132, §1 (NEW).]

10. A variable annuity contract delivered or issued for delivery in this State may include as an incidental benefit a provision for payment on death during the deferred period of an amount equal to either the value of the contract at the time of death or the sum of the premiums less adjusted withdrawals from the policy, whichever is greater. The beneficiary under the contract may not be paid any other amount. A variable annuity contract that includes such incidental benefit may not be deemed to be life insurance and therefore is not subject to the provisions of this Title governing life insurance contracts. A variable annuity contract with a provision for any other benefit on death during the deferred period is subject to the provisions of this Title governing life insurance contracts. A payment on death pursuant to a variable annuity contract under this subsection must be made in accordance with section 2436.

This subsection applies to variable annuity contracts delivered or issued for delivery in this State on or after January 1, 2009.

[PL 2011, c. 163, §1 (AMD).]

11. Notwithstanding any other provision of law, the superintendent shall have sole authority to regulate the issuance and sale of variable contracts and to promulgate such rules and regulations as may be necessary for the effectuation of this section.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

12. Except for sections 2505, 2510, 2511, 2512, 2528 to 2534 and 2614, in the case of a variable life insurance policy and except as otherwise provided in this section, all pertinent provisions of this Title shall apply to separate accounts and contracts relating thereto. Any individual variable life insurance contract, delivered or issued for delivery in this State, shall contain grace, reinstatement and nonforfeiture provisions appropriate to such a contract. Any individual variable annuity contract, delivered or issued for delivery in this State, shall contain grace and reinstatement provisions appropriate to such a contract. Any group variable life insurance contract, delivered or issued for delivery in this State, shall contain grace provisions appropriate to such a contract. The reserve liability for variable contracts shall be established in accordance with actuarial procedures that recognize the variable nature of the benefits provided and any mortality guarantees.

1. No life insurer shall hereafter deliver or issue for delivery in this State:

A. As part of or in combination with any life insurance, endowment or annuity contract, any agreement or plan, additional to the rights, dividends, and benefits arising out of any such contract, which provides for the accumulation of profits over a period of years and for payment of all or any part of such accumulated profits only to members or policyholders of a designated group or class who continue as members or policyholders until the end of a specified or ascertainable period of years. [PL 1969, c. 132, §1 (NEW).]

[PL 1969, c. 132, §1 (NEW).]

C. Any policy or contract under which any part of the premium or of funds or values arising from the policy or contract or from investment of reserves, or from mortality savings, lapses or surrenders, in excess of the normal reserves or amounts required to pay death, endowment, and nonforfeiture benefits in respective amounts as specified in or pursuant to the policy or contract, are on a basis not involving insurance or life contingency features,

(1) To be placed in special funds or segregated accounts or specially designated places or

(2) To be invested in specially designated investments or types thereof, and the funds or earnings thereon to be divided among the holders of such policies or contracts, or their beneficiaries or assignees. This provision does not apply as to any contract authorized under section 2537. [PL 1969, c. 132, §1 (NEW).]

D. Any policy which provides that on the death of anyone not specifically named therein the owner or beneficiary shall receive the payment or granting of anything of value. This provision shall not prohibit family policies insuring unspecified members of a family, nor prohibit payment to unspecified beneficiaries of a class designated by the insured or policy owner. [PL 1969, c. 132, §1 (NEW).]

E. Any policy providing benefits or values for surviving or continuing policyholders contingent upon the lapse or termination of the policies of other policyholders, whether by death or otherwise. [PL 1969, c. 132, §1 (NEW).]

F. Any policy, other than as authorized under section 2537 (separate accounts), containing or referring to one or more of the following provisions or statements:

- (1) Investment returns or profit-sharing, other than as a participation in the divisible surplus of the insurer under a regular participation provision as provided for in section 2509.
- (2) Special treatment in the determination of any dividend that may be paid as to such policy.
- (3) Reference to premiums as "deposits".
- (4) Relating policyholder interest or returns from such policy or contract to those of stockholders.
- (5) That the policyholder as a member of a select group will be entitled to extra benefits or extra dividends not available to policyholders generally. [PL 1969, c. 132, §1 (NEW).]

[PL 1969, c. 132, §1 (NEW).]

[PL 1969, c. 132, §1 (NEW).]

In the case of contracts issued on or after January 1, 1980, no contract of annuity, except as stated in section 2542, shall be delivered in this State unless it contains in substance the following provisions, or corresponding provisions which in the opinion of the superintendent are at least as favorable to the contract holder, upon cessation of payment of considerations under the contract:

A. Upon cessation of payment of considerations under a contract, the insurer will grant a paid-up annuity benefit on a plan stipulated in the contract of such value as is specified in sections 2545 to 2548 and section 2550; [PL 1979, c. 442, §4 (NEW).]

B. If a contract provides for a lump sum settlement at maturity, or at any other time, upon surrender of the contract at or prior to the commencement of any annuity payments, the insurer will pay in lieu of any paid-up annuity benefit a cash surrender benefit of such amount as is specified in sections 2545 to 2548 and section 2550. The insurer shall reserve the right to defer the payment of the cash surrender benefit for a period of 6 months after demand therefor with surrender of the contract; [PL 1979, c. 442, §4 (NEW).]

PL 1979, c. 442, §4 (NEW).

§2544. Minimum values

The minimum values as specified in sections 2545 to 2548 and section 2550 of any paid-up annuity, cash surrender or death benefits available under an annuity contract must be based upon minimum nonforfeiture amounts as defined in this section. [PL 2003, c. 307, §1 (AMD).]

1. The minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments must be equal to an accumulation up to that time at a rate of interest as permitted under subsection 1-A of the net considerations, as hereinafter defined, paid prior to that time, decreased by the sum of:

A. Any prior withdrawals from or partial surrenders of the contract accumulated at a rate of interest as permitted under subsection 1-A; [PL 2003, c. 307, §1 (AMD).]

B. The amount of any indebtedness to the insurer on the contract, including interest due and accrued; [PL 2003, c. 307, §1 (AMD).]

C. An annual contract charge of \$50, accumulated at a rate of interest as permitted under subsection 1-A; and [PL 2003, c. 307, §1 (NEW).]

D. Any premium tax paid by the insurer for the contract, accumulated at a rate of interest as permitted under subsection 1-A. [PL 2003, c. 307, §1 (NEW).]

The net considerations for a given contract year used to define the minimum nonforfeiture amount must be an amount equal to 87 1/2% of the gross considerations credited to the contract during that contract year.

[PL 2003, c. 307, §1 (AMD).]

1-A. The rate of interest used in determining minimum nonforfeiture amounts must be determined in accordance with the following requirements and specified in any contract providing for recalculation of the rate of interest permitted under this subsection.

A. The rate of interest must be an annual rate of interest determined as the lesser of 3% per annum and the 5-year Constant Maturity Treasury Rate reported by the Federal Reserve rounded to the nearest 1/20th of 1% as of a date, or average over a period, specified in the contract that is no later than 15 months prior to the contract issue date or the redetermination date decreased by 125 basis points as long as the resulting rate of interest is not less than 1%. [PL 2003, c. 307, §1 (NEW).]

B. The rate of interest applies for an initial period and may be redetermined for additional periods. The redetermination date, basis and period, if any, must be stated in the contract. The basis is the date or average over a specified period that produces the value of the 5-year Constant Maturity Treasury Rate to be used at each redetermination date. [PL 2003, c. 307, §1 (NEW).]

C. During the period or term that a contract provides substantive participation in an equity indexed benefit, the contract may increase the reduction described in paragraph A by up to an additional 100 basis points to reflect the value of the equity indexed benefit. The present value at the contract issue date, and at each redetermination date thereafter, of the additional reduction may not exceed the market value of the benefit. The superintendent may require a demonstration that the present value of the additional reduction does not exceed the market value of the benefit and may disallow or limit the reduction if such a demonstration is not accepted. [PL 2003, c. 307, §1 (NEW).]

D. The superintendent may adopt rules to implement this subsection and to provide for further adjustments to the minimum nonforfeiture amounts for contracts providing for substantive participation in an equity indexed benefit and for contracts for which the superintendent determines adjustments are appropriate. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2003, c. 307, §1 (NEW).]

§2545. Computation of present value

Any paid-up annuity benefit available under a contract shall be such that its present value on the date annuity payments are to commence is at least equal to the minimum nonforfeiture amount on that date. The present value shall be computed using the mortality table, if any, and the interest rate specified in the contract for determining the minimum paid-up annuity benefits guaranteed in the contract. [PL 1979, c. 442, §4 (NEW).]

SECTION HISTORY

PL 1979, c. 442, §4 (NEW).

§2546. Calculation of cash surrender values

For contracts that provide cash surrender benefits, the cash surrender benefits available prior to maturity may not be less than the present value as of the date of surrender of that portion of the maturity value of the paid-up annuity benefit that would be provided under the contract at maturity arising from considerations paid prior to the time of cash surrender reduced by the amount appropriate to reflect any prior withdrawals from or partial surrenders of the contract, the present value being calculated on the basis of an interest rate not more than 1% higher than the interest rate specified in the contract for accumulating the net considerations to determine the maturity value, decreased by the amount of any indebtedness to the insurer on the contract, including interest due and accrued, and increased by any existing additional amounts credited by the insurer to the contract. In no event may any cash surrender benefit be less than the minimum nonforfeiture amount at that time. The death benefit under the contracts must be at least equal to the cash surrender benefit. §2547. Calculation of paid-up annuity benefits

For contracts which do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time prior to maturity shall not be less than the present value of that portion of the maturity value of the paid-up annuity benefit provided under the contract arising from considerations paid prior to the time the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity, the present value being calculated for the period prior to the maturity date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine the maturity value, and increased by existing additional amounts credited by the insurer to the contract. For contracts which do not provide any death benefits prior to the commencement of any annuity payments, the present values shall be calculated on the basis of the interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. In no event shall the present value of a paid-up annuity benefit be less than the minimum nonforfeiture amount at that time. [PL 1979, c. 442, §4 (NEW).]

