A group of individuals may be insured under a policy issued to an employer or to the trustees of a fund established by an employer, which employer or trustees shall be deemed the policyholder, to insure employees of the employer for the benefit of persons other than the employer, subject to the following requirements. [PL 1981, c. 147, §2 (RPR).]

The policy may provide that the term "employees" includes the individual proprietor or partners if the employer is an individual proprietorship or partnership. The policy may provide that

the term "employees" includes retired employees and directors of a corporate employer. [PL 2015, c. 420, §3 (AMD).]

§2808-B. Small group health plans

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Carrier" means any insurance company, nonprofit hospital and medical service organization or health maintenance organization authorized to issue small group health plans in this State. For the purposes of this section, carriers that are affiliated companies or that are eligible to file consolidated tax returns are treated as one carrier and any restrictions or limitations imposed by this section apply as if all small group health plans delivered or issued for delivery in this State by affiliated carriers were issued by one carrier. For purposes of this section, health maintenance organizations are treated as separate organizations from affiliated insurance companies and nonprofit hospital and medical service organizations. [PL 1991, c. 861, §2 (NEW).]

B. "Community rate" means the rate to be charged to all eligible groups for small group health plans prior to any adjustments pursuant to subsection 2, paragraphs C and D. [PL 1991, c. 861, §2 (NEW).]

C. "Eligible employee" means an employee who works on a full-time basis, with a normal work week of 30 hours or more. "Eligible employee" includes a sole proprietor, a partner of a partnership or an independent contractor, but does not include employees who work on a temporary or substitute basis. An employer may elect to treat as eligible employees part-time employees who work a normal work week of 10 hours or more as long as at least one employee works a normal work week of 30 hours or more. An employer may elect to treat as eligible employees employees who retire from the employer's employment. [PL 1999, c. 256, Pt. P, §1 (AMD).]

D. "Eligible group" means any person, firm, corporation, partnership, association or subgroup engaged actively in a business that employed an average of 50 or fewer eligible employees during the preceding calendar year.

- (1) If an employer was not in existence throughout the preceding calendar year, the determination must be based on the average number of employees that the employer is reasonably expected to employ on business days in the current calendar year.
- (2) In determining the number of eligible employees, companies that are affiliated companies or that are eligible to file a combined tax return for purposes of state taxation are considered one employer.
- (3) A group is not an eligible group if there is any one other state where there are more eligible employees than are employed within this State and the group had coverage in that state or is eligible for guaranteed issuance of coverage in that state.
- (4) An employer qualifies as an eligible group for 2-person coverage if the employer provides a carrier with the following information demonstrating that the employer's business and employees meet the minimum qualifications for group coverage in paragraph C:
 - (a) A copy of the most recent quarterly combined filing for income tax withholding and unemployment contributions, Form 941/C1-ME;
 - (b) For an employee claimed to be an employee eligible for group coverage whose name is not listed on Form 941/C1-ME, a copy of the employer's payroll records for the most recent 3 months showing tax withholding or a wage report from a payroll company showing wages paid to that employee for the most recent quarter with tax withholding;
 - (c) If an employer is exempt from filing Form 941/C1-ME for group coverage, documentation of that exemption and a copy of the employer's payroll records for the most recent 3 months showing tax withholding or a wage report from a payroll company showing wages paid to that employee for the most recent quarter with tax withholding; or
 - (d) If the name of the business owner or employee does not appear on Form 941/C1-ME, a copy of one of the following:
 - (i) Federal income tax Form Schedule C or Schedule F;
 - (ii) Federal income tax Form 1120S, Schedule K-1;
 - (iii) Federal income tax Form 1065, Schedule K-1;
 - (iv) A workers' compensation insurance audit or evidence of a waiver of benefits under Title 39-A;
 - (v) A description of operations in a commercial general liability insurance policy or equivalent insurance policy providing coverage for the business; or
 - (vi) A signature card from a financial institution or credit union authorizing the employee to sign checks on a business checking or share draft account that is at least 6 months old; a notarized affidavit from the employer describing the duties of the employee and the average number of hours worked by the employee and attesting that the employer is not defrauding the carrier and is aware of the consequences of committing fraud or making a material misrepresentation to the carrier, including a loss of coverage and benefits; and, if the group coverage is purchased through a producer, a notarized affidavit from the producer affirming the producer's belief that the employer qualifies as an eligible group for coverage.

In determining if a new business or a business that adds an owner or a new employee to payroll during the course of a year qualifies as an eligible group for 2-person coverage under this subparagraph, the employer must submit an affidavit stating that all employees meet the criteria in this subparagraph and that the documentation and forms required under this subparagraph will be provided to the carrier when payroll records become available, when ownership

distribution forms become available or the first renewal date of the coverage, whichever date is earlier. A false affidavit or misrepresentation on an affidavit submitted by an employer may result in the loss of group coverage and repayment of claims paid. This subparagraph may not be construed to prohibit a carrier from recognizing an employer as an eligible group if the employer has not produced the documentation required in this subparagraph.

This subparagraph applies only to an employer applying for group health insurance coverage as a 2-person group from October 1, 2001 to December 31, 2013. [PL 2011, c. 364, §9 (AMD).]

E. "Late enrollee" means an eligible employee or dependent who requests enrollment in a small group health plan following the initial minimum 30-day enrollment period provided under the terms of the plan, except that, an eligible employee or dependent is not considered a late enrollee if the eligible employee or dependent meets the requirements of section 2849-B, subsection 3, paragraph A, B, C-1 or D. [PL 1997, c. 777, Pt. B, §2 (AMD).]

F. "Premium rate" means the rate charged to an eligible group or eligible individual for a small group health plan. [PL 1991, c. 861, §2 (NEW).]

G. "Small group health plan" means any hospital and medical expense-incurred policy; health, hospital or medical service corporation plan contract; or health maintenance organization subscriber contract covering an eligible group. "Small group health plan" does not include the following types of insurance:

- (1) Accident;
- (2) Credit;
- (3) Disability;
- (4) Long-term care or nursing home care;
- (5) Medicare supplement;
- (6) Specified disease;
- (7) Dental or vision;
- (8) Coverage issued as a supplement to liability insurance;
- (9) Workers' compensation;
- (10) Automobile medical payment; or
- (11) Insurance under which benefits are payable with or without regard to fault and that is required statutorily to be contained in any liability insurance policy or equivalent self-insurance. [PL 1991, c. 861, §2 (NEW).]

H. "Subgroup" means an employer with 50 or fewer employees within an association, a multiple employer trust, a private purchasing alliance or any similar subdivision of a larger group covered by a single group health policy or contract. For group policies issued to an employee leasing company as defined in Title 32, chapter 125, each client having 50 or fewer employees is considered a separate subgroup. [PL 2009, c. 244, Pt. F, §2 (AMD).]
[PL 2011, c. 364, §9 (AMD).]

2. Rating practices. The following requirements apply to the rating practices of carriers providing small group health plans. This subsection does not apply to policies issued before January 1, 1998 to eligible groups that employed, on average, 25 to 50 eligible employees until their first renewal date on or after January 1, 1998.

A. [PL 2003, c. 469, Pt. E, §14 (RP).]

B. A carrier may not vary the premium rate due to the gender, health status, claims experience or policy duration of the eligible group or members of the group or any other rating factor not specified in this section. [PL 2019, c. 5, Pt. A, §9 (AMD).]

C. A carrier may vary the premium rate due to family membership and participation in wellness programs. The premium rate for a family must equal the sum of the premiums for each individual in the family, except that it may not be based on more than 3 dependent children who are less than 21 years of age. The superintendent may adopt rules setting forth appropriate methodologies regarding rate discounts for participation in wellness programs. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2019, c. 5, Pt. A, §10 (AMD).]

C-1. A carrier may vary the premium rate due to geographic area in accordance with the limitation set out in this paragraph. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between October 1, 2011 and December 31, 2023, the rating factor used by a carrier for geographic area may not exceed 1.5. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2024, the rating factor used by a carrier for geographic area may not exceed 1.25. [PL 2021, c. 655, §2 (AMD).]

D. A carrier may vary the premium rate due to age and tobacco use in accordance with the limitations set out in this paragraph. A carrier that varies the premium rate due to age must vary the premium rate according to a uniform age curve. The superintendent shall adopt rules establishing a uniform age curve that is substantially similar to the age curve in effect on January 1, 2019 under the federal Affordable Care Act. Rules adopted under this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

(1) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 15, 1993 and July 14, 1994, the premium rate may not deviate above or below the community rate filed by the carrier by more than 50%.

(2) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 15, 1994 and July 14, 1995, the premium rate may not deviate above or below the community rate filed by the carrier by more than 33%.

(3) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between July 15, 1995 and September 30, 2011, the premium rate may not deviate above or below the community rate filed by the carrier by more than 20%.

(4) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between October 1, 2011 and September 30, 2012, the maximum rate differential due to age filed by the carrier as determined by ratio is 2 to 1. The limitation does not apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(5) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between October 1, 2012 and December 31, 2013, the maximum rate differential due to age and group size filed by the carrier as determined by ratio is 2.5 to 1. The limitation does not apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(6) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between January 1, 2014 and December 31, 2014, the maximum rate differential due to age and group size filed by the carrier as determined by ratio is 3 to 1 to the extent permitted by the federal Affordable Care Act. The limitation does not

apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(7) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between January 1, 2015 and December 31, 2015, the maximum rate differential due to age and group size filed by the carrier as determined by ratio is 4 to 1 to the extent permitted by the federal Affordable Care Act. The limitation does not apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(8) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2016, except as provided in subparagraph (10), the maximum rate differential due to age and group size filed by the carrier as determined by ratio is 5 to 1 to the extent permitted by the federal Affordable Care Act. The limitation does not apply for determining rates for an attained age of less than 19 years of age or more than 65 years of age.

(9) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between October 1, 2011 and December 31, 2022, the maximum rate differential due to tobacco use filed by the carrier as determined by ratio is 1.5 to 1, except that the carrier may not apply a rate differential pursuant to this subparagraph when the covered individual is participating in an evidence-based tobacco cessation strategy approved by the United States Department of Health and Human Services, Food and Drug Administration. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State between January 1, 2023 and December 31, 2023, the maximum rate differential due to tobacco use filed by the carrier as determined by ratio is 1.25 to 1, except that the carrier may not apply a rate differential pursuant to this subparagraph when the covered individual is participating in an evidence-based tobacco cessation strategy approved by the United States Department of Health and Human Services, Food and Drug Administration. For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2024, a carrier may not vary the premium rate due to tobacco use.

(10) For all policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after the effective date of this Act, the maximum rate differential due to age filed by the carrier as determined by ratio is 3 to 1 for individuals 21 years of age and older on the first day of coverage under the policy, contract or certificate. The variation in rate due to age must be actuarially justified for individuals under 21 years of age consistent with the uniform age rating curve adopted under this paragraph. [PL 2021, c. 344, §2 (AMD).]

D-1. [PL 2011, c. 90, Pt. A, §9 (RP).]

D-2. Notwithstanding the requirements of paragraph D, rates with respect to employees whose work site is not in this State may be based on area adjustment factors appropriate to that location. [RR 1997, c. 1, §22 (RAL).]

E. The superintendent may authorize a carrier to establish a separate community rate for an association group organized pursuant to section 2805-A or a trustee group organized pursuant to section 2806 consistent with the provisions of this paragraph and applicable federal law.

(1) Association group membership or eligibility for participation in the trustee group may not be conditioned on health status, claims experience or other risk selection criteria.

(2) All health plans offered by the carrier through that association or trustee group must be made available on a guaranteed issue basis to all eligible employers that are members of the

association or are eligible to participate in the trustee group except that a professional association may require that a minimum percentage of the eligible professionals employed by a subgroup be members of the association in order for the subgroup to be eligible for issuance or renewal of coverage through the association. The minimum percentage must not exceed 90%. For purposes of this subparagraph, "professional association" means an association that:

- (a) Serves a single profession that requires a significant amount of education, training or experience or a license or certificate from a state authority to practice that profession;
- (b) Has been actively in existence for 5 years;
- (c) Has a constitution and bylaws or other analogous governing documents;
- (d) Has been formed and maintained in good faith for purposes other than obtaining insurance;
- (e) Is not owned or controlled by a carrier or affiliated with a carrier;
- (f) Has at least 1,000 members if it is a national association; 200 members if it is a state or local association;
- (g) All members and dependents of members are eligible for coverage regardless of health status or claims experience; and
- (h) Is governed by a board of directors and sponsors annual meetings of its members.

(3) The aggregate rate charged by the carrier to the association or trustee group is considered a large group rate, and the terms of coverage are considered a large group health plan. Rates for participating employers within the group may vary only as permitted by paragraphs B to D-2.

(4) Producers may only market association memberships, accept applications for membership or sign up members in a professional association in which the individuals are actively engaged in or directly related to the profession represented by the professional association.

(5) Carriers may not be reinsured under section 3958 for coverage issued under this paragraph.

(6) Except for employers with plans that have grandfathered status under the federal Affordable Care Act, this paragraph does not apply to policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2014 until December 31, 2019. To the extent permitted under the federal Affordable Care Act, this paragraph applies to policies, contracts or certificates that are executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 2020. [PL 2019, c. 653, Pt. B, §3 (RPR).]

F. Premium rates charged to a private purchasing alliance, as defined by chapter 18-A, may be reduced in accordance with rules adopted pursuant to that chapter. [PL 1995, c. 673, Pt. A, §6 (NEW).]

G. [PL 2003, c. 469, Pt. E, §15 (RP).]

H. [PL 2019, c. 5, Pt. A, §12 (RP).]

I. Except for plans that have grandfathered status under the federal Affordable Care Act, beginning January 1, 2014, a carrier shall consider all enrollees in all small group health plans offered by the carrier to be members of a single risk pool to the extent required by the federal Affordable Care Act. [PL 2011, c. 364, §14 (NEW).]

[PL 2021, c. 655, §2 (AMD).]

2-A. Rate filings. A carrier offering small group health plans shall file with the superintendent the community rates for each plan and every rate, rating formula and classification of risks and every modification of any formula or classification that it proposes to use.

A. Every filing must state the effective date of the filing. Every filing must be made not less than 60 days in advance of the stated effective date, unless the 60-day requirement is waived by the superintendent. The effective date may be suspended by the superintendent for a period of time not to exceed 30 days. [PL 2009, c. 244, Pt. C, §7 (AMD).]

B. A filing and all supporting information, except for protected health information required to be kept confidential by state or federal statute and except for descriptions of the amount and terms or conditions or reimbursement in a contract between an insurer and a 3rd party, are public records notwithstanding Title 1, section 402, subsection 3, paragraph B and become part of the official record of any hearing held pursuant to subsection 2-B, paragraph B or section 2792, subsection 2. [PL 2019, c. 653, Pt. B, §4 (AMD).]

C. Rates for small group health plans must be filed in accordance with this section and subsections 2-B and 2-C or section 2792, as applicable, for premium rates effective on or after July 1, 2004. [PL 2023, c. 59, §5 (AMD).]
[PL 2023, c. 59, §5 (AMD).]

2-B. Rate review and hearings. Except as provided in subsection 2-C and section 2792, rate filings are subject to this subsection.

A. Rates subject to this subsection must be filed for approval by the superintendent. The superintendent shall disapprove any premium rates filed by any carrier, whether initial or revised, for a small group health plan unless it is anticipated that the aggregate benefits estimated to be paid under all the small group health plans maintained in force by the carrier for the period for which coverage is to be provided will return to policyholders at least 75% of the aggregate premiums collected for those policies, as determined in accordance with accepted actuarial principles and practices and on the basis of incurred claims experience and earned premiums. [PL 2023, c. 59, §6 (AMD).]

B. If at any time the superintendent has reason to believe that a filing does not meet the requirements that rates not be excessive, inadequate or unfairly discriminatory or that the filing violates any of the provisions of chapter 23, the superintendent shall cause a hearing to be held. Hearings held under this subsection must conform to the procedural requirements set forth in Title 5, chapter 375, subchapter 4. The superintendent shall issue an order or decision within 30 days after the close of the hearing or of any rehearing or reargument or within such other period as the superintendent for good cause may require, but not to exceed an additional 30 days. In the order or decision, the superintendent shall either approve or disapprove the rate filing. If the superintendent disapproves the rate filing, the superintendent shall establish the date on which the filing is no longer effective, specify the filing the superintendent would approve and authorize the insurer to submit a new filing in accordance with the terms of the order or decision. [PL 2003, c. 469, Pt. E, §16 (NEW).]

C. When a filing is not accompanied by the information upon which the carrier supports the filing or the superintendent does not have sufficient information to determine whether the filing meets the requirements that rates not be excessive, inadequate or unfairly discriminatory, the superintendent shall require the carrier to furnish the information upon which it supports the filing. [PL 2011, c. 364, §15 (AMD).]

D. [PL 2023, c. 59, §7 (RP).]

E. [PL 2009, c. 244, Pt. C, §8 (RP).]

F. [PL 2009, c. 244, Pt. C, §9 (RP).]

[PL 2023, c. 59, §§6, 7 (AMD).]

2-C. Guaranteed loss ratio. Notwithstanding subsection 2-B, rate filings for a credible block of small group health plans may be filed in accordance with this subsection instead of subsection 2-B, except as otherwise provided in section 2792. Rates filed in accordance with this subsection are filed for informational purposes.

A. A block of small group health plans is considered credible if the anticipated average number of members during the period for which the rates will be in effect meets standards for full or partial credibility pursuant to the federal Affordable Care Act. The rate filing must state the anticipated average number of members during the period for which the rates will be in effect and the basis for the estimate. If the superintendent determines that the number of members is likely to be less than needed to meet the credibility standard, the filing is subject to subsection 2-B. [PL 2011, c. 364, §16 (AMD).]

A-1. [PL 2011, c. 364, §16 (RP).]

B. [PL 2011, c. 364, §16 (RP).]

C. [PL 2011, c. 364, §16 (RP).]

D. [PL 2011, c. 364, §16 (RP).]

E. [PL 2011, c. 364, §16 (RP).]

[PL 2019, c. 653, Pt. B, §7 (AMD).]

3. Coverage for late enrollees. In providing coverage to late enrollees, small group health plan carriers are allowed to exclude or limit coverage for a late enrollee subject to the limitations set forth in section 2849-B, subsection 3.

[PL 1999, c. 256, Pt. L, §1 (AMD).]

4. Guaranteed issuance and guaranteed renewal. Carriers providing small group health plans must meet the following requirements on issuance and renewal.

A. Any small group health plan offered to any eligible group or subgroup must be offered to all eligible groups that meet the carrier's minimum participation requirements, which may not exceed 75%, to all eligible employees and their dependents in those groups. In determining compliance with minimum participation requirements, eligible employees and their dependents who have existing health care coverage may not be considered in the calculation. If an employee declines coverage because the employee has other coverage, any dependents of that employee who are not eligible under the employee's other coverage are eligible for coverage under the small group health plan. A carrier may deny coverage under a managed care plan, as defined by section 4301-A:

(1) To employers who have no employees who live, reside or work within the approved service area of the plan; and

(2) To employers if the carrier has demonstrated to the superintendent's satisfaction that:

(a) The carrier does not have the capacity to deliver services adequately to additional enrollees within all or a designated part of its service area because of its obligations to existing enrollees; and

(b) The carrier is applying this provision uniformly to individuals and groups without regard to any health-related factor.

A carrier that denies coverage in accordance with this subparagraph may not enroll individuals residing within the area subject to denial of coverage, or groups or subgroups within that area for a period of 180 days after the date of the first denial of coverage. [RR 2001, c. 1, §32 (COR).]

B. Renewal is guaranteed under section 2850-B. [PL 1997, c. 445, §17 (RPR); PL 1997, c. 445, §32 (AFF).]
[RR 2001, c. 1, §32 (COR).]

5. Cessation of business.

[PL 1997, c. 445, §18 (RP); PL 1997, c. 445, §32 (AFF).]

6. Fair marketing standards. Carriers providing small group health plans must meet the following standards of fair marketing.

A. Each carrier must actively market small group health plan coverage, including any standardized plans required to be offered pursuant to subsection 8-A, to eligible groups in this State. [PL 2009, c. 439, Pt. D, §2 (AMD).]

B. A carrier or representative of the carrier may not directly or indirectly engage in the following activities:

(1) Encouraging or directing eligible groups to refrain from filing an application for coverage with the carrier because of any of the rating factors listed in subsection 2; and

(2) Encouraging or directing eligible groups to seek coverage from another carrier because of any of the rating factors listed in subsection 2. [PL 1991, c. 861, §2 (NEW).]

C. A carrier may not directly or indirectly enter into any contract, agreement or arrangement with a representative of the carrier that provides for or results in the compensation paid to the representative for the sale of a small group health plan to be varied because of the rating factors listed in subsection 2. A carrier may enter into a compensation arrangement that provides compensation to a representative of the carrier on the basis of percentage of premium, provided that the percentage does not vary because of the rating factors listed in subsection 2. [PL 1991, c. 861, §2 (NEW).]

D. A carrier may not terminate, fail to renew or limit its contract or agreement of representation with a representative for any reason related to the rating factors listed in subsection 2. [PL 1991, c. 861, §2 (NEW).]

E. A carrier or representative of the carrier may not induce or otherwise encourage an eligible group to separate or otherwise exclude an employee from small group health plan coverage or benefits. [PL 1991, c. 861, §2 (NEW).]

F. Denial by a carrier of an application for coverage from an eligible group must be in writing and must state the reason or reasons for the denial. [PL 1991, c. 861, §2 (NEW).]

G. The superintendent may establish rules setting forth additional standards to provide for the fair marketing and broad availability of small group health plans in this State. [PL 1991, c. 861, §2 (NEW).]

H. A violation of this section by a carrier or a representative of the carrier is an unfair trade practice under chapter 23. If a carrier enters into a contract, agreement or other arrangement with a 3rd-party administrator to provide administrative, marketing or other services related to the offering of small group health plans in this State, the 3rd-party administrator is subject to this section as if it were a carrier. [PL 1991, c. 861, §2 (NEW).]

I. Notwithstanding any other provision of this section, prior to January 1, 2014, a carrier may choose whether it will offer to groups having only one member coverage under the carrier's individual health policies offered to other individuals in this State in accordance with section 2736-C or coverage under a small group health plan in accordance with this section, or both, but the carrier need not offer to groups of one both small group and individual health coverage. [PL 2011, c. 364, §17 (AMD).]

[PL 2011, c. 364, §17 (AMD).]

7. Applicability. This section applies to all policies, plans, contracts and certificates executed, delivered, issued for delivery, continued or renewed in this State on or after July 15, 1993. For purposes of this section, all contracts are deemed renewed no later than the next yearly anniversary date of the policy, plan, contract or certificate.

[PL 1995, c. 332, Pt. D, §4 (AMD).]

8. Standardized plans.

[PL 2001, c. 410, Pt. A, §7 (RP).]

8-A. Authority of the superintendent. The superintendent may by rule define one or more standardized small group health plans that must be offered by all carriers offering small group health plans in the State. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2009, c. 439, Pt. D, §3 (NEW).]

9. Reinsurance mechanism. Small group carriers, except nonprofit hospital and medical service organizations, may form a reinsurance pool for the purpose of reinsuring small group risks. This pool may not become operative until the superintendent has approved a plan of operation. The superintendent may approve a plan only after the superintendent determines that the plan is in the public interest and is consistent with this section. The participants in the plan of operation of the pool shall guarantee, without limitation, the solvency of the pool. That guarantee constitutes a permanent financial obligation of each participant on a pro rata basis.

§2809. Coverage of family, dependents; continuation of coverage

1. Any policy of group health insurance issued pursuant to sections 2804 (employee groups), 2805 (labor union groups), 2805-A (association groups), 2806 (trustee groups), 2807-A (credit union groups) or 2808 (other groups) may include coverage for members of the family or dependents of individuals otherwise insured in such groups.

[PL 1981, c. 147, §9 (AMD).]

1-A. Any such policy of group health insurance that provides coverage for family members or dependents of individuals in the insured group may not define the terms "family" or "dependent" to exclude from coverage those minor children of any covered individual who do not reside with that individual. Insurers must comply with 42 United States Code, Section 1396g-1.

[PL 1995, c. 418, Pt. C, §3 (AMD).]

2. Any group health insurance policy which contains provisions for the payment by the insurer of benefits for expenses incurred on account of hospital, nursing, medical or surgical services for members of the family or dependents of an individual in the insured group may provide for the continuation of such benefit provisions, or any part or parts thereof, after the death of such individual.

§2809-A. Conversion on termination of policy or eligibility

1. A group policy issued prior to January 1, 1996, that provides hospital, surgical or major medical expense insurance or any combination thereof, other than a policy that provides benefits for specific diseases or accidental injuries only, must contain a provision that if the insurance on an employee or member ceases because of termination of employment or termination of the policy or any portion of a policy, and the person has been continuously insured for a period of at least 3 months under the group policy or under the group policy and any prior group policy or contract providing similar benefits that it replaces, that person is entitled to have issued to that person by the insurer, without evidence of insurability, an individual policy or, at the insurer's option, a group certificate of health insurance, provided that application is made and the first premium paid to the insurer within 90 days after that termination. At the option of the employee or member, the converted policy may cover the employee or member, the employee or member and the employee or member's dependents or the dependents of the employee or member if, in the latter 2 cases, the dependents have been covered for a period of at least 3 months under the group policy, unless the dependent persons were not eligible for coverage until after the beginning of the 3-month period. The insurer has the option to provide the required coverage upon conversion through either a group or individual policy, and may issue a separate converted policy to cover any dependent. An insurer is not required to provide a conversion privilege if termination of insurance under the group policy occurred because the employee or member failed to pay any required contribution or if any discontinued group coverage is replaced by continuous and substantially similar group coverage within 31 days.

[PL 1995, c. 332, Pt. A, §8 (AMD).]

1-A. Notification of cancellation. An insurer may not cancel or refuse to renew any policy for hospital, surgical, dental or major medical expense insurance until the insurer has provided by first class mail at least 10 days' prior notification according to this section. The notice must include the date of cancellation of coverage and, if applicable, the time period for exercising policy conversion rights. The notice also must include an explanation of any applicable grace period. Notification is not required when the insurer has received written notice from the group policyholder that replacement coverage has been obtained.

A. Notice must be mailed to the group policyholder or subgroup sponsor. [PL 1995, c. 625, Pt. A, §25 (RPR).]

B. [PL 2003, c. 156, §2 (RP).]

B-1. At the time of notification under paragraph A, notice must be mailed to the certificate holder at the last address provided to the insurer by the subgroup sponsor, the group policyholder or the certificate holder. If the insurer does not have an address on file for the certificate holder, the notice must be mailed to the office of the subgroup sponsor, if any, or the group policy holder. The notice must also include information to the certificate holder about the availability of individual coverage as described in subsection 1-B. [PL 2003, c. 428, Pt. B, §2 (AMD).]

B-2. All notices of cancellation sent to certificate holders pursuant to paragraph B-1 must include a toll-free telephone number that certificate holders can call to determine if the policy has been

cancelled for nonpayment of premium or if the policy has been reinstated because the premium has been paid. [PL 2009, c. 439, Pt. A, §1 (NEW).]

C. [PL 2003, c. 428, Pt. B, §2 (RP).]
[PL 2009, c. 439, Pt. A, §1 (AMD).]

1-B. Notification of availability of individual coverage. An insurer shall provide forms to group policyholders, and certificate holders when required by subsection 1-A, for the purpose of informing terminating group members of their right to purchase any individual health plan available in this State, including their eligibility for any special enrollment period to purchase an individual health plan pursuant to the federal Affordable Care Act, and of the availability of public health coverage options available in this State, including but not limited to MaineCare coverage. An adequate supply of forms must be provided to each group policyholder when the policy is issued and at least annually after the policy is issued. The superintendent may prescribe the content of the form by routine technical rule pursuant to Title 5, chapter 375, subchapter 2-A. The form must include at least the following:

A. A statement that all state residents not eligible for Medicare have a right to purchase any individual health plan available in this State; [PL 1997, c. 604, Pt. B, §3 (NEW).]

B. A statement that in order to avoid a gap in coverage, the individual should apply for individual coverage prior to termination of group coverage; [PL 1997, c. 604, Pt. B, §3 (NEW).]

C. [PL 2021, c. 80, §1 (RP).]

D. A statement that information concerning individual coverage is available from the Bureau of Insurance. The bureau's toll-free telephone number must also be provided; [PL 2021, c. 80, §1 (AMD).]

E. A statement that termination of coverage may be a qualifying life event for a special enrollment period to purchase an individual health plan. The length of time for the relevant special enrollment period and the dates for the next annual open enrollment must also be provided; [PL 2021, c. 80, §1 (NEW).]

F. A statement that financial assistance may be available to eligible individuals to purchase a qualified health plan through the Maine Health Insurance Marketplace established in Title 22, section 5403. The marketplace's publicly accessible website and the toll-free telephone number must also be provided; [PL 2021, c. 80, §1 (NEW).]

G. A statement that eligible individuals may qualify for free health coverage through MaineCare. The MaineCare program's publicly accessible website and toll-free telephone number must also be provided; and [PL 2021, c. 80, §1 (NEW).]

H. A statement that the individual may contact the Health Insurance Consumer Assistance Program established in section 4326 for help obtaining health insurance coverage, including additional information and assistance enrolling in coverage. The program's publicly accessible website, toll-free telephone number and e-mail address must also be provided. [PL 2021, c. 80, §1 (NEW).]
[PL 2021, c. 80, §1 (AMD).]

2. If a conversion privilege is applicable pursuant to subsection 1, it must also be available:

A. Upon the death of an employee or member, to the surviving spouse with respect to the spouse and the children whose coverage terminates by reason of that death, or if there is no surviving spouse to each surviving child whose coverage so terminates. If the group policy provides for continuation of dependents' coverage upon the death of the employee or member, the conversion privilege must be made available at the end of that continuation; [PL 1995, c. 332, Pt. A, §10 (AMD).]

B. To the spouse of a member or employee upon termination of coverage by reason of ceasing to be a qualified family member under the group policy whether by divorce or otherwise, whether or

not the employee or member remains insured, with respect to the spouse and the children whose coverage terminates at the same time; [PL 1981, c. 606, §2 (NEW).]

C. To a child upon termination of coverage by reason of ceasing to be a qualified family member under the group policy if a conversion privilege is not otherwise provided with respect to that child in this subsection; or [PL 1995, c. 332, Pt. A, §10 (AMD).]

D. To an employee or member whose coverage would otherwise continue under the group policy upon retirement prior to eligibility for coverage under Medicare, "United States Insurance for the Aged Act," Title XVIII of the Social Security Amendments of 1965, Public Law 89-97, as amended, at the option of that employee or member in lieu of continued coverage under the group policy. [PL 1981, c. 606, §2 (NEW).]

[PL 1995, c. 332, Pt. A, §10 (AMD).]

3. The insurer shall not be required to issue a converted policy covering an otherwise eligible person:

A. If:

(1) That person is eligible for Medicare; or

(2) That person:

(a) Is covered for similar benefits by any other plan or program;

(b) Is eligible for similar benefits under any group coverage arrangement whether on an insured or uninsured basis; or

(c) Has similar benefits provided for or available to the person pursuant to requirements of any state or federal law; and [RR 2021, c. 1, Pt. B, §243 (COR).]

B. The benefits as described in paragraph A, subparagraph 2, division (a) (b) or (c) provided for or available to the person together with the benefits provided by the converted policy would result in overinsurance according to standards which have been filed by the insurer prior to denial of coverage and approved by the superintendent. [PL 1981, c. 606, §2 (NEW).]

[RR 2021, c. 1, Pt. B, §243 (COR).]

3-A. Policies issued or renewed on or after January 1, 1996. An insurer that offers individual health plans pursuant to section 2736-C is permitted, but not required, to include a conversion privilege in group policies issued or renewed on or after January 1, 1996. If the insurer does include a conversion privilege in those policies, individuals exercising these rights must be offered a choice of any individual health plan offered by the insurer. An insurer that does not offer individual health plans pursuant to section 2736-C may not include a conversion privilege in group policies issued or renewed on or after January 1, 1996.

[PL 1995, c. 332, Pt. A, §11 (NEW).]

4. The premium on the converted policy must be determined in accordance with premium rates applicable to individually underwritten standard risks for the age and class of risk of each person to be covered and the type and amount of insurance provided. Experience under converted policies is not an acceptable basis for establishing rates for converted policies, except to the extent permitted by rules adopted by the superintendent.

The superintendent may establish maximum rates by rule for standard benefit options.

Maximum rates do not apply if all of the following conditions are met:

A. Conversion is provided through a form that is also issued to members of the general public applying for an individual health plan pursuant to section 2736-C; [PL 1995, c. 332, Pt. A, §12 (AMD).]

B. The rates for that form comply with section 2736-C; and [PL 1995, c. 332, Pt. A, §12 (AMD).]

6. A converted policy issued under this section must conform to rules adopted by the superintendent. These rules must ensure that continuity of coverage with similar benefits as determined by the superintendent is offered. The rules must also specify plans with more limited benefits that must be offered, but may not require an insurer to provide benefits in excess of those provided under the group policy from which conversion is made.
[PL 1991, c. 668, §2 (AMD).]

[PL 1995, c. 332, Pt. A, §14 (RP).]

11. **Continued group coverage; certain circumstances.** Notwithstanding this section, if the termination of an individual's group insurance coverage is for one of the reasons listed in paragraph A-1, the insurer shall allow the member or employee to elect, within the time period prescribed by paragraph B, to continue coverage under the group policy at no higher level than the level of benefits or coverage received by the employee immediately before termination and at the member's or employee's expense or, at the member's or employee's option, to convert to a policy of individual coverage without evidence of insurability in accordance with this section.

A. For the purposes of this subsection, the term "member or employee" includes only those persons who have been a member or employee for at least 6 months. [PL 1985, c. 684, §2 (NEW).]

- C. An insurer is not required to continue coverage under a group policy if the member or employee meets the conditions set out in subsection 3, paragraph A. [PL 1985, c. 684, §2 (NEW).]
- D. The payment amount for continued group coverage under this subsection may not exceed 102% of the group rate in effect for a group member, including an employer's contribution, if any. [PL 1987, c. 25, §3 (AMD).]
- E. At the option of the member or employee, the continued group coverage may cover the member or employee, the member or employee and any dependents or only the dependents of the member or employee; provided that, in the latter 2 cases, the dependents have been covered for a period of at least 3 months under the group policy, unless the dependents were not eligible for coverage until after the beginning of the 3-month period. [PL 1989, c. 447, §2 (AMD).]

 - (2) Require coverage beyond the time limit set in paragraph F; or
 - (3) Permit an employee to increase the level of benefits or coverage that the employee received immediately before the termination of the employee's coverage. [PL 1991, c. 885, Pt. E, §30 (AMD); PL 1991, c. 885, Pt. E, §47 (AFF).]
- J. This subsection does not apply to any group policy subject to the United States Consolidated Omnibus Budget Reconciliation Act, Public Law 99-272, Title X, Private Health Insurance Coverage, Sections 10001 to 10003. [PL 1987, c. 25, §4 (NEW).]

5. Reimbursement; discrimination. An insurer subject to this section may not refuse to reimburse a chiropractic provider who participates in the insurer's provider network for providing a health care service or procedure covered by the insurer as long as the chiropractic provider is acting within the lawful scope of that provider's license in the delivery of the covered service or procedure. Consistent with reasonable medical management techniques specified under the insurer's contract with respect to the method, treatment or setting for a covered service or procedure, the insurer may not discriminate based on the chiropractic provider's license. This subsection does not require an insurer to accept all chiropractic providers into a network or govern the amount of the reimbursement paid to a chiropractic provider.

§2842. Equitable health care for substance use disorder treatment

1. Purpose. The Legislature recognizes that substance use disorder constitutes a major health problem in the State and in the Nation. The Legislature further recognizes that substance use disorder is a disease that can be effectively treated. As such, substance use disorder warrants the same attention from the health care industry as other serious diseases and illnesses. The Legislature further recognizes that health insurance contracts, at times, fail to provide adequate benefits for the treatment of substance use disorder, which results in more costly health care for treatment of complications caused by the lack of early intervention and other treatment services for persons suffering from substance use disorder. This situation causes a higher health care, social, law enforcement and economic cost to the citizens of this State than is necessary, including the need for the State to provide treatment to some insureds at public expense. To assist the many citizens of this State who suffer from this illness in a more cost-effective way, the Legislature declares that certain health insurance coverage providing benefits for the treatment of the illness of substance use disorder must be included in all group health insurance contracts.

§2843. Mental health services coverage

1. Findings. The Legislature finds that:

A. Mental illness affects nearly 170,000 Maine people each year, resulting in anguish, grief, desperation, fear, isolation and a sense of hopelessness of significant levels among victims and families; [PL 1983, c. 515, §6 (NEW).]

B. Consequences of mental illness include the expenditure of millions of dollars of public funds for treatment and losses of millions of dollars by Maine businesses in accidents, absenteeism, nonproductivity and turnover. Excessive stress and anxiety and other forms of mental illness clearly contribute to general health problems and costs; [PL 1983, c. 515, §6 (NEW).]

C. Typical health coverage in this State discriminates against mental illness, the victims and affected families with nonexistent or limited benefits compared to provisions for other illnesses; and [PL 1983, c. 515, §6 (NEW).]

D. Experience in this State and several other states demonstrates that the risk of mental illness can be insured at reasonable cost and with adequate controls on quality and utilization of treatment. [PL 1983, c. 515, §6 (NEW).]

[PL 1983, c. 515, §6 (NEW).]

2. Policy and purpose. The Legislature declares that it is the policy of this State to:

A. Promote equitable and nondiscriminatory health coverage benefits for all forms of illness, including mental and emotional disorders, which are of significant consequence to the health of Maine people and which can be treated in a cost effective manner; [PL 1983, c. 515, §6 (NEW).]

B. Assure that victims of mental and other illnesses have access to and choice of appropriate treatment at the earliest point of illness in least restrictive settings; [PL 1983, c. 515, §6 (NEW).]

C. Assure that costs of treatment of mental illness are supported through an equitable combination of public and private responsibilities; and [PL 1983, c. 515, §6 (NEW).]

D. Assure that the Legislature reasonably exercises its legal responsibility for insurance policy in this State by prescribing types of illnesses and treatment for which benefits shall be provided. [PL 1983, c. 515, §6 (NEW).]
[PL 1983, c. 515, §6 (NEW).]

3. Definitions. For purposes of this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Day treatment services" includes psychoeducational, physiological, psychological and psychosocial concepts, techniques and processes to maintain or develop functional skills of clients, provided to individuals and groups for periods of more than 2 hours but less than 24 hours per day. [PL 1983, c. 515, §6 (NEW).]

A-1. "Diagnostic and statistical manual" means the Diagnostic and Statistical Manual of Mental Disorders, 4th edition, published by the American Psychiatric Association. [PL 2003, c. 20, Pt. VV, §10 (NEW); PL 2003, c. 20, Pt. VV, §25 (AFF).]

A-2. "Home health care services" means those services rendered by a licensed provider of mental health services to provide medically necessary health care to a person suffering from a mental illness in the person's place of residence if:

- (1) Hospitalization or confinement in a residential treatment facility would otherwise have been required if home health care services were not provided;
- (2) Hospitalization or confinement in a residential treatment facility is not required as an antecedent to the provision of home health care services; and
- (3) The services are prescribed in writing by a licensed allopathic or osteopathic physician or a licensed psychologist who is trained and has received a doctorate in psychology specializing in the evaluation and treatment of mental illness. [PL 2003, c. 20, Pt. VV, §10 (NEW); PL 2003, c. 20, Pt. VV, §25 (AFF).]

A-3. "Evidence-based practices" means clinically sound and scientifically based policies, practices and programs that reflect expert consensus on the prevention, treatment and recovery science, including, but not limited to, policies, practices and programs published and disseminated by the Substance Abuse and Mental Health Services Administration and the Title IV-E Prevention Services Clearinghouse within the United States Department of Health and Human Services, the What Works Clearinghouse within the United States Department of Education, Institute of Education Sciences and the California Evidence-Based Clearinghouse for Child Welfare within the California Department of Social Services, Office of Child Abuse Prevention. [PL 2021, c. 595, §3 (NEW).]

B. "Inpatient services" includes a range of physiological, psychological and other intervention concepts, techniques and processes in a community mental health psychiatric inpatient unit, general hospital psychiatric unit or psychiatric hospital licensed by the Department of Health and Human Services or accredited public hospital to restore psychosocial functioning sufficient to allow maintenance and support of the client in a less restrictive setting. D. "Person suffering from a mental illness" means a person whose psychobiological processes are impaired severely enough to manifest problems in the areas of social, psychological or biological functioning. Such a person has a disorder of thought, mood, perception, orientation or memory that impairs judgment, behavior, capacity to recognize or ability to cope with the ordinary demands of life. The person manifests an impaired capacity to maintain acceptable levels of functioning in the areas of intellect, emotion or physical well-being. [PL 2003, c. 20, Pt. VV, §12 (AMD); PL 2003, c. 20, Pt. VV, §25 (AFF).]

E. "Provider" means individuals included in section 2835, and a licensed physician with 3 years approved residency in psychiatry, an accredited public hospital or psychiatric hospital or a community agency licensed at the comprehensive service level by the Department of Health and Human Services. All agency or institutional providers named in this paragraph shall assure that services are supervised by a psychiatrist or licensed psychologist. [PL 1983, c. 816, §B7 (AMD); PL 1995, c. 560, Pt. [PL 2003, c. 20, Pt. VV, §13 (AMD); PL 2003, c. 20, Pt. VV, §25 (AFF).]

[PL 2003, c. 20, Pt. VV, §13 (AMD); PL 2003, c. 20, Pt. VV, §25 (AFF).]

5-A. Exceptions.
[PL 2019, c. 5, Pt. D, §2 (RP).]

5-B. Coverage for certain mental illness treatment.
[PL 1991, c. 881, §3 (NEW); PL 1991, c. 881, §7 (AFF); PL 1991, c. 881, §8 (RP).]

A. [PL 2003, c. 20, Pt. VV, §14 (RP); PL 2003, c. 20, Pt. VV, §25 (AFF).]

A-1. All group contracts must provide, at a minimum, benefits according to paragraph B, subparagraph (1) for a person receiving medical treatment for any of the following categories of mental illness as defined in the Diagnostic and Statistical Manual, except for those that are designated as "V" codes by the Diagnostic and Statistical Manual:

- (1) Psychotic disorders, including schizophrenia;

[PL 2017, c. 407, Pt. A, §96 (AMD).]

B. All policies, contracts and certificates executed, delivered, issued for delivery, continued or renewed in this State must provide benefits that meet the requirements of this paragraph.

(1) The contracts must provide benefits for the treatment and diagnosis of mental illnesses under terms and conditions that are no less extensive than the benefits provided for medical treatment for physical illnesses.

(2) At the request of a reimbursing insurer, a provider of medical treatment for mental illness shall furnish data substantiating that initial or continued treatment is medically necessary health care. When making the determination of whether treatment is medically necessary health care, the provider shall use the same criteria for medical treatment for mental illness as for medical treatment for physical illness under the group contract. An insurer may not deny treatment for mental health services that use evidence-based practices and are determined to be medically necessary health care for an individual 21 years of age or younger.

(3) If benefits and coverage provided for treatment of physical illness are provided on an expense-incurred basis, the benefits and coverage required under this subsection may be delivered separately under a managed care system.

(4) A policy or contract may not have separate maximums for physical illness and mental illness, separate deductibles and coinsurance amounts for physical illness and mental illness, separate out-of-pocket limits in a benefit period of not more than 12 months for physical illness and mental illness or separate office visit limits for physical illness and mental illness.

(5) A health benefit plan may not impose a limitation on coverage or benefits for mental illness unless that same limitation is also imposed on the coverage and benefits for physical illness covered under the policy or contract.

(6) Copayments required under a policy or contract for benefits and coverage for mental illness must be actuarially equivalent to any coinsurance requirements or, if there are no coinsurance requirements, may not be greater than any copayment or coinsurance required under the policy or contract for a benefit or coverage for a physical illness.

(7) For the purposes of this section, a medication management visit associated with a mental illness must be covered in the same manner as a medication management visit for the treatment of a physical illness and may not be counted in the calculation of any maximum outpatient treatment visit limits. [PL 2021, c. 595, §4 (AMD).]

[PL 2021, c. 595, §§4, 5 (AMD).]

5-D. Mandated offer of coverage for certain mental illnesses.

[PL 2021, c. 595, §6 (RP).]

6. Limits; coinsurance; deductibles. Any policy or contract which provides coverage for the services required by this section may contain provisions for maximum benefits and coinsurance and reasonable limitations, deductibles and exclusions to the extent that these provisions are not inconsistent with the requirements of this section.

[PL 1983, c. 515, §6 (NEW).]

7. Reports to the Superintendent of Insurance. Every insurer subject to this section shall report its experience for each calendar year to the superintendent not later than April 30th of the following year. The report must be in a form prescribed by the superintendent and include the amount of claims paid in this State for the services required by this section and the total amount of claims paid in this State for group health care contracts, both separated between those paid for inpatient, day treatment and outpatient services. The superintendent shall compile this data for all insurers in an annual report.

[PL 1995, c. 407, §8 (AMD).]

8. Application. This section does not apply to accidental injury, specified disease, hospital indemnity, Medicare supplement, long-term care or other limited benefit health insurance policies. For purposes of this section, all contracts are deemed to be renewed no later than the next yearly anniversary of the contract date.

§2844. Coordination of benefits

1. Authorization. Provisions contained in group and blanket health insurance contracts relating to coordination of benefits payable under the contract and under other plans of insurance or of health care coverage under which a certificate holder or the certificate holder's dependents may be covered must conform to rules adopted by the superintendent. These rules may establish uniformity in the permissive use of coordination of benefits provisions in order to avoid claim delays and misunderstandings that otherwise result from the use of inconsistent or incompatible provisions among the several insurers and nonprofit hospital, medical service and health care plans.

[PL 1995, c. 332, Pt. H, §1 (AMD).]

1-A. Coordination with Medicare. Coordination of benefits is governed by the following provisions.

A. The contract may not coordinate benefits with Medicare Part A unless:

- (1) The insured is enrolled in Medicare Part A;
- (2) The insured was previously enrolled in Medicare Part A and voluntarily disenrolled;
- (3) The insured stated on an application or other document that the insured was enrolled in Medicare Part A; or

(4) The insured is eligible for Medicare Part A without paying a premium and the certificate states that it will not pay benefits that would be payable under Medicare even if the insured fails to exercise the insured's right to premium-free Medicare Part A coverage. [PL 1997, c. 604, Pt. G, §2 (NEW).]

B. The contract may not coordinate benefits with Medicare Part B unless:

(1) The insured is enrolled in Medicare Part B;

(2) The insured was previously enrolled in Medicare Part B and voluntarily disenrolled;

(3) The insured stated on an application or other document that the insured was enrolled in Medicare Part B; or

(4) The insured is eligible for Medicare Part A without paying a premium and the insurer provided prominent notification to the insured both when the certificate was issued and, if applicable, when the insured becomes eligible for Medicare due to age. The content of the notification must be approved by the bureau. The notification must state that the contract will not pay benefits that would be payable under Medicare even if the insured fails to enroll in Medicare Part B and state that the insured may contact the bureau, the Health Insurance Consumer Assistance Program established in section 4326 or another relevant organization or agency for assistance in understanding coordination of benefits with Medicare Part B under the insured's contract. [PL 2023, c. 104, §3 (AMD).]

C. Coordination is not permitted with Medicare coverage for which the insured is eligible but not enrolled except as provided in paragraphs A and B. [PL 1997, c. 604, Pt. G, §2 (NEW).]
[PL 2023, c. 104, §3 (AMD).]

2. Medicaid and Children's Health Insurance Program. Insurers may not consider the availability or eligibility for medical assistance under 42 United States Code, Section 13969, referred to as "Medicaid," or Title 22, section 3174-T, referred to as the "Children's Health Insurance Program," when considering coverage eligibility or benefit calculations for insureds and covered family members.

A. To the extent that payment for coverage expenses has been made under the Medicaid program or the Children's Health Insurance Program for health care items or services furnished to an individual, the State is considered to have acquired the rights of the insured or family member to payment by the insurer for those health care items or services. Upon presentation of proof that the Medicaid program or the Children's Health Insurance Program has paid for covered items or services, the insurer shall make payment to the Medicaid program or the Children's Health Insurance Program according to the coverage provided in the contract or certificate. [PL 2023, c. 597, §17 (AMD).]

B. An insurer may not impose requirements on a state agency that has been assigned the rights of an individual eligible for Medicaid or Children's Health Insurance Program coverage and covered by a subscriber contract that are different from requirements applicable to an agent or assignee of any other covered individual. [PL 2023, c. 597, §17 (AMD).]
[PL 2023, c. 597, §17 (AMD).]

3. Credit toward deductible. When an insured is covered under more than one expense-incurred health plan, payments made by the primary plan, payments made by the insured and payments made from a health savings account or similar fund for benefits covered under the secondary plan must be credited toward the deductible of the secondary plan. This subsection does not apply if the secondary plan is designed to supplement the primary plan.

1. Requirement. Every insurer which issues group health care contracts providing coverage for hospital care to residents of this State shall make available to groups of 20 or more persons, at the option of the policyholder, benefits as required by this section to any certificate holder or other person covered under those contracts for the expense of cardiac rehabilitation.

[PL 1987, c. 293, §2 (NEW).]

2. Cardiac rehabilitation. "Cardiac rehabilitation" means multidisciplinary, medically necessary treatment of persons with documented cardiovascular disease, which shall be provided in either a hospital or other setting. That treatment shall include outpatient treatment which is initiated within 26 weeks after the diagnosis of that disease and physician-recommended continuance of Phase II rehabilitation services for up to 36 sessions in a hospital or community-based setting and up to 36 Phase III sessions in a community-based setting.

[PL 1987, c. 293, §2 (NEW).]

3. Limitations. Benefits required to be made available pursuant to this section may be made subject to any reasonable limitation, maximum benefit, coinsurance, deductible or exclusion provisions applicable to overall benefits under the policy or certificate.

[PL 1987, c. 293, §2 (NEW).]

4. Application. The requirements of this section shall apply to all policies and certificates executed, delivered, issued for delivery, continued or renewed in this State on or after January 1, 1988. On or before April 1st of each year, any insurer or 3rd-party administrator which issues or administers a program or contract in this State providing coverage for hospital care that contains a provision whereby in nonemergency cases the insured is required to be prospectively evaluated through a prehospital admission certification, preinpatient service eligibility program or any similar preutilization review or screening eligibility program or any similar preutilization review or screening procedure prior to the delivery of contemplated hospitalization, inpatient or outpatient health care or medical services which are prescribed or ordered by a duly licensed physician shall file a report

C. The number and result of any appeals by the patients or their physicians as a result of initial review decisions to reduce benefits for services as determined through prospective evaluations; and [PL 1989, c. 556, Pt. C, §3 (NEW).]

§2847-B. Jury service

1. Prohibition. §2847-C. Notification prior to cancellation; restrictions on cancellation, termination or lapse due to cognitive impairment or functional incapacity

An insurer shall provide for notification of the insured person and another person, if designated by the insured, prior to cancellation of a health insurance certificate for nonpayment of premium. [PL 2011, c. 123, §3 (AMD); PL 2011, c. 123, §5 (AFF).]

Within 90 days after cancellation due to nonpayment of premium, a policyholder, a person authorized to act on behalf of the policyholder or a dependent of the policyholder covered under a health insurance policy or certificate may request reinstatement on the basis that the loss of coverage was a result of the policyholder's cognitive impairment or functional incapacity. An insurer may require a medical demonstration that the policyholder suffered from cognitive impairment or functional incapacity at the time of cancellation. If the medical demonstration is waived or substantiates the existence of a cognitive impairment or functional incapacity at the time of policy cancellation to the satisfaction of the insurer, the policy must be reinstated. The medical demonstration may be at the expense of the policyholder. [PL 2011, c. 123, §3 (NEW); PL 2011, c. 123, §5 (AFF).]

A policy reinstated pursuant to this section must cover any loss or claim occurring from the date of the cancellation. Within 15 days after request from an insurer, a policyholder of a policy reinstated pursuant to this section shall pay any unpaid premium from the date of the last premium payment at the rate that would have been in effect had the policy remained in force. If the premium is not paid as required, the policy may not be reinstated and the insurer is not responsible for claims incurred after the initial date of cancellation. If an insurer denies a request for reinstatement, the insurer shall notify the policyholder that the policyholder may request a hearing before the superintendent. [PL 2011, c. 123, §3 (NEW); PL 2011, c. 123, §5 (AFF).]

The superintendent may adopt rules to implement the requirements of this section. The rules may include, but are not limited to, definitions, minimum disclosure requirements, notice provisions and the right of reinstatement. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2011, c. 123, §3 (AMD); PL 2011, c. 123, §5 (AFF).]

A. The insurer must permit a physician who specializes in obstetrics and gynecology to serve as a primary care physician if the physician qualifies under the insurer's credentialing policy. [PL 1997, c. 370, Pt. H, §1 (RAL).]

[PL 1997, c. 370, Pt. H, §1 (RAL).]

C. If the examination specified in paragraph B reveals a gynecological condition for which another visit to the physician participating in the plan is medically required and appropriate, or for any gynecological care beyond the annual examination, the carrier may require the patient or the examining physician, certified nurse practitioner or certified nurse midwife to secure from the patient's primary care physician a referral to the participating physician, certified nurse practitioner or certified nurse midwife from whom such care may be obtained. [PL 1997, c. 370, Pt. H, §1 (RAL).]

For purposes of this section, the term "outpatient contraceptive services" means consultations, examinations, procedures and medical services provided on an outpatient basis and related to the use of contraceptive methods to prevent an unintended pregnancy. This section may not be construed to apply to prescription drugs or devices that are designed to terminate a pregnancy. [PL 1999, c. 341, §3 (NEW); PL 1999, c. 341, §5 (AFF).]

2. Exclusion for religious employer. A religious employer may request and an insurer shall grant an exclusion under the policy or contract for the coverage required by this section if the required coverage conflicts with the religious employer's bona fide religious beliefs and practices. A religious employer that obtains an exclusion under this subsection shall provide prospective insureds and those individuals insured under its policy written notice of the exclusion. This section may not be construed as authorizing an insurer to exclude coverage for prescription drugs prescribed for reasons other than contraceptive purposes or for prescription contraception that is necessary to preserve the life or health of a covered person. For the purposes of this section, "religious employer" means an employer that is a church, convention or association of churches or an elementary or secondary school that is controlled, operated or principally supported by a church or by a convention or association of churches as defined in 26 United States Code, Section 3121 (w) (3) (A) and that qualifies as a tax-exempt organization under 26 United States Code, Section 501(c) (3). A. Coverage must be provided without any deductible, coinsurance, copayment or other cost-sharing requirement. [PL 2021, c. 609, §3 (AMD).]

B. If the federal Food and Drug Administration has approved one or more therapeutic equivalents of a contraceptive supply, an insurer is not required to cover all those therapeutically equivalent versions in accordance with this subsection, as long as at least one is covered without any deductible, coinsurance, copayment or other cost-sharing requirement in accordance with this subsection. [PL 2021, c. 609, §3 (AMD).]

C. [PL 2021, c. 609, §3 (RP).]

D. Coverage must be provided for the furnishing or dispensing of prescribed contraceptive supplies intended to last for a 12-month period, which may be furnished or dispensed all at once or over the course of the 12 months at the discretion of the health care provider. [PL 2017, c. 190, §2 (NEW).]

§2847-K. Coverage for general anesthesia for dentistry

(REALLOCATED FROM TITLE 24-A, SECTION 2847-J)

1. Enrollee defined. For the purposes of this section, unless the context otherwise indicates, "enrollee" means a person who is covered under a group health insurance contract provided by an insurer.
[RR 2001, c. 1, §33 (RAL).]

2. General anesthesia and associated facility charges. An insurer that issues group health insurance contracts shall provide coverage for general anesthesia and associated facility charges for dental procedures rendered in a hospital when the clinical status or underlying medical condition of an enrollee requires dental procedures that ordinarily would not require general anesthesia to be rendered in a hospital. The insurer may require prior authorization of general anesthesia and associated charges required for dental care procedures in the same manner that prior authorization is required for other covered diseases or conditions.
[RR 2001, c. 1, §33 (RAL).]

3. Limitations on coverage. This section applies only to general anesthesia and associated facility charges for only the following enrollees if the enrollees meet the criteria in subsection 2:

A. Enrollees, including infants, exhibiting physical, intellectual or medically compromising conditions for which dental treatment under local anesthesia, with or without additional adjunctive techniques and modalities, can not be expected to provide a successful result and for which dental treatment under general anesthesia can be expected to produce a superior result; [RR 2001, c. 1, §33 (RAL).]

B. Enrollees demonstrating dental treatment needs for which local anesthesia is ineffective because of acute infection, anatomic variation or allergy; [RR 2001, c. 1, §33 (RAL).]

C. Extremely uncooperative, fearful, anxious or uncommunicative children or adolescents with dental needs of such magnitude that treatment should not be postponed or deferred and for whom lack of treatment can be expected to result in dental or oral pain or infection, loss of teeth or other increased oral or dental morbidity; and [RR 2001, c. 1, §33 (RAL).]

D. Enrollees who have sustained extensive oral-facial or dental trauma for which treatment under local anesthesia would be ineffective or compromised. [RR 2001, c. 1, §33 (RAL).]
[RR 2001, c. 1, §33 (RAL).]

4. Dental procedures and dentist's fee not covered. This section does not require an insurer that issues group contracts to cover any charges for the dental procedure itself, including, but not limited to, the professional fee of the dentist. Coverage for anesthesia and associated facility charges pursuant to this section is subject to all other terms and conditions of the group contract that apply generally to other benefits.

[RR 2001, c. 1, §33 (RAL).]

5. Coordination of benefits with dental insurance. If an enrollee eligible for coverage under this section is also eligible for coverage for general anesthesia and associated facility charges under a dental insurance policy or contract, the nonprofit health care service organization or insurer providing dental insurance is the primary payer responsible for those charges and the insurer providing group health insurance is the secondary payer.

§2848-A. Applicability to certain self-insured employers

For purposes of this chapter, an uninsured employee health plan that covers employees working in this State, including the uninsured portion of a partially insured employee health plan, is considered a group medical insurance policy and the employer maintaining the plan is considered an insurer, if the plan is subject to state regulation by virtue of the governmental plan or nonelecting church plan exception to the federal definition of "employee benefit plan" in the federal Employee Retirement Income Security Act, 29 United States Code, Section 1003(b). [PL 1997, c. 445, §23 (NEW); PL 1997, c. 445, §32 (AFF).]

§2849. Continuity on replacement of group policy

1. Policies subject to this section. Notwithstanding any other provision of law, this section applies to all group and blanket medical insurance policies issued by insurers or health maintenance organizations to policyholders who are obtaining coverage for a group or subgroup to replace coverage under a different contract or policy issued by a nonprofit hospital or medical service organization, insurer or health maintenance organization, or to replace coverage under an uninsured employee benefit plan that provides payment for health services received by employees or their dependents if the policyholder has applied for coverage under the replacement policy within 90 days after termination of coverage under the contract or policy being replaced. For purposes of this section, the group or blanket policy issued to replace the prior contract or policy is the "replacement policy." The group or blanket contract or policy or uninsured employee benefit plan, or a number of individual contracts or policies if the premiums were paid by the employer or by payroll deduction, being replaced is the "replaced contract or policy."

[PL 2007, c. 199, Pt. D, §1 (AMD).]

2. Persons provided continuity of coverage under this section. This section provides continuity of coverage to persons who were covered under the replaced contract or policy at any time during the 90 days before the discontinuance of the replaced contract or policy.

[PL 1993, c. 349, §53 (RPR).]

3. Prohibition against discontinuity. In a replacement policy subject to this section, an insurer or health maintenance organization may not, for any person described in subsection 2:

A. Request that the person provide or otherwise seek to obtain evidence of individual insurability. This in no way limits the insurer's right to require information concerning the health of the individuals in the group to determine whether the group as a whole is insurable or to determine rates for the group as a whole; [PL 1993, c. 349, §53 (RPR).]

B. Decline to enroll the person on the basis of evidence of insurability if the person is otherwise eligible for coverage; [PL 1997, c. 370, Pt. B, §2 (AMD).]

C. Impose a preexisting condition exclusion period or waiting period on that person, except as provided in this section; or [PL 2009, c. 244, Pt. E, §2 (AMD).]

D. Direct or propose to the employer or the person that the person purchase an individual plan in lieu of providing coverage under the replacement policy. The superintendent shall initiate

enforcement proceedings when investigation of the circumstances surrounding procurement of an individual policy at the time of replacement of the group policy produces evidence that such procurement was undertaken in violation of this section and section 2155-A. [PL 1997, c. 370, Pt. B, §3 (NEW).]

[PL 2009, c. 244, Pt. E, §2 (AMD).]

3-A. Persons subject to a preexisting condition exclusion.

[PL 2019, c. 5, Pt. A, §14 (RP).]

4. Persons covered for fewer than 90 continuous days.

[PL 2001, c. 258, Pt. E, §6 (RP).]

5. Liability after discontinuance. The nonprofit hospital or medical service organization, insurer or health maintenance organization that issued the replaced contract or policy is liable after discontinuance of that contract or policy only to the extent of its accrued liabilities and extensions of benefits.

[PL 1993, c. 349, §53 (RPR).]

6. Rules. The superintendent may adopt rules that substitute for the requirement of subsection 3, paragraph C a requirement that prohibits application of a preexisting condition exclusion or waiting period with respect to classes or categories of benefits that are covered under the replaced contract or policy. The rules must define those classes or categories consistent with any federal regulations adopted pursuant to the federal Public Health Service Act, Title XXVII, Section 2701(c)(3)(B).

§2849-A. Extension of benefits for disabled persons

1. Policies subject to this section. This section applies to group and blanket policies that provide hospital or medical expense coverage or specific indemnity during hospital confinement. This section does not apply to group policies providing coverage only for dental expense or to group long-term care policies as defined in section 5051 or group short-term and long-term disability policies.

[PL 1999, c. 256, Pt. L, §5 (AMD).]

2. Requirement. Every group or blanket policy subject to this section must provide a reasonable extension of benefits for a person who is totally disabled on the date the group or blanket policy is discontinued, or on the date coverage for a subgroup in the policy is discontinued. A premium may not be charged during the period of extension. For a policy providing hospital or medical expense coverage, an extension of benefits provision is reasonable if it provides benefits for covered expenses directly relating to the condition causing total disability for at least 6 months following the effective date of discontinuance. For a policy providing specific indemnity during hospital confinement, "extension of benefits" means that discontinuance of the policy during a disability has no effect on benefits payable for that confinement.

[PL 2007, c. 199, Pt. D, §2 (AMD).]

3. Description of benefit extension. The extension of benefits provision must be described in all policies and group certificates. The benefits payable during any period of extension are subject to the regular benefit limits under the policy.

[PL 1989, c. 867, §8 (NEW); PL 1989, c. 867, §10 (AFF).]

4. Liability after discontinuance. After discontinuance of a policy, the insurer or health maintenance organization remains liable only to the extent of its accrued liabilities and extensions of benefits.

[PL 1997, c. 604, Pt. H, §1 (AMD).]

4-A. Coordination of benefits. If replacement coverage is secured by the group or blanket policyholder from an insurer, nonprofit hospital or medical service organization or health maintenance organization and a totally disabled person is covered under the replacement coverage, the replacement coverage must pay as primary coverage and the replaced coverage must pay as secondary coverage for the covered expenses directly relating to the condition causing total disability during the extension of benefits required under this section.

[PL 2007, c. 199, Pt. D, §3 (AMD).]

5. Rules. The superintendent shall adopt rules to define the term "total disability" for purposes of this section. The definition must identify persons who are unable, as a result of disability, to obtain comparable alternative coverage through comparable employment or otherwise.

[PL 1989, c. 867, §8 (NEW); PL 1989, c. 867, §10 (AFF).]

§2849-B. Continuity for individual who changes groups

1. Policies subject to this section. This section applies to all individual, group and blanket medical insurance policies except hospital indemnity, specified accident, specified disease, long-term care and short-term, limited-duration policies issued by insurers or health maintenance organizations. For purposes of this section, a short-term, limited-duration policy is an individual, nonrenewable policy issued for a term that does not extend beyond December 31st of the calendar year in which the policy is issued. This section does not apply to Medicare supplement policies as defined in section 5001, subsection 4.

[PL 2019, c. 330, §2 (AMD).]

2. Persons provided continuity of coverage. Except as provided in subsection 3, this section provides continuity of coverage for a person who seeks coverage under an individual, group or blanket insurance policy or health maintenance organization policy if:

A. That person was covered under an individual, group or blanket contract or policy issued by a nonprofit hospital or medical service organization, insurer or health maintenance organization or was covered under an uninsured employee benefit plan that provides payment for health services received by employees and their dependents or a governmental program, including, but not limited to, those listed in section 2848, subsection 1-B, paragraph A, subparagraphs (3) to (10). For purposes of this section, the individual, group or blanket policy under which the person is seeking coverage is the "succeeding policy." The group, blanket or individual contract or policy, uninsured employee benefit plan or governmental program that previously covered the person is the "prior contract or policy"; and [PL 2019, c. 330, §3 (AMD).]

B. Coverage under the prior contract or policy terminated:

(1) Within 180 days before the date the person enrolls or is eligible to enroll in the succeeding contract if:

- (a) Coverage was terminated due to unemployment, as defined in Title 26, section 1043;
- (b) The person was eligible for and received unemployment compensation benefits for the period of unemployment, as provided under Title 26, chapter 13; and

(c) The person is employed at the time replacement coverage is sought under this provision; or

(2) Within 90 days before the date the person enrolls or is eligible to enroll in the succeeding contract.

A period of ineligibility for a health plan imposed by terms of employment may not be considered in determining whether the coverage ended within a time period specified under this section. [PL 2007, c. 199, Pt. D, §4 (AMD).]

C. [PL 1997, c. 445, §25 (RP); PL 1997, c. 445, §32 (AFF).]

D. [PL 1999, c. 36, §3 (RP).]

This section does not apply to replacements of group or blanket coverage within the scope of section 2849 or if the succeeding policy is an individual policy and the prior contract or policy was a short-term, limited-duration policy.

[PL 2019, c. 330, §3 (AMD).]

3. Exception for late enrollees. Notwithstanding subsection 2, this section does not provide continuity of coverage for a late enrollee except as provided in this subsection. A late enrollee may be excluded from coverage for a waiting period of not more than 12 months based on medical underwriting or preexisting conditions. If a shorter waiting period or no waiting period is imposed, coverage for the late enrollee may exclude preexisting conditions for the lesser of 18 months, reduced by any federally creditable coverage, or 12 months. The exclusion is subject to the limitations set forth in section 2850. For purposes of this section, a "late enrollee" is a person who requests enrollment in a group plan following the initial enrollment period provided under the terms of the plan, except that a person is not a late enrollee if:

A. The request for enrollment is made within 30 days after termination of coverage under a prior contract or policy and the individual did not request coverage initially under the succeeding contract or policy or terminated coverage under the succeeding contract because that individual was covered under a prior contract or policy and:

(1) Coverage under that contract or policy ceased because the individual became ineligible for reasons other than fraud or material misrepresentation, including, but not limited to, termination of employment, termination of the group policy or group contract under which the individual was covered, death of a spouse or divorce; or

(2) Employer contributions toward that coverage were terminated; [PL 1997, c. 445, §26 (RPR); PL 1997, c. 445, §32 (AFF).]

A-1. That person incurs a claim under a prior contract or policy that would meet or exceed that contract or policy's lifetime limit on all benefits, and a request for enrollment is made not later than 30 days after a claim is denied in whole or in part due to the operation of a lifetime limit on all benefits. [PL 2007, c. 199, Pt. A, §4 (NEW).]

B. A court has ordered that coverage be provided for a spouse or minor child under a covered employee's plan and the request for coverage is made within 30 days after issuance of the court order; [PL 1995, c. 332, Pt. F, §5 (AMD).]

C. [PL 1997, c. 777, Pt. B, §5 (RP).]

C-1. That person was covered by the Children's Health Insurance Program under Title 22, section 3174-T, and the request for replacement coverage is made while coverage is in effect or within 30 days from the termination of coverage; or [PL 2023, c. 597, §18 (AMD).]

D. That person was previously ineligible for coverage and the request for enrollment is made within 30 days of the date the person becomes eligible. [PL 1995, c. 332, Pt. F, §5 (NEW).]

[PL 2023, c. 597, §18 (AMD).]

3-A. Prohibition against discontinuity in group policies. Except as provided in this section, in a group policy subject to this section, the insurer or health maintenance organization shall, for any person described in subsection 2, waive any medical underwriting or preexisting conditions exclusion. The succeeding policy is not required to duplicate any benefits covered by the prior contract or policy. [PL 2009, c. 244, Pt. E, §4 (NEW).]

3-B. Persons subject to a preexisting condition exclusion.
[PL 2019, c. 5, Pt. A, §15 (RP).]

4. Prohibition against discontinuity in individual and blanket policies. Except as provided in this section, in an individual or blanket policy subject to this section, the insurer or health maintenance organization must, for any person described in subsection 2, waive any medical underwriting or preexisting conditions exclusion to the extent that benefits would have been payable under a prior contract or policy if the prior contract or policy were still in effect or to the extent that benefits would have been payable under the prior contract or policy if not for the operation of a lifetime limit on all benefits. The succeeding policy is not required to duplicate any benefits covered by the prior contract or policy.

[PL 2009, c. 244, Pt. E, §6 (AMD).]