§2548. Maturity date

For the purpose of determining the benefits calculated under section 2546 and 2547, in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be deemed to be the latest date for which election shall be permitted by the contract, but shall not be deemed to be later than the anniversary of the contract next following the annuitant's 70th birthday or the 10th anniversary of the contract, whichever is later. Any paid-up annuity, cash surrender or death benefits available at any time, other than on the contract anniversary under any contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs. §2551. Proration of values; additional benefits

For any contract which provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefits shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding the provisions of sections 2545 to 2548 and section 2550, additional benefits payable, in the event of total and permanent disability, as reversionary annuity or deferred reversionary annuity benefits, or as other policy benefits additional to life insurance, endowment and annuity benefits, and considerations for all these additional benefits, shall be disregarded in ascertaining the minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits that may be required by sections 2541 to 2551. The inclusion of the additional benefits shall not be required in any paid-up benefits, unless the additional benefits separately would require minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits. B. A provision permitting an adjustable maximum interest rate established from time to time by the life insurer as permitted by law. [PL 1981, c. 188, §4 (NEW).]
[PL 1981, c. 188, §4 (NEW).]

2. The rate of interest charged on a policy loan made under subsection 1, paragraph B, shall not exceed the higher of the following:

3. If the maximum rate of interest is determined pursuant to subsection 1, paragraph B, the policy shall contain a provision setting forth the frequency at which the rate is to be determined for that policy. [PL 1981, c. 188, §4 (NEW).]

4. The maximum rate for each policy shall be determined at regular intervals at least once every 12 months, but not more frequently than once in any 3-month period. At the intervals specified in the policy:

A. The rate being charged may be increased whenever such increase, as determined under subsection 2, would increase that rate by 1/2% or more each year; and [PL 1981, c. 188, §4 (NEW).]

B. The rate being charged shall be reduced whenever such reduction, as determined under subsection 2, would decrease that rate by 1/2% or more each year. [PL 1981, c. 188, §4 (NEW).]

[PL 1981, c. 188, §4 (NEW).]

6. The loan value of the policy shall be determined in accordance with section 2510, but no policy may terminate in a policy year as the sole result of a change in the interest rate during that policy year, and the life insurer shall maintain coverage during that policy year until the time at which it would otherwise have terminated and if there had been no change during that policy year. [PL 1981, c. 188, §4 (NEW).]

7. The substance of the pertinent provisions of subsections 1 and 3 shall be set forth in the policies to which they apply. [PL 1981, c. 188, §4 (NEW).]

8. For purposes of this section:

§2555. Inclusion of nursing home benefits in life insurance policies

1. In order to offer a life insurance policy providing for acceleration of life insurance or annuity benefits in advance of the time the benefits would otherwise be payable because of confinement to a nursing home or long-term care facility, receipt of home health care or hospice care benefits, diagnosis of terminal illness or for substantially similar reasons, the insurer must have a certificate of authority to transact life or life and health insurance in this State.

[PL 1989, c. 26 (NEW).]

2. The superintendent shall promulgate reasonable rules, in accordance with the Maine Administrative Procedure Act, Title 5, chapter 375, to provide for the full and fair disclosure of information in connection with the sale of the policies referred to in subsection 1, and may include, but are not limited to, definitions, acceptable restrictions on benefit payments, coverage periods and nonforfeiture requirements.

§2556. Notification prior to lapse or termination

1. **Notice to 3rd party.** An individual life insurance policy that has been in force for at least one year may not be terminated for nonpayment of premium unless, at least 21 days prior to the expiration of the grace period, the insurer has mailed a notice of cancellation to the policyholder and any 3rd party designated by the policyholder by name and address in writing. The bureau shall adopt rules to implement the notice requirements under this subsection.

[PL 2007, c. 40, §1 (NEW).]

2. **Restrictions on lapse or termination; cognitive impairment or functional incapacity.** Notwithstanding any other provision of this chapter, an insurer shall provide restrictions on cancellation, termination or lapse of individual life insurance policies in accordance with this subsection to reduce the danger that a life insurance policyholder will lose life insurance coverage when the policyholder suffers from cognitive impairment or functional incapacity and the loss of coverage is due to that cognitive impairment or functional incapacity. Within 90 days after cancellation, termination or lapse of coverage due to nonpayment of premium, a policyholder, a person authorized to act on behalf of the policyholder or a dependent of the policyholder covered under a life insurance policy may request reinstatement on the basis that the loss of coverage was a result of the policyholder's cognitive impairment or functional incapacity. An insurer may request a medical demonstration that the policyholder suffered from cognitive impairment or functional incapacity at the time of cancellation, termination or lapse. The medical demonstration may be at the expense of the policyholder. A policy reinstated pursuant to this subsection must cover any loss or claim occurring from the date of the

termination, cancellation or lapse and must be issued without any evidence of insurability. Within 15 days after request from an insurer, a policyholder of a policy reinstated pursuant to this subsection shall pay any unpaid premium from the date of the last premium payment at the rate that would have been in effect had the policy remained in force. If the premium is not paid as required, the policy may not be reinstated and the insurer is not responsible for claims incurred after the initial date of cancellation, termination or lapse of coverage. If an insurer denies a request for reinstatement, the insurer shall notify the policyholder that the policyholder may request a hearing before the superintendent.

[PL 2011, c. 123, §1 (AMD); PL 2011, c. 123, §5 (AFF).]

3. Rulemaking. The bureau may adopt rules to implement the requirements of this section. The rules adopted pursuant to this subsection apply to all life insurance policies and riders delivered or issued for delivery, continued or renewed in this State. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 1981, c. 150, §3 (RPR).]

1. The employees eligible for insurance under the policy shall be all of the employees of the employer, or all of any class or classes thereof. The policy may provide that the term "employees" includes the employees of one or more subsidiary corporations, and the employees, individual proprietors and partners of one or more affiliated corporations, proprietorships or partnerships if the business of the employer and of the affiliated corporations, proprietorships or partnerships is under common control. §2604-A. Debtor groups

The lives of a group of individuals may be insured under a policy issued to a creditor or its parent holding company or to a trustee or trustees or agent designated by 2 or more creditors, which creditor, holding company, affiliate, trustee, trustees or agent is considered the policyholder, to insure debtors of the creditor or creditors, subject to the following requirements. [PL 2015, c. 329, Pt. A, §13 (NEW).]

1. The debtors eligible for insurance under the policy are all of the debtors of the creditor or creditors, or all of any class or classes thereof. The policy may provide that the term "debtors" includes:

A. Borrowers of money or purchasers or lessees of goods, services or property for which payment is arranged through a credit transaction; [PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]

B. The debtors of one or more subsidiary corporations; and [PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]

C. The debtors of one or more affiliated corporations, proprietorships or partnerships if the business of the policyholder and of the affiliated corporations, proprietorships or partnerships is under common control. [PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]
[PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]

2. The premium for the policy shall be paid either from the creditor's funds, or from charges collected from the insured debtors, or from both. Except as provided in subsection 3, a policy on which no part of the premium is to be derived from funds contributed by insured debtors specifically for their insurance must insure all eligible debtors.

[PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]

3. An insurer may exclude any debtors as to whom evidence of individual insurability is not satisfactory to the insurer.

[PL 2015, c. 329, Pt. B, §2 (RPR).]

4. The amount of credit life insurance shall at no time exceed the unpaid amount financed plus earned interest and an allowance for delinquencies as determined by the superintendent or, in the case of open-end credit, the balance upon which a finance charge may be imposed plus earned interest and an allowance for delinquencies as determined by the superintendent. Where the indebtedness is repayable in one sum to the creditor, the insurance on the life of any debtor shall in no instance be in effect for a period in excess of 18 months, except that such insurance may be continued for an additional period not exceeding 6 months in the case of default, extension or recasting of the loan.

[PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]

5. The insurance may be payable to the creditor or any successor to the right, title and interest of the creditor. The payment shall reduce or extinguish the unpaid indebtedness of the debtor to the extent of the payment.

[PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]

6. Notwithstanding the provisions of this section, insurance on agricultural credit transaction commitments may be written up to the amount of the loan commitment on a nondecreasing or level term plan. Insurance on educational credit transaction commitments may be written up to the amount of the loan commitment less the amount of any repayments made on the loan.

[PL 1981, c. 150, §5 (NEW); PL 1981, c. 175, §2 (NEW).]

7. Notwithstanding subsection 1, in the case of a group policy issued pursuant to this section which provides life insurance on the term plan upon the lives of persons indebted to a creditor, where the indebtedness is secured to the creditor by a mortgage on real estate, where the insurance is afforded on an optional basis and where a separate charge is made to the debtor by the creditor for the insurance, both the debtor and not more than one comaker of the indebtedness are eligible to apply for insurance jointly under the group policy, provided that both of them are individually and jointly liable to repay the indebtedness. This subsection may not be held to restrict the right of an insurer to require satisfactory evidence of insurability of any person requesting the insurance, nor to preclude those exclusions from eligibility for insurance under such a group policy as may be contained therein. Nothing in this subsection may prohibit insurance on the life of one debtor only, if desired by the debtor.

§2672. Selective contracting authorized

Carriers or administrators may enter into preferred provider arrangements with providers of their choice. In selecting preferred providers, carriers or administrators may consider, among other factors, price differences between or among providers, geographic accessibility, specialization and projected

utilization by enrollees. Selective contracting does not constitute unreasonable discrimination against or among providers. [PL 1999, c. 609, §6 (AMD).]

SECTION HISTORY

PL 1985, c. 704, §4 (NEW). PL 1989, c. 588, §A49 (RPR). PL 1999, c. 609, §7 (RP).

§2673-A. Preferred provider arrangements

1. Filing with superintendent; disapproval. A carrier or administrator who proposes to offer a preferred provider arrangement shall file with the superintendent proposed agreements, rates, geographic service areas, provider networks and other materials relevant to the proposed arrangement. The superintendent shall disapprove any preferred provider arrangement if the arrangement contains any unjust, unfair or inequitable provisions; unreasonably restricts access and availability of health care services; or fails to comply with other requirements of this chapter, chapter 56-A or rules adopted by the superintendent.

[PL 1999, c. 609, §8 (NEW).]

2. Considered separate preferred provider arrangements. If health plans offered by the same carrier have different geographic service areas, or if there are preferred providers in one health plan who are nonpreferred providers in another health plan offered by the same carrier or administered by the same administrator or who are in a different preference tier if the plan is a multitier plan, then the plans represent different preferred provider arrangements and must be separately filed and approved.

[PL 1999, c. 609, §8 (NEW).]

3. Rules. Preferred provider arrangements offered by carriers that are subject to chapter 56-A must be in compliance with applicable provisions of that chapter and any rules adopted under that chapter. Employer-sponsored plans that are exempt from this chapter pursuant to federal law and administrators offering preferred provider arrangements to employer-sponsored plans are not subject to the provisions of chapter 56-A or rules adopted under that chapter, provided either the administrator or any other participating entity, other than the self-insured employer, does not undertake insurance risk. The superintendent may adopt rules establishing procedures for filing and approval of preferred provider arrangements, including the time period within which the superintendent must act on a completed application; specific criteria for determining when a term or condition is unjust, unfair or inequitable or has the effect of unreasonably restricting access and availability to health care services; and standards consistent with this chapter and chapter 56-A for the ongoing operation and oversight of approved provider arrangements. The rules may prohibit the carrier from applying a benefit level differential to enrollees who must travel an unreasonable distance to obtain the service. Rules adopted pursuant to this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter II-A.

The superintendent shall by rule establish criteria for the registration, including minimum solvency requirements. [PL 1999, c. 609, §10 (NEW).]

4. Approval required before marketing or making available. A carrier may not issue a health plan incorporating a preferred provider arrangement and an administrator may not market or otherwise make available a preferred provider arrangement until the superintendent pursuant to section 2673-A has approved the arrangement.

[PL 1999, c. 609, §10 (NEW).]

5. Registration as insurance administrator. In addition to meeting the requirements of the preferred provider arrangement, each preferred provider administrator who directly or indirectly transfers funds, manages funds, adjusts claims or asserts control over the transfer of funds for the purpose of payment of provider services shall register with the superintendent as an insurance administrator pursuant to chapter 18.

[PL 1999, c. 609, §10 (NEW).]

Preferred provider arrangements may embody risk transfer between carriers and providers in accordance with the provisions of chapter 56-A, subchapter III. 1. Nonpreferred providers. A carrier incorporating a preferred provider arrangement into a health plan shall provide for payment of covered health care services rendered by providers that are not preferred providers.

[PL 1999, c. 609, §14 (NEW).]

2. Benefit level. The benefit level differential between services rendered by preferred providers and nonpreferred providers may not exceed 20% of the allowable charge for the service rendered, except that the superintendent may waive this requirement for a given benefit plan. Compliance with this requirement for a given benefit plan may be demonstrated on an aggregate basis. This demonstration of compliance must be based on a reasonably anticipated mix of claims certified by a qualified actuary who is a member of the American Academy of Actuaries or a successor organization. As used in this subsection, "allowable charge" means the amount that would be payable for services under the preferred provider arrangement including deductible and coinsurance amounts.

Notwithstanding the provisions of section 2706, subsection 2, division (b), if an insurer elects to use a simplified application or enrollment form, with or without a question as to the prospective insured's health at the time of application or enrollment but without any questions concerning the prospective insured's health history or medical treatment history, the policy must cover any loss occurring after the policy has been in force for 12 months from any preexisting condition not specifically excluded from coverage by terms of the policy, and, except for such specific exclusions, the policy or certificate may not include wording that would permit a defense based upon preexisting conditions, other than rescission for affirmative misrepresentations, after it has been in force for 12 months.

[PL 2001, c. 410, Pt. C, §1 (NEW).]

2. Exclusion based on preexisting condition limited after 6 months. Notwithstanding the provisions of subsection 1 and section 2706, subsection 2, division (b), an insurer that issues a specified disease policy or certificate may not deny a claim for any covered loss that begins after the policy or certificate has been in force for at least 6 months, unless that loss results from a preexisting condition

that was diagnosed by a physician before the date of application for coverage or that first manifested itself within the 6 months immediately preceding the application date. Other defenses based upon preexisting conditions are not permitted except for rescission for misrepresentation. This subsection applies regardless of whether the policy or certificate is issued on the basis of a detailed application form, a simplified application form or an enrollment form.

policy shall be used to void the policy or to deny a claim for loss incurred or disability, as defined in the policy, commencing after the expiration of such 3-year period. [PL 1969, c. 132, §1 (NEW).]

1. The foregoing policy provision shall not be so construed as to affect any legal requirement for avoidance of a policy or denial of a claim during such initial 3-year period, nor to limit the application of sections 2717 through 2723 in the event of misstatement with respect to age or occupation or other insurance.

[PL 1969, c. 132, §1 (NEW).]

2. A policy which the insured has the right to continue in force subject to its terms by the timely payment of premium 1 until at least age 50 or, 2 in the case of a policy issued after age 44, for at least 5 years from its date of issue, may contain in lieu of the foregoing the following provision, from which the clause in parentheses may be omitted at the insurer's option, under the caption "Incontestable:"

§2707-A. Notification prior to cancellation; restrictions on lapse or termination due to cognitive impairment or functional incapacity

An insurer shall provide for notification of the insured person and another person, if designated by the insured, prior to cancellation of a health insurance policy for nonpayment of premium. [PL 2011, c. 123, §2 (AMD); PL 2011, c. 123, §5 (AFF).]

Within 90 days after cancellation due to nonpayment of premium, a policyholder, a person authorized to act on behalf of the policyholder or a dependent of the policyholder covered under a health insurance policy or certificate may request reinstatement on the basis that the loss of coverage was the result of the policyholder's cognitive impairment or functional incapacity. An insurer may

require a medical demonstration that the policyholder suffered from cognitive impairment or functional incapacity at the time of cancellation. If the medical demonstration is waived or substantiates the existence of a cognitive impairment or functional incapacity at the time of policy cancellation to the satisfaction of the insurer, the policy must be reinstated. The medical demonstration may be at the expense of the policyholder. [PL 2011, c. 123, §2 (NEW); PL 2011, c. 123, §5 (AFF).]

A policy reinstated pursuant to this section must cover any loss or claim occurring from the date of the cancellation. Within 15 days after request from an insurer, a policyholder of a policy reinstated pursuant to this section shall pay any unpaid premium from the date of the last premium payment at the rate that would have been in effect had the policy remained in force. If the premium is not paid as required, the policy may not be reinstated and the insurer is not responsible for claims incurred after the initial date of cancellation. If an insurer denies a request for reinstatement, the insurer shall notify the policyholder that the policyholder may request a hearing before the superintendent. [PL 2011, c. 123, §2 (NEW); PL 2011, c. 123, §5 (AFF).]

The superintendent may adopt rules to implement the requirements of this section. The rules may include, but are not limited to, definitions, minimum disclosure requirements, notice provisions and the right of reinstatement. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2011, c. 123, §2 (AMD); PL 2011, c. 123, §5 (AFF).]

1. There shall be a provision as follows:

Reinstatement: If any renewal premium be not paid within the time granted the insured for payment, a subsequent acceptance of premium by the insurer or by any agent duly authorized by the insurer to accept such premium, without requiring in connection therewith an application for reinstatement, shall reinstate the policy; provided, however, that if the insurer or such agent requires an application for reinstatement and issues a conditional receipt for the premium tendered, the policy will be reinstated upon approval of such application by the insurer or, lacking such approval, upon the 45th day following the date of such conditional receipt unless the insurer has previously notified the insured in writing of its disapproval of such application. The reinstated policy shall cover only loss resulting from such accidental injury as may be sustained after the date of reinstatement and loss due to such sickness as may begin more than ten days after such date. In all other respects the insured and insurer shall have the same rights thereunder as they had under the policy immediately before the due date of the defaulted premium, subject to any provisions endorsed herein or attached hereto in connection with the reinstatement. Any premium accepted in connection with a reinstatement shall be applied to a period for which premium has not been previously paid, but not to any period more than 60 days prior to the date of reinstatement.

[PL 1969, c. 132, §1 (NEW).]

2. The last sentence of the above provision may be omitted from any policy which the insured has the right to continue in force subject to its terms by the timely payment of premiums

- A. Until at least age 50, or [PL 1969, c. 132, §1 (NEW).]