4-A. Alternative method. The superintendent may adopt rules that substitute for the requirement of subsection 3-A a requirement that prohibits application of a medical underwriting or preexisting condition exclusion with respect to classes or categories of benefits that are covered under the replaced contract or policy. The rules must define those classes or categories consistent with any federal regulations adopted pursuant to the federal Public Health Service Act, Title XXVII, Section 2701(c)(3)(B).

[PL 2009, c. 511, Pt. D, §1 (AMD).]

5. Determination of benefits. When a determination of benefit under the prior contract or policy is required, the issuer of the prior contract or policy shall, at the request of the issuer of the succeeding policy, furnish a statement of benefits available or pertinent information sufficient to permit verification of the benefit determination or the determination itself by the issuer of the succeeding policy. For purposes of this section, benefits of the prior contract or policy are determined in accordance with the definitions, conditions and covered expense provisions of that contract or policy rather than those of the succeeding policy. The benefit determination must be made as if coverage had not been replaced. [PL 1989, c. 867, §8 (NEW); PL 1989, c. 867, §10 (AFF).]

6. Limit on premium increase. For rating purposes, an insurer or health maintenance organization may not charge claims for preexisting conditions of any person subject to this section, during the first 12 months of employment of that person, directly to a group of fewer than 100 insured employees except to the extent that the resulting increase in the premium would be 10% or less. The insurer or health maintenance organization may pool any additional claims among all such groups and subgroups covered by that insurer or health maintenance organization. This requirement also applies to subgroups of fewer than 100 insured employees if the subgroup is treated as a separate unit for rating purposes.

[PL 1989, c. 867, §8 (NEW); PL 1989, c. 867, §10 (AFF).]

7. Reinsurance, excess insurance or administrative services. An insurer may only offer, issue or renew reinsurance or excess insurance coverage or offer administrative services to an uninsured employee benefit plan that provides payment for health services received by employees and their dependents when that plan for the payment of health services and reinsurance and excess insurance coverage meets the requirements of continuity of coverage in this chapter.

[PL 1993, c. 477, Pt. A, §14 (NEW); PL 1993, c. 477, Pt. F, §1 (NEW).]

8. Short-term, limited-duration insurance. A person eligible for continuity of coverage under subsection 2 may be allowed to purchase coverage under an individual, nonrenewable, short-term, limited-duration policy. The issuance of a short-term, limited-duration policy is subject to the following conditions.

A. Upon offering an individual short-term, limited-duration policy for purchase, an insurer or the insurer's agent or broker shall provide written disclosure as required in this paragraph in at least 14-point type. An insurer or the insurer's agent or broker shall specifically disclose:

(1) A summary of plan benefits, limits and exclusions in a standardized format similar to the format required for a qualified health plan under the federal Affordable Care Act that is specific to the exact policy being offered for purchase in this State, including, but not limited to, information about the circumstances in which covered benefits may be subject to balance billing and examples of how charges may be applied toward any cost sharing under the policy and billed to the individual policyholder; and

(2) A comparison of the short-term, limited-duration policy to a qualified health plan in the terms, benefits and conditions of the policy, any exclusions, medical loss ratio requirements or the provisions of guaranteed renewal and continuity of coverage. [PL 2019, c. 330, §4 (AMD).]

B. An insurer or the insurer's agent or broker may issue a short-term, limited-duration policy that replaces a prior short-term, limited-duration policy as long as the combined term of the new policy and all prior policies does not exceed 24 months and the individual has not been covered under any prior short-term, limited-duration policy for at least 12 months. All individuals making an application for coverage under a short-term, limited-duration policy must disclose any prior coverage under a short-term, limited-duration policy and the policy duration. [PL 2019, c. 330, §4 (AMD).]

C. An insurer or the insurer's agent or broker may not issue a short-term, limited-duration policy unless it has been sold through an in-person encounter. [PL 2019, c. 330, §4 (NEW).]

D. An insurer or the insurer's agent or broker may not actively market or sell any short-term, limited-duration policy during any open enrollment period, except for a short-term, limited-duration policy that terminates coverage on December 31st of the calendar year in which it is sold. [PL 2019, c. 330, §4 (NEW).]

E. Upon offering an individual short-term, limited-duration policy for purchase, an insurer or the insurer's agent or broker shall assess an individual making an application for eligibility for an advanced premium tax credit or cost-sharing reduction for coverage under a qualified health plan purchased on the exchange pursuant to the federal Affordable Care Act, as defined in section 2188, subsection 1, paragraph A, and shall provide an estimate of the cost for coverage under a qualified health plan after applying any advanced premium tax credit or cost-sharing reduction. [PL 2019, c. 330, §4 (NEW).]

F. An insurer or the insurer's agent or broker shall make the documents and information required to be disclosed under paragraph A upon offering an individual short-term, limited-duration policy for purchase available through the insurer's publicly accessible website. [PL 2019, c. 330, §4 (NEW).]

G. An insurer or the insurer's agent or broker shall provide, upon the purchase of a short-term, limited-duration policy; upon the expiration of the policy; and, if the policy is in effect during an open enrollment period, on November 1st of the calendar year in which the policy was sold, written notice of the following:

(1) Disclosure that a short-term, limited-duration policy is not considered minimum essential coverage under the federal Affordable Care Act and that termination of a policy is not a qualifying event for a special enrollment period; and

(2) The dates for the next open enrollment period, the website address for the publicly accessible website of the exchange, as defined in section 2188, subsection 1, paragraph A, and the toll-free telephone number for the exchange. [PL 2019, c. 330, §4 (NEW).]

§2849-C. Certifications of coverage

1. Application. This section applies to:

A. Individual health plans subject to section 2736-C; and [PL 2001, c. 258, Pt. C, §1 (NEW).]

B. Group and blanket health insurance contracts subject to chapter 35, except:

(1) Medicare supplement policies subject to chapter 67; and

(2) Contracts designed to cover specific diseases, hospital indemnity or accidental injury only. [PL 2001, c. 258, Pt. C, §1 (NEW).]

[PL 2001, c. 258, Pt. C, §1 (NEW).]

2. Requirement for certification of period of creditable coverage. The requirement for a certification of the period of creditable coverage is as follows.

A. A carrier, as defined in section 4301-A, subsection 3, must provide the certification described in paragraph B with respect to health plans subject to this section:

(1) At the time an individual ceases to be covered under the plan or otherwise becomes covered under a COBRA continuation provision;

(2) In the case of an individual becoming covered under a COBRA continuation provision, at the time the individual ceases to be covered under that provision; and

(3) On the request on behalf of an individual made not later than 24 months after the date of cessation of the coverage described in subparagraph (1) or (2), whichever is later. The certification under subparagraph (1) may be provided, to the extent practicable, at a time consistent with notices required under any applicable COBRA continuation provision. [PL 2001, c. 258, Pt. C, §1 (NEW).]

B. The certification described in this paragraph is a written certification of:

(1) The period of federally creditable coverage of the individual under the plan and the coverage, if any, under the COBRA continuation provision;

(2) The waiting period, if any, imposed with respect to the individual for any coverage under the plan; and

(3) An educational statement regarding the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, consistent with federal law. [PL 2007, c. 199, Pt. A, §6 (AMD).]

[PL 2007, c. 199, Pt. A, §6 (AMD).]

3. Alternative evidence of prior coverage. A carrier may not deny continuity rights as required by section 2849-B solely because the individual does not provide a certification described in subsection 2. The carrier must accept alternative evidence of prior coverage provided by the individual. If the individual asserts the existence of prior coverage but is unable to provide evidence, the carrier must make reasonable efforts to verify the existence of the prior coverage. The carrier may deny continuity rights if the individual refuses to cooperate in the carrier's efforts to verify prior coverage, such as if the individual refuses to provide needed authorization for the release of information to the carrier when requested by the carrier.

[PL 2001, c. 258, Pt. C, §1 (NEW).]

4. Notice. A carrier may not impose a preexisting condition exclusion before providing the individual with notice consistent with federal law of the individual's continuity rights and giving the individual an opportunity to provide a certification as described in subsection 2 or alternative evidence of prior coverage as described in subsection 3.

[PL 2007, c. 199, Pt. A, §7 (AMD).]

5. Rules. The superintendent may issue rules specifying the contents of certifications or other requirements consistent with this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

§2850. Limitations on exclusion and waiting periods

1. Application. This section applies to individual, group and blanket medical insurance contracts subject to chapters 33 and 35, except Medicare supplement contracts, converted contracts issued under section 2809-A and contracts designed to cover specific diseases, hospital indemnity or accidental injury only.

[PL 1999, c. 256, Pt. L, §8 (AMD).]

1-A. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Date of enrollment" means the effective date of coverage or, if earlier, the first day of the waiting period for such coverage. [PL 2001, c. 258, Pt. E, §9 (NEW).]

B. "Preexisting condition exclusion," with respect to coverage, means a limitation or exclusion of benefits relating to a condition based on the fact or perception that the condition was present, or that the person was at particularized risk of developing the condition, before the date of enrollment for coverage, whether or not any medical advice, diagnosis, care or treatment was recommended or received before that date. [PL 2001, c. 258, Pt. E, §9 (NEW).]

[PL 2001, c. 258, Pt. E, §9 (RPR).]

2. Limitation. An individual, group or blanket contract issued by an insurer may not impose a preexisting condition exclusion. This subsection does not limit a carrier's ability to restrict enrollment in an individual contract to open enrollment and special enrollment periods in accordance with section 2736-C, subsection 11.

A. If coverage to an employer through an association is terminated, the carrier shall renew the coverage with the employer becoming the policyholder. [PL 2005, c. 121, Pt. G, §1 (NEW).]

B. If coverage to an individual member of an association is terminated, the carrier shall renew the coverage with the individual becoming the policyholder. A carrier that has been granted an exemption pursuant to section 2736-C, subsection 9 does not lose that exemption simply by virtue of renewing coverage to individuals under this paragraph. [PL 2005, c. 121, Pt. G, §1 (NEW).]

The requirements of this subsection do not apply if the employer or individual fails to pay premiums, commits fraud or misrepresentation, voluntarily terminates membership in the association or ceases to qualify for membership for reasons other than a change in the association's membership eligibility criteria.

§2857. Policy provisions; delivery or disclosure to debtors

1. Policy or certificate delivered. All consumer credit insurance must be evidenced by an individual policy, or in the case of group insurance by a certificate of insurance, which individual policy or group certificate of insurance must be delivered to the debtor.

[PL 2001, c. 138, §10 (AMD).]

2. Content of policy or certificate. Each individual policy or group certificate of consumer credit insurance must, in addition to other requirements of law, set forth the name and home office address of the insurer, the name or names of the debtor, or, in the case of a certificate under a group policy, the identity by name or otherwise of the debtor; the premium or amount of payment, if a separate identifiable charge is paid by the debtor separately for consumer credit insurance; a description of the coverage, including the amount and term of the coverage, and any exceptions, limitations and restrictions, including conditions under which the policy may be terminated, which must be highlighted in bold print; and must state that the benefit is paid to the creditor to reduce or extinguish the unpaid indebtedness and, wherever the amount of insurance may exceed the unpaid indebtedness, that any excess is payable to a beneficiary, other than the creditor, named by the debtor or to the debtor's estate. During the 30 days immediately following the commencement date, the debtor may cancel the insurance and request in writing a full refund of premium for any reason.

[PL 2001, c. 138, §10 (AMD).]

3. When delivered. The individual policy or group certificate of insurance must be delivered to the insured debtor at the time the indebtedness is incurred, except as otherwise provided.

[PL 2001, c. 138, §10 (AMD).]

4. Notice of proposed insurance. If the individual policy or group certificate of insurance is not delivered to the debtor at the time indebtedness is incurred, a copy of the application for such policy or a notice of proposed insurance, signed by the debtor and setting forth the name and home office address of the insurer, the name or names of the debtor, the premium or amount of payment by the debtor, if a separate identifiable charge is made separately for consumer credit insurance, the amount, term and a brief description of the coverage provided, must be delivered to the debtor at the time such indebtedness is incurred. Failure to comply with the foregoing requirement precludes the use of such application as evidence in any action brought against the insured. The copy of the application for, or notice of proposed insurance, must refer exclusively to insurance coverage, and must be separate and apart from the loan, sale or other credit statement of account, instrument or agreement, unless the information required by this subsection is prominently set forth therein. Upon acceptance of the insurance by the insurer and within 30 days of the date upon which the indebtedness is incurred, the insurer shall cause the individual policy or group certificate of insurance to be delivered to the debtor. The application or notice of proposed insurance must state that upon acceptance by the insurer the insurance becomes effective as provided in section 2856.

[PL 2001, c. 138, §10 (AMD).]

5. Risk not accepted. If the named insurer does not accept the risk, the debtor must receive a policy or certificate of insurance setting forth the name and home office address of the substituted insurer and the amount of the premium to be charged, and if the amount of premium is less than that set forth in the notice of proposed insurance, an appropriate refund must be made.

The superintendent shall, within 30 days after the filing of any such policies, certificates of insurance, notices of proposed insurance, applications for insurance, endorsements and riders, disapprove any such form, if the benefits provided therein are not reasonable in relation to the premium charge or if it contains provisions which are unjust, unfair, inequitable,

misleading, deceptive or encourage misrepresentation of the coverage, or are contrary to any provision of the insurance laws or of any regulation promulgated thereunder. In determining whether to disapprove any such form or premium rates, the superintendent shall give due consideration to past and prospective loss experience and mortality or morbidity rates, based on an appropriate mortality or morbidity table, and claim adjustment expenses, general administrative expenses, including handling cost for return premiums, commissions to agents, cost and compensation to the creditor, branch and field expenses and other acquisition costs, federal, state and local taxes, profit to the insurer, reasonable underwriting judgment, and any and all other factors and trends demonstrated to be relevant. The insurer may support these factors by statistical information, experience, actuarial computations and estimates certified by an executive officer of the insurer, and the superintendent shall give due consideration to such supporting data.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. Notice of disapproval; waiting period. If the superintendent notifies the insurer that the form or rates are disapproved, it is unlawful thereafter for such insurer to issue or use such form or rates. In such notice, the superintendent shall specify the reason for the superintendent's disapproval and state that a hearing will be granted within 20 days after request in writing by the insurer. Any such policy, certificate of insurance, notice of proposed insurance, or any application, endorsement or rider or rate may not be issued or used until the expiration of 30 days after it has been so filed, unless the superintendent gives prior written approval thereto.

[RR 2021, c. 1, Pt. B, §250 (COR).]

4. Approval withdrawn. The superintendent may, at any time after a hearing held not less than 20 days after written notice to the insurer, withdraw the superintendent's approval of any such form or rate on any ground set forth in subsection 2. The written notice of such hearing must state the reason for the proposed withdrawal. The insurer may not use a form or rate after withdrawal of approval thereof.

[RR 2021, c. 1, Pt. B, §251 (COR).]

5. Group certificate filing. If a group policy of consumer credit insurance has been delivered in this State before September 16, 1961, or has been or is delivered in another state before or after such date, the insurer shall file only the group certificate and notice of proposed insurance delivered or issued for delivery in this State as specified in section 2857, subsections 2 and 4, and such forms must be approved by the superintendent, if they conform with the requirements specified in such subsections and if the schedules of premium rates applicable to the insurance evidenced by such certificate or notice are not in excess of the insurer's schedules of premium rates filed with the superintendent.

[PL 2001, c. 138, §11 (AMD).]

All hearings held under this section shall be conducted in accordance with the Maine Administrative Procedure Act, Title 5, chapter 375, subchapter IV. [PL 1977, c. 694, §423 (NEW).]

§2859. Premium rates; refunds; accounts credited when insurance not issued

1. Rates filed; life and health. Any insurer may revise its schedules of premium rates from time to time, and shall file such revised schedules with the superintendent; however, no upward revision in insurance charges to debtors may be made in connection with closed-end credit that would apply to debtors whose credit insurance is already in force. In the case of open-end credit, the debtor must be given a 31-day notice prior to an upward revision unless a waiver of that notice is obtained from the superintendent, in which case the notice of the upward revision must be given at the next regular billing cycle. An insurer may not issue any credit life insurance policy or credit health insurance policy for

which the premium rate exceeds that determined by the schedules of such insurer as then on file with the superintendent.

[PL 2001, c. 138, §12 (AMD).]

1-A. Rates filed; property and casualty. All rates charged in connection with credit property insurance or credit involuntary unemployment insurance must be filed in accordance with section 2304-A. An insurer may not issue any credit property insurance or credit involuntary unemployment insurance policy for which the premium rate exceeds those rates then on file with the superintendent.

[PL 2001, c. 138, §12 (NEW).]

1-B. Rating standards. The superintendent may by rules adopted pursuant to section 2865 or chapter 40-A establish specific rating standards for particular types of consumer credit insurance.

[PL 2001, c. 138, §12 (NEW).]

2. Refund. Each individual policy or group certificate shall provide that in the event of termination of the insurance prior to the scheduled maturity date of the indebtedness, any refund of an amount paid by the debtor for insurance must be paid or credited promptly to the debtor. The superintendent shall prescribe a minimum refund and no refund that would be less than such minimum need be made. The formula to be used in computing such refund must be filed with and approved by the superintendent.

[PL 2001, c. 138, §12 (AMD).]

3. Accounts credited where insurance not issued. If a creditor requires a debtor to make any payment for consumer credit insurance and an individual policy or group certificate of insurance is not issued, the creditor shall immediately give written notice to such debtor and shall promptly make an appropriate credit to the account.

[PL 2001, c. 138, §12 (AMD).]

4. Termination. Any policy for consumer credit insurance issued subsequent to the enactment of this section must contain a provision that the insurance provided for may be terminated under only the following conditions:

A. The date the indebtedness is discharged, renewed or refinanced; [PL 1977, c. 672, §4 (NEW).]

B. Upon written request of a debtor; [PL 1977, c. 672, §4 (NEW).]

C. When a debtor is insured under an individual or group policy, nonpayment by such a debtor of any required premium over 31 days past due, provided that at least 10 days prior to termination the debtor has been given a notice of the right to cure in substantially the same form required by Title 9-A, section 5-110, subsection 3; [PL 1993, c. 149, §1 (AMD).]

D. In the case where debtors are insured under group policies, the group policy may be terminated after 31 days prior notice to the debtor from the creditor:

(1) In a noncontributory policy, at the option of the creditor;

(2) At the time the insurance risk is transferred to a succeeding insurance carrier; or

(3) If the group policyholder fails to pay the premium; [PL 2001, c. 138, §12 (AMD).]

E. In the case where credit is extended on open-ended basis:

(1) At attainment by the debtor of an age determined in advance by the contract of insurance; or

(2) If the creditor elects to terminate all insurance on credit extended on an open-ended basis; [PL 2001, c. 138, §12 (AMD).]

F. If credit is extended on a closed-end basis, coverage for an individual insured under the policy may be terminated upon expiration of the term of the loan or term for which a charge was paid; or [PL 1993, c. 149, §2 (AMD).]

G. When consumer credit insurance is paid for by the debtor in a single premium at the inception of the debt, if the debt is placed in charged-off status by the creditor because the debt is uncollectible, the insurance coverage may be terminated by the creditor and any refund of premium must be applied against any outstanding indebtedness. The creditor shall give notice of the termination of insurance coverage to the debtor at the debtor's last known address. [PL 2001, c. 138, §12 (AMD).]

Legal services insurance may also include provisions for basic legal advice only rendered to the beneficiary, by telephone or mail, by one or more attorneys licensed to practice in the jurisdiction in which the advice is given; none of whom are employees of or under the control of the insurer, directly or indirectly. Legal services insurance does not include the provision of or reimbursement for legal services incidental to other insurance coverages. [RR 2009, c. 2, §68 (COR).]

CHAPTER 39

CASUALTY INSURANCE CONTRACTS

SUBCHAPTER 1

GENERAL PROVISIONS

§2901. Contracts subject to general provisions

All contracts of casualty insurance delivered or issued for delivery in this State and covering subjects resident, located, or to be performed in this State are also subject to the applicable provisions of chapter 27 (the insurance contract) and to other applicable provisions of this Title. [PL 1969, c. 132, §1 (NEW).]

SECTION HISTORY

PL 1969, c. 132, §1 (NEW).

§2902. Uninsured vehicle coverage; insolvency of insurer

1. A policy insuring against liability arising out of the ownership, maintenance or use of any motor vehicle may not be delivered or issued for delivery in this State with respect to any such vehicle registered or principally garaged in this State, unless coverage is provided in the policy or supplemental to the policy for the protection of persons insured under the policy who are legally entitled to recover damages from owners or operators of uninsured, underinsured or hit-and-run motor vehicles, for bodily injury, sickness or disease, including death, sustained by an insured person resulting from the ownership, maintenance or use of such uninsured, underinsured or hit-and-run motor vehicle. The coverage required by this section may be referred to as "uninsured vehicle coverage." For the purposes of this section, "underinsured motor vehicle" means a motor vehicle for which coverage is provided, but in amounts less than the minimum limits for bodily injury liability insurance provided for under the motorist's financial responsibility laws of this State or less than the limits of the injured party's uninsured vehicle coverage.

[PL 2005, c. 591, §1 (AMD).]

2. With respect to motor vehicle insurance policies subject to the Maine Automobile Insurance Cancellation Control Act and policies in the assigned risk plan established pursuant to section 2325 securing private passenger auto insurance coverage, the amount of coverage to be so provided may not be less than the amount of coverage for liability for bodily injury or death in the policy offered or sold to a purchaser unless the purchaser expressly rejects such an amount, but in any event may not be less than the minimum limits for bodily injury liability insurance provided for under Title 29-A, section 1605, subsection 1.

A rejection of equal coverage by the purchaser under this subsection must be in writing on a form provided by the insurer. The rejection must be signed by the purchaser, dated and include the following language: "I understand that Maine law requires uninsured motor vehicle coverage limits to equal the limits I have selected for liability coverage for bodily injury or death in this policy unless I expressly reject such an amount of coverage. Pursuant to the Maine Revised Statutes, Title 24-A, section 2902, subsection 2, I have elected to purchase uninsured motor vehicle coverage with lesser limits."

For coverage purchased on or after October 1, 2000, the form must be provided to the purchaser prior to the effective date of coverage. For renewal policies in force as of September 30, 2000, the form must be provided upon the first offer of renewal to each purchaser who has current coverage limits less than those required under this subsection. To be effective, a form must be signed by any one named insured under the policy. If a signed form rejecting higher coverage is not received by the insurer prior to the effective date of the policy to which it applies, then the higher coverage must be provided consistent with this subsection from the policy issuance date for coverage purchased on or after October 1, 2000 and from the effective date of the first renewal on or after October 1, 2000 for policies in force as of September 30, 2000.

This subsection may not be construed to prohibit an insured from prospectively changing coverage to alternative limits of uninsured motor vehicle coverage so long as a signed form, if necessary, is submitted to the insurer prior to the effective date of the change. If an insured has maintained the same uninsured vehicle coverage limits for 2 consecutive years with the same insurer, then the insured will

be conclusively presumed to have accepted that amount of uninsured coverage in all future policies, until such time as the insured notifies the insurer in writing of an election to change the amount of uninsured coverage.

Reinstatement or renewal of coverage by the insured with the same insurer within 30 days of expiration of a policy must be considered, for purposes of this section, as continuous coverage and does not require a new rejection to be executed by the insured.

With respect to motor vehicle insurance policies not subject to the Maine Automobile Insurance Cancellation Control Act, the amount of coverage so provided may not be less than the minimum limits for bodily injury liability insurance provided for under Title 29-A, section 1605, subsection 1.

[PL 1999, c. 663, §1 (AMD); PL 1999, c. 663, §4 (AFF).]

3. For the purposes of this section, the term "uninsured motor vehicle" shall be deemed also to include, subject to the terms and conditions of such coverage, an insured other motor vehicle where:

A. The liability insurer of such other motor vehicle is unable because of its insolvency to make payment with respect to the legal liability of its insured within the limits specified in its policy; [PL 1969, c. 132, §1 (NEW).]

B. The occurrence out of which such legal liability arose took place while the uninsured vehicle coverage required under subsection 1, was in effect; and [PL 1969, c. 132, §1 (NEW).]

C. Written notice of such occurrence shall have been given to the insurer within 2 years thereof. [PL 1969, c. 132, §1 (NEW).]

Nothing contained in this subsection shall be deemed to prevent any insurer from providing insolvency protection to its insureds under more favorable terms.

[PL 1969, c. 132, §1 (NEW).]

4. In the event of payment to any person under uninsured vehicle coverage, and subject to the terms of such coverage, to the extent of such payment the insurer shall be entitled to the proceeds of any settlement or recovery from any person legally responsible for the bodily injury as to which such payment was made, and to amounts recoverable from the assets of the insolvent insurer of the other motor vehicle.

[PL 1969, c. 132, §1 (NEW).]

5. An insurer or licensed producer holding an appointment from the insurer shall disclose to the purchaser of a motor vehicle liability insurance policy the requirements for uninsured motor vehicle coverage under subsection 2.

[PL 1999, c. 271, §2 (NEW).]

6. When 2 or more persons are legally entitled to recover damages from a particular owner or operator of an underinsured motor vehicle, the amount of underinsured vehicle coverage applicable to each injured person is determined as provided in this subsection.

A. If the underinsured motor vehicle policy applicable to 2 or more persons who are legally entitled to recover damages contains both a per person and a per accident limit, the amount of underinsured vehicle coverage applicable to each injured person is determined by subtracting any payments actually made to that person from any bodily injury liability insurance coverage applicable to the particular owner or operator of the underinsured motor vehicle from that person's, operator's or owner's underinsured vehicle coverage policy limits if applicable to that person. [PL 2013, c. 284, §1 (NEW).]

B. If the underinsured motor vehicle policy applicable to 2 or more persons who are legally entitled to recover damages contains only a single per accident limit, the amount of underinsured vehicle coverage available to each injured person is determined by subtracting any payment received by that person from the owner or operator of the underinsured motor vehicle from that single per

accident limit. In no event may the maximum amount payable by the insurer to all injured persons exceed the single per accident limit. [PL 2013, c. 284, §1 (NEW).]

C. The amount of underinsured vehicle coverage determined under paragraph A or B must be further reduced by the amount by which the bodily injury liability insurance coverage applicable to the particular owner or operator of the underinsured motor vehicle exceeds all payments from that coverage to all persons legally entitled to recover damages from that particular owner or operator of the underinsured motor vehicle. [PL 2013, c. 284, §1 (NEW).]

D. This subsection does not prohibit an insurer from providing greater amounts of underinsured vehicle coverage than are required under this section. [PL 2013, c. 284, §1 (NEW).]

[PL 2013, c. 284, §1 (RPR).]

7. Notwithstanding the requirements of subsection 2 relating to the amount of uninsured motor vehicle coverage required to be maintained under motor vehicle insurance policies subject to the Maine Automobile Insurance Cancellation Control Act and policies in the assigned risk plan established pursuant to section 2325 securing private passenger auto insurance coverage, a policy providing uninsured motor vehicle coverage underwritten on a commercial policy form approved for use in this State must provide coverage in an amount not less than the minimum limits for bodily injury liability insurance provided for under Title 29-A, section 1605, subsection 1. Coverage provided to an insured pursuant to this subsection does not obligate the insured to affirmatively reject an offer of higher limits of uninsured motor vehicle coverage. This subsection may not be construed to limit or compel an insured's election of higher limits of uninsured motor vehicle coverage.

§2902-E. Limitation on surcharge

An insurer may not impose a surcharge or otherwise increase the rate for a motor vehicle insurance policy solely on the basis that the named insured, a member of the insured's household or a person who customarily operates the insured's vehicle has had an operator's license suspended pursuant to Title 28-A, sections 2052 and 2053. An insurer may not impose a surcharge or otherwise increase the rate for a motor vehicle policy solely on the basis that the named insured, a member of the insured's household or a person who customarily operates the insured's vehicle is a volunteer driver. For purposes of this section, "volunteer driver" means a person who provides services, including transporting individuals or goods, without compensation above expenses to a nonprofit agency or charitable organization as defined in Title 14, section 158-A. §2902-G. Discounted premiums for older drivers

1. Discount; accident prevention course required. Any rates, rating schedules or rating manuals for the liability, personal injury protection and collision coverages of a motor vehicle insurance policy submitted to or filed with the bureau must provide for an appropriate discount in premium charges for such coverages for a 3-year period when the principal operator of the covered vehicle is an insured 55 years of age or older who successfully completes a motor vehicle accident prevention course approved by the Department of Public Safety, Bureau of Highway Safety. [PL 2001, c. 130, §1 (NEW).]

2. Condition. The premium reduction required by subsection 1 is effective for a 3-year period after an insured 55 years of age or older successfully completes an approved motor vehicle accident prevention course, except that the insurer may require, as a condition of providing and maintaining the discount, that for a 3-year period after the course is completed:

A. The insured or a member of the insured's household insured under the policy not be involved in an accident for which the insured is at fault; [PL 2001, c. 130, §1 (NEW).]

B. The insured or a member of the insured's household insured under the policy not have committed a moving violation as defined in Title 29-A, section 101, subsection 44; or [PL 2001, c. 130, §1 (NEW).]

[PL 2001, c. 130, §1 (NEW).]

3. Qualification; certificate. An organization offering an approved motor vehicle accident prevention course used to qualify for the premium discount required by subsection 1 shall issue a certificate to a person who successfully completes the course.
[PL 2001, c. 130, §1 (NEW).]

4. Application. An insured is not eligible for the premium discount under subsection 1 when the insured is required by a court or other government entity to complete the approved motor vehicle accident prevention course because the insured has committed a moving violation as defined in Title 29-A, section 101, subsection 44.
[PL 2001, c. 130, §1 (NEW).]

5. Eligibility. An insured must pass an approved motor vehicle accident prevention course every 3 years to continue to be eligible for the premium discount.

SECTION HISTORY

PL 1973, c. 219 (NEW).

§2908. Cancellation and nonrenewal

1. As used in this section, unless the context indicates otherwise, the following terms have the following meanings.

A. "Cancellation" means termination of a policy at a date other than its expiration date. [PL 1985, c. 671, §1 (NEW).]

B. "Expiration date" means the date upon which coverage under a policy ends. It also means, for a policy written for a term longer than one year or with no fixed expiration date, each annual anniversary date of the policy. [PL 1985, c. 671, §1 (NEW).]

C. "Nonpayment of premium" means the failure or inability of the named insured to discharge any obligation in connection with the payment of premium on a policy of insurance subject to this section, whether the payments are payable directly to the insurer or its agent or indirectly payable under a premium finance plan or extension of credit. [PL 1985, c. 671, §1 (NEW).]

D. "Nonrenewal" means termination of a policy at its expiration date. [PL 1985, c. 671, §1 (NEW).]

E. "Renewal" or "to renew" means the issuance of, or the offer to issue by an insurer, a policy succeeding a policy previously issued and delivered by the same insurer or an affiliate of the insurer or the issuance of a certificate or notice extending the terms of an existing policy for a specified period beyond its expiration date. For the purposes of this section, the transfer of a policy from an insurer to an affiliate is considered a policy renewal. [PL 2007, c. 188, Pt. C, §1 (AMD).]

[PL 2007, c. 188, Pt. C, §1 (AMD).]

2. Except as provided in subsection 8, no contract of casualty insurance may be cancelled by an insurer prior to the expiration of the policy, except for one or more of the following grounds:

A. Nonpayment of premium; [PL 1985, c. 671, §1 (NEW).]

B. Fraud or material misrepresentation made by or with the knowledge of the named insured in obtaining the policy, continuing the policy or in presenting a claim under the policy; [PL 1985, c. 671, §1 (NEW).]

C. Substantial change in the risk which increases the risk of loss after insurance coverage has been issued or renewed, including, but not limited to, an increase in exposure due to rules, legislation or court decision; [PL 1985, c. 671, §1 (NEW).]

D. Failure to comply with reasonable loss control recommendations; [PL 1985, c. 671, §1 (NEW).]

E. Substantial breach of contractual duties, conditions or warranties; or [PL 1985, c. 671, §1 (NEW).]

F. Determination by the superintendent that the continuation of a class or block of business to which the policy belongs will jeopardize a company's solvency or will place the insurer in violation of the insurance laws of this State or any other state. [PL 1985, c. 671, §1 (NEW).]

The grounds listed in paragraphs A to E shall be contained in all policies issued, issued for delivery or renewed on or after the effective date of this section. Insurers shall have 30 days from the effective date of this section to notify insureds of these grounds for cancellation on policies issued or issued for delivery before the effective date of this section.

[PL 1985, c. 671, §1 (NEW).]

3. If a policy has been issued for a term longer than one year and, for additional premium consideration, a premium has been guaranteed, the insurer may not refuse to renew the policy or increase the policy premium for the term of that policy.

[PL 1985, c. 671, §1 (NEW).]

4. If an insurer offers or purports to renew a contract, but on less favorable terms to the insured or at higher rates or a higher rating plan, the new terms or rates and rating plan may take effect on the renewal date, if the insurer has provided the insured 30 days notice. If the insurer has not so notified the contract holder, the contract holder may elect to cancel the renewal policy within the 30-day period after receipt of the notice or delivery. Earned premium for the period of coverage for such time as the renewal contract may have been in force, shall be calculated pro rata at the lower of the current or previous year's rate. If the insured accepts the renewal, the premium increase, if any, and other changes shall be effective immediately following the prior policy's expiration or anniversary date. This section does not apply if the change is a rate, form or plan filed with the superintendent and applicable to the

entire class of business to which the policy belongs or to a premium increase based on the altered nature or extent of the risk insured against.

[PL 1985, c. 671, §1 (NEW).]

5. Cancellation or nonrenewal is not effective until notice is received by the insured as follows.

A. Except for workers' compensation insurance, cancellation may not be effective prior to 10 days after receipt by the insured of a notice of cancellation. Notice of cancellation of workers' compensation insurance is subject to Title 39-A, section 403, subsection 1. The notice must state the effective date of and the reason or reasons for cancellation. [PL 1991, c. 885, Pt. E, §31 (AMD); PL 1991, c. 885, Pt. E, §47 (AFF).]

B. Nonrenewal subject to this section shall not be effective prior to 30 days after receipt of written notice by the insured. If an insurer provides a notice of nonrenewal as described in this subsection and thereafter extends the policy 90 days or less, an additional notice of nonrenewal is not required with respect to this extension. [PL 1985, c. 671, §1 (NEW).]

C. A post-office certificate of mailing to the named insured at the named insured's last known address is conclusive proof of receipt of notice on the 3rd calendar day after mailing. [RR 2021, c. 1, Pt. B, §255 (COR).]

D. For policies providing automobile physical damage coverage, like notice of cancellation or nonrenewal must also be given to any party named in a loss payable clause. [PL 2007, c. 188, Pt. C, §2 (NEW).]

[RR 2021, c. 1, Pt. B, §255 (COR).]

6. Any insured who has received a notice of an insurer's intent to cancel a policy may, within 45 days of the receipt of the notice, request a hearing before the superintendent. The purpose of this hearing shall be limited to establishing the existence of the proof or evidence given by the insurer in its notice of cancellation. The burden of proof of the reason for cancellation shall be upon the insurer. The superintendent shall have the authority to order that a policy remain in effect both pending and, if the superintendent finds in favor of the insured, subsequent to a hearing. If the superintendent finds in favor of the insurer at a hearing, the superintendent may order the policy to remain in force for 14 days to allow the insured to obtain other coverage.

[PL 1989, c. 172, §3 (AMD).]

7. Except as provided in Title 10, chapter 209-B, no insurer or licensed agent or employee of the insurer may be held liable in any civil action for statements made in a notice of cancellation or nonrenewal or at a hearing held under this section if the statements were made in good faith and, in the case of cancellation, are reasonably related to the grounds for cancellation.

[PL 2013, c. 588, Pt. C, §12 (AMD).]

8. Except for the definitions in subsection 1 and cancellation notice requirements set forth in subsection 5, this section does not apply to any insurance policy that has not been previously renewed if the policy has been in effect less than 60 days at the time notice of cancellation is mailed or otherwise delivered. This section does not apply to any policy subject to the Maine Automobile Insurance Cancellation Control Act, subchapter II. This section does not apply to any assigned risk program. The superintendent may suspend, in whole or in part, the applicability of this section to any insurer if, in the superintendent's discretion, its application will endanger the ability of the insurer to fulfill its contractual obligations.

[PL 1997, c. 126, §5 (AMD).]

9. This section applies to all contracts of casualty insurance, except surplus lines contracts, delivered or issued for delivery in this State, both before and after the effective date of this section. Provisions in this section relating to nonrenewal of policies shall take effect 30 days after the effective date of this section.

§2910. Loss information to be supplied

1. **Request for information.** Every insurer shall provide loss information concerning an insurance policy to its insured within 30 calendar days of the receipt of a written request from the insured or an insurance agent or other authorized representative of the insured. An insurer may not cancel or refuse to renew an insurance policy for the nonpayment of premium during any period within which the insurer fails to provide the loss information requested under this section, unless the insured requests that information fewer than 45 calendar days prior to the expiration date of the insurance policy.

[PL 1989, c. 696, §1 (NEW).]

2. **Transmittal of request.** If an insured requests loss information from an insurance agent or an authorized representative of the insured, the representative or agent shall transmit the request for loss information to the insurer within 4 working days.

3. **Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Insurance policy" means the insurance policy relating to the loss information requested pursuant to this section. [PL 1989, c. 696, §1 (NEW).]

B. "Loss information," except with respect to workers' compensation insurance, means the following items: the name of the insured, the date of the loss, the date that the claim was received by the insurer, a description of the loss, any amount paid by the insurer on account of the loss, any amount reserved for the loss and whether the claim is open or closed. [PL 1989, c. 696, §1 (NEW).]

§2910-A. Subrogation; medical payments coverage

1. Policy requirements. A casualty insurance policy subject to this chapter may not provide for subrogation or priority over the insured of payment for any hospital, nursing, medical or surgical services or of any expenses paid or reimbursed under the medical payments coverage in the policy in the event the insured is entitled to receive payment or reimbursement from any other person as a result of legal action or claim, except as provided in this section.

The coverage may contain a provision that allows the payments if:

A. [PL 2011, c. 509, §1 (RP).]

B. The provision requires the written approval of the insured; [PL 2009, c. 222, §1 (NEW).]

C. The provision provides that the insurer's subrogation right is subject to subtraction to account for the pro rata share of the insured's attorney's fees incurred in obtaining the recovery from another source; and [PL 2009, c. 222, §1 (NEW).]

D. The provision is approved by the superintendent. [PL 2009, c. 222, §1 (NEW).]
[PL 2011, c. 509, §1 (AMD).]

2. Dispute resolution. In the event of a dispute as to the application of any such provision or the amount available for payment to those claiming payment for services or reimbursement, that dispute must be determined, if the action is pending, before the court in which it is pending; or if no action is pending, by filing an action in any court for determination of the dispute.
[PL 1997, c. 369, §2 (NEW).]

3. Exception. Nothing in this section prevents an insurer from exercising its subrogation rights directly against any person legally responsible for the insured's injury. In the event that the insurer pursues its subrogation rights directly against such a person, the insurer's subrogation right is not subject to any subtraction to account for attorney's fees and the insurer is entitled to full recovery.
[PL 1997, c. 369, §2 (NEW).]

4. Coordination of benefits and assignment of medical payments coverage. The following provisions apply to coordination of benefits and assignment of medical payments coverage in a casualty insurance policy.

A. A carrier, as defined in section 4301-A, subsection 3, may not coordinate benefits against medical payments coverage in a casualty insurance policy and may not require medical payments coverage to be primary coverage over any health insurance policy. [PL 2019, c. 182, §1 (NEW).]

B. Medical payments coverage in a casualty insurance policy is assignable only by agreement between the insured and the casualty insurer. Benefits under medical payments coverage must be applied as directed by the insured. [PL 2019, c. 182, §1 (NEW).]

C. The insured has the right to submit a claim for medical expenses under medical payments coverage in a casualty insurance policy. The insured may also submit a claim for medical expenses under a health insurance policy, except that an insured is not entitled to duplicate payment from medical payments coverage and a health insurance policy for the same medical expense. §2915. Delivery of notice

A notice of cancellation of a policy is not effective unless received by the named insured at least 20 days prior to the effective date of cancellation, or, when the cancellation is for nonpayment of premium, at least 10 days prior to the effective date of cancellation. In the event the policy provides automobile physical damage coverage, like notice of cancellation must also be given to any party mentioned in the loss payable clause. A postal service certificate of mailing to the named insured at the insured's last known address is conclusive proof of receipt on the 5th calendar day after mailing. [PL 2007, c. 188, Pt. C, §5 (AMD).]

Except for a policy that has been in effect for less than 60 days at the time notice of cancellation is received by the named insured, the reason for cancellation must accompany the notice, together with a notice of the right to apply for a hearing before the superintendent within 30 days, as provided in section 2920. §2916-A. Nonrenewal -- reasons

A notice of nonrenewal may not be issued unless it is based upon a reason for which the policy could have been cancelled or unless it is based upon one or more of the following grounds that occurred

during the 36-month period preceding the yearly anniversary date of the policy. A nonrenewal is effective only on the policy's yearly anniversary date. [PL 2007, c. 188, Pt. C, §6 (AMD).]

1. Convictions. When a named insured or any operator who either resides in the same household or customarily operates an automobile insured under the policy is convicted of any of the following:

B. The motor vehicle was struck while parked; [PL 1979, c. 336, §1 (NEW).]

§2916-C. Discontinuance of a line of business

If an insurer files a plan with the superintendent to discontinue business in a line of insurance subject to this subchapter, the superintendent may authorize the nonrenewal of policies in that line of business if the plan filed by the insurer demonstrates the availability of substantially similar coverage in the admitted market. The nonrenewal of a policyholder pursuant to this section may not be considered by an insurer in future coverage determinations. An insurer may resume transacting business in a line of insurance discontinued pursuant to this section upon written notification to the superintendent. [PL 2005, c. 49, §1 (AMD).]

§2917. Notice of intent

An insurer may not fail to renew a policy except by notice to the insured as provided in this subchapter. A notice of intention not to renew is not effective unless received by the named insured at least 30 days prior to the expiration date of the policy. In the event the policy provides automobile physical damage coverage, like notice of intention not to renew must be given to any party named in the loss payable clause. A post office department certificate of mailing to the named insured at the

insured's last known address is conclusive proof of receipt on the 3rd calendar day after mailing. [PL 2007, c. 188, Pt. C, §7 (AMD).]

The reason or reasons for the intended nonrenewal action must accompany the notice of intent not to renew and the reason or reasons must be explicit. Explanations such as "underwriting reasons," "underwriting experience," "loss record," "driving experience," "credit report" and similar insurance terms are not by themselves acceptable explanations of an insurer's intended nonrenewal of an automobile insurance policy. A notice of a right to apply for a hearing before the superintendent within 30 days as provided in this section must accompany the notice of intent not to renew. [PL 2007, c. 188, Pt. C, §7 (AMD).]

This section does not apply: [PL 2007, c. 188, Pt. C, §7 (AMD).]

2. If the insured fails to pay any premium due or any advance premium required by the insurer for renewal; or
[PL 2007, c. 188, Pt. C, §7 (AMD).]

3. If the insurer has transferred a policy to an affiliate. Prior to the date of renewal of a policy that has been transferred by an insurer to an affiliate, the insured must receive notice of any changes to the terms of the policy that are less favorable to the insured.

If an insured obtains a 2nd policy which provides equal or more extensive coverage for any vehicle designated in both policies, the first policy's coverage of such vehicle may be terminated by failure to renew as of the effective time and date of the 2nd policy, whether or not the first policy insurer complies with all provisions of section 2917. The purpose of this hearing shall be limited to establishing the existence of the proof or evidence given by the insurer in its reason for cancellation or intent not to renew. The burden of proof of the reason for cancellation or intent not to renew shall be upon the insurer. The superintendent shall have the authority to order that a policy continue in effect both pending and, if the superintendent finds in favor of the insured, subsequent to a hearing. If the superintendent finds in favor of the insurer at a hearing, the superintendent may order the policy to

§2938. Availability

(REPEALED)

SECTION HISTORY

PL 1973, c. 625, §146 (NEW). PL 1989, c. 192, §3 (RP).

§2938-A. Availability

The insurer shall file with the superintendent its underwriting rules pertaining to eligibility for the mass marketing plan. No insurer may use underwriting standards for individual risk selection in a mass marketing plan that are, on the whole, more restrictive than the standards used by that insurer for individual risk selection in the sale of the same kind of insurance in this State other than pursuant to mass marketing plans. If an insurer does not sell that kind of insurance in this State other than pursuant to mass marketing plans, its underwriting standards for individual risk selection in those plans, on the whole, may be no more restrictive than the standards used by its principal affiliate, if any, for individual risk selection in the sale of that kind of insurance in this State other than pursuant to mass marketing plans. With respect to motor vehicle insurance, all policies issued under the mass marketing plans must provide at least the financial responsibility limits of coverage stated in Title 29-A, section 1605, subsection 1. [PL 1995, c. 65, Pt. A, §72 (AMD); PL 1995, c. 65, Pt. A, §153 (AFF); PL 1995, c. 65, Pt. C, §15 (AFF).]

If an insurer rejects an applicant for coverage pursuant to a mass marketing plan, the insurer shall provide a notice of rejection to the applicant. Explanations such as "underwriting reasons," "loss record," "location of risk" and similar insurance terms are not by themselves acceptable explanations of an insurer's rejection. [PL 1989, c. 192, §4 (NEW).]

The insurance shall be offered without discrimination against any eligible member of the plan as to rates, forms or coverages. Nothing in this section shall preclude the establishment of different classes of risk. [PL 1989, c. 192, §4 (NEW).]

Insurers may not cancel, fail to renew or change the rating classification of insureds who have coverage in force under existing plans as of the effective date of this section for the sole reason that the insured fails to meet underwriting standards which are applicable to persons enrolling in the plans after the effective date of this section. 2. The failure of an employer, association, organization or other group to remit premiums when due for any reason, including, but not limited to, interruption or termination of employment or membership, may not be regarded as nonpayment of premium by any insured under any such plan providing for remittance of premium by such employer, association, organization or other group, unless such insured has been given written notice of such failure to remit and has not paid such premium by the later of 20 days after such notice, or the due date of such premium remittance under the mass marketing plan or pursuant to regulations set forth by the superintendent.

[RR 2021, c. 1, Pt. B, §259 (COR).]

CHAPTER 40-A

GROUP PROPERTY AND CASUALTY INSURANCE

§2951. Group property and casualty insurance

1. **Group coverage permitted.** The following lines of property and casualty insurance may be written on a group basis, subject to the requirements of this section and other applicable law:

A. Liability insurance issued to a risk purchasing group in compliance with chapter 72-A; [PL 2001, c. 138, §16 (NEW).]

B. Credit involuntary unemployment insurance issued to a debtor group in compliance with chapter 37; and [PL 2001, c. 138, §16 (NEW).]

C. Other lines of insurance designated by the superintendent in compliance with rules adopted pursuant to section 2953. [PL 2001, c. 138, §16 (NEW).]
[PL 2001, c. 138, §16 (NEW).]

2. Terms of coverage. A policy must provide insured group members with terms of coverage that are no less favorable to the insured than would be required for comparable nongroup policies, at rates consistent with the requirements of this Title.
[PL 2001, c. 138, §16 (NEW).]

3. Certificate of coverage. An insured group member must be issued a certificate of coverage adequately describing that insured's rights and responsibilities under the group policy in a manner satisfactory to the superintendent, delivered in the same time and manner as is required for the delivery of comparable nongroup policies.
[PL 2001, c. 138, §16 (NEW).]

SECTION HISTORY

PL 2001, c. 138, §16 (NEW).

§2952. Termination of coverage

Cancellation and nonrenewal of group policies and of coverage of group members under group policies are governed by this section. [PL 2001, c. 138, §16 (NEW).]

1. Involuntary termination. Involuntary termination of the group policy is governed by section 2908. Individual insureds do not have standing to contest cancellation or nonrenewal of the group policy unless they have the right to represent the group policyholder.
[PL 2001, c. 138, §16 (NEW).]

2. Prior notice of involuntary termination of coverage. Except as otherwise provided in this section, individual insureds have the same rights to prior notice before involuntary termination of coverage and opportunity for hearing before the superintendent to contest the termination as would be available under the cancellation control laws applicable to comparable nongroup policies.
[PL 2001, c. 138, §16 (NEW).]

3. Termination of group policy. Termination of the group policy, whether voluntary or involuntary, is a valid ground for termination of coverage for all group members, if adequate notice to group members has been given in accordance with subsection 2.
[PL 2001, c. 138, §16 (NEW).]

4. Termination of group membership. Termination of group membership is a valid ground for termination of the member's coverage under a group policy, if the certificate of coverage so provides. If the certificate of coverage gives adequate notice that coverage ceases immediately upon voluntary withdrawal from the group, no further advance notice is required as a condition precedent to the termination of coverage.
[PL 2001, c. 138, §16 (NEW).]

5. Continued coverage. An insurer's obligation to issue or offer continued coverage to a group member under this chapter may be satisfied by the issuance or offer of a comparable nongroup policy.
[PL 2001, c. 138, §16 (NEW).]

SECTION HISTORY

PL 2001, c. 138, §16 (NEW).

§2953. Rulemaking

The superintendent may adopt rules, which are routine technical rules pursuant to Title 5, chapter 375, subchapter II-A, establishing specific requirements and procedures for group property and casualty policies, certificates of coverage and rates, consistent with the purposes of this chapter. These rules

may specify additional types of insurance that may be issued on a group basis and the types of groups that may be policyholders, if the superintendent determines that the issuance of multiple individual policies to group members in accordance with chapter 40 does not adequately address the needs of the market. SUBCHAPTER 1

STANDARD FIRE POLICY

§3001. Contracts subject to general provisions

SECTION HISTORY

PL 1969, c. 132, §1 (NEW).

Consideration and Insuring Clause

In Consideration of the Provisions and Stipulations herein or added hereto and of the premium above specified, this Company, for the term of from at 12:01 a.m. (Standard Time) to at 12:01 a.m. (Standard Time) at location of property involved, to an amount not exceeding the amount(s) above specified, does insure and legal representatives, to the extent of the actual cash value of the property at the time of loss, but not exceeding the amount which it would cost to repair or replace the property with material of like kind and quality within a reasonable time after such loss, without allowance for any increased cost of repair or reconstruction by reason of any ordinance or law regulating construction or repair, and without compensation for loss resulting from interruption of business or manufacture, nor in any event for more than the interest of the insured, against all DIRECT LOSS BY FIRE, LIGHTNING AND BY REMOVAL FROM PREMISES ENDANGERED BY THE PERILS INSURED AGAINST IN THIS POLICY, EXCEPT AS HEREINAFTER PROVIDED, to the property described herein while located or contained as described in this policy, or pro rata for five days at each proper place to which any of the property shall necessarily be removed for preservation from the perils insured against in this policy, but not elsewhere.

Assignment Clause

Assignment of this policy shall not be valid except with the written consent of this Company.

This policy is made and accepted subject to the foregoing provisions and stipulations and those hereinafter stated, which are hereby made a part of this policy, together with such other provisions, stipulations and agreements as may be added hereto, as provided in this policy.

General Conditions and Stipulations

Concealment, fraud. This entire policy shall be void if, whether before or after a loss, the insured has willfully concealed or misrepresented any material fact or circumstance concerning this insurance or the subject thereof, or the interest of the insured therein, or in case of any fraud or false swearing by the insured relating thereto.

Uninsurable and excepted property. This policy shall not cover accounts, bills, currency, deeds, evidences of debt, money or securities; nor, unless specifically, named hereon in writing, bullion or manuscripts.

Perils not included. This Company shall not be liable for loss by fire or other perils insured against in this policy caused, directly or indirectly by: (a) enemy attack by armed forces, including action taken by military, naval or air forces in resisting an actual or an immediately impending enemy attack; (b) invasion; (c) insurrection; (d) rebellion; (e) revolution; (f) civil war; (g) usurped power; (h) order of any civil authority except acts of destruction at the time of and for the purpose of preventing the spread of fire, provided that such fire did not originate from any of the perils excluded by this policy; (i) neglect of the insured to use all reasonable means to save and preserve the property at and after a loss, or when the property is endangered by fire in neighboring premises; (j) nor shall this Company be liable for loss by theft.

Other insurance. Other insurance may be prohibited or the amount of insurance may be limited by endorsement attached hereto.

Conditions suspending or restricting insurance. Unless otherwise provided in writing added hereto this Company shall not be liable for loss occurring (a) while the hazard is increased by any means within the control or knowledge of the insured; or

(b) while a described building, whether intended for occupancy by owner or tenant, is vacant or unoccupied beyond a period of sixty consecutive days; or

(c) as a result of explosion or riot, unless fire ensues, and in that event for loss by fire only.

Other perils or subjects. Any other peril to be insured against or subject of insurance to be covered in this policy shall be by endorsement in writing hereon or added hereto.

Added provisions. The extent of the application of insurance under this policy and of the contribution to be made by this Company in case of loss, and any other provision or agreement not inconsistent with the provisions of this policy, may be provided for in writing added hereto, but no provision may be waived except such as by the terms of this policy is subject to change.

Waiver provisions. No permission affecting this insurance shall exist, or waiver of any provision be valid, unless granted herein or expressed in writing added hereto. No provision, stipulation or forfeiture shall be held to be waived by any requirement or proceeding on the part of this Company relating to appraisal or to any examination provided for herein.

Cancellation of policy. This policy shall be cancelled at any time at the request of the insured, in which case this Company shall, upon demand and surrender of this policy, refund the excess of paid premium above the customary short rates for the expired time. This policy may be cancelled at any time by this Company by giving to the insured a ten days' written notice of cancellation with or without tender of the excess of paid premium above the pro rata premium for the expired time, which excess, if not tendered, shall be refunded on demand. Notice of cancellation shall state that said excess premium (if not tendered) will be refunded on demand.

Mortgagee interests and obligations. If loss hereunder is made payable, in whole or in part, to a designated mortgagee not named herein as the insured, such interest in this policy may be cancelled by giving to such mortgagee a ten days' written notice of cancellation.

If the insured fails to render proof of loss such mortgagee, upon notice, shall render proof of loss in the form herein specified within sixty (60) days thereafter and shall be subject to the provisions hereof relating to appraisal and time of payment and of bringing suit. If this Company shall claim that no liability existed as to the mortgagor or owner, it shall, to the extent of payment of loss to the mortgagee, be subrogated to all the mortgagee's rights of recovery, but without impairing mortgagee's right to sue; or it may pay off the mortgage debt and require an assignment thereof and of the mortgage. Other provisions relating to the interests and obligations of such mortgagee may be added hereto by agreement in writing.

Pro rata liability. This Company shall not be liable for a greater proportion of any loss than the amount hereby insured shall bear to the whole insurance covering the property against the peril involved, whether collectible or not.

Requirements in case loss occurs. The insured shall give immediate written notice to this Company of any loss, protect the property from further damage, forthwith separate the damaged and undamaged personal property, put it in the best possible order, furnish a complete inventory of the destroyed, damaged and undamaged property, showing in detail quantities, costs, actual cash value and amount of loss claimed; and within sixty days after the loss, unless such time is extended in writing by this Company, the insured shall render to this Company a proof of loss, signed and sworn to by the insured, stating the knowledge and belief of the insured as to the following: The time and origin of the loss, the interest of the insured and of all others in the property, the actual cash value of each item thereof and the amount of loss thereto, all encumbrances thereon, all other contracts of insurance, whether valid or not, covering any of said property, any changes in the title, use, occupation, location, possession or exposures of said property since the issuing of this policy, by whom and for what purpose any building herein described and the several parts thereof were occupied at the time of loss and whether or not it then stood on leased ground, and shall furnish a copy of all the descriptions and schedules in all policies and, if required, verified plans and specifications of any building, fixtures or machinery destroyed or damaged. The insured, as often as may be reasonably required, shall exhibit to any person designated by this Company all that remains of any property herein described, and submit to examinations under oath by any person named by this Company, and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of account, bills, invoices and other vouchers, or certified copies thereof if originals be lost, at such reasonable time and place as may be designated by this Company or its representative, and shall permit extracts and copies thereof to be made.

Appraisal. In case the insured and this Company shall fail to agree as to the actual cash value or the amount of loss, then, on the written demand of either, each shall select a competent and disinterested appraiser and notify the other of the appraiser selected within twenty days of such demand. The appraisers shall first select a competent and disinterested umpire; and failing for fifteen days to agree upon such umpire, then, on request of the insured or this Company, such umpire shall be selected by a judge of a court of record in the state in which the property covered is located. The appraisers shall then appraise the loss, stating separately actual cash value and loss to each item; and, failing to agree, shall submit their differences, only, to the umpire. An award in writing, so itemized, of any two when filed with this Company shall determine the amount of actual cash value and loss. Each appraiser shall be paid by the party selecting that appraiser and the expenses of appraisal and umpire shall be paid by the parties equally.

Company's options. It shall be optional with this Company to take all, or any part, of the property at the agreed or appraised value, and also to repair, rebuild or replace the property destroyed or damaged with other of like kind and quality within a reasonable time, on giving notice of its intention so to do within thirty days after the receipt of the proof of loss herein required.

Abandonment. There can be no abandonment to this Company of any property.

When loss payable. The amount of loss for which this Company may be liable shall be payable sixty days after proof of loss, as herein provided, is received by this Company and ascertainment of the loss is made either by agreement between the insured and this Company expressed in writing or by the filing with this Company of an award as herein provided.

Suit. No suit or action on this policy for the recovery of any claim shall be sustainable in any court of law or equity unless all the requirements of this policy shall have been complied with, and unless commenced within two years next after inception of the loss.

Subrogation. This Company may require from the insured an assignment of all right of recovery against any party for loss to the extent that payment therefor is made by this Company.

[PL 1989, c. 316, §1 (AMD).]

2. The insurer may use an endorsement or rider attached to its printed policy forms used in other states in order, where necessary, to bring the terms of such form into compliance with the above provisions.

[PL 1969, c. 132, §1 (NEW).]

SECTION HISTORY

PL 1969, c. 132, §1 (NEW).

§3007. Cancellation and nonrenewal

1. As used in this section, unless the context indicates otherwise, the following terms have the following meanings.

A. "Cancellation" means termination of a policy at a date other than its expiration date. [PL 1985, c. 671, §2 (NEW).]

B. "Expiration date" means the date upon which coverage under a policy ends. It also means, for a policy written for a term longer than one year or with no fixed expiration date, each annual anniversary date of the policy. [PL 1985, c. 671, §2 (NEW).]

C. "Nonpayment of premium" means the failure or inability of the named insured to discharge any obligation in connection with the payment of premium on a policy of insurance subject to this section, whether the payments are payable directly to the insurer or its agent or indirectly payable under a premium finance plan or extension of credit. [PL 1985, c. 671, §2 (NEW).]

D. "Nonrenewal" means termination of a policy at its expiration date. [PL 1985, c. 671, §2 (NEW).]

E. "Renewal" or "to renew" means the issuance of, or the offer to issue by an insurer or an affiliate of an insurer, a policy succeeding a policy previously issued and delivered by the same insurer or an affiliated insurer or the issuance of a certificate or notice extending the terms of an existing policy for a specified period beyond its expiration date. For purposes of this section, the transfer of a policy from an insurer to an affiliate is considered a policy renewal. [PL 2005, c. 114, §3 (AMD).]

[PL 2005, c. 114, §3 (AMD).]

2. Except as provided by subsection 8, no contract of property insurance may be cancelled by an insurer prior to the expiration of the policy, except for one or more of the following grounds:

- A. Nonpayment of premium; [PL 1985, c. 671, §2 (NEW).]
- B. Fraud or material misrepresentation made by or with the knowledge of the named insured in obtaining the policy, continuing the policy or in presenting a claim under the policy; [PL 1985, c. 671, §2 (NEW).]
- C. Substantial change in the risk which increases the risk of loss after insurance coverage has been issued or renewed, including, but not limited to, an increase in exposure due to regulation, legislation or court decision; [PL 1985, c. 671, §2 (NEW).]
- D. Failure to comply with reasonable loss control recommendations; [PL 1985, c. 671, §2 (NEW).]
- E. Substantial breach of contractual duties, conditions or warranties; or [PL 1985, c. 671, §2 (NEW).]
- F. Determination by the superintendent that the continuation of a class or block of business to which the policy belongs will jeopardize a company's solvency or will place the insurer in violation of the insurance laws of this State or any other state. [PL 1985, c. 671, §2 (NEW).]

The grounds listed in paragraphs A to E shall be contained in all policies issued, issued for delivery or renewed on or after the effective date of this section. Insurers shall have 30 days from the effective date of this section to notify insureds of these grounds for cancellation on policies issued or issued for delivery before the effective date of this section.

[PL 1985, c. 671, §2 (NEW).]

3. If a policy has been issued for a term longer than one year and, for additional premium consideration, a premium has been guaranteed, the insurer may not refuse to renew or increase the policy premium for the term of that policy.

[PL 1985, c. 671, §2 (NEW).]

4. If an insurer offers or purports to renew a contract, but on less favorable terms to the insured or at higher rates, and a higher rating plan, the new terms or rates and rating plan may take effect on the renewal date if the insurer has provided the insured notice as required by this section. If the insurer has not so notified the contract holder, the contract holder may elect to cancel the renewal policy within the 30-day period after receipt of the notice or delivery. Earned premium for the period of coverage for such time as the renewal contract may have been in force shall be calculated pro rata at the lower of the current or previous year's rate. If the insured accepts the renewal, the premium increase, if any, and other changes shall be effective immediately following the prior policy's expiration or anniversary date. This section does not apply if the change is a rate, form or plan filed with the superintendent and applicable to the entire class of business to which the policy belongs or to a premium increase based on the altered nature or extent of the risk insured against.

[PL 1985, c. 671, §2 (NEW).]

5. Cancellation or nonrenewal is not effective until notice is received by the insured as follows.

A. To the extent that section 3002 is applicable, the notice of cancellation shall be given as provided for in that section. If section 3002, is not applicable, cancellation shall not be effective prior to 10 days after receipt by the insured of a notice of cancellation. The notice shall state the effective date of and the reason or reasons for cancellation. [PL 1985, c. 671, §2 (NEW).]

B. Nonrenewal subject to this section is not effective prior to 30 days after receipt of written notice by the insured. Prior to the date of renewal of a policy that has been transferred by an insurer to an affiliate, the insured must receive notice of any changes to the terms of the policy that are less favorable to the insured. [PL 2009, c. 415, Pt. A, §13 (AMD).]

C. A post-office certificate of mailing to the named insured at the named insured's last known address is conclusive proof of receipt of notice on the 3rd calendar day after mailing. [RR 2021, c. 1, Pt. B, §262 (COR).]

[RR 2021, c. 1, Pt. B, §262 (COR).]

6. Any insured who has received a notice of an insurer's intent to cancel a policy may, within 45 days of the receipt of the notice, request a hearing before the superintendent. The purpose of this hearing shall be limited to establishing the existence of the proof or evidence given by the insurer in its notice of cancellation. The burden of proof of the reason for cancellation shall be upon the insurer. The superintendent shall have the authority to order that a policy remain in force both pending and, if the superintendent finds in favor of the insured, subsequent to a hearing. If the superintendent finds in favor of the insurer at a hearing, the superintendent may order the policy to remain in force for 14 days to allow the insured to obtain other coverage.

[PL 1989, c. 172, §6 (AMD).]

7. Except as provided in Title 10, chapter 209-B, no insurer or licensed agent or employee of the insurer may be held liable in any civil action for statements made in a notice of cancellation or nonrenewal or at a hearing held under this section if the statements were made in good faith and, in the case of cancellation, are reasonably related to the grounds for cancellation.

[PL 2013, c. 588, Pt. C, §14 (AMD).]

8. This section does not apply to any insurance policy that has not been previously renewed if the policy has been in effect less than 60 days at the time notice of cancellation is mailed or otherwise delivered, except as provided in subsection 1, paragraph A and subsection 5, paragraphs A and C. This section does not apply to any policy subject to subchapter 5. This section does not apply to any policy issued pursuant to any assigned risk plan. The superintendent may suspend, in whole or in part, the applicability of this section to any insurer if, in the superintendent's discretion, its application will endanger the ability of the insurer to fulfill its contractual obligation.

[PL 2007, c. 188, Pt. C, §8 (AMD).]

9. This section applies to all contracts of property insurance, except surplus lines contracts, delivered or issued for delivery in this State, both before and after the effective date of this section. Provisions in this section relating to nonrenewal of policies shall take effect 30 days after the effective date of this section.

SUBCHAPTER 2

DEPOSIT NOTES

§3020. Policy and deposit note one contract; insolvency; liability of insured; note surrendered

1. A policy of insurance issued by a fire or marine insurer, domestic or foreign, and a deposit note given therefor are one contract. A loss under such policy or other equitable claims may be proved in defense to the note, though it was indorsed or assigned before it was due.

[PL 1969, c. 132, §1 (NEW).]

2. When an insurer becomes insolvent, the maker of the note is only liable for the equitable proportion thereof that accrued during the solvency. If the insolvency occurs within 60 days of the date

of the note, it is void except for the amount of the maker's claim, if any, on the insurer. An insured may not be held to contribute to any losses or expenses beyond the amount of the insured's deposit note. At the expiration of the insured's term of insurance, the insured's note, on payment of all assessments for which it is liable, must be relinquished to the insured, except as provided in section 3021.

§3021. Lien on insured real estate

Any fire insurer shall have a lien against the insured, on the buildings insured and the land appurtenant thereto, for the amount at any time due on the note referred to in section 3020, to commence from the time of the recording of the same, and to continue 60 days after the expiration of the policy on which such note is given, if the insurer causes a certificate of its claim to such lien, signed by the secretary, to be recorded by the register of deeds for the county or district. During the pendency of such lien, an attachment of such property, in a civil action on the note in favor of the insurer, has priority of all other attachments or claims. Execution, when recovered, may be levied on it accordingly. [PL 1969, c. 132, §1 (NEW).]

If the mortgagor, by a writing by the mortgagor signed and filed with the secretary, consents that the whole of the sum secured by the policy, or so much as is required to discharge the amount due on the mortgage at the time when a loss occurs, will be applied to the payment of the mortgage, it must be so paid by the insurer, and the mortgagee's receipt therefor is a sufficient discharge of the insurer. If the insurer assumes the defense, it shall be liable to the plaintiff for costs in the same manner as the principal defendant, defending the action, would be. [PL 1969, c. 132, §1 (NEW).]

No policy may be cancelled except by notice to the insured as provided in this subchapter. No notice of cancellation of a policy shall be effective unless it is based on one or more of the following reasons: [PL 1973, c. 239 (NEW).]

1. Nonpayment of premium, including nonpayment of any additional premiums, calculated in accordance with the current rating manual of the insurer, justified by a physical change in the insured

property or a change in its occupancy or use. A notice of cancellation for nonpayment of premium is not effective unless deemed received under section 3050 after the premium due date;
[PL 2007, c. 188, Pt. C, §9 (AMD).]

2. Conviction of the named insured of a crime having as one of its necessary elements an act increasing any hazard insured against;
[PL 1973, c. 239 (NEW).]

3. Discovery of fraud or material misrepresentation by any one of the following:

[PL 2003, c. 671, Pt. A, §3 (AMD).]

4. Discovery of either:

A. Negligent acts or omissions by the insured substantially increasing any of the hazards insured against; or [PL 2003, c. 671, Pt. A, §4 (NEW).]

B. A failure to disclose a material fact in relation to the application for insurance that would, if coverage is effectuated without knowledge by the insurer, substantially alter the terms of the policy;
[PL 2003, c. 671, Pt. A, §4 (NEW).]

[PL 2003, c. 671, Pt. A, §4 (RPR).]

4-A. Violation of terms or conditions of the policy;
[PL 2015, c. 69, §1 (NEW).]

5. Physical changes in the insured property that result in the property becoming uninsurable;

6. The insured property is vacant and custodial care is not maintained on the property;
[PL 2003, c. 671, Pt. A, §6 (NEW).]

7. The presence of a trampoline on the premises if the insured is notified that the policy will be cancelled if the trampoline is not removed and the trampoline, after notice, remains on the property 30 or more days after the date of notice;
[PL 2003, c. 671, Pt. A, §6 (NEW).]

8. The presence of a swimming pool upon the insured property that is not fenced in, in accordance with the standards established in Title 22, section 1631, if the pool remains in noncompliance with those standards for 30 days after notice by the insurer of the defective condition and intent to cancel the policy;
[PL 2003, c. 671, Pt. A, §6 (NEW).]

9. A loss occasioned by a dog bite, unless, after notice of cancellation or nonrenewal is received, the insured removes the dog; or
[PL 2003, c. 671, Pt. A, §6 (NEW).]

10. Failure to comply with reasonable loss control recommendations within 90 days after notice from the insurer.
[PL 2003, c. 671, Pt. A, §6 (NEW).]

This section does not apply to any policy or coverage that has been in effect less than 90 days at the time notice of cancellation is received by the named insured, or 120 days in the case of residential property that is expected to be continuously unoccupied for 3 months in any 12-month period and that is other than the insured's primary residence, unless it is a renewal policy. An insured does not have the right to a hearing before the Superintendent of Insurance for the purpose of contesting cancellation of a new policy that has been in force less than 90 days or 120 days in the case of residential property

other than the insured's primary residence that is expected to be continuously unoccupied for 3 months in any 12-month period. [PL 2003, c. 671, Pt. A, §7 (AMD).]

This section shall not apply to the nonrenewal of a policy. [PL 1977, c. 414, §1 (NEW).]

"Nonpayment of premium" means failure of the named insured to discharge when due any of the named insured's obligations in connection with the payment of premium on the policy, or any installment of a premium, whether the premium is payable directly to the insurer or its agent or indirectly under any premium finance plan or extension of credit. §3049-A. Transfer on death deed; provision and cancellation of property insurance

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Designated beneficiary" has the same meaning as in Title 18-C, section 6-402, subsection 2. [PL 2021, c. 497, §1 (NEW).]

B. "Insurable interest" has the same meaning as in section 2406, subsection 2. [PL 2021, c. 497, §1 (NEW).]

C. "Policy" means an insurance contract subject to this subchapter. [PL 2021, c. 497, §1 (NEW).]

D. "Transfer on death deed" has the same meaning as in Title 18-C, section 6-402, subsection 6. [PL 2021, c. 497, §1 (NEW).]

E. "Transferor" has the same meaning as in Title 18-C, section 6-402, subsection 7. [PL 2021, c. 497, §1 (NEW).]

[PL 2021, c. 497, §1 (NEW).]

2. Policy to include designated beneficiary. Notwithstanding any provision of law to the contrary, when an insured property passes to a designated beneficiary under a transfer on death deed, any policy covering the insured property must extend to the designated beneficiary, except as provided in this section.

[PL 2021, c. 497, §1 (NEW).]

3. Cancellation. Upon receiving a notice of death affidavit under Title 18-C, section 6-414, the insurer may cancel a policy extended pursuant to this section as if the policy had been in effect for less than 90 days, as provided in section 3049. If the insurer does not receive a notice of death affidavit within 30 days after the transferor's death, the policy is deemed to have been cancelled as of the transferor's death without any further action by the insurer.

[PL 2021, c. 497, §1 (NEW).]

4. Coverage extended. The coverage extension under this section applies only with respect to the premises and property of the transferor.

[PL 2021, c. 497, §1 (NEW).]

5. Proof demanded; policy conditions. Before making any claim payments to a party claiming rights under this section as a designated beneficiary, the insurer may ask for proof that the party is a designated beneficiary under a properly recorded transfer on death deed and that the party has filed a notice of death affidavit under Title 18-C, section 6-414. The designated beneficiary shall comply with the conditions of the policy.

[PL 2021, c. 497, §1 (NEW).]

6. Insurable interest; multiple beneficiaries. A designated beneficiary is not entitled to recover under a policy extended as provided in this section in an amount that would exceed the designated beneficiary's insurable interest at the time of loss or damage. If the transfer on death deed has designated multiple beneficiaries, nothing in this section requires the insurer to pay an amount for loss or damage to the premises and property that exceeds the amount that would be owed to the transferor if the transferor were living at the time of loss or damage.

SECTION HISTORY

PL 2021, c. 497, §1 (NEW).

§3050. Delivery of notice

A notice of cancellation of a policy is not effective unless received by the named insured at least 20 days prior to the effective date of cancellation, or, when the cancellation is for nonpayment of premium, at least 10 days prior to the effective date of cancellation. Like notice must also be given to any party named as mortgagee on the policy. A postal service certificate of mailing to the named insured at the insured's last known address is conclusive proof of receipt on the 5th calendar day after mailing. [PL 2007, c. 188, Pt. C, §10 (AMD).]

Except for a policy that has been in effect for less than 90 days at the time notice of cancellation is received by the named insured, the reason for cancellation must accompany the notice, together with a notice of the right to apply for a hearing before the superintendent within 30 days, as provided in section 3054. [PL 2007, c. 188, Pt. C, §10 (AMD).]

§3051. Notice of intent

An insurer may not fail to renew a policy except by notice to the insured as provided in this subchapter. A notice of intention not to renew is not effective unless received by the named insured at least 30 days prior to the expiration date of the policy. Like notice must also be given to any party named as mortgagee on the policy. A post office certificate of mailing to the named insured at the insured's last known address is conclusive proof of receipt on the 3rd calendar day after mailing. The reason must accompany the notice of intent not to renew, together with notification of the right to apply for a hearing before the superintendent within 30 days as provided. [PL 2007, c. 188, Pt. C, §11 (AMD).]

The reason or reasons for the intended nonrenewal action must accompany the notice of intent not to renew and the reason or reasons must be explicit. Explanations such as "underwriting reasons," "underwriting experience," "loss record," "location of risk," "credit report" and similar insurance terms are not by themselves acceptable explanations of an insurer's intended nonrenewal of a policy insuring property of the kind defined in section 3048. The reason for nonrenewal must be a good faith reason and related to the insurability of the property or a ground for cancellation pursuant to section 3049. [PL 2003, c. 671, Pt. A, §8 (AMD).]

This section does not apply: [PL 2003, c. 671, Pt. A, §8 (AMD).]

1. If the insurer has manifested its willingness to renew;
[PL 2005, c. 114, §6 (AMD).]

2. If the insured fails to pay any premium due or any advance premium required by the insurer for renewal; or

[PL 2005, c. 114, §7 (AMD).]

3. If the insurer has transferred a policy to an affiliate.

[PL 2007, c. 188, Pt. C, §11 (AMD).]

Prior to the date of renewal of a policy that has been transferred by an insurer to an affiliate, the insured must receive notice of any changes to the terms of the policy that are less favorable to the insured. [PL 2007, c. 188, Pt. C, §11 (NEW).]

§3052. Duplicate coverage

If an insured obtains a replacement policy which provides equal or more extensive coverage for any property designated in both policies, the first insurer's coverage of such property may be terminated by failure to renew as of the effective time and date of the replacement policy, whether or not the first insurer complies with all provisions of section 3051. PL 1973, c. 239 (NEW).

§3054. Hearing before Superintendent of Insurance

A named insured who has received a statement of reason for cancellation, or of reason for an insurer's intent not to renew a policy, may, within 30 days of the receipt of a statement of reason, request a hearing before the Superintendent of Insurance. The purpose of this hearing is limited to establishing the existence of the proof or evidence used by the insurer in its reason for cancellation or intent not to renew. The burden of proof of the reason for cancellation or intent not to renew is on the insurer. If an insurer's reason for nonrenewal is not based on a ground for cancellation permitted under section 3049, the insurer must provide proof or evidence that the reason for nonrenewal is a good faith reason and related to the insurability of the property. A statement from the insurer that the risk does not meet the insurer's underwriting guidelines alone is not considered sufficient proof or evidence. The superintendent shall adopt rules for carrying out this section. The superintendent may order the policy to continue in effect both pending and, if the superintendent finds in favor of the insured, subsequent to a hearing. If the superintendent finds in favor of the insurer at a hearing, the superintendent may order the policy to remain in force for 14 days to allow the insured to obtain other coverage. §3055-A. Discontinuance of a line of business

If an insurer files a plan with the superintendent to discontinue business in a line of insurance subject to this subchapter, the superintendent may authorize the nonrenewal of policies in that line of business if the plan filed by the insurer demonstrates the availability of substantially similar coverage in the admitted market. The nonrenewal of a policyholder pursuant to this section may not be considered by an insurer in future coverage determinations. An insurer may resume transacting business in a line of insurance discontinued pursuant to this section upon written notification to the superintendent. [PL 2005, c. 49, §2 (AMD).]

A. The statements were made in good faith; [PL 1979, c. 112, §2 (NEW).]

B. The statements are reasonably related to the reason for cancellation or intent not to renew; and [PL 1979, c. 112, §2 (NEW).]

SECTION HISTORY

PL 2003, c. 671, §A10 (NEW).

§3059. Insurer valuation of property; increase in premium; notice

1. Increase in valuation. If an insurer determines that the stated insured value of a property covered by a policy subject to this subchapter should be increased to depict more accurately its current value and the increase in valuation will result in an increase in premium for the policy, then the increase in the stated insured value and the corresponding increase in premium may be implemented only at the time of renewal.

[PL 2003, c. 671, Pt. A, §10 (NEW).]

2. Notice. If an insurer increases the stated insured value in accordance with subsection 1, then the insurer must provide notice to the named insured on the policy at least 30 days prior to the effective date of the renewal policy stating the reason for the increase in premium and the amount of premium increase associated with the increase in valuation. The notice also must state that upon written request by the named insured the insurer will disclose the specific reasons and specific property characteristics that contributed to the resulting increase in stated value.

[PL 2003, c. 671, Pt. A, §10 (NEW).]

3. Exemptions. This section does not apply to routinely scheduled increases in valuation under the policy based on inflation or to increases in the stated insured value of a property agreed to by the insured.

§3060. Insurance coverage for family child care providers

1. Evidence of business liability insurance. An insurer may not refuse to issue or renew a policy covering the primary residence of a family child care provider licensed under Title 22, section 8301-A, subsection 3 or cancel such policy within the first 90 days of coverage unless the denial of coverage or cancellation is based solely on underwriting factors other than the presence of a family child care business on the premises if the family child care provider has demonstrated satisfactory evidence that the child care business is covered by separate insurance coverage for business liability, including medical payments coverage equivalent to coverage in the policy. For purposes of cancellation or nonrenewal under section 3049 or 3051, an insurer may not treat the presence of the family child care business activity as a factor related to the insurability of the primary residence of a family child care provider licensed under Title 22, section 8301-A, subsection 3 if the family child care provider has demonstrated satisfactory evidence that the child care business is covered by separate insurance coverage for business liability in accordance with this subsection.

[PL 2021, c. 35, §31 (AMD).]

2. No liability under property insurance policy. An insurer has no duty to defend or indemnify a family child care provider licensed under Title 22, section 8301-A, subsection 3 under a policy covering the primary residence of a family child care provider issued by the insurer if:

A. The loss or damage for which the family child care provider is liable or alleged to be liable arises in whole or in part from the family child care business activity; [PL 2009, c. 185, §1 (NEW).]

B. The policy issued by the insurer expressly excludes that loss or damage arising from the family child care business activity; [PL 2009, c. 185, §1 (NEW).]

C. The family child care provider has demonstrated satisfactory evidence of separate insurance coverage for child care business liability in accordance with subsection 1; and [PL 2009, c. 185, §1 (NEW).]

D. The insurer issuing the policy covering the primary residence has disclosed to the family child care provider that failure to maintain separate insurance coverage for child care business liability might result in cancellation or nonrenewal of the policy covering the primary residence and that the child care business activity is excluded under the policy. [PL 2009, c. 185, §1 (NEW).]

[PL 2021, c. 35, §32 (AMD).]

3. Effect of cancellation or nonrenewal of business liability policy. If a family child care provider has demonstrated satisfactory evidence of separate insurance coverage for child care business liability to the insurer as provided in subsection 2, paragraph C, the insurer issuing the policy covering the primary residence continues to have no duty to defend if the insurance policy for child care business liability is cancelled or nonrenewed during the term of the policy covering the primary residence. A pet insurance policy, certificate or rider must have a notice prominently printed on or attached to the first page including specific instructions for returning a policy. The following statement or language substantially similar to the following statement must be included:

You do not have to tell the company why you are returning it. If you decide not to keep it, simply return it to the company at its administrative office or you may return it to the insurance producer that you bought it from as long as you have not filed a claim. You must return it within 15 days of the day you first received it. The company will refund the full amount of any premium paid within 30 days after it receives the returned policy, certificate or rider. 4. Use of benefit schedule. An insurer that uses a benefit schedule to determine claim payments under a pet insurance policy shall:

A. Clearly disclose the applicable benefit schedule in the policy; and [PL 2021, c. 562, §1 (NEW).]

B. Disclose all benefit schedules used by the insurer under its pet insurance policies through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website. [PL 2021, c. 562, §1 (NEW).]

5. Fees. An insurer that determines claim payments under a pet insurance policy based on usual and customary fees, or any other reimbursement limitation based on prevailing veterinary expenses, shall:

B. Disclose the insurer's basis for determining usual and customary fees through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website. [PL 2021, c. 562, §1 (NEW).]

6. Medical examination. If a medical examination by a licensed veterinarian is required to effectuate coverage under a pet insurance policy, the insurer shall clearly and conspicuously disclose the required aspects of the examination prior to purchase and disclose that documentation of the examination may result in a preexisting condition exclusion.

[PL 2021, c. 562, §1 (NEW).]

7. Waiting period. A waiting period and any applicable requirements for that waiting period must be clearly and prominently disclosed to consumers prior to the pet insurance policy purchase.

[PL 2021, c. 562, §1 (NEW).]

8. Summary of policy provisions. An insurer shall include a summary of all policy provisions required in this section in a separate document titled "Insurer Disclosure of Important Policy Provisions." The insurer shall post the "Insurer Disclosure of Important Policy Provisions" document required in this subsection through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website. In connection with the issuance of a new pet insurance policy, the insurer shall provide the consumer with a copy of the "Insurer Disclosure of Important Policy Provisions" document required in this subsection in at least 12-point type upon delivery of the policy.

[PL 2021, c. 562, §1 (NEW).]

9. Written disclosure. At the time a pet insurance policy is issued or delivered to a policyholder, the insurer shall include a written disclosure with the following information, printed in 12-point boldface type:

SECTION HISTORY

PL 2021, c. 562, §1 (NEW).

§3156. Policy conditions

1. Exclusion. An insurer may issue a pet insurance policy that excludes coverage on the basis of one or more preexisting conditions with appropriate disclosure to the consumer. The insurer has the

burden of proving that the preexisting condition exclusion applies to the condition for which a claim is being made.

[PL 2021, c. 562, §1 (NEW).]

2. Waiting periods. An insurer may issue a pet insurance policy that imposes a waiting period upon effectuation of the policy as long as that waiting period does not exceed 30 days for illnesses or orthopedic conditions not resulting from an accident. A waiting period for illnesses or orthopedic conditions resulting from an accident is prohibited. An insurer may not impose a waiting period on the renewal of existing coverage. An insurer imposing a waiting period as permitted by this subsection shall include a provision in the pet insurance policy contract that allows the waiting period to be waived upon completion of a medical examination. An insurer may require the examination to be conducted by a licensed veterinarian after the purchase of the policy. A medical examination conducted pursuant to this subsection must be paid for by the policyholder, unless the policy specifies that the insurer will pay for the examination. An insurer may specify elements to be included as part of the examination and require documentation of the elements, as long as the specifications do not unreasonably restrict a consumer's ability to waive the waiting period.

[PL 2021, c. 562, §1 (NEW).]

3. Renewal. An insurer may not require a veterinary examination of the covered pet for the insured to have the pet insurance policy renewed. A condition for which coverage is afforded on a policy may not be considered a preexisting condition on any renewal of the policy.

[PL 2021, c. 562, §1 (NEW).]

4. Other benefits. If an insurer includes any prescription, wellness or noninsurance benefits in the pet insurance policy form, those benefits become part of the pet insurance policy contract and the provision of those benefits must follow all applicable laws in this Title and any rules adopted pursuant to those laws.

[PL 2021, c. 562, §1 (NEW).]

5. Participation in wellness program. An insurer may not condition a person's eligibility to purchase a pet insurance policy on participation, or lack of participation, in a separate wellness program.

[PL 2021, c. 562, §1 (NEW).]

SECTION HISTORY

PL 2021, c. 562, §1 (NEW).

§3157. Wellness programs

1. Marketing. An insurer or insurance producer may not:

A. Market a wellness program as pet insurance; or [PL 2021, c. 562, §1 (NEW).]

B. Market a wellness program during the sale, solicitation or negotiation of pet insurance. [PL 2021, c. 562, §1 (NEW).]

[PL 2021, c. 562, §1 (NEW).]

2. Sale of wellness program. If a wellness program is sold by an insurer or insurance producer, the following requirements apply:

A. The purchase of a wellness program may not be a requirement of the purchase of pet insurance; [PL 2021, c. 562, §1 (NEW).]

B. The costs of a wellness program must be separate and identifiable from any pet insurance policy sold by an insurer or insurance producer; [PL 2021, c. 562, §1 (NEW).]

C. The terms and conditions for a wellness program must be separate from any pet insurance policy sold by an insurer or insurance producer; [PL 2021, c. 562, §1 (NEW).]

D. The products or coverages available through a wellness program may not duplicate products or coverages available through the pet insurance policy; and [PL 2021, c. 562, §1 (NEW).]

E. The advertising of a wellness program may not be misleading and must differentiate the wellness program from pet insurance. [PL 2021, c. 562, §1 (NEW).]

[PL 2021, c. 562, §1 (NEW).]

3. Disclosure. An insurer or insurance producer shall clearly disclose the following to consumers of wellness program products, printed in 12-point boldface type:

A. That wellness programs are not insurance; [PL 2021, c. 562, §1 (NEW).]

B. The bureau's mailing address and toll-free telephone number and a link to the bureau's publicly accessible website; and [PL 2021, c. 562, §1 (NEW).]

C. The address and customer service telephone number of the insurer or the producer of record. [PL 2021, c. 562, §1 (NEW).]

[PL 2021, c. 562, §1 (NEW).]

4. Wellness benefits. Any coverages included in a pet insurance policy contract described as "wellness benefits" are considered insurance. If a wellness program undertakes to indemnify another party, pays a specified amount upon determinable contingencies or provides coverage for a fortuitous event, it is transacting the business of insurance and is subject to the requirements of this Title, except that a contract directly between a service provider and a pet owner that involves only those 2 parties is not transacting the business of insurance unless other indications of insurance also exist.

A. Preexisting conditions and waiting periods; [PL 2021, c. 562, §1 (NEW).]

§3202. Closing protection letters

1. Title insurer may issue closing or settlement protection. A title insurer may issue closing or settlement protection on a form of closing protection letter approved by the superintendent pursuant to section 2412. Only a buyer, borrower or lender that is a party to a transaction in which a title insurance policy will be issued by or on behalf of the title insurer issuing the closing or settlement protection is eligible to receive the benefit of closing or settlement protection. Closing or settlement protection issued pursuant to this subsection must benefit each buyer, borrower and lender that is a party to the transaction for which that closing or settlement protection is issued.

The closing or settlement protection issued pursuant to subsection 1 may indemnify a buyer, borrower or lender against loss because of one of the following acts of a policy-issuing title insurance agent or other settlement service provider under the terms and conditions of the closing protection letter as issued by the title insurer:

A. Theft or misappropriation of settlement funds in connection with a transaction, but only to the extent that the theft relates to the status of the title to an insured interest in land or to the validity, enforceability and priority of the lien of the mortgage on an insured interest in land; and [PL 2013, c. 233, §1 (NEW).]

SUBCHAPTER 2

PROVISIONS APPLYING ONLY TO MUTUAL INSURERS

§3352. Mutual insurers, initial qualifications

1. When hereafter newly organized, a mutual insurer may be authorized to transact any one of the kinds of insurance listed in the schedule contained in subsection 2 or any combination of such kinds as provided in subsection 3.

[PL 1969, c. 132, §1 (NEW).]

2. When applying for an original certificate of authority, the insurer must be otherwise qualified therefor under this Title, and must have received and accepted bona fide applications as to substantial insurable subjects for insurance coverage of a substantial character of the kind of insurance proposed to be transacted, must have collected in cash the full premium therefor at a rate not less than that usually charged by other insurers for comparable coverages, must have surplus funds on hand and deposited as of the date such insurance coverages are to become effective, or, in lieu of such applications, premiums and surplus, may deposit and thereafter maintain surplus, all in accordance with that part of the following schedule which applies to each kind of insurance the insurer proposes to transact:

| (A) Kind of Ins. | (B) Min. No. of Apps. Accepted | (C) Min. No. Subjects Covered | (D) Minimum Premium Collected | (E) Minimum Amount Ins. Ea. Subject | (F) Maximum Amount Ins. Ea. Subject (5) | (G) Deposit Minimum Surplus Fund (6) | (H) Deposit Surplus in Lieu (7) |
|------------------------|---|--|--|--|---|--|--|
| Life (1) | 500 | 500 | Annual | \$2,500 | \$50,000 | \$1,000,000 | \$1,250,000 |
| Health (2) | 500 | 500 | Quarterly | 100 (wkly. indem.) | 300 (wkly. indem.) | 500,000 | 750,000 |

| | | | | | | | |
|-----------------|-----|-----|--------|--------|---------|---------|-----------|
| Property (3) | 100 | 250 | Annual | 10,000 | 100,000 | 500,000 | 750,000 |
| Casualty (4) | 250 | 500 | Annual | 25,000 | 100,000 | 750,000 | 1,000,000 |

The following provisions are respectively applicable to the foregoing schedule and provisions as indicated by like numerals appearing in such schedule.

- (1) No group insurance or term policies for terms of less than 10 years may be included.
- (2) No group, blanket or family plans of insurance may be included. In lieu of weekly indemnity, a like premium value in medical, surgical and hospital benefits may be provided. Any accidental death or dismemberment benefit provided shall not exceed \$15,000.
- (3) Only insurance of the owner's interest in real property may be included.
- (4) Such insurance must include coverage of legal liability for bodily injury and property damage, to which the maximum and minimum insured amounts apply.
- (5) The maximums provided for in column (F) are net of applicable reinsurance.
- (6) The deposit of surplus in the amount specified in columns (G) and (H) must thereafter be maintained unimpaired. The deposit is subject to chapter 15 (administration of deposits).
- (7) Deposit surplus, when utilized, in lieu of the alternative procedure of accepting deposit application funds shall be in those amounts enumerated for each identified kind of insurance.

Expendable surplus: In addition to surplus deposited and thereafter to be maintained as shown in columns (G) or (H), the insurer when first authorized must have on hand surplus funds, which it can thereafter expend in the conduct of its business, in amount not less than 50% of the applicable deposited and maintained surplus required of it under the schedule set up in this subsection.

Notwithstanding the requirements for expendable surplus otherwise required by this section for newly organized insurance companies seeking a certificate of authority in this State, any such insurer may transact legal services insurance, to the extent provided for in chapter 38, without additional expendable funds, if the corporation is otherwise qualified for a certificate of authority to transact the business of health, life and health or multiple lines insurance, and possesses and thereafter maintains, in addition to the amounts enumerated in the table in this subsection, an additional amount of unimpaired basic surplus of not less than \$500,000.

[PL 1983, c. 801, §12 (AMD).]

3. An insurer may initially qualify for authority to transact both life and health insurances by fulfilling the foregoing requirements as to each such kind of insurance; and may in like manner initially qualify for authority to transact both property and casualty insurance. An insurer shall not, however, so qualify to transact any other combination of such insurances, except as provided in section 3357.

[PL 1969, c. 132, §1 (NEW).]

4. Domestic mutual insurers, possessing a certificate of authority to conduct business solely on an assessment plan upon the effective date of this subsection, and newly organized assessment plan mutual insurers authorized after the effective date of this subsection shall be governed as to surplus funds requirements by the provisions of chapter 51.

Before soliciting any applications for insurance required under section 3352 as qualification for the original certificate of authority, the incorporators of the proposed insurer shall file with the superintendent a corporate surety bond in the penalty of \$15,000, in favor of the State and for the use and benefit of the State and of applicant members and creditors of the corporation. The bond must be conditioned in the event the corporation fails to complete its organization and secure a certificate of authority within one year after the date of its articles of incorporation:

A. For the prompt return to applicant members of all premiums collected in advance; [PL 1969, c. 132, §1 (NEW).]

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. All such applications shall be in writing signed by the applicant, covering subjects of insurance resident, located or to be performed in this State.

The corporation shall file an executed copy of such trust agreement with the superintendent.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

§3357. Authority to transact additional kinds of insurance

After being authorized to transact one kind or combination of kinds of insurance as provided in section 3352, a mutual insurer may be authorized by the superintendent to transact such additional kinds of insurance as are permitted under section 409 (combinations of insuring powers), while otherwise in compliance with this Title and while maintaining unimpaired surplus and guaranty capital funds in an amount not less than the amount of paid-in capital stock required to be maintained by a like domestic stock insurer transacting the same kinds of insurance. SECTION HISTORY

PL 1969, c. 132, §1 (NEW). PL 1973, c. 585, §12 (AMD).

§3358. Guaranty capital shares

1. A mutual insurer formed to transact or transacting any kind of insurance has the right to provide for guaranty capital shares in its articles of incorporation. Outstanding guaranty capital shares at the par value take the place of a like amount of basic surplus otherwise required for authority to transact insurance.

[PL 2013, c. 299, §9 (AMD).]

2. Shares of guaranty capital stock shall have a par value of \$100 each, and shall be paid for in cash. Nothing in this Title shall be deemed to prohibit the sale of such shares at a price above such par value in order to provide the insurer with capital surplus.

[PL 1969, c. 132, §1 (NEW).]

3. Only one class of such guaranty capital shares shall be provided for, and each such share outstanding shall have equal voting, dividend, retirement and other rights with every other such share. Each such share shall have one vote on matters coming to a vote at meetings of the insurer's shareholders and members. Policyholders of the insurer shall have the same voting rights as would exist in the absence of such guaranty capital.

[PL 1969, c. 132, §1 (NEW).]

4. Noncumulative dividends, not exceeding in any one year 12% or lesser reasonable amount as determined by prevailing rates for loans of similar risk characteristics at the time the shares are issued, may be declared and paid by the insurer on outstanding guaranty capital shares out of that portion of the insurer's expendable surplus representing net realized earnings from its operations; and may be so paid even though the amount of the insurer's expendable surplus is then less in amount than any prior total of expendable contributed, borrowed or paid-in surplus. Such a dividend may be paid in cash or in guaranty capital shares, or part in each. An amount equal to the par value of shares so distributed as dividend shall be transferred from the insurer's earned surplus account to its guaranty capital shares account.

[PL 1981, c. 501, §44 (AMD).]

5. If the guaranty capital becomes impaired, the impairment shall be cured as provided in section 3423 (impairment of capital funds).

[PL 1969, c. 132, §1 (NEW).]

6. The insurer shall retire and cancel the guaranty capital shares, in part and in whole as soon as is reasonably possible, out of expendable surplus resulting from net realized earnings from its operations, or out of surplus created through issuance of agreements authorized by section 3415. The insurer shall retire and cancel the guaranty capital shares in their entirety when such retirement would, in the superintendent's opinion, leave the insurer with surplus as to policyholders reasonably adequate to enable it to continue to transact the kinds and volume of insurance business transacted.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

7. In any liquidation of the insurer, outstanding guaranty capital shares shall have the same rights and priority as to the insurer's assets as are possessed by the stockholders of a like stock insurer.

[PL 1969, c. 132, §1 (NEW).]

3. The insurer shall promptly file with the superintendent a copy, certified by the insurer's secretary, of its bylaws and of every modification thereof or addition thereto. The superintendent shall disapprove any bylaw provision deemed by him, after a hearing held thereon, to be unlawful, unreasonable, inadequate, unfair or detrimental to the proper interests or protection of the insurer's members or any class thereof. §3364. Contingent liability of members

1. Except as provided otherwise in section 3367 with respect to nonassessable policies, each member of a domestic mutual insurer has a contingent liability, pro rata and not one for another, for the discharge of its obligations, which contingent liability may not be greater than 6 times the annual premium for the member's policy at the annual premium rate, as is specified in the insurer's articles of incorporation or bylaws.

[PL 2013, c. 299, §10 (AMD).]

2. Every policy issued by the insurer shall contain a plain and legible statement of the contingent liability upon either the face or back thereof.

[PL 1969, c. 132, §1 (NEW).]

3. Termination of the policy of any such member does not relieve the member of contingent liability for the member's proportion of the obligations of the insurer that accrued while the policy was in force.

[RR 2021, c. 1, Pt. B, §268 (COR).]

4. Unrealized contingent liability of members does not constitute an asset of the insurer in any determination of its financial condition.

§3365. Levy of contingent liability

1. If at any time the assets of a domestic mutual insurer are less than its liabilities, exclusive of guaranty capital shares, if any, at par value, and the minimum amount of surplus required to be maintained by it under this Title for authority to transact the kinds of insurance being transacted, and the deficiency is not cured from other sources, its directors may, if the same is approved by the

superintendent as being reasonable and in the best interests of the insurer and its members, levy an assessment only on its members who held the policies providing for contingent liability at any time within the 12 months next preceding the date the levy was authorized by the board of directors, and such members shall be liable to the insurer for the amount so assessed.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. The levy of assessment shall be for such an amount as is required to cure such deficiency and to provide a reasonable amount of working funds above such minimum amount of surplus, but such working funds so provided shall not exceed 5% of the sum of the insurer's liabilities and such minimum required surplus as of the date of the levy.

[PL 1969, c. 132, §1 (NEW).]

3. As to the respective policies subject to the levy, the assessment shall be computed upon the basis of premium earned during the period covered by the levy.

[PL 1969, c. 132, §1 (NEW).]

4. A member may not have an offset or counterclaim against any assessment for which the member is liable, on account of any claim for unearned premium or loss payable.

[RR 2021, c. 1, Pt. B, §269 (COR).]

5. As to life insurance, any part of such an assessment upon a member which remains unpaid following notice of assessment, demand for payment, and lapse of a reasonable waiting period as specified in such notice, may, if approved by the superintendent as being in the best interests of the insurer and its members, be secured by placing a lien upon the cash surrender values and accumulated dividends held or to be held by the insurer to the credit of the member's policy.

§3366. Enforcement of contingent liability

1. The insurer shall notify each member of the amount of assessment to be paid, and the date, not less than 20 days after mailing date, by which payment is to be made, by written notice mailed to the member at the member's address last of record with the insurer. Failure of the member to receive the notice so mailed, within the time specified therein for the payment of the assessment or at all, is not a defense in any action to collect the assessment.

[RR 2021, c. 1, Pt. B, §270 (COR).]

2. If a member fails to pay the assessment within the period specified in the notice, the insurer may institute suit to collect the same.

§3367. Nonassessable policies; limits of assessability; use of funds; combination operation

1. A domestic mutual insurer may extinguish the contingent liability to assessment of its members as to cash premium plan policies in force and may omit provisions imposing contingent liability in such policies currently issued while it has and maintains surplus, as determined by its financial statement filed with the superintendent as of the year end next preceding, of not less than \$100,000 as to an insurer formed prior to January 1, 1968, and of not less than \$200,000 as to an insurer formed after January 1, 1968.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. If the insurer after qualifying to issue such a nonassessable policy fails to maintain the applicable above requirement, it shall cease to issue nonassessable policies until it has again met and maintained the requirement for a period of one year.

[PL 1969, c. 132, §1 (NEW).]

3. Any assessment levied under the contingent liability provisions of the policy shall be for the exclusive benefit of the holders of policies subject to contingent liability, and such policyholders shall not be liable to assessment in an amount greater in proportion to the total deficiency than the ratio that the deficiency attributable to the contingently liable business bears to the total deficiency. An assessment shall apply only to the holders of the type of policy or plan under which the deficiency occurred, and funds received from the assessment shall be for the exclusive benefit of such holders.

[PL 1969, c. 132, §1 (NEW).]

4. Nothing in this chapter shall be deemed to prohibit a domestic mutual insurer formed prior to January 1, 1968 from at any one time transacting, in respective departments or divisions of its operations, insurance business on any two or all of the following bases:

A. Cash premium plan, without contingent liability to assessment, and issuance of nonassessable policies if qualified therefor as above provided in this section; [PL 1969, c. 132, §1 (NEW).]

1. Every domestic insurer shall have and maintain its principal place of business and home office in this State, and shall keep therein accurate and complete accounts and records of its assets, transactions and affairs in accordance with the usual and accepted principles and practices of insurance accounting and record keeping as applicable to the kinds of insurance transacted by the insurer.

[PL 1969, c. 132, §1 (NEW).]

2. Every domestic insurer shall have and maintain its assets in this State, except as to:

A. Real property and personal property appurtenant thereto lawfully owned by the insurer and located outside this State; [RR 2015, c. 1, §29 (COR).]

C. United States public obligations and other corporate securities for which definitive certificates have not been issued, but are issued through the book-entry systems of federal reserve banks or depository trust companies. Insurers investing in securities in book-entry form shall make available at the time of examination the following:

(1) A copy of the custodial or safekeeping agreement entered into by the insurer and the custodian, a state-chartered bank, a member bank of the federal reserve system or a depository trust company if the deposit was made directly to the entity, which sets forth the provisions for

the use of the book-entry securities on behalf of the insurer by the custodian. The agreement shall provide for a standard of responsibility on the part of the custodian which shall be the responsibility of a bailee for hire under the law of the jurisdiction of the custodian's state of domicile. The agreement shall provide that the securities held by the custodian are subject to the instructions of the insurer and may be withdrawn immediately upon demand of the insurer; and

(2) Affidavits evidencing ownership of the book-entry securities signed by a responsible official of the custodian and stating that the custodian is holding the securities for the insurer pursuant to the terms of the custodial agreement. These book-entry securities shall be treated as "admitted assets" of the insurer on production of the affidavit.

The required custodial agreement and affidavit shall conform to such standards as may be prescribed from time to time by the Superintendent of Insurance. [PL 1981, c. 501, §47 (NEW).] [RR 2015, c. 1, §29 (COR).]

No person shall remove all or a material part of the records or assets of a domestic insurer from this State, except pursuant to a plan of merger, consolidation or bulk reinsurance approved by the superintendent under this Title, or for such reasonable purposes and periods of time as may be approved by the superintendent in writing in advance of such removal, or conceal such records or assets or such material part thereof from the superintendent. Any person who removes or attempts to remove such records of assets or such material part thereof from the home office or other place of business or of safekeeping of the insurer in this State with the intent to remove the same from this State, or who conceals or attempts to conceal the same from the superintendent, in violation of this section, shall upon conviction thereof be guilty of a felony, punishable by a fine of not more than \$10,000 or by imprisonment for not more than 5 years, or by both in the discretion of the court. Upon any removal or attempted removal of such records of assets, or upon retention of such records or assets or material part thereof outside this State, beyond the period therefor specified in the superintendent's consent under which the records were so removed thereat, or upon concealment of or attempt to conceal records or assets in violation of this section, the superintendent may institute delinquency proceedings against the insurer pursuant to chapter 57.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. This section shall not be deemed to prohibit or prevent an insurer from:

A. Establishing and maintaining regional home offices or branch offices in other states or countries where necessary or convenient to the transaction of its business, and keeping therein the detailed records and assets customary and necessary for the servicing of its insurance in force and affairs in the territory served by such an office, as long as such records and assets are made readily available at such office for examination by the superintendent at the superintendent's request; [RR 2021, c. 1, Pt. B, §271 (COR).]

B. Having, depositing or transmitting funds and assets of the insurer in or to jurisdictions outside of this State required by the law of such jurisdiction or as reasonably and customarily required or convenient in the regular course of its business. [PL 1969, c. 132, §1 (NEW).]

§3409. Vouchers for expenditures

1. No insurer shall make any disbursement of \$50 or more, unless such disbursement is evidenced by a voucher or other document correctly describing the consideration for the payment and supported by a check or receipt endorsed or signed by or on behalf of the person receiving the money, or made

through an electronic or wire funds transfer system supported by accurate records identifying the payor, payee, date of electronic or wire transfer payment, and the nature of the disbursement so made.

The insurer may so destroy its closed files relating to losses and claims arising under its policies after the first to occur of the following events:

A. Completion of a regular examination of the insurer by the superintendent and to which the closed file was subject; or [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

[RR 2021, c. 1, Pt. B, §272 (COR).]

The contract shall become effective in accordance with its terms unless disapproved by the superintendent within 20 days after date of filing, subject to such reasonable extension of time as the superintendent may require by notice given within such 20 days. Any disapproval shall be delivered to the insurer in writing stating the grounds therefor.

2. Any such contract shall provide that any such manager, producer of its business or contract holder shall within 90 days after expiration of each calendar year furnish the insurer's board of directors a written statement of amounts received under or on account of the contract and amounts expended thereunder during such calendar year, with specification of the emoluments received therefrom by the respective directors, officers and other principal management personnel of the manager or producer, and with such classification of items and further detail as the insurer's board of directors may reasonably require.

D. Contains any other inequitable provision or provisions that impair the proper interests of stockholders or members of the insurer. [RR 2021, c. 1, Pt. B, §275 (COR).]

[RR 2021, c. 1, Pt. B, §275 (COR).]

4. The superintendent may, after a hearing held thereon, disapprove any such contract theretofore permitted to become effective, if the superintendent finds that the contract should be disapproved on any of the grounds referred to in subsection 3.

[RR 2021, c. 1, Pt. B, §276 (COR).]

5. This section does not apply as to contracts entered into prior to January 1, 1970, or to amendment of such contracts other than extensions thereof.

[PL 1973, c. 625, §149 (AMD).]

6. This section may not be construed to prohibit receipt of commissions on insurance written personally by a director or officer who is duly licensed and regularly engaged in business as an insurance agent or broker; or to prohibit receipt of vested commissions by a director or officer based upon insurance business theretofore written by the director or officer.

§3415. Borrowed capital funds

1. A domestic stock or mutual insurer may borrow money to defray the expenses of its organization, provide it with surplus funds or for any purpose of its business, upon a written agreement that such money is required to be repaid only out of the insurer's surplus in excess of that stipulated in the agreement. The agreement may provide for interest not exceeding, per annum, a rate of 5 percentage points in excess of the then current discount rate of the Federal Reserve Bank, Boston, which interest shall or shall not constitute a liability of the insurer as to its funds other than such excess of surplus as stipulated in the agreement. No commission or promotion expense may be paid in connection with any such loan, except that if sale is made of the loan securities through established securities brokers or by public offering, the insurer may pay the reasonable costs thereof approved by the superintendent.
[PL 1983, c. 709, §4 (RPR).]

2. Money so borrowed, together with the interest thereon if so stipulated in the agreement, shall not form a part of the insurer's legal liabilities except as to its surplus in excess of the amount thereof stipulated in the agreement, or be the basis of any set-off or counterclaim; but until repaid, financial statements filed or published by the insurer shall show as a footnote thereto the amount thereof then unpaid together with any interest thereon accrued but unpaid.
[PL 1969, c. 132, §1 (NEW).]

3. Any such loan is subject to the superintendent's approval. The insurer shall, in advance of the loan, file with the superintendent a statement of the purpose of the loan and a copy of the proposed loan agreement. The loan and agreement must be deemed approved unless within 15 days after date of such filing the insurer is notified of the superintendent's disapproval and the reasons therefor. The superintendent shall disapprove any proposed loan or agreement if the superintendent finds the loan is unnecessary or excessive for the purpose intended, or that the terms of the loan agreement are not fair and equitable to the parties and to other similar lenders, if any, to the insurer, or that the information so filed by the insurer is inadequate.
[RR 2021, c. 1, Pt. B, §278 (COR).]

4. Any such loan to an insurer or substantial portion thereof may be repaid by the insurer when no longer reasonably necessary for the purpose originally intended. No repayment of such a loan, whether heretofore or hereafter outstanding shall be made, other than as provided in the loan agreement, unless approved in advance by the superintendent.
[PL 1969, c. 177, §58 (AMD); PL 1973, c. 585, §12 (AMD).]

5. This section shall not apply to other kinds of loans obtained by the insurer in ordinary course of business, or to loans secured by pledge or mortgage of assets.
[PL 1969, c. 132, §1 (NEW).]

6. Loans authorized under this section may be made by domestic insurers as well as by other persons; but such a loan shall not constitute an asset in any determination of the financial condition of the lending insurer.

§3416. Dividends to stockholders

1. A domestic stock insurer shall not pay any cash dividend to stockholders except out of that part of its available and accumulated surplus funds which is derived from realized net operating profits on its business and net realized capital gains.

[PL 1969, c. 132, §1 (NEW).]

2. A cash dividend otherwise lawful may be payable out of the insurer's earned surplus even though its total surplus is then less than the aggregate of its past contributed or paid-in surplus.

[PL 1969, c. 132, §1 (NEW).]

3. A stock dividend may be paid out of any available surplus funds, other than "surplus" resulting from borrowed capital funds such as provided for under section 3415.

§3417. Participating policies

1. If provided for in its articles of incorporation, certificate of organization or charter, a stock insurer or mutual insurer may issue any or all of its policies or contracts with or without participation in profits, savings, unabsorbed portions of premiums or surplus; may classify policies issued and perils insured on a participating and nonparticipating basis; and may determine the right to participate and the extent of participation of any class or classes of policies. Any such classification or determination must be reasonable, and may not unfairly discriminate as between policies so classified.

[PL 2013, c. 299, §12 (AMD).]

2. A life insurer may issue both participating and nonparticipating policies or contracts if the right or absence of right to participate is reasonably related to the premium charged.

[PL 1969, c. 132, §1 (NEW).]

3. After the first policy year, no dividend, otherwise earned under a life or health insurance policy or annuity contract, shall be made contingent upon the payment of renewal premium on any such policy or contract; except that a participating life or health insurance policy providing for participation at the end of the first or second policy year may provide that the dividend or dividends will be paid subject to payment of premium for the next ensuing year.

The directors of a domestic mutual insurer may from time to time apportion and pay or credit to its members dividends only out of that part of its accumulated surplus funds which represents net realized savings, net realized earnings and net realized capital gains, all in excess of the surplus required by law to be maintained by the insurer.

[PL 1969, c. 132, §1 (NEW).]

2. A dividend otherwise proper may be payable out of such savings, earnings and gains even though the insurer's total surplus is then less than the aggregate of contributed surplus remaining unpaid by the insurer.

[PL 1969, c. 132, §1 (NEW).]

3. A domestic stock insurer may pay dividends to holders of its participating policies out of any available surplus funds.

[PL 1969, c. 132, §1 (NEW).]

§3419. Pension and other plans for employees and others

1. Pursuant to the terms of a pension plan or plans or any modification thereof, heretofore or hereafter adopted by the insurer's board of directors and approved by the superintendent, any domestic stock or mutual insurer may pay the whole or any part of the cost of retirement or disability pensions for such of its officers, employees or full-time insurance agents as are specified in such plan or plans or modifications thereof. If so specified in the plan or plans, in lieu of such pensions actuarially equivalent benefits may be paid to such officers, employees or full-time agents or to their designated beneficiaries.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. The superintendent shall approve any such plan unless the superintendent finds the same not to be within the reasonable financial resources of the insurer or not fair and equitable as between the respective classifications of participants therein.

[RR 2021, c. 1, Pt. B, §279 (COR).]

3. Nothing contained in this section or in section 3420 shall be deemed to prohibit profit-sharing, stock option or similar plans for an insurer's officers, employees or agents.

§3420. Insurance benefits for employees and others

Pursuant to vote of its board of directors heretofore or hereafter made, any domestic stock or mutual insurer may provide for its officers, employees or full-time insurance agents a plan or plans of insurance, to be issued under group or individual policies. The insurer may pay the cost, in whole or in part, of such insurance; or, if duly authorized by its charter and bylaws, may itself provide such benefits directly as the insurer thereof, without requirement of placement through a licensed insurance agent, and in such case may adjust the premium rate for the insurance to reflect such savings in expense as the insurer may deem applicable. §3421. Solicitation, insuring in other states

1. No domestic insurer shall knowingly solicit insurance business in any reciprocating state in which not then licensed as an authorized insurer. This subsection shall not prohibit advertising through publications and radio, television and other media originating outside such reciprocating state, if the insurer is licensed in the state in which the advertising originates and the advertising is not specifically directed to residents of such reciprocating state. This subsection shall not apply as to surplus lines insurance, or reinsurance, or prohibit insurance covering persons or risks located in a reciprocating state, under contracts solicited and issued in states in which the insurer is then licensed, or insurance otherwise effectuated in accordance with the laws of the reciprocating state. A "reciprocating" state, as used herein, is one under the laws of which a similar prohibition is imposed upon and enforced against insurers domiciled in that state.

[PL 1969, c. 132, §1 (NEW).]

2. A domestic insurer duly authorized to transact insurance in another jurisdiction may frame and issue policies for delivery in such jurisdiction pursuant to applications for insurance solicited and obtained therein, in accordance with the laws thereof, subject only to such restrictions, if any, as may be contained in the insurer's articles of incorporation or bylaws; and subject, in the case of health insurers, to the provisions of section 2733 (policies issued for delivery in another state).

4. For mutualization of the insurer, as provided in section 3472.

[PL 1969, c. 132, §1 (NEW).]

5. For retirement or otherwise of the shares under a plan submitted to and approved in writing by the superintendent. §3423. Impairment of capital funds

1. If a domestic stock insurer's paid-in capital stock, as represented by the aggregate par value of its outstanding capital stock, becomes impaired, or the assets of a domestic mutual insurer are less than its liabilities and the minimum amount of basic surplus required to be maintained by it under this Title for authority to transact the kinds of insurance being transacted, the superintendent shall at once determine the amount of deficiency and serve notice upon the insurer to cure the deficiency and file proof thereof with the superintendent within the period specified in the notice, which period may not be less than 30 nor more than 90 days from the date of the notice. Such notice may be so served by delivery to the insurer, or by mailing to the insurer addressed to its registered office in this State.

[PL 2023, c. 405, Pt. A, §91 (AMD).]

2. The deficiency may be made good in cash or in assets eligible under chapter 13 (investments) for the investment of the insurer's funds or by amendment of the insurer's certificate of authority to cover only such kind or kinds of insurance thereafter for which the insurer has sufficient paid-in capital stock, if a stock insurer, or surplus, if a mutual insurer, under this Title; or, if a stock insurer, by reduction of the number of shares of the insurer's authorized capital stock or the par value of the capital stock through amendment of its certificate of organization or articles of incorporation, to an amount of authorized and unimpaired paid-in capital stock not below the minimum required for the kinds of insurance thereafter to be transacted.

[PL 2013, c. 299, §14 (AMD).]

1. During the existence of impairment of the capital stock or surplus of an insurer, as referred to in section 3423, the superintendent shall require such restriction of, or arrangements as to, operations of the insurer while the impairment exists as the superintendent considers advisable for protection of policyholders, the insurer or the public.

[RR 2021, c. 1, Pt. B, §282 (COR).]

2. Any officer, director, representative or employee of the insurer who knowingly violates or fails to comply with any such restriction or requirement shall upon conviction thereof be subject to fine of not less than \$500 or more than \$5,000, or imprisonment for less than one year or to both such fine and imprisonment.

SUBCHAPTER 4

CONVERSION, AMALGAMATION, DISSOLUTION

§3471. Scope of subchapter

This subchapter applies as to domestic stock and mutual insurers whether heretofore or hereafter formed, including insurers chartered under special legislative Acts, notwithstanding any inconsistent provisions in the charters of the insurers. [PL 1985, c. 399, §2 (RPR).]

SECTION HISTORY

PL 1969, c. 132, §1 (NEW). PL 1985, c. 399, §2 (RPR).

§3472. Mutualization of stock insurer

1. A stock insurer other than a title insurer may become a mutual insurer, or a combination stock and mutual insurer, under such plan and procedure as may be approved by the superintendent after a hearing thereon.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. The superintendent shall not approve any such plan, procedure or mutualization unless:

A. It is equitable to stockholders and policyholders; [PL 1969, c. 132, §1 (NEW).]

B. It is subject to approval by the holders of not less than 2/3 of the insurer's outstanding capital stock having voting rights, and by not less than 2/3 of the insurer's policyholders who vote on such plan in person, by proxy or by mail pursuant to such notice and procedure as may be approved by the superintendent; [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

C. If a life insurer, the right to vote thereon is limited to holders of policies other than term or group policies, and whose policies have been in force for more than one year; [PL 1969, c. 132, §1 (NEW).]

D. Mutualization will result in retirement of shares of the insurer's capital stock at a price not in excess of the fair market value thereof as determined by competent disinterested appraisers; [PL 1969, c. 132, §1 (NEW).]

E. The plan provides for the purchase of the shares of any nonconsenting stockholder in the same manner and subject to the same applicable conditions as provided by the general corporation law of the State as to rights of nonconsenting stockholders, with respect to consolidation or merger of private corporations; [PL 1969, c. 132, §1 (NEW).]

F. The plan provides for definite conditions to be fulfilled by a designated early date upon which such mutualization will be deemed effective; and [PL 1969, c. 132, §1 (NEW).]

G. The mutualization leaves the insurer with surplus funds reasonably adequate for the security of its policyholders and to enable it to continue successfully in business in the states in which it is then authorized to transact insurance, and for the kinds of insurance included in its certificates of authority in such states. [PL 1969, c. 132, §1 (NEW).]
[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. Any such combination stock and mutual insurer referred to in subsection 1 above must have and maintain separate paid-in capital stock and basic surplus in respective amounts as would be required under this Title of separate domestic stock and mutual insurers transacting the same kind or kinds of insurance.
[PL 1969, c. 132, §1 (NEW).]

4. No director, officer, agent or employee of the insurer, or any other person, shall receive any fee, commission or other valuable consideration whatsoever, other than their customary salaries or other regular compensation, for in any manner aiding, promoting or assisting in the mutualization, except as set forth in the plan of mutualization as approved by the superintendent.
[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

5. This section shall not apply to mutualization under order of court pursuant to rehabilitation or reorganization of an insurer under chapter 57.

§3473. Conversion of stock insurer to ordinary business corporation

1. A domestic stock insurer may convert to a Maine ordinary business corporation through the following procedures:

A. The insurer must give the superintendent written notice of its intent to convert to an ordinary business corporation; [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

B. The insurer must bulk reinsure all of its insurance, if any, in force, with another authorized insurer under a bulk reinsurance agreement approved by the superintendent as provided in section 3483. The agreement of bulk reinsurance may be made contingent upon approval of stockholders as provided in paragraph D; [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

C. The insurer must set aside funds in a special reserve in such amount and subject to such administration as may be found by the superintendent to be reasonable and adequate for the purpose, for payment of all obligations, if any, of the insurer incurred by it and remaining unpaid under its insurance contracts prior to the effective date of such bulk reinsurance, or make other

reasonable disposition satisfactory to the superintendent for such payment; [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

D. The proposed conversion must be approved by affirmative vote of not less than 2/3 of each class of outstanding securities of the insurer having voting rights, at a special meeting of holders of such securities called for the purpose; and at such meeting and by a like vote the certificate of organization or articles of incorporation of the corporation must be amended to remove from the certificate of organization or articles of incorporation the power to transact an insurance business as an insurer, to provide for such new powers and purposes authorized by the general corporation laws of this State as may be consistent with the purposes for which the corporation is thereafter to exist, and to make such further alterations in the certificate of organization or articles of incorporation as may be required under such general corporation laws of an ordinary business corporation; [RR 2023, c. 2, Pt. A, §36 (COR).]

E. Security holders of the corporation who dissent from such proposed conversion shall have the same applicable rights as exist under such general corporation laws with respect to dissent from a proposed merger of the corporation; and [PL 1969, c. 132, §1 (NEW).]

F. Upon compliance with paragraphs A to D, and upon filing of the amendment of the certificate of organization or articles of incorporation with the superintendent and otherwise as required by laws applicable to ordinary business corporations, the conversion becomes effective. [PL 2013, c. 299, §16 (AMD).]

[RR 2023, c. 2, Pt. A, §36 (COR).]

2. An insurer which has once converted to an ordinary business corporation shall not have power thereafter to convert to an insurer; and no ordinary business corporation shall have power to convert to an insurer.

§3474. Merger, consolidation of stock insurers

1. Subject to the provisions of this section, a domestic stock insurer, whether or not authorized to transact insurance in this State, may merge or consolidate with one or more domestic or foreign stock corporations by complying with the applicable provisions of the laws of this State governing the merger or consolidation of stock corporations formed for profit.

A. A corporation merging or consolidating with a domestic stock insurer must be incorporated as an insurer in the manner provided by its state of incorporation, but the corporation need not be authorized or licensed to transact insurance by any state prior to the merger or consolidation. [PL 1989, c. 611, §2 (NEW); PL 1989, c. 611, §4 (AFF).]

B. A foreign or alien insurer may merge or consolidate pursuant to this section with a domestic insurer only if, at the time of the merger or consolidation:

(1) The domestic insurer is authorized to transact insurance in this State; or

(2) The foreign or alien insurer meets all requirements applicable to a domestic insurer set forth in this Title for initial authorization to transact in this State the kinds of insurance, as defined in chapter 9, then transacted by that insurer in any jurisdiction. [PL 1989, c. 611, §2 (NEW); PL 1989, c. 611, §4 (AFF).]

C. A domestic insurer may not participate in a merger or consolidation that will result in the surviving or new corporation being domiciled in a jurisdiction other than this State unless the surviving or new insurer in the merger or consolidation obtains a certificate of authority in the

jurisdiction in which it will be domiciled and in this State to transact the kinds of insurance for which any participating insurers were authorized at the time of the merger or consolidation and agrees to maintain that certificate of authority in this State until and unless the superintendent approves a plan of withdrawal filed pursuant to section 415-A. [RR 1991, c. 2, §92 (COR).]

D. The following provisions apply to the authority of the surviving or new corporation to transact insurance in this State following the merger or consolidation.

(1) If the surviving or new corporation is a domestic insurer and no participating corporation in the merger or consolidation was authorized or licensed to transact insurance in this State, the surviving or new domestic insurer shall meet all applicable requirements of this Title for initial authorization to transact all kinds of insurance, as defined in chapter 9, formerly transacted by any participating insurer or insurers in any jurisdiction.

(2) If the surviving or new corporation is a domestic insurer and seeks authority to transact kinds of insurance other than those for which the domestic insurer or insurers participating in the merger or consolidation were authorized at the time of the merger or consolidation, that corporation must meet the requirements set forth in this Title for initial authorization to transact those kinds of insurance.

(3) If the surviving or new corporation is a foreign or alien insurer that seeks to transact insurance in this State, that corporation shall meet all applicable requirements of this Title for initial authorization to transact all kinds of insurance, as defined in chapter 9, formerly transacted by any participating insurer or insurers as well as for any additional kinds of insurance for which authority is sought. [PL 1989, c. 611, §2 (NEW); PL 1989, c. 611, §4 (AFF).]

[RR 1991, c. 2, §92 (COR).]

2. No such merger or consolidation shall be effectuated unless in advance thereof the plan and agreement therefor have been filed with the superintendent and approved in writing by the superintendent after a hearing thereon after notice to the stockholders of each insurer involved. The superintendent shall give such approval within a reasonable time after such filing unless the superintendent finds that the plan or agreement:

A. Is contrary to law; [PL 1989, c. 611, §3 (AMD); PL 1989, c. 611, §4 (AFF).]

B. Is unfair or inequitable to the policyholders of any insurer involved; [PL 1989, c. 611, §3 (AMD); PL 1989, c. 611, §4 (AFF).]

C. Would substantially reduce the security of and service to be rendered to policyholders of the domestic insurer in this State or elsewhere; [PL 1989, c. 611, §3 (AMD); PL 1989, c. 611, §4 (AFF).]

D. Would materially tend to lessen competition in the insurance business in this State or elsewhere as to the kinds of insurance involved, or would materially tend to create a monopoly as to such business; or [PL 1969, c. 132, §1 (NEW).]

E. Is subject to other material and reasonable objections. [PL 1969, c. 132, §1 (NEW).]

In making any determination required by paragraph C, the superintendent may consider, among other factors, whether the surplus of the surviving or new corporation satisfies the requirements of section 410.

[PL 1989, c. 611, §3 (AMD); PL 1989, c. 611, §4 (AFF).]

3. No director, officer, agent or employee of any insurer party to the merger or consolidation shall receive any fee, commission, compensation or other valuable consideration whatsoever for in any manner aiding, promoting or assisting therein except as set forth in the plan or agreement.

[PL 1969, c. 132, §1 (NEW).]

4. If the superintendent does not approve the plan or agreement, the superintendent shall so notify the insurer in writing specifying the superintendent's reasons therefor.

§3475. Exchange of securities between insurers

1. Upon application of any domestic insurer, the superintendent is authorized to approve the fairness of the terms and conditions of the issuance by the insurer of any shares of its capital stock or of guaranty capital or bonds or its other securities or obligations in exchange for one or more bona fide outstanding securities, claims or property interest of any other insurer or corporation, domestic or foreign, or partly in such exchange and partly for cash; but only after a hearing has been held by the superintendent upon the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities in such exchange shall have the right to appear and be heard.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. Notice of such hearing and conduct thereof shall be as provided in chapter 3 (the insurance superintendent).

§3476. Acquisition of controlling stock

1. Any person proposing to acquire the controlling capital stock or guaranty capital shares of any domestic stock insurer and thereby to change the control of the insurer, other than through merger or consolidation or affiliation as provided for in this chapter, shall first apply to the superintendent in writing for approval of such proposed change of control. The application shall state the names and addresses of the proposed new owners of the controlling stock or shares and contain such additional information as the superintendent may reasonably require.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. The superintendent may not approve the proposed change of control if the superintendent finds:

A. That the proposed new owners are not qualified by character, experience and financial responsibility to control and operate the insurer, or cause the insurer to be operated, in a lawful and proper manner; [RR 2021, c. 2, Pt. A, §76 (COR).]

B. That as a result of the proposed change of control the insurer may not be qualified for a certificate of authority under section 407; [RR 2021, c. 2, Pt. A, §77 (COR).]

C. That the interests of the insurer or other stockholders of the insurer or policyholder would be impaired through the proposed change of control; or [PL 1969, c. 132, §1 (NEW).]

D. That the proposed change of control would tend materially to lessen competition, or to create any monopoly, in a business of insurance in this State or elsewhere. [PL 1969, c. 132, §1 (NEW).]
[RR 2021, c. 2, Pt. A, §§76, 77 (COR).]

3. If the superintendent does not by affirmative action approve or disapprove the proposed change of control within 30 days after the date such application was so filed with the superintendent, the proposed change may be made without such approval. Except that if the superintendent gives notice to the parties of a hearing to be held by the superintendent with respect to the proposed change of control, and the hearing is held within such 30 days or on a date mutually acceptable to the superintendent and the parties, the superintendent shall have 30 days after the conclusion of the hearing

within which to so approve or disapprove the proposed change; and if not so approved or disapproved, the change may thereafter be made without the superintendent's approval.

[PL 1989, c. 269, §15 (AMD).]

4. If the superintendent disapproves the proposed change, the superintendent shall give written notice thereof to the parties, setting forth in detail the reasons for disapproval.

[RR 2021, c. 1, Pt. B, §285 (COR).]

5. The superintendent shall file a complaint with the District Court seeking to suspend or revoke the certificate of authority held by any insurer, the control of which has been changed in violation of this section.

[PL 1977, c. 694, §428 (RPR); PL 1999, c. 547, Pt. B, §78 (AMD); PL 1999, c. 547, Pt. B, §80 (AFF).]

§3477. Conversion of mutual to stock insurer

1. A mutual insurer may amend its charter pursuant to this section to become a stock insurer, or a combination stock and mutual insurer, under such reasonable plan and procedure as may be approved by the superintendent after a hearing thereon of which notice was given to the insurer, its directors or trustees, its officers, employees and its policyholders, all of whom shall have the right to appear and be heard at the hearing.

[PL 1985, c. 399, §3 (AMD).]

2. The superintendent shall not approve any such plan or procedure unless:

A. Its terms and conditions are fair and equitable; [PL 1969, c. 132, §1 (NEW).]

B. It is subject to approval by vote of not less than 2/3 of the insurer's policyholders voting thereon in person, by proxy, or by mail at a meeting of policyholders called for the purpose pursuant to such reasonable notice and procedure as may be approved by the superintendent and each such policyholder shall be entitled to one vote, provided that only persons who were policyholders both at least one year prior to the submission of the insurer's plan to the superintendent and on a subsequent date, found reasonable by the superintendent, prior to the vote shall be entitled to vote; provided that as to life insurers chartered by special Act prior to January 1, 1970, the persons entitled to vote shall be further limited to owners of life insurance policies and contracts, and those persons shall be entitled to one vote and to an additional vote for each \$1,000 of insurance above 1,000, except that in the case of any policy or contract of group life insurance or any group annuity contract providing life insurance, the employer or other person, firm, corporation or association, to whom or in whose name the master policy or contract shall have been issued or held, shall be deemed to be the owner within the meaning of this paragraph and shall be entitled to one vote for each such policy or contract of group life insurance or each such group annuity contract irrespective of the number of lives insured under that policy or contract; [PL 1985, c. 399, §4 (RPR).]

C. The equity of each member in the insurer is determinable under a fair and reasonable formula approved by the superintendent, which such equity shall be based upon the insurer's entire surplus as shown by the insurer's financial statement filed with the superintendent, including all voluntary reserves but excluding contingently repayable funds and outstanding guaranty capital shares at the redemption value thereof, and without taking into account the value of nonadmitted assets or of insurance business in force; [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

D. The plan gives to each member of the insurer as specified in paragraph E, a preemptive right to acquire the member's proportionate part of all of the proposed capital stock of the insurer, or all of the stock of a proposed parent corporation of the insurer, within a designated reasonable period, as such part is determinable under the plan of conversion, and to apply upon the purchase thereof the amount of the member's equity in the insurer as determined under paragraph C, except that the plan may provide, subject to the approval of the superintendent, that such preemptive right will not apply to members who reside in jurisdictions in which the issuance of stock is impossible, would involve unreasonable delay or would require the insurer to bear unreasonable costs, as long as any such member receives 100% of the member's equity share in the insurer in the form of a cash payment; [RR 2021, c. 1, Pt. B, §286 (COR).]

E. The members entitled to participate in the purchase of stock or distribution of assets shall include not less than all policyholders of the insurer as of the date the plan was submitted to the superintendent and each existing person who had been a policyholder of the insurer within 3 years prior to such date; [PL 1985, c. 399, §6 (AMD).]

F. Shares are to be offered to members at a price not greater than to be thereafter offered under the plan to others; [PL 1969, c. 132, §1 (NEW).]

G. The plan provides for payment to each member of the member's entire equity share in the insurer, with that payment to be made in cash or to be applied for or upon the purchase of stock to which the member is preemptively entitled, or both, except that with respect to each member who is not given the option of receiving the member's entire equity share in cash, the plan must provide that that member has the option to receive a reasonable portion of the member's equity share, as provided in the plan, but not in excess of 50% of the member's entire equity, in the form of a cash payment, which payment together with the amount applied to the purchase of stock constitutes full payment and discharge of the member's equity or property interest in that mutual insurer; and except that the superintendent may permit an insurer to forego the option of making a cash payment to members if the superintendent determines that it would be reasonable not to provide for the cash election, after taking into account all the facts and circumstances, including whether there is expected to be an active market for the stock to be received in the conversion; [RR 2021, c. 1, Pt. B, §287 (COR).]

H. The plan, when completed, would provide for the converted insurer paid-in capital stock in an amount not less than the minimum paid-in capital stock required of a new domestic stock insurer upon initial authorization to transact like kinds of insurance, together with expendable surplus funds in amount not less than 1/2 of such required capital stock; and [PL 1969, c. 132, §1 (NEW).]

I. The superintendent finds that the insurer's management has not, through reduction in volume of new business written, or cancellation or through any other means sought to reduce, limit, or affect the number or identity of the insurer's members to be entitled to participate in such plan, or to secure for the individuals comprising management any unfair advantage through such plan. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]
[RR 2021, c. 1, Pt. B, §§286, 287 (COR).]

3. Any such combination stock and mutual insurer referred to in subsection 1 must have and maintain separate paid-in capital stock and basic surplus in respective amounts as would be required under this Title of separate domestic stock and mutual insurers transacting the same kind or kinds of insurance.
[PL 1969, c. 132, §1 (NEW).]

4. Subsection 2 shall not be deemed to prohibit the inclusion in the conversion plan of provisions under which the individuals comprising the insurer's management and employee group shall be entitled to purchase for cash at the same price as offered to the insurer's members, shares of stock not taken by

members on the preemptive offering to members, in accordance with such reasonable classification of such individuals as may be included in the plan and approved by the superintendent.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

5. No director, officer, agent or employee of the insurer, or any other person, shall receive any fee, commission or other valuable consideration whatsoever, other than their usual regular salaries and compensation, for in any manner aiding, promoting or assisting in such conversion except as set forth in the plan approved by the superintendent. This provision shall not be deemed to prohibit the payment of reasonable fees and compensation to attorneys at law, accountants and actuaries for services performed in the independent practice of their professions, even though also directors of the insurer.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

6. Costs. For the purpose of determining whether a conversion plan meets the requirements of this section and any other relevant provisions of this Title, the superintendent may employ staff personnel and outside consultants. All reasonable costs related to the review of a plan of conversion, including those costs attributable to the use of staff personnel, shall be borne by the insurer or insurers making the filing.

Any one or more mutual insurers existing under any of the laws of this State, may absorb by merger or consolidation, or be merged into or consolidate with, any one or more domestic or foreign mutual insurers either authorized to transact insurance in this State or qualified for such authority. The plan and agreement shall be approved and authorized by vote of the majority of the directors of the respective insurers, and approved by vote of at least 2/3 of such policyholders of the respective insurers who are entitled to vote and do vote thereon in person or by proxy at a special meeting of such members call for the purpose.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

§3482. -- effective date of merger, consolidation; effect as to assets, liabilities, rights and power

1. When the plan and agreement for merger or consolidation has been so signed, acknowledged, approved, authorized, certified, filed and recorded as provided in sections 3478 to 3481, then the separate existence of all of the constituent corporations other than the surviving corporation into which the other corporation or corporations parties have merged or consolidated shall cease.

[PL 1969, c. 132, §1 (NEW).]

2. The surviving corporation shall be the merged or consolidated corporation by the name provided for in the agreement; and shall thereby possess all the rights, privileges, powers, franchises and immunities as well of a public as of a private nature, and shall thereby be subject to all the liabilities, restrictions and duties, of each of the merged or consolidated corporations, and have all and singular the rights, privileges, powers, franchises and immunities of each of such corporations, together with all property, real, personal and mixed, wheresoever located, and all debts due to any of such constituent corporations on whatever account; and all other things in action of each of such corporations, are by virtue of such merger or consolidation automatically vested in such surviving corporation.

[PL 1969, c. 132, §1 (NEW).]

3. All such property, rights, privileges, powers, franchises and immunities and all and every other such interest shall be thereafter as effectually the property of the surviving corporation as they were of the respective constituent corporations; and title to any real estate, whether by deed or otherwise, under the laws of this State, vested in any of such constituent corporations shall not revert or be in any way impaired by reason of such merger or consolidation. §3483. Bulk reinsurance

1. A domestic insurer may reinsure, and thereby transfer its direct liability as the insurer with respect to, all or substantially all of its business in force, or all or substantially all of a major class thereof, with another insurer, stock or mutual, by an agreement of bulk reinsurance after compliance with this section. Any such agreement is not effective unless filed with the superintendent, or if disapproved by the superintendent.

[RR 2021, c. 1, Pt. B, §291 (COR).]

2. The superintendent shall disapprove such agreement within a reasonable time after filing if the superintendent finds:

A. That the plan and agreement are unfair and inequitable to any insurer or to policyholders involved; [RR 2021, c. 1, Pt. B, §292 (COR).]

B. That the reinsurance, if effectuated, would substantially reduce the protection or service to the policyholders of any domestic insurer involved; [RR 2021, c. 1, Pt. B, §292 (COR).]

C. That the agreement does not embody adequate provisions by which the reinsuring insurer becomes liable to the original insureds for any loss or damage occurring under the policies reinsured in accordance with the original terms of such policies; or [PL 1969, c. 132, §1 (NEW).]

D. That the assuming reinsurer is not authorized to transact such insurance in this State, or is not qualified as for such authorization or will not appoint the superintendent and the superintendent's successors as its irrevocable attorney for service of process, so long as any policy so reinsured or claim thereunder remains in force or outstanding; [RR 2021, c. 1, Pt. B, §292 (COR).]

E. That such reinsurance would materially tend to lessen competition in the insurance business in this State or elsewhere as to the kinds of insurance involved, or would materially tend to create a monopoly as to such business; or [PL 1969, c. 132, §1 (NEW).]

F. That the proposed bulk reinsurance is not free of other reasonable objections. [PL 1969, c. 132, §1 (NEW).]
[RR 2021, c. 1, Pt. B, §292 (COR).]

3. If the superintendent disapproves the agreement, the superintendent shall forthwith notify in writing each insurer involved, specifying the superintendent's reasons therefor.
[RR 2021, c. 1, Pt. B, §293 (COR).]

4. If for reinsurance of all or substantially all of the business in force of an insurer at a time when the insurer's capital, if a stock insurer, or surplus, if a mutual insurer, is not impaired, the plan and agreement of such reinsurance must be approved by a vote of not less than 2/3 of the insurer's outstanding stock having voting rights, if a stock insurer, or of members, if a mutual insurer, voting thereon, at a meeting of stockholders or members called for the purpose pursuant to such reasonable notice and procedure as is provided for in the agreement. If a mutual life insurer, right to vote may be limited to members otherwise entitled to vote and whose policies are other than term policies for terms of less than 20 years, or group policies, and have been in effect for more than one year.
[PL 1969, c. 132, §1 (NEW).]

5. No director, officer, agent or employee of any insurer party to such reinsurance, or any other person, shall receive any special compensation for arranging or with respect to, any such reinsurance except as is set forth in the reinsurance agreement filed with the superintendent.
[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

6. The superintendent may adopt rules, subject to Title 5, chapter 375, to effectuate this section.

§3484. Voluntary dissolution

1. A solvent domestic stock or mutual insurer, which then is not the subject of a delinquency proceeding under chapter 57, may voluntarily dissolve under a plan therefor in writing authorized by its board of directors, approved or adopted by stockholders or members as hereinafter provided, and filed with and approved by the superintendent. The plan shall provide for the disposition, by bulk

reinsurance or other lawful procedure, of all insurance in force in the insurer, for full discharge of all obligations of the insurer, and designate or provide for trustees to conduct and administer the settlement of the insurer's affairs.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. The superintendent shall approve the plan unless found by the superintendent to be unlawful or unfair or inequitable or prejudicial to the interests of any stockholder, policyholder or creditor.

[RR 2021, c. 1, Pt. B, §294 (COR).]

3. If a mutual insurer, the plan must have been approved by vote of not less than 2/3 of the policyholders voting thereon at a special meeting of such policyholders called and held for the purpose pursuant to such reasonable notice and information as the superintendent may have approved.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. If a stock insurer, the plan must have been adopted by vote of not less than 2/3 of all outstanding voting securities of the insurer at a special meeting of such security holders called and held for the purpose.

[PL 1969, c. 132, §1 (NEW).]