- B. In the case of a policy issued after age 44, for at least 5 years from its date of issue. [PL 1969, c. 132, §1 (NEW).]

Notice given by or on behalf of the insured or the beneficiary to the insurer at (insert the location of such office as the insurer may designate for the purpose), or to any authorized agent of the insurer, with information sufficient to identify the insured, shall be deemed notice to the insurer.

[PL 1969, c. 132, §1 (NEW).]

2. In a policy providing a loss-of-time benefit that may be payable for at least 2 years, an insurer may at its option insert the following between the first and 2nd sentence of the above provision:

Subject to the qualifications set forth below, if the insured suffers loss of time on account of disability for which indemnity may be payable for at least 2 years, the insured shall, at least once in every 6 months after having given notice of the claim, give to the insurer notice of continuance of such disability, except in the event of legal incapacity. The period of 6 months following any filing of proof by the insured or any payment by the insurer on account of such claim or any denial of liability in whole or in part by the insurer must be excluded in applying this provision. Delay in the giving of such notice does not impair the insured's right to any indemnity that would otherwise have accrued during the period of 6 months preceding the date on which such notice is actually given.

Failure to furnish such proof within the time required shall not invalidate nor reduce any claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible and in no event, except in the absence of legal capacity, later than one year from the time proof is otherwise required. 1. There may be a provision as follows:

Insurance with other insurers: If there be other valid coverage, not with this insurer, providing benefits for the same loss on a provision of service basis or on an expense incurred basis and of which this insurer has not been given written notice prior to the occurrence or commencement of loss, the only liability under any expense incurred coverage of this policy shall be for such proportion of the loss as the amount which would otherwise have been payable hereunder plus the total of the like amounts under all such other valid coverages for the same loss of which this insurer had notice bears to the total like amounts under all valid coverages for such loss, and for the return of such portion of the premiums paid as shall exceed the pro rata portion for the amount so determined. For the purpose of applying this provision when other coverage is on a provision of service basis, the "like amount" of such other coverage shall be taken as the amount which the services rendered would have cost in the absence of such coverage.

2. If the foregoing policy provision is included in a policy which also contains the policy provision set out in section 2723 there shall be added to the caption of the foregoing provision the phrase "--expense incurred benefits." In the absence of such definition such term shall not include group insurance, automobile medical payments insurance, or coverage provided by hospital or medical service organization or by union welfare plans or employer or employee benefit organizations. For the purpose of applying the foregoing policy provision with respect to any insured, any amount of benefit provided for such insured pursuant to any compulsory benefit statute, including any workers' compensation or employer's liability statute, whether provided by a governmental agency or otherwise shall in all cases be deemed to be "other valid coverage" of which the insurer has had notice. Insurance with other insurers: If there be other valid coverage, not with this insurer, providing benefits for the same loss on other than an expense incurred basis and of which this insurer has not been given

written notice prior to the occurrence or commencement of loss, the only liability for such benefits under this policy shall be for such proportion of the indemnities otherwise provided hereunder for such loss as the like indemnities of which the insurer had notice, including the indemnities under this policy, bear to the total amount of all like indemnities for such loss, and for the return of such portion of the premium paid as shall exceed the pro rata portion for the indemnities thus determined.

[PL 1969, c. 132, §1 (NEW).]

2. If the foregoing policy provision is included in a policy which also contains the policy provision set out in section 2722, there shall be added to the caption of the foregoing provision the phrase "other benefits." §2723-A. Coordination of benefits

1. **Authorization.** There may be a provision for coordination of benefits payable under the policy and under other plans of insurance or health care coverage, in conformance with rules adopted by the superintendent to establish uniformity in the permissive use of coordination of benefits provisions in order to avoid claim delays and misunderstandings that otherwise result from the use of inconsistent or incompatible provisions among the several insurers and nonprofit hospital or medical service organization plans and nonprofit health care organization plans. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

[PL 1999, c. 256, Pt. N, §1 (NEW).]

2. **Coordination with Medicare.** Coordination of benefits with Medicare is governed by the following provisions.

A. The policy may not coordinate benefits with Medicare Part A unless:

- (1) The insured is enrolled in Medicare Part A;
- (2) The insured was previously enrolled in Medicare Part A and voluntarily disenrolled;
- (3) The insured stated on an application or other document that the insured was enrolled in Medicare Part A; or
- (4) The insured is eligible for Medicare Part A without paying a premium and the policy states that it will not pay benefits that would be payable under Medicare even if the insured fails to exercise the insured's right to premium-free Medicare Part A coverage. [PL 1999, c. 256, Pt. N, §1 (NEW).]

B. The policy may not coordinate benefits with Medicare Part B unless:

- (1) The insured is enrolled in Medicare Part B;

- (2) The insured was previously enrolled in Medicare Part B and voluntarily disenrolled;
- (3) The insured stated on an application or other document that the insured was enrolled in Medicare Part B; or
- (4) The insured is eligible for Medicare Part A without paying a premium and the insurer provided prominent notification to the insured both when the policy was issued and, if applicable, when the insured becomes eligible for Medicare due to age. The content of the notification must be approved by the bureau. The notification must state that the policy will not pay benefits that would be payable under Medicare even if the insured fails to enroll in Medicare Part B and state that the insured may contact the bureau, the Health Insurance Consumer Assistance Program established in section 4326 or another relevant organization or agency for assistance in understanding coordination of benefits with Medicare Part B under the insured's contract. [PL 2023, c. 104, §2 (AMD).]

C. Coordination is not permitted with Medicare coverage for which the insured is eligible but not enrolled except as provided in paragraphs A and B. [PL 1999, c. 256, Pt. N, §1 (NEW).]
[PL 2023, c. 104, §2 (AMD).]

3. Credit toward deductible. When an insured is covered under more than one expense-incurred health plan, payments made by the primary plan, payments made by the insured and payments made from a health savings account or similar fund for benefits covered under the secondary plan must be credited toward the deductible of the secondary plan. This subsection does not apply if the secondary plan is designed to supplement the primary plan.

§2724. Relation of earnings to insurance

There may be a provision as follows:

If the total monthly amount of loss of time benefits promised for the same loss under all valid loss of time coverage upon the insured, whether payable on a weekly or monthly basis, shall exceed the monthly earnings of the insured at the time disability commenced or the average monthly earnings for the period of 2 years immediately preceding a disability for which claim is made, whichever is the greater, the insurer will be liable only for such proportionate amount of such benefits under this policy as the amount of such monthly earnings or such average monthly earnings of the insured bears to the total amount of monthly benefits for the same loss under all such coverage upon the insured at the time such disability commences and for the return of such part of the premiums paid during such 2 years as shall exceed the pro rata amount of the premiums for the benefits actually paid hereunder; but this shall not operate to reduce the total monthly amount of benefits payable under all such coverage upon the insured below the sum of \$200 or the sum of the monthly benefits specified in such coverages, whichever is the lesser, nor shall it operate to reduce benefits other than those payable for loss of time. The foregoing policy provision may be inserted only in a policy which the insured has the right to continue in force subject to its terms by the timely payment of premiums (A.) until at least age 50 or, (B.) in the case of a policy issued after age 44, for at least 5 years from its date of issue. The insurer may, at its option, include in this provision a definition of "valid loss of time coverage", approved as to form by the superintendent, which definition shall be limited in subject matter to coverage provided by governmental agencies or by organizations subject to regulation by insurance law or by insurance authorities of this or any other state of the United States or any province of Canada, or to any other coverage the inclusion of which may be approved by the superintendent or any combination of such coverages. In the absence of such definition such term shall not include any coverage provided for such

- (12) Short-term, limited-duration policies, as described in section 2849-B, subsection 1. [PL 2019, c. 330, §1 (AMD).]

C-1. "Legally domiciled" means a person who lives in this State and who satisfies the criteria contained in 2 of the following subparagraphs.

- (1) The person has a motor vehicle operator's license or nondriver identification card from this State.
- (2) The person has a valid passport or visa and is lawfully admitted to the United States.
- (3) The person is registered to vote in this State.
- (4) The person has a permanent dwelling place in this State.
- (5) The person submits a written sworn affidavit declaring that person's intent to reside in this State.
- (6) The person files an income tax return for this State that declares the person is a Maine resident.

A person may establish that that person is legally domiciled in this State by providing evidence of other relevant criteria associated with residency. A child is legally domiciled in this State if at least one of the child's parents or the child's legal guardian is legally domiciled in this State. A person with a developmental or other disability that prevents that person from obtaining a motor vehicle operator's license, registering to vote or filing an income tax return is legally domiciled in this State by living in this State. [PL 2005, c. 493, §1 (RPR).]

C-2. "Resident" means a person who is legally domiciled in this State and has been for at least the last 60 days. [PL 1997, c. 445, §8 (NEW); PL 1997, c. 445, §32 (AFF).]

D. "Premium rate" means the rate charged to an individual for an individual health plan. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

E. "Medicare" means the "Health Insurance for the Aged Act," Title XVIII of the Social Security Amendments of 1965, as amended. [PL 1997, c. 370, Pt. E, §2 (NEW).]

[PL 2019, c. 330, §1 (AMD).]

2. Rating practices. The following requirements apply to the rating practices of carriers providing individual health plans.

A. A carrier issuing an individual health plan after December 1, 1993 must file the carrier's community rate and any formulas and factors used to adjust that rate with the superintendent prior to issuance of any individual health plan. [PL 1993, c. 547, §3 (AMD).]

B. A carrier may not vary the premium rate due to the gender, health status, occupation or industry, claims experience or policy duration of the individual or any other rating factor not specified in this subsection. [PL 2019, c. 5, Pt. A, §1 (AMD).]