5. Following approval of the dissolution and plan for dissolution by members or adoption by stockholders as provided in this section, and approval by the superintendent, the trustees designated or provided for in the plan shall proceed to execute the plan. When all liabilities of the corporation have been discharged or otherwise adequately provided for, and all assets of the corporation have been liquidated and distributed in accordance with the plan, the trustees shall so certify in triplicate under oath in writing. The trustees shall deliver the original and the 2 copies of such certificate to the superintendent, together with the fee for filing the certificate of the trustees with the Secretary of State. The superintendent shall make such examination of the affairs of the corporation, and of the liquidation and distribution of its assets and discharge of or provision for its liabilities as the superintendent determines advisable. If upon such examination the superintendent finds that the facts set forth in the certificate of the trustees are true, the superintendent shall inscribe the superintendent's approval on the certificate, file the original of the certificate so inscribed in the office of the Secretary of State, file a copy of the certificate in the bureau and return the remaining copy to the trustees for the corporate files.

[PL 2013, c. 299, §17 (AMD).]

6. Upon receipt of the filing of the certificate of the trustees as provided in subsection 5, the Secretary of State shall issue to the trustees the Secretary of State's acknowledgment of the date of filing. The effective date of dissolution is the effective date of that filing with the Secretary of State. The Secretary of State shall charge and collect a fee of \$25 for the filing of the trustee's certificate, and shall deposit the same with the Treasurer of State for credit to the General Fund.

§3485. Mutual member's share of assets on liquidation

1. Upon any liquidation of a domestic mutual insurer, its assets remaining after discharge of its indebtedness, policy obligations, repayment of contributed or borrowed surplus, if any, retirement of guaranty fund capital shares and payment of expenses of administration and of the dissolution and liquidation procedure, must be distributed to currently existing persons who had been members of the insurer for at least a year and who were its members at any time within 36 months next preceding the date such liquidation was authorized or ordered, or date of last termination of the insurer's certificate of authority, whichever date is the earlier; except, that if the superintendent has reason to believe that those in charge of the insurer's management have caused or encouraged the reduction of the number of

members of the insurer, or changed the identity thereof, in anticipation of liquidation and for the purpose of reducing or controlling thereby the number or identity of persons who may be entitled to share in distribution of the insurer's assets, the superintendent may enlarge the qualification period in such manner as the superintendent considers to be reasonable.

[RR 2021, c. 1, Pt. B, §295 (COR).]

2. The insurer shall make a reasonable classification of its policies so held by such members, and a formula based upon such classification for determination of the equitable distributive share of each such member. Such classification and formula shall be subject to the approval of the superintendent, who shall approve the same except for reasonable cause.

§3486. Plans for acquisition of minority interests in domestic stock insurance companies and appraisal of stock of dissenting shareholders

1. Any parent corporation directly or indirectly owning at least 95% of the aggregate issued and outstanding shares of all classes of voting stock of a domestic stock insurance company or any such domestic stock insurance company whose voting stock is so owned may, pursuant to a plan for acquisition of minority interests in such subsidiary, acquire all of its remaining issued and outstanding shares of voting stock, by exchange of stock, other securities, cash, other consideration or any combination thereof.

[PL 1977, c. 377 (NEW).]

2. The board of directors, trustees or other governing body of the parent corporation or the domestic stock insurance company may adopt a plan for the acquisition of minority interests in such subsidiary insurer. Every plan shall set forth:

A. The name of the company whose shares are to be acquired; [PL 1977, c. 377 (NEW).]

B. The total number of issued and outstanding shares of each class of voting stock of the company, the number of its shares owned by the parent corporation and, if either of the foregoing is subject to change prior to the effective date of acquisition, the manner in which any change may occur; [PL 1977, c. 377 (NEW).]

C. The terms and conditions of the plan, including the manner and basis of exchanging the shares to be acquired for shares or other securities of the parent corporation, for cash, other consideration, or any combination of the foregoing, the proposed effective date of acquisition and a statement clearly describing the rights of dissenting shareholders to demand appraisal; [PL 1977, c. 377 (NEW).]

D. If the parent corporation has adopted the plan and is neither a domestic corporation nor an authorized insurer, its agreement to be bound by this section with respect to the plan, its consent to the enforcement against it in this State of the rights of shareholders pursuant to the plan, and a designation of the superintendent as the agent upon whom process may be served against the parent corporation in the manner set forth in section 421 in any action or proceeding to enforce any such rights; and [PL 1977, c. 377 (NEW).]

E. Such other provisions with respect to the plan as the board of directors, trustees or other governing body deems necessary or desirable, or which the superintendent may prescribe. [PL 1977, c. 377 (NEW).]

[PL 1977, c. 377 (NEW).]

3. Upon adoption of the plan, it must be duly executed by the president and attested by the secretary, or the executive officers corresponding thereto, under the corporate seal of the parent

corporation or the domestic stock insurance company that has adopted the plan, as the case may be. Thereupon, a certified copy of the plan, together with a certificate of its adoption subscribed by such officers and affirmed by them as true under the penalties of perjury and under the seal of the parent corporation or the domestic stock insurance company, as the case may be, must be submitted to the superintendent for the superintendent's approval. The superintendent shall thereupon consider the plan and, if satisfied that it complies with this section, is fair and equitable and not inconsistent with law, the superintendent shall approve the plan. If the superintendent disapproves the plan, notification of the superintendent's disapproval, assigning the reasons therefor, must be given in writing by the superintendent to the parent corporation or domestic stock insurance company that submitted the plan. A plan does not take effect unless the approval of the superintendent has been obtained.
[RR 2021, c. 1, Pt. B, §296 (COR).]

4. If the superintendent approves the plan, the parent corporation or the domestic stock insurance company that has adopted the plan shall deliver to each person who, as of the date of delivery, is a holder of record of stock to be acquired pursuant to the plan, a copy of the plan, or a summary thereof approved by the superintendent, in person or by depositing the same in the post office, postage prepaid, addressed to the stockholder at the stockholder's address of record. On or before the date of acquisition proposed in the plan, the parent corporation or the domestic stock insurance company that has adopted the plan shall file with the superintendent a certificate, executed by its president and attested by its secretary, or the executive officers corresponding thereto, and subscribed by such officers and affirmed by them as true under the penalties of perjury, and under the seal of the parent corporation or the domestic stock insurance company, as the case may be, attesting to compliance with this subsection.
[RR 2021, c. 1, Pt. B, §297 (COR).]

5. Upon compliance with this section, ownership of the shares to be acquired pursuant to the plan vests in the parent corporation or the domestic stock insurance company that has adopted the plan on the date of acquisition proposed in the plan whether or not the certificates for such shares have been surrendered for exchange. If the plan was adopted by the parent corporation it is entitled to have new certificates registered in its name. If the plan was adopted by the domestic stock insurance company the shares must be retired and the capital of the domestic company reduced by the par value of the retired shares. Shareholders whose shares have been so acquired thereafter retain only the right either to receive the consideration to be paid in exchange for their shares pursuant to the plan or to dissent to the plan and demand appraisal and receive payment of the fair value of their shares as hereinafter provided. The fair value of shares must be determined as of the day prior to the date on which the plan was adopted, excluding any appreciation or depreciation of shares in anticipation of such corporate action. A shareholder may not dissent as to less than all of the shares registered in the shareholder's name.
[RR 2021, c. 1, Pt. B, §298 (COR).]

6. A dissenting shareholder shall file, within 20 days after the delivery to that shareholder of either a copy of the plan or a summary of the plan pursuant to subsection 4, a written notice of the shareholder's election to dissent from the plan and a demand for payment of the fair value of the shareholder's shares. The notice and demand must be filed with the company that adopted the plan by personally delivering it, or by mailing it via certified or registered mail, to the company at its registered office within this State or to its principal place of business as shown on its most recent annual report or, in the case of a foreign corporation that has not yet delivered an annual report, in its application for a certificate of authority pursuant to Title 13-C, section 130.
[PL 2003, c. 344, Pt. D, §13 (AMD).]

7. At the time of filing the dissenting shareholder's notice and demand for the payment of the fair value of the dissenting shareholder's shares, or within 20 days thereafter, a dissenting shareholder shall surrender the certificate or certificates representing the dissenting shareholder's shares to the company that adopted the plan.

[RR 2021, c. 1, Pt. B, §299 (COR).]

8. Within 10 days after the expiration of the period provided in subsection 6 for the shareholder to file the shareholder's notice and demand, the company that adopted the plan shall make a written offer to each dissenting shareholder to pay for such shares at a specified price considered by such company to be the fair value thereof. Such offer must be made at the same price per share to all dissenting shareholders of the same class. The notice and offer must be accompanied by a balance sheet of the corporation, the shares of which the dissenting shareholder holds, as of the latest available date and not more than 12 months prior to the making of such offer and a profit and loss statement of such corporation, for the 12-months' period ended on the date of such balance sheet.

[RR 2021, c. 1, Pt. B, §300 (COR).]

9. If, within 20 days after the date by which the company is required by the terms of subsection 8 to make a written offer to each dissenting shareholder to pay for the dissenting shareholder's shares, the fair value of such shares is agreed upon between any dissenting shareholder and the company, payment therefor must be made within 90 days after the date of delivery of the plan or a summary thereof as provided in subsection 4. Upon payment of the agreed value, the dissenting shareholder ceases to have any interest in such shares.

[RR 2021, c. 1, Pt. B, §301 (COR).]

10. If, within the additional 20-day period prescribed by subsection 9, one or more dissenting shareholders and the company have failed to agree as to the fair value of the shares, then Title 13-C, chapter 13, subchapter 3 applies, except that:

A. The term "the corporation" as used in that subchapter is deemed to refer to the company that adopted a plan pursuant to subsection 2; [PL 2003, c. 344, Pt. D, §14 (AMD).]

B. [PL 2003, c. 344, Pt. D, §14 (RP).]

C. The references in Title 13-C, chapter 13, subchapter 3 to a shareholder's "demand for payment under section 1327" is deemed to refer to a shareholder's notice and demand filed pursuant to subsection 6; [PL 2003, c. 344, Pt. D, §14 (AMD).]

D. [PL 2003, c. 344, Pt. D, §14 (RP).]

E. The reference in Title 13-C, section 1331, subsection 2 to the county in the State where the principal office or the registered office of the domestic corporation merged with the foreign corporation is located is deemed, where the parent corporation that has adopted the plan is neither a domestic corporation nor an authorized insurer, to include the county where the registered office of the subsidiary domestic stock insurance company whose stock is being acquired is located; [PL 2003, c. 344, Pt. D, §14 (AMD).]

F. [PL 2003, c. 344, Pt. D, §14 (RP).]

G. [PL 2003, c. 344, Pt. D, §14 (RP).]

H. Title 13-C, section 1331, subsection 5, paragraph B does not apply; and [PL 2003, c. 344, Pt. D, §14 (NEW).]

I. The reference in Title 13-C, section 1332, subsection 2, paragraph A to the corporation's failure to substantially comply with the requirements of section 1321, 1323, 1325 or 1326 is deemed to refer to the corporation's failure to comply with this section, and the reference in Title 13-C, section 1332, subsection 4 to the failure of the corporation to make required payments pursuant to section 1325, 1326 or 1327 is deemed to refer to the failure of the corporation to make required payments under this section. [PL 2003, c. 344, Pt. D, §14 (NEW).]

[PL 2003, c. 344, Pt. D, §14 (AMD).]

11.

[PL 2003, c. 344, Pt. D, §15 (RP).]

12. If the court determines pursuant to Title 13-C, chapter 13, subchapter 3 that a shareholder is not entitled to receive payment of the fair value of the shareholder's shares because of the shareholder's failure to satisfy the requirements of Title 13-C, chapter 13, subchapter 3 and of this section, then the shareholder must receive the consideration that was specified as payment in exchange for the shareholder's shares pursuant to the plan. Such payment may not include the allowance for interest specified in Title 13-C, section 1331, subsection 5.

[RR 2021, c. 2, Pt. A, §78 (COR).]

13. Neither the right granted by this section nor the exercise thereof by a parent corporation or domestic stock insurance company shall preclude the exercise by it of any other rights it may have under this section.

[PL 1977, c. 377 (NEW).]

14. The provisions of Title 33, chapter 45 apply to any unclaimed payment to which a shareholder may be entitled under this section.

[PL 2019, c. 498, §13 (AMD).]

15. All laws and parts of laws of this State inconsistent with this section are superseded with respect to matters covered by this section.

§3487. Redomestication of insurers

1. Redomestication of foreign insurers to Maine. Any stock or mutual insurer that is organized under the laws of any other state and has a valid certificate of authority to do business in this State may become a domestic insurer with approval of the superintendent by amending its articles of incorporation or equivalent corporate charter and by designating a location in this State as its principal place of business. The redomestication must be approved if the chief insurance regulatory official of the other state certifies to the superintendent that the redomestication is in compliance with all requirements established by the laws of that state, and the superintendent determines that the insurer's operations and corporate organization will comply with the requirements of this chapter and that the redomestication is not contrary to the interests of policyholders or the public. The amendments to the insurer's articles of incorporation may provide that the corporation is a continuation of the corporate identity of the original foreign corporation and that the original date of incorporation in its original domiciliary state is the date of incorporation of the domestic insurer. The insurer's certificate of authority must be amended as of the effective date of the superintendent's approval to reflect the insurer's status as a domestic insurer and its new home office, and the insurer is thereafter subject to all provisions of this Title applicable to domestic insurers.

[PL 2013, c. 299, §19 (AMD).]

2. Redomestication of domestic insurers. Any domestic insurer may, upon the approval of the superintendent, transfer its domicile to any other state in which it is authorized to transact the business of insurance in accordance with the procedures established by the laws of that state. The proposed redomestication must be approved if the superintendent determines that the articles of incorporation have been amended in conformance with section 3310 and that the redomestication is not contrary to the interests of policyholders or the public. The insurer ceases to be a domestic insurer as of the date the redomestication is recognized by its new state of domicile. Unless the superintendent determines that the insurer no longer qualifies for a certificate of authority, the insurer's certificate of authority must be amended as of the effective date of the redomestication to reflect the insurer's status as a

domestic insurer and its new home office in its new state of domicile, and the insurer is thereafter subject to all provisions of this Title applicable to foreign insurers.

[PL 2013, c. 299, §19 (AMD).]

3. Effect of redomestication. The certificate of authority, producers' appointments and licenses, rate approvals and all other actions and permissions by the superintendent that are in effect at the time any insurer authorized to transact the business of insurance in this State transfers its corporate domicile to this State or any other state pursuant to this section or by merger, consolidation or any other lawful method continue in full force and effect upon the redomestication if the insurer remains duly qualified to transact the business of insurance in this State. All outstanding policies and other legal or contractual obligations of any redomesticating insurer remain in full force and need not be endorsed as to the new name of the company or its new location unless ordered by the superintendent. The insurer shall file new policy forms with the superintendent on or before the effective date of the redomestication but may use existing policy forms with appropriate endorsements if allowed by and under such conditions as approved by the superintendent. Each redomesticating insurer shall notify the superintendent of the details of the proposed redomestication and shall file promptly any resulting amendments to corporate documents filed or required to be filed with the superintendent.

[PL 1999, c. 113, §23 (NEW).]

4. Filing with Secretary of State. Each insurer that transfers its domicile to this State shall file with the Secretary of State a long-form certificate of good standing or its equivalent, duly certified by the proper official of the previous state of domicile and an application for redomestication to become a Maine insurer in a form prescribed by the Secretary of State and approved by the superintendent. Each foreign insurer qualified to do business in this State that transfers its domicile to a state other than Maine shall file with the Secretary of State a notification by a foreign insurer of redomestication in a form prescribed by the Secretary of State and approved by the superintendent. Each domestic insurer that transfers its domicile to another state shall file with the Secretary of State a notification of redomestication in a form prescribed by the Secretary of State and approved by the superintendent.

§3488. Reorganization of mutual insurer through formation of mutual holding company

1. Procedure for reorganization as stock insurer. A mutual insurer may be reorganized as a stock insurer within a mutual holding company as provided in this section. The mutual insurer shall submit to the superintendent a reasonable reorganization plan, referred to in this section as the "plan," and the procedure for putting the plan into effect. A hearing must be held on the plan. Notice of the hearing must be provided pursuant to section 230 to the insurer, its directors or trustees, its officers, employees and its policyholders, all of whom have the right to appear and be heard at the hearing. The plan may not take effect unless approved by the superintendent.

[PL 1999, c. 656, §5 (NEW).]

2. Plan requirements. The plan must contain provisions for:

- A. The reorganizing insurer to become a stock insurer; [PL 1999, c. 656, §5 (NEW).]
- B. The formation of a mutual holding company; [PL 1999, c. 656, §5 (NEW).]
- C. The members of the reorganizing insurer to become members of the mutual holding company with membership interests therein and the membership interests in the reorganizing insurer to be extinguished; and [PL 1999, c. 656, §5 (NEW).]

D. At least 51% of the voting stock issued and outstanding by the reorganized insurer to be acquired and held, directly or through one or more stock holding companies, by the mutual holding company.

[PL 1999, c. 656, §5 (NEW).]

[PL 1999, c. 656, §5 (NEW).]

3. Number of stock holding companies. The plan may provide for the formation of one or more intermediate stock holding companies.

[PL 1999, c. 656, §5 (NEW).]

4. Approval of plan. The superintendent may not approve a plan unless:

A. The terms and conditions of the plan are fair and equitable; [PL 1999, c. 656, §5 (NEW).]

B. The plan is subject to approval by vote of not less than 2/3 of the insurer's policyholders voting on the plan in person, by proxy or by mail at a meeting of policyholders called by the insurer for that purpose pursuant to reasonable notice of the meeting and procedures as approved by the superintendent. The plan must specify that only persons who were policyholders both at least one year before the submission of the plan to the superintendent and on a subsequent date before the vote found reasonable by the superintendent are entitled to vote. Each eligible policyholder is entitled to one vote; [PL 1999, c. 656, §5 (NEW).]

C. The plan, when completed, would provide paid-in capital stock for the reorganized insurer in an amount not less than the minimum paid-in capital stock required of a new domestic stock insurer upon initial authorization to transact like kinds of insurance, together with expendable surplus funds in an amount not less than 1/2 of such required capital stock; and [PL 1999, c. 656, §5 (NEW).]

D. The superintendent finds that the insurer's management has not, through reduction in volume of new business written or cancellation or any other means, sought to reduce, limit or affect the number or identity of the reorganizing insurer's members to be entitled to participate in the plan or to secure for the individuals comprising management any unfair advantage through the plan. [PL 1999, c. 656, §5 (NEW).]

[PL 1999, c. 656, §5 (NEW).]

5. Compensation. A director, officer, agent or employee of the reorganizing insurer or any other person may not receive any fee, commission or other valuable consideration whatsoever, other than that person's usual regular salary and compensation, for in any manner aiding, promoting or assisting in the reorganization except as set forth in the plan approved by the superintendent. This provision does not prohibit the payment of reasonable fees and compensation to attorneys, accountants or actuaries for services performed in the independent practice of their professions, even though they also may be directors of the insurer.

[PL 1999, c. 656, §5 (NEW).]

6. Effective date of plan. The plan becomes effective, after approval by the superintendent and by the policyholders, upon the filing with the superintendent and the Secretary of State of amended and restated articles of incorporation of the reorganized insurer pursuant to section 3310 and articles of incorporation of the mutual holding company and any related stock holding company.

[PL 1999, c. 656, §5 (NEW).]

7. Consequence of effective plan. The following are the consequences of a plan that becomes effective pursuant to subsection 6.

A. The reorganizing insurer immediately becomes a domestic stock insurer. [PL 1999, c. 656, §5 (NEW).]

B. The members of the reorganizing insurer on the effective date immediately become members of the mutual holding company with membership interests in that holding company. All membership interests in the reorganizing insurer are extinguished. [PL 1999, c. 656, §5 (NEW).]

C. A person becoming a policyholder of the reorganized insurer after the effective date of the plan becomes a member of the mutual holding company immediately upon issuance of the policy or contract. [PL 1999, c. 656, §5 (NEW).]

D. One hundred percent of the voting stock issued by the reorganized insurer in the reorganization is owned, directly or through one or more stock holding companies, by the mutual holding company. All stock issued by the reorganized insurer in the reorganization is considered duly and validly issued, fully paid and nonassessable. [PL 1999, c. 656, §5 (NEW).]

E. The reorganized insurer is a continuation of the reorganizing insurer. The reorganization may not annul, modify or change any of the insurer's existing suits, rights, contracts or liabilities except as provided in the plan. [PL 1999, c. 656, §5 (NEW).]

[PL 1999, c. 656, §5 (NEW).]

8. Assistance in determining approval of plan. For the purpose of determining whether a plan meets the requirements of this section and any other relevant provisions of this Title, the superintendent may employ staff personnel and outside consultants. All reasonable costs related to the review of a plan, including those attributable to the use of staff personnel, must be borne by the insurer or insurers making the filing.

[PL 1999, c. 656, §5 (NEW).]

9. Injunctive relief and damages. If the reorganizing insurer complies substantially and in good faith with the requirements of subsection 4, paragraph B with respect to the giving of any required notice to policyholders, the insurer's failure to give notice to a person entitled to notice does not impair the validity of the actions and proceedings taken under this section or entitle that person to any injunctive or other equitable relief with respect to those actions and proceedings. This subsection does not impair any claim for damages that person would otherwise have due to failure to give notice.

[PL 1999, c. 656, §5 (NEW).]

10. Exclusion of certain insurers. This section does not apply to an insurer authorized to transact life insurance or annuities or an insurer formed pursuant to chapter 52.

[PL 1999, c. 656, §5 (NEW).]

PL 1999, c. 656, §5 (NEW).

§3489. Requirements applicable to a mutual holding company

1. Definitions. As used in section 3488, this section and section 3490, unless the context otherwise indicates, the following terms have the following meanings.

A. "Mutual holding company" means a mutual holding company formed pursuant to section 3488. [PL 1999, c. 656, §5 (NEW).]

B. "Outside director" means a person who is not an officer, employee or consultant of the mutual holding company, a related stock holding company, the reorganized insurer or other subsidiary of the mutual holding company or a related stock holding company. [PL 1999, c. 656, §5 (NEW).]

C. "Public offering" means an offer that includes an offer to individuals that is made by means of public advertising or general solicitation. "Public offering" does not include:

(1) Issuance of stock to the mutual holding company or any related stock holding company; or

(2) An offer or sale that is exempt from registration by virtue of Title 32, section 16202, subsections 13, 15, 16, 19 or 26. [PL 2005, c. 65, Pt. C, §11 (AMD).]

D. "Reorganized insurer" means a mutual insurer reorganized as a stock insurer pursuant to section 3488. [PL 1999, c. 656, §5 (NEW).]

E. "Stock holding company" and "related stock holding company" mean an incorporated entity that holds, directly or indirectly, at least 51% of the voting stock of a reorganized insurer. [PL 1999, c. 656, §5 (NEW).]

F. "Voting stock" means common stock with general voting rights in the election of directors. [PL 1999, c. 656, §5 (NEW).]
[PL 2005, c. 65, Pt. C, §11 (AMD).]

2. Mutual holding company formed through reorganization. The following provisions apply to a mutual holding company.

A. The provisions of Title 13-C that are applicable to a mutual insurer apply to a mutual holding company as though it were a mutual insurer. [RR 2001, c. 2, Pt. B, §44 (COR); RR 2001, c. 2, Pt. B, §58 (AFF).]

B. A mutual holding company may not dissolve, liquidate or wind up except through proceedings under this Title for the liquidation or dissolution of the reorganized insurer or as the superintendent may otherwise approve. In the event proceedings are instituted for the complete liquidation of the reorganized insurer:

(1) The mutual holding company automatically becomes a party to the proceedings;

(2) All of the mutual holding company's assets, including its holdings of shares in the reorganized insurer or any stock holding company, are deemed assets of the estate of the reorganized domestic stock insurer to the extent necessary to satisfy claims of persons who have class 1, class 2, class 3 or class 4 claims under section 4379; and

(3) Members of the mutual holding company are deemed to hold class 8 claims with respect to the mutual holding company under section 4379. [PL 1999, c. 656, §5 (NEW).]

C. The name of a mutual holding company must contain the word "mutual" and may not contain the words "insurance," "assurance" or "annuity." The mutual holding company's powers may not include doing insurance business. The articles of incorporation of a mutual holding company must contain provisions stating that:

(1) It is "a mutual holding company organized under the Maine Revised Statutes, Title 24-A, section 3488";

(2) A purpose of the mutual holding company is to hold, directly or through one or more stock holding companies, not less than 51% of the voting stock of a reorganized insurer;

(3) It is not authorized to issue voting stock;

(4) It is not authorized to conduct any business other than that of a holding company, except for the acquisition, ownership, management and disposition of its assets and all reasonably related actions; and

(5) Its members have the rights specified in, and are subject to, sections 3360, 3361, 3362, 3363, 3488, this section, the mutual holding company's articles of incorporation and its bylaws. [PL 1999, c. 656, §5 (NEW).]

D. At least a majority of the directors of the mutual holding company and any related stock holding company and any committee of the board of directors of the mutual holding company and of any related stock holding company must be outside directors. [PL 1999, c. 656, §5 (NEW).]

E. Each time voting stock of the reorganized insurer or any related stock holding company is offered in a public offering for a price payable in cash, each policyholder of the reorganized insurer must receive, without payment, nontransferable subscription rights to purchase that voting stock at the same price and in accordance with procedures approved by the superintendent as fair and equitable. [PL 1999, c. 656, §5 (NEW).]

F. At least 30 days before the issuance of any voting stock or securities convertible into voting stock of the reorganized insurer or any related stock holding company, other than in an underwritten public offering or a bona fide sale to an unrelated 3rd party, the reorganized insurer or related stock holding company shall provide to the superintendent written notice of the proposed price of those securities or the procedure whereby the price will be determined and the terms and conditions of the offering. The superintendent may disapprove the issuance of the stock or securities if the superintendent finds that the price is unfair. The superintendent's failure to make a finding on a transaction subject to this paragraph within 30 days after it has been filed with the superintendent has the effect of an approval unless the superintendent has requested supplemental information or issued a notice of hearing. [PL 1999, c. 656, §5 (NEW).]

G. The stock holding company or the reorganized insurer may not award any stock options or stock grants to officers or directors of the mutual holding company, the stock holding company or the reorganized insurer until 6 months after the completion of either a public offering or private placement of voting stock or securities convertible into voting stock of the reorganized insurer or a related stock holding company to any person other than the mutual holding company or the stock holding company. [PL 1999, c. 656, §5 (NEW).]

H. The aggregate percentage of voting stock of the reorganized insurer or any related stock holding company directly or indirectly owned or controlled by outside directors may not exceed 18%, unless the reorganized insurer or the related stock holding company has provided at least 30 days' prior written notice to the superintendent and the superintendent has not objected to a higher percentage. [PL 1999, c. 656, §5 (NEW).]

I. The aggregate percentage of voting stock of the reorganized insurer or any related stock holding company directly or indirectly owned or controlled by directors and officers of the mutual holding company, a related stock holding company or the reorganized insurer who are also employed by any of the foregoing may not exceed 18% of the voting stock of the reorganized insurer or any related stock holding company, unless the reorganized insurer or the related stock holding company has provided 30 days' prior written notice to the superintendent and the superintendent has not objected to a higher percentage. [PL 1999, c. 656, §5 (NEW).]

J. A trust established in connection with an employee stock ownership plan or other employee benefit plan established for the benefit of employees of the reorganized insurer, a related stock holding company or the mutual holding company may not directly or indirectly own or control, in the aggregate, more than 10% of the voting stock of the stock holding company or the reorganized insurer, unless the reorganized insurer or the related stock holding company has provided 30 days' prior written notice to the superintendent and the superintendent has not objected to a higher percentage. The holdings of any such employee stock ownership plan or other employee benefit plan that are allocated to directors and officers who are employees must be included in determining compliance with paragraph I. [PL 1999, c. 656, §5 (NEW).]

K. A person may not own or control, directly or indirectly, more than 15% of any class of voting stock of the reorganized insurer or any related stock holding company without the prior approval of the superintendent. [PL 1999, c. 656, §5 (NEW).]

L. All voting stock of the reorganized insurer or any related stock holding company acquired by any person in excess of the maximum amount permitted to be acquired by that person pursuant to this subsection is deemed to be nonvoting stock for so long as it is held by any person in excess of those limitations. In addition to any other enforcement powers of the superintendent under this Title, a violation of the limitations of ownership may be enforced or enjoined, as the case may be, by appropriate proceedings commenced by the reorganized insurer or any related stock holding company, the superintendent, the attorney general, any member of the mutual holding company or any stockholder of the reorganized insurer or of any related stock holding company. The action

must be commenced in the Kennebec County Superior Court or the superior court in the jurisdiction of which the reorganized insurer has its home office, and the court may issue any order, injunctive or otherwise, that it finds necessary to cure the violation or to prevent the action. [PL 1999, c. 656, §5 (NEW).]

M. A mutual holding company and a related stock holding company are each deemed to be a holding company of the reorganized insurer within the meaning of section 222, and all provisions of that section apply to transactions occurring between the mutual holding company, the stock holding company and the reorganized insurer. Approval of the plan of reorganization by the superintendent pursuant to section 3488 is considered approval of the acquisition of control by a mutual holding company and any related stock holding company under sections 222 and 3476. [PL 1999, c. 656, §5 (NEW).]

N. For purposes of the limitations on ownership or control of voting stock contained in this subsection, any issued and outstanding securities that represent the right to acquire or that are convertible into voting stock, including warrants, options and rights to purchase voting stock, are deemed to represent the number of shares of voting stock issuable upon conversion or exercise of such securities or rights for the purposes of both the number of shares owned or controlled by a person and the total number of shares of voting stock outstanding.

For purposes of determining ownership or control of voting stock, the indirect ownership of stock in the reorganized insurer by virtue of having an ownership interest in the mutual holding company may not be considered. [PL 1999, c. 656, §5 (NEW).]

[RR 2001, c. 2, Pt. B, §44 (COR); RR 2001, c. 2, Pt. B, §58 (AFF).]

3. Merger or consolidation by mutual holding company or stock holding company. With the written approval of the superintendent, a mutual holding company or stock holding company may:

A. Merge or consolidate with or acquire the assets of a mutual holding company organized pursuant to this chapter or pursuant to the mutual holding company laws of another state; [PL 1999, c. 656, §5 (NEW).]

B. Either alone or together with one or more of the reorganized insurers or stock holding companies or subsidiaries of any of them, merge or consolidate with or acquire the assets of a mutual insurer; or [PL 1999, c. 656, §5 (NEW).]

C. Merge or consolidate with any other person. [PL 1999, c. 656, §5 (NEW).]
[PL 1999, c. 656, §5 (NEW).]

4. Merger with another mutual holding company. If a mutual holding company merges with a mutual holding company organized under the laws of another state or acquires the membership interests in a foreign mutual insurer, that merger or acquisition must comply with the requirements of Maine law and rules and of any other state's law, rule or regulation that is applicable to the foreign mutual holding company or mutual insurer. In the event of a conflict of state laws, rules or regulations, Maine laws and rules apply. A foreign mutual insurer that is merged or acquired pursuant to this section may at the same time redomesticate to this State by complying with the applicable requirements of this State and of the foreign mutual insurer's state of domicile.
[PL 1999, c. 656, §5 (NEW).]

5. Acquisition of stock or assets of other persons. A mutual holding company may acquire the capital stock or assets of other persons.
[PL 1999, c. 656, §5 (NEW).]

6. Membership interest. A membership interest in a mutual holding company does not constitute a security under Title 32, section 16102, subsection 28 or any other law of this State and is not transferable.
[PL 2005, c. 65, Pt. C, §12 (AMD).]

7. Election of directors. Directors of the mutual holding company must be elected by plurality vote of all members voting in that election in person or by proxy. If the mutual holding company takes any action, other than election of its directors, that would require a vote of policyholders if the mutual holding company were a mutual insurer, then that action requires a vote of members of the mutual holding company.

§3490. Conversion of mutual holding company

1. Approval of reorganization plan. A mutual holding company may be reorganized in accordance with a plan of reorganization:

A. Approved by the superintendent, if the superintendent finds the plan to be fair and equitable, after a hearing of which notice has been given to the company's members pursuant to section 230; and [PL 1999, c. 656, §5 (NEW).]

B. Approved by vote of not less than 2/3 of the company's members voting on the plan in person, by proxy or by mail at a meeting of members called by the company for that purpose. The mutual holding company shall provide reasonable notice to its members and determine the procedure for the meeting, subject to approval by the superintendent. The plan must specify that only persons who were members both at least one year before the submission of the plan and on a subsequent date before the vote found reasonable by the superintendent are entitled to vote. Each member is entitled to one vote. [PL 1999, c. 656, §5 (NEW).]

[PL 1999, c. 656, §5 (NEW).]

2. Membership interests disposition. A plan of reorganization pursuant to subsection 1 must provide for extinguishment of the membership interests in the mutual holding company and may provide for either:

A. The conversion of the mutual holding company into a stock corporation, in which event the consideration, if any, distributed to members of the mutual holding company must be equal to that required under section 3477; or [PL 1999, c. 656, §5 (NEW).]

B. The distribution to eligible members of the mutual holding company of consideration consisting of all assets of the mutual holding company, including all stock of the reorganized insurer or any stock holding company owned by the mutual holding company, or other consideration having equivalent aggregate value. The form of the other consideration may be cash, securities, additional insurance or annuity benefits or policy credits, increased dividends or other consideration. All such consideration must be allocated among eligible members of the mutual holding company in a manner that is fair and equitable to the company's members. [PL 1999, c. 656, §5 (NEW).]

Enemy attack could seriously disrupt the management functions of an insurance organization. Prompt resumption of insurance operations following attack is in the public interest and requires provisions for the continuity of management. [PL 1969, c. 132, §1 (NEW).]

This chapter does not and shall not be construed to limit the powers of, or permit or require, any insurance organization which is not domiciled in this State or of any branch office, or agents of such insurance organization, or the directors, officers, members, policyholders or stockholders of any such organization to act, or fail to act, in such fashion as would violate the laws of the jurisdiction wherein such organization has its domicile. §3553. Emergency bylaws

1. With the approval of the superintendent, any domestic organization may, at any time, adopt, in the same manner as in the case of ordinary bylaws, emergency bylaws to become operative during a period of acute emergency. Emergency bylaws may contain provisions with respect to the number of directors capable of acting which shall constitute its board, the number of such directors which shall constitute a quorum at a meeting of the board, the number of votes necessary for action by such board, the manner in which vacancies on the board shall be filled, the line of succession of its officers, and the interim management of the affairs of the insurance organization; such provisions, if approved by the superintendent, need not comply with the requirement of the charter of such domestic organization or of the insurance or incorporation laws of this State.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. Section 3554 and section 3555, subsections 2 to 6 shall not be applicable during a period of acute emergency to any domestic organization operating in accordance with and under emergency bylaws theretofore approved by the superintendent.

SECTION HISTORY

PL 1969, c. 132, §1 (NEW). PL 1973, c. 585, §12 (AMD).

§3554. Change of location; emergency boards of directors

Notwithstanding any provision of its charter, any domestic insurance organization, without complying with any provision of law requiring approval, or application for approval, of a change of location of its principal office may, from time to time, change the location thereof during an acute emergency to a suitable location within the United States, and may carry on its business at such new location during such acute emergency, and for a reasonable time thereafter. Any insurance organization which changes the location of its principal office during an acute emergency shall notify the superintendent thereof in writing as soon as practical, stating the address of the new location, the address of the former location, and the dates when business is ceasing at the former location and commencing at the latter location. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

Notwithstanding any contrary provision of law or with its charter, if at any time during an acute emergency affecting any domestic insurance organization, no person otherwise empowered to call

meetings of the board is capable of acting, a meeting thereof may be called by any director or acting director or if no director or acting director is capable of acting, by any officer or acting officer. If it shall be impracticable or impossible to give notice of a meeting of the board in the manner prescribed by charter and law, other than this chapter, the person calling such a meeting may give notice thereof by making such reasonable efforts as circumstances may permit to notify each director and acting director of the time and place of the meeting, but need not specify the purposes thereof. Failure of any director or acting director to receive actual notice of a meeting of directors and acting directors shall not affect the power of the directors and acting directors present at such meeting to exercise the powers of an emergency board of directors as prescribed in this section. Nothing in this chapter shall be construed as requiring a meeting of the board of such an organization to be convened in any manner different from that prescribed by its charter and by the provisions of law other than this chapter. [PL 1969, c. 132, §1 (NEW).]

If 3 or more directors and acting directors of any domestic insurance organization are present at any meeting of its board duly convened during an acute emergency affecting such domestic insurance organization, they shall constitute its emergency board of directors which, notwithstanding any contrary provision of law or of its charter, shall have the power, subject to the limitations prescribed by this chapter, by a majority of those present, to take any and every action which may be necessary to enable such domestic insurance organization to meet the exigencies of the acute emergency and conduct its business during such period, but no other powers. The powers of an emergency board of directors shall include, but shall not be limited to, the following powers: [PL 1969, c. 132, §1 (NEW).]

1. Fill vacancies and absentees. At any meeting, to elect such acting directors as it may deem necessary, without regard to the number of directors which would otherwise be required, to serve in any positions on such board which are vacant or in place of any directors or acting directors who are absent from such meeting, but not to elect any director on a permanent basis; [PL 1969, c. 132, §1 (NEW).]

2. Acting officers and duties. To elect such acting officers as it may deem necessary, without regard to the number of officers which would otherwise be required, to serve in any offices which are vacant or in place of any officers or acting officers who fail to appear and assume their duties, to fix the compensation and determine the powers and duties of acting officers and to remove acting officers but not to remove any officer or to fill any vacancy on a permanent basis or to cause the insurance organization to enter into any contract of employment for a term in excess of one year; [PL 1969, c. 132, §1 (NEW).]

3. Change of location. To cause the insurance organization to change the location of its principal office, pursuant to this section, or any of its places of business, and to authorize such action as it may deem appropriate to acquire space and facilities at new locations, but not to acquire for use as its principal office property in fee or for a term in excess of one year; [PL 1969, c. 132, §1 (NEW).]

4. Postpone meetings. To postpone any meeting of the stockholders, policyholders or members or directors of such organization if, in the judgment of majority of the members of such emergency board of directors, it would be impracticable to hold such meeting at the time it would otherwise have been held or conducted; [PL 1969, c. 132, §1 (NEW).]

5. Call meetings. If it shall appear to an emergency board of directors that a quorum of the board cannot be assembled within a reasonable time, to call a meeting of the stockholders, policyholders or members of the insurance organization to be held as soon as the circumstances may reasonably permit, at a place to be designated by the emergency board of directors within this State or a contiguous state, for the purpose of electing directors to fill vacancies on the board, but for no other purpose, and to propose nominees for such election. Any such meetings of stockholders, policyholders or members

shall be held upon notice given in accordance with the charter of the organization and applicable law other than this section.

[PL 1969, c. 132, §1 (NEW).]

As soon as practicable after each meeting of an emergency board of directors, the person who presided thereat shall notify the superintendent in writing of the time and place of such meeting, of the manner in which notice thereof was given, of the persons present and of all actions taken at such meeting. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

A person prohibited by law or by the charter of a domestic insurance organization from serving as a member of its board is not eligible to serve as an acting director, except that a person is not disqualified to serve as an acting director by reason of the person's not being a stockholder, policyholder or member of such insurance organization, by reason of the person's not being a resident of this State or of a contiguous state, or by reason of the number of directors or acting directors who are officers, acting officers or employees of the insurance organization. Any person may serve as an acting director of a fund who is a director, acting director, officer or acting officer of an organization that is a party to the agreement creating the fund. An oath of acting directors is not required. [RR 2021, c. 1, Pt. B, §302 (COR).]

Acting directors elected under this section or appointed under section 3555 are entitled to vote at all meetings of emergency board of directors equally with directors. Acting directors are not entitled to take part in the deliberations or to vote at any meeting of the board that is duly convened in accordance with the applicable provisions of its charter and of law other than this chapter and at which a quorum is present. Each acting director shall serve until the director or acting director in whose place the acting director was elected or appointed attends the meeting of the board or until the director is duly elected to fill the vacancy in which such acting director has been serving, whichever event occurs earlier. An acting director is entitled to the compensation, if any, payable to a director. [RR 2021, c. 1, Pt. B, §303 (COR).]

Acting officers elected pursuant to this section have powers and duties and receive such compensation as may from time to time be determined by the emergency board of directors. Each acting officer shall serve until the officer in whose place the acting officer was elected appears and assumes the officer's duties or until the officer's successor officer or acting officer is elected, whichever event occurs earlier. [RR 2021, c. 1, Pt. B, §304 (COR).]

This section shall not be deemed applicable during a period of acute emergency to any domestic organization operating in accordance with and under emergency bylaws theretofore approved by the superintendent. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

SECTION HISTORY

PL 1969, c. 132, §1 (NEW). PL 1973, c. 585, §12 (AMD). RR 2021, c. 1, Pt. B, §§302-304 (COR).

§3555. Powers of the superintendent

1. Designate additional acting directors. If at any time during an acute emergency, the number of directors or acting directors of a domestic insurance organization who are capable of acting shall be less than 3, as determined by the superintendent after a reasonable investigation, the superintendent shall have the power to designate additional acting directors in such number as will bring to 3 the number of directors and acting directors who are capable of acting. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. Resolve controversies. To resolve controversy as to the power of any group of persons purporting to act as an emergency board of directors so to act, the superintendent shall, upon a determination that such action will tend to promote the safe and sound and orderly conduct of the business of any domestic insurance organization, have power to issue orders declaring that any such

group shall or shall not have the powers of an emergency board of directors, or confirming, modifying or vacating in whole or in part any action taken or purportedly taken by any such group or by removing any acting director.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. Declare provisions of law operative or inoperative. At any time after an attack, upon the superintendent's determination that such action will tend to promote certainty as to the powers of insurance organizations or individuals pursuant to this chapter or that such action is desirable to enable insurance organizations to take preparatory precautions prior to the occurrence of an acute emergency, the superintendent has power to declare that any provision of this chapter that the superintendent specifies is operative with respect to any domestic insurance organization or to the Maine business of any other insurance organization that the superintendent may designate. Upon such declaration such organization and its directors, officers, acting directors and acting officers have all powers conferred by this chapter. The failure of the superintendent so to declare may not be construed to limit the powers of any organization or its directors, officers, acting directors or acting officers when an acute emergency exists in fact.

At any time after the commencement of an acute emergency or after the superintendent declares any provision of this chapter operative under this subsection upon the superintendent's determination that an insurance organization is able, in whole or in part, to carry on its business in compliance with its charter and the laws, other than this chapter, the superintendent has power to declare that any provision of this chapter that the superintendent specifies is inoperative with respect to any domestic insurance organization or in the Maine business of any other insurance organization that the superintendent may designate. Upon such declaration, such organization is governed by its charter and the provisions of law other than this chapter, except insofar as they remain inoperative.

[RR 2021, c. 1, Pt. B, §305 (COR).]

4. Possession of business and property. Upon the determination that, as a result of an acute emergency, the business and affairs of an insurance organization cannot otherwise be conducted in a safe and sound manner, the superintendent may forthwith take possession of the business and property of the insurance organization within this State or, if a domestic insurance organization, its business and property wherever situated. This chapter is applicable in any case in which the superintendent takes possession of an insurance organization under this subsection as though the insurance organization were an insurer of which the superintendent had taken possession under this chapter, except that any such provision is not applicable that the superintendent has declared inapplicable under this subsection. The superintendent has power to declare inapplicable any such provision upon the superintendent's determination that the same is inappropriate or unnecessary to protect the interest of the public or the stockholders or creditors of the insurance organization, in view of the acute emergency and the nature of the organization.

[RR 2021, c. 1, Pt. B, §306 (COR).]

5. When powers exercised. The powers given the superintendent by subsections 2 and 4 may be exercised by the superintendent only in the event that there is not a court of competent jurisdiction available to which an application can be made for an order permitting the superintendent to exercise such powers with respect to a particular insurance organization. The powers conferred by subsection 4 may not be exercised in a case of an insurance organization that is not insolvent within the meaning of this chapter, unless the superintendent finds that such insurance organization lacks personnel able to manage its business in the interest of the public stockholders and policyholders.

[RR 2021, c. 1, Pt. B, §307 (COR).]

6. Regulations. The superintendent shall have power to issue general and specific regulations, directives and orders consistent with and in furtherance of the purposes of this chapter.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

§3556. General provisions

1. Presumption. In any action or proceeding it shall be presumed that an acute emergency existing within any city or county within this State constitutes an acute emergency affecting every insurance organization doing business within such city or county.

[PL 1969, c. 132, §1 (NEW).]

2. Powers of board. During an acute emergency the board of a domestic insurance organization which has adopted emergency bylaws approved by the superintendent shall have all of the powers conferred by such bylaws, and no other or different powers with respect to the subject matter of this chapter, and the board of a domestic insurance organization which has not adopted emergency bylaws approved by the superintendent shall have all of the powers of an emergency board of directors as the same are provided for under this chapter.

§3603. Mutual assessment plans; definitions

1. For the purposes of this Title a mutual assessment insurer is a mutual insurer which is doing business on:

A. A post-loss assessment plan; or [PL 1969, c. 132, §1 (NEW).]

B. On an advance assessment or contingent liability plan. [PL 1969, c. 132, §1 (NEW).]
[PL 1969, c. 132, §1 (NEW).]

2. A post-loss assessment plan insurer is one which depends in whole or substantial part on regular or special assessments levied upon its members after a loss or series of losses for payment of losses and expenses. A post-loss assessment plan insurer may collect from each member such initial amount as it may deem proper prior to or at the time of the effectuation of the member's insurance. Future regular or special assessments may be secured by use of a premium note signed by the policyholder.
[PL 1969, c. 132, §1 (NEW).]

3. An advance assessment plan insurer shall by its bylaws and policies fix the contingent mutual liability of its members for the payment of losses and expenses not provided for by its cash funds; but such contingent liability of a member shall not be less than one or more than 6 times the advance assessment for the member's policy at the annual advance assessment rate for a term of one year. Such an advance assessment plan insurer may issue both assessable and nonassessable advance cash premium policies. Any assessment, special or regular, levied under the contingent liability provisions of this chapter shall be for the exclusive benefit of the holders of policies subject to assessment, and such policyholders shall not be liable to an assessment in an amount greater in proportion to the total deficiency than the ratio that the deficiency attributable to the assessable business bears to the total deficiency.
[PL 1969, c. 132, §1 (NEW).]

§3873. Nonassessable policies

1. [RR 2021, c. 1, Pt. B, §320 (COR).]

2. Upon impairment of such surplus, the superintendent shall forthwith revoke the certificate. Such revocation shall not render subject to contingent liability any policy then in force and for the remainder of the period for which the premium has theretofore been paid; but after such revocation no policy shall be issued or renewed without providing for contingent assessment liability of the subscriber.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

3. The superintendent shall not authorize a domestic reciprocal insurer so to extinguish the contingent liability of any of its subscribers or in any of its policies to be issued, unless it qualified to and does extinguish such liability of all its subscribers and in all such policies for all kinds of insurance transacted by it. Except, that if required by the laws of another state in which the insurer is transacting insurance as an authorized insurer, the insurer may issue policies providing for the contingent liability

of such of its subscribers as may acquire such policies in such state, and need not extinguish the contingent liability applicable to policies theretofore in force in such state.

[PL 1969, c. 132, §1 (NEW).]

3. The superintendent may not approve any plan for such merger or conversion that is inequitable to subscribers, or that, if for conversion to a stock insurer, does not give each subscriber preferential right to acquire stock of the proposed insurer proportionate to the subscriber's interest in the reciprocal insurer as determined in accordance with section 3874 and a reasonable length of time within which to exercise such right.

1. If the assets of a domestic reciprocal insurer are at any time insufficient to discharge its liabilities, other than any liability on account of funds contributed by the attorney or others, and to maintain the required surplus, its attorney shall forthwith make up the deficiency or levy an assessment upon the subscribers for the amount needed to make up the deficiency; but subject to the limitation set forth in the power of attorney or policy.

[PL 1969, c. 132, §1 (NEW).]

2. If the attorney fails to make up such deficiency or to make the assessment within 30 days after the superintendent orders the attorney to do so or if the deficiency is not fully made up within 60 days after the date the assessment was made, the insurer must be deemed insolvent and must be proceeded against as authorized by this Title.

[RR 2021, c. 1, Pt. B, §322 (COR).]

3. If liquidation of such an insurer is ordered, an assessment shall be levied upon the subscribers for such an amount, subject to limits as provided by this chapter, as the superintendent determines to

[PL 2011, c. 90, Pt. B, §8 (NEW).]

4. Review for solvency. An annual review of the association for solvency must be performed by an independent certified public accountant using generally accepted accounting principles. [PL 2011, c. 90, Pt. B, §8 (NEW).]

2. Contract with administrator. The administrator selected pursuant to subsection 1 serves for a period of 3 years pursuant to a contract with the association. At least one year prior to the expiration of that 3-year period of service, the board shall invite all insurers, including the current administrator, to submit bids to serve as the administrator for the succeeding 3-year period. The board shall select the administrator for the succeeding period at least 6 months prior to the ending of the 3-year period.

[PL 2011, c. 90, Pt. B, §8 (NEW).]

§3957. Assessments against insurers

1. Assessments. For the purpose of providing the funds necessary to carry out the powers and duties of the association under section 3955, the board shall assess insurers at such a time and for such amounts as the board finds necessary. Assessments are due not less than 30 days after written notice to the insurers and accrue interest at 12% per annum on and after the due date.

[PL 2011, c. 90, Pt. B, §8 (NEW).]

2. Maximum assessment. The board shall assess each insurer an amount not to exceed \$4 per month per covered person enrolled in medical insurance insured, reinsured or administered by the insurer. An insurer may not be assessed on policies or contracts insuring federal or state employees except for policies or contracts insuring Legislators and their dependents. For policies or contracts insuring Legislators and their dependents, Legislators shall pay the amount of the assessment to the insurer.

[PL 2011, c. 452, §1 (AMD).]

3. Determination of assessment. The board shall make reasonable efforts to ensure that each covered person is counted only once with respect to an assessment. For that purpose, the board shall require each insurer that obtains excess or stop loss insurance to include in its count of covered persons all persons whose coverage is insured, in whole or in part, through excess or stop loss coverage. The board shall allow a reinsurer to exclude from its number of covered persons those who have been counted by the primary insurer or by the primary reinsurer or primary excess or stop loss insurer for the purpose of determining its assessment under this subsection. The board may verify the amount of each insurer's assessment based on annual statements and other reports determined to be necessary by the board. The board may use any reasonable method of estimating the number of covered persons of an insurer if the specific number is not reported.

[PL 2011, c. 90, Pt. B, §8 (NEW).]

4. Organizational assessments. The board may assess insurers for the purpose of organizing the association. Organizational assessments must be equal in amount for all insurers but may not exceed \$500 per insurer for all such assessments.

[PL 2011, c. 90, Pt. B, §8 (NEW).]

5. Assessments to cover net losses. In addition to the assessment described in subsections 1 to 3, the board shall assess insurers at such a time and for such amounts as the board finds necessary to cover any net loss in an amount not to exceed \$2 per month per covered person enrolled in medical insurance insured, reinsured or administered by the insurer in accordance with this subsection.

A. Before April 1st of each year, the association shall determine and report to the superintendent the association's net losses for the previous calendar year, including administrative expenses and incurred losses for the year, taking into account investment income and other appropriate gains and losses and an estimate of the assessments needed to cover the losses incurred by the association in the previous calendar year. [PL 2011, c. 90, Pt. B, §8 (NEW).]

B. [PL 2011, c. 621, §3 (RP).]

C. The association shall impose a penalty of interest on insurers for late payment of assessments. [PL 2011, c. 90, Pt. B, §8 (NEW).]

D. An insurer may not be assessed on policies or contracts insuring federal or state employees, except for policies or contracts insuring Legislators and their dependents. Any assessment required under this subsection on policies or contracts insuring Legislators and their dependents must be paid as provided in subsection 2. [PL 2011, c. 452, §2 (NEW).]
[PL 2011, c. 621, §3 (AMD).]

6. Deferral of assessment. An insurer may apply to the superintendent for a deferral of all or part of an assessment imposed by the association under this section. The superintendent may defer all or part of the assessment if the superintendent determines that the payment of the assessment would place the insurer in a financially impaired condition. If all or part of the assessment is deferred, the amount deferred must be assessed against other insurers in a proportionate manner consistent with this section. The insurer that receives a deferral remains liable to the association for the amount deferred and is prohibited from reinsuring any person through the association until such time as the insurer pays the assessments.
[PL 2011, c. 90, Pt. B, §8 (NEW).]

7. Excess funds. If assessments and other receipts by the association, board or administrator selected pursuant to section 3956 exceed the actual losses and administrative expenses of the association, the board shall hold the excess at interest and shall use those excess funds to offset future losses or to make adjustments to a reinsurance program operated pursuant to section 3953. As used in this subsection, "future losses" includes reserves for claims incurred but not reported.
[PL 2021, c. 361, §4 (AMD).]

8. Failure to pay assessment. The superintendent may suspend or revoke, after notice and hearing, the certificate of authority to transact insurance in this State of any member insurer that fails to pay an assessment. As an alternative, the superintendent may levy a penalty on any insurer that fails to pay an assessment when due. In addition, the superintendent may use any power granted to the superintendent by this Title to collect any unpaid assessment.
[PL 2011, c. 90, Pt. B, §8 (NEW).]

9. Federal funding; reduction of assessment.

§3958. Reinsurance; premium rates

1. Reinsurance amount. A member insurer offering an individual health plan under section 2736-C must be reinsured by the association to the level of coverage provided in this subsection and is liable to the association for any applicable reinsurance premium at the rate established in accordance with subsection 2. For calendar year 2023 and subsequent calendar years, the association shall also reinsure member insurers for small group health plans issued under section 2808-B, unless otherwise provided in rules adopted by the superintendent pursuant to section 2792, subsection 5.

A. Beginning July 1, 2012, except as otherwise provided in paragraph A-1, the association shall reimburse a member insurer for claims incurred with respect to a person designated for reinsurance by the member insurer pursuant to section 3959 after the insurer has incurred an initial level of claims for that person of \$7,500 for covered benefits in a calendar year. In addition, the insurer is responsible for 10% of the next \$25,000 of claims paid during a calendar year. The amount of

reimbursement is 90% of the amount incurred between \$7,500 and \$32,500 and 100% of the amount incurred in excess of \$32,500 for claims incurred in that calendar year with respect to that person. For calendar year 2012, only claims incurred on or after July 1st are considered in determining the member insurer's reimbursement. With the approval of the superintendent, the association may annually adjust the initial level of claims and the maximum limit to be retained by the insurer to reflect changes in costs, utilization, available funding and any other factors affecting the sustainable operation of the association. [PL 2019, c. 653, Pt. B, §18 (AMD).]

A-1. In any plan year in which a pooled market is operating in accordance with section 2792, the association shall operate a retrospective reinsurance program providing coverage to member insurers for all individual and small group health plans issued in this State in that plan year. For plan years beginning in 2022, if the pooled market has not been implemented pursuant to section 2792, subsection 5, the association may operate a retrospective reinsurance program for individual health plans, subject to the approval of the superintendent.

(1) The association shall reimburse member insurers based on the total eligible claims paid during a calendar year for a single individual in excess of the attachment point specified by the board. The board may establish multiple layers of coverage with different attachment points and different percentages of claims payments to be reimbursed by the association.

(2) Eligible claims by all individuals enrolled in individual or small group health plans in this State may not be disqualified for reimbursement on the basis of health conditions, predesignation by the member insurer or any other differentiating factor.

(3) The board shall annually review the attachment points and coinsurance percentages and make any adjustments that are necessary to ensure that the retrospective reinsurance program operates on an actuarially sound basis.

(4) The board shall ensure that any surplus in the retrospective reinsurance program at the conclusion of a plan year is used to lower attachment points, increase coinsurance rates or both for that plan year, consistent with its responsibility to ensure that the program operates on an actuarially sound basis. [PL 2019, c. 653, Pt. B, §18 (NEW).]

B. A member insurer shall apply all managed care, utilization review, case management, preferred provider arrangements, claims processing and other methods of operation without regard to whether claims paid for coverage are reinsured under this subsection. A member insurer shall report for each plan year the name of each high-priced item or service for which its payment exceeded the amount allowed for eligible claims and the name of the provider that received this payment. The association shall annually compile and publish a list of all reported names. [PL 2019, c. 653, Pt. B, §18 (AMD).]

[PL 2021, c. 361, §5 (AMD).]

2. Premium rates. The association, as part of the plan of operation under section 3953, subsection 3, shall establish a methodology for determining premium rates to be charged member insurers to reinsure persons eligible for coverage under this chapter. The methodology must include a system for classification of persons eligible for coverage that reflects the types of case characteristics used by insurers for individual health plans pursuant to section 2736-C, together with any additional rating factors the association determines to be appropriate. The methodology must provide for the development of base reinsurance premium rates, subject to approval of the superintendent, set at levels that, together with other funds available to the association, will be sufficient to meet the anticipated costs of the association. The association shall periodically review the methodology established under this subsection and may make changes to the methodology as needed with the approval of the superintendent. The association may consider adjustments to the premium rates charged for reinsurance to reflect the use of effective cost containment and managed care arrangements by an insurer. This subsection does not apply to reinsurance with respect to any calendar year for which the association

operates a retrospective reinsurance program under subsection 1, paragraph A-1. With the approval of the superintendent, the association's plan of operation for a retrospective reinsurance program may include a provision for charging premium on an equitable basis to all member insurers.

§3959. Designation for reinsurance

1. Designation. The association shall provide reinsurance to a member insurer for a person designated for reinsurance by a member insurer, if the designation was made:

A. By using the person's claims history or risk scores or any other reasonable means; [PL 2019, c. 653, Pt. B, §19 (AMD).]

B. As a mandatory designation pursuant to subsection 2 on the basis of the existence or history of any medical or health condition on the list developed by the board pursuant to subsection 2; or [PL 2011, c. 621, §6 (NEW).]

C. On the basis of an omission of material information from the health statement developed by the board pursuant to section 3955, subsection 1, paragraph E or misrepresentation of the person's health status on the health statement. [PL 2011, c. 621, §6 (NEW).]

[PL 2019, c. 653, Pt. B, §19 (AMD).]

2. Mandatory designation. The board shall develop a list of medical or health conditions for which a person must be designated for reinsurance by a member insurer. If a person's health statement, claims history or risk scores demonstrate the existence or history of any medical or health conditions on the list developed by the board at the time the plan is issued or when the person is added to the plan, the member insurer shall designate the person for reinsurance. The board may amend the list from time to time as appropriate.

[PL 2011, c. 621, §6 (AMD).]

3. Enrolling additional persons. A member insurer may designate a person for reinsurance pursuant to this section when the person is added to an individual health plan.

[PL 2011, c. 621, §6 (NEW).]

4. Designation effective date and premium. The designation of a person for reinsurance is effective as of the effective date of the primary coverage provided by the member insurer, except that the earliest effective date for any reinsurance is July 1, 2012. A member insurer's premium for reinsurance begins to accrue as of the effective date of the designation.

[PL 2011, c. 621, §6 (NEW).]

5. Inapplicability. This section does not apply to reinsurance with respect to any calendar year for which the association operates a retrospective reinsurance program under section 3958, subsection 1, paragraph A-1.

The certificate, together with any riders or endorsements attached thereto, the charter or articles of incorporation, the constitution and laws of the society, the application for membership, and declaration of insurability, if any, signed by the applicant, and all amendments to each thereof, shall constitute the agreement, as of the date of issuance, between the society and the member, and the certificate shall so state. Any changes, additions or amendments to the charter or articles of incorporation, constitution or laws duly made or enacted subsequent to the issuance of the certificate, shall bind the member and the beneficiaries, and shall govern and control the agreement in all respects the same as though such changes, additions or amendments had been made prior to and were in force at the time of the application for membership, except that no change, addition or amendment shall destroy or diminish benefits which the society contracted to give the member as of the date of issuance. [PL 1969, c. 132, §1 (NEW).]

§4120. Life benefit certificate provisions, standard and prohibited

A life benefit certificate may not be delivered or issued for delivery in this State unless a copy of the form has been filed with the superintendent and approved by the superintendent as conforming to the requirements of this section and not inconsistent with any other provisions of law applicable thereto. For each such form filing, the society shall pay the superintendent a fee that must be the same as for an insurer, as provided in section 601. A certificate is deemed approved unless disapproved by the superintendent within 60 days from the date of that filing. [RR 2021, c. 1, Pt. B, §328 (COR).]

1. The certificate shall contain in substance the following standard provisions or, in lieu thereof, provisions which are more favorable to the member:

A. Title on the face and filing page of the certificate clearly and correctly describing its form; [PL 1969, c. 132, §1 (NEW).]

B. A provision stating the amount of rates, premiums or other required contributions, by whatever name known, which are payable by the insured under the certificate; [PL 1969, c. 132, §1 (NEW).]

C. A provision that the member is entitled to a grace period of not less than a full month, or 30 days at the option of the society, in which the payment of any premium after the first may be made. During such grace period the certificate shall continue in full force, but in case the certificate becomes a claim during the grace period before the overdue payment is made, the amount of such

overdue payment or payments may be deducted in any settlement under the certificate; [PL 1969, c. 132, §1 (NEW).]

D. A provision that the member shall be entitled to have the certificate reinstated at any time within 3 years from the due date of the premium in default, unless the certificate has been completely terminated through the application of a nonforfeiture benefit, cash surrender value or certificate loan, upon the production of evidence of insurability satisfactory to the society and the payment of all overdue premiums with interest at a rate not exceeding 6% per annum compounded annually, and the payment or reinstatement of any other indebtedness to the society upon the certificate with interest at a rate determined under the terms of the certificate in accordance with sections 2552 to 2554; [PL 1981, c. 188, §5 (AMD).]

E. Except in the case of pure endowment, annuity or reversionary annuity contracts, reducing term insurance contracts, or contracts of term insurance of uniform amount of 15 years or less expiring before age 66, a provision that, in the event of default in payment of any premium after 3 full years' premiums have been paid or after premiums for a lesser period have been paid if the contract so provides, the society will grant, upon proper request not later than 60 days after the due date of the premium in default, a paid-up nonforfeiture benefit on the plan stipulated in the certificate, effective as of such due date, of such value as specified in this chapter. The certificate may provide, if the society's laws so specify or if the member shall so elect prior to the expiration of the grace period of any overdue premium, that default shall not occur so long as premiums can be paid under the provisions of an arrangement for automatic premium loan as may be set forth in the certificate; [PL 1969, c. 132, §1 (NEW).]

F. A provision that one paid-up nonforfeiture benefit as specified in the certificate shall become effective automatically unless the member elects another available paid-up nonforfeiture benefit, not later than 60 days after the due date of the premium in default; [PL 1969, c. 132, §1 (NEW).]

G. A statement of the mortality table and rate of interest used in determining all paid-up nonforfeiture benefits and cash surrender options available under the certificate, and a brief general statement of the method used in calculating such benefits; [PL 1969, c. 132, §1 (NEW).]

H. A table showing in figures the value of every paid-up nonforfeiture benefit and cash surrender option available under the certificate for each certificate anniversary either during the first 20 certificate years or during the term of the certificate whichever is shorter; [PL 1969, c. 132, §1 (NEW).]

I. A provision that the certificate shall be incontestable after it has been in force during the lifetime of the member for a period of 2 years from its date of issue except for nonpayment of premiums, violation of the provisions of the certificate relating to military, aviation or naval service and violation of the provisions relating to suspension or expulsion as substantially set forth in the certificate. At the option of the society, supplemental provisions relating to benefits in the event of temporary or permanent disability or hospitalization and provisions which grant additional insurance specifically against death by accident or accidental means may also be excepted. The certificate shall be incontestable on the ground of suicide after it has been in force during the lifetime of the member for a period of 2 years from date of issue. The certificate may provide, as to statements made to procure reinstatement, that the society shall have the right to contest a reinstated certificate within a period of 2 years from date of reinstatement with the same exceptions as herein provided; [PL 1969, c. 132, §1 (NEW).]

J. A provision that in case the age or sex of the member or of any other person is considered in determining the premium and it is found at any time before final settlement under the certificate that the age or sex has been misstated, and the discrepancy and premium involved have not been adjusted, the amount payable shall be such as the premium would have purchased at the correct age and sex; but if the correct age or sex was not an insurable age or sex under the society's charter or

laws, only the premiums paid to the society, less any payments previously made to the member, shall be returned or, at the option of the society, the amount payable under the certificate shall be such as the premium would have purchased at the correct age and sex according to the society's promulgated rates and any extension thereof based on actuarial principles; [PL 1969, c. 132, §1 (NEW).]

K. A provision or provisions which recite fully, or which set forth the substance of, all sections of the charter, constitution, laws, rules or regulations of the society, in force at the time of issuance of the certificate, the violation of which will result in the termination of, or in the reduction of, the benefit or benefits payable under the certificate; and [PL 1969, c. 132, §1 (NEW).]

L. If the constitution or laws of the society provide for expulsion or suspension of a member, any member so expelled or suspended, except for nonpayment of a premium or within the contestable period for material misrepresentations in such member's application for membership, must have the privilege of maintaining the member's insurance in force by continuing payment of the required premium. [RR 2015, c. 1, §30 (COR).]

Any of the foregoing provisions or portions thereof not applicable by reason of the plan of insurance or because the certificate is an annuity certificate may to the extent inapplicable be omitted from the certificate.

[RR 2015, c. 1, §30 (COR).]

2. No life benefit certificate may be delivered or issued for delivery in this State containing in substance any of the following provisions:

A. Any provision limiting the time within which any action at law or in equity may be commenced to less than 2 years after the cause of action shall accrue; [PL 1969, c. 132, §1 (NEW).]

B. Any provision by which the certificate shall purport to be issued or to take effect more than 6 months before the original application for the certificate was made, except in case of transfer from one form of certificate to another in connection with which the member is to receive credit for any reserve accumulation under the form of certificate from which the transfer is made; [PL 1989, c. 176, §7 (AMD).]

C. Any provision for forfeiture of the certificate for failure to repay any loan thereon or to pay interest on such loan while the total indebtedness, including interest, is less than the loan value of the certificate; or [PL 1989, c. 176, §7 (AMD).]

D. Any provision providing more restrictive coverage or excluding coverage for death resulting from Acquired Immune Deficiency Syndrome (AIDS), AIDS Related Complex (ARC) or HIV related diseases except this provision shall not apply to death by accident or accidental means. [PL 1989, c. 176, §7 (NEW).]

[PL 1989, c. 176, §7 (AMD).]

3. The word "premiums" as used in this chapter means premiums, rates or other required contributions by whatever name known.

[PL 1969, c. 132, §1 (NEW).]

§4121. Accident and health insurance and total and permanent disability insurance certificates

A society may not issue or deliver in this State any certificate or other evidence of any contract or accident insurance or health insurance or of any total and permanent disability insurance contract unless and until the form thereof, together with the form of application and all riders or endorsements for use

in connection therewith, has been filed with the superintendent and approved by the superintendent as conforming to reasonable rules from time to time made by the superintendent and as not inconsistent with any other provisions of law applicable thereto. For each such form filing, the society shall pay the superintendent a fee that must be the same as for an insurer, as provided in section 601. The superintendent shall, within a reasonable time after the filing of any such form, notify the society filing the form either of the superintendent's approval or of the superintendent's disapproval of that form. The superintendent may approve any such form that in the superintendent's opinion contains provisions on any one or more of the several requirements made by the superintendent that are more favorable to the members than the one or ones so required. The superintendent may make, alter and supersede reasonable regulations prescribing the required, optional and prohibited provisions in such contracts, and such regulations must conform, as far as practicable, to chapter 33. When the superintendent considers inapplicable, either in part or in their entirety, the provisions of the foregoing sections, the superintendent may prescribe the portions or summary thereof of the contract to be printed on the certificate issued to the member. Any filing made under this section is deemed approved unless disapproved within 60 days from the date of such filing. The procedures governing all rules promulgated under authority of this section must conform to Title 5, chapter 375, subchapter 2. [RR 2021, c. 1, Pt. B, §329 (COR).]

§4121-A. Acquired Immune Deficiency Syndrome

No certificate providing health insurance benefits delivered or issued for delivery in this State, other than a certificate providing benefits for specific diseases or accidental injuries only, may provide more restrictive coverage for Acquired Immune Deficiency Syndrome (AIDS), AIDS Related Complex or HIV related diseases than for any other disease or sickness or exclude coverage for Acquired Immune Deficiency Syndrome (AIDS), AIDS Related Complex (ARC) or HIV related diseases except through an exclusion under which all sicknesses and diseases are treated the same. §4122. Waiver

The constitution and laws of the society may provide that no subordinate body nor any of its subordinate officers or members shall have the power or authority to waive any of the provisions of the laws and constitution of the society. §4123. Reinsurance

A domestic society may, by a reinsurance agreement, cede any individual risk or risks in whole or in part to an insurer, other than another fraternal benefit society, having the power to make such reinsurance and authorized to do business in this State, or if not so authorized, one which is approved by the superintendent, but no such society may reinsure substantially all of its insurance in force without the written permission of the superintendent. It may take credit for the reserves on such ceded risks to the extent reinsured, but no credit shall be allowed as an admitted asset or as a deduction from liability, to a ceding society for reinsurance made, ceded, renewed, or otherwise becoming effective after January 1, 1970, unless the reinsurance is payable by the assuming insurer on the basis of the liability of the

ceding society under the contract or contracts reinsured without diminution because of the insolvency of the ceding society. [PL 1973, c. 625, §154 (AMD).]

A license must be issued to each fraternal benefit society that qualifies under this chapter. The license continues in full force and effect until suspended or revoked by the superintendent. Upon issuance of the license and annually thereafter the society shall pay the superintendent a fee that is the same as for an insurer as provided in section 601. A duly certified copy or duplicate of such license is prima facie evidence that the licensee is a fraternal benefit society within the meaning of this chapter. On or before July 1st of each year, the superintendent shall forward to each fraternal benefit society an itemized bill of the amount due for the filing of the annual statement and the amount due for the certificate of authority annual fee. 1. A duly certified copy of its charter or articles of incorporation; [PL 1969, c. 132, §1 (NEW).]
2. A copy of its constitution and laws, certified by its secretary or corresponding officer; [PL 1969, c. 132, §1 (NEW).]

§4126. Injunction -- liquidation -- receivership of domestic society

1. When the superintendent upon investigation finds that a domestic society:
 - A. Has exceeded its powers; [PL 1969, c. 132, §1 (NEW).]
 - B. Has failed to comply with any provision of this chapter; [PL 1969, c. 132, §1 (NEW).]
 - C. Is not fulfilling its contracts in good faith; [PL 1969, c. 132, §1 (NEW).]
 - D. Has a membership of less than 400 after an existence of 1 year or more; or [PL 1969, c. 132, §1 (NEW).]
 - E. Is conducting business fraudulently or in a manner hazardous to its members, creditors, the public or the business; [PL 1969, c. 132, §1 (NEW).]

the superintendent shall notify the society of such deficiency or deficiencies and state in writing the reasons for the superintendent's dissatisfaction. The superintendent shall at once issue a written notice to the society requiring that the deficiency or deficiencies that exist are corrected. After such notice the society has a 30-day period in which to comply with the superintendent's request for correction, and if the society fails to comply, the superintendent shall notify the society of the superintendent's findings of noncompliance and require the society to show cause on a date named why it should not be enjoined from carrying on any business until the violation complained of has been corrected, or why an action in quo warranto should not be commenced against the society.

If on such date the society does not present good and sufficient reasons why it should not be so enjoined or why such action should not be commenced, the superintendent may present the facts relating thereto to the Attorney General who shall, if the Attorney General considers the circumstances warrant, commence an action to enjoin the society from transacting business or in quo warranto.

The court shall thereupon notify the officers of the society of a hearing. If after a full hearing it appears that the society should be so enjoined or liquidated or a receiver appointed, the court shall enter the necessary order.

[RR 2021, c. 1, Pt. B, §331 (COR).]

2. No society so enjoined shall have the authority to do business until:
 - A. The superintendent finds that the violation complained of has been corrected; [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]
 - B. The cost of such action shall have been paid by the society if the court finds that the society was in default as charged; [PL 1969, c. 132, §1 (NEW).]
 - C. The court has dissolved its injunction; and [PL 1969, c. 132, §1 (NEW).]
 - D. The society's certificate of authority has been reinstated. [PL 1977, c. 694, §431 (RPR).]

[PL 1977, c. 694, §431 (AMD).]

3. If the court orders the society liquidated, it shall be enjoined from carrying on any further business, whereupon the receiver of the society shall proceed at once to take possession of the books, papers, money and other assets of the society and, under the direction of the court, proceed forthwith to close the affairs of the society and to distribute its funds to those entitled thereto.

[PL 1969, c. 132, §1 (NEW).]

4. No action under this section shall be recognized in any court of this State unless brought by the Attorney General upon request of the superintendent. Whenever a receiver is to be appointed for a domestic society, the court shall appoint the superintendent as such receiver.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

5. The provisions of this section relating to hearing by the superintendent, action by the Attorney General at the request of the superintendent, hearing by the court, injunction and receivership shall be applicable to a society which shall voluntarily determine to discontinue business. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

6. Nothing in this section may be construed as limiting the superintendent's authority to take enforcement action under section 12-A in connection with violations of applicable provisions of this Title. [PL 2009, c. 13, §3 (NEW).]

§4127-A. Suspension, revocation or refusal of license of foreign or alien society

The superintendent may suspend, revoke or refuse the license of a foreign or alien society transacting or applying to transact business in this State as set out in this section. [PL 2009, c. 13, §5 (NEW).]

1. Investigation. If, upon investigation, the superintendent finds that a foreign or alien society transacting or applying to transact business in this State has exceeded its powers, has failed to comply with any of the provisions of this chapter, is not fulfilling its contracts in good faith or is conducting its business fraudulently or in a manner hazardous to its members or creditors or the public, the superintendent shall notify the society of the deficiency or deficiencies and state in writing the reasons that warrant suspension, revocation or refusal of the society's license. The notice must require that the deficiency or deficiencies be corrected.

After receipt of the notice, the society has 30 days to comply with the superintendent's request for correction, and if the society fails to comply, the superintendent shall notify the society of the findings of noncompliance and require the society to show cause, on a date set by the superintendent, why its license should not be suspended, revoked or refused. If on that date the society does not present good and sufficient reason why its authority to do business in this State should not be suspended, revoked or refused, the superintendent may suspend or refuse the license of the society to do business in this State until satisfactory evidence is furnished to the superintendent that the suspension or refusal should be withdrawn or the superintendent may revoke the authority of the society to do business in this State. [PL 2009, c. 13, §5 (NEW).]

2. Continue contracts. Nothing in this section may be construed as preventing any foreign or alien society from continuing in good faith all contracts made in this State during the time the society was legally authorized to transact business in this State. [PL 2009, c. 13, §5 (NEW).]

3. Enforcement action. Nothing in this section may be construed as limiting the superintendent's authority to take enforcement action under section 12-A in connection with violations of applicable provisions of this Title. [PL 2009, c. 13, §5 (NEW).]

§4128. Licensing of agents

Insurance producers of societies must be licensed in accordance with chapter 16 except that no insurance producer's license is required if: [PL 2023, c. 405, Pt. A, §93 (AMD).]

1. Officer devoting substantial time to activities other than solicitation or negotiation of insurance contracts. An officer, employee or secretary of a society or of any subordinate lodge or branch of that society devotes substantially all of the officer's, employee's or secretary's time to activities other than the solicitation or negotiation of insurance contracts and receives no commission or other compensation directly dependent upon the number or amount of contracts solicited or negotiated; [PL 2023, c. 405, Pt. A, §93 (AMD).]

2. Agent devoting less than 50% of time to solicitation and procurement of insurance contracts. An agent or representative of a society devotes less than 50% of the agent's or representative's time to the solicitation and procurement of insurance contracts for the society. A person who in the preceding calendar year has solicited and procured life insurance in excess of \$200,000, face amount, or, in the case of any other kind or kinds of insurance that the society may write, on the persons of more than 25 individuals and who has received or will receive a commission or other compensation for the solicitation and procurement is presumed to be devoting 50% of the person's time to the solicitation or procurement of insurance contracts for the society; or [PL 2023, c. 405, Pt. A, §93 (AMD).]

3. Persons who do not effect insurance. A member of a society does not effect insurance and that member's solicitation or negotiation is incidental to securing new members for the member's society and that member's only remuneration consists of prizes in the form of merchandise or payments of a nominal amount. §4129. Service of process

Every society authorized to do business in this State shall appoint in writing an agent located in the State upon whom all lawful process in any action or proceeding against it is served and shall agree in writing that any lawful process against it that is served on the agent is of the same legal force and validity as if served upon the society and that the authority continues in force so long as any liability remains outstanding in this State. Copies of such appointment certified by the appointed agent are deemed sufficient evidence of the appointment and may be admitted in evidence with the same force and effect as the original. [PL 1997, c. 592, §69 (AMD).]

Service may only be made upon the appointed agent or, if absent, upon the person in charge. It must be made in duplicate and constitutes sufficient service upon the society. Every society, the admitted assets of which are less than the sum of its accrued liabilities and reserves under all of its certificates when valued according to standards required for certificates issued after one year from the effective date of this chapter, shall, in every provision of the laws of the society for payments by members of such society, in whatever form made, distinctly state the purpose of the same and the proportion thereof which may be used for expenses, and no part of the money collected for mortuary or disability purposes or the net accretions thereto shall be used for expenses. §4134. Reports and valuations

Reports shall be filed and synopses of annual statements shall be published in accordance with the provisions of this section. [PL 1969, c. 132, §1 (NEW).]

1. Every society transacting business in this State shall annually, on or before the first day of March, unless for cause shown such time has been extended by the superintendent, file with the superintendent a true statement of its financial condition, transactions and affairs for the preceding calendar year. The statement must be in general form and context as approved by the National Association of Insurance Commissioners for fraternal benefit societies and as supplemented by

additional information required by the superintendent. The society shall also file quarterly statements in accordance with the National Association of Insurance Commissioners quarterly statement instructions for fraternal benefit societies, if applicable, and shall report material investment and reinsurance transactions consistent with section 423-C. If the society provides health care benefits, it shall file a health insurance supplement consistent with section 423-D. The fee for filing the annual statement is the same as for an insurer as provided in section 601.

[PL 2017, c. 169, Pt. A, §8 (AMD).]

2. A synopsis of its annual statement providing an explanation of the facts concerning the condition of the society thereby disclosed shall be printed and mailed to each benefit member of the society not later than June 1 of each year, or, in lieu thereof, such synopsis may be published in the society's official publication.

[PL 1969, c. 132, §1 (NEW).]

3. As a part of the annual statement herein required, each society shall, on or before the 1st day of March, file with the superintendent a valuation of its certificates in force on December 31 last preceding, except that the superintendent may, in the superintendent's discretion for cause shown, extend the time for filing such valuation for not more than 2 calendar months. Such report of valuation must show, as reserve liabilities, the difference between the present midyear value of the promised benefits provided in the certificates of such society in force and the present midyear value of the future net premiums as the same are in practice actually collected, not including therein any value for the right to make extra assessments and not including any amount by which the present midyear value of future net premiums exceeds the present midyear value of promised benefits on individual certificates. At the option of any society, in lieu of the above, the valuation may show the net tabular value. Such net tabular value as to certificates issued prior to one year after January 1, 1970 must be determined in accordance with the provisions of law applicable prior to January 1, 1970 and as to certificates issued on or after one year from January 1, 1970 may not be less than the reserves determined according to the superintendent's reserve valuation method as hereinafter defined. If the premium charged is less than the tabular net premium according to the basis of valuation used, an additional reserve equal to the present value of the deficiency in such premiums must be set up and maintained as a liability. The reserve liabilities must be properly adjusted in the event that the midyear or tabular values are not appropriate.

[RR 2021, c. 1, Pt. B, §335 (COR).]

4. Reserves according to the superintendent's reserve valuation method for the life insurance and endowment benefits of certificates providing for a uniform amount of insurance and requiring the payment of uniform premiums must be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such certificates, over the then present value of any future modified net premiums therefor. The modified net premiums for any such certificate must be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the certificate, of all such modified net premiums is equal to the sum of the then present value of such benefits provided for by the certificate and the excess of A over B, as follows:

A. A net level premium equal to the present value, at the date of issue, of such benefits provided for after the first certificate year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such certificate on which a premium falls due; provided however that such net level annual premium may not exceed the net level annual premium on the 19-year premium whole life plan for insurance of the same amount at an age 1 year higher than the age at issue of such certificate; and [PL 2013, c. 588, Pt. A, §28 (AMD).]

B. A net one-year term premium for such benefits provided for in the first certificate year. [PL 2013, c. 588, Pt. A, §28 (AMD).]

Reserves according to the superintendent's reserve valuation method must be calculated by a method consistent with the principles of this subsection for life insurance benefits for varying amounts of benefits or requiring the payment of varying premiums; annuity and pure endowment benefits; disability and accidental death benefits in all certificates and contracts; and all other benefits except life insurance and endowment benefits.

[PL 2013, c. 588, Pt. A, §28 (AMD).]

5. The present value of deferred payments due under incurred claims or matured certificates shall be deemed a liability of the society and shall be computed upon mortality and interest standards prescribed in the following subsection.

[PL 1969, c. 132, §1 (NEW).]

6. Such valuation and underlying data must be certified by a competent actuary or, at the expense of the society, verified by the actuary of the department of insurance of the state of domicile of the society.

A. The minimum standards of valuation for certificates issued prior to January 1, 1970 must be those provided by the law applicable immediately prior to January 1, 1970 but not lower than the standards used in the calculating of rates for such certificates. [RR 2021, c. 1, Pt. B, §336 (COR).]

B. The minimum standard of valuation for certificates issued after January 1, 1970 must be such interest assumptions and tables as authorized for use by domestic life insurers or 3 1/2% interest and the following tables:

(1) For certificates of life insurance: American Men Ultimate Table of Mortality, with Bowerman's or Davis' extension thereof or with the consent of the superintendent, the Commissioners 1941 Standard Ordinary Mortality Table, the Commissioners 1941 Standard Industrial Mortality Table or the Commissioners 1958 Standard Ordinary Mortality Table, using actual age of the insured for male risks and an age more than 3 years younger than the actual age of the insured for female risks;

(2) For annuity and pure endowment certificates, excluding any disability and accidental death benefits in such certificates: The 1937 Standard Annuity Mortality Table or the Annuity Mortality Table for 1949, ultimate, or any modification of either of these tables approved by the superintendent;

(3) For total and permanent disability benefits in or supplementary to life insurance certificates: Hunter's Disability Table, or the class III disability table (1926) modified to conform to the contractual waiting period, or the tables of period 2 disablement rates and the 1930 to 1950 termination rates of the 1952 disability study of the Society of Actuaries with due regard to the type of benefit. Any such table must, for active lives, be combined with a mortality table permitted for calculating the reserves for life insurance certificates;

(4) For accidental death benefits in or supplementary to life insurance certificates: The Inter-company Double Indemnity Mortality Table or the 1959 Accidental Death Benefits Table. Either table must be combined with a mortality table permitted for calculating the reserves for life insurance certificates; and

(5) For noncancellable accident and health benefits: The class III disability table (1926) with conference modifications or, with the consent of the superintendent, tables based upon the society's own experience. [RR 2021, c. 1, Pt. B, §336 (COR).]

The superintendent may, in the superintendent's discretion, accept other standards for valuation if the superintendent finds that the reserves produced thereby will not be less in the aggregate than reserves computed in accordance with the minimum valuation standard herein prescribed. The superintendent may, in the superintendent's discretion, vary the standards of mortality applicable to all certificates of

insurance on substandard lives or other extra hazardous lives by any society authorized to do business in this State. Whenever the mortality experience under all certificates valued on the same mortality table is in excess of the expected mortality according to such table for a period of 3 consecutive years, the superintendent may require additional reserves when considered necessary in the superintendent's judgment on account of such certificates.

Any society, with the consent of the insurance supervisory officer of the state of domicile of the society and under such conditions, if any, that the insurance supervisory officer may impose, may establish and maintain reserves on its certificates in excess of the reserves required thereunder, but the contractual rights of any insured member are not affected thereby.

[RR 2021, c. 1, Pt. B, §336 (COR).]

7. A society neglecting to file the annual or quarterly statement in the form and within the time provided by this section shall forfeit \$100 for each day during which such neglect continues, and, upon notice by the superintendent to that effect, its authority to do business in this State ceases while such default continues.

§4135. Examination of domestic societies

The superintendent, or any person the superintendent may appoint, has the power of visitation and examination into the affairs of any domestic society and the superintendent shall make such examination at least once in every 3 years. The superintendent may employ assistants for the purpose of such examination, and the superintendent, or any person the superintendent may appoint, has free access to all books, papers and documents that relate to the business of the society. The minutes of the proceedings of the supreme legislative or governing body and of the board of directors or corresponding body of a society must be in the English language. In making any such examination the superintendent may summon and qualify as witnesses under oath and examine its officers, agents and employees or other persons in relation to the affairs, transactions and condition of the society. A summary of the report of the superintendent and such recommendations or statements of the superintendent as may accompany such report must be read at the first meeting of the board of directors or corresponding body of the society following the receipt thereof, and if directed so to do by the superintendent, must also be read at the first meeting of the supreme legislative or governing body of the society following the receipt thereof. A copy of the report, recommendations and statements of the superintendent must be furnished by the society to each member of such board of directors or other governing body. The expense of each examination and of each valuation, including compensation and actual expense of examiners, must be paid by the society examined or whose certificates are valued, upon statements furnished by the superintendent. HEALTH MAINTENANCE ORGANIZATIONS

§4201. Short title

This chapter may be cited as the Health Maintenance Organization Act of 1975. [PL 1975, c. 503 (NEW).]

SECTION HISTORY

PL 1975, c. 503 (NEW).

§4202. Definitions

(REPEALED)

SECTION HISTORY

PL 1975, c. 503 (NEW). PL 1989, c. 842, §§1-3 (AMD). PL 1991, c. 709, §1 (RP).

§4202-A. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings. [PL 1991, c. 709, §2 (NEW).]

1. Basic health care services. "Basic health care services" means health care services that an enrolled population might reasonably require in order to be maintained in good health and includes, at a minimum, emergency care, inpatient hospital care, inpatient physician services, outpatient physician services, ancillary services such as x-ray services and laboratory services and all benefits mandated by statute and mandated by rule applicable to health maintenance organizations. The superintendent may adopt rules defining "basic health care services" to be provided by health maintenance organizations. In adopting such rules, the superintendent shall consider the coverages that have traditionally been provided by health maintenance organizations; the need for flexibility in the marketplace; and the importance of providing multiple options to employers and consumers. The superintendent shall permit reasonable, but not excessive or unfairly discriminatory, variations in the copayment, coinsurance, deductible and other features of coverage, except that these features must meet or exceed those required in benefits mandated by statute. The superintendent shall permit deductible, coinsurance and copayment levels consistent with the deductible levels permitted for policies issued pursuant to chapter 33 or 35. Rules adopted pursuant to this subsection are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2011, c. 90, Pt. F, §4 (AMD).]

2. Capitated basis. "Capitated basis" has the following meanings.

A. "Capitated basis" means fixed per-member, per-month payments or percentage-of-premium payments pursuant to which the provider assumes full risk for the cost of contracted services without regard to the type, value or frequency of services provided. For purposes of this definition, capitated basis includes the cost associated with operating staff model facilities. [PL 1991, c. 709, §2 (NEW).]

B. "Capitated basis," in the context of a point-of-service option plan, means prepayment that considers provision of in-plan covered services as described in paragraph A and that considers out-of-plan indemnity benefits reimbursed pursuant to the terms of a point-of-service product approved pursuant to section 4207-A. [PL 1991, c. 709, §2 (NEW).]

[PL 1991, c. 709, §2 (NEW).]

3. Carrier. "Carrier" means a health maintenance organization, an insurer, a nonprofit hospital, a medical service corporation or any other entity responsible for the payment of benefits or provision of services under a group contract.

[PL 1991, c. 709, §2 (NEW).]

4. Copayment. "Copayment" means an amount an enrollee must pay in order to receive a specific service that is not fully prepaid.

[PL 1991, c. 709, §2 (NEW).]

5. Deductible. "Deductible" means the amount an enrollee is responsible to pay out of pocket before a health maintenance organization begins to pay the costs associated with treatment.

[PL 1991, c. 709, §2 (NEW).]

6. Enrollee. "Enrollee" means an individual who is enrolled in a health maintenance organization.

[PL 1991, c. 709, §2 (NEW).]

7. Evidence of coverage. "Evidence of coverage" means any certificate, agreement or contract issued to a group contract holder or an enrollee setting out the coverage to which an enrollee is entitled.

[PL 1991, c. 709, §2 (NEW).]

8. Group contract holder. "Group contract holder" means an entity or person that has purchased coverage from a health maintenance organization that provides, at a minimum, basic health care services to enrollees.

[PL 1991, c. 709, §2 (NEW).]

9. Health care services. "Health care services" means any services included in the furnishing of medical care, dental care or hospitalization to an individual, or any services incident to the furnishing of that care or hospitalization, as well as the furnishing of any other services to an individual to prevent, alleviate, cure or heal human illness or injury.

[PL 1991, c. 709, §2 (NEW).]

10. Health maintenance organization. "Health maintenance organization" means a public or private organization that is organized under the laws of the Federal Government, this State, another state or the District of Columbia or a component of such an organization, and that:

A. Provides, arranges or pays for, or reimburses the cost of, health care services, including, at a minimum, basic health care services to enrolled participants, except that health maintenance organizations contracting with the State Government or the Federal Government to service Medicaid or Medicare populations may limit the services they provide under the contracts consistent with the terms of those contracts if such basic health care services are provided to those populations by other means; [PL 1995, c. 673, Pt. D, §1 (AMD).]

B. Is compensated, except for reasonable copayments, for basic health care services to enrolled participants solely on a predetermined periodic rate basis, except that the organization is not prohibited from having a provision in a group contract allowing an adjustment of premiums based upon the actual health services utilization of the enrollees covered under the contract, and except that such a contract may not be sold to an eligible group subject to the community rating requirements of section 2808-B; [PL 1993, c. 645, Pt. A, §5 (AMD).]

C. Provides physicians' services primarily directly through physicians who are either employees or partners of that organization or through arrangements with individual physicians or one or more groups of physicians organized on a group-practice or individual-practice basis under which those physicians or groups are provided effective incentives to avoid unnecessary or unduly costly utilization, regardless of whether a physician is individually compensated primarily on a fee-for-service basis or otherwise. The organization may discharge its obligation through a point-of-service option product by reimbursing out-of-plan providers pursuant to the terms contained in the group contract holder's group contract. Receipt of out-of-plan covered services by an enrollee does not obligate the organization for an enrollee's responsibilities to meet copayments or deductibles; and [PL 1991, c. 709, §2 (NEW).]

D. Ensures the availability, accessibility and quality, including effective utilization, of the health care services that it provides or makes available through clearly identifiable focal points of legal and administrative responsibility. [PL 1991, c. 709, §2 (NEW).]

Nothing in this subsection prevents a health maintenance organization from providing fee-for-service health care services as well as health maintenance organization services. A health care provider or affiliated entity that does not offer health insurance or health benefit plans may not be or become a health maintenance organization subject to this chapter solely by reason of arrangements with insurers or hospital or medical service organizations for reimbursement in whole or in part on a capitated basis, the financial risk to the provider or affiliated entity associated with reimbursement arrangements with such 3rd-party payors or the furnishing by the provider or affiliated entity of utilization or case management services.

[PL 1995, c. 673, Pt. D, §1 (AMD).]

11. In-plan covered services. "In-plan covered services" means covered health care services obtained from providers who are employed by, under contract with, referred by or otherwise affiliated with the health maintenance organization. "In-plan covered services" includes emergency services. [PL 1991, c. 709, §2 (NEW).]

12. Nonprofit hospital or medical service organization. "Nonprofit hospital or medical service organization" means any organization defined in and authorized to act under Title 24, chapter 19. [PL 1991, c. 709, §2 (NEW).]

12-A. NCQA accreditation survey report. "NCQA accreditation survey report" means the unpublished, detailed survey report to a health maintenance organization by the National Committee for Quality Assurance upon completion of NCQA's accreditation survey of the health maintenance organization. [PL 1999, c. 256, Pt. Q, §1 (NEW).]

13. Out-of-plan covered services. "Out-of-plan covered services" means nonemergency, covered health care services obtained without a referral from providers who are not otherwise employed by, under contract with or otherwise affiliated with the health maintenance organization or from affiliated specialists. [PL 1991, c. 709, §2 (NEW).]

14. Participating provider. "Participating provider" means a provider as defined in subsection 18 that, under an express or implied contract with a health maintenance organization, has agreed to provide health care services to enrollees with an expectation of receiving payment, other than copayment, directly or indirectly from the health maintenance organization. [PL 1991, c. 709, §2 (NEW).]

15. Person. "Person" means an individual, firm, partnership, corporation, association, syndicate, organization, society, business trust, attorney-in-fact or any legal entity. [PL 1991, c. 709, §2 (NEW).]

16. Point-of-service option. "Point-of-service option" means a health maintenance organization product that allows an enrollee to select either the comprehensive health care benefits of the health maintenance organization or care from a provider of the enrollee's choice outside the health maintenance organization network with traditional indemnity benefits. A point-of-service option in which the risk for out-of-plan covered services of a health maintenance organization is shared with a reinsurer must meet the requirements of this chapter applicable to the indemnity benefits provided by a health maintenance organization. [PL 1991, c. 709, §2 (NEW).]

17. Point-of-service product. "Point-of-service product" means a product that includes both in-plan covered services and out-of-plan covered services. [PL 1991, c. 709, §2 (NEW).]

18. Provider. "Provider" means a physician, hospital or person that is licensed or otherwise authorized in this State to furnish health care services. [PL 1991, c. 709, §2 (NEW).]

19. Superintendent. "Superintendent" means the Superintendent of Insurance. [PL 1991, c. 709, §2 (NEW).]

20. Uncovered expenditures. "Uncovered expenditures" means costs to a health maintenance organization for health care services that are the obligation of the health maintenance organization for which an enrollee may also be liable. [PL 1991, c. 709, §2 (NEW).]

Subject to the Maine Certificate of Need Act of 2002, a person may apply to the superintendent for and obtain a certificate of authority to establish, maintain, own, merge with, organize or operate a health maintenance organization in compliance with this chapter. A person may not establish, maintain, own, merge with, organize or operate a health maintenance organization in this State either directly as a division or a line of business or indirectly through a subsidiary or affiliate, nor sell or offer to sell, or solicit offers to purchase or receive advance or periodic consideration in conjunction with, a health maintenance organization without obtaining a certificate of authority under this chapter.

[PL 2003, c. 510, Pt. A, §19 (AMD).]

2. Every existing health maintenance organization as of the effective date of this chapter shall submit an application for a certificate of authority under subsection 3 within 30 days of the effective date of this chapter. Each such applicant may continue to operate until the superintendent acts upon the application. In the event that an application is denied under section 4204, the applicant shall henceforth be treated as a health maintenance organization whose certificate of authority has been revoked.

Issuance of a certificate of authority shall be granted upon payment of the application fee prescribed in section 4220 if the superintendent is satisfied that the following conditions are met.

A. The Commissioner of Health and Human Services certifies that the health maintenance organization has received a certificate of need or that a certificate of need is not required pursuant to Title 22, chapter 103-A. [PL 2003, c. 510, Pt. A, §21 (AMD); PL 2003, c. 689, Pt. B, §7 (REV).]

These procedures must include mechanisms to ensure availability, accessibility and continuity of care.

(5) The health maintenance organization must have an ongoing internal quality assurance program to monitor and evaluate its health care services including primary and specialist physician services, ancillary and preventive health care services across all institutional and noninstitutional settings. The program must include, at a minimum, the following:

The Commissioner of Health and Human Services shall make the certification required by this paragraph within 60 days of the date of the written decision that a certificate of need was not required. If the commissioner certifies that the health maintenance organization does not meet all of the requirements of this paragraph, the commissioner shall specify in what respects the health maintenance organization is deficient. [PL 2013, c. 588, Pt. A, §29 (AMD).]

C. The health maintenance organization conforms to the definition under section 4202-A, subsection 10. [PL 1991, c. 709, §3 (AMD).]

D. The health maintenance organization is financially responsible, complies with the minimum surplus requirements of section 4204-A and, among other factors, can reasonably be expected to meet its obligations to enrollees and prospective enrollees.

- (1) In a determination of minimum surplus requirements, the following terms have the following meanings.
- (a) "Admitted assets" means assets recognized by the superintendent pursuant to section 901-A. For purposes of this chapter, the asset value is that contained in the annual statement of the corporation as of December 31st of the year preceding the making of the investment or contained in any audited financial report, as defined in section 221-A, of more current origin.

For purposes of this chapter, the reserve value is that contained in the annual statement of the corporation as of December 31st of the preceding year or any audited financial report, as defined in section 221-A, of more current origin.

 - (b) The adequacy of working capital;

[PL 1989, c. 842, §10 (NEW).]
- H. The health maintenance organization shall maintain in force a fidelity bond or fidelity insurance on those employees and officers of the health maintenance organization who have duties as described in paragraph G, in an amount not less than \$250,000 for each health maintenance organization or a maximum of \$5,000,000 in aggregate maintained on behalf of health maintenance organizations owned by a common parent corporation, or such sum as may be prescribed by the superintendent. [PL 1989, c. 842, §10 (NEW).]
- I. If any agreement, as set forth in paragraph D, subparagraph (2), division (c), is made by the health maintenance organization, the entity executing the agreement with the health maintenance organization must demonstrate to the superintendent's satisfaction that the entity has sufficient unencumbered surplus funds to cover the assured payments under the agreement, otherwise the superintendent shall disallow the agreement. In considering approval of such an agreement, the superintendent shall consider the entity's record of earnings for the most recent 3 years, the risk

characteristics of its investments and whether its investments and other assets are reasonably liquid and available to make payments for health services. [PL 1995, c. 332, Pt. O, §2 (AMD).]

[PL 2013, c. 588, Pt. A, §29 (AMD).]

3.

[PL 1989, c. 842, §11 (RP).]

3-A. Investments. The health maintenance organization shall invest funds only in accordance with chapter 13-A, except as follows.

A. The health maintenance organization shall maintain asset valuation reserves consistent with industry standards for management of investments by life and health insurers. [PL 1993, c. 702, Pt. A, §12 (NEW).]

B. Notwithstanding any limitation stated in section 1156, subsection 2, paragraph D, a health maintenance organization may invest in real property or interests in real property located in the United States, held directly or evidenced by partnership interests, stock of corporations, trust certificates or other instruments and acquired:

(1) As an investment for the production of income or to be improved or developed for that investment purpose; or

(2) For the convenient accommodation of the organization's business.

After giving effect to any of those investments, the aggregate amount of investments made under subparagraph (1) may not exceed 20% of the health maintenance organization's total admitted assets; the aggregate amount of investments made under subparagraph (2) may not exceed 15% of the organization's total admitted assets; and the aggregate amount of investments made under this paragraph may not exceed 25% of the organization's total admitted assets. Investments under subparagraph (1) in any single property, including improvements on that property, may not in the aggregate exceed 2% of the corporation's total admitted assets. [PL 1993, c. 702, Pt. A, §12 (NEW).]

C. In addition to the investments permitted under paragraph B, a health maintenance organization may invest in real estate, including leasehold estates, for the convenient accommodation of its business, including hospitals, medical clinics, medical professional buildings and any other facility that is to be used in the provision of health care services, or real estate for rental to an affiliated health care provider or any other health care provider under contract with the health maintenance

organization to provide health care services, and that facility must be used in the provision of health care services to members of the health maintenance organization by that provider.

(1) A parcel of real estate acquired under this subsection may include excess space for rent to others if it is reasonably anticipated that that excess will be required by the health maintenance organization for expansion or if the excess is reasonably required in order to have one or more buildings that function as an economic unit.

(2) Real estate subject to this subsection may be subject to a mortgage.

(3) The admitted value of the investment may not exceed the greater of the health maintenance organization's equity or 20% of the corporation's admitted assets, and the aggregate investment in real estate held under paragraph B and under this paragraph may not exceed 40% of the corporation's admitted assets, except with the approval of the superintendent if the superintendent finds that those percentages of the corporation's admitted assets are insufficient to provide for the convenient accommodation of the health maintenance organization's business. Investments under this subsection in any single property, including improvements on that property, may not in the aggregate exceed 5% of the corporation's total admitted assets. [PL 1993, c. 702, Pt. A, §12 (NEW).]

D. Notwithstanding any provisions of this section and chapter 13-A allowing other investments, a health maintenance organization shall maintain cash or investment grade obligations, as defined in section 1151-A, that at all times have a fair market value of not less than 100% of the organization's liability for claims payable and incurred, but not reported, claims, unearned premiums, unpaid claims adjustment expenses and, as applicable, any statutory, special or additional reserves provided by the health maintenance organization for the benefit of members as of the most recent calendar quarter prepared on the basis of statutory accounting principles. If the organization's liability for claims payable and incurred, but not reported, claims increased more than 10% prior to the end of the calendar quarter, the organization must, within 10 days of the determination, reallocate its investments to ensure compliance with this paragraph. The investments required by this paragraph constitute admitted assets of the organization. [PL 1999, c. 715, §19 (AMD).]

E. The superintendent may establish risk-based capital standards for health maintenance organizations, their subsidiaries and controlled affiliates that engage in health care related business activities that the parent corporation conducts. [PL 1993, c. 702, Pt. A, §12 (NEW).]

[PL 1999, c. 715, §19 (AMD).]

4. Uncovered expenditures involving deposit. A health maintenance organization shall deposit with the superintendent or, at the discretion of the superintendent, with any organization or trustee acceptable to the superintendent through which a custodial or controlled account is maintained, cash or securities that are acceptable to the superintendent and that at all times are maintained in a fair market value of not less than an amount equal to the greater of \$100,000 or 120% of the health maintenance organization's liability for uncovered expenditures for enrollees as of the end of the most recent calendar quarter, including but not limited to, liability for incurred but not reported claims. If the health maintenance organization's liability for uncovered expenditures increases more than 10% prior to the end of the calendar quarter, the health maintenance organization must, within 10 days of the determination, deposit an amount sufficient to ensure compliance with this section. In the case of domestic health maintenance organizations, "enrollees" for purposes of this subsection means all enrollees of the organization regardless of residence. In the case of foreign health maintenance organizations, "enrollees" for purposes of this subsection means only those enrollees who are residents of this State.

A. The deposit required by this subsection constitutes an admitted asset of the health maintenance organization for purposes of determination of surplus. [PL 1989, c. 842, §13 (NEW).]

B. A health maintenance organization that has made a deposit may withdraw that deposit or any part thereof after making a substitute deposit of cash or securities of equal amount and value. There may also be withdrawn any part of the deposit in excess of the fair market value of the amount of the required deposit. Deposits, substitutions or withdrawals may be made only with the prior written approval of the superintendent. [PL 1989, c. 842, §13 (NEW).]

C. The deposit required by this subsection must be held in trust and must be used only as provided under this section. The superintendent may use the deposit of an insolvent health maintenance organization for administrative costs associated with administering the deposit and payment of claims of enrollees for uncovered expenditures. [PL 1989, c. 842, §13 (NEW).]

D. The superintendent may by rule or order require a health maintenance organization to file annual, quarterly or more frequent reports of a health maintenance organization's liability for uncovered expenditures. The superintendent may require that the reports include an audit opinion. [PL 1989, c. 842, §13 (NEW).]

E. The superintendent may reduce or eliminate the deposit required by this subsection if the health maintenance organization deposits cash or securities with the Treasurer of State, an insurance supervisory official in the state or jurisdiction of domicile or other official body of that state for the protection of all subscribers and enrollees in a manner substantially similar to that required by this subsection and delivers to the superintendent a certificate to that effect, authenticated by the appropriate state official holding the deposit. [PL 1989, c. 842, §13 (NEW).]

F. The superintendent may require a health maintenance organization to continue to maintain the deposit required under this subsection after the health maintenance organization has withdrawn from the market in accordance with section 415-A. [PL 2001, c. 88, §1 (NEW).]

[PL 2001, c. 88, §1 (AMD).]

5. Liabilities. Every health maintenance organization shall, when determining liabilities, include an amount estimated in the aggregate to provide for any unearned premium and for the payment of all claims for health care expenditures that have been incurred, whether reported or unreported, that are unpaid, and for which the organization is or may be liable, and to provide for the expense of adjustment or settlement of those claims.

These liabilities must be computed in accordance with rules promulgated by the superintendent upon reasonable consideration of the ascertained experience and character of the health maintenance organization.

[PL 1989, c. 842, §13 (NEW).]

6. Hold harmless. Every contract between a health maintenance organization and a participating provider of health care services must be in writing and must set forth that in the event the health maintenance organization fails to pay for health care services as set forth in the contract, the subscriber or enrollee may not be liable to the provider for any sums owed by the health maintenance organization.

A. If the participating provider contract has not been reduced to writing as required by this subsection or the contract fails to contain the required prohibition, the participating provider may not collect or attempt to collect from the subscriber or enrollee sums owed by the health maintenance organization. [PL 1989, c. 842, §13 (NEW).]

B. No participating provider or agent, trustee or assignee of the participating provider, may maintain any action at law against a subscriber or enrollee to collect sums owed by the health maintenance organization. [PL 1989, c. 842, §13 (NEW).]

C. In addition to the other provisions in this subsection, if a petition to liquidate an insolvent health maintenance organization is filed with a court of competent jurisdiction, then after the date of filing the petition for liquidation:

(1) Any provider who has rendered a covered service for a subscriber or enrollee of the insolvent health maintenance organization is prohibited from collecting or attempting to collect from the subscriber or enrollee amounts normally payable by the insolvent health maintenance organization; and

(2) A provider or agent, trustee or assignee of the provider may not maintain any action at law against a subscriber or enrollee of the insolvent health maintenance organization to collect amounts for covered services normally payable by the insolvent health maintenance organization.

Nothing in this subsection prohibits a provider from collecting or attempting to collect from a subscriber or enrollee any amounts for services not normally payable by the insolvent health maintenance organization, including applicable copayments or deductibles. [PL 2001, c. 88, §2 (NEW).]

[PL 2001, c. 88, §2 (AMD).]

7. Continuation of benefits. The superintendent shall require that each health maintenance organization have a plan for handling insolvency that allows for continuation of benefits for the duration of the contract period for which premiums have been paid and continuation of benefits to covered persons who are confined on the date of insolvency in an inpatient facility until those covered persons are discharged or upon expiration of benefits. In considering such a plan, the superintendent may require:

A. Insurance adequate to cover the expenses to be paid for continued benefits after an insolvency; [PL 1989, c. 842, §13 (NEW).]

B. That the provider contract obligate the provider to provide services for the duration of the period after the health maintenance organization's insolvency for which premium payment has been made and until the enrollees' discharge from inpatient facilities; [PL 1989, c. 842, §13 (NEW).]

C. That insolvency reserves be provided and maintained for that period of claims exposure of a health maintenance organization during which a provider's termination of services is pending pursuant to subsection 8; and [PL 1989, c. 842, §13 (NEW).]

D. Any other arrangements to ensure that benefits are continued as specified in this section. [PL 1989, c. 842, §13 (NEW).]

[PL 1989, c. 842, §13 (NEW).]

8. Notice of termination. An agreement to provide health care services between a provider and a health maintenance organization must require that, if the provider terminates that agreement, the provider shall give the health maintenance organization not less than 60 days' notice in advance of termination. That agreement must not require more than 90 days' notice after an initial participation period not to exceed 6 months. If the health maintenance organization has a net loss of 5 or more primary care physicians in any county in any 30-day period, the health maintenance organization shall notify the Bureau of Insurance in writing within 10 days of acquiring knowledge of that loss.

[PL 1989, c. 842, §13 (NEW).]

9. Denial. A certificate of authority may be denied only after compliance with the requirements of section 4219.

(2) Any limitations on the services, kind of services, benefits, or kind of benefits, to be provided, including any deductible or copayment feature;

- (3) Where and in what manner information is available as to how services may be obtained;
- (4) The total amount of payment for health care services and the indemnity or service benefits, if any, which the enrollee is obligated to pay with respect to individual contracts or an indication whether the plan is contributory or noncontributory with respect to group certificates; and

Any subsequent change shall be evidenced in a separate document issued to the enrollee prior to the change. [PL 1975, c. 503 (NEW).]
[PL 1975, c. 503 (NEW).]

4. A copy of the form of the evidence of coverage to be used in this State, and any amendment thereto shall be subject to the filing and approval requirements of this section unless it is subject to the jurisdiction of the superintendent under the laws governing health insurance, or nonprofit hospital or medical service organization, in which event the filing and approval provisions of such laws shall apply. [PL 2003, c. 469, Pt. E, §19 (AMD).]

6. Such charges may be established in accordance with actuarial principles for various categories of enrollees, as long as charges applicable to an enrollee are not individually determined based on the status of the enrollee's health. However, the charges may not be excessive, inadequate or unfairly discriminatory. A certification, by a qualified actuary, to the appropriateness of the charges, based on reasonable assumptions, must accompany the filing along with adequate supporting information.
[RR 2021, c. 1, Pt. B, §343 (COR).]

7. The superintendent shall, within a reasonable period, approve any form and any schedule of charges if the requirements of this section are met. It is unlawful to issue such form or to use such schedule of charges until approved. If the superintendent disapproves such filing, the superintendent shall notify the filer. In the notice, the superintendent shall specify the reasons for the superintendent's disapproval. A hearing will be granted within 10 days after a request in writing by the person filing. If the superintendent does not disapprove any form or schedule of charges within 30 days of the filing of such form or charges, they must be deemed approved.
[RR 2021, c. 1, Pt. B, §344 (COR).]

8. The superintendent may require the submission of whatever relevant information the superintendent considers necessary in determining whether to approve or disapprove a filing made pursuant to this section.
[RR 2021, c. 1, Pt. B, §345 (COR).]

9. A health maintenance organization may issue a Medicare supplement policy. Chapter 67 and any rules adopted pursuant to that chapter shall apply to health maintenance organizations issuing Medicare supplement policies, except when that application is inconsistent with that chapter.

§4207-A. Point-of-service products

1. Product design; mandatory requirements. A point-of-service product, filed and approved for use subject to the requirements of section 4207, subsection 4, at a minimum must:

- A. Provide all services required by law to be provided by health maintenance organizations as in-plan covered services, including emergency services; [PL 1991, c. 709, §5 (NEW).]
 - B. Provide incentives for enrollees to use in-plan covered services; and [PL 1991, c. 709, §5 (NEW).]
 - C. Offer out-of-plan covered services only if those services are provided by the point-of-service product on an in-plan basis. [PL 1991, c. 709, §5 (NEW).]
- [PL 1991, c. 709, §5 (NEW).]

2. Product design; optional provisions. A point-of-service product may:

- A. Limit or exclude specific types of services from coverage when obtained out of plan; [PL 1991, c. 709, §5 (NEW).]
 - B. Include annual out-of-pocket limits and annual and lifetime maximum benefit allowances for out-of-plan covered services that are separate from any limits and allowances applied to in-plan covered services; [PL 1991, c. 709, §5 (NEW).]
 - C. Limit the groups to which the point-of-service product is offered. If the point-of-service product is offered to a group, it must be offered to all eligible members of that group; and [PL 1991, c. 709, §5 (NEW).]
 - D. Include those services that an enrollee obtains from a participating physician for which proper authorization was not given. [PL 1991, c. 709, §5 (NEW).]
- [PL 1991, c. 709, §5 (NEW).]

3. Product limitations and exclusions. A health maintenance organization is subject to the following requirements as to its point-of-service product.

- A. A health maintenance organization may not expend more than 20% of its total annual health care expenditures for out-of-plan covered services. [PL 1991, c. 709, §5 (NEW).]
 - B. If compliance with the amount specified in paragraph A is not demonstrated on a quarterly basis in a health maintenance organization's quarterly financial report, the superintendent may prohibit the health maintenance organization from offering a point-of-service product for new issues or for the renewal of existing contracts until compliance has been demonstrated. [PL 1991, c. 709, §5 (NEW).]
- [PL 1991, c. 709, §5 (NEW).]

4. Plan requirements. A health maintenance organization may not issue a point-of-service product until it has filed and has had approved by the superintendent a plan to comply with this section, including, in addition to any other requirements of this section, group contracts, subscriber contracts and other materials used by enrollees.

- A. Marketing materials must be filed upon request of the superintendent. Member handbooks must be filed for approval only when the initial point-of-service plan is filed and when substantial modifications are made in the point-of-service plan that change policy terms respecting benefits or change the manner in which enrollees may access provider services. [PL 1991, c. 709, §5 (NEW).]
- B. The plan must include, but is not limited to, provisions demonstrating that the health maintenance organization will:
 - (1) Design the benefit levels for in-plan covered services and out-of-plan covered services to achieve the desired level of in-plan utilization; and

(2) Provide or arrange for the provision of adequate systems to:

- (a) Process and pay claims for out-of-plan covered services;
- (b) Meet the requirements of a point-of-service product as set by this section or by rule of the superintendent; and
- (c) Generate accurate financial and regulatory reports on a timely basis in order for the superintendent to evaluate experience with the point-of-service product and monitor compliance with point-of-service product provisions. [PL 1991, c. 709, §5 (NEW).]

[PL 1991, c. 709, §5 (NEW).]

5. Claims processing. Explanation of benefits given to an enrollee of a point-of-service plan must contain an explanation of coverage for self-referral health care services that is adequate to permit an enrollee to determine claims liability under the plan.

[PL 1991, c. 709, §5 (NEW).]

5-A. Assignment of benefits. All point-of-service contracts and certificates must contain a provision permitting the insured to assign any benefits provided for medical or dental care on an expense-incurred basis to the provider of the care. An assignment of benefits under this subsection does not affect or limit the payment of benefits otherwise payable under the contract or certificate.

[PL 1999, c. 21, §4 (AMD).]

6. Disclosure. All marketing materials, subscriber contracts, member handbooks or other material used by enrollees must contain a clear and concise explanation of point-of-service health care services. The explanation must include:

1. Continuation of coverage by other carriers. In the event of an insolvency of a health maintenance organization and if satisfactory arrangements for the performance of its obligations have not been made as provided for in section 4214, all other carriers that made an offer of coverage to any group contract holder of the insolvent health maintenance organization at the most recent purchase or renewal of coverage, upon order of the superintendent, shall offer the enrollees in the group covered by that contract a 30-day enrollment period that begins on the date of insolvency.

Each carrier shall offer the group's enrollees the same coverage and rates that the carrier had offered to those enrollees at the most recent purchase or renewal of coverage prior to the insolvency, except that a successor health maintenance organization may increase the group's rate to the extent justified by including the new enrollees in a recalculation of rates using the existing method of rate calculation of the successor carrier or, if the group was covered under a multiple-year contract, to the extent justified to take into account increased health care costs, as approved by the superintendent.

[PL 2001, c. 88, §8 (AMD).]

2. Allocation of enrollees. If no other carrier had offered coverage to a group contract holder in the insolvent health maintenance organization, or if the superintendent determines that the other health benefit plan or plans lack sufficient health care delivery resources to ensure that health care services will be available and reasonably accessible to all of that group's enrollees in the insolvent health maintenance organization, then the superintendent shall allocate equitably the insolvent health maintenance organization's group contracts among all health maintenance organizations that operate within a portion of the insolvent health maintenance organization's service area, taking into consideration the health care delivery resources of each health maintenance organization. Each health maintenance organization to which a group or groups are so allocated shall offer such group or groups the health maintenance organization's existing coverage that is most similar to each group's coverage with the insolvent health maintenance organization at rates determined in accordance with the successor health maintenance organization's existing rating methodology.

§4232. Replacement coverage

1. Group hospital, medical or surgical expenses, or service benefits. Any insurer or nonprofit health insurance plan that issues replacement coverage with respect to group hospital, medical or surgical expenses or service benefits within a period of 60 days from the date of discontinuance of a prior health maintenance organization contract or policy providing the hospital, medical or surgical expenses or service benefits shall immediately cover all enrollees who were validly covered under the previous health maintenance organization contract or policy at the date of discontinuance and who would otherwise be eligible for coverage under the succeeding insurer's or nonprofit health insurance plan's contract, regardless of any provisions in that contract relating to active employment, hospital confinement or pregnancy.

[PL 1989, c. 842, §18 (NEW).]

2. Preexisting conditions. No provision in a succeeding insurer's or nonprofit hospital or medical service corporation's contract of replacement coverage may reduce or exclude benefits to enrollees covered under the prior health maintenance organization's contract on the date of discontinuance, on the basis that the condition giving rise to benefits preexisted the effective date of the succeeding contract, except to the extent that benefits for the condition would have been reduced or excluded under the prior contract.

The work papers of a health maintenance organization's parent, subsidiaries or other corporate affiliates are deemed to be the work papers of that health maintenance organization to the extent the work papers affect the health maintenance organization's final equity determination and reference any transaction between the health maintenance organization and its parent, subsidiaries or corporate affiliates.

As a condition of engaging an auditing accountant, the health maintenance organization shall require the accountant to:

This coverage may be terminated at the age at which coverage for students terminates under the terms of the contract. A health maintenance organization may require, as a condition of eligibility for continued coverage in accordance with this section, that the student provide written documentation from a health care provider and the student's school that the student is no longer enrolled in school on a full-time basis due to a mental or physical illness or accidental injury. §4234-A. Mental health services coverage

1. Findings. The Legislature finds that:

A. Mental illness affects nearly 170,000 people of this State each year, resulting in anguish, grief, desperation, fear, isolation and a sense of hopelessness of significant levels among victims and families; [PL 1995, c. 407, §10 (NEW).]

B. Consequences of mental illness include the expenditure of millions of dollars of public funds for treatment and losses of millions of dollars by businesses in the State in accidents, absenteeism, nonproductivity and turnover. Excessive stress and anxiety and other forms of mental illness clearly contribute to general health problems and costs; [PL 1995, c. 407, §10 (NEW).]

C. Typical health coverage in this State discriminates against mental illness, the victims and affected families with nonexistent or limited benefits compared to provisions for other illnesses; and [PL 1995, c. 407, §10 (NEW).]

D. Experience in this State and several other states demonstrates that the risk of mental illness can be insured at reasonable cost and with adequate controls on quality and utilization of treatment. [PL 1995, c. 407, §10 (NEW).]

[PL 1995, c. 407, §10 (NEW).]

2. Policy and purpose. The Legislature declares that it is the policy of this State to:

A. Promote equitable and nondiscriminatory health coverage benefits for all forms of illness including mental and emotional disorders that are of significant consequence to the health of people of the State and that can be treated in a cost-effective manner; [PL 1995, c. 407, §10 (NEW).]

B. Ensure that victims of mental and other illnesses have access to and choice of appropriate treatment at the earliest point of illness in the least restrictive settings; [PL 1995, c. 407, §10 (NEW).]

C. Ensure that costs of treatment of mental illness are supported through an equitable combination of public and private responsibilities; and [PL 1995, c. 407, §10 (NEW).]

D. Ensure that the Legislature reasonably exercises its legal responsibility for insurance policy in this State by prescribing types of illnesses and treatment for which benefits must be provided. [PL 1995, c. 407, §10 (NEW).]

[PL 1995, c. 407, §10 (NEW).]

B. "Inpatient services" includes a range of physiological, psychological and other intervention concepts, techniques and processes used in a community mental health psychiatric inpatient unit, general hospital psychiatric unit or psychiatric hospital licensed by the Department of Human Services or in an accredited public hospital to restore psychosocial functioning sufficient to allow maintenance and support of the client in a less restrictive setting. A. [PL 2003, c. 20, Pt. VV, §20 (RP); PL 2003, c. 20, Pt. VV, §25 (AFF).]

A-1. All individual and group contracts must provide, at a minimum, benefits according to paragraph B, subparagraph (1) for a person receiving medical treatment for any of the following categories of mental illness as defined in the Diagnostic and Statistical Manual, except for those designated as "V" codes in the Diagnostic and Statistical Manual:

(2) At the request of a reimbursing health maintenance organization, a provider of medical treatment for mental illness shall furnish data substantiating that initial or continued treatment is medically necessary health care. When making the determination of whether treatment is medically necessary health care, the provider shall use the same criteria for medical treatment for mental illness as for medical treatment for physical illness under the group contract. An insurer may not deny treatment for mental health services that use evidence-based practices and are determined to be medically necessary health care for an individual 21 years of age or younger.

(3) If benefits and coverage for the treatment of physical illness are provided on an expense-incurred basis, the benefits and coverage required under this subsection may be delivered separately under a managed care system.

(4) A policy or contract may not have separate maximums for physical illness and mental illness, separate deductibles and coinsurance amounts for physical illness and mental illness, separate out-of-pocket limits in a benefit period of not more than 12 months for physical illness and mental illness or separate office visit limits for physical illness and mental illness.

(6) Copayments required under a policy or contract for benefits and coverage for mental illness must be actuarially equivalent to any coinsurance requirements or, if there are no coinsurance requirements, may not be greater than any copayment or coinsurance required under the policy or contract for a benefit or coverage for a physical illness.

(7) For the purposes of this section, a medication management visit associated with a mental illness must be covered in the same manner as a medication management visit for the treatment of a physical illness and may not be counted in the calculation of any maximum outpatient treatment visit limits. [PL 2021, c. 595, §8 (AMD).]

7. Mandated offer of coverage for certain mental illnesses.

[PL 2019, c. 5, Pt. D, §4 (RP).]

8. Contracts; providers. A health maintenance organization incorporated under this chapter shall allow providers, pursuant to sections 2744 and 2835, to contract for and receive payment, subject to the health maintenance organization's credentialing policy, for the provision of mental health services within the scope of the provider's licensure.

[PL 2003, c. 65, §3 (AMD); PL 2003, c. 65, §5 (AFF).]

8-A. Mental health services provided by counseling professionals. A health maintenance organization that issues individual or group health care contracts providing coverage for mental health

services shall offer coverage for those services when performed by a counseling professional who is licensed by the State pursuant to Title 32, chapter 119 to assess and treat interpersonal and intrapersonal problems, has at least a master's degree in counseling or a related field from an accredited educational institution and has been employed as counselor for at least 2 years. Any contract providing coverage for the services of counseling professionals pursuant to this subsection may be subject to any reasonable limitations, maximum benefits, coinsurance, deductibles or exclusion provisions applicable to overall benefits under the contract.

A policy or contract that provides coverage for the services required by this section may contain provisions for maximum benefits and coinsurance and reasonable limitations, deductibles and exclusions to the extent that these provisions are not inconsistent with the requirements of this section.

[PL 1995, c. 407, §10 (NEW).]

10. Reports to the superintendent. Every health maintenance organization subject to this section shall report its experience for each calendar year to the superintendent no later than April 30th of the following year. The report must be in a form prescribed by the superintendent and include the amount of claims paid in this State for the services required by this section and the total amount of claims paid in this State for individual and group health care contracts, both separated according to those paid for inpatient, day treatment and outpatient services. The superintendent shall compile this data for all health maintenance organizations in an annual report.

[PL 1995, c. 407, §10 (NEW).]

11. Application. Except as otherwise provided, the requirements of this section apply to all policies, contracts and certificates executed, delivered, issued for delivery, continued or renewed in this State. Contracts entered into with the State Government or the Federal Government to service Medicaid or Medicare populations may limit the services provided under such contracts consistent with the terms of those contracts if mental health services are provided to these populations by other means.

The payment may be required to be retroactive to the date of birth. Benefits required by section 4234-B must be paid regardless of whether coverage under this section is elected. §4235. Standardized claim forms

All health maintenance organizations providing payment or reimbursement for diagnosis or treatment of a condition or a complaint by a licensed health care practitioner must accept the current standardized claim form for professional services approved by the Federal Government and submitted electronically. All health maintenance organizations providing payment or reimbursement for

diagnosis or treatment of a condition or a complaint by a licensed hospital must accept the current standardized claim form for professional or facility services, as applicable, approved by the Federal Government and submitted electronically, and any claims for facility services must identify the physical location, including hospital off-campus locations, where services are provided. A health maintenance organization may not be required to accept a claim submitted on a form other than the applicable form specified in this section and may not be required to accept a claim that is not submitted electronically, except from a health care practitioner who is exempt pursuant to Title 24, section 2985. §4236. Chiropractors in health maintenance organizations

Every health maintenance organization shall include in every plan for health care services chiropractic services delivered by qualified chiropractic providers in accordance with this section. [PL 1993, c. 669, §6 (NEW).]

1. Qualifications of chiropractic providers. The health maintenance organization shall determine the qualifications of chiropractic providers using reasonable standards that are similar to and consistent with the standards applied to other providers. [PL 1993, c. 669, §6 (NEW).]

2. Benefits; discrimination. The health maintenance organization shall provide benefits covering care by chiropractic providers at least equal to and consistent with the benefits paid to other health care providers treating similar neuro-musculoskeletal conditions. A health maintenance organization may not refuse to reimburse a chiropractic provider who participates in the health maintenance organization's provider network for providing a health care service or procedure covered by the health maintenance organization as long as the chiropractic provider is acting within the lawful scope of that provider's license in the delivery of the covered service or procedure. Consistent with reasonable medical management techniques specified under the health maintenance organization's contract with respect to the method, treatment or setting for a covered service or procedure, the health maintenance organization may not discriminate based on the chiropractic provider's license. This subsection does not require a health maintenance organization to accept all chiropractic providers into a network or govern the reimbursement paid to a chiropractic provider. [PL 2015, c. 111, §3 (AMD); PL 2015, c. 111, §4 (AFF).]

3. Self-referrals for chiropractic care. A health maintenance organization must provide benefits to an enrollee who utilizes the services of a chiropractic provider by self-referral under the following conditions.

A. An enrollee may utilize the services of a participating chiropractic provider within the enrollee's health maintenance organization for 3 weeks or a maximum of 12 visits, whichever occurs first, of acute care treatment without the prior approval of a primary care provider of the health maintenance organization. For purposes of this subsection, "acute care treatment" means treatment for accidental bodily injury or sudden, severe pain that affects the ability of the enrollee to engage in the normal activities, duties or responsibilities of daily living. [PL 1995, c. 350, §1 (NEW).]

B. Within 3 working days of the first consultation, the participating chiropractic provider shall send to the primary care provider a report containing the enrollee's complaint, related history, examination, initial diagnosis and treatment plan. If the chiropractic provider fails to send a report to the primary care provider within 3 working days, the health maintenance organization is not obligated to provide benefits for chiropractic care and the enrollee is not liable to the chiropractic provider for any unpaid fees. [PL 1995, c. 350, §1 (NEW).]

C. If the enrollee and the participating chiropractic provider determine that the condition of the enrollee has not improved after 3 weeks of treatment or a maximum of 12 visits the participating chiropractic provider shall discontinue treatment and refer the enrollee to the primary care provider. [PL 1995, c. 350, §1 (NEW).]

D. If the chiropractic provider recommends treatment beyond 3 weeks or a maximum of 12 visits, the participating chiropractic provider shall send to the primary care provider a report containing information on the enrollee's progress and outlining a treatment plan for extended chiropractic care of up to 5 more weeks or a maximum of 12 more visits, whichever occurs first. [PL 1995, c. 350, §1 (NEW).]

E. Without the approval of the primary care provider, an enrollee may not receive benefits for more than 36 visits to a participating chiropractic provider in a 12-month period. After a maximum of 36 visits, an enrollee's continuing chiropractic treatment must be authorized by the primary care provider. [PL 1995, c. 350, §1 (NEW).]

In the provision of chiropractic services under this subsection, a participating chiropractic provider is liable for a professional diagnosis of a mental or physical condition that has resulted or may result in the chiropractic provider performing duties in a manner that endangers the health or safety of an enrollee.

The provisions of this subsection apply to all health maintenance organization contracts, except a contract between a health maintenance organization and the State Employee Health Insurance Program.

This subsection takes effect January 1, 1996.

1. Inpatient care. All individual and group coverage subject to this chapter that provides coverage for medical and surgical benefits must ensure that inpatient coverage with respect to the treatment of breast cancer is provided for a period of time determined by the attending physician, after providing notice to the patient regarding the coverage required by this subsection and in consultation with the patient, to be medically appropriate following a mastectomy, a lumpectomy or a lymph node dissection for the treatment of breast cancer.

Nothing in this subsection may be construed to require the provision of inpatient coverage if the attending physician and patient determine that a shorter period of hospital stay is appropriate.

In implementing the requirements of this subsection, an individual or group coverage contract may not modify the terms and conditions of coverage based on the determination by any enrollee to request less than the minimum coverage required under this subsection.

All individual and group coverage subject to this subsection must provide written notice to each enrollee under the contract regarding the coverage required by this subsection. The notice must be prominently positioned in any literature or correspondence made available or distributed by the plan and must be transmitted in the next mailing made by the plan to the enrollee or as part of any yearly

information packet sent to the enrollee, whichever is earlier. The notice must also be made available to any physician participating in the insurer's provider network.

A carrier shall provide this information annually to current enrollees, participating providers and the superintendent. 2-B. Data reporting; utilization review data. Beginning April 1, 2025 and April 1st of each year thereafter, the superintendent shall collect the information required under subsections 2 and 2-A, together with the utilization review information collected pursuant to section 2749, and post this information on the bureau's publicly accessible website.

[PL 2023, c. 680, Pt. B, §3 (NEW).]

3. Acceptable methods of providing information. A carrier may meet any of the reporting requirements set forth in this section by providing information in conformity with the requirements of the federal Health Maintenance Organization Act of 1973, 42 United States Code, Sections 280c and 300e to 300e-17 (1988), or any other applicable state or federal law or any accrediting organization recognized by the superintendent, as long as the superintendent finds that the information is substantially similar to the information required by this section and is presented in a format that provides a meaningful comparison between health plans. When the superintendent determines that it is feasible and appropriate, the information required by this section must be provided by geographic region, age, gender and type of employer or group. With respect to geographical breakdown, the information must be provided in a manner that permits comparisons between urban and rural areas.

[PL 1995, c. 673, Pt. C, §1 (NEW); PL 1995, c. 673, Pt. C, §2 (AFF).]

4. Claims data. By February 1st of each year, a carrier that provides only administrative services for a plan sponsor shall annually file with the superintendent for the most recent complete calendar year for all covered individuals in the State the total number of claims paid for each plan sponsor and the total dollar amount of claims paid for each plan sponsor.

[PL 2001, c. 457, §23 (NEW).]

5. Annual report; claims for diagnosis and treatment of Lyme disease and other tick-borne illnesses. By February 1st of each year, all carriers shall file with the superintendent for the most recent calendar year for all covered individuals in the State the total claims made for the diagnosis and treatment of Lyme disease and other tick-borne illnesses. The filing must include information on the number of claims made for the diagnosis and treatment of Lyme disease and other tick-borne illnesses, the total dollar amount of those claims, the number of claim denials and the reasons for those denials, the number and outcome of internal appeals and the number of external appeals related to the diagnosis and treatment of Lyme disease and other tick-borne illnesses. The superintendent shall compile from all carriers this data in an annual report and submit the report by March 15th of each year to the joint standing committee of the Legislature having jurisdiction over health insurance matters. The superintendent shall consult with the Department of Health and Human Services, Maine Center for Disease Control and Prevention to determine any additional information to be collected from carriers, beginning with data for calendar year 2011.

[PL 2009, c. 494, §5 (AMD).]

6. Reporting required pursuant to the Affordable Care Act. Notwithstanding any other requirements of this Title, a carrier shall provide to the Secretary of the United States Department of Health and Human Services, and make available to the public when required by federal law, any

information required by the federal Affordable Care Act. Carriers shall provide the information to the superintendent upon request.

§4303. Plan requirements

A carrier offering or renewing a health plan in this State must meet the following requirements. [PL 2007, c. 199, Pt. B, §4 (AMD).]

1. Demonstration of adequate access to providers. A carrier offering or renewing a managed care plan shall provide to its members reasonable access to health care services. A carrier may provide incentives to members to use designated providers based on cost or quality, but may not require members to use designated providers of health care services.

A. [PL 2007, c. 199, Pt. B, §5 (AMD); MRSA T. 24-A §4303, sub-1, ¶A (RP).]

B. [PL 2011, c. 90, Pt. F, §7 (RP).]

C. [PL 2011, c. 90, Pt. F, §7 (RP).]

[PL 2011, c. 90, Pt. F, §7 (RPR).]

2. Credentialing. The credentialing of providers by a carrier is governed by this subsection.

A. The granting of credentials must be based on objective standards that are available to providers upon application for credentialing. A carrier shall consult with appropriately qualified health care professionals in developing its credentialing standards. [PL 2015, c. 84, §1 (AMD).]

B. All credentialing decisions, including those granting, denying or withdrawing credentials, must be in writing. The provider must be provided with all reasons for the denial of an application for credentialing or the withdrawal of credentials. A withdrawal of credentials must be treated as a provider termination and is subject to the requirements of subsections 3-A and 3-C. [PL 2023, c. 648, Pt. E, §8 (AMD).]

C. A carrier shall establish and maintain an appeal procedure, including the provider's right to a hearing, for dealing with provider concerns relating to the denial of credentialing for not meeting the objective credentialing standards of the plan and the contractual relationship between the carrier and the provider. The superintendent shall determine whether the process provided by a carrier is fair and reasonable. This procedure must be specified in every contract between a carrier and a provider or between a carrier and a provider network if a carrier does not contract with providers individually. [PL 2015, c. 84, §1 (AMD).]

D. A carrier shall make credentialing decisions, including those granting or denying credentials, within 60 days of receipt of a completed credentialing application from a provider. For the purposes of this paragraph, an application is completed if the application includes all of the information required by the uniform credentialing application used by carriers and providers in this State, such attachments to that application as required by the carrier at the time of application and all corrections required by the carrier. Within 30 days of initial receipt of a credentialing application, a carrier shall review the entire application and, if it is incomplete, shall return it to the provider for corrections with a comprehensive list of all corrections needed at the time the application is first returned to the provider. A carrier may not require that a provider have a home address within the State before accepting an application. A carrier that is unable to make a credentialing decision on

a completed credentialing application within the 60-day period as required in this paragraph shall notify the bureau in writing prior to the expiration of the 60-day period on that application and request authorization for an extension on that application. A carrier that requests an extension shall also submit to the bureau an explanation of the reasons why the credentialing decision on an application is taking longer than is permitted or, if the problem is not specific to a particular application, a written remediation plan to bring the carrier's credentialing practices in line with the 60-day limit in this paragraph. [PL 2021, c. 603, Pt. B, §1 (AMD).]

E. [PL 2013, c. 383, §4 (RP).]
[PL 2023, c. 648, Pt. E, §8 (AMD).]

2-A. Payment to provider for services rendered during pendency of credentialing. A carrier offering or renewing a health plan in the State shall pay claims for services rendered to an enrollee by a provider prior to credentials being granted from the date a complete application for credentialing is submitted to the carrier as long as credentials are granted to that provider by the carrier in accordance with the requirements of subsection 2. A provider intending to submit a claim pursuant to this subsection may not submit the claim until the provider has been notified by the carrier whether the provider has been credentialed and of the effective date of any credentials. If a claim is submitted prior to the date credentials are granted, the carrier may process that claim in the same manner as a claim submitted by a provider that has not been credentialed.

[PL 2015, c. 84, §2 (NEW).]

3. Provider's right to advocate for medically appropriate care. A carrier offering or renewing a managed care plan may not terminate or otherwise discipline a participating provider because the provider advocates for medically appropriate health care. A carrier may not restrict a provider from disclosing to any enrollee any information the provider determines appropriate regarding the nature of treatment and any risks or alternatives to treatment, the availability of other therapy, consultations or tests or the decision of any plan to authorize or deny health care services or benefits.

A. For the purposes of this section, "to advocate for medically appropriate health care" means to discuss or recommend a course of treatment, including gender-affirming health care services and reproductive health care services, to an enrollee; to appeal a managed care plan's decision to deny payment for a service, including gender-affirming health care services and reproductive health care services, pursuant to an established grievance or appeal procedure; or to protest a decision, policy or practice that the provider, consistent with the degree of learning and skill ordinarily possessed by reputable providers, reasonably believes impairs the provider's ability to provide medically appropriate health care, including gender-affirming health care services and reproductive health care services, to the provider's patients. [PL 2023, c. 648, Pt. E, §9 (AMD).]

B. Nothing in this subsection may be construed to prohibit a plan from making a determination not to pay for a particular medical treatment or service or to enforce reasonable peer review or utilization review protocols. [PL 1995, c. 673, Pt. C, §1 (NEW); PL 1995, c. 673, Pt. C, §2 (AFF).]

[PL 2023, c. 648, Pt. E, §9 (AMD).]

3-A. Termination of participating providers. A carrier offering or renewing a managed care plan may not terminate or nonrenew a contract with a participating provider unless the carrier provides the provider with a written explanation prior to the termination or nonrenewal of the reasons for the proposed contract termination or nonrenewal and provides an opportunity for a review or hearing in accordance with this subsection. The existence of a termination without cause provision in a carrier's contract with a provider does not supersede the requirements of this subsection. This subsection does not apply to termination cases involving imminent harm to patient care, a final determination of fraud by a governmental agency, a final disciplinary action by a state licensing board or other governmental

agency that impairs the ability of a provider to practice. A review or hearing of proposed contract termination must meet the following requirements.

A. The notice of the proposed contract termination or nonrenewal provided by the carrier to the participating provider must include:

- (1) The reason or reasons for the proposed action in sufficient detail to permit the provider to respond;
- (2) Reference to the evidence or documentation underlying the carrier's decision to pursue the proposed action. A carrier shall permit a provider to review this evidence and documentation upon request;
- (3) Notice that the provider has the right to request a review or hearing before a panel appointed by the carrier;
- (4) A time limit of not less than 30 days from the date the provider receives the notice within which a provider may request a review or hearing; and
- (5) A time limit for a hearing date that must be not less than 30 days after the date of receipt of a request for a hearing.

Termination or nonrenewal may not be effective earlier than 60 days from the receipt of the notice of termination or nonrenewal. [PL 1997, c. 163, §2 (NEW).]

B. A hearing panel must be composed of at least 3 persons appointed by the carrier and one person on the hearing panel must be a clinical peer in the same discipline and the same or similar specialty of the provider under review. A hearing panel may be composed of more than 3 persons if the number of clinical peers on the hearing panel constitutes 1/3 or more of the total membership of the panel. [PL 1997, c. 163, §2 (NEW).]

C. A hearing panel shall render a written decision on the proposed action in a timely manner. This decision must be either the reinstatement of the provider by the carrier, the provisional reinstatement of the provider subject to conditions established by the carrier or the termination or nonrenewal of the provider. [PL 1997, c. 163, §2 (NEW).]

D. A decision by a hearing panel to terminate or nonrenew a contract with a provider may not become effective less than 60 days after the receipt by the provider of the hearing panel's decision or until the termination date in the provider's contract, whichever is earlier. [PL 1997, c. 163, §2 (NEW).]

[PL 2007, c. 199, Pt. B, §7 (AMD).]