C. A carrier may vary the premium rate due to family membership. The premium rate for a family must equal the sum of the premiums for each individual in the family, except that it may not be based on more than 3 dependent children who are less than 21 years of age. [PL 2019, c. 5, Pt. A, §2 (AMD).]

C-1. A carrier may vary the premium rate due to geographic area in accordance with the limitation set out in this paragraph. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 1, 2012 and December 31, 2023, the rating factor used by a carrier for geographic area may not exceed 1.5. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2024, the rating factor used by a carrier for geographic area may not exceed 1.25. [PL 2021, c. 655, §1 (AMD).]

D. A carrier may vary the premium rate due to age and tobacco use in accordance with the limitations set out in this paragraph. A carrier that varies the premium rate due to age must vary the premium rate according to a uniform age curve. The superintendent shall adopt rules establishing a uniform age curve that is substantially similar to the age curve in effect on January 1, 2019 under the federal Affordable Care Act. Rules adopted under this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

(1) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between December 1, 1993 and July 14, 1994, the premium rate may not deviate above or below the community rate filed by the carrier by more than 50%.

(2) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 15, 1994 and July 14, 1995, the premium rate may not deviate above or below the community rate filed by the carrier by more than 33%.

(3) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 15, 1995 and June 30, 2012, the premium rate may not deviate above or below the community rate filed by the carrier by more than 20%.

(5) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 1, 2012 and December 31, 2013, the maximum rate differential due to age filed by the carrier as determined by ratio is 3 to 1. The limitation does not apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(6) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between January 1, 2014 and December 31, 2014, the maximum rate differential due to age filed by the carrier as determined by ratio is 4 to 1 to the extent permitted by the federal Affordable Care Act. The limitation does not apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(7) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2015, except as provided in subparagraph (9), the maximum rate differential due to age filed by the carrier as determined by ratio is 5 to 1 to the extent permitted by the federal Affordable Care Act. The limitation does not apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(8) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 1, 2012 and December 31, 2022, the maximum rate differential due to tobacco use filed by the carrier as determined by ratio is 1.5 to 1, except that the carrier may not apply a rate differential pursuant to this subparagraph when the covered individual is participating in an evidence-based tobacco cessation strategy approved by the United States Department of Health and Human Services, Food and Drug Administration. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between January 1, 2023 and December 31, 2023, the maximum rate differential due to tobacco use filed by the carrier as determined by ratio is 1.25 to 1, except that the carrier may not apply a rate differential pursuant to this subparagraph when the covered individual is participating in an evidence-based tobacco cessation strategy approved by the United States Department of Health and Human Services, Food and Drug Administration. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2024, a carrier may not vary the premium rate due to tobacco use.

(9) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after the effective date of this subparagraph, the

maximum rate differential due to age filed by the carrier as determined by ratio is 3 to 1 for individuals 21 years of age and older on the first day of coverage under the policy, contract or certificate. The variation in rate due to age must be actuarially justified for individuals under 21 years of age consistent with the uniform age rating curve adopted under this paragraph. [PL 2021, c. 344, §1 (AMD).]

E. A separate community rate may be established for individuals eligible for Medicare Part A without paying a premium; however, this rate may not be applied if both the Medicare eligibility date and the issue date are prior to July 1, 2000. [PL 1999, c. 44, §1 (AMD); PL 1999, c. 44, §2 (AFF).]

F. [PL 2019, c. 5, Pt. A, §4 (RP).]

G. [PL 2011, c. 90, Pt. B, §4 (RP); PL 2011, c. 90, Pt. B, §10 (AFF).]

H. [PL 2011, c. 90, Pt. A, §4 (RP).]

I. [PL 2019, c. 5, Pt. A, §5 (RP).]

J. Except for enrollees in grandfathered health plans under the federal Affordable Care Act, beginning January 1, 2014, a carrier shall consider all enrollees in all individual health plans offered by the carrier to be members of a single risk pool to the extent required by the federal Affordable Care Act. [PL 2011, c. 364, §6 (NEW).]

[PL 2021, c. 655, §1 (AMD).]

2-A. Reinsurance requirement.

[PL 2011, c. 90, Pt. B, §5 (RP); PL 2011, c. 90, Pt. B, §10 (AFF).]

2-B. Optional guaranteed loss ratio. Notwithstanding section 2736, subsection 1 and section 2736-A, at the carrier's option, rate filings for a carrier's credible block of individual health plans may be filed in accordance with this subsection. Rates filed in accordance with this subsection are filed for informational purposes unless rate review is required pursuant to the federal Affordable Care Act.

A. A carrier's individual health plans are considered credible if the anticipated average number of members during the period for which the rates will be in effect meets standards for full or partial credibility pursuant to the federal Affordable Care Act. The rate filing must state the anticipated average number of members during the period for which the rates will be in effect and the basis for the estimate. If the superintendent determines that the number of members is likely to be less than needed to meet the credibility standard, the filing is subject to section 2736, subsection 1 and section 2736-A. [PL 2011, c. 364, §7 (AMD).]

B. On an annual schedule as determined by the superintendent, the carrier shall file a report with the superintendent showing the calculation of rebates as required pursuant to the federal Affordable Care Act, except that the calculation must be based on a minimum medical loss ratio of 80% if the applicable federal minimum for the individual market in this State is lower. If the calculation indicates that rebates must be paid, the carrier must pay the rebates in the same manner as is required for rebates pursuant to the federal Affordable Care Act. [PL 2011, c. 364, §7 (AMD).]
[PL 2011, c. 364, §7 (AMD).]

3. Guaranteed issuance and guaranteed renewal. Carriers providing individual health plans must meet the following requirements on issuance and renewal.

A. Coverage must be guaranteed to all residents of this State other than those eligible without paying a premium for Medicare Part A. Coverage must be guaranteed to all legally domiciled federally eligible individuals, as defined in section 2848, regardless of the length of time they have been legally domiciled in this State. Except for federally eligible individuals, coverage need not be issued to an individual whose coverage was terminated for nonpayment of premiums during the previous 91 days or for fraud or intentional misrepresentation of material fact during the previous

12 months. When a managed care plan, as defined by section 4301-A, provides coverage a carrier may:

- (1) Deny coverage to individuals who neither live nor reside within the approved service area of the plan for at least 6 months of each year; and
- (2) Deny coverage to individuals if the carrier has demonstrated to the superintendent's satisfaction that:
 - (a) The carrier does not have the capacity to deliver services adequately to additional enrollees within all or a designated part of its service area because of its obligations to existing enrollees; and
 - (b) The carrier is applying this provision uniformly to individuals and groups without regard to any health-related factor.

A carrier that denies coverage in accordance with this subparagraph may not enroll individuals residing within the area subject to denial of coverage or groups or subgroups within that area for a period of 180 days after the date of the first denial of coverage. [PL 2011, c. 621, §1 (AMD).]

B. Renewal is guaranteed, pursuant to section 2850-B. [PL 1997, c. 445, §10 (RPR); PL 1997, c. 445, §32 (AFF).]

C. A carrier is exempt from the guaranteed issuance requirements of paragraph A provided that the following requirements are met.

- (1) The carrier does not issue or deliver any new individual health plans on or after the effective date of this section;
- (2) If any individual health plans that were not issued on a guaranteed renewable basis are renewed on or after December 1, 1993, all such policies must be renewed by the carrier and renewal must be guaranteed after the first such renewal date; and
- (3) The carrier complies with the rating practices requirements of subsection 2. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

D. Notwithstanding paragraph A, carriers offering supplemental coverage for the Civilian Health and Medical Program for the Uniformed Services, CHAMPUS, are not required to issue this coverage if the applicant for insurance does not have CHAMPUS coverage. [PL 1999, c. 256, Pt. D, §1 (NEW).]

E. As part of the application process for individual health coverage, a carrier shall require an individual to complete the health statement developed by the Board of Directors of the Maine Guaranteed Access Reinsurance Association pursuant to section 3955, subsection 1, paragraph E. A carrier may not deny coverage or refuse to renew or cancel an individual health plan on the basis of an individual's complete or incomplete health statement, claims history or risk scores or on the basis of any omission of material information from a health statement or misrepresentation of an individual's health status. The rejection of an application for individual health coverage by a carrier because an individual has not submitted a completed health statement is not a denial of coverage for the purposes of this paragraph. [PL 2011, c. 621, §1 (AMD).]

[PL 2011, c. 621, §1 (AMD).]

4. Cessation of business. Carriers that provide individual health plans after the effective date of this section that plan to cease doing business in the individual health plan market must comply with the following requirements.

A. Notice of the decision to cease doing business in the individual health plan market must be provided to the bureau 3 months prior to the cessation unless a shorter notice period is approved by

the superintendent. If existing contracts are nonrenewed, notice must be provided to the policyholder or contract holder 6 months prior to nonrenewal. [PL 2001, c. 258, Pt. B, §1 (AMD).]

B. Carriers that cease to write new business in the individual health plan market continue to be governed by this section. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

C. Carriers that cease to write new business in the individual health plan market are prohibited from writing new business in that market for a period of 5 years from the date of notice to the superintendent unless the superintendent waives this requirement for good cause shown. [PL 2001, c. 258, Pt. B, §2 (AMD).]

[PL 2001, c. 258, Pt. B, §§1, 2 (AMD).]