3-B. Prohibition on financial incentives. A carrier offering or renewing a managed care plan may not offer or pay any type of material inducement, bonus or other financial incentive to a participating provider to deny, reduce, withhold, limit or delay specific medically necessary health care services covered under the plan to an enrollee. This subsection may not be construed to prohibit pilot projects authorized pursuant to section 4320-H or to prohibit contracts that contain incentive plans that involve general payments such as capitation payments or risk-sharing agreements that are made with respect to providers or groups of providers or that are made with respect to groups of enrollees. [RR 2011, c. 1, §41 (COR).]

3-C. Provider's right to engage in legally protected health care activity. A carrier offering or renewing a health plan in this State may not terminate or nonrenew a contract with a participating provider or impose any monetary penalties or financial disincentives on a participating provider on the sole basis that the participating provider engages in legally protected health care activity or aids and assists legally protected health care activity.

[PL 2023, c. 648, Pt. E, §10 (NEW).]

4. Grievance procedure for enrollees. A carrier offering or renewing a health plan in this State shall establish and maintain a grievance procedure that meets standards developed by the superintendent to provide for the resolution of claims denials, prior authorization denials or other matters by which enrollees are aggrieved.

A. The grievance procedure must include, at a minimum, the following:

(1) Notice to the enrollee and the enrollee's provider promptly of any claim denial, prior authorization denial or other matter by which enrollees are likely to be aggrieved, stating the basis for the decision, the right to file a grievance, the procedure for doing so and the time period in which the grievance must be filed;

(2) Timelines within which grievances must be processed, including expedited processing for exigent circumstances. Timelines must be sufficiently expeditious to resolve grievances promptly. Decisions for second level grievance reviews as defined by bureau rules must be issued within 30 calendar days if the insured has not requested the opportunity to appear in person before authorized representatives of the health carrier;

(3) Procedures for the submission of relevant information and enrollee or provider participation;

(4) Provision to the aggrieved party of a written statement upon the conclusion of any grievance process, setting forth the reasons for any decision. The statement must include notice to the aggrieved party of any subsequent appeal or external review rights, the procedure and time limitations for exercising those rights and notice of the right to file a complaint with the Bureau of Insurance and the toll-free telephone number of the bureau;

(5) Decision-making by one or more individuals not previously involved in making the decision subject to the grievance; and

(6) Procedures for a provider actively treating an enrollee to act as an authorized representative of the enrollee within the meaning of section 4301-A, subsection 2, paragraph D and file a grievance on the enrollee's behalf as long as the provider notifies the enrollee in writing at least 14 days prior to filing a grievance and within 7 days after filing a grievance or withdrawing a grievance. The enrollee has the right to affirmatively object to a provider that has filed a grievance at any time, and the enrollee has the right to notify the health carrier at any time that the enrollee intends to take the place of the provider as a party to the grievance. [RR 2023, c. 2, Pt. A, §37 (COR).]

B. In any appeal under the grievance procedure in which a professional medical opinion regarding a health condition is a material issue in the dispute, the aggrieved party is entitled to an independent 2nd opinion, paid for by the plan, of a provider of the same specialty participating in the plan. If a provider of the same specialty does not participate in the plan, then the 2nd opinion must be given by a nonparticipating provider. [PL 1995, c. 673, Pt. C, §1 (NEW); PL 1995, c. 673, Pt. C, §2 (AFF).]

C. In any appeal under the grievance procedure, the carrier shall provide auxiliary telecommunications devices or qualified interpreter services by a person proficient in American Sign Language when requested by an enrollee who is deaf or hard-of-hearing or printed materials in an accessible format, including Braille, large-print materials, computer diskette, audio cassette or a reader when requested by an enrollee who is visually impaired to allow the enrollee to exercise the enrollee's right to an appeal under this subsection. [PL 1999, c. 742, §9 (NEW).]

D. Notwithstanding this subsection, a group health plan sponsored by an agricultural cooperative association located outside of this State that provides health insurance coverage to members of one or more agricultural cooperative associations located within this State may employ a grievance procedure for enrollees in the group health plan that meets the requirements of the state in which

the group health plan is located if enrollees in the group health plan that reside in this State have the right to independent external review in accordance with section 4312 following any adverse health care treatment decision. Any difference in the grievance procedure requirements between those of the state in which the group health plan is located and those of this State must be limited to the number of days required for notification of prior authorization for nonemergency services and the number of days required for the issuance of a decision following the filing of an appeal of an adverse health care treatment decision. Enrollees in the group health plan that reside in this State must be notified as to the grievance procedure used by the group health plan and their right to independent external review in accordance with section 4312. [PL 2003, c. 309, §1 (NEW).]

E. Health plans may not reduce or terminate benefits for an ongoing course of treatment, including coverage of a prescription drug, during the course of an appeal pursuant to the grievance procedure used by the carrier or any independent external review in accordance with section 4312. [PL 2019, c. 5, Pt. A, §20 (AMD).]

[RR 2023, c. 2, Pt. A, §37 (COR).]

5. Identification of services provided by certified nurse practitioners, certified midwives and certified nurse midwives. All claims for coverage of services provided by certified nurse practitioners, certified midwives and certified nurse midwives must identify the certified nurse practitioners, certified midwives and certified nurse midwives who provided those services. A carrier offering or renewing a health plan in this State shall assign identification numbers or codes to certified nurse practitioners, certified midwives and certified nurse midwives who provide covered services for enrollees covered under that plan. A claim submitted for payment to a carrier by a health care provider or facility must include the identification number or code of the certified nurse practitioner, certified midwife or certified nurse midwife who provided the service and may not be submitted using the identification number or code of a physician or other health care provider who did not provide the covered service. [PL 2021, c. 79, §5 (AMD).]

6. Standing referrals to specialists. A carrier shall establish and maintain a procedure to allow an enrollee with a special condition requiring ongoing care from a specialist to receive a standing referral to a specialist participating in the carrier's network for treatment of that special condition. If the carrier or the enrollee's primary care provider, in consultation with the carrier's medical director, determines that a standing referral is appropriate, the carrier shall ensure that the enrollee receives such a referral to a specialist. If a specialist able to treat the enrollee's special condition does not participate in the carrier's network, then the carrier shall ensure that the enrollee receives a standing referral to a nonparticipating specialist. A standing referral must be made pursuant to a treatment plan approved by the carrier's medical director in consultation with the enrollee's primary care provider. After the standing referral is made, the specialist is authorized to provide health care services to the enrollee in the same manner as the enrollee's primary care provider, subject to the terms of the treatment plan. [PL 1999, c. 742, §10 (NEW).]

7. Continuity of care. If a contract between a carrier and a provider is terminated or benefits or coverage provided by a provider is terminated because of a change in the terms of provider participation in a health plan and an enrollee is undergoing a course of treatment from the provider at the time of termination, the carrier shall provide continuity of care in accordance with the requirements in paragraphs A to C. This section does not apply to provider terminations exempt from the requirements of subsection 3-A.

If a managed care contract for the provision of health insurance coverage between a plan sponsor and a carrier is replaced within the meaning of section 2849 with a different managed care contract and a health care provider that has been providing health care services to an enrollee is not in the replacement carrier's network, the replacement carrier shall provide continuity of care in accordance with the requirements in paragraphs A to C in the same manner as if the provider had been terminated from the

replacement carrier's network as of the date of the policy replacement, but only with respect to benefits that are covered under the replacement contract.

A. The carrier shall notify an enrollee of the termination of the provider's contract at least 60 days in advance of the date of termination. When circumstances related to the termination render such notice impossible, the carrier shall provide affected enrollees as much notice as is reasonably possible. The notice given to the enrollee must include instructions on obtaining an alternate provider and must offer the carrier's assistance with obtaining an alternate provider and ensuring that there is no inappropriate disruption in the enrollee's ongoing treatment. [PL 1999, c. 742, §10 (NEW).]

B. The carrier shall permit the enrollee to continue or be covered, with respect to the course of treatment with the provider, for a transitional period of at least 60 days from the date of notice to the enrollee of the provider's termination except that if an enrollee is in the 2nd trimester of pregnancy at the time of the provider's termination and the provider is treating the enrollee during the pregnancy, the transitional period must extend through the provision of postpartum care directly related to the pregnancy. [PL 1999, c. 742, §10 (NEW).]

C. A carrier may make coverage of continued treatment by a provider under paragraph B conditional upon the provider's agreeing to the following terms and conditions.

(1) The provider agrees to accept reimbursement from the carrier at rates applicable prior to the start of the transitional period as payment in full and not to impose cost-sharing with respect to the enrollee in an amount that would exceed the cost-sharing that could have been imposed if the contract between the carrier and the provider had not been terminated.

(2) The provider agrees to adhere to the quality assurance standards of the carrier responsible for payment and to provide the carrier necessary medical information related to the care provided.

(3) The provider agrees otherwise to adhere to the carrier's policies and procedures, including procedures regarding referrals and prior authorizations and providing services pursuant to any treatment plan approved by the carrier. [PL 1999, c. 742, §10 (NEW).]

[PL 1999, c. 742, §10 (NEW).]

7-A. Continuity of prescriptions. If an enrollee has been undergoing a course of treatment with a prescription drug by prior authorization of a carrier and the enrollee's coverage with one carrier is replaced with coverage from another carrier pursuant to section 2849-B, the replacement carrier shall honor the prior authorization for that prescription drug and provide coverage in the same manner as the previous carrier until the replacement carrier conducts a review of the prior authorization for that prescription drug with the enrollee's prescribing provider. Policies must include a notice of the right to request a review with the enrollee's provider, and the replacing carrier must honor the prior carrier's authorization for a period not to exceed 6 months if the enrollee's provider participates in the review and requests the prior authorization be continued. The replacing carrier is not required to provide benefits for conditions or services not otherwise covered under the replacement policy, and cost sharing may be based on the copayments and coinsurance requirements of the replacement policy. [PL 2009, c. 439, Pt. F, §1 (NEW).]

8. Maximum allowable charges. All policies, contracts and certificates executed, delivered and issued by a carrier under which the insured or enrollee may be subject to balance billing when charges exceed a maximum considered usual, customary and reasonable by the carrier or that contain contractual language of similar import must be subject to the following.

A. If benefits for covered services are limited to a maximum amount based on any combination of usual, customary and reasonable charges or other similar method, the carrier must:

(1) Clearly disclose that the insured or enrollee may be subject to balance billing as a result of claims adjustment; and

(2) Provide a toll-free number that an insured or enrollee may call prior to receiving services to determine the maximum allowable charge permitted by the carrier for a specified service. [PL 2001, c. 410, Pt. B, §5 (NEW).]

B. The carrier must provide to the superintendent on request complete information on the methodology and specific data used by the carrier or any 3rd party on behalf of the carrier in adjusting any claim submitted by or on behalf of the insured or enrollee. In considering the reasonableness of the methodology for calculating maximum allowable charges, the superintendent shall consider whether the methodology takes into account relevant data specific to this State if there is sufficient data to constitute a representative sample of charge data for the same or comparable service. [PL 2001, c. 410, Pt. B, §5 (NEW).]

[PL 2001, c. 410, Pt. B, §5 (NEW).]

8-A. Protection from balance billing by participating providers. An enrollee's responsibility for payment under a managed care plan must be limited as provided in this subsection.

A. The terms of a managed care plan must provide that the enrollee's responsibility for the cost of covered health care rendered by participating providers is limited to the cost-sharing provisions expressly disclosed in the contract, such as deductibles, copayments and coinsurance, and that if the enrollee has paid the enrollee's share of the charge as specified in the plan, the carrier shall hold the enrollee harmless from any additional amount owed to a participating provider for covered health care. [PL 2011, c. 238, Pt. A, §1 (NEW).]

B. Every provider agreement with a participating provider must be in writing and must set forth that if the carrier fails to pay for health care services as set forth in the contract, the enrollee is not liable to the provider for any sums owed by the carrier. [PL 2011, c. 238, Pt. A, §1 (NEW).]

C. A participating provider may not collect or attempt to collect any charge from an enrollee for covered health care beyond the amount permitted by the terms of the plan, notwithstanding the carrier's insolvency, the carrier's failure to pay the amount owed by the carrier, any other breach by the carrier of the provider agreement or the failure of the provider agreement to include the written hold harmless provision required by paragraph B. [PL 2011, c. 238, Pt. A, §1 (NEW).]

[PL 2011, c. 238, Pt. A, §1 (NEW).]

9. Notice of amendments to provider agreements. A carrier offering or renewing a health plan in this State shall notify a participating provider of a proposed amendment to a provider agreement at least 60 days prior to the amendment's proposed effective date and may file such notice of a proposed amendment to a provider agreement only 4 times per calendar year on January 1st, April 1st, July 1st and October 1st, except that, at any time, a carrier may file a notice of a proposed amendment in response to a requirement of the State or Federal Government or due to a change in current procedural terminology codes used by the American Medical Association. If an amendment that has substantial impact on the rights and obligations of providers is made to a manual, policy or procedure document referenced in the provider agreement, such as material changes to fee schedules or material changes to procedural coding rules specified in the manual, policy or procedure document, the carrier shall provide 60 days' notice to the provider. If the change is to a reimbursement policy and the estimated aggregate change to participating provider reimbursement as a result of the change is more than \$500,000 per year, the notice must include the carrier's good faith estimate of the total annual financial impact of the amendment on the aggregate amount of reimbursement payments made by the carrier to all providers within the State with whom the carrier has a provider agreement. After the 60-day notice period has expired, the amendment to a manual, policy or procedure document becomes effective and binding on both the carrier and the provider subject to any applicable termination provisions in the provider agreement, except that the carrier and provider may mutually agree to waive the 60-day notice

requirement. This subsection may not be construed to limit the ability of a carrier and provider to mutually agree to the proposed change at any time after the provider has received notice of the proposed amendment. If the notice required by this subsection is provided by electronic communication, the subject line of the electronic communication must indicate that notice of an amendment to a provider agreement or manual, policy or procedure document is included in the communication and the notice of the amendment must be provided as an attachment to the communication, as a separate document. As part of the notice required under this subsection, a carrier shall provide a copy of the revised provider agreement, manual, policy or procedure document without changes being noted and a copy of the revised provider agreement, manual, policy or procedure document with changes being noted by underlining added language and by striking through deleted language.

[PL 2023, c. 574, §1 (AMD).]

REVISOR'S NOTE: (Subsection 9 as enacted by PL 2003, c. 110, §1 is REALLOCATED TO TITLE 24-A, SECTION 4303, SUBSECTION 11)

10. Limits on retrospective denials. Except as provided in paragraphs C and D, a carrier offering a health plan in this State may not impose on any provider any retrospective denial of a previously paid claim or any part of that previously paid claim unless the carrier has provided the reason for the retrospective denial in writing to the provider and the time that has elapsed since the date of payment of the previously paid claim does not exceed 12 months.

A. [PL 2023, c. 574, §2 (RP).]

B. [PL 2023, c. 574, §2 (RP).]

C. The retrospective denial of a previously paid claim may be permitted from 12 months from the date of payment until no later than 36 months from the date of payment for the following reasons only:

(1) The claim payment was incorrectly made because the provider or the insured was already paid in full for the health care services identified in the claim;

(2) The health care services identified in the claim were not delivered by the provider;

(3) The claim payment is the subject of adjustment with another insurer, administrator or payor; or

(4) The claim payment is the subject of legal action. [PL 2023, c. 574, §2 (NEW).]

D. The retrospective denial of a previously paid claim may be permitted beyond 12 months from the date of payment for the following reasons only:

(1) The claim was submitted fraudulently; or

(2) The claim payment was for services covered by Title XVIII, Title XIX or Title XXI of the Social Security Act. [PL 2023, c. 574, §2 (NEW).]

For purposes of this subsection, "retrospective denial of a previously paid claim" means any attempt by a carrier to retroactively collect payments already made to a provider with respect to a claim by requiring repayment of such payments, reducing other payments currently owed to the provider, withholding or setting off against future payments or reducing or affecting the reimbursement rates for future claim payments to the provider in any other manner. The provider has 6 months from the date of notification under this subsection to determine whether the insured has other appropriate insurance that was in effect on the date of service. Notwithstanding the terms of the provider agreement, the carrier shall allow for the submission of a claim that was previously denied by another insurer because of the insured's transfer or termination of coverage.

[PL 2023, c. 574, §2 (AMD).]

11. (REALLOCATED FROM T. 24-A, §4303, sub-§9) Absolute discretion clauses. The use and enforcement of an absolute discretion clause is governed by this subsection.

A. A policy, contract, certificate or agreement offered, delivered, issued or renewed for delivery in this State by a carrier to provide, deliver, arrange for, pay for or reimburse any of the costs of health care services may not contain a provision purporting to reserve sole or absolute discretion to the carrier to interpret the terms of the contract or to provide standards of interpretation or review that are inconsistent with the laws of this State. [RR 2003, c. 1, §21 (RAL).]

B. A carrier may not enforce a provision in a policy, contract, certificate or agreement that was offered, delivered or issued for delivery in this State and has been continued or renewed by a group policy holder or individual enrollee in this State that purports to reserve sole or absolute discretion to the carrier to interpret the terms of the contract or to provide standards of interpretation or review that are inconsistent with the laws of this State. [RR 2003, c. 1, §21 (RAL).]
[RR 2003, c. 1, §21 (RAL).]

12. Publication of policies by carriers. A carrier must publish at least 5 individual health plans with the highest level of enrollment and at least 5 small group health plans with the highest level of enrollment on the carrier's publicly accessible website in a manner that will allow consumers to review the coverage offered under each policy. The policies posted on the website must be updated when changes are made to the policies by the carrier. The appearance of the policy on the website must duplicate the appearance of a paper copy of the policy. The bureau shall provide a link from its website to each carrier's website. A carrier must review annually which policies to post and make any necessary changes on its website. A carrier must post the required policies on its website within 90 days after the effective date of this subsection.
[PL 2009, c. 439, Pt. A, §3 (NEW).]

13. Explanation of benefits. A carrier offering an individual expense-incurred health plan to residents of this State or an expense-incurred group health plan to an employer in this State shall provide individual policyholders and group certificate holders with clear written explanations of benefit documents in response to the filing of any claim providing for coverage of hospital or medical expenses. The explanation of benefits must include all of the following information:

A. The date of service; [PL 2009, c. 439, Pt. A, §4 (NEW).]

B. The provider of the service; [PL 2009, c. 439, Pt. A, §4 (NEW).]

C. An identification of the service for which the claim is made; [PL 2009, c. 439, Pt. A, §4 (NEW).]

D. Any amount the insured is obligated to pay under the policy for copayment or coinsurance; [PL 2009, c. 439, Pt. A, §4 (NEW).]

E. A telephone number and address where the insured may obtain clarification of the explanation of benefits; [PL 2009, c. 439, Pt. A, §4 (NEW).]

F. A notice of appeal rights; and [PL 2009, c. 439, Pt. A, §4 (NEW).]

G. A notice of the right to file a complaint with the bureau after exhausting any appeals under a carrier's internal appeals process. [PL 2009, c. 439, Pt. A, §4 (NEW).]

The superintendent shall establish by rule the minimum information and standards for explanation of benefits forms used by carriers, taking into consideration any input from stakeholders and any national standards for explanation of benefits forms. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. This subsection applies to any explanation of benefits form issued on or after January 1, 2010.
[PL 2009, c. 439, Pt. A, §4 (NEW).]

14. Policy terms. The superintendent may by rule define standard policy terms that must be used in all policies issued by carriers offering health plans in the State. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2009, c. 439, Pt. A, §5 (NEW).]

15. Uniform explanation of coverage documents and standardized definitions. A carrier offering a health plan in this State shall:

A. Provide to applicants, enrollees and policyholders or certificate holders a summary of benefits and an explanation of coverage that accurately describe the benefits and coverage under the applicable plan or coverage. A summary of benefits and an explanation of coverage must conform with the requirements of the federal Affordable Care Act; [PL 2023, c. 80, §2 (AMD).]

B. Use standard definitions of insurance-related and medical-related terms in connection with health insurance coverage as required by the federal Affordable Care Act; and [PL 2023, c. 80, §2 (AMD).]

C. Provide notice to enrollees and policyholders or certificate holders that preventive services are covered without cost sharing as provided in section 4320-A, subsection 1, but services related to a specific health concern, condition or injury may be separately billed as an office visit and may be subject to cost-sharing requirements as provided in the health plan. [PL 2023, c. 80, §2 (NEW).] [PL 2023, c. 80, §2 (AMD).]

REVISOR'S NOTE: (Subsection 15 as enacted by PL 2011, c. 451, §1 is REALLOCATED TO TITLE 24-A, SECTION 4303, SUBSECTION 17)

16. Language and culture. All notices to applicants, enrollees and policyholders or certificate holders subject to the requirements of the federal Affordable Care Act must be provided in a culturally and linguistically appropriate manner consistent with the requirements of the federal Affordable Care Act. [PL 2011, c. 364, §27 (NEW).]

17. (REALLOCATED FROM T. 24-A, §4303, sub-§15) Prohibition on "most favored nation" clauses. Participation agreements between carriers and providers are governed by this subsection.

A. A participation agreement between a carrier and a provider may not include a provision, commonly referred to as a "most favored nation" clause, that:

(1) Prohibits, or grants the carrier an option to prohibit, the provider from entering into a participation agreement with another carrier to provide services at a lower price than the payment specified in the participation agreement;

(2) Requires, or grants the carrier an option to require, the provider to accept a lower payment in the event the provider agrees to provide services to any other carrier at a lower price;

(3) Requires, or grants the carrier an option of, termination or renegotiation of the existing participation agreement in the event the provider agrees to provide services to any other carrier at a lower price; or

(4) Requires the provider to disclose its reimbursement rates from other carriers. [RR 2011, c. 1, §42 (RAL).]

B. The superintendent may grant a waiver to paragraph A on application by either a carrier or a provider. A carrier or provider requesting a waiver for more than one participation agreement must file a separate application for each requested waiver. The superintendent may grant a waiver only after issuing a finding that the inclusion in the participation agreement of a most favored nation clause as described in paragraph A is not anticompetitive. A carrier or provider requesting a waiver may request a hearing on the application for a waiver in accordance with section 229. The findings

and decision of the superintendent are final agency actions for the purposes of Title 5, chapter 375, subchapter 7 and, notwithstanding section 236, subsection 2, may be appealed regardless of whether a hearing was held. The superintendent's review under this paragraph is limited to the most favored nation clause, and any decision under this paragraph is for purposes of this subsection only and may not be construed as a finding or decision regarding the legality of the provision under other applicable law. [RR 2011, c. 1, §42 (RAL).]

C. Prior to the issuance of the superintendent's findings and decision on an application for a waiver pursuant to this subsection, any contract, proposal or draft legal instrument submitted to the superintendent in an application for a waiver is not a public record for the purposes of Title 1, chapter 13, except that the name and business address of the parties to an application for a waiver are public information. After the issuance of the superintendent's findings and decision, the superintendent may disclose any information that the superintendent determines is not proprietary information. For the purposes of this paragraph, "proprietary information" means information that is a trade secret or production, commercial or financial information the disclosure of which would impair the competitive position of the carrier or provider submitting the information and would make available information not otherwise publicly available. [RR 2011, c. 1, §42 (RAL).]

D. A carrier may not discriminate or retaliate against a provider for filing or opposing an application for a waiver under this subsection. [RR 2011, c. 1, §42 (RAL).]

E. A provider may not discriminate or retaliate against a carrier for filing or opposing an application for a waiver under this subsection. [RR 2011, c. 1, §42 (RAL).]

F. For the purposes of this subsection, the factors the superintendent may consider in determining whether to grant a waiver based on a finding that the inclusion of a most favored nation clause as described in paragraph A is not anticompetitive include, but are not limited to:

- (1) Any reduction or limit on competition among carriers or providers;
- (2) The impact on quality and availability of health care services, including the geographic distribution of providers;
- (3) The size of the provider and the type of any specialty;
- (4) The market share of the carrier and the provider;
- (5) The impact on the price and stability of health insurance and health care services to consumers; and
- (6) The impact on reimbursement rates in the provider marketplace. [RR 2011, c. 1, §42 (RAL).]

[RR 2011, c. 1, §42 (RAL).]

18. Provider contract requirements. A carrier offering a health plan must meet the requirements of this subsection with respect to a contract offered by the carrier to a provider, including a contract offered through a preferred provider arrangement, as defined in section 2671, subsection 7. This subsection does not apply to dental or vision plans.

A. If the contract for a preferred provider arrangement includes a reference to policies or procedures to which a contracting provider would be bound, all such policies and procedures must be provided to the provider for review in an easily accessible manner upon the provider's request at the time the contract is offered. [PL 2013, c. 399, §1 (NEW).]

B. Upon the provider's request at the time a contract for a preferred provider arrangement is offered, the following must be provided to a provider for review:

- (1) The fee schedule or, if there is not a fee schedule for one or more of the services covered under the contract, the terms under which payment is determined. A carrier may require a

provider to execute a nondisclosure agreement covering the information provided under this subparagraph; and

(2) The identity of all carriers for which the provider is agreeing to provide services to health plan enrollees. [PL 2013, c. 399, §1 (NEW).]

C. As a condition of participation in one of the carrier's preferred provider arrangements, a contract offered by a carrier may not require a provider to participate in any other carrier's network subsequently offered by the carrier or by a carrier's preferred provider arrangement. [PL 2013, c. 399, §1 (NEW).]

D. Without the provider's prior written consent, a provider's contractual participation in a carrier's preferred provider arrangement may not:

(1) Subject the provider to health plan payor requirements or fee schedules that materially differ from the terms of the provider's contract with the carrier, unless those materially different terms are set out in writing in a separate section of the contract, such as an exhibit or amendment; or

(2) Permit the terms of the provider's existing preferred provider arrangement contract to be superseded by a carrier's subsequent contract with a health plan payor. [PL 2013, c. 399, §1 (NEW).]

E. A preferred provider arrangement contract may not require a provider providing a service to an enrollee under a health plan included in the provider's contract to obtain preauthorization if the enrollee's health plan does not require prior authorization as a condition of coverage. [PL 2013, c. 399, §1 (NEW).]

F. Explanation of remittance advices or comparable documents, whether in paper or electronic form, that accompany and identify payment of a provider's claims under a carrier's contract, including contracts offered through a preferred provider arrangement, must identify the administrator and payor of the provider's claims and include contact information. [PL 2013, c. 399, §1 (NEW).]

The requirements of this subsection do not apply to a carrier offering a health plan with respect to preferred provider arrangement contracts with a hospital or pharmacy.

[PL 2013, c. 399, §1 (NEW).]

19. Information about provider networks. A carrier offering a managed care plan shall prominently disclose to applicants, prospective enrollees and enrollees information about the carrier's provider network for the applicable managed care plan, including whether there are hospitals, health care facilities, physicians or other providers not included in the plan's network and any differences in an enrollee's financial responsibilities for payment of covered services to a participating provider and to a provider not included in a provider network. The superintendent may adopt rules that set forth the manner, content and required disclosure of the information in accordance with this subsection. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2013, c. 535, §1 (NEW).]

20. Information about prescription drugs. Consistent with the requirements of the federal Affordable Care Act, a carrier offering a health plan in this State shall provide the following information to prospective enrollees and enrollees with respect to prescription drug coverage on its publicly accessible website.

A. A carrier shall post each prescription drug formulary for each health plan offered by the carrier. The prescription drug formularies must be posted in a manner that allows prospective enrollees and enrollees to search the formularies and compare formularies to determine whether a particular

prescription drug is covered under a formulary. When a change is made to a formulary, the updated formulary must be posted on the website within 72 hours. [PL 2015, c. 260, §1 (NEW).]

B. A carrier shall provide an explanation of:

- (1) The requirements for utilization review, prior authorization or step therapy for each category of prescription drug covered under a health plan;
- (2) The cost-sharing requirements for prescription drug coverage, including a description of how the costs of prescription drugs will specifically be applied or not applied to any deductible or out-of-pocket maximum required under a health plan;
- (3) The exclusions from coverage under a health plan and any restrictions on use or quantity of covered health care services in each category of benefits; and
- (4) The amount of coverage provided under a health plan for out-of-network providers or noncovered health care services and any right of appeal available to an enrollee when out-of-network providers or noncovered health care services are medically necessary. [PL 2015, c. 260, §1 (NEW).]

[PL 2015, c. 260, §1 (NEW).]

21. Health care price transparency tools. Beginning January 1, 2018, a carrier offering a health plan in this State shall comply with the following requirements.

A. A carrier shall develop and make available a website accessible to enrollees and a toll-free telephone number that enable enrollees to obtain information on the estimated costs for obtaining a comparable health care service, as defined in Title 24-A, section 4318-A, subsection 1, paragraph A, from network providers, as well as quality data for those providers, to the extent available. A carrier may comply with the requirements of this paragraph by directing enrollees to the publicly accessible health care costs website of the Maine Health Data Organization. [PL 2017, c. 232, §6 (NEW).]

B. A carrier shall make available to the enrollee through a toll-free telephone number the ability to obtain an estimated cost of a scheduled health care service or a comparable health care service that is based on a description of the service or the applicable standard medical codes or current procedural terminology codes used by the American Medical Association provided to the enrollee by the provider. Upon an enrollee's request, the carrier shall request additional or clarifying code information, if needed, from the provider involved with the scheduled health care service or comparable health care service. If the carrier obtains specific code information from the enrollee or the enrollee's provider, the carrier shall provide the anticipated allowed amount and the enrollee's anticipated out-of-pocket costs based on that code information, to the extent such information is made available to the carrier by the provider. Notwithstanding other provisions of this paragraph, a carrier does not commit a violation of this paragraph if the carrier complies with federal regulations for price transparency relating to an estimate of an enrollee's cost-sharing responsibility. [PL 2023, c. 584, Pt. A, §5 (AMD).]

C. A carrier shall notify an enrollee that the amounts are estimates based on information available to the carrier at the time the request is made and that the amount the enrollee will be responsible to pay may vary due to unforeseen circumstances that arise out of the proposed scheduled health care service or comparable health care service. This subsection does not prohibit a carrier from imposing cost-sharing requirements disclosed in the enrollee's certificate of coverage for unforeseen health care services that arise out of the proposed scheduled health care service or comparable health care service or for a procedure or service that was not included in the original estimate. This subsection does not preclude an enrollee from contacting the carrier to obtain more information about a particular admission, procedure or service with respect to a particular provider. [PL 2023, c. 584, Pt. A, §5 (AMD).]

D. [PL 2023, c. 584, Pt. A, §5 (RP).]
[PL 2023, c. 584, Pt. A, §5 (AMD).]

22. Denial of referral by out-of-network provider prohibited. Beginning January 1, 2018, a carrier may not deny payment for any health care service covered under an enrollee's health plan based solely on the basis that the enrollee's referral was made by a direct primary care provider who is not a member of the carrier's provider network. A carrier may not apply a deductible, coinsurance or copayment greater than the applicable deductible, coinsurance or copayment that would apply to the same health care service if the service was referred by a participating primary care provider. A carrier may require a direct primary care provider making a referral who is not a member of the carrier's provider network to provide information demonstrating that the provider is a direct primary care provider through a written attestation or copy of a direct primary care agreement with an enrollee and may request additional information necessary to implement this subsection. As used in this subsection, "direct primary care provider" has the same meaning as in Title 22, section 1771, subsection 1, paragraph B.

[PL 2019, c. 178, §1 (AMD).]

22-A. Denial of referral during urgent care visit prohibited. A carrier may not deny payment for any behavioral health care service or physical therapy service covered under an enrollee's health plan based solely on the basis that the enrollee's referral was not made by the enrollee's primary care provider as long as the enrollee's referral is made by a provider during an urgent care visit and the provider notifies the enrollee's primary care provider of the referral. A carrier may not apply a deductible, coinsurance or copayment greater than the applicable deductible, coinsurance or copayment that would apply to the same health care service if the service was referred by the enrollee's primary care provider. A carrier may require a provider of urgent care that is making a referral to provide additional information necessary to implement this subsection.

[PL 2023, c. 119, §3 (NEW).]

23. Duplicative or incorrect claims payments. If a carrier has made a duplicative or incorrect payment on a claim with respect to a health plan:

A. If the claim payment was made to a provider, the carrier shall retroactively seek collection related to that payment directly from the provider; and [PL 2019, c. 30, §1 (NEW).]

B. The carrier may not attempt to retroactively seek collection related to the claim payment from an enrollee unless the enrollee was already paid directly for the services identified in the claim and a provider submits evidence to the carrier that the enrollee did not forward payment to the provider. After a provider has submitted evidence that the enrollee did not forward payment to the provider, a carrier may require an enrollee to provide evidence of payment to the provider. [PL 2019, c. 30, §1 (NEW).]

[PL 2019, c. 30, §1 (NEW).]

24. Practice or facility-wide prepayment review of providers. A practice or facility-wide prepayment review of the documentation or records of a provider conducted by a carrier for the purposes of identifying fraud, waste or abuse, determining whether the documentation is appropriate or adequate to support a claim for covered health care services or determining whether health care services are or were medically necessary health care as a condition of payment must be conducted in accordance with the following requirements.

A. When a carrier subjects a provider or facility to a practice or facility-wide prepayment review, the carrier shall provide a process to allow claims and documentation to be submitted to the carrier electronically for purposes of proving timely filing and tracking the carrier's compliance with time limits in other applicable laws. [PL 2021, c. 272, §1 (NEW).]

B. Claims subject to a practice or facility-wide prepayment review must be paid or disputed within 30 days as required by section 2436. Any claim that is not disputed pursuant to section 2436 or

paid within 30 days by the carrier is overdue and subject to interest in accordance with section 2436. [PL 2021, c. 272, §1 (NEW).]

C. Any records of an enrollee reviewed as part of a practice or facility-wide prepayment review must be reviewed by the same reviewer to the extent possible. The reviewer who performs the practice or facility-wide prepayment review is the primary contact person for the provider related to an audit, review, denial or nonpayment of a claim. Any practice or facility-wide prepayment review that involves clinical or professional judgement must be conducted by or in consultation with a clinical peer. [PL 2021, c. 272, §1 (NEW).]

D. A carrier may not apply additional or different documentation standards beyond the standards set by the professional association of the provider subject to practice or facility-wide prepayment review if those standards are publicly available or made available to the carrier. This paragraph does not prohibit carriers from establishing or applying medical policies or clinical guidelines to determine whether a service is a covered benefit and medically necessary health care. This paragraph does not apply to claims submitted by a hospital or other health care facility. [PL 2021, c. 272, §1 (NEW).]

E. A carrier may not deny payment of a claim for covered health care services by a provider solely on the basis of a minor documentation error or omission, including, but not limited to, misspelling, use of an abbreviation or a correctable error, unless the carrier affords the provider or enrollee the opportunity to resubmit the claim to correct the identified error. [PL 2021, c. 272, §1 (NEW).]

F. If a carrier requires additional information as part of a practice or facility-wide prepayment review of a claim for covered health care services by a provider, the carrier shall inform the provider with reasonable specificity of the information needed by the carrier to adjudicate the claim. [PL 2021, c. 272, §1 (NEW).]

G. Additional information required by a carrier is considered timely filed by the provider if submitted within 30 days from the date the provider received notice from the carrier of the errors, omissions or additional information needed. [PL 2021, c. 272, §1 (NEW).]

H. A carrier shall provide information on how a provider may appeal the denial of a claim, including the mailing or e-mail address or fax number where an appeal should be sent, on its publicly accessible website or in a provider manual. [PL 2021, c. 272, §1 (NEW).]

I. A carrier shall provide an opportunity to appeal the results of an audit leading to the provider being put on a practice or facility-wide prepayment review. [PL 2021, c. 272, §1 (NEW).]

J. A carrier may not audit a provider or require that a provider's claims be subject to practice or facility-wide prepayment review as retribution for raising contract disputes. [PL 2021, c. 272, §1 (NEW).]

For the purposes of this subsection, "practice or facility-wide prepayment review" means a manual review or audit process of all, or substantially all, of a provider's claims by a carrier or the carrier's agent.

[PL 2021, c. 272, §1 (NEW).]

25. Second opinion. An enrollee in a health plan may not be required to obtain a 2nd opinion from a provider that practices in the same office location as the enrollee's provider. Notwithstanding any provision of this Title to the contrary, if the 2nd opinion is obtained from an out-of-network provider because a network provider is not available in accordance with section 4303, subsection 1 and Bureau of Insurance Rule Chapter 850: Health Plan Accountability, a carrier may not apply a deductible, coinsurance or copayment for the 2nd opinion in an amount greater than the deductible, coinsurance or copayment that would apply to the same health care service if the service were obtained from a network provider, and the amount of any coinsurance or copayment must be applied to the enrollee's in-network deductible.

[PL 2023, c. 348, §1 (NEW).]

REVISOR'S NOTE: (Subsection 25 as enacted by PL 2023, c. 382, §1 is REALLOCATED TO TITLE 24-A, SECTION 4303, SUBSECTION 26)

26. (REALLOCATED FROM T. 24-A, §4303, sub-§25) Disclosure to enrollees of cash price.

A carrier may not prohibit a provider from providing an enrollee with the option of paying the provider's discounted cash price for health care services. For the purposes of this subsection, "discounted cash price" means:

A. With respect to a hospital, the discounted cash price as that term is defined in 45 Code of Federal Regulations, Section 180.20 if the hospital has a discounted cash price and does not mean the amount charged to individuals who are eligible for free care or are eligible for the amounts charged pursuant to a hospital's financial assistance policy; or [PL 2023, c. 382, §1 (NEW); RR 2023, c. 1, Pt. A, §22 (RAL).]

B. With respect to a provider that is not a hospital, the charge that applies to an enrollee who is paying for a health care service without filing any claim with a carrier. [PL 2023, c. 382, §1 (NEW); RR 2023, c. 1, Pt. A, §22 (RAL).]

[PL 2023, c. 382, §1 (NEW); RR 2023, c. 1, Pt. A, §22 (RAL).]

§4303-A. Provider profiling programs

1. Disclosure. At least 60 days prior to using or publicly disclosing the results of the provider profiling program, a carrier with a provider profiling program shall disclose to providers the methodologies, criteria, data and analysis used to evaluate provider quality, performance and cost, including but not limited to unit cost, price and cost-efficiency ratings. For the purposes of this subsection, the disclosure of data is satisfied by the provision by a carrier of a description of the data used in the evaluation, the source of the data, the time period subject to evaluation and, if applicable, the types of claims used in the evaluation including any adjustments to the data and exclusion from the data.

[PL 2013, c. 383, §5 (NEW).]

2. Provider profile. A carrier shall create and share with providers their provider profile at least 60 days prior to using or publicly disclosing the results of the provider profiling program.

[PL 2013, c. 383, §5 (NEW).]

3. Request for data. A provider may request a copy of its data within 30 days of the carrier's disclosure to a provider as required by subsection 2, and, upon request from a provider, a carrier shall provide to that provider the data associated with the requesting provider and all adjustments to the data used to evaluate that provider as part of the carrier's provider profiling program. The bureau shall adopt rules to establish requirements for the disclosure of data by a carrier to a provider in accordance with this subsection. The bureau shall provide in the rules for a time and manner of disclosure consistent with a carrier's ability to adopt, revise and develop an effective provider profiling program.

[PL 2013, c. 383, §5 (NEW).]

4. Appeals. A carrier shall establish a process that affords a provider the opportunity to review and dispute its provider profiling result within 30 days of being provided with its provider profile pursuant to subsection 2. The appeal process must:

A. Afford the provider the opportunity to correct material errors, submit additional information for consideration and seek review of data and performance ratings; [PL 2013, c. 383, §5 (NEW).]

B. Afford the provider the opportunity to review any information or evaluation prepared by a 3rd party and used by the carrier as part of its provider profiling program; however, if the 3rd party provides the right to review and correct that data, any appeal pursuant to this paragraph is limited to whether the carrier accurately portrayed the information and not to the underlying determination made by the 3rd party; and [PL 2013, c. 383, §5 (NEW).]

C. Allow the provider to request reconsideration of its provider profiling result and submit supplemental information, including information demonstrating any computational or data errors.

[PL 2013, c. 383, §5 (NEW).]

[PL 2013, c. 383, §5 (NEW).]

5. Out-of-network providers. If a carrier has a provider profiling program that includes out-of-network providers, a carrier must meet the requirements of this section with regard to an out-of-network provider as well as for a provider in a carrier's network.

[PL 2013, c. 383, §5 (NEW).]

6. Rules. The bureau shall adopt rules necessary to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2013, c. 383, §5 (NEW).]

§4303-B. Disclosure related to provider networks

1. Disclosure. Upon request, a carrier shall provide to a provider to which the carrier has decided not to offer the opportunity to participate or that the carrier has decided not to include as a participating provider in any of the carrier's provider networks a written explanation of the reason for the carrier's decision. The written explanation provided by the carrier must indicate whether the reason for not offering the provider the opportunity to contract or for not including the provider in any network was related to the provider's performance with respect to quality, cost or cost-efficiency.

[PL 2013, c. 535, §2 (NEW).]

2. No right of action. A provider has no right of action as the result of a disclosure made in accordance with this section.

[PL 2013, c. 535, §2 (NEW).]

SECTION HISTORY

PL 2013, c. 535, §2 (NEW).

§4303-C. Protection from surprise bills and bills for out-of-network emergency services

1. Surprise bill defined. As used in this section, unless the context otherwise indicates, "surprise bill" means a bill for health care services, including, but not limited to, emergency services, received by an enrollee for covered services rendered by an out-of-network provider, when such services were rendered by that out-of-network provider at a network provider, during a service or procedure performed by a network provider or during a service or procedure previously approved or authorized by the carrier and the enrollee did not knowingly elect to obtain such services from that out-of-network provider. "Surprise bill" does not include a bill for health care services received by an enrollee when a network provider was available to render the services and the enrollee knowingly elected to obtain the services from another provider who was an out-of-network provider.

[PL 2019, c. 668, §2 (AMD).]

1-A. "Knowingly elected to obtain such services from that out-of-network provider" defined. As used in this section, unless the context otherwise indicates, "knowingly elected to obtain such services from that out-of-network provider" means that an enrollee chose the services of a specific provider, with full knowledge that the provider is an out-of-network provider with respect to the enrollee's health plan, under circumstances that indicate that the enrollee had and was informed of the opportunity to receive services from a network provider but instead selected the out-of-network provider. The disclosure by a provider of network status does not render an enrollee's decision to proceed with treatment from that provider a choice made knowingly pursuant to this subsection.

[PL 2019, c. 668, §2 (NEW).]

2. Requirements. With respect to a surprise bill or a bill for covered emergency services rendered by an out-of-network provider:

A. A carrier shall require an enrollee to pay only the applicable coinsurance, copayment, deductible or other out-of-pocket expense that would be imposed for health care services if the services were rendered by a network provider. For an enrollee subject to coinsurance, the carrier shall calculate the coinsurance amount based on the median network rate for that health care service; [PL 2019, c. 668, §2 (AMD).]

B. Except as provided for ambulance services in paragraph D-1, unless the carrier and out-of-network provider agree otherwise, a carrier shall reimburse the out-of-network provider or enrollee, as applicable, for health care services rendered at the greater of:

(1) The carrier's median network rate paid for that health care service by a similar provider in the geographic area where the service was provided; and

(2) The median network rate paid by all carriers for that health care service by a similar provider in the geographic area where the service was provided as determined by the all-payer claims database maintained by the Maine Health Data Organization or, if Maine Health Data Organization claims data is insufficient or otherwise inapplicable, another independent medical claims database specified by the superintendent; [PL 2023, c. 591, §1 (AMD).]

C. Notwithstanding paragraph B, if a carrier has an inadequate network, as determined by the superintendent, the carrier shall ensure that the enrollee obtains the covered service at no greater cost to the enrollee than if the service were obtained from a network provider or shall make other arrangements acceptable to the superintendent; [PL 2019, c. 668, §2 (AMD).]

D. [PL 2019, c. 668, §2 (NEW); MRSA T. 24-A §4303-C, sub-§2, ¶D (RP).]

REVISOR'S NOTE: Paragraph D was repealed October 1, 2021. PL 2021, c. 241, §1 attempted to strike the language that repealed the paragraph, but did not take effect in time.

D-1. Unless the carrier and out-of-network provider agree otherwise, a carrier shall reimburse an out-of-network provider for ambulance services that are covered emergency services at the rate

applicable to the out-of-network provider pursuant to section 4303-F. [PL 2023, c. 591, §2 (NEW).]

E. If an out-of-network provider disagrees with a carrier's payment amount for a surprise bill for emergency services or for covered emergency services as determined in accordance with paragraph B or paragraph D, the carrier and the out-of-network provider have 30 calendar days to negotiate an agreement on the payment amount in good faith. If the carrier and the out-of-network provider do not reach agreement on the payment amount within 30 calendar days, the out-of-network provider may submit a dispute regarding the payment and receive another payment from the carrier determined in accordance with the dispute resolution process in section 4303-E, including any payment made pursuant to section 4303-E, subsection 1, paragraph G; and [PL 2021, c. 241, §2 (AMD).]

F. The enrollee's responsibility for payment for covered out-of-network emergency services must be limited so that if the enrollee has paid the enrollee's share of the charge as specified in the plan for in-network services, the carrier shall hold the enrollee harmless from any additional amount owed to an out-of-network provider for covered emergency services and make payment to the out-of-network provider in accordance with this section or, if there is a dispute, in accordance with section 4303-E. [PL 2019, c. 668, §2 (NEW).]
[PL 2023, c. 591, §§1, 2 (AMD).]

3. Payment after resolution of disputes. Following an independent dispute resolution determination pursuant to section 4303-E, the determination by the independent dispute resolution entity of a reasonable payment for a specific health care service or treatment rendered by an out-of-network provider is binding on a carrier, out-of-network provider and enrollee for 90 days. During that 90-day period, a carrier shall reimburse an out-of-network provider at that same rate for that specific health care service or treatment, and an out-of-network provider may not dispute any bill for that service under section 4303-E.
[PL 2019, c. 668, §2 (NEW).]

§4303-D. Provider directories

1. Requirement. A carrier shall make available provider directories in accordance with this section.

A. A carrier shall post electronically a current and accurate provider directory for each of its network plans with the information and search functions described in subsection 2. In making the directory available electronically, the carrier shall ensure that the general public is able to view all of the current providers for a plan through a clearly identifiable link or tab and without creating or accessing an account or entering a policy or contract number. [PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

B. A carrier shall update each provider directory at least monthly. The carrier shall periodically audit at least a reasonable sample size of its provider directories for accuracy and retain documentation of such an audit to be made available to the superintendent upon request. [PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

C. A carrier shall provide a print copy, or a print copy of the requested directory information, of a current provider directory with the information described in subsection 2 upon request of a covered person or a prospective covered person. [PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

D. For each network plan, a carrier shall include in plain language in both the electronic and print directories the following general information:

- (1) A description of the criteria the carrier has used to build its provider network;
- (2) If applicable, a description of the criteria the carrier has used to tier providers;
- (3) If applicable, how the carrier designates the different provider tiers or levels in the network and identifies for each specific provider, hospital or other type of facility in the network the tier in which each is placed, whether by name, symbols, grouping or another designation, so that a covered person or a prospective covered person is able to identify the provider tier; and
- (4) If applicable, that authorization or referral may be required to access some providers. [PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

E. A carrier shall make clear in both its electronic and print directories which provider directory applies to which network plan by including the specific name of the network plan as marketed and issued in this State. The carrier shall include in both its electronic and print directories a customer service e-mail address and telephone number or electronic link that covered persons or the general public may use to notify the carrier of inaccurate provider directory information. [PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

F. For the information required pursuant to subsections 2, 3 and 4 in a provider directory pertaining to a health care professional, a hospital or a facility other than a hospital, a carrier shall make available through the directory the source of the information and any limitations on the information, if applicable. [PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

G. A provider directory, whether in electronic or print format, must accommodate the communication needs of individuals with disabilities and include a link to or information regarding available assistance for persons with limited English proficiency. [PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

[PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

B. For hospitals:

- (1) The hospital's name;
- (2) The hospital's type;

3. Additional information. In the electronic provider directories for each network plan, a carrier shall make available the following information in addition to all of the information available under subsection 2:

[PL 2017, c. 218, §2 (NEW); PL 2017, c. 218, §3 (AFF).]

SECTION HISTORY

PL 2017, c. 218, §2 (NEW). PL 2017, c. 218, §3 (AFF).

§4303-E. Dispute resolution process for surprise bills and bills for out-of-network emergency services

1. Independent dispute resolution process. The superintendent shall establish an independent dispute resolution process by which a dispute for a surprise bill for emergency services or a bill for covered emergency services rendered by an out-of-network provider in accordance with section 4303-C, subsection 2 may be resolved as provided in this subsection beginning no later than October 1, 2020.

A. The superintendent may select an independent dispute resolution entity to conduct the dispute resolution process. The superintendent shall adopt rules to implement a dispute resolution process that uses a standard arbitration form and includes the selection of an arbitrator from a list of qualified arbitrators developed pursuant to the rules. A qualified arbitrator must be independent; may not be affiliated with a carrier, health care facility or provider or any professional association of carriers, health care facilities or providers; may not have a personal, professional or financial conflict with any parties to the arbitration; and must have experience in health care billing and reimbursement rates. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2019, c. 668, §3 (NEW).]

B. An independent dispute resolution entity shall make a decision within 30 days of receipt of the dispute for review. [PL 2019, c. 668, §3 (NEW).]

C. In determining a reasonable fee for the health care services rendered, an independent dispute resolution entity shall select either the carrier's payment or the out-of-network provider's fee. The independent dispute resolution entity shall determine which amount to select based upon the conditions and factors set forth in this paragraph. In determining the reasonable fee for a health care service, an independent dispute resolution entity shall consider all relevant factors, including:

- (1) The out-of-network provider's level of training, education, specialization, quality and experience and, in the case of a hospital, the teaching staff, scope of services and case mix;
- (2) The out-of-network provider's previously contracted rate with the carrier, if the provider had a contract with the carrier that was terminated or expired within one year prior to the dispute; and
- (3) The median network rate for the particular health care service performed by a provider in the same or similar specialty, as determined by the all-payer claims database maintained by the Maine Health Data Organization or, if Maine Health Data Organization claims data is insufficient or otherwise inapplicable, another independent medical claims database. If authorized by rule, the superintendent may enter into an agreement to obtain data from an independent medical claims database to carry out the functions of this subparagraph. [PL 2019, c. 668, §3 (NEW).]

D. If an independent dispute resolution entity determines, based on the carrier's payment and the out-of-network provider's fee, that a settlement between the carrier and out-of-network provider is reasonably likely, or that both the carrier's payment and the out-of-network provider's fee represent unreasonable extremes, the independent dispute resolution entity may direct both parties to attempt a good faith negotiation for settlement. The carrier and out-of-network provider may be granted up to 10 business days for this negotiation, which runs concurrently with the 30-day period for dispute resolution. [PL 2019, c. 668, §3 (NEW).]

E. The determination of an independent dispute resolution entity is binding on the carrier, out-of-network provider and enrollee and is admissible in any court proceeding between the carrier, out-of-network provider and enrollee or in any administrative proceeding between this State and the provider. [PL 2019, c. 668, §3 (NEW).]

F. When an independent dispute resolution entity determines the carrier's payment is reasonable, payment for the dispute resolution process is the responsibility of the out-of-network provider. When the independent dispute resolution entity determines the out-of-network provider's fee is reasonable, payment for the dispute resolution process is the responsibility of the carrier. When a good faith negotiation directed by the independent dispute resolution entity results in a settlement between the carrier and the out-of-network provider, the carrier and the out-of-network provider shall evenly divide and share the prorated cost for dispute resolution. [PL 2019, c. 668, §3 (NEW).]

G. [PL 2021, c. 222, §2 (RP).]

H. The superintendent shall enforce the determination of an independent dispute resolution entity pursuant to this subsection or any agreement made by a carrier and an out-of-network provider after the conclusion of the independent dispute resolution process pursuant to this subsection. The superintendent may use any powers provided to the superintendent under this Title. [PL 2019, c. 668, §3 (NEW).]

I. Following a determination by an independent dispute resolution entity of a reasonable fee for a particular health care service, an out-of-network provider may not initiate the dispute resolution process under this subsection for that same health care service for a period of 90 days. [PL 2021, c. 222, §3 (NEW).]

[PL 2021, c. 222, §§2, 3 (AMD).]

2. Self-insured health benefit plans. An entity providing or administering a self-insured health benefit plan exempted from the applicability of this section under the federal Employee Retirement Income Security Act of 1974, 29 United States Code, Sections 1001 to 1461 (1988) may elect to be subject to the provisions of this section to resolve disputes with respect to a surprise bill for emergency services or a bill for covered emergency services from an out-of-network provider. In the event an

entity providing or administering a self-insured health benefit plan elects to be subject to the provisions of this section, the provisions of this section apply to a self-insured health benefit plan and its members in the same manner as the provisions of this section apply to a carrier and its enrollees. To elect to be subject to the provisions of this section, the entity shall provide notice, on an annual basis, to the superintendent, on a form and in a manner prescribed by the superintendent, attesting to the entity's participation and agreeing to be bound by the provisions of this section. The entity shall amend the health benefit plan, coverage policies, contracts and any other plan documents to reflect that the provisions of this section apply to the plan's members.

[PL 2019, c. 668, §3 (NEW).]

3. Information required from carriers. As part of the carrier's annual public regulatory filings made to the superintendent, a carrier shall submit in a form and manner determined by the superintendent information related to:

A. The use of out-of-network providers by enrollees and the impact on premium affordability and benefit design; and [PL 2019, c. 668, §3 (NEW).]

B. The number of claims submitted by a provider to the carrier that are denied or down coded by the carrier and the reason for the denial or down coding determination. [PL 2019, c. 668, §3 (NEW).]

[PL 2019, c. 668, §3 (NEW).]

4. Report from superintendent. On or before January 31st annually, beginning January 1, 2022, the superintendent shall report the following information received from all carriers in the aggregate:

A. The number of requests for independent dispute resolution filed pursuant to this section between January 1st and December 31st of the previous calendar year, including the percentage of all claims that were subject to dispute. For each independent dispute resolution determination, the carrier shall provide aggregate information that does not identify any provider, carrier, enrollee or uninsured patient involved in each determination about:

(1) Whether the determination was in favor of the carrier, out-of-network provider or uninsured patient;

(2) The payment amount offered by each side of the independent dispute resolution process and the award amount from the independent dispute resolution determination;

(3) The category and practice specialty of each out-of-network provider involved, as applicable; and

(4) A description of the health care service that was subject to dispute; [PL 2019, c. 668, §3 (NEW).]

B. The percentage of facilities and hospital-based professionals, by specialty, that are in network for each carrier in this State as reported in access plans submitted to the superintendent; [PL 2019, c. 668, §3 (NEW).]

C. The number of complaints the superintendent receives relating to out-of-network health care charges; [PL 2019, c. 668, §3 (NEW).]

D. Annual trends on health benefit plan premium rates, the total annual amount of spending on inadvertent and emergency out-of-network costs by carriers and medical loss ratios in the State to the extent that the information is available; [PL 2019, c. 668, §3 (NEW).]

E. The number of physician specialists practicing in the State in a particular specialty and whether they are in network or out of network with respect to the carriers that administer the state employee group health plan under Title 5, section 285, the Maine Education Association benefits trust health plan, the qualified health plans offered pursuant to the federal Affordable Care Act and other health benefit plans offered in the State; [PL 2019, c. 668, §3 (NEW).]

F. A summary of the information submitted to the superintendent pursuant to subsection 3 concerning the number of claims submitted by health care providers to carriers that are denied or down coded by the carrier and the reasons for the denials or down coding determinations; [PL 2019, c. 668, §3 (NEW).]

G. An analysis of the impact of this section, with respect to both emergency services and other health care services, on premium affordability and the breadth of provider networks; and [PL 2019, c. 668, §3 (NEW).]

H. Any other benchmarks or information that the superintendent considers appropriate to make publicly available to further the goals of this section. [PL 2019, c. 668, §3 (NEW).]

The superintendent shall submit the report to the joint standing committee of the Legislature having jurisdiction over health insurance matters and shall post the report on the bureau's publicly accessible website.

[PL 2019, c. 668, §3 (NEW).]

§4303-F. Reimbursement for ambulance services and participation of ambulance service providers in carrier networks

1. Reimbursement for ambulance services. With respect to a bill for covered services rendered by an ambulance service provider, a carrier shall reimburse the ambulance service provider or enrollee, as applicable, as follows.

A. If the ambulance service provider participates in the carrier's network, the carrier shall reimburse at the ambulance service provider's rate or 200% of the Medicare rate for that service, whichever is less, plus any adjustment required by paragraph C. [PL 2021, c. 241, §3 (NEW).]

[PL 2021, c. 241, §3 (NEW).]

D. If, on the effective date of this subsection, an ambulance service provider's charge for ambulance services is below 200% of the Medicare rate for that service, the ambulance service provider may not increase the charge for that service by more than 5% annually. [PL 2021, c. 241, §3 (NEW).]

E. A carrier may not require a ground ambulance service provider to obtain prior authorization before transporting an enrollee to a hospital, between hospitals or from a hospital to a nursing home, hospice care facility or other health care facility, as defined in Title 22, section 328, subsection 8. A carrier may not require an air ambulance service provider to obtain prior authorization before transporting an enrollee to a hospital or between hospitals for urgent care. [PL 2023, c. 591, §3 (AMD).]

Notwithstanding this subsection, a carrier is not required to reimburse an ambulance service provider at the reimbursement rates required in this subsection for covered services delivered through community paramedicine in accordance with Title 32, section 84, subsection 4 and a carrier may require an ambulance service provider to obtain prior authorization before providing services through community paramedicine.

[PL 2023, c. 591, §3 (AMD).]

With respect to a health plan with an effective date on or after January 1, 2024, when an ambulance service provider responds to a call for emergency services and an enrollee refuses transport to a hospital, a carrier shall reimburse that ambulance service provider for any services other than transport provided to the enrollee as follows.

A. If the ambulance service provider participates in the carrier's network, the carrier shall reimburse the ambulance service provider at the ambulance service provider's rate or 200% of the average of the Medicare rate for basic life support services and the Medicare rate for advanced life support services, whichever is less, plus any adjustment required by paragraph C. [PL 2023, c. 468, §2 (NEW).]

B. If the ambulance service provider is an out-of-network provider, the carrier shall reimburse the ambulance service provider at the ambulance service provider's rate or 180% of the average of the Medicare rate for basic life support services and the Medicare rate for advanced life support services, whichever is less, plus any adjustment required by paragraph C. [PL 2023, c. 468, §2 (NEW).]

C. If the ambulance service provider is located in a rural or super rural area as designated by the federal Department of Health and Human Services, Centers for Medicare and Medicaid Services and eligible for additional Medicare reimbursement for services that were provided to a Medicare enrollee, the carrier shall increase the reimbursement to that ambulance service provider in the same amount as the additional Medicare reimbursement. [PL 2023, c. 468, §2 (NEW).]

D. If, on the effective date of this subsection, an ambulance service provider's rate for ambulance services is below 200% of the average of the Medicare rate for basic life support and advanced life support services, the ambulance service provider may not increase the rate for that service by more than 5% annually. [PL 2023, c. 468, §2 (NEW).]

[PL 2023, c. 468, §2 (NEW).]

2. Network participation; standard contract. A carrier shall offer a standard contract to all ambulance service providers willing to participate in the carrier's provider network with the following provisions:

A. The reimbursement rate paid for ambulance services conforms to the requirements of subsection 1; [PL 2023, c. 468, §2 (AMD).]

B. The contract term is for a minimum of 24 months; [PL 2021, c. 241, §3 (NEW).]

C. The contract may be terminated as long as the party seeking to terminate the contract provides at least 180 days' prior notice; and [PL 2021, c. 241, §3 (NEW).]

D. The contract provides that an ambulance service provider has a minimum of 120 days to submit a claim. [PL 2021, c. 241, §3 (NEW).]

[PL 2023, c. 468, §2 (AMD).]

3. Exemption. Except as provided in subsection 1, paragraph E, this section does not apply to air ambulance services.

[PL 2023, c. 591, §4 (AMD).]

SECTION HISTORY

PL 2023, c. 40, §1 (NEW).

§4304. Utilization review

The following requirements apply to health plans doing business in this State that require prior authorization by the plan of health care services or otherwise subject payment of health care services

to review for clinical necessity, appropriateness, efficacy or efficiency. A carrier offering or renewing a health plan subject to this section that contracts with other entities to perform utilization review on the carrier's behalf is responsible for ensuring compliance with this section and chapter 34. [PL 2007, c. 199, Pt. B, §12 (AMD).]

1. Requirements for medical review or utilization review practices. A carrier shall appoint a medical director who is responsible for reviewing and approving the carrier's policies governing the clinical aspects of coverage determinations by any health plan that it offers or renews. A carrier's medical review or utilization review practices must be governed by the standard of medically necessary health care as defined in this chapter. A carrier shall provide clear written policies and procedures to providers and enrollees on how to obtain a prior authorization. [PL 2023, c. 275, §1 (AMD).]

2. Prior authorization of nonemergency services. Except for a request in exigent circumstances as described in section 4311, subsection 1-A, paragraph B, a request by a provider for prior authorization of a nonemergency service must be answered by a carrier within 72 hours or 2 business days, whichever is less, in accordance with this subsection.

A. Both the provider and the enrollee on whose behalf the authorization was requested must be notified by the carrier of its determination. [PL 2019, c. 273, §1 (NEW).]

B. If the carrier responds to a request by a provider for prior authorization with a request for additional information, the carrier shall make a decision within 72 hours or 2 business days, whichever is less, after receiving the requested information. [PL 2019, c. 273, §1 (NEW).]

C. If the carrier responds that outside consultation is necessary before making a decision, the carrier shall make a decision within 72 hours or 2 business days, whichever is less, from the time of the carrier's initial response. [PL 2019, c. 273, §1 (NEW).]

D. The prescription drug and prior authorization standards used by a carrier must be clear and readily available to enrollees, participating providers, pharmacists and other providers. With regard to prior authorization for prescription drugs, a carrier shall comply with the requirements set forth in subsection 2-B. A provider must make best efforts to provide all information necessary to evaluate a request, and the carrier must make best efforts to limit requests for additional information. [PL 2021, c. 73, §1 (AMD).]

E. If a covered medically necessary service cannot be delivered on the approved date of an approved prior authorization request, a carrier may not deny the claim if the covered medically necessary service is provided within 14 days before or after the approved date. [PL 2023, c. 680, Pt. A, §4 (NEW); PL 2023, c. 680, Pt. A, §10 (AFF).]

F. For nonemergency services provided without a required prior authorization approval, a carrier may not deny a claim for nonemergency services that were within the scope of the enrollee's coverage pending medical necessity review and may not impose a penalty on the provider for failing to obtain a prior authorization of greater than 15% of the contractually allowed amount for the services that required prior authorization approval. [PL 2023, c. 680, Pt. A, §5 (NEW); PL 2023, c. 680, Pt. A, §10 (AFF).]

If a carrier does not grant or deny a request for prior authorization within the time frames required under this subsection, the request for prior authorization by the provider is granted. [PL 2023, c. 680, Pt. A, §§4, 5 (AMD); PL 2023, c. 680, Pt. A, §10 (AFF).]

2-A. Prior authorization of medication-assisted treatment for opioid use disorder. A carrier may not require prior authorization for medication-assisted treatment for opioid use disorder for the prescription of at least one drug for each therapeutic class of medication used in medication-assisted treatment, except that a carrier may not impose any prior authorization requirements on a pregnant woman for medication-assisted treatment for opioid use disorder. For the purposes of this subsection,

"medication-assisted treatment" means an evidence-based practice that combines pharmacological interventions with substance use disorder counseling.

[PL 2019, c. 273, §2 (NEW).]

2-B. Electronic transmission of prior authorization requests. If a health plan provides coverage for prescription drugs, the carrier must accept and respond to prior authorization requests in accordance with subsection 2 and this subsection through a secure electronic transmission using standards recommended by a national institute for the development of fair standards and adopted by a national council for prescription drug programs for electronic prescribing transactions. For the purposes of this subsection, transmission of a facsimile through a proprietary payer portal or by use of an electronic form is not considered electronic transmission. A carrier's electronic transmission system for prior authorization requests for prescription drugs must comply with the following.

A. No later than January 1, 2022, unless a waiver is granted by the superintendent, a carrier or entity under contract to a carrier shall make available to a provider in real time at the point of prescribing one or more electronic benefit tools that are capable of integrating with at least one electronic prescribing system or electronic medical record system to provide complete, accurate, timely, clinically appropriate formulary and benefit information specific to an enrollee, including, but not limited to, the estimated cost-sharing amount to be paid by the enrollee, information on any available formulary alternatives that are clinically appropriate and information about the formulary status and the utilization review and prior authorization requirements of each drug presented. Upon a carrier's request, the superintendent may grant a waiver from the requirements of this paragraph based on a demonstration of good cause. [PL 2021, c. 73, §2 (NEW).]

B. No later than January 1, 2023, unless a waiver is granted by the superintendent, a carrier or entity under contract to a carrier shall make available to a provider in real time at the point of prescribing an electronic benefit tool that is capable of integrating with the provider's electronic prescribing system or electronic medical record system to provide complete, accurate, timely, clinically appropriate formulary and benefit information specific to an enrollee, including, but not limited to, the estimated cost-sharing amount to be paid by the enrollee, information on any available formulary alternatives that are clinically appropriate and information about the formulary status and the utilization review and prior authorization requirements of each drug presented. Upon a carrier's request, the superintendent may grant a waiver from the requirements of this paragraph based on a demonstration of good cause. [PL 2021, c. 73, §2 (NEW).]

[PL 2021, c. 73, §2 (AMD).]

2-C. Prior authorization of prescription drugs used for assessment and treatment of serious mental illness. Notwithstanding any requirement of this section to the contrary, a carrier shall approve a prior authorization request for medication on the carrier's prescription drug formulary that is prescribed to assess or treat an enrollee's serious mental illness. For the purposes of this subsection, "serious mental illness" means a mental disorder, as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association, that results in serious functional impairment that substantially interferes with or limits one or more major life activities. The superintendent may adopt rules to implement this subsection. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2021, c. 345, §1 (NEW).]

3. Background information; affirmative duty of provider. A provider has an affirmative duty to submit to the carrier the background information necessary for the carrier to complete its review and render a decision within the time period required in subsection 2. If the provider needs additional time to submit that required information, the provider must inform the carrier in a timely manner. Nothing in this section requires a provider to submit confidential information without a signed consent from the enrollee.

[PL 1995, c. 673, Pt. C, §1 (NEW); PL 1995, c. 673, Pt. C, §2 (AFF).]

4. Revocation of prior authorization. When prior approval for a service or other covered item is granted, a carrier may not retrospectively deny coverage or payment for the originally approved service unless fraudulent or materially incorrect information was provided at the time prior approval for the service was granted.

[PL 1995, c. 673, Pt. C, §1 (NEW); PL 1995, c. 673, Pt. C, §2 (AFF).]

5. Emergency services. When conducting utilization review or making a benefit determination for emergency services, a carrier shall provide benefits for emergency services consistent with the requirements of this subsection and any applicable bureau rule.

A. Before a carrier denies benefits or reduces payment for an emergency service based on a determination of the absence of an emergency medical condition or a determination that a lower level of care was needed, the carrier shall conduct a utilization review done by a board-certified emergency physician who is licensed in this State, including a review of the enrollee's medical record related to the emergency medical condition subject to dispute. If a carrier requests records related to a potential denial of or payment reduction for an enrollee's benefits when emergency services were furnished to an enrollee, a provider has an affirmative duty to respond to the carrier in a timely manner. This paragraph does not apply when a reduction in payment is made by a carrier based on a contractually agreed upon adjustment for health care service. [PL 2019, c. 238, §2 (NEW).]

B. The medical necessity of emergency services may not be based on whether those services were provided by participating or nonparticipating providers. Restrictions on coverage of emergency services provided by nonparticipating providers may not be greater than restrictions that apply when those services are provided by participating providers. [PL 2023, c. 680, Pt. A, §6 (NEW); PL 2023, c. 680, Pt. A, §10 (AFF).]

C. If an enrollee receives an emergency service that requires immediate post-evaluation or post-stabilization services, a carrier may not require prior authorization for the post-evaluation or post-stabilization services provided during the same encounter. If the post-evaluation or post-stabilization services require an inpatient level of care, the carrier shall make a utilization review determination within 24 hours of receiving a request for those services and the carrier is responsible for payment for those services for the duration until the carrier affirmatively notifies the provider otherwise. If the utilization review determination is not made within 24 hours, the services for which the utilization review was requested are deemed approved until the carrier affirmatively notifies the provider otherwise. [PL 2023, c. 680, Pt. A, §7 (NEW); PL 2023, c. 680, Pt. A, §10 (AFF).]

[PL 2023, c. 680, Pt. A, §§6, 7 (AMD); PL 2023, c. 680, Pt. A, §10 (AFF).]

6. Notice. A notice issued by a carrier or its contracted utilization review entity in response to a request by or on behalf of an insured or enrollee for authorization of medical services that advises that the requested service has been determined to be medically necessary must also advise whether the service is covered under the policy or contract under which the insured or enrollee is covered. Nothing in this subsection requires a carrier to provide coverage for services performed when the insured or enrollee is no longer covered by the health plan.

[PL 2001, c. 410, Pt. B, §6 (NEW).]

7. Requirements for an appeal of adverse health care treatment decision. An appeal of a carrier's adverse health care treatment decision must be conducted by a clinical peer. The clinical peer may not have been involved in making the initial adverse health care treatment decision unless additional information not previously considered during the initial review is provided on appeal. For the purposes of this subsection, "adverse health care treatment decision" does not include a carrier's rescission determination or a carrier's determination of initial coverage eligibility for coverage.