5. Loss ratios. Except as provided in subsection 2-B, for all policies and certificates issued on or after the effective date of this section, the superintendent shall disapprove any premium rates filed by any carrier, whether initial or revised, for an individual health policy unless it is anticipated that the medical loss ratio calculated under section 4319 will be at least 80%.

[PL 2019, c. 5, Pt. A, §6 (AMD).]

6. Fair marketing standards. Carriers providing individual health plans must meet the following standards of fair marketing.

A. Each carrier must actively market individual health plan coverage to individuals in this State. [PL 2023, c. 405, Pt. A, §88 (AMD).]

B. A carrier or representative of the carrier may not directly or indirectly engage in the following activities:

(1) Encouraging or directing individuals to refrain from filing an application for coverage with the carrier because of any of the rating factors listed in subsection 2; or

(2) Encouraging or directing individuals to seek coverage from another carrier because of any of the rating factors listed in subsection 2. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

C. A carrier may not directly or indirectly enter into any contract, agreement or arrangement with a representative of the carrier that provides for or results in the compensation paid to the representative for the sale of an individual health plan to be varied because of the rating factors listed in subsection 2. A carrier may enter into a compensation arrangement that provides compensation to a representative of the carrier on the basis of percentage of premium, provided that the percentage does not vary because of the rating factors listed in subsection 2. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

D. A carrier may not terminate, fail to renew or limit its contract or agreement of representation with a representative for any reason related to the rating factors listed in subsection 2. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

E. Denial by a carrier of an application for coverage from an individual must be in writing and must state the reason or reasons for the denial. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

F. The superintendent may establish rules setting forth additional standards to provide for the fair marketing and broad availability of individual health plans in this State. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).]

G. A violation of this section by a carrier or a representative of the carrier is an unfair trade practice under chapter 23. If a carrier enters into a contract, agreement or other arrangement with a 3rd-party administrator to provide administrative, marketing or other services related to the offering of

individual health plans in this State, the 3rd-party administrator is subject to this section as if it were a carrier. [PL 1993, c. 477, Pt. C, §1 (NEW); PL 1993, c. 477, Pt. F, §1 (AFF).] [PL 2023, c. 405, Pt. A, §88 (AMD).]

7. Applicability. This section applies to all policies, plans, contracts and certificates executed, delivered, issued for delivery, continued or renewed in this State on or after December 1, 1993 with the exception of short-term contracts, as defined in section 2849-B. For purposes of this section, all contracts are deemed renewed no later than the next yearly anniversary of the contract date. [PL 1997, c. 445, §11 (AMD); PL 1997, c. 445, §32 (AFF).]

8. Authority of the superintendent.
[PL 2011, c. 90, Pt. F, §1 (RP).]

9. Exemption for certain associations. The superintendent may exempt a group health insurance policy or group nonprofit hospital or medical service corporation contract issued to an association group, organized pursuant to section 2805-A, from the requirements of subsection 3, paragraph A and subsection 6, paragraph A if:

- A. Issuance and renewal of coverage under the policy or contract is guaranteed to all members of the association who are residents of this State and to their dependents; [PL 1995, c. 570, §7 (NEW).]
- B. Rates for the association comply with the premium rate requirements of subsection 2 or are established on a nationwide basis and substantially comply with the purposes of this section, except that exempted associations may be rated separately from the carrier's other individual health plans, if any; [PL 1995, c. 570, §7 (NEW).]
- C. The group's anticipated loss ratio, as defined in subsection 5, is at least 75%; [PL 1995, c. 570, §7 (NEW).]
- D. The association's membership criteria do not include age, health status, medical utilization history or any other factor with a similar purpose or effect; [PL 1995, c. 570, §7 (NEW).]
- E. The association's group health plan is not marketed to the general public; [PL 1995, c. 570, §7 (NEW).]
- F. The association does not allow insurance agents or brokers to market association memberships, accept applications for memberships or enroll members, except when the association is an association of insurance agents or brokers organized under section 2805-A; [PL 1995, c. 570, §7 (NEW).]
- G. Insurance is provided as an incidental benefit of association membership and the primary purposes of the association do not include group buying or mass marketing of insurance or other goods and services; and [PL 1995, c. 570, §7 (NEW).]
- H. Granting an exemption to the association does not conflict with the purposes of this section. [PL 1995, c. 570, §7 (NEW).]

Except for individuals with grandfathered health plans under the federal Affordable Care Act, this subsection does not apply to policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2014. [PL 2023, c. 405, Pt. A, §89 (AMD).]

10. Pilot projects; persons under 30 years of age. The superintendent shall authorize pilot projects in accordance with this subsection that allow a health insurance carrier that offers individual insurance, is marketing an individual insurance policy in this State and has a medical-loss ratio of at least 70% in the individual market to offer individual medical insurance products to persons under 30 years of age beginning July 1, 2009.

A. The superintendent shall review pilot project proposals submitted in accordance with rules adopted pursuant to paragraph E. The superintendent shall approve a pilot project proposal if it meets the minimum benefit requirements set forth in rules adopted pursuant to paragraph E and may not approve a proposal that does not provide such minimum benefit requirements. [PL 2007, c. 629, Pt. I, §1 (NEW).]

B. Notwithstanding any requirements in this Title for specific health services, specific diseases and certain providers of health care services, the superintendent may adopt minimum benefit requirements that exclude certain benefits if determined by the superintendent to provide affordable and attractive individual health plans for persons under 30 years of age. [PL 2007, c. 629, Pt. I, §1 (NEW).]

C. A pilot project approved by the superintendent pursuant to this subsection qualifies as creditable coverage under this Title. Notwithstanding section 2849-B, subsection 4, a policy that replaces coverage issued under a pilot project approved under this subsection is not subject to any preexisting conditions exclusion provisions. Each carrier that offers an individual product pursuant to a pilot project approved under this subsection must combine the experience for that product with other individual products offered by that carrier as filed with the bureau when determining premium rates. The experience of a carrier's closed pool may not be taken into account in determining pilot project premium rates. [PL 2007, c. 629, Pt. I, §1 (NEW).]

D. Beginning in 2010, the superintendent shall report by March 1st annually to the joint standing committee of the Legislature having jurisdiction over insurance matters on the status of any pilot project approved by the superintendent pursuant to this subsection. The report must include an analysis of the effectiveness of the pilot project in encouraging persons under 30 years of age to purchase insurance and an analysis of the impact of the pilot project on the broader insurance market, including any impact on premiums and availability of coverage. [PL 2007, c. 629, Pt. I, §1 (NEW).]

E. The superintendent shall establish by rule procedures and policies that facilitate the implementation of a pilot project pursuant to this subsection, including, but not limited to, a process for submitting a pilot project proposal, minimum requirements for approval of a pilot project and any requirements for minimum benefits. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A and must be adopted no later than 90 days after the effective date of this subsection. [PL 2007, c. 629, Pt. I, §1 (NEW).]

[PL 2007, c. 629, Pt. I, §1 (NEW).]

11. Open enrollment; rules. Notwithstanding subsection 3, on or after January 1, 2014, a carrier may restrict enrollment in individual health plans to open enrollment periods and special enrollment periods to the extent not inconsistent with applicable federal law. The superintendent may adopt rules establishing minimum open enrollment dates and minimum criteria for special enrollment periods for all individual health plans offered in this State. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2019, c. 5, Pt. A, §7 (AMD).]

"Noncancellable disability insurance" means insurance against disability resulting from sickness, ailment or bodily injury, but not including insurance solely against accidental injury, under any contract which does not give the insurer the option to cancel or otherwise terminate the contract at or after one year from its effective date or renewal date. The superintendent shall have the right to make the following requirements: [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

1. When a policy has neither a brief description nor a separate statement printed on the first page and on the filing back, referring to the renewal conditions of the policy, a separately captioned provision, setting forth the conditions under which the policy may be renewed, must appear on the first page of the policy. The caption shall be clear and definite and shall be approved by the superintendent; but any one of the following captions is acceptable:

"RENEWAL SUBJECT TO CONSENT OF COMPANY.

RENEWAL SUBJECT TO COMPANY CONSENT.

RENEWABLE AT OPTION OF COMPANY."

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. If the policy is not renewable, a separate, appropriately captioned provision on the first page of the policy shall so state.

SECTION HISTORY

PL 1969, c. 132, §1 (NEW). PL 1973, c. 585, §12 (AMD).

§2739. Lapse of policy, advance notice; limitation of action

An individual policy of health insurance issued or delivered in this State, except a policy which by its terms is renewable or continuable with the insurer's consent, or except a policy the premiums for which are payable monthly or at shorter intervals, may not terminate or lapse for nonpayment of any premium until the expiration of 3 months from the due date of such premium, unless the insurer, within not less than 10 nor more than 45 days prior to such due date, has mailed, postage prepaid, duly addressed to the insured at the insured's last address shown by the insurer's records, a notice showing the amount of such premium and its due date. If such a notice is not so sent, the insured may pay the premium in default at any time within such period of 3 months. The affidavit of any officer, clerk or agent of the insurer, or of any other person authorized to mail such notice, that the notice required by this section has been duly mailed by the insurer in the manner required is prima facie evidence that such notice was duly given. An action may not be maintained on any policy to which this section applies and that has lapsed for nonpayment of any premium unless such action is commenced within 2 years from the due date of such premium. An insurer must provide policy information to the custodial parent of any dependent child so that the custodial parent can obtain benefits for the child directly from the insurer. An insurer must permit the custodial parent of any dependent child to submit claims for covered services without the approval of the noncustodial parent. If the custodial parent approves, an insurer must permit the provider to submit claims for covered services without the approval of the noncustodial parent. §2745-C. Coverage for breast cancer treatment

1. Inpatient care. All individual health policies providing coverage for medical and surgical benefits, except accidental injury, specified disease, hospital indemnity, Medicare supplement, long-term care and other limited benefit health insurance policies and contracts, must ensure that inpatient coverage with respect to the treatment of breast cancer is provided for a period of time determined by the attending physician, after providing notice to the patient regarding the coverage required by this subsection and in consultation with the patient, to be medically appropriate following a mastectomy, a lumpectomy or a lymph node dissection for the treatment of breast cancer.

Nothing in this subsection may be construed to require the provision of inpatient coverage if the attending physician and patient determine that a shorter period of hospital stay is appropriate.

In implementing the requirements of this subsection, an individual health policy may not modify the terms and conditions of coverage based on the determination by any enrollee to request less than the minimum coverage required under this subsection.

All individual health policies must provide written notice to each enrollee under the contract regarding the coverage required by this subsection. The notice must be prominently positioned in any literature or correspondence made available or distributed by the plan and must be transmitted in the next mailing made by the plan to the enrollee or as part of any yearly information packet sent to the enrollee, whichever is earlier. The notice must also be made available to any physician participating in the insurer's provider network.

A. [PL 2019, c. 5, Pt. D, §1 (RP).]

A-1. All individual contracts must provide, at a minimum, benefits according to paragraph B, subparagraph (1) for a person receiving medical treatment for any of the following categories of mental illness as defined in the Diagnostic and Statistical Manual as defined in section 2843, subsection 3, paragraph A-1, except for those that are designated as "V" codes by the Diagnostic and Statistical Manual:

B. All individual policies and contracts executed, delivered, issued for delivery, continued or renewed in this State must provide coverage providing benefits that meet the requirements of this paragraph.

(1) The coverage must provide benefits for the treatment and diagnosis of mental illnesses under terms and conditions that are no less extensive than the benefits provided for medical treatment for physical illnesses.

(2) At the request of a reimbursing insurer, a provider of medical treatment for mental illness shall furnish data substantiating that initial or continued treatment is medically necessary health care. When making the determination of whether treatment is medically necessary health care, the provider shall use the same criteria for medical treatment for mental illness as for medical treatment for physical illness under the individual policy. An insurer may not deny treatment for mental health services that use evidence-based practices and are determined to be medically necessary health care for an individual 21 years of age or younger. For the purposes of this subparagraph, "evidence-based practices" means clinically sound and scientifically based policies, practices and programs that reflect expert consensus on the prevention, treatment and recovery science, including, but not limited to, policies, practices and programs published and disseminated by the Substance Abuse and Mental Health Services Administration and the Title IV-E Prevention Services Clearinghouse within the United States Department of Health and Human Services, the What Works Clearinghouse within the United States Department of Education, Institute of Education Sciences and the California Evidence-Based Clearinghouse for Child Welfare within the California Department of Social Services, Office of Child Abuse Prevention. 3. Limits; coinsurance; deductibles. A policy or contract that provides coverage for the services required by this section may contain provisions for maximum benefits and coinsurance and reasonable limitations, deductibles and exclusions to the extent that these provisions are not inconsistent with the requirements of this section.

[PL 1995, c. 407, §5 (NEW).]

4. Reports to the superintendent. Every insurer subject to this section shall report its experience for each calendar year to the superintendent no later than April 30th of the following year. The report must be in a form prescribed by the superintendent and include the amount of claims paid in this State for the services required by this section and the total amount of claims paid in this State for individual health care policies, both separated according to those paid for inpatient, day treatment and outpatient services. The superintendent shall compile this data for all insurers in an annual report.

[PL 1995, c. 407, §5 (NEW).]

5. Application. Except as otherwise provided, the requirements of this section apply to all policies and contracts executed, delivered, issued for delivery, continued or renewed in this State on or after July 1, 1996. For purposes of this section, all policies are deemed renewed no later than the next yearly anniversary of the contract date. §2752. Mandated health legislation procedures

1. Mandated health benefits proposals. For purposes of this section, a mandated health benefit proposal is one that mandates health insurance coverage for specific health services, specific diseases or certain providers of health care services as part of individual or group health insurance policies. A mandated option is not a mandated benefit for purposes of this section.

[PL 1991, c. 701, §8 (NEW).]

2. Procedures before legislative committees. Whenever a legislative measure containing a mandated health benefit is proposed, the joint standing committee of the Legislature having jurisdiction over the proposal shall hold a public hearing and determine the level of support for the proposal among the members of the committee. If there is support for the proposed mandate among a majority of the members of the committee, the committee may refer the proposal to the Bureau of Insurance for review and evaluation pursuant to subsection 3. Once a review and evaluation has been completed, the

committee shall review the findings of the bureau. A proposed mandate may not be enacted into law unless review and evaluation pursuant to subsection 3 has been completed.

[PL 1997, c. 616, §4 (AMD).]

3. Review and evaluation. Upon referral of a mandated health benefit proposal from the joint standing committee of the Legislature having jurisdiction over the proposal, the Bureau of Insurance shall conduct a review and evaluation of the mandated health benefit proposal and shall report to the committee in a timely manner. The report must include, at the minimum and to the extent that information is available, the following:

A. The social impact of mandating the benefit, including:

- (1) The extent to which the treatment or service is utilized by a significant portion of the population;
- (2) The extent to which the treatment or service is available to the population;
- (3) The extent to which insurance coverage for this treatment or service is already available;
- (4) If coverage is not generally available, the extent to which the lack of coverage results in persons being unable to obtain necessary health care treatment;
- (5) If the coverage is not generally available, the extent to which the lack of coverage results in unreasonable financial hardship on those persons needing treatment;
- (6) The level of public demand and the level of demand from providers for the treatment or service;
- (7) The level of public demand and the level of demand from the providers for individual or group insurance coverage of the treatment or service;
- (8) The level of interest in and the extent to which collective bargaining organizations are negotiating privately for inclusion of this coverage in group contracts;
- (9) The likelihood of achieving the objectives of meeting a consumer need as evidenced by the experience of other states;
- (10) The relevant findings of the appropriate health system agency relating to the social impact of the mandated benefit;
- (11) The alternatives to meeting the identified need;
- (12) Whether the benefit is a medical or a broader social need and whether it is consistent with the role of health insurance and the concept of managed care;
- (13) The impact of any social stigma attached to the benefit upon the market;
- (14) The impact of this benefit on the availability of other benefits currently being offered;
- (15) The impact of the benefit as it relates to employers shifting to self-insured plans and the extent to which the benefit is currently being offered by employers with self-insured plans; and
- (16) The impact of making the benefit applicable to the state employee health insurance program; [PL 2011, c. 90, Pt. J, §21 (AMD).]

B. The financial impact of mandating the benefit, including:

- (1) The extent to which the proposed insurance coverage would increase or decrease the cost of the treatment or service over the next 5 years;
- (2) The extent to which the proposed coverage might increase the appropriate or inappropriate use of the treatment or service over the next 5 years;

- (3) The extent to which the mandated treatment or service might serve as an alternative for more expensive or less expensive treatment or service;
- (4) The methods that will be instituted to manage the utilization and costs of the proposed mandate;
- (5) The extent to which the insurance coverage may affect the number and types of providers of the mandated treatment or service over the next 5 years;
- (6) The extent to which insurance coverage of the health care service or provider may be reasonably expected to increase or decrease the insurance premium and administrative expenses of policyholders;
- (7) The impact of indirect costs, which are costs other than premiums and administrative costs, on the question of the costs and benefits of coverage;
- (8) The impact of this coverage on the total cost of health care, including potential benefits and savings to insurers and employers because the proposed mandated treatment or service prevents disease or illness or leads to the early detection and treatment of disease or illness that is less costly than treatment or service for later stages of a disease or illness;
- (9) The effects of mandating the benefit on the cost of health care, particularly the premium and administrative expenses and indirect costs, to employers and employees, including the financial impact on small employers, medium-sized employers and large employers; and
- (10) The effect of the proposed mandate on cost-shifting between private and public payors of health care coverage and on the overall cost of the health care delivery system in this State.

In order to enable the committee to assess the financial impact of the benefit, the report must include a comparison of the rate of increase in the Consumer Price Index for medical care services to the rate of increase in the Consumer Price Index for the previous year and the current year as reported by the United States Department of Labor, Bureau of Labor Statistics; [PL 2005, c. 125, §1 (AMD).]

C. The medical efficacy of mandating the benefit, including:

- (1) The contribution of the benefit to the quality of patient care and the health status of the population, including the results of any research demonstrating the medical efficacy of the treatment or service compared to alternatives or not providing the treatment or service; and
- (2) If the legislation seeks to mandate coverage of an additional class of practitioners:
 - (a) The results of any professionally acceptable research demonstrating the medical results achieved by the additional class of practitioners relative to those already covered; and
 - (b) The methods of the appropriate professional organization that assure clinical proficiency; and [PL 1991, c. 701, §8 (NEW).]

D. The effects of balancing the social, economic and medical efficacy considerations, including:

- (1) The extent to which the need for coverage outweighs the costs of mandating the benefit for all policyholders;
- (2) The extent to which the problem of coverage may be solved by mandating the availability of the coverage as an option for policyholders; and
- (3) The cumulative impact of mandating this benefit in combination with existing mandates on the costs and availability of coverage. [PL 1997, c. 616, §5 (AMD).]