1. Prior authorization for new episode of care prohibited for 12 visits. A carrier may not require prior authorization for rehabilitative or habilitative services, including, but not limited to, physical therapy services, occupational therapy services or chiropractic services, for the first 12 visits of each new episode of care. For purposes of this subsection, "new episode of care" means treatment for a new condition or treatment for a recurring condition for which an enrollee has not been treated within the previous 90 days.

[PL 2023, c. 275, §2 (NEW).]

2. Intent. This section does not limit the right of a carrier to deny a claim when an appropriate prospective or retrospective review concludes that the health care services or treatment rendered were not medically necessary.

A carrier shall allow enrollees in a managed care plan to change primary care providers without good cause at least once annually and to change with good cause as necessary. When an enrollee fails to choose a primary care provider, the carrier may assign the enrollee a primary care provider located in the same geographic area in which the enrollee resides. [PL 2011, c. 364, §30 (NEW).]

2. Superintendent. The superintendent may enforce and administer this section through all powers provided under this Title and Title 24. The superintendent may adopt and amend rules, establish standards and enforce federal statutes and regulations in order to carry out the purposes of the federal Affordable Care Act. Rules or amendments adopted pursuant to this subsection, including amendments to major substantive rules, are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2011, c. 364, §30 (NEW).]

SECTION HISTORY

PL 2011, c. 364, §30 (NEW).

§4310. Access to clinical trials

1. Qualified enrollee. An enrollee is eligible for coverage for participation in an approved clinical trial if the enrollee meets the following conditions:

A. The enrollee has a life-threatening illness for which no standard treatment is effective; [PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

B. The enrollee is eligible to participate according to the clinical trial protocol with respect to treatment of such illness; [PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

C. The enrollee's participation in the trial offers meaningful potential for significant clinical benefit to the enrollee; and [PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

D. The enrollee's referring physician has concluded that the enrollee's participation in such a trial would be appropriate based upon the satisfaction of the conditions in paragraphs A, B and C. [PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]
[PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

2. Coverage. A carrier may not deny a qualified enrollee participation in an approved clinical trial or deny, limit or impose additional conditions on the coverage of routine patient costs for items and services furnished in connection with participation in the clinical trial. For the purposes of this section, "routine patient costs" does not include the costs of the tests or measurements conducted primarily for the purpose of the clinical trial involved.
[PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

3. Payment. A carrier shall provide payment for routine patient costs but is not required to pay for costs of items and services that are reasonably expected to be paid for by the sponsors of an approved clinical trial. In the case of covered items and services, the carrier shall pay participating providers at the agreed upon rate and pay nonparticipating providers at the same rate the carrier would pay for comparable services performed by participating providers.
[PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

4. Approved clinical trial. For the purposes of this section, "approved clinical trial" means a clinical research study or clinical investigation approved and funded by the federal Department of Health and Human Services, National Institutes of Health or a cooperative group or center of the National Institutes of Health.
[PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

5. Application. The requirements of this section apply to all individual and group policies, contracts and certificates executed, delivered, issued for delivery, continued or renewed in this State. For purposes of this section, all contracts are deemed to be renewed no later than the next yearly anniversary of the contract date.
[PL 2003, c. 517, Pt. B, §31 (NEW).]

SECTION HISTORY

§4311. Access to prescription drugs

1. Formulary. If a health plan provides coverage for prescription drugs but the coverage limits such benefits to drugs included in a formulary, a carrier shall:

A. Ensure participation of participating physicians and pharmacists in the development of the formulary; [PL 2017, c. 429, Pt. A, §1 (AMD).]

B. Provide exceptions to the formulary limitation when a nonformulary alternative is medically indicated, consistent with the utilization review standards in section 4304; [PL 2017, c. 429, Pt. A, §1 (AMD).]

C. Provide an enrollee with at least 60 days' written notice of an adverse change to a formulary, except that a carrier may provide less than 60 days' notice when a prescription drug is being removed from the formulary because of concerns about safety. The notice must use a conspicuous font and inform the enrollee of the adverse change to the formulary and advise the enrollee to consult with the enrollee's provider about the change. For the purposes of this paragraph, "adverse change to a formulary" means a change that removes a drug currently prescribed for that enrollee from the formulary applicable to the enrollee's health plan or a change that moves the prescribed drug to a tier with a higher cost-sharing requirement if the carrier uses a formulary with tiers; [PL 2017, c. 429, Pt. A, §1 (NEW).]

D. If a prescription drug is removed from a formulary, notify an enrollee affected by the change of the enrollee's ability to request an exception to the formulary limitation pursuant to paragraph B and provide a form for the enrollee to use to request an exception. If an enrollee has already received prior authorization for that drug, the carrier shall continue to honor the existing authorization until it expires, as long as the enrollee continues to be covered under the same health plan and the drug has not been removed from the formulary because of concerns about safety; and [PL 2017, c. 429, Pt. A, §1 (NEW).]

E. Except when a drug has been removed because of concerns about safety, if a drug has been removed from a formulary and a request for an exception to a formulary limitation submitted by or on behalf of an enrollee is received prior to the effective date of the proposed change, continue to provide coverage for that drug until the carrier has rendered a decision on the enrollee's request for an exception to the formulary limitation. [PL 2017, c. 429, Pt. A, §1 (NEW).]

[PL 2017, c. 429, Pt. A, §1 (AMD).]

1-A. Access to clinically appropriate prescription drugs. For plan years beginning on or after March 19, 2019, a carrier must allow an enrollee, the enrollee's designee or the person who has issued a valid prescription for the enrollee to request and gain access to a clinically appropriate drug not otherwise covered by the health plan. The carrier's process must comply with section 4304 and with this subsection. If the carrier approves a request under this subsection for a drug not otherwise covered by the health plan, the carrier must treat the drug as an essential health benefit, including counting any cost sharing toward the plan's annual limit on cost sharing and including it when calculating the plan's actuarial value.

A. The carrier must determine whether it will cover the drug requested and notify the enrollee, the enrollee's designee, if applicable, and the person who has issued the valid prescription for the enrollee of its coverage decision within 72 hours or 2 business days, whichever is less, following receipt of the request. A carrier that grants coverage under this paragraph must provide coverage of the drug for the duration of the prescription, including refills. [PL 2019, c. 273, §3 (AMD).]

B. The carrier must have a process by which an expedited review may be requested in exigent circumstances. Exigent circumstances exist when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee's life, health or ability to regain maximum function or when an enrollee is undergoing a current course of treatment using a nonformulary drug. When an

expedited review has been requested, the carrier must determine whether it will cover the drug requested and notify the enrollee, the enrollee's designee, if applicable, and the person who has provided a valid prescription for the enrollee of its coverage decision within 24 hours following receipt of the request. A carrier that grants coverage under this paragraph must provide coverage of the drug for the duration of the exigency. [PL 2019, c. 5, Pt. A, §21 (NEW).]

[RR 2023, c. 2, Pt. A, §38 (COR).]

2. Coverage of approved drugs and medical devices. A carrier that provides coverage for prescription drugs and medical devices may not deny coverage of a prescribed drug or medical device on the basis that the use of the drug or device is investigational if the intended use of the drug or device is included in the labeling authorized by the federal Food and Drug Administration or if the use of the drug or device is recognized in one of the standard reference compendia or in peer-reviewed medical literature.

[PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

2-A. Coverage of prescription during emergency declared by the Governor. Except as provided in this subsection, a carrier shall provide coverage for the furnishing or dispensing of a prescription drug in accordance with a valid prescription issued by a provider in a quantity sufficient for an extended period of time, not to exceed a 180-day supply, during a statewide state of emergency declared by the Governor in accordance with Title 37-B, section 742. This subsection does not apply to coverage of prescribed contraceptive supplies furnished and dispensed pursuant to section 2756, 2847-G or 4247 or coverage of opioids prescribed in accordance with limits set forth in Title 32.

[PL 2021, c. 28, Pt. B, §1 (NEW).]

3. Construction. This section may not be construed to require a carrier to provide coverage of prescription drugs or medical devices.

[PL 1999, c. 742, §19 (NEW); PL 1999, c. 742, §21 (AFF).]

4. Application. The requirements of this section apply to all individual and group policies, contracts and certificates executed, delivered, issued for delivery, continued or renewed in this State. For purposes of this section, all contracts are deemed to be renewed no later than the next yearly anniversary of the contract date.

§4311-A. Access to pain management services

1. Access to pain management services. A carrier shall develop a plan to provide adequate coverage of and access to a broad spectrum of pain management services, including, but not limited to, nonopioid, nonnarcotic medication for pain management and nonmedication pain management services that serve as alternatives to the prescribing of opioid or narcotic drugs in accordance with guidelines developed by the bureau.

[PL 2023, c. 661, §1 (NEW).]

2. Approval by bureau. A carrier shall file a plan required under subsection 1 with the bureau for approval. In its review, the bureau shall consider the adequacy of access to a broad spectrum of pain management services under the plan and whether any policies adopted by the carrier may create unduly preferential coverage of and access to prescribed opioids for pain management without consideration of other pain management services.

[PL 2023, c. 661, §1 (NEW).]

3. Information for enrollees. A carrier shall distribute educational materials to network providers about a pain management access plan under subsection 1 and post information about the pain management access plan on the carrier's publicly accessible website.

§4312. Independent external review

An enrollee or the enrollee's authorized representative has the right to an independent external review of a carrier's adverse health care treatment decision made by or on behalf of a carrier offering or renewing a health plan in accordance with the requirements of this section. An enrollee's failure to obtain authorization prior to receiving an otherwise covered service may not preclude an enrollee from exercising the enrollee's rights under this section. [PL 2023, c. 680, Pt. A, §8 (AMD); PL 2023, c. 680, Pt. A, §10 (AFF).]

1. Request for external review. An enrollee or the enrollee's authorized representative shall make a written request for external review of an adverse health care treatment decision to the bureau. Except as provided in subsection 2, an enrollee may not make a request for external review under a group plan until the enrollee has exhausted all levels of a carrier's internal grievance procedure and may not make a request for external review under an individual plan until the enrollee has exhausted one level of a carrier's internal grievance procedure. A request for external review must be made within 12 months of the date an enrollee has received a final adverse health care treatment decision under a carrier's internal grievance procedure. An enrollee may not be required to pay any filing fee as a condition of processing a request for external review.

[PL 2011, c. 364, §31 (AMD).]

1-A. Request for independent external review by enrollee's authorized representative. A request for an independent external review may be made by an enrollee's authorized representative as defined in section 4301-A, subsection 2, paragraph D in accordance with this subsection.

A. The enrollee's authorized representative shall notify the enrollee in writing at least 14 days prior to filing a request for independent external review and within 7 days after filing the request or withdrawing the request. [PL 2023, c. 680, Pt. A, §9 (NEW); PL 2023, c. 680, Pt. A, §10 (AFF).]

B. The enrollee may affirmatively object to the request for independent external review at any time prior to the filing of a request by an enrollee's authorized representative and, after a request has been filed, may notify the bureau at any time that the enrollee intends to take the place of the enrollee's authorized representative as a party in the independent external review. [PL 2023, c. 680, Pt. A, §9 (NEW); PL 2023, c. 680, Pt. A, §10 (AFF).]

[PL 2023, c. 680, Pt. A, §9 (NEW); PL 2023, c. 680, Pt. A, §10 (AFF).]

2. Expedited request for external review. An enrollee or an enrollee's authorized representative is not required to exhaust a carrier's internal grievance procedure in accordance with subsection 1 before filing a request for external review if:

A. The carrier has failed to make a decision on an internal grievance within the time period required or has otherwise failed to adhere to all the requirements applicable to the appeal pursuant to state and federal law or the enrollee has applied for expedited external review at the same time as applying for an expedited internal appeal; [PL 2011, c. 364, §32 (AMD).]

B. The carrier and the enrollee mutually agree to bypass the internal grievance procedure; [PL 1999, c. 742, §19 (NEW).]

C. The life or health of the enrollee is in serious jeopardy; [PL 2011, c. 364, §32 (AMD).]

D. The enrollee has died; or [PL 2011, c. 364, §32 (AMD).]

E. The adverse health care treatment decision to be reviewed concerns an admission, availability of care, a continued stay or health care services when the claimant has received emergency services but has not been discharged from the facility that provided the emergency services. [PL 2011, c. 364, §32 (NEW).]

[PL 2011, c. 364, §32 (AMD).]

3. Notice to enrollees. A carrier shall notify an enrollee of the enrollee's right to request an external review in large type and easy-to-read language in a conspicuous location on the written notice of an adverse health care treatment decision. The notice must include:

A. A description of the external review procedure and the requirements for making a request for external review; [PL 1999, c. 742, §19 (NEW).]

B. A statement informing an enrollee how to request assistance in filing a request for external review from the carrier; [PL 1999, c. 742, §19 (NEW).]

C. A statement informing an enrollee of the right to attend the external review, submit and obtain supporting material relating to the adverse health care treatment decision under review, ask questions of any representative of the carrier and have outside assistance; and [PL 1999, c. 742, §19 (NEW).]

D. A statement informing an enrollee of the right to seek assistance or file a complaint with the bureau and the toll-free number of the bureau. [PL 1999, c. 742, §19 (NEW).]

[PL 1999, c. 742, §19 (NEW).]

4. Independent external review; bureau oversight. The bureau shall oversee the external review process required under this section and shall contract with approved independent review organizations to conduct an external review and render an external review decision. At a minimum, an independent review organization approved by the bureau shall ensure the selection of qualified and impartial reviewers who are clinical peers with respect to the adverse health care treatment decision under review and who have no professional, familial or financial conflict of interest relating to a carrier, enrollee, enrollee's authorized representative or health care provider involved in the external review.

[PL 1999, c. 742, §19 (NEW).]

5. Independent external review decision; timelines. An external review decision must be made in accordance with the following requirements.

A. In rendering an external review decision, the independent review organization must give consideration to the appropriateness of the requested covered service based on the following:

(1) All relevant clinical information relating to the enrollee's physical and mental condition, including any competing clinical information;

(2) Any concerns expressed by the enrollee concerning the enrollee's health status; and

(3) All relevant clinical standards and guidelines, including, but not limited to, those standards and guidelines relied upon by the carrier or the carrier's utilization review entity. [PL 1999, c. 742, §19 (NEW).]

B. An external review decision must be issued in writing and must be based on the evidence presented by the carrier and the enrollee or the enrollee's authorized representative. An enrollee may submit and obtain evidence relating to the adverse health care treatment decision under review, attend the external review, ask questions of any representative of the carrier present at the external review and use outside assistance during the review process at the enrollee's own expense. [PL 1999, c. 742, §19 (NEW).]

C. Except as provided in paragraph D, an external review decision must be rendered by an independent review organization within 30 days of receipt of a completed request for external review from the bureau. [PL 1999, c. 742, §19 (NEW).]

D. An external review decision must be made as expeditiously as an enrollee's medical condition requires but in no event more than 72 hours after receipt of a completed request for external review if the time frame for review required under paragraph C would seriously jeopardize the life or health of the enrollee or would jeopardize the enrollee's ability to regain maximum function. [PL 1999, c. 742, §19 (NEW).]

E. The carrier shall provide auxiliary telecommunications devices or qualified interpreter services by a person proficient in American Sign Language when requested by an enrollee who is deaf or hard-of-hearing or printed materials in an accessible format, including Braille, large-print materials, computer diskette, audio cassette or a reader when requested by an enrollee who is visually impaired to allow the enrollee to exercise the enrollee's right to an external review under this section. [PL 1999, c. 742, §19 (NEW).]

[PL 1999, c. 742, §19 (NEW).]

6. Binding nature of decision. An external review decision is binding on the carrier. An enrollee or the enrollee's authorized representative may not file a request for a subsequent external review involving the same adverse health care treatment decision for which the enrollee has already received an external review decision pursuant to this section. An external review decision made under this section is not considered final agency action pursuant to Title 5, chapter 375, subchapter II.

[PL 1999, c. 742, §19 (NEW).]

7. Funding. A carrier against which a request for external review has been filed shall pay the cost of the independent external review to the bureau.

[PL 1999, c. 742, §19 (NEW).]

7-A. Confidentiality. Except as provided in this subsection, all records of the bureau or an independent review organization relating to an external review request or external review proceeding are confidential and not a public record under Title 1, chapter 13.

A. A party to an external review may obtain from the independent review organization a transcript or recording of the external review hearing and a copy of any evidence introduced by the opposing party. [PL 2013, c. 274, §1 (NEW).]

B. The superintendent shall disseminate to the Legislature and to the public aggregate information related to external reviews conducted by independent review organizations on an annual basis, including:

(1) The number of external review requests by carrier, the number of decisions in favor of the enrollee, the number of decisions upholding the carrier's benefit determination and the number of external review requests resolved prior to the issuance of a decision; and

(2) The categories of external review requests by carrier. The categories may not include personally identifiable information or specific medical condition. The categories must include, but are not limited to, medical necessity, out-of-network referrals, inpatient care, behavioral health, prescription drugs and experimental or investigational treatment. [PL 2013, c. 274, §1 (NEW).]

[PL 2013, c. 274, §1 (NEW).]

8. Rules. The bureau may adopt rules necessary to carry out the requirements of this section, including, without limitation, criteria for determining when multiple denials of benefits to the same enrollee for the same or similar reasons are considered the same adverse health care treatment decision. Notwithstanding the requirements of section 4309, rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

[PL 1999, c. 742, §19 (NEW).]

9. Rights. This section may not be construed to remove or limit any legal rights or remedies of an enrollee or other person under state or federal law, including the right to file judicial actions to enforce rights.

[PL 1999, c. 742, §19 (NEW).]

10. Applicability. Decisions relating to the following health care services are subject to review pursuant to other review processes provided by applicable federal or state law and may not be reviewed pursuant to this section:

A. Health care services provided through Medicaid, Medicare, Title XXI of the Social Security Act or services provided under these programs through contracted health care providers; [PL 1999, c. 742, §19 (NEW).]

B. Health care services provided to inmates by the Department of Corrections; or [PL 1999, c. 742, §19 (NEW).]

C. Health care services provided pursuant to a health plan not subject to regulation by the State. [PL 1999, c. 742, §19 (NEW).]

[PL 1999, c. 742, §19 (NEW).]

§4313. Carrier liability; cause of action

1. Duty of ordinary care; cause of action. An enrollee may maintain a cause of action against a carrier offering or renewing a health plan in accordance with the following.

A. A carrier has the duty to exercise ordinary care when making health care treatment decisions that affect the quality of the diagnosis, care or treatment provided to an enrollee and is liable for damages as provided in this section for harm to an enrollee proximately caused by the failure of the carrier or its agents to exercise such ordinary care. [PL 1999, c. 742, §19 (NEW).]

B. A carrier is also liable for damages as provided in this section for harm to an enrollee proximately caused by the health care treatment decisions made by its agents who are acting on the carrier's behalf and over whom the carrier exercised control or influence in the health care treatment decisions that result in the failure to exercise ordinary care. [PL 1999, c. 742, §19 (NEW).]

[PL 2007, c. 199, Pt. B, §18 (AMD).]

2. Exhaustion of internal and external review. An enrollee may not maintain a cause of action under this section unless the enrollee or the enrollee's representative:

A. Has exhausted all levels of the carrier's internal grievance procedure in accordance with this chapter; and [PL 1999, c. 742, §19 (NEW).]

B. Has completed the independent external review process required under section 4312. [PL 1999, c. 742, §19 (NEW).]

[PL 1999, c. 742, §19 (NEW).]

3. Limitation on cause of action. An action under this section must be initiated within 3 years from the earlier of the date of issuance of the written external review decision under section 4312 or the date of issuance of the underlying adverse first-level appeal or first-level grievance determination notice.

[PL 1999, c. 742, §19 (NEW).]

4. Jurisdiction; notice and filing. The Superior Court has original jurisdiction over a cause of action under this section. The requirements for notice and filing of a cause of action under this section are governed by the Maine Rules of Civil Procedure.

[PL 1999, c. 742, §19 (NEW).]

5. Corporate practice of medicine. Section 4222, subsection 3 or any other law in this State prohibiting a carrier from practicing medicine or being licensed to practice medicine may not be asserted as a defense by a carrier in any action brought pursuant to this section.

[PL 1999, c. 742, §19 (NEW).]

6. No obligation for benefits. This section does not create any obligation on the part of a carrier to provide an enrollee any health care treatment or service that is not covered by the enrollee's health plan policy or contract.

[PL 1999, c. 742, §19 (NEW).]

7. Admissibility of external review decision. An external review decision is admissible in an action under this section.

[PL 1999, c. 742, §19 (NEW).]

[PL 1999, c. 742, §19 (NEW).]

9. Damages. In a cause of action under this section, the award of damages must be made in accordance with this subsection.

A. Actual or compensatory damages may be awarded. [PL 1999, c. 742, §19 (NEW).]

C. Punitive damages may not be awarded. [PL 1999, c. 742, §19 (NEW).]

[PL 1999, c. 742, §19 (NEW).]

10. Professional negligence. This section does not create any new or additional liability on the part of a carrier for harm caused to an enrollee that is attributable to the professional negligence of a treating physician or other health care practitioner.

[PL 1999, c. 742, §19 (NEW).]

11. Employer liability. This section does not create any liability on the part of an employer that assumes risk on behalf of its employees or an employer group purchasing organization.

[PL 1999, c. 742, §19 (NEW).]

The cause of action under this section is the sole and exclusive private remedy under state law for an enrollee against a carrier for its health care treatment decisions that affect the quality of the diagnosis, care or treatment provided to an enrollee, except that this subsection may not be construed to prohibit an enrollee or an enrollee's authorized representative from seeking other remedies specifically available under other provisions of this Title.

A carrier may not retrospectively deny coverage under this section on the basis that the eye care services received by the enrollee did not meet the requirements of subsection 1, paragraph B. In order to receive continuing benefits for

treatment related to the initial visit, an enrollee must receive the approval of the enrollee's primary care provider for any visit after the 2nd visit. Within 3 working days of the initial visit, the eye care provider shall send to the enrollee's primary care provider a report containing the enrollee's complaint, related history, examination results, initial diagnosis and recommendations for treatment. §4316. Coverage for telehealth services

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Mobile health device" means a wearable device used to track health and wellness, including, but not limited to, a heart rate and respiratory monitor, an electrocardiogram monitor and a glucose monitor. [PL 2019, c. 289, §2 (NEW).]

A-1. "Medicare" means the "Health Insurance for the Aged Act," Title XVIII of the Social Security Amendments of 1965, as amended. [PL 2019, c. 649, §3 (NEW).]

B-1. "Asynchronous encounters" means the interaction or consultation between an enrollee and the enrollee's provider or between providers regarding the enrollee through a system with the ability to store digital information, including, but not limited to, still images, video, audio and text files, and other relevant data in one location and subsequently transmit such information for interpretation at a remote site by health professionals without requiring the simultaneous presence of the patient or the health professionals. [PL 2021, c. 291, Pt. A, §4 (NEW).]

B-2. "Synchronous encounters" means a real-time interaction conducted with interactive audio or video connection between an enrollee and the enrollee's provider or between providers regarding the enrollee. [PL 2021, c. 291, Pt. A, §4 (NEW).]

C. "Telehealth," as it pertains to the delivery of health care services, means the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring. [PL 2021, c. 291, Pt. A, §4 (AMD).]

D. "Telemonitoring," as it pertains to the delivery of health care services, means the use of information technology to remotely monitor an enrollee's health status via electronic means, allowing the provider to track the enrollee's health data over time. Telemonitoring may be synchronous or asynchronous. [PL 2021, c. 291, Pt. A, §4 (AMD).]

E. [PL 2021, c. 291, Pt. A, §4 (RP).]

[PL 2021, c. 291, Pt. A, §4 (AMD).]

2. Parity for telehealth services. A carrier offering a health plan in this State may not deny coverage on the basis that the health care service is provided through telehealth if the health care service would be covered if it were provided through in-person consultation between an enrollee and a provider and as long as the provider is acting within the scope of practice of the provider's license and in

accordance with rules adopted by the board, if any, that issued the provider's license related to standards of practice for the delivery of a health care service through telehealth. Coverage for health care services provided through telehealth must be determined in a manner consistent with coverage for health care services provided through in-person consultation. If an enrollee is eligible for coverage and the delivery of the health care service through telehealth is medically appropriate, a carrier may not deny coverage for telehealth services. A carrier may offer a health plan containing a provision for a deductible, copayment or coinsurance requirement for a health care service provided through telehealth as long as the deductible, copayment or coinsurance does not exceed the deductible, copayment or coinsurance applicable to a comparable service provided through in-person consultation. A carrier may not exclude a health care service from coverage solely because such health care service is provided only through a telehealth encounter, as long as telehealth is appropriate for the provision of such health care service. [PL 2021, c. 291, Pt. A, §5 (AMD).]

3. Coverage for telehealth services. Except as provided in this section, a carrier shall provide coverage for any medically necessary health care service delivered through telehealth as long as the following requirements are met.

A. The health care service is otherwise covered under an enrollee's health plan. [PL 2019, c. 289, §2 (NEW).]

B. The health care service delivered by telehealth is of comparable quality to the health care service delivered through in-person consultation. [PL 2019, c. 289, §2 (NEW).]

C. Prior authorization is required for telehealth services only if prior authorization is required for the corresponding covered health care service. An in-person consultation prior to the delivery of services through telehealth is not required. [PL 2019, c. 289, §2 (NEW).]

D. Coverage for telehealth services is not limited in any way on the basis of geography, location or distance for travel. [PL 2019, c. 289, §2 (NEW).]

E. The carrier shall require that a clinical evaluation is conducted either in person or through telehealth before a provider may write a prescription that is covered. [PL 2019, c. 289, §2 (NEW).]

F. The carrier shall provide coverage for the treatment of 2 or more persons who are enrolled in the carrier's health plan at the same time through telehealth, including counseling for substance use disorders involving opioids. [PL 2019, c. 289, §2 (NEW).]

G. The carrier may not place any restriction on the prescribing of medication through telehealth by a provider whose scope of practice includes prescribing medication that is more restrictive than any requirement in state and federal law for prescribing medication through in-person consultation. [PL 2021, c. 291, Pt. A, §6 (NEW).]

[PL 2021, c. 291, Pt. A, §6 (AMD).]

4. Telemonitoring requirements. A carrier shall provide coverage for telemonitoring if:

A. The telemonitoring is intended to collect an enrollee's health-related data, including, but not limited to, pulse and blood pressure readings, that assist a provider in monitoring and assessing the enrollee's medical condition; [PL 2019, c. 289, §2 (NEW).]

B. The telemonitoring is medically necessary for the enrollee; [PL 2019, c. 289, §2 (NEW).]

C. The enrollee is cognitively and physically capable of operating the mobile health devices or the enrollee has a caregiver willing and able to assist with the mobile health devices; and [PL 2021, c. 293, Pt. A, §29 (AMD).]

D. The enrollee's residence is suitable for telemonitoring. If the residence appears unable to support telemonitoring, the telemonitoring may not be provided unless necessary adaptations are made. [PL 2019, c. 289, §2 (NEW).]

[PL 2021, c. 293, Pt. A, §29 (AMD).]

5. Coverage for telephonic services.

[PL 2021, c. 291, Pt. A, §7 (RP).]

6. Utilization review. This section does not prohibit or limit a carrier from conducting a utilization review for telehealth services as long as the utilization review is conducted in the same manner and uses the same clinical review criteria as a utilization review for an in-person consultation for the same service.

[PL 2019, c. 289, §2 (NEW).]

7. Provider eligibility. In order to be eligible for reimbursement under this section, a provider providing health care services through telehealth must be acting within the scope of the provider's license. A carrier may not impose additional credentialing requirements or prior approval requirements for a provider as a condition of reimbursement for health care services provided under this section unless those credentialing requirements or prior approval requirements are the same as those imposed for a provider that does not provide health care services through telehealth.

[PL 2019, c. 289, §2 (NEW).]

8. Telehealth equipment. A carrier may not require a provider to use specific telecommunications technology and equipment as a condition of coverage under this section as long as the provider uses telecommunications technology and equipment that comply with current industry interoperability standards and that comply with standards required under the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191 and regulations promulgated under that Act.

[PL 2019, c. 289, §2 (NEW).]

9. Medicare coverage policy. A carrier may provide coverage for health care services delivered through telehealth that is consistent with the Medicare coverage policy for interprofessional Internet consultations. If a carrier provides coverage consistent with the Medicare coverage policy for interprofessional Internet consultations, the carrier may also provide coverage for interprofessional Internet consultations that are provided by a federally qualified health center or rural health clinic as defined in 42 United States Code, Section 1395x, subsection (aa)(1993).

[PL 2019, c. 649, §4 (NEW).]

10. Network adequacy. The availability of health care services through telehealth may not be considered for the purposes of demonstrating the adequacy of a carrier's network pursuant to section 4303, subsection 1 and Bureau of Insurance Rule Chapter 850: Health Plan Accountability.

[PL 2021, c. 291, Pt. A, §8 (NEW).]

§4317. Pharmacy providers

1. Contracts with pharmacy providers. Notwithstanding section 2672, section 4307, subsection 3 and Title 32, chapter 117, subchapter 8, a carrier that provides coverage for prescription drugs as part of a health plan may not refuse to contract with a pharmacy provider that is qualified and is willing to meet the terms and conditions of the carrier's criteria for pharmacy participation as stipulated in the carrier's contractual agreement with its pharmacy providers.

This subsection may not be construed to limit a carrier's ability to offer an enrollee incentives, including variations in premiums, deductibles, copayments or coinsurance or variations in the quantities of medications available to the enrollee, to encourage the use of certain preferred pharmacy providers as long as the carrier makes the terms applicable to the preferred pharmacy providers available to all

pharmacy providers. For purposes of this subsection, a preferred pharmacy provider is any pharmacy willing to meet the specified terms, conditions and price that the carrier may require for its preferred pharmacy providers.

[PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

2. Prompt payment of claims. Notwithstanding section 2436, the following provisions apply to the payment of claims submitted to a carrier by a pharmacy provider.

A. For purposes of this subsection, the following terms have the following meanings.

(1) "Applicable number of calendar days" means:

- (a) With respect to claims submitted electronically, 21 days; and
- (b) With respect to claims submitted otherwise, 30 days.

(2) "Clean claim" means a claim that has no defect or impropriety, including any lack of any required substantiating documentation, or particular circumstance requiring special treatment that prevents timely payment from being made on the claim under this section. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

B. A contract entered into by a carrier with a pharmacy provider with respect to a prescription drug plan offered by a carrier must provide that payment is issued, mailed or otherwise transmitted with respect to all clean claims submitted by a pharmacy provider, other than a pharmacy that dispenses drugs by mail order only or a pharmacy located in, or under contract with, a long-term care facility, within the applicable number of calendar days after the date on which the claim is received. For purposes of this subsection, a claim is considered to have been received:

- (1) With respect to claims submitted electronically, on the date on which the claim is transferred; and
- (2) With respect to claims submitted otherwise, on the 5th day after the postmark date of the claim or the date specified in the time stamp of the transmission of the claim. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

C. If payment is not issued, mailed or otherwise transmitted by the carrier within the applicable number of calendar days after a clean claim is received, the carrier shall pay interest to the pharmacy provider at the rate of 18% per annum. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

D. A claim is considered to be a clean claim if the carrier involved does not provide notice to the pharmacy provider of any deficiency in the claim within 10 days after the date on which an electronically submitted claim is received or within 15 days after the date on which a claim submitted otherwise is received. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

E. If a carrier determines that a submitted claim is not a clean claim, the carrier shall immediately notify the pharmacy provider of the determination. The notice must specify all defects or improprieties in the claim and list all additional information or documents necessary for the proper processing and payment of the claim. If a pharmacy provider receives notice from a carrier that a claim has been determined to not be a clean claim, the pharmacy provider shall take steps to correct that claim and then resubmit the claim to the carrier for payment. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

F. A claim resubmitted to a carrier with additional information pursuant to paragraph E is considered to be a clean claim if the carrier does not provide notice to the pharmacy provider of any defect or impropriety in the claim within 10 days of the date on which additional information is received if the claim is resubmitted electronically or within 15 days of the date on which additional information is received if the claim is resubmitted otherwise. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

G. A claim submitted to a carrier that is not paid by the carrier or contested by the plan sponsor within the applicable number of calendar days after the date on which the claim is received by the carrier is considered to be a clean claim and must be paid by the carrier. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

H. Payment of a clean claim under this subsection is considered to have been made on the date on which the payment is transferred with respect to claims paid electronically and on the date on which the payment is submitted to the United States Postal Service or common carrier for delivery with respect to claims paid otherwise. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

I. A carrier shall pay all clean claims submitted electronically by electronic transfer of funds if the pharmacy provider so requests or has so requested previously. In the case when the payment is made electronically, remittance may be made by the carrier electronically. [PL 2009, c. 519, §1 (NEW); PL 2009, c. 519, §2 (AFF).]

J. For a contract entered into or renewed on or after January 1, 2021, the contract entered into by a carrier with a pharmacy provider with respect to a prescription drug plan offered by a carrier may not contain a provision that purports to directly or indirectly charge the pharmacy provider or hold the pharmacy provider responsible for any fee related to a clean claim:

- (1) That is not apparent at the time the carrier processes the claim;
- (2) That is not reported on the remittance advice of a claim adjudicated by the carrier; or
- (3) After the initial claim is adjudicated by the carrier. [PL 2019, c. 643, §1 (NEW).]

For purposes of this subsection, a contract entered into by a carrier with a pharmacy provider with respect to a prescription drug plan offered by a carrier includes any contract with respect to a prescription drug plan offered by the carrier under which a pharmacy provider is legally obligated, either directly or through an intermediary.
[PL 2019, c. 643, §1 (AMD).]

3. Exception. Subsections 1 and 2 do not apply to any medical assistance or public health programs administered by the Department of Health and Human Services, including, but not limited to, the Medicaid program and the elderly low-cost drug program under Title 22, section 254-D.
[PL 2011, c. 443, §5 (AMD).]

4. Participation in contracts. A pharmacy benefits manager may not require a pharmacist or pharmacy to participate in one network in order to participate in another network. The pharmacy benefits manager may not exclude an otherwise qualified pharmacist or pharmacy from participation in one network solely because the pharmacist or pharmacy declined to participate in another network managed by the pharmacy benefits manager.
[PL 2011, c. 443, §6 (NEW).]

5. Prohibition. The written contract between a carrier and a pharmacy benefits manager may not provide that the pharmacist or pharmacy is responsible for the actions of the insurer or a pharmacy benefits manager.
[PL 2011, c. 443, §6 (NEW).]

6. Pharmacy benefits manager duties. All contracts must provide that, when the pharmacy benefits manager receives payment for the services of a pharmacist or pharmacy, the pharmacy benefits manager shall distribute the funds in accordance with the time frames provided in this subchapter.
[PL 2011, c. 691, Pt. A, §23 (AMD).]

7. Complaints, grievances and appeals. A pharmacy benefits manager may not terminate the contract of or penalize a pharmacist or pharmacy solely as a result of the pharmacist's or pharmacy's filing of a complaint, grievance or appeal. This subsection is not intended to restrict the pharmacy's and

pharmacy benefits manager's ability to enter into agreements that allow for mutual termination without cause.

[PL 2011, c. 443, §6 (NEW).]

8. Denial or limitation of benefits. A pharmacy's benefits manager may not terminate the contract of or penalize a pharmacist or pharmacy for expressing disagreement with a carrier's decision to deny or limit benefits to an enrollee or because the pharmacist or pharmacy assists the enrollee to seek reconsideration of the carrier's decision or because the pharmacist or pharmacy discusses alternative medications.

[PL 2011, c. 443, §6 (NEW).]

9. Written notice required. At least 60 days before a pharmacy's benefits manager terminates a pharmacy's or pharmacist's participation in the pharmacy benefits manager's plan or network, the pharmacy benefits manager shall give the pharmacy or pharmacist a written explanation of the reason for the termination, unless the termination is based on:

A. The loss of the pharmacy's license or the pharmacist's license to practice pharmacy or cancellation of professional liability insurance; or [PL 2011, c. 443, §6 (NEW).]

B. A finding of fraud. [PL 2011, c. 443, §6 (NEW).]

At least 60 days before a pharmacy or pharmacist terminates its participation in a pharmacy benefits manager's plan or network, the pharmacy or pharmacist shall give the pharmacy benefits manager a written explanation of the reason for the termination.

[PL 2011, c. 443, §6 (NEW).]

10. Audits. Notwithstanding any other provision of law, when an on-site audit of the records of a pharmacy is conducted by a pharmacy benefits manager, the audit must be conducted in accordance with the following criteria.

A. A finding of overpayment or underpayment must be based on the actual overpayment or underpayment and not a projection based on the number of patients served having a similar diagnosis or on the number of similar orders or refills for similar drugs, unless the projected overpayment or denial is a part of a settlement agreed to by the pharmacy or pharmacist. [PL 2011, c. 443, §6 (NEW).]

B. The auditor may not use extrapolation in calculating recoupments or penalties. [PL 2011, c. 443, §6 (NEW).]

C. Any audit that involves clinical or professional judgment must be conducted by or in consultation with a pharmacist. [PL 2011, c. 443, §6 (NEW).]

D. Each entity conducting an audit shall establish an appeals process under which a pharmacy may appeal an unfavorable preliminary audit report to the entity. [PL 2011, c. 443, §6 (NEW).]

E. This subsection does not apply to any audit, review or investigation that is initiated based on or involves suspected or alleged fraud, willful misrepresentation or abuse. [PL 2011, c. 443, §6 (NEW).]

F. Prior to an audit, the entity conducting an audit shall give the pharmacy 10 days' advance written notice of the audit and the range of prescription numbers and the range of dates included in the audit. [PL 2013, c. 71, §1 (NEW).]

G. A pharmacy has the right to request mediation by a private mediator, agreed upon by the pharmacy and the pharmacy benefits manager, to resolve any disagreements. A request for mediation does not waive any existing rights of appeal available to a pharmacy under this subsection or subsection 11. [PL 2013, c. 71, §1 (NEW).]

H. The requirements of section 4303, subsection 10 apply to claims audited under this subsection.
 [PL 2013, c. 71, §1 (NEW).]
 [PL 2013, c. 71, §1 (AMD).]

11. Audit information and reports. A preliminary audit report must be delivered to the pharmacy within 60 days after the conclusion of the audit under subsection 10. A pharmacy must be allowed at least 30 days following receipt of the preliminary audit to provide documentation to address any discrepancy found in the audit. A final audit report must be delivered to the pharmacy within 90 days after receipt of the preliminary audit report or final appeal, whichever is later. A charge-back, recoupment or other penalty may not be assessed until the appeal process provided by the pharmacy benefits manager has been exhausted and the final report issued. Except as provided by state or federal law, audit information may not be shared. Auditors may have access only to previous audit reports on a particular pharmacy conducted by that same entity.
 [PL 2011, c. 443, §6 (NEW).]

12. Maximum allowable cost.

[PL 2019, c. 469, §6 (RP); PL 2019, c. 469, §9 (AFF).]

13. Prohibition on excessive copayments or charges; disclosure not penalized.

[PL 2019, c. 469, §7 (RP); PL 2019, c. 469, §9 (AFF).]

§4317-A. Prescription drug coverage; out-of-pocket expenses for coinsurance

1. Out-of-pocket expenses for coinsurance within health plan's total limit. If a carrier that provides coverage for prescription drugs does not include prescription drugs subject to coinsurance under the total out-of-pocket limit for all benefits provided under a health plan, the carrier shall establish a separate out-of-pocket limit not to exceed \$3,500 per year for prescription drugs subject to coinsurance provided under a health plan to the extent not inconsistent with the federal Affordable Care Act.

[PL 2011, c. 611, §1 (NEW); PL 2011, c. 611, §2 (AFF).]

2. Adjustment of out-of-pocket limits. A carrier may adjust an out-of-pocket limit, as long as any limit for prescription drugs for coinsurance does not exceed \$3,500, to minimize any premium increase that might otherwise result from the requirements of this section. Any adjustment made by a carrier pursuant to this subsection is considered a minor modification under section 2850-B.

[PL 2011, c. 611, §1 (NEW); PL 2011, c. 611, §2 (AFF).]

3. Construction. This section may not be construed to prohibit or limit a carrier's ability to establish specialty tiers for prescription drug coverage, to make determinations of medical necessity or to enforce procedures regarding prior authorization or utilization review in accordance with this chapter.

[PL 2011, c. 611, §1 (NEW); PL 2011, c. 611, §2 (AFF).]

4. Terms consistent with federal law. For the purposes of this section, the use of the terms "coinsurance" and "out-of-pocket limit" by a carrier must be consistent with the definitions of those terms as prescribed by the Secretary of the United States Department of Health and Human Services pursuant to Section 2715 of the federal Affordable Care Act.

§4317-B. Orally administered cancer therapy

1. Coverage. A carrier that provides coverage for cancer chemotherapy treatment shall provide coverage for prescribed, orally administered anticancer medications used to kill or slow the growth of cancerous cells that is equivalent to the coverage provided for intravenously administered or injected anticancer medications. An increase in patient cost sharing for anticancer medications may not be used to achieve compliance with this section.

[PL 2013, c. 449, §1 (NEW); PL 2013, c. 449, §2 (AFF).]

2. Construction. This section may not be construed to prohibit or limit a carrier's ability to establish a prescription drug formulary or to require a carrier to cover an orally administered anticancer medication on the sole basis that it is an alternative to an intravenously administered or injected anticancer medication.

[PL 2019, c. 666, Pt. A, §1 (NEW).]

2. Limit on out-of-pocket costs. A carrier that provides coverage for prescription insulin drugs may not impose any deductible, copayment, coinsurance or other cost-sharing requirement on an enrollee for that coverage that results in out-of-pocket costs to the enrollee that exceed \$35 per prescription for a 30-day supply of covered prescription insulin drugs, regardless of the amount of insulin needed to fill the enrollee's insulin prescriptions.

[PL 2019, c. 666, Pt. A, §1 (NEW).]

3. Other cost sharing. This section does not prevent a carrier from setting an enrollee's cost-sharing requirement for one or more insulin drugs at an amount lower than the maximum amount specified in this section.

[PL 2019, c. 666, Pt. A, §1 (NEW).]

4. Rules. The superintendent may adopt rules to implement and administer this section to align with applicable federal requirements. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

A. If the federal Food and Drug Administration has approved one or more HIV prevention drugs that use the same method of administration, a carrier is not required to cover all approved drugs as long as the carrier covers at least one approved drug for each method of administration with no out-of-pocket cost. [PL 2021, c. 265, §4 (NEW).]

B. A carrier is not required to cover any preexposure prophylaxis drug or post-exposure prophylaxis drug dispensed or administered by an out-of-network pharmacy provider unless the enrollee's health plan provides an out-of-network pharmacy benefit. [PL 2021, c. 265, §4 (NEW).]

3. Limits on prior authorization and step therapy requirements. Notwithstanding any requirements in section 4304 or 4320-N to the contrary, a carrier may not subject any HIV prevention drug to any prior authorization or step therapy requirement except as provided in this subsection. If the federal Food and Drug Administration has approved one or more methods of administering HIV prevention drugs, a carrier is not required to cover all of the approved drugs without prior authorization or step therapy requirements as long as the carrier covers at least one approved drug for each method of administration without prior authorization or step therapy requirements. If prior authorization or step therapy requirements are met for a particular enrollee with regard to a particular HIV prevention drug, the carrier is required to cover that drug with no out-of-pocket cost to the enrollee.

[PL 2021, c. 265, §4 (NEW).]

4. Coverage for laboratory testing related to HIV prevention drugs. A carrier offering a health plan in this State shall provide coverage with no out-of-pocket cost for laboratory testing recommended by a provider related to the ongoing monitoring of an enrollee who is taking an HIV prevention drug covered by this section.

[PL 2021, c. 566, §1 (NEW).]

2. Coverage required. A carrier offering a health plan in this State must make available coverage for an emergency supply of a chronic maintenance drug dispensed pursuant to Title 32, section 13786-F in the same manner as coverage for other drugs under the health plan. §4318-A. Comparable health care service incentive program

Beginning January 1, 2019, a carrier offering a health plan in this State shall establish, at a minimum, for all small group health plans as defined in section 2808-B, subsection 1, paragraph G compatible with a health savings account authorized under federal law, a health plan design in which enrollees are directly incentivized to shop for low-cost, high-quality participating providers for comparable health care services. Incentives may include, but are not limited to, cash payments, gift cards or credits or reductions of premiums, copayments or deductibles. A small group health plan design created under this section must remain available to enrollees for at least 2 consecutive years, except that any changes made to the program after 2 years, including, but not limited to, ending the incentive, may not be construed as a change to the small group health plan design for the purpose of guaranteed renewability under section 2808-B, subsection 4 or section 2850-B. A multiple-employer welfare arrangement is not considered a carrier for the purposes of this section. [PL 2017, c. 232, §8 (NEW).]

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Comparable health care service" means nonemergency, outpatient health care services in the following categories:

- (1) Physical and occupational therapy services;
- (2) Radiology and imaging services;
- (3) Laboratory services; and
- (4) Infusion therapy services. [PL 2017, c. 232, §8 (NEW).]

B. "Program" means the comparable health care service incentive program established by a carrier pursuant to this section. [PL 2017, c. 232, §8 (NEW).]

[PL 2017, c. 232, §8 (NEW).]

2. Filing with superintendent. Plans filed with the superintendent pursuant to this section must disclose, in the summary of benefits and explanation of coverage, a detailed description of the incentives available to a plan enrollee. The description must clearly detail any incentives that may be earned by the enrollee, including any limits on such incentives, the actions that must be taken in order to earn such incentives and a list of the types of services that qualify under the program. This subsection may not be construed to prevent a carrier from directing an enrollee to the carrier's website or toll-free telephone number for further information on the program in the summary of benefits and explanation of coverage. The superintendent shall review the filing made by the carrier to determine if the carrier's program complies with the requirements of this section.

[PL 2017, c. 232, §8 (NEW).]

3. Availability of program; notice to enrollees. Annually at enrollment or renewal, a carrier shall provide notice about the availability of the program to an enrollee who is enrolled in a health plan eligible for the program as required by section 4302, subsection 1, paragraph M.

[PL 2017, c. 232, §8 (NEW).]

4. Additional types of nonemergency health care services or procedures. Nothing in this section precludes a carrier from including additional types of nonemergency health care services or procedures in its program.

[PL 2017, c. 232, §8 (NEW).]

5. No administrative expense. An incentive payment made by a carrier in accordance with this section is not an administrative expense of the carrier for rate development or rate filing purposes.

[PL 2017, c. 232, §8 (NEW).]

6. Study and evaluation. Beginning March 1, 2020 and annually thereafter, the superintendent shall undertake a study and evaluation of the programs created by carriers as required by this section. The superintendent may request information on enrollment and use of incentives earned by enrollees of a carrier as necessary. By April 15, 2020 and annually thereafter, the superintendent shall submit an aggregate report relating to the performance of the programs, the use of incentives, the incentives earned by enrollees and the cumulative effect of the programs to the joint standing committee of the Legislature having jurisdiction over health insurance matters.

[PL 2017, c. 232, §8 (NEW).]

7. Rules. The superintendent may adopt rules as necessary to implement this section. Rules adopted pursuant to this subsection are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A.

§4318-B. Access to lower-priced services

1. Services from out-of-network provider; lower prices. Beginning January 1, 2019, if an enrollee covered under a health plan other than a health maintenance organization plan elects to obtain a covered comparable health care service as defined in section 4318-A, subsection 1, paragraph A from an out-of-network provider at a price that is the same or less than the statewide average for the same covered health care service based on data reported on the publicly accessible health care costs website of the Maine Health Data Organization, the carrier shall allow the enrollee to obtain the service from the out-of-network provider at the provider's charge and, upon request by the enrollee, shall apply the payments made by the enrollee for that comparable health care service toward the enrollee's deductible and out-of-pocket maximum as specified in the enrollee's health plan as if the health care services had

been provided by an in-network provider. A carrier may use the average price paid to a network provider for the covered comparable health care service under the enrollee's health plan in lieu of the statewide average price on the Maine Health Data Organization's publicly accessible website as long as the carrier uses a reasonable method to calculate the average price paid and the information is available to enrollees through a website accessible to the enrollee and a toll-free telephone number that provide, at a minimum, information relating to comparable health care services. The enrollee is responsible for demonstrating to the carrier that payments made by the enrollee to the out-of-network provider should be applied toward the enrollee's deductible or out-of-pocket maximum pursuant to this section. The carrier shall provide a downloadable or interactive online form to the enrollee for the purpose of making such a demonstration and may require that copies of bills and proof of payment be submitted by the enrollee. For the purposes of this section, "out-of-network provider" means a provider located in Massachusetts, New Hampshire or this State that is enrolled in the MaineCare program and participates in Medicare.

[PL 2017, c. 232, §9 (NEW).]

2. Medical loss ratio. For purposes of this section, the medical loss ratio is the ratio of the numerator to the denominator as described in paragraphs A and B, respectively, plus any credibility adjustment. For the purposes of this subsection:

A. The numerator is the amount expended on reimbursement for clinical services provided to enrollees and activities that improve health care quality; and [PL 2011, c. 90, Pt. D, §5 (NEW).]

A. In the large group market, 85%; [PL 2011, c. 90, Pt. D, §5 (NEW).]

B. In the small group market, 80%; and [PL 2011, c. 90, Pt. D, §5 (NEW).]

C. In the individual market, 80%. [PL 2019, c. 5, Pt. A, §23 (AMD).]

[PL 2019, c. 5, Pt. A, §23 (AMD).]

4. Rules. The superintendent may adopt rules to implement this section in a substantially similar manner as required under the federal Affordable Care Act in effect as of January 1, 2019, including, but not limited to, rules establishing the period for which the medical loss ratio is calculated. - (1) A health plan with embedded dental benefits offered by a carrier;
- (2) A self-funded employer group health or dental plan, including the group health plan or dental plan provided pursuant to Title 5, section 285 if that health plan or dental plan is self-funded in any given year; or

[PL 2021, c. 529, §1 (NEW).]

2. Dental loss ratio defined. For purposes of this section, the dental loss ratio is the ratio of the numerator to the denominator as described in paragraphs A and B, respectively. For purposes of this subsection:

A. The numerator is the sum of:

- (1) The amount expended for clinical dental services provided to enrollees as defined in rule in accordance with subsection 3;
- (2) The amount expended on activities that improve dental care quality as defined in rule in accordance with subsection 4; and

4. Activities that improve dental care quality. The superintendent shall define "activities that improve dental care quality" in rule to be consistent with similar activities related to quality that are permitted for reporting of medical loss ratio by carriers offering health plans in this State such as case management; oral health assessments; identifying and addressing ethnic, cultural or racial disparities in effectiveness of best clinical practices and evidence-based medicine; quality reporting; and health information technology.
[PL 2021, c. 529, §1 (NEW).]

The superintendent shall define "administrative cost expenditures" in rule to be consistent with similar cost expenditures used for reporting of medical loss ratio by carriers offering health plans in the State such as financial administrative expenses, marketing and sales expenses, commissions, distribution expenses, claims operations expenses, utilization review expenses, network operations expenses, charitable expenses, board, bureau or association fees and payroll expenses.
[PL 2021, c. 529, §1 (NEW).]

6. Dental loss ratio reporting. Beginning in 2023, on or before July 31st annually, a carrier offering a dental plan in effect during the preceding calendar year shall file a report with the bureau of the carrier's dental loss ratio for the preceding calendar year organized by market segment according to guidance issued by the superintendent.

A. Within 90 days of receiving any report required under this subsection, the superintendent shall post the report on the bureau's publicly accessible website. [PL 2021, c. 529, §1 (NEW).]

B. If verification of information contained in a report filed under this subsection is necessary, the carrier has 30 days to submit any information required by the superintendent. [PL 2021, c. 529, §1 (NEW).]

[PL 2021, c. 529, §1 (NEW).]

7. Average dental loss ratio; identifying dental plans with dental loss ratio deviating from average. The superintendent shall aggregate the dental loss ratio reports filed by each carrier pursuant to subsection 6 by market segment. The superintendent shall calculate an average dental loss ratio for each market segment using aggregate data for a 3-year period, including data for the dental loss ratio reporting year that is being reported and the data for the 2 prior dental loss ratio reporting years, and identify as outliers dental plans that fall outside 2 standard deviations of the average dental loss ratio. If the average dental loss ratio in a market segment declines over time, the superintendent may identify as outliers dental plans that fall outside one standard deviation of the average dental loss ratio or establish by rule a minimum average dental loss ratio for use in calculating outliers.

[PL 2021, c. 529, §1 (NEW).]

8. Authority for review. For those dental plans identified as outliers in accordance with subsection 7, the superintendent shall conduct a review and require the carrier of a dental plan identified as an outlier to submit additional relevant financial information as requested by the superintendent. The superintendent may require the carrier to submit a remediation plan including but not limited to measures such as rate revisions or benefit modifications. Any action taken by the superintendent pursuant to this subsection is limited to the dental plans identified as outliers.

§4320-A. Coverage of preventive and primary health services

Notwithstanding any other requirements of this Title, a carrier offering a health plan in this State shall, at a minimum, provide coverage for and may not impose cost-sharing requirements for preventive and primary health services as required by this section. [PL 2019, c. 653, Pt. C, §1 (AMD).]

1. Preventive services. A health plan must, at a minimum, provide coverage for:

A. The evidence-based items or services that have a rating of A or B in the recommendations of the United States Preventive Services Task Force or equivalent rating from a successor organization; [PL 2017, c. 343, §1 (NEW).]

3. Primary health services. An individual or small group health plan with an effective date from January 1, 2021 to December 31, 2022 must provide coverage without cost sharing for the first primary care office visit and first behavioral health office visit in each plan year and may not apply a deductible or coinsurance to the 2nd or 3rd primary care and 2nd or 3rd behavioral health office visits in a plan year. Any copayments for the 2nd or 3rd primary care and 2nd or 3rd behavioral health office visits in a plan year count toward the deductible. This subsection does not apply to a plan offered for use with a health savings account unless the federal Internal Revenue Service determines that the benefits required by this section are permissible benefits in a high deductible health plan as defined in the federal Internal Revenue Code, Section 223(c)(2). The superintendent shall conduct a study analyzing the effects of this subsection on premiums based on experience in plan years 2020 and 2021. Any copayments for primary care office visits and behavioral health office visits in a plan year count toward the deductible. After the first behavioral health office visit, a health plan may not apply a copayment amount to a behavioral health office visit that is greater than the copayment for a primary care office visit. For the purposes of this subsection, "behavioral health office visit" means an office visit to address mental health and substance use conditions. This subsection does not apply to a plan offered for use with a health savings account unless the federal Internal Revenue Service determines that the benefits required by this section are permissible benefits in a high deductible health plan as defined in the federal Internal Revenue Code, Section 223(c)(2). The superintendent may adopt rules as necessary to address the coordination of the requirements of this subsection for coverage without cost sharing for the first primary care visit and the requirements of this section with respect to coverage of an annual well visit. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2021, c. 638, §2 (NEW).]

A group health plan, other than a small group health plan subject to subsection 3-A, with an effective date on or after January 1, 2023 must provide coverage without cost sharing for the first primary care office visit and first behavioral health office visit in each plan year. The superintendent may adopt rules as necessary to address the coordination of the requirements of this subsection for coverage without cost sharing for the first primary care visit and the requirements of this section with respect to coverage of an annual well visit. The enrollee's responsibility for payment for covered out-of-network emergency services must be limited so that if the enrollee has paid the enrollee's share of the charge as specified in the plan for in-network services, the carrier shall hold the enrollee harmless from any additional amount owed to an out-of-network provider for covered emergency services and make payment to the out-of-network provider in accordance with section 4303-C or, if there is a dispute, in accordance with section 4303-E. C, §2 (NEW).]

B. Have or implement marketing practices or benefit designs that discriminate on the basis of race, color, national origin, sex, sexual orientation, gender identity, age or disability in a health plan or other health-related coverage; [PL 2019, c. 5, Pt. C, §2 (NEW).]

C. Deny or limit coverage, deny or limit coverage of a claim or impose additional cost sharing or other limitations or restrictions on coverage for any health services that are ordinarily or exclusively available to individuals of one sex to a transgender individual based on the fact that the individual's sex assigned at birth, gender identity or gender otherwise recorded is different from the one to

which such health services are ordinarily or exclusively available; [PL 2019, c. 5, Pt. C, §2 (NEW).]

D. Have or implement a categorical coverage exclusion or limitation for all health services related to gender transition; or [PL 2019, c. 5, Pt. C, §2 (NEW).]

E. Otherwise deny or limit coverage, deny or limit coverage of a claim or impose additional cost sharing or other limitations or restrictions on coverage for specific health services related to gender transition if such denial, limitation or restriction results in discrimination against a transgender individual. [PL 2019, c. 5, Pt. C, §2 (NEW).]

Nothing in this subsection is intended to determine or restrict a carrier from determining whether a particular health service is medically necessary or otherwise meets applicable coverage requirements in any individual case.

[PL 2019, c. 5, Pt. C, §2 (NEW).]

2. Meaningful access for individuals with limited English proficiency. A carrier shall take reasonable steps to provide meaningful access to each enrollee or prospective enrollee under a health plan who has limited proficiency in English.

[PL 2019, c. 5, Pt. C, §2 (NEW).]

§4320-M. Coverage for abortion services

1. Required coverage. A carrier offering a health plan in this State that provides coverage for maternity services shall provide coverage for abortion services for an enrollee in accordance with this section.

[PL 2019, c. 274, §5 (NEW).]

2. Limits; copayment. A health plan that provides coverage for the services required by this section may contain provisions for maximum benefits and reasonable limitations and exclusions to the extent that these provisions are not inconsistent with the requirements of this section.

[PL 2023, c. 347, §1 (AMD).]

2-A. Cost sharing prohibited. Notwithstanding subsection 2, a health plan with an effective date on or after January 1, 2024 may not impose any deductible, copayment, coinsurance or other cost-sharing requirement for the costs of abortion services. This subsection does not apply to a health plan offered for use with a health savings account unless the federal Internal Revenue Service determines that the requirements in this subsection are permissible in a high deductible health plan as defined in the federal Internal Revenue Code, Section 223(c)(2).

[PL 2023, c. 347, §2 (NEW).]

3. Application. Except for a religious employer granted an exclusion as provided in subsection 4, the requirements of this section apply to all policies, contracts and certificates executed, delivered, issued for delivery, continued or renewed in this State. For purposes of this section, all contracts are deemed to be renewed no later than the next yearly anniversary of the contract date.

[PL 2019, c. 274, §5 (NEW).]

4. Exclusion for religious employer. A religious employer may request and a carrier shall grant an exclusion under the policy or contract for the coverage required by this section if the required

coverage conflicts with the religious employer's bona fide religious beliefs and practices. A religious employer that obtains an exclusion under this subsection shall provide prospective enrollees and those individuals insured under its policy written notice of the exclusion. This section may not be construed as authorizing a carrier to exclude coverage for abortion services that are necessary to preserve the life or health of a covered enrollee. For the purposes of this section, "religious employer" means an employer that is a church, a convention or association of churches or an elementary or secondary school that is controlled, operated or principally supported by a church or by a convention or association of churches as defined in 26 United States Code, Section 3121(w)(3)(A) and that qualifies as a tax-exempt organization under 26 United States Code, Section 501(c)(3).

[PL 2019, c. 274, §5 (NEW).]

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Clinical practice guidelines" means a systematically developed statement to assist prescriber and enrollee decisions about appropriate health care for specific clinical circumstances and conditions. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

B. "Clinical review criteria" means the written screening procedures, decision abstracts, clinical protocols and practice guidelines used by a carrier or utilization review organization to determine the medical necessity and appropriateness of health care services. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

C. "Medically necessary," with respect to health services and supplies, means appropriate, under the applicable standard of care, to improve or preserve health, life or function; to slow the deterioration of health, life or function; or for the early screening, prevention, evaluation, diagnosis or treatment of a disease, condition, illness or injury. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

D. "Pharmaceutical sample" means a unit of a prescription drug that is not intended to be sold and is intended to promote the sale of the drug. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

D-1. "Serious mental illness" means a mental disorder, as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association, that results in serious functional impairment that substantially interferes with or limits one or more major life activities. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

G. "Step therapy protocol" means a protocol that establishes a specific sequence in which prescription drugs for a specified medical condition are medically necessary for a particular enrollee and are covered under a pharmacy or medical benefit by a carrier, including self-administered and physician-administered drugs. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

H. "Utilization review organization" means an entity that conducts a utilization review, other than a carrier performing a utilization review for its own health benefit plans. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

[PL 2021, c. 345, §2 (AMD).]

2. Clinical review criteria. Clinical review criteria used to establish a step therapy protocol must be based on clinical practice guidelines that:

A. Recommend that the prescription drugs be taken in the specific sequence required by the step therapy protocol; [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

B. Are developed and endorsed by a multidisciplinary panel of experts that manages conflicts of interest among the members of the writing and review groups by:

(1) Requiring members to disclose any potential conflicts of interest with entities, including carriers and pharmaceutical manufacturers, and recuse themselves from voting if they have a conflict of interest;

(2) Using a methodologist to work with writing groups to provide objectivity in data analysis and ranking of evidence through the preparation of evidence tables and facilitating consensus; and

(3) Offering opportunities for public review and comments; [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

C. Are based on high-quality studies, research and medical practice; [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

D. Are created by an explicit and transparent process that:

(2) Explains the relationship between treatment options and outcomes;

(3) Rates the quality of the evidence supporting recommendations; and

3. Absence of clinical practice guidelines. In the absence of clinical practice guidelines that meet the requirements in subsection 2, peer-reviewed publications may be substituted.

[PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

4. Consideration of atypical populations and diagnoses. When establishing a step therapy protocol, a utilization review organization shall also take into account the needs of atypical patient populations and diagnoses when establishing clinical review criteria. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

5. Construction. This section may not be construed to require carriers or the State to set up a new entity to develop clinical review criteria used for step therapy protocols. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

6. Exceptions process. When coverage of a prescription drug for the treatment of any medical condition is restricted for use by a carrier or utilization review organization through the use of a step therapy protocol, the enrollee and prescriber must have access to a clear, readily accessible and convenient process to request a step therapy override exception determination from that carrier or utilization review organization.

A. A carrier or utilization review organization may use its existing medical exceptions process to provide step therapy override exception determinations, and the process established must be easily accessible on the carrier's or utilization review organization's website. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

B. A carrier or utilization review organization shall expeditiously grant a step therapy override exception determination if:

- (1) The required prescription drug is contraindicated or will likely cause an adverse reaction in or physical or mental harm to the enrollee;
- (2) The required prescription drug is expected to be ineffective based on the known clinical characteristics of the enrollee and the known characteristics of the prescription drug regimen;
- (3) The enrollee has tried the required prescription drug while under the enrollee's current or previous health insurance or health plan, or another prescription drug in the same pharmacologic class or with the same mechanism of action, and the prescription drug was discontinued due to lack of efficacy or effectiveness, diminished effect or an adverse reaction;
- (4) The required prescription drug is not in the best interest of the enrollee, based on medical necessity;
- (5) The enrollee is stable on a prescription drug selected by the enrollee's health care provider for the medical condition under consideration while on a current or previous health insurance or health plan; or
- (6) The prescription drug selected by the enrollee's health care provider is intended to assess or treat the enrollee's serious mental illness.

Nothing in this paragraph may be construed to encourage the use of a pharmaceutical sample for the sole purpose of meeting the requirements for the granting of a step therapy override exception determination. [PL 2021, c. 345, §§3-5 (AMD).]

C. Upon the granting of a step therapy override exception determination, the carrier or utilization review organization shall authorize coverage for the prescription drug prescribed by the prescriber. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

D. A carrier or utilization review organization shall grant or deny a request for a step therapy override exception determination or an appeal of a determination within 72 hours, or 2 business days, whichever is less, after receipt of the request. If exigent circumstances, as described in section 4311, subsection 1-A, paragraph B, exist, a carrier or utilization review organization shall grant or deny the request within 24 hours after receipt of the request. The carrier shall provide coverage for the prescription drug prescribed by the prescriber during the pendency of the request for a step therapy override exception determination or an appeal of a determination. If a carrier or utilization

review organization does not grant or deny the request within the time required under this paragraph, the exception or appeal is granted. [RR 2019, c. 1, Pt. A, §26 (RAL); PL 2019, c. 295, §1 (NEW).]

E. An enrollee may appeal a step therapy override exception determination. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

F. This section does not prevent:

(1) A carrier or utilization review organization from requiring an enrollee to try a generic drug, as defined in Title 32, section 13702-A, subsection 14, or an interchangeable biological product, as defined in Title 32, section 13702-A, subsection 14-A, prior to providing coverage for the equivalent brand-name prescription drug; or

(2) A health care provider from prescribing a prescription drug that is determined to be medically necessary. [PL 2019, c. 295, §1 (NEW); RR 2019, c. 1, Pt. A, §26 (RAL).]

[PL 2021, c. 345, §§3-5 (AMD).]

[PL 2019, c. 627, Pt. A, §2 (NEW).]

2. Limits; deductible; copayment; coinsurance. A carrier may offer a health plan containing a provision for a deductible, copayment or coinsurance requirement for a health care service provided by a physician assistant as long as the deductible, copayment or coinsurance does not exceed the deductible, copayment or coinsurance applicable to the same service provided by other health care providers.

[PL 2019, c. 627, Pt. A, §2 (NEW).]

3. Network participation. A carrier shall demonstrate that the carrier's provider network includes reasonable access, in accordance with section 4303, to all covered services that are within the lawful scope of practice of a physician assistant. A carrier may not exclude a provider from participation in the carrier's provider network solely because the provider is a physician assistant as long as the provider is willing to meet the same terms and conditions as other participating providers. This subsection does not require a carrier to contract with all physician assistants or require a carrier to provide coverage under a health plan for any service provided by a participating physician assistant that is not within the health plan's scope of coverage.

[PL 2019, c. 627, Pt. A, §2 (NEW).]

4. Billing. A carrier shall authorize a physician assistant to bill the carrier and receive direct payment for a medically necessary service the physician assistant provides to an enrollee and identify the physician assistant as provider in the billing and claims process for payment of the service. [PL 2021, c. 638, §4 (NEW); RR 2021, c. 2, Pt. A, §80 (RAL).]

At a minimum, the results of the analysis must:

- (1) Identify the factors used to determine that a nonquantitative treatment limitation applies to a benefit, including factors that were considered but rejected;
- (2) Identify and define the specific evidentiary standards used to define the factors and any other evidence relied upon in designing each nonquantitative treatment limitation;
- (3) Identify and describe the comparative analyses, including the results of the analyses, used to determine that the processes and strategies used to design each nonquantitative treatment limitation, as written, for mental health and substance use disorder benefits are comparable to, and are applied no more stringently than, the processes and strategies used to design each nonquantitative treatment limitation, as written, for medical and surgical benefits;
- (4) Identify and describe the comparative analyses, including the results of the analyses, used to determine that the processes and strategies used to apply each nonquantitative treatment limitation, in operation, for mental health and substance use disorder benefits are comparable to, and applied no more stringently than, the processes and strategies used to apply each nonquantitative treatment limitation, in operation, for medical and surgical benefits; and
- (5) Disclose the specific findings and conclusions reached by the insurer that the results of the analyses in this paragraph indicate that the carrier is in compliance with this section and the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 and its implementing and related regulations, including 45 Code of Federal Regulations, Sections 146.136, 147.136, 147.160 and 156.115(a)(3). [PL 2021, c. 692, §1 (NEW); RR 2021, c. 2, Pt. A, §81 (RAL).]

C. "Fertility patient" means an individual or couple with infertility, an individual or couple who is at increased risk of transmitting a serious inheritable genetic or chromosomal abnormality to a child or an individual unable to conceive as an individual or with a partner because the individual or couple does not have the necessary gametes for conception. [PL 2021, c. 692, §1 (NEW); RR 2021, c. 2, Pt. A, §81 (RAL).]

D. "Fertility preservation services" means procedures, products, medications and services, intended to preserve fertility, consistent with established medical practice and professional guidelines published by the American Society for Reproductive Medicine, its successor organization or a comparable organization for an individual who has a medical or genetic condition or who is expected to undergo treatment that may directly or indirectly cause a risk of impairment of fertility. "Fertility preservation services" includes the procurement and cryopreservation of gametes, embryos and reproductive material and storage from the time of cryopreservation for a period of 5 years. Storage may be offered for a longer period of time. [PL 2021, c. 692, §1 (NEW); RR 2021, c. 2, Pt. A, §81 (RAL).]

DOWNSTREAM RISK

§4331. Definitions

As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings. [PL 1999, c. 609, §20 (NEW).]

1. Bonus. "Bonus" means a payment a carrier makes to a downstream entity beyond any salary, fee-for-service payment, capitation or returned withhold.

[PL 1999, c. 609, §20 (NEW).]

2. Capitation. "Capitation" means a set dollar payment per patient per unit of time, usually per month, that a carrier pays a health care practitioner, institutional provider or downstream entity to cover a specified set of services and administrative costs without regard to the actual number or nature of services provided. The services covered may include the downstream entity's own services, referral services or all medical services.

[PL 1999, c. 609, §20 (NEW).]

3. Downstream entity. "Downstream entity" means a person other than a carrier that has assumed all or part of the insurance risk of one or more health plans under a contractual relationship with a carrier or another downstream entity. An employer exempt from the applicability of this chapter under the federal Employee Retirement Income Security Act of 1974, 29 United States Code, Sections 1001 to 1461 (1988) is not considered a downstream entity.

[PL 1999, c. 609, §20 (NEW).]

4. Downstream risk arrangement. "Downstream risk arrangement" means an arrangement that transfers insurance risk from a carrier to a downstream entity.

[PL 2003, c. 428, Pt. H, §6 (AMD).]