Shall permit and apply a prorated daily cost-sharing rate to a prescription that is dispensed by a pharmacist in the carrier's network for less than a 30-day supply if the prescriber or pharmacist determines that filling or refilling the prescription for less than a 30-day supply is in the best interest of the patient and the patient requests or agrees to less than a 30-day supply in order to synchronize the refilling of that prescription with the patient's other prescriptions; [PL 2015, c. 93, §1 (NEW); PL 2015, c. 93, §2 (AFF).]

- A. The process by which the entity carries out its utilization review services. The information provided to the bureau must include the categories of health care personnel that perform any activities coming under the definition of utilization review and whether or not these individuals are licensed in the State. The information provided to the bureau also must include copies of any licensure agreements the utilization review entity has in effect with any entity that sells or furnishes the utilization review entity with medical utilization review criteria and the expiration date of any such agreements. If the utilization review entity develops its own medical utilization review criteria, the utilization review entity shall include copies of any policies and procedures or both for the use of the criteria; [PL 1995, c. 332, Pt. M, §6 (AMD).]
- B. The process used by the entity for addressing beneficiary or provider complaints; [PL 1989, c. 556, Pt. C, §2 (NEW).]

- D. The process chosen by the entity to preserve beneficiary confidentiality of medical information. [PL 1989, c. 556, Pt. C, §2 (NEW).]

As part of its initial application, the entity shall submit copies of all materials to be used to inform beneficiaries and providers of the requirements of its utilization review plans and their rights and responsibilities under the plan.

[PL 1995, c. 332, Pt. M, §6 (AMD).]

4. Transition for existing entities. Notwithstanding subsection 1, persons, partnerships or corporations performing utilization review services on the effective date of this section shall have 90 days from its effective date to submit an application to the superintendent. The superintendent shall act upon those applications within 6 months of the date of receipt of the application, during which time the review entities may continue to perform medical utilization review services.

[PL 1995, c. 332, Pt. M, §7 (NEW).]

4. Information materials; confidentiality. A copy of the materials designed to inform applicable patients of the requirements of the utilization plan and the responsibilities and rights of patients under the plan and an acknowledgment that all applicable state and federal laws to protect the confidentiality of individual medical records are followed must be filed with the bureau.

[PL 1995, c. 332, Pt. M, §8 (AMD).]

6. Prohibited activities. A medical utilization review entity shall ensure that an employee does not perform medical utilization review services involving a health care provider or facility in which that employee has a financial interest.

[PL 1989, c. 556, Pt. C, §2 (NEW).]

2. Action against licensee. The superintendent is authorized to take appropriate action against a licensee which fails to meet the standards of this chapter or any rules adopted by the superintendent, or who fails to respond in a timely manner to corrective actions ordered by the superintendent. STATE-FEDERAL HEALTH COVERAGE PARTNERSHIPS

§2781. State-federal health coverage partnerships

1. Partnerships authorized. The State may enter into state-federal health coverage partnerships that support the availability of affordable health coverage in the State in accordance with this section. As used in this chapter, "state-federal health coverage partnership" means a program established or

authorized under federal law that provides or reallocates federal funding or that provides for the waiver or modification of otherwise applicable provisions of federal laws governing health insurance. "State-federal health coverage partnership" includes, but is not limited to, innovation waivers under Section 1332 of the federal Affordable Care Act.

[PL 2019, c. 653, Pt. B, §1 (NEW).]

2. Application. Unless the applicable federal laws, regulations or administrative guidelines require a different state official to be the applicant, the superintendent may apply to the appropriate federal agency or agencies to establish or participate in a state-federal health coverage partnership or to modify the terms and conditions of an existing partnership if the superintendent determines that the application, if approved, is likely to improve the affordability, availability or quality of health coverage in this State and the Governor approves the submission of the application.

[PL 2019, c. 653, Pt. B, §1 (NEW).]

3. Notice and consultation. The superintendent shall ensure that all federally required notices and opportunities for consultation with respect to a state-federal health coverage partnership or proposed partnership are provided. The superintendent shall take any additional measures that may be necessary to identify persons and constituencies likely to be materially affected by a state-federal health coverage partnership or proposed partnership and to provide such persons and constituencies with reasonable notice and opportunity for input.

[PL 2019, c. 653, Pt. B, §1 (NEW).]

4. MaineCare program and Maine Health Insurance Marketplace. 1. Individual health plan. "Individual health plan" has the same meaning as in section 2736-C, subsection 1, paragraph C.

[PL 2019, c. 653, Pt. B, §2 (NEW).]

2. Small group health plan. "Small group health plan" has the same meaning as in section 2808-B, subsection 1, paragraph G.

SECTION HISTORY

PL 2019, c. 653, Pt. B, §2 (NEW).

§2792. Affordable health coverage for individuals, families and small businesses

(CONTAINS TEXT WITH VARYING EFFECTIVE DATES)

(CONTINGENT IMPLEMENTATION: See Title 24-A, section 2792, subsection 5)

1. Pooled market established. Subject to the requirements of subsection 5, all individual and small group health plans offered in this State with effective dates of coverage on or after January 1, 2023 must be offered through a pooled market. A health insurance carrier offering an individual health plan subject to this section shall make the plan available to all eligible small employers within the plan's approved service area, and a health insurance carrier offering a small group health plan subject to this section shall make the plan available to all eligible individuals residing within the plan's approved service area. This subsection does not require the Maine Health Insurance Marketplace established in Title 22, chapter 1479 to offer identical choices of health plans to individuals and to small employers under Title 22, chapter 1479.

[PL 2021, c. 361, §1 (AMD).]

2. Premium rates. Premium rates for a health plan offered in the pooled market described in subsection 1 may not vary based on whether the plan is issued to an individual or to a small employer. Rate filings and review for the pooled market are subject to the provisions of sections 2736 to 2736-C. For health plans that are issued on other than a calendar year basis, rates applicable on and after January 1st of any plan year must be the approved rates for the most similar plan offered during the new calendar year, adjusted by a factor, approved by the superintendent as part of the rating plan, that appropriately accounts for any differences in plan design.

[PL 2019, c. 653, Pt. B, §2 (NEW).]

3. Harmonization of mandated benefit laws. In addition to the requirements of chapter 56-A, a health plan subject to this section must comply with the applicable mandated benefit provisions in chapter 33 or the corresponding provisions of chapter 35. A health maintenance organization or a nonprofit hospital and medical service organization may offer any health plan approved by the superintendent for sale in the pooled market established pursuant to this section, notwithstanding any provision of chapter 56 or Title 24 to the contrary.

[PL 2019, c. 653, Pt. B, §2 (NEW).]

4. Conforming references. All references in this Title to the individual health insurance market, the small group health insurance market or any equivalent terminology refer to the pooled market established pursuant to this section.

[PL 2019, c. 653, Pt. B, §2 (NEW).]

5. Preconditions for pooled market. This section may not be implemented unless routine technical rules as defined in Title 5, chapter 375, subchapter 2-A are adopted to implement this section and the Federal Government approves a state innovation waiver amendment that extends reinsurance under section 3953 to the pooled market established pursuant to this section based on projections by the superintendent that both average individual premium rates and average small group premium rates would be the same or lower than they would have been absent the provisions of this section and chapter 54-A. If this section is not implemented, the superintendent shall conduct an analysis of alternative proposals to improve the stability and affordability of the small group market.

[PL 2021, c. 361, §2 (AMD).]

SECTION HISTORY

PL 2019, c. 653, Pt. B, §2 (NEW). PL 2021, c. 361, §§1, 2 (AMD).

§2793. Clear choice designs

The superintendent shall develop clear choice designs for health plans in order to reduce consumer confusion and provide meaningful choices for consumers by promoting a level playing field on which carriers compete on the basis of price and quality. [PL 2021, c. 361, §3 (AMD).]

1. Clear choice design. For the purposes of this section, "clear choice design" means a set of annual copayments, coinsurance and deductibles for all or a designated subset of the essential health

benefits. An individual health plan subject to section 2736-C or a pooled market health plan subject to section 2792 must conform to one of the clear choice designs developed pursuant to this section unless it is approved as an alternative plan under subsection 4.

[PL 2021, c. 361, §3 (AMD).]

2. Development of clear choice designs. The superintendent shall develop clear choice designs in consultation with working groups consisting of consumers, carriers, health policy experts and other interested persons. The superintendent shall adopt rules for clear choice designs, taking into consideration the ability of plans to conform to actuarial value ranges, consumer needs and promotion of benefits with high value and return on investment. The superintendent shall develop at least one clear choice design for each tier of health insurance plan designated as bronze, silver, gold and platinum in accordance with the federal Affordable Care Act. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. Clear choice designs apply to all individual health plans offered in this State with effective dates of coverage on or after January 1, 2022 and to all small group health plans offered through the pooled market under section 2792.

[PL 2021, c. 361, §3 (AMD).]

3. Annual review. The superintendent shall consider annually whether to revise, discontinue or add any clear choice designs for use by carriers in the following calendar year, including but not limited to considering whether deductible and copayment levels should be changed to reflect medical inflation and conform with actuarial value and annual maximum out-of-pocket limits.

[PL 2019, c. 653, Pt. B, §2 (NEW).]

4. Alternative plan designs. In addition to one or more health plans that include cost-sharing parameters consistent with a clear choice design developed pursuant to this section, a carrier may offer up to 3 health plan designs that modify one or more specific cost-sharing parameters in a clear choice design if the carrier submits an actuarial certification to the satisfaction of the superintendent that the alternative plan design offers significant consumer benefits and does not result in adverse selection. An alternative plan design may be offered only in a service area where the carrier offers at least one clear choice design plan at the same tier.