5. Payments. "Payments" means any amounts the carrier pays the downstream entity for services the downstream entity furnishes directly, plus amounts paid for administration and amounts paid in whole or in part based on use and costs of referral services such as withhold amounts, bonuses based

on referral levels and any other compensation to the downstream entity to influence the use of referral services. Bonuses and other compensation that are not based on referral levels, such as bonuses based solely on quality of care furnished, patient satisfaction and participation on committees, are not considered payments for purposes of this subchapter.

[PL 1999, c. 609, §20 (NEW).]

6. Physician group. "Physician group" means a partnership, association, corporation, individual practice association or other group of physicians that distributes income from the practice among members. An individual practice association is a physician group only if the association is composed of individual physicians and has no subcontracts with physician groups.

[PL 1999, c. 609, §20 (NEW).]

7. Potential payments. "Potential payments" means the maximum anticipated total amount, based on the most recent year's utilization and experience and any current or anticipated factors that may affect costs, to be paid for a defined set of referral services for the carrier's subscribers and for which the downstream entity assumes by contract financial risk, to some extent, for the costs of such services. The methodology for determining potential payments must be filed by the carrier with the bureau.

[PL 1999, c. 609, §20 (NEW).]

8. Referral services. "Referral services" means any specialty, inpatient, outpatient or laboratory services that a downstream entity orders or arranges, but does not furnish directly.

[PL 1999, c. 609, §20 (NEW).]

9. Risk-sharing arrangement. "Risk-sharing arrangement" means an arrangement between a carrier and a downstream entity in which the carrier continues to pay providers for a defined set of services subject to an annual reconciliation process in which costs incurred by the carrier are compared with budgeted or targeted amounts for such services and that may, if payments are different than the budgeted amount, create financial liability of the downstream entity to the carrier or the carrier to the downstream entity provided the carrier holds or retains control of any funds in excess of those required to satisfy current claims obligations or direct payment to providers for services rendered pending reconciliation.

[PL 1999, c. 609, §20 (NEW).]

10. Risk threshold. "Risk threshold" means the maximum risk, if the risk is based on referral services, to which a downstream entity may be exposed under a downstream risk arrangement without being at substantial financial risk.

[PL 1999, c. 609, §20 (NEW).]

11. Withhold. "Withhold" means a percentage of payments or set dollar amounts that a carrier deducts from a downstream entity's service fee, capitation or salary payment and that may or may not be returned to the downstream entity, depending on specific predetermined factors.

§4332. Safe harbor and waiver

1. Authority for safe harbor. Notwithstanding any other provisions of this Title or Title 24, including, without limitation, sections 4341 and 4342, an arrangement between a carrier and a downstream entity with which the carrier has contracted to provide or arrange for the provision of services that allows the downstream entity to accept a limited degree of insurance risk is permitted and such a risk arrangement is deemed not to be engaging in the business of insurance by the downstream entity if:

A. The arrangement does not involve substantial insurance risk or substantial enrollment risk as described in section 4334; and [PL 1999, c. 609, §20 (NEW).]

B. The arrangement meets the requirements of sections 4335 and 4336. [PL 1999, c. 609, §20 (NEW).]

[PL 1999, c. 609, §20 (NEW).]

2. Waiver for downstream risk arrangements that exceed risk threshold described in section 4334. Carriers and downstream entities that wish to develop downstream risk arrangements that exceed the risk threshold described in section 4334 may jointly request that the superintendent grant a waiver that allows the downstream entity to accept a limited degree of insurance risk without being licensed as an insurer, a health maintenance organization or an insurance administrator. The joint request for a waiver must include a plan for managing financial exposure, based upon reasonable enrollment and utilization projections and upon the contracts, parties and features proposed, sufficient to quantify in dollars per quarter and per annum all elements of downstream risk to be assumed by the downstream entity. All other risk arrangements are prohibited unless the arrangements meet the appropriate licensing standards or are expressly permitted by the superintendent.

[PL 1999, c. 609, §20 (NEW).]

3. Continuing obligation to subscribers. A carrier contracting with a downstream entity remains obligated to its subscribers for the delivery of health care benefits consistent with existing state law. The carrier remains responsible for compliance with all applicable laws.

[PL 1999, c. 609, §20 (NEW).]

4. Certain incentives prohibited. A downstream risk arrangement may not contain incentives for the downstream entity or participating provider to limit or deny medically necessary care to enrollees.

[PL 1999, c. 609, §20 (NEW).]

5. Requirements still applicable. The application of the safe harbor provisions in subsection 1 or a waiver of licensing requirements granted pursuant to this section does not exempt the downstream entity from any other licensure or prior approval requirements applicable to activities conducted by the downstream entity, including, but not limited to, utilization review licensure, insurance administrator licensure or preferred provider arrangement registration.

1. Compliance. A carrier is responsible for monitoring all activities carried out by the carrier, or all activities carried out on behalf of the carrier by a pharmacy benefits manager if the carrier contracts with a pharmacy benefits manager, related to a carrier's prescription drug benefits and for ensuring that all requirements of this chapter are met.

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

2. Fiduciary duty. A carrier that contracts with a pharmacy benefits manager to perform any activities related to the carrier's prescription drug benefits is responsible for ensuring that, under the contract, the pharmacy benefits manager acts as the carrier's agent and owes a fiduciary duty to the carrier in the pharmacy benefits manager's management of activities related to the carrier's prescription drug benefits.

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

3. Contract requirements. A carrier may not enter into a contract or agreement or allow a pharmacy benefits manager or any person acting on the carrier's behalf to enter into a contract or agreement that prohibits a pharmacy provider from:

A. Providing a covered person with the option of paying the pharmacy provider's cash price for the purchase of a prescription drug and not filing a claim with the covered person's carrier if the cash price is less than the covered person's cost-sharing amount; or [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. Providing information to a state or federal agency, law enforcement agency or the superintendent when such information is required by law. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

4. Excess payments at point of sale prohibited. A carrier or pharmacy benefits manager may not require a covered person to make a payment at the point of sale for a covered prescription drug in an amount greater than the least of:

A. The applicable cost-sharing amount for the prescription drug; [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. The amount a covered person would pay for the prescription drug if the covered person purchased the prescription drug without using a health plan or any other source of prescription drug benefits or discounts; and [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

C. The total amount the pharmacy will be reimbursed for the prescription drug from the pharmacy benefits manager or carrier, including the cost-sharing amount paid by a covered person. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

5. Adequate network. A carrier shall provide a reasonably adequate retail pharmacy network for the provision of prescription drugs for its covered persons. A mail order pharmacy may not be included in determining the adequacy of a retail pharmacy network. The superintendent may adopt rules as necessary to carry out the purposes of this subsection. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

6. Cost-sharing amounts paid on behalf of covered person. The requirements of this subsection apply to the calculation of a covered person's contribution to any applicable cost-sharing or other out-of-pocket expense under a covered prescription drug benefit.

A. When calculating a covered person's contribution to any applicable cost-sharing or other out-of-pocket expense under a covered prescription drug benefit, a carrier or pharmacy benefits manager shall give credit for any waiver or discount of, or payment made by a 3rd party for, the amount of, or any portion of the amount of, the applicable cost-sharing or other out-of-pocket expense for the covered prescription drug that is either:

(1) Without a generic equivalent; or

(2) With a generic equivalent when the covered person has obtained access to the covered prescription drug through prior authorization, a step therapy override exception or other exception or appeal process. [PL 2021, c. 744, §1 (NEW).]

B. A 3rd party that pays as financial assistance any amount, or portion of the amount, of any applicable cost-sharing or other out-of-pocket expense on behalf of a covered person for a covered prescription drug:

(1) Shall notify the covered person prior to or within 7 days of the acceptance of the financial assistance of the total amount of assistance available and the duration for which it is available; and

(2) May not condition the assistance on enrollment in a specific health plan or type of health plan, except as permitted under federal law. [PL 2021, c. 744, §1 (NEW).]

C. If under federal law, with respect to a high-deductible health plan offered for use with a health savings account in accordance with the federal Internal Revenue Code, the application of paragraph A would result in ineligibility for a health savings account, this subsection applies only with respect to the deductible of such a plan after the covered person has satisfied the minimum deductible under the federal Internal Revenue Code, Section 223, except for items or services that are determined to be preventive care pursuant to the federal Internal Revenue Code, Section 223(c)(2)(C), in which case the requirements of paragraph A apply regardless of whether the minimum deductible under the federal Internal Revenue Code, Section 223 has been satisfied. §4350. Prescription drug pricing; maximum allowable cost

1. Single maximum allowable cost list. A carrier, or a pharmacy benefits manager under contract with a carrier, shall use a single maximum allowable cost list to establish the maximum amount to be paid by a health plan to a pharmacy provider for a generic drug or a brand-name drug that has at least one generic alternative available. A carrier, or a pharmacy benefits manager under contract with a carrier, shall use the same maximum allowable cost list for each pharmacy provider.

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

2. Listing of prescription drug. A maximum allowable cost may be set for a prescription drug, or a prescription drug may be allowed to continue on a maximum allowable cost list, only if that prescription drug:

A. Is rated as "A" or "B" in the most recent version of the United States Food and Drug Administration's "Approved Drug Products with Therapeutic Equivalence Evaluations," also known as "the Orange Book," or an equivalent rating from a successor publication, or is rated as "NR" or "NA" or a similar rating by a nationally recognized pricing reference; and [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. Is not obsolete and is generally available for purchase in this State from a national or regional wholesale distributor by pharmacies having a contract with the pharmacy benefits manager. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]
[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

3. Changes to maximum allowable cost list. A carrier, or a pharmacy benefits manager under contract with a carrier, shall establish a process for removing a prescription drug from a maximum allowable cost list or modifying a maximum allowable cost for a prescription drug in a timely manner to remain consistent with changes to such costs and the availability of the drug in the national marketplace.

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

4. Disclosure. With regard to a pharmacy with which the carrier, or the pharmacy benefits manager under contract with a carrier, has entered into a contract, a carrier, or a pharmacy benefits manager under contract with a carrier, shall:

A. Upon request, disclose the sources used to establish the maximum allowable costs; [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. Provide a process for a pharmacy to readily obtain the maximum allowable payment available to that pharmacy under a maximum allowable cost list; and [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

C. At least once every 7 business days, review and update maximum allowable cost list information to reflect any modification of the maximum allowable payment available to a pharmacy under a maximum allowable cost list used by the carrier or the pharmacy benefits manager under contract with a carrier. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]
[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

5. Appeal procedure. A carrier, or a pharmacy benefits manager under contract with a carrier, shall provide a reasonable administrative appeal procedure, including a right to appeal that is limited to 14 days following the initial claim, to allow pharmacies with which the carrier or pharmacy benefits manager has a contract to challenge maximum allowable costs for a specified drug.

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

6. Resolution of appeals. A carrier, or a pharmacy benefits manager under contract with a carrier, shall respond to, investigate and resolve an appeal under subsection 5 within 14 days after the receipt of the appeal. The carrier or pharmacy benefits manager shall respond to an appeal as follows:

A. If the appeal is upheld, the carrier or pharmacy benefits manager shall make the appropriate adjustment in the maximum allowable cost and permit the challenging pharmacy or pharmacist to reverse and rebill the claim in question; or [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. If the appeal is denied, the carrier or pharmacy benefits manager shall provide the challenging pharmacy or pharmacist the national drug code from national or regional wholesalers of a comparable prescription drug that may be purchased at or below the maximum allowable cost. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]
[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

7. Average wholesale price; use of a prescription drug not on maximum allowable cost list. A carrier, or a pharmacy benefits manager under contract with a carrier, shall use the average wholesale price to establish the maximum payment for a brand-name drug for which a generic equivalent is not available or a prescription drug not included on a maximum allowable cost list. In order to use the average wholesale price of a brand-name drug or prescription drug not included on a maximum allowable cost list, a carrier, or a pharmacy benefits manager under contract with a carrier, must use only one national drug pricing source during a calendar year, except that a carrier, or a pharmacy benefits manager under contract with a carrier, may use a different national drug pricing source if the original pricing source is no longer available. A carrier, or a pharmacy benefits manager under contract with a carrier, shall use the same national drug pricing source for each pharmacy provider and identify on its publicly accessible website the name of the national drug pricing source used to determine the average wholesale price of a prescription drug not included on the maximum allowable cost list. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

8. Payment. This subsection governs payments between a carrier or a carrier's pharmacy benefits manager and a pharmacy provider.

A. The amount paid by a carrier or a carrier's pharmacy benefits manager to a pharmacy provider under contract with the carrier or the carrier's pharmacy benefits manager for dispensing a prescription drug must be the ingredient cost plus the dispensing fee less any cost-sharing amount paid by a covered person. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. The ingredient cost may not exceed the maximum allowable cost or average wholesale price, as applicable, and must be disclosed by the carrier's pharmacy benefits manager to the carrier. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

C. Only the pharmacy provider that dispensed the prescription drug may retain the payment described in this subsection. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

D. A pharmacy provider may not be denied payment or be subject to a reduced payment retroactively unless the original claim was submitted fraudulently or in error. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

A. "Anticipated loss ratio" means the ratio of the present value of the future benefits payments to the present value of the future premiums of a policy form over the entire period for which rates are computed to provide health insurance coverage. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. "Pharmacy benefits manager compensation" means the difference between:

2. Pharmacy benefits manager compensation included as administrative cost. If a carrier uses a pharmacy benefits manager to administer or manage prescription drug benefits provided for the benefit of covered persons, for purposes of calculating a carrier's anticipated loss ratio, any pharmacy benefits manager compensation:

A. Constitutes an administrative cost incurred by the carrier in connection with a health plan; and [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

B. May not constitute a benefit provided under a health plan. [PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

A carrier may claim only the amounts paid by the pharmacy benefits manager to a pharmacy or pharmacist as an incurred claim.

[PL 2019, c. 469, §8 (NEW); PL 2019, c. 469, §9 (AFF).]

§4364. Conduct of delinquency proceedings against domestic insurers and certain alien insurers

1. Whenever under this chapter a receiver is to be appointed in delinquency proceedings for an insurer, the court shall appoint the superintendent as such receiver. The court shall order the superintendent forthwith to take possession of the assets of the insurer and to administer the same under the orders of the court.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. As a domiciliary receiver, the superintendent is vested by operation of law with the title to all of the property, contracts and rights of action and all of the books and records of the insurer, wherever located, as of the date of entry of the order directing the superintendent to rehabilitate or liquidate a domestic insurer or to liquidate the United States branch of an alien insurer domiciled in this State, and the superintendent has the right to recover the same and reduce the same to possession; except that ancillary receivers in reciprocal states have, as to assets located in their respective states, the rights and

powers that are herein prescribed for ancillary receivers appointed in this State as to assets located in this State.

[RR 2021, c. 1, Pt. B, §356 (COR).]

[PL 1969, c. 132, §1 (NEW).]

4. The superintendent as domiciliary receiver is responsible for the proper administration of all assets coming into the superintendent's possession or control. The court may at any time require a bond from the superintendent or the superintendent's deputies, if considered desirable for the protection of such assets.

[RR 2021, c. 1, Pt. B, §357 (COR).]

5. Upon taking possession of the assets of an insurer, the domiciliary receiver shall immediately proceed to conduct the business of the insurer or to take such steps as are authorized by this chapter for the purpose of rehabilitating, liquidating or conserving the affairs or assets of the insurer.

[PL 1969, c. 132, §1 (NEW).]

6. In connection with delinquency proceedings, the superintendent may appoint one or more special deputy superintendents to act for the superintendent and the superintendent may employ such counsel, clerks and assistants as the superintendent considers necessary. The compensation of the special deputies, counsel, clerks or assistants and all expenses of taking possession of the insurer and of conducting the proceedings are fixed by the receiver and must be paid out of the funds or assets of the insurer. Within the limits of duties imposed upon them, special deputies possess all the powers given to and, in the exercise of those powers, are subject to all of the duties imposed upon the receiver with respect to such proceedings.

[RR 2021, c. 1, Pt. B, §358 (COR).]

7. During such receivership the superintendent shall file in the court, at regular intervals not less frequently than quarterly, the superintendent's true reports in summary form of the insurer's affairs under the receivership, and of progress being made in accomplishing the objectives of the receivership. All such reports, together with such additional or special reports as the court may reasonably require, are subject to review by the court; and all actions of the receiver therein reported are subject to the court's approval, but the court may not withhold approval or disapprove any such action unless found by the court after a hearing thereon in open court to be unlawful, arbitrary or capricious.

§4365. Conduct of delinquency proceedings against foreign insurers

Whenever under this chapter an ancillary receiver is to be appointed in delinquency proceedings for an insurer not domiciled in this State, the court shall appoint the superintendent as ancillary receiver. The superintendent shall file a petition requesting the appointment on the grounds set forth in section 4358 or 4359:

B. If 10 or more persons resident in this State having claims against such insurer file a petition with the superintendent requesting the appointment of such ancillary receiver. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]
[RR 2021, c. 2, Pt. A, §83 (COR).]

2. The domiciliary receiver is also entitled to recover the other assets of the insurer located in this State, except that upon the appointment of an ancillary receiver in this State, the ancillary receiver during the ancillary receivership proceedings has the sole right to recover such other assets. The ancillary receiver shall, as soon as practicable, liquidate from their respective securities those special deposit claims and secured claims that are proved and allowed in the ancillary proceedings in this State, and shall pay the necessary expenses of the proceedings. All remaining assets the ancillary receiver shall promptly transfer to the domiciliary receiver. §4366. Claims of nonresidents against domestic insurers

1. In a delinquency proceeding begun in this State against a domestic insurer, claimants residing in reciprocal states may file claims either with the ancillary receivers, if any, in their respective states, or with the domiciliary receiver, but claimants residing in foreign countries or in states not reciprocal states must file claims in this State. All such claims must be filed on or before the last date fixed for the filing of claims in the domiciliary delinquency proceedings.

[PL 1991, c. 828, §29 (AMD).]

2. Controverted claims belonging to claimants residing in reciprocal states may either:

A. Be proved in this State, or [PL 1969, c. 132, §1 (NEW).]

B. If ancillary proceedings have been commenced in such reciprocal states, may be proved in those proceedings. In the event a claimant elects to prove the claimant's claim in ancillary proceedings, if notice of the claim and opportunity to appear and be heard is afforded the domiciliary receiver of this State, as provided in section 4367 with respect to ancillary proceedings in this State, the final allowance of such claim by the courts in the ancillary state must be accepted in this State as conclusive as to its amount and must also be accepted as conclusive as to its priority, if any, against special deposits or other security located within the ancillary state. §4367. Claims against foreign insurers

1. In a delinquency proceeding in a reciprocal state against an insurer domiciled in that state, claimants against such insurer who reside within this State may file claims either with the ancillary receiver, if any, appointed in this State, or with the domiciliary receiver. [PL 1969, c. 132, §1 (NEW).]

2. Controverted claims belonging to claimants residing in this State may either:

A. Be proved in the domiciliary state as provided by the law of that state, or [PL 1969, c. 132, §1 (NEW).]

B. If ancillary proceedings have been commenced in this State, be proved in those proceedings. In the event that any such claimant elects to prove a claim in this State, the claimant shall file the claim with the ancillary receiver and shall give notice in writing to the receiver in the domiciliary state, either by registered or certified mail or by personal service at least 40 days prior to the date set for hearing. The notice must contain a concise statement of the amount of the claim, the facts on which the claim is based and the priorities asserted, if any. If the domiciliary receiver within 30 days after the giving of such notice gives notice in writing to the ancillary receiver and to the claimant, either by registered or certified mail or by personal service, of the domiciliary receiver's intention to contest such claim, the domiciliary receiver is entitled to appear or to be represented in any proceeding in this State involving adjudication of the claim. The final allowance of the claim by the courts of this State must be accepted as conclusive as to its amount and must also be accepted as conclusive as to its priority, if any, against special deposits or other security located within this State. [RR 2021, c. 1, Pt. B, §364 (COR).]

[RR 2021, c. 1, Pt. B, §364 (COR).]

3. The courts of this State shall give full faith and credit to any stay of or injunction barring new actions against an insurer or its receiver, or the continuation of existing actions against an insurer or its receiver, when the stay or injunction is pursuant to an order to liquidate or rehabilitate an insurer issued in accordance with the delinquency laws of a reciprocal state.

§4368. Form of claim; notice; hearing

1. All claims against an insurer against which delinquency proceedings have been begun must set forth in reasonable detail the amount of the claim, or the basis upon which such amount can be ascertained, the facts upon which the claim is based, and the priorities asserted, if any. All such claims must be verified by the affidavit of the claimant or someone authorized to act on the claimant's behalf and having knowledge of the facts, and must be supported by such documents as may be material thereto.

[RR 2021, c. 1, Pt. B, §365 (COR).]

2. All claims filed in this State shall be filed with the receiver, whether domiciliary or ancillary, in this State, on or before the last date for filing as specified in this chapter.

[PL 1969, c. 132, §1 (NEW).]

3. Within 10 days of the receipt of any claim, or within such further period as the court may fix for good cause shown, the receiver shall report the claim to the court, specifying in such report the receiver's recommendation with respect to the action to be taken thereon. Upon receipt of such report, the court shall fix a time for hearing the claim and shall direct that the claimant or the receiver, as the court specifies, must give such notice as the court determines to such persons as appear to the court to

be interested therein. All such notices must specify the time and place of the hearing and must concisely state the amount and nature of the claim, the priorities asserted, if any, and the recommendation of the receiver with reference thereto.

§4375. Prohibited and voidable transfers, liens

(REPEALED)

SECTION HISTORY

PL 1969, c. 132, §1 (NEW). PL 1973, c. 585, §12 (AMD). PL 1991, c. 828, §30 (RP).

§4375-A. Voidable property transfers and liens

1. Fraudulent transfers prior to petition. Fraudulent transfers prior to petition are governed by this subsection.

A. A transfer made or suffered and an obligation incurred by an insurer within one year prior to the filing of a successful petition for rehabilitation or liquidation under this chapter is fraudulent as to then existing and future creditors if made or incurred without fair consideration, or with actual intent to hinder, delay or defraud either existing or future creditors. A transfer made or an obligation incurred by an insurer ordered to be rehabilitated or liquidated under this chapter that is fraudulent according to the terms of this section may be avoided by the receiver except as to a person who in good faith is a purchaser, lienor or obligee for a present fair equivalent value, but any purchaser, lienor or obligee who in good faith has given a consideration less than fair for such transfer, lien, or obligation may retain the property, lien or obligation as security for repayment. The court may, on due notice, order any such transfer or obligation to be preserved for the benefit

of the estate, and in that event, the receiver succeeds to and may enforce the rights of the purchaser, lienor or obligee. [PL 1991, c. 828, §31 (NEW).]

B. The determination of when a transfer is made is governed by the following rules.

(1) A transfer of property other than real property is deemed to be made or suffered when it becomes so far perfected that no subsequent lien obtainable by legal or equitable proceedings on a simple contract may become superior to the rights of the transferee.

(2) A transfer of real property is deemed to be made or suffered when it becomes so far perfected that no subsequent bona fide purchaser from the insurer may obtain rights superior to the rights of the transferee.

(3) A transfer that creates an equitable lien may not be deemed to be perfected if there are available means by which a legal lien could be created.

(4) Any transfer not perfected prior to the filing of a petition for liquidation is deemed to be made immediately before the filing of the successful petition.

(5) A lien obtainable by legal or equitable proceedings upon a simple contract is one arising in the ordinary course of such proceedings upon the entry or docketing of a judgment or decree, or upon attachment, garnishment, execution, or like process, whether before, upon, or after judgment or decree and whether before or upon levy, but does not include liens that under applicable law are given a special priority over other liens that are prior in time.

(6) A lien obtainable by legal or equitable proceedings may become superior to the rights of a transferee, or a purchaser may obtain rights superior to the rights of a transferee within the meaning of this paragraph if those consequences would follow only from the lien or purchase itself, or from the lien or purchase followed by any step wholly within the control of the respective lienholder or purchaser, with or without the aid of ministerial action by public officials, but not if any acts subsequent to the obtaining of the lien or subsequent to the purchase require the agreement or concurrence of any 3rd party or require any further judicial action or ruling.

(7) The provisions of this paragraph apply whether or not there are or were creditors who might have obtained any liens or persons who might have become bona fide purchasers. [PL 1991, c. 828, §31 (NEW).]

C. Any transaction of the insurer with a reinsurer is deemed fraudulent and may be avoided by the receiver under paragraph A if:

(1) The transaction consists of the termination, adjustment or settlement of a reinsurance contract in which the reinsurer is released from any part of its duty to pay the originally specified share of losses that had occurred prior to the time of the transaction unless the reinsurer gives a present fair equivalent value for the release; and

(2) Any part of the transaction takes place within one year prior to the date of filing of the petition through which the receivership is commenced. [PL 1991, c. 828, §31 (NEW).]

D. A person receiving any property from the insurer or a benefit from possession or use of the property that is fraudulently transferred is personally liable for the value of the preference and shall account to the liquidator. [PL 1991, c. 828, §31 (NEW).]

[PL 1991, c. 828, §31 (NEW).]

2. Fraudulent transfers after petition. Fraudulent transfers after petition are governed by this subsection.

A. After a petition for rehabilitation or liquidation has been filed, a transfer of any of the real property of the insurer made to a person acting in good faith is valid against the receiver if made

for a present fair equivalent value or, if the transfer was not made for a present fair equivalent value, then it is valid only to the extent of the present consideration actually paid for the property, for which amount the transferee has a lien on the property so transferred. Constructive notice of the commencement of a proceeding in rehabilitation or liquidation is deemed to be given upon the recording of a copy of the petition for or order of rehabilitation or liquidation with the register of deeds in the county where any real property in question is located. The exercise by a court of the United States or any state or jurisdiction to authorize or effect a judicial sale of real property of the insurer within any county in any state is not impaired by the pendency of such a proceeding unless the copy is recorded in the county prior to the consummation of the judicial sale. [PL 1991, c. 828, §31 (NEW).]

B. After a petition for rehabilitation or liquidation has been filed and before either the receiver takes possession of the property of the insurer or an order of rehabilitation or liquidation is granted the following rules apply.

(1) A transfer of any of the property of the insurer, other than real property, made to a person acting in good faith is valid against the receiver if made for a present fair equivalent value or, if not made for a present fair equivalent value, then the transfer is valid only to the extent of the present consideration actually paid, for which amount the transferee has a lien on the property so transferred.

(2) A person acting in good faith who is indebted to the insurer or holding property of the insurer may pay the indebtedness or deliver the property or any part of the property to the insurer with the same effect as if the petition were not pending.

(3) A person having actual knowledge of the pending rehabilitation or liquidation who effectuates a transfer of any of the property of the insurer or who benefits by the transfer is deemed not to act in good faith.

(4) A person asserting the validity of a transfer under this section has the burden of proof. Except as elsewhere provided in this section, a transfer by or on behalf of the insurer after the date of the petition for liquidation by any person other than the liquidator is not valid against the liquidator. [PL 1991, c. 828, §31 (NEW).]

C. A person receiving any property from the insurer or a benefit from possession or use of the property that is fraudulently transferred under this subsection is personally liable for the value of the preference and shall account to the liquidator. [PL 1991, c. 828, §31 (NEW).]

[PL 1991, c. 828, §31 (NEW).]

3. Voidable preferences. Voidable preferences and liens are governed by this subsection.

A. A preference is a transfer that is made or suffered by the insurer of any of the property of an insurer to or for the benefit of a creditor for or on account of an antecedent debt if the effect of the transfer may be to enable the creditor to obtain a greater percentage of this debt than another creditor of the same class would receive and the transfer is made within one year before the filing of a successful petition for liquidation under this chapter or, if a liquidation order is entered while the insurer is already subject to a rehabilitation order, if made or suffered within one year before the filing of the successful petition for rehabilitation or within 2 years before the filing of the successful petition for liquidation, whichever time is shorter. [PL 1991, c. 828, §31 (NEW).]

B. Any preference may be avoided by the liquidator if:

(1) The insurer was insolvent at the time of the transfer;

(2) The transfer was made within 4 months before the filing of the petition;

- (3) The creditor receiving it or to be benefitted by it or the creditor's agent had reasonable cause to believe that the insurer was insolvent or was about to become insolvent when the transfer was made; or
- (4) The creditor receiving it was an officer of the insurer or any employee or attorney or other person who was in fact in a position of comparable influence with the insurer whether or not that person held such a position, or any shareholder holding directly or indirectly more than 5% of any class of any equity security issued by the insurer, or any other person, firm, corporation, association or aggregation of persons with whom the insurer did not deal at arm's length. [PL 1991, c. 828, §31 (NEW).]
- C. Where the preference is voidable, the liquidator may recover the property or its value if it has been converted from any person who received or converted the property, except that, where a bona fide purchaser or lienor has given less than fair equivalent value, that person is deemed to have a lien upon the property to the extent of the consideration actually given. When a preference by way of lien or security interest is voidable, the court may on due notice order the lien or title to be preserved for the benefit of the estate, in which event the lien or title passes to the liquidator. [PL 1991, c. 828, §31 (NEW).]
- D. The determination of when a transfer is made is governed by subsection 1, paragraph B. [PL 1991, c. 828, §31 (NEW).]
- E. A transfer of property for or on account of a new and contemporaneous consideration, which is considered under subsection 1, paragraph B to be made or suffered after the transfer because of delay in perfecting it, does not become a transfer for or on account of an antecedent debt if any acts required by the applicable law to be performed in order to perfect the transfer as against liens or bona fide purchasers' rights are performed within 21 days or any period expressly allowed by the law, whichever is less. A transfer to secure a future loan, if such a loan is actually made, or a transfer which becomes security for a future loan, has the same effect as a transfer for or on account of a new and contemporaneous consideration. [PL 1991, c. 828, §31 (NEW).]
- F. If any lien considered voidable under paragraph B is dissolved by the furnishing of a bond or other obligation, the surety that was indemnified directly or indirectly by the transfer of or the creation of a lien upon any property of an insurer before the filing of a petition under this chapter that results in a liquidation order, the indemnifying transfer or lien is also voidable. [PL 1991, c. 828, §31 (NEW).]
- G. The property affected by any lien considered voidable under this subsection must be discharged from the lien, and that property and any of the indemnifying property transferred to or for the benefit of a surety must pass to the liquidator; except that, the court may on due notice order a lien to be preserved for the benefit of the estate and the court may direct that a conveyance be executed as may be proper or adequate to evidence the title of the liquidator. [PL 1991, c. 828, §31 (NEW).]
- H. The court has summary jurisdiction of any proceeding by the liquidator to hear and determine the rights of any parties under this section. Reasonable notice of any hearing in the proceeding must be given to all parties in interest, including the obligee of a releasing bond or other like obligation. Where an order is entered for the recovery of indemnifying property in kind or for the avoidance of an indemnifying lien, the court, upon application of any party in interest, shall in the same proceeding ascertain the value of the property or lien. If the court finds that the value is less than the amount for which the property is held as indemnity or the amount of the lien, the transferee or lienholder may elect to retain the property or lien upon payment to the liquidator of its value as ascertained by the court within a reasonable time as fixed by the court. [PL 1991, c. 828, §31 (NEW).]
- I. The liability of the surety under a releasing bond or other like obligation must be discharged to the extent of the value of the indemnifying property recovered or the indemnifying lien nullified

and avoided by the liquidator or, when the property is retained under paragraph H, to the extent of the amount paid to the liquidator. [PL 1991, c. 828, §31 (NEW).]

J. If a creditor has been preferred and afterward in good faith gives the insurer further credit for property that becomes a part of the insurer's estate without security of any kind, the amount of the new credit remaining unpaid at the time of the petition may be set off against the preference that would otherwise be recoverable. [PL 1991, c. 828, §31 (NEW).]

K. If, within 4 months before the filing of a successful petition for liquidation under this chapter or at any time in contemplation of a proceeding to liquidate an insurer, the insurer pays money or transfers property, directly or indirectly, to an attorney-at-law for services rendered or to be rendered, the transactions may be examined by the court on its own motion and must be examined by the court on petition of the liquidator and may be held valid only to the extent they are reasonable in amount as determined by the court. Any excess may be recovered by the liquidator for the benefit of the estate; except that, where the attorney is in a position of influence in the insurer or an affiliate of the insurer, payment of any money or the transfer of any property to the attorney for services rendered or to be rendered is governed by the provisions of paragraph B, subparagraph (4). [PL 1991, c. 828, §31 (NEW).]

L. An officer, manager, employee, shareholder, member, subscriber, attorney or any other person acting on behalf of the insurer who knowingly participates in giving any preference when that person has reasonable cause to believe the insurer is or is about to become insolvent at the time of the preference is personally liable to the liquidator for the amount of the preference. If the transfer was made within 4 months before the date of filing of a successful petition for liquidation, a presumption arises that there was reasonable cause to believe the insurer was or was about to become insolvent. [PL 1991, c. 828, §31 (NEW).]

M. A person receiving any property from the insurer or a benefit from possession or use of the property as a preference voidable under this subsection is personally liable for the value of that preference and shall account to the liquidator. [PL 1991, c. 828, §31 (NEW).]

N. Nothing in this subsection prejudices any other claim by the liquidator against any person. [PL 1991, c. 828, §31 (NEW).]
[PL 1991, c. 828, §31 (NEW).]

4. Claims of holders of void or voidable rights. Claims of holders of void or voidable rights are governed by this subsection.

A. A claim of a creditor who has received or acquired a preference, lien, conveyance, transfer, assignment or encumbrance voidable under this section is not allowed unless the claimant surrenders the preference, lien, conveyance, transfer, assignment or encumbrance. If the avoidance is effected by a proceeding in which a final judgment is entered, the claim is not allowed unless the money is paid or the property is delivered to the liquidator within 30 days from the date of the entering of the final judgment; except that the court having jurisdiction over the liquidation may allow further time if there is an appeal or other continuation of the proceeding. [PL 1991, c. 828, §31 (NEW).]

B. A claim allowable under paragraph A by reason of the avoidance, whether voluntary or involuntary, of a preference, lien, conveyance, transfer, assignment or encumbrance may be filed as an excused late filing if filed within 30 days from the date of the avoidance or within any further time allowed by the court under paragraph A. [PL 1991, c. 828, §31 (NEW).]
[PL 1991, c. 828, §31 (NEW).]

5. Negotiable instruments. Nothing in this section impairs the negotiability of currency or negotiable instruments.

§4376. Date rights fixed on liquidation

The rights and liabilities of the insurer and of its creditors, policyholders, stockholders, members, subscribers and all other persons interested in its estate shall, unless otherwise directed by the court, be fixed as of the date on which the order directing the liquidation of the insurer is filed in the office of the clerk of the court which made the order, subject to this chapter with respect to the rights of claimants holding contingent claims. §4377. Time to file claims

1. If upon the entry of an order of liquidation under this chapter or at any time thereafter during liquidation proceedings the insurer is not clearly solvent, the court shall, upon hearing after such notice as it deems proper, make and enter an order adjudging the insurer to be solvent. [PL 1969, c. 132, §1 (NEW).]

2. After the entry of the order of insolvency, regardless of any prior notice that may have been given to creditors, the superintendent shall notify all persons who may have claims against the insurer to file such claims with him, at a place and within the time specified in the notice, or that such claims shall be forever barred. The time specified in the notice shall be as fixed by the court for filing of claims and which shall be not less than 6 months after the entry of the order of insolvency. The notice shall be given in such manner and for such reasonable period of time as may be ordered by the court. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

§4378. Allowance of contingent and other claims

1. No contingent claim shall share in a distribution of assets of an insurer which has been adjudicated to be insolvent by an order made pursuant to section 4377, except that such claims shall be considered, if properly presented, and may be allowed to share where:

A. The claim becomes absolute against the insurer on or before the last day fixed for filing of proofs of claim against the assets of the insurer, or [PL 1969, c. 132, §1 (NEW).]

B. There is a surplus and the liquidation is thereafter conducted upon the basis that the insurer is solvent. [PL 1969, c. 132, §1 (NEW).]

[PL 1969, c. 132, §1 (NEW).]

2. Where an insurer has been so adjudicated to be insolvent, any person who has a cause of action against an insured of the insurer, shall have the right to file a claim in the liquidation proceeding, regardless of the fact that the claim may be contingent, and the claim may be allowed:

A. If it may be reasonably inferred from the proof presented upon the claim that such person would be able to obtain a judgment upon such cause of action against such insured; and [PL 1969, c. 132, §1 (NEW).]

B. If such person furnishes suitable proof, unless the court for good cause shown otherwise directs, that no further valid claims against the insurer arising out of the person's cause of action other than those already presented can be made; and [RR 2021, c. 1, Pt. B, §371 (COR).]

C. If the total liability of the insurer to all claimants arising out of the same act of its insured shall be no greater than its maximum liability would be were it not in liquidation. [PL 1969, c. 132, §1 (NEW).]

[RR 2021, c. 1, Pt. B, §371 (COR).]

3. No judgment against such an insurer, referred to in subsection 2, taken after the date of the entry of the liquidation order shall be considered in the liquidation proceedings as evidence of liability, or of the amount of damages, and no judgment against an insured taken by default, inquest or by collusion prior to the entry of the liquidation order shall be considered as conclusive evidence in the liquidation proceeding either of the liability of the insured to such person upon such cause of action or of the amount of damages to which such person is therein entitled.

[PL 1969, c. 132, §1 (NEW).]

4. A claim of any secured claimant may not be allowed at a sum greater than the difference between the value of the claim without security and the value of the security itself as of the date of the entry of the order of liquidation or such other date set by the court for the fixation of rights and liabilities as provided in section 4376 unless the claimant surrenders the claimant's security to the liquidator and in which event the claim must be allowed in the full amount for which it is valued.

§4379. Priorities in distribution of assets

The priorities in distribution of assets from the insurer's estate to pay unsecured claims, including the unsecured portion of undersecured claims, are in the order as shown in this section. The first \$50 of the amount allowed on each claim in the classes under subsections 3, 4, 4-B, 5 and 6 must be deducted from the claim and included in the class under subsection 8. Claims may not be cumulated by assignment to avoid application on the \$50 deductible provision. Subject to the \$50 deductible provision, every claim in each class must be paid in full or adequate funds retained for the payment thereof before claims of the next succeeding class receive any payment. No subclasses may be established within any class. [PL 2017, c. 169, Pt. D, §1 (AMD).]

1. Administration costs. The costs and expenses of administration, including but not limited to the actual and necessary costs of preserving or recovering the assets of the insurer; compensation for all services rendered in the liquidation; any necessary filing fees; the fees and mileage payable to witnesses; and reasonable attorney's fees. Any provider or member claims for covered services under a health maintenance organization contract, including a point-of-service contract, incurred between the date a petition of liquidation is filed and the date coverage terminates may be treated as administration costs under this subsection.

[PL 2001, c. 88, §12 (AMD).]

2. Wages.

[PL 2017, c. 169, Pt. D, §2 (RP).]

3. Loss claims. All claims under policies for losses incurred, including 3rd-party claims, and all claims against the insurer for liability for bodily injury or for injury to or destruction of tangible property that are not under policies, except the first \$200 of losses otherwise payable to any claimant under this subsection. All claims under life insurance policies and annuity contracts, whether for death proceeds, annuity proceeds or investment values, must be treated as loss claims. Claims may not be cumulated by assignment to avoid application of the \$200 deductible provision. That portion of any loss for which indemnification is provided by other benefits or advantages recovered or recoverable by the claimant may not be included in this class, other than benefits or advantages recovered or recoverable in discharge of familial obligations of support or by way of succession at death or as proceeds of life

insurance, or as gratuities. No payment made by an employer to an employee may be treated as a gratuity. Any provider or member claims for covered services under a health maintenance organization contract, including a point-of-service contract, not paid under subsection 1 are included in this class. Obligations of an insolvent insurer arising out of reinsurance contracts are excluded from this subsection.

[PL 2003, c. 202, §1 (AMD).]

4. Unearned premiums and small loss claims. Claims under nonassessable policies for unearned premiums or other premium refunds and the first \$200 or loss excepted by the deductible provision in subsection 3, except that, if the receiver fails to prorate a premium due to the insurer based on a termination of coverage under this chapter, any resulting unearned premium must be paid to the insured under subsection 1 as an expense of the administration.

[PL 2001, c. 88, §12 (AMD).]

4-A. Federal claims. Claims of the Federal Government not included in the classes under subsection 3 or 4, except to the extent that a similar claim would be subordinated in a proceeding conducted under the United States Bankruptcy Code.

[RR 2021, c. 2, Pt. A, §84 (COR).]

4-B. Wages. Debts due to employees of the insurer, other than officers, for services performed, not to exceed \$1,000 to each employee and earned within one year immediately preceding the filing of the petition for liquidation. This priority is in lieu of any other similar priority authorized by law as to wages or compensation of such employees.

[PL 2017, c. 169, Pt. D, §3 (NEW).]

5. Residual classification. All other claims, including claims of any state or local government, not falling within other classes under this section. Claims, including those of any governmental body, for a penalty or forfeiture are included in this class only to the extent of the pecuniary loss sustained from the act, transaction or proceeding out of which the penalty or forfeiture arose, with reasonable and actual costs occasioned thereby. The remainder of such claims must be postponed to the class of claims under subsection 8.

[PL 2017, c. 169, Pt. D, §4 (AMD).]

6. Judgments. Claims based solely on judgments. If a claimant files a claim and bases it both on the judgment and on the underlying facts, the claim must be considered by the liquidator who shall give the judgment such weight as the liquidator considers appropriate. The claim as allowed must receive the priority it would have received in the absence of the judgment. If the judgment is larger than the allowance on the underlying claim, the remaining portion of the judgment must be treated as if it were a claim based solely on a judgment.

[RR 2021, c. 1, Pt. B, §373 (COR).]

7. Interest on claims already paid. Interest at the legal rate compounded annually on all claims in the classes under subsections 1 through 6 from the date of the petition for liquidation or the date on which the claim becomes due, whichever is later, until the date on which the dividend is declared. The liquidator, with the court's approval, may make reasonable classifications of claims for purpose of computing interest, may make approximate computations and may ignore certain classifications and time periods as de minimis.

[PL 1969, c. 132, §1 (NEW).]

8. Miscellaneous subordinated claims. The remaining claims or portions of claims not already paid, with interest as in subsection 7:

A. The first \$50 of each claim in the classes under subsections 3, 4, 4-B, 5 and 6 subordinated under this section; [PL 2017, c. 169, Pt. D, §5 (AMD).]

B. Claims subordinated by section 4380 (subordination of claims for noncooperation); [PL 1969, c. 132, §1 (NEW).]

C. Claims filed late; [PL 1969, c. 132, §1 (NEW).]

D. Portions of claims subordinated under subsection 5; and [PL 1969, c. 132, §1 (NEW).]

E. Claims or portions of claims payment of which is provided by other benefits or advantages recovered or recoverable by the claimant. [PL 1969, c. 132, §1 (NEW).]

[PL 2017, c. 169, Pt. D, §5 (AMD).]

9. Preferred ownership claims. Surplus or contribution notes, or similar obligations, and premium refunds on assessable policies. Interest at the legal rate shall be added to each claim, as in subsections 7 and 8.

[PL 1969, c. 132, §1 (NEW).]

10. Proprietary claims. The claims of stockholders or other owners of the insurer.

If an ancillary receiver, by whatever name called, in another state or foreign country fails to transfer to the domiciliary liquidator in this State any assets within the ancillary receiver's control other than special deposits, diminished only by the expenses, if any, of the ancillary receivership, the claims filed in the ancillary receivership, other than special deposit claims or secured claims, must be placed in the class of claims under section 4379, subsection 8. 1. In all cases of mutual debts or mutual credits between the insurer and another person in connection with any action or proceeding under this chapter, credits and debts must be set off and the balance only allowed or paid, except as provided in subsection 2.

[PL 2023, c. 405, Pt. A, §94 (AMD).]

2. An offset is not allowed in favor of a person if:

A. The obligation of the insurer to the person would not at the date of the entry of any liquidation order or otherwise, as provided in section 4376, entitle the person to share as a claimant in the assets of the insurer; [PL 2023, c. 405, Pt. A, §94 (AMD).]

B. The obligation of the insurer to the person was purchased by or transferred to the person with a view of its being used as an offset; or [PL 2023, c. 405, Pt. A, §94 (AMD).]

C. The obligation of the person is to pay an assessment levied against the members of a mutual insurer, or against the subscribers of a reciprocal insurer, or is to pay a balance upon the subscription to the capital stock of a stock insurer. [PL 2023, c. 405, Pt. A, §94 (AMD).]

Within 3 years after the date of the entry of an order of rehabilitation or liquidation of a domestic mutual insurer or a domestic reciprocal insurer, the superintendent may make and file the superintendent's report and petition to the court setting forth: [RR 2021, c. 1, Pt. B, §376 (COR).]

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. Any other information relative to the affairs or property of the insurer that the superintendent deems material.

§4383. Order and levy of assessment

1. Upon the filing and reading of the report and petition provided for in section 4382, the court, ex parte, may order the superintendent to assess all members or subscribers of the insurer who may be subject to such an assessment, in such an aggregate amount as the court finds reasonably necessary to pay all valid claims as may be timely filed and proved in the delinquency proceedings, together with the costs and expenses of levying and collecting assessments and the costs and expenses of the delinquency proceedings in full. Any such order must require the superintendent to assess each such member or subscriber for the member's or subscriber's proportion of the aggregate assessment, according to such reasonable classification of such members or subscribers and formula as may be made by the superintendent and approved by the court.

[RR 2021, c. 1, Pt. B, §377 (COR).]

2. The court may order additional assessments upon the filing and reading of any amendment or supplement to the report and petition referred to in subsection 1, if such amendment or supplement is filed within 3 years after the date of the entry of the order of rehabilitation or liquidation.

[PL 1969, c. 132, §1 (NEW).]

3. After the entry of the order to levy and assess members or subscribers of an insurer referred to in subsections 1 and 2, the superintendent shall levy and assess members or subscribers in accordance with the order.

4. The total of all assessments against any member or subscriber with respect to any policy, whether levied pursuant to any other provision of this Title, shall be for no greater amount than that specified in the policy or policies of the member or subscriber and as limited under this Title, except as to any policy which was issued at a rate of premium below the minimum rate lawfully permitted for the risk insured, in which event the assessment against any such policyholder shall be upon the basis of the minimum rate for such risk.

[PL 1969, c. 132, §1 (NEW).]

5. No assessment shall be levied against any member or subscriber with respect to any nonassessable policy issued in accordance with this Title.

§4384. Assessment prima facie correct; notice; payment; proceedings to collect

1. Any assessment of a subscriber or member of an insurer made by the superintendent pursuant to the order of court fixing the aggregate amount of the assessment against all members or subscribers and approving the classification and formula made by the superintendent under section 4383, subsection 1 shall be prima facie correct.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. Each member or subscriber must be notified of the amount of assessment to be paid by the member or subscriber by written notice mailed to the address of the member or subscriber last of record with the insurer. Failure of the member or subscriber to receive the notice so mailed, within the time specified therein or at all, is not a defense in any proceeding to collect the assessment.

[RR 2021, c. 1, Pt. B, §378 (COR).]

3. If any such member or subscriber fails to pay the assessment within the period specified in the notice, which period shall not be less than 20 days after mailing, the superintendent may obtain an order in the delinquency proceedings requiring the member or subscriber to show cause at a time and place fixed by the court why judgment should not be entered against such member or subscriber for the amount of the assessment together with all costs, and a copy of the order and a copy of the petition therefor shall be served upon the member or subscriber within the time and in the manner designated in the order.

[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

4. If the subscriber or member after due service of a copy of the order and petition referred to in subsection 3 is made upon the subscriber or member:

A. Fails to appear at the time and place specified in the order, judgment must be entered against the subscriber or member as prayed for in the petition; or [RR 2021, c. 1, Pt. B, §379 (COR).]

B. Appears in the manner and form required by law in response to the order, the court shall hear and determine the matter and enter a judgment in accordance with its decision. [PL 1969, c. 132, §1 (NEW).]

[RR 2021, c. 1, Pt. B, §379 (COR).]

§4385. Federal receivership

1. Whenever in the superintendent's opinion liquidation of a domestic insurer or an alien insurer domiciled in this State would be facilitated by a federal receivership, and when any ground exists upon which the superintendent might petition the court for an order of rehabilitation or liquidation of the insurer under this chapter, or if such an order has already been entered, the superintendent may request another superintendent or other resident of another state to petition any appropriate federal district court for the appointment of a federal receiver. The superintendent may intervene in any such action to support or oppose the petition, and may accept appointment as the receiver if so designated. This chapter applies to the receivership except to the extent that the court determines that the insurance rehabilitation and liquidation laws of another state are applicable in any part. Upon the superintendent's motion, the courts of this State shall relinquish all jurisdiction over the insurer for purposes of

rehabilitation or liquidation. No federal law governing proceedings in bankruptcy may be applied to proceedings under this section.

[PL 1991, c. 828, §32 (AMD).]

2. If the superintendent is appointed receiver under this section, the superintendent shall comply with requirements necessary to give the superintendent title to and control over the assets and affairs of the insurer.

§4386. Application for approval

1. **Insolvency; assets disbursed.** Within 120 days after a final determination of insolvency of a company by a court of competent jurisdiction of this State, the receiver shall make application to the court for approval of a proposal to disburse assets out of the company's marshaled assets, from time to time as those assets become available, to the Maine Insurance Guaranty Association, to the Maine Life and Health Insurance Guaranty Association and to any similar organization in another state. The Maine Insurance Guaranty Association, the Maine Life and Health Insurance Guaranty Association and any similar organizations in other states are referred to, collectively, as the associations.

[PL 2017, c. 382, §1 (AMD).]

2. **Proposals.** The proposals shall at least include provisions for:

A. Reserving amounts for the payment of the expenses of administration and the claims falling within the priorities established in section 4379, subsections 1 and 4-B; [PL 2017, c. 169, Pt. D, §6 (AMD).]

B. Disbursement of the assets marshaled to date and subsequent disbursements of assets as they become available; [PL 1981, c. 347 (NEW).]

C. Equitable allocation of disbursements to each of the associations entitled thereto; and [PL 1981, c. 347 (NEW).]

D. The securing by the receiver from each of the associations entitled to disbursements pursuant to this section of an agreement to return to the receiver the assets, and interest earned thereon, previously disbursed as may be required to pay claims as secured creditors and claims falling within the priorities established in section 4379, subsections 1 to 6, in accordance with those priorities.

[PL 1981, c. 347 (NEW).]

[PL 2017, c. 169, Pt. D, §6 (AMD).]

3. **Disbursements to associations.** The receiver's proposal shall provide for disbursements to the associations in amounts at least equal to the payments made or to be made thereby for which the association could assert claims against the receiver and shall further provide that if the assets available for disbursement, from time to time, do not equal or exceed the amounts of the payments made or to be made by the associations, then disbursements shall be in the amount of available assets.

[PL 1981, c. 347 (NEW).]

4. **Notice.** Notice of the application shall be given to the associations in, and to the commissioners of insurance of, each of the states. Any such notice shall be deemed to have been given when deposited in the United States certified mails, first class postage prepaid, at least 30 days prior to submission of the application to the court. Action on the application may be taken by the court provided the notice has been given and provided further that the receiver's proposal complies with subsection 2, paragraphs A and D.

§4387. Qualified financial contracts

1. Qualified financial contracts. Notwithstanding any other provision of this chapter, including any other provision of this chapter permitting the modification of contracts, or other provision of law to the contrary, a person may not be stayed or prohibited from exercising:

A. A contractual right to cause the termination, liquidation, acceleration or closeout of obligations under or in connection with any netting agreement or qualified financial contract with an insurer because of:

- (1) The insolvency, financial condition or default of the insurer at any time, if the right is enforceable under applicable law other than this chapter; or
- (2) The commencement of a formal delinquency proceeding under this chapter; [PL 2011, c. 107, §3 (NEW).]

B. Any right under a pledge, security, collateral, reimbursement or guarantee agreement or arrangement or any other similar security agreement or arrangement or other credit enhancement relating to one or more netting agreements or qualified financial contracts; [PL 2011, c. 107, §3 (NEW).]

C. Subject to section 4381, subsection 2, any right to offset, set off or net out any termination value, payment amount or other transfer obligation arising under or in connection with one or more qualified financial contracts when the counterparty or its guarantor is organized under the laws of the United States or a state or a foreign jurisdiction approved by the Securities Valuation Office of the National Association of Insurance Commissioners as eligible for netting; or [PL 2011, c. 107, §3 (NEW).]

D. If a counterparty to a master netting agreement or a qualified financial contract with an insurer subject to a proceeding under this chapter terminates, liquidates, closes out or accelerates the agreement or contract, damages must be measured as of the date or dates of termination, liquidation, closeout or acceleration. The amount of a claim for damages is the actual direct compensatory damages calculated in accordance with subsection 6. [PL 2011, c. 107, §3 (NEW).]

[PL 2011, c. 107, §3 (NEW).]

2. Termination of contract. Upon termination of a netting agreement or qualified financial contract, the net or settlement amount, if any, owed by a nondefaulting party to an insurer that is the subject of a delinquency proceeding under this chapter must be transferred to or on the order of the receiver for the insurer, even if the insurer is the defaulting party, notwithstanding any walkaway clause in the netting agreement or qualified financial contract. For purposes of this subsection, "walkaway clause" means a provision in a netting agreement or a qualified financial contract that, after calculation of a value of a party's position or an amount due to or from one of the parties in accordance with its terms upon termination, liquidation or acceleration of the netting agreement or qualified financial contract, either does not create a payment obligation of a party or extinguishes a payment obligation of a party in whole or in part solely because of the party's status as a nondefaulting party. Any limited 2-way payment or first method provision in a netting agreement or qualified financial contract with an insurer that has defaulted is considered to be a full 2-way payment or 2nd method provision as against the defaulting insurer. Any such property or amount, except to the extent it is subject to one or more secondary liens or encumbrances or rights of netting, offset or setoff, must be a general asset of the insurer.

[PL 2011, c. 107, §3 (NEW).]

3. Transfer of contract. In making any transfer of a netting agreement or qualified financial contract of an insurer subject to a proceeding under this chapter, the receiver shall either:

A. Transfer to one party, other than an insurer subject to a delinquency proceeding under this chapter, all netting agreements and qualified financial contracts between a counterparty or any affiliate of the counterparty and the insurer that is the subject of the proceeding, including:

- (1) All rights and obligations of each party under each netting agreement and qualified financial contract; and
- (2) All property, including any guarantees or other credit enhancement, securing any claims of each party under each netting agreement and qualified financial contract; or [PL 2011, c. 107, §3 (NEW).]

B. Transfer none of the netting agreements, qualified financial contracts, rights, obligations or property referred to in paragraph A with respect to the counterparty and any affiliate of the counterparty. [PL 2011, c. 107, §3 (NEW).]

[PL 2011, c. 107, §3 (NEW).]

4. Notice. If a receiver for an insurer makes a transfer of one or more netting agreements or qualified financial contracts, then the receiver must use its best efforts to notify any person who is a party to the netting agreements or qualified financial contracts of the transfer by noon, the receiver's local time, on the business day following the transfer. For purposes of this subsection, "business day" means a day other than a Saturday, Sunday or any day on which the New York Stock Exchange or the Federal Reserve Bank of New York is closed.

[PL 2011, c. 107, §3 (NEW).]

5. Transfer prior to delinquency. Notwithstanding any other provision of this chapter and except as provided in this subsection, a receiver may not avoid a transfer of money or other property arising under or in connection with a netting agreement or qualified financial contract or any pledge, security, collateral or guarantee agreement or any other similar security arrangement or credit support document relating to a netting agreement or qualified financial contract that is made before the commencement of a delinquency proceeding under this chapter. A transfer may be avoided under section 4375-A, subsection 1, paragraph A if the transfer was made with actual intent to hinder, delay or defraud the insurer, a receiver appointed for the insurer or existing or future creditors.

[PL 2011, c. 107, §3 (NEW).]

6. Rights of disaffirmance or repudiation. Disaffirmance or repudiation is governed by this subsection.

A. In exercising the rights of disaffirmance or repudiation of a receiver with respect to any netting agreement or qualified financial contract to which an insurer is a party, the receiver for the insurer shall either:

- (1) Disaffirm or repudiate all netting agreements and qualified financial contracts between a counterparty or any affiliate of the counterparty and the insurer that is the subject of the proceeding; or
- (2) Disaffirm or repudiate none of the netting agreements and qualified financial contracts referred to in subparagraph (1) with respect to the person or any affiliate of the person. [PL 2011, c. 107, §3 (NEW).]

B. Notwithstanding any other provision of this chapter, any claim of a counterparty against the estate arising from the receiver's disaffirmance or repudiation of a netting agreement or qualified financial contract that has not been previously affirmed in the liquidation or immediately preceding rehabilitation proceeding must be determined and either allowed or disallowed:

- (1) As if the claim had arisen before the date of the filing of the petition for liquidation;

- (2) If a rehabilitation proceeding is converted to a liquidation proceeding, as if the claim had arisen before the date of the filing of the petition for rehabilitation; or
- (3) As if the claim had arisen before the issuance of any order or the commencement of any summary proceeding under this chapter.

The amount of the claim is the actual direct compensatory damages determined as of the date of the disaffirmance or repudiation of the netting agreement or qualified financial contract. "Actual direct compensatory damages" does not include punitive or exemplary damages, damages for lost profit or lost opportunity or damages for pain and suffering, but does include normal and reasonable costs of cover or other reasonable measures of damages used in the derivatives, securities or other market for the contract and agreement claims. [PL 2011, c. 107, §3 (NEW).]

[PL 2011, c. 107, §3 (NEW).]

7. Contractual right defined. "Contractual right," as used in this section, includes any right set forth in a rule or bylaw of a derivatives clearing organization as defined in the federal Commodity Exchange Act, a multilateral clearing organization as defined in the Federal Deposit Insurance Corporation Improvement Act of 1991, a national securities exchange, a national securities association, a securities clearing agency or a contract market designated under the federal Commodity Exchange Act, a derivatives transaction execution facility registered under the federal Commodity Exchange Act, or a board of trade as defined in the federal Commodity Exchange Act or in a resolution of the governing board thereof and any right, whether or not evidenced in writing, arising under statutory or common law, or under law merchant, or by reason of normal business practice.

[PL 2011, c. 107, §3 (NEW).]

8. Affiliates. This section does not apply to any persons who are affiliates of the insurer that is the subject of the proceeding.

[PL 2011, c. 107, §3 (NEW).]

9. Rights of counterparties. All rights of counterparties under this chapter apply to netting agreements and qualified financial contracts entered into on behalf of the general account or separate accounts if the assets of each separate account are available only to counterparties to netting agreements and qualified financial contracts entered into on behalf of that separate account.

SUBCHAPTER 2

SUMMARY PROCEEDINGS

§4401. Summary proceedings; superintendent's corrective orders authorized

1. If the superintendent determines after a hearing that any insurer has committed or engaged in, or is committing or engaging in, or is about to commit or engage in any act, practice or transaction that would subject it to formal delinquency proceedings under sections 4351 to 4407, the superintendent may make and serve upon the insurer and other persons involved such orders, other than seizure orders under sections 4404 and 4405, as the superintendent considers reasonably necessary to correct, eliminate or remedy such conduct, condition or ground. Orders to cure impairment of capital or surplus of a domestic insurer are subject to sections 3423 and 3424.

[RR 2021, c. 2, Pt. A, §85 (COR).]

2. If the superintendent believes that irreparable harm to the insurer or its policyholders, creditors or the public may occur unless the superintendent's order is issued with immediate effect, the

superintendent may make and serve the superintendent's order without notice and before hearing, and shall simultaneously therewith serve upon the insurer and other persons involved the notice of hearing as required under subsection 3.

[RR 2021, c. 1, Pt. B, §382 (COR).]

3. The superintendent's order and notice of hearing thereunder shall be served in such a manner as conforms with the notice provisions of the Maine Administrative Procedure Act, Title 5, chapter 375, subchapter IV.

§4402. -- appeal from superintendent's order

If the superintendent has issued a summary order before hearing as provided in section 4401, subsection 2, any person upon whom such order is served may waive the superintendent hearing and apply for any immediate judicial relief available under law and without first exhausting administrative remedies. 2. Violation of any order of the superintendent issued under section 4401 by any person as to whom the order is in effect shall subject such person to a penalty of not to exceed \$10,000, to be collected in a civil action brought by the Attorney General in the name of the State of Maine. §4404. -- seizure under court order

1. Upon filing by the superintendent in any Superior Court of this State of the superintendent's verified petition alleging any ground for a formal delinquency proceeding against an insurer under sections 4351 to 4385 and that the interests of the insurer's policyholders or creditors or the public will be jeopardized by delay, and setting forth the order considered necessary by the superintendent, the court shall, ex parte and without notice or hearing, issue the requested order. The requested order may:

A. Direct the superintendent to take possession and control of all or part of the property, books, accounts and records of the insurer and the premises occupied by it for transaction of its business; and [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. The court's order shall be for such duration, specified in the order, as the court deems necessary to enable the superintendent to ascertain the insurer's condition. On motion of any party or on its own motion, the court may hold such hearings as it deems desirable after such notice as it deems appropriate, and extend or shorten the duration or modify the terms of the order. The court shall vacate the seizure order if the superintendent fails to commence a formal proceeding under sections 4351 to 4385 after reasonable opportunity to do so; and a seizure order is automatically vacated by issuance of the court's order pursuant to formal delinquency proceedings under such sections of this chapter.
[PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

§4405. -- seizure under the superintendent's order

1. If it appears to the superintendent that the interests of policyholders, creditors or the public will be jeopardized by delay incident to requesting a court seizure order, then on any ground that would justify a court seizure order under section 4404, and without notice and without applying to the court, the superintendent may issue a seizure order that must contain a statement verified by the superintendent of the grounds of the superintendent's action. As directed by the seizure order, the superintendent's representatives shall forthwith take possession and control of all or part of the property, books, accounts and records of the insurer, and of the premises occupied by the insurer for transaction of its business. The superintendent shall retain possession and control until the order is vacated or is replaced by an order of court pursuant to subsection 2 or pursuant to a formal proceeding under this chapter.
[RR 2021, c. 1, Pt. B, §384 (COR).]

2. At any time after seizure under subsection 1 the insurer may apply to the Superior Court for Kennebec County or for the county in this State in which the insurer's principal office is located. [PL 1969, c. 132, §1 (NEW); PL 1973, c. 585, §12 (AMD).]

2. The court may hold all hearings in summary proceedings and judicial reviews thereof privately in chambers, and shall do so on request of the insurer proceeded against.

[PL 1969, c. 132, §1 (NEW).]

3. In all summary proceedings and judicial reviews thereof, all records of the insurer, other documents, and all insurance bureau files and court records and papers, so far as they pertain to or are part of the record of the summary proceedings, are and remain confidential except as necessary to obtain compliance therewith, unless the court after hearing arguments by the parties in chambers orders otherwise, or unless the insurer requests that the matter be made public. §4438. Powers and duties of the association

1. **Powers and duties.** The association shall:

A. Be obligated to pay covered claims existing prior to the determination of the insolvency or arising within 30 days after the determination of insolvency, or before the policy expiration date if less than 30 days after the determination of insolvency, or before the insured replaces the policy or causes its cancellation, if within 30 days of the determination. The obligation must be satisfied by paying to the claimant:

- (1) Except as provided in this paragraph, the full amount of a covered claim for benefits, including interest and all penalties payable to a claimant under the Maine Workers' Compensation Act of 1992, or unearned premium under workers' compensation insurance coverage;
- (2) An amount not exceeding \$25,000 per policy for a covered claim for the return of an unearned premium; or
- (3) An amount not exceeding \$300,000 per claim for all other covered claims.

In no event is the association obligated to pay a claimant an amount in excess of the obligation of the insolvent insurer under the policy or coverage from which the claim arises. The association shall pay only that amount of unearned premium in excess of \$50. Notwithstanding any other provisions of this subchapter, a covered claim does not include any claim filed with the association

after the earlier of 24 months after the date of the order of liquidation or the final date set by the court for the filing of claims against the liquidator or receiver of an insolvent insurer. The association, in its discretion, may accept a late filed claim as a covered claim when the claimant demonstrates good cause. The demonstration of good cause by a claimant includes showing that the existence of the claim was not known to the claimant prior to the bar date and that the claimant filed the claim within 60 days of learning of the claim; [PL 2009, c. 129, §1 (AMD); PL 2009, c. 129, §13 (AFF).]

A-1. Pay to the workers' compensation residual market pool the sum of \$1,538,039 on or before February 15th, May 15th, August 15th and November 15th of each year beginning August 15, 1996 and continuing for 40 consecutive calendar quarters. Each payment made under this paragraph must be treated as the payment of a covered claim except that the association may not seek reimbursement or recoupment from any source other than by assessments to member insurers. Member insurers are allowed to recognize assessments made pursuant to this paragraph in rates and premiums as provided in section 4447; [PL 1995, c. 289, §14 (NEW).]

B. Be deemed the insurer to the extent of its obligation on covered claims, and to such extent the association shall have all rights, duties and obligations of the insolvent insurer as if the insurer had not become insolvent; [PL 1969, c. 561 (NEW).]

C. Allocate claims paid and expenses incurred among the 3 accounts separately; and assess member insurers separately for each account in amounts necessary to pay:

- (1) The obligations of the association under paragraph A, subsequent to an insolvency, the obligations of the accounts for shortfalls under section 4440-A, and for preinsolvency assessments, if required by section 4440, subsection 3, paragraph B, and the obligations of the association under paragraph A-1;
- (2) The expenses of handling covered claims subsequent to an insolvency;
- (3) The cost of examinations under section 4445; and
- (4) Other expenses authorized by this subchapter; [PL 1995, c. 289, §15 (AMD).]

D. Investigate claims brought against the association and adjust, compromise, settle and pay covered claims to the extent of the association's obligation and deny all other claims. The association shall pay covered claims in any reasonable order, including the payment of claims as such are received from the claimants or in groups or categories of claims. The association may review settlements, releases and judgments to which the insolvent insurer or its insureds were parties to determine the extent to which such settlements, releases and judgments may be properly contested; [PL 1985, c. 279, §5 (AMD).]

E. Notify such persons as the superintendent directs under section 4441, subsection 2, paragraph A; [PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

F. Handle claims through its employees or through one or more insurers licensed in the State or other persons using employees licensed as adjusters in the State designated as servicing facilities. Designation of a servicing facility is subject to the approval of the superintendent, but designation of a member insurer as a servicing facility may be declined by such insurer; [PL 2009, c. 129, §2 (AMD); PL 2009, c. 129, §13 (AFF).]

G. Reimburse each servicing facility for obligations of the association paid by the facility and for expenses incurred by the facility while handling claims on behalf of the association; [PL 1969, c. 561 (NEW).]

H. Pay the other expenses of the association authorized by this subchapter; and [PL 2009, c. 129, §3 (AMD); PL 2009, c. 129, §13 (AFF).]

I. Pay all penalties, sanctions, forfeitures and fines provided for under the Maine Workers' Compensation Act of 1992 including penalties payable to the Workers' Compensation Board and the General Fund, except the penalty provided for in Title 39-A, section 359, subsection 2. No penalty, fine, forfeiture, attorney's fees or other sanction may be imposed on the association if:

(1) The Workers' Compensation Board finds that the association was prevented from complying with the Maine Workers' Compensation Act of 1992 because the association was unable in the exercise of reasonable diligence to obtain the records of the insolvent insurer; or

(2) The Workers' Compensation Board finds that the association was prevented from complying with the Maine Workers' Compensation Act of 1992 because of circumstances beyond its reasonable control. [PL 2009, c. 129, §4 (NEW); PL 2009, c. 129, §13 (AFF).]

[PL 2009, c. 129, §§1-4 (AMD); PL 2009, c. 129, §13 (AFF).]

2. Permission. The association may:

A. Employ or retain such persons as are necessary to handle claims and perform other duties of the association; [PL 1969, c. 561 (NEW).]

B. Borrow funds necessary to effect the purposes of this subchapter in accord with the plan of operation; [PL 1969, c. 561 (NEW).]

C. Sue or be sued and may intervene as a party before any court in this State that has jurisdiction over an insolvent insurer as defined by this subchapter; [PL 2001, c. 478, §9 (AMD); PL 2001, c. 478, §11 (AFF).]

D. Negotiate and become a party to such contracts as are necessary to carry out the purpose of this subchapter; [PL 1969, c. 561 (NEW).]

E. Perform such other acts as are necessary or proper to effectuate the purpose of this subchapter; [PL 1969, c. 561 (NEW).]

F. Refund to the member insurers in proportion to the contribution of each member insurer to that account that amount by which the assets of the account exceed the liabilities, if, at the end of any calendar year, the board of directors finds that the assets of the association in any account exceed the liabilities of that account as estimated by the board of directors for the coming year. [PL 1969, c. 561 (NEW).]

§4439. Plan of operation

1. Submission.

A. The association shall submit to the superintendent a plan of operation and any amendments thereto necessary or suitable to assure the fair, reasonable and equitable administration of the association. The plan of operation and any amendments thereto shall become effective upon approval in writing by the superintendent. [PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

B. If the association fails to submit a suitable plan of operation within 90 days following May 9, 1970 or if at any time thereafter the association fails to submit suitable amendments to the plan, the superintendent shall, after notice and hearing, adopt and promulgate such reasonable rules as are necessary or advisable to effectuate this subchapter. Such rules shall continue in force until

modified by the superintendent or superseded by a plan submitted by the association and approved by the superintendent. [PL 1973, c. 625, §161 (AMD).]
[PL 1973, c. 625, §161 (AMD).]

2. Complying. All member insurers shall comply with the plan of operation.
[PL 1969, c. 561 (NEW).]

3. Plan. The plan of operation shall:

A. Establish the procedures whereby all the powers and duties of the association under section 4438 will be performed. [PL 1969, c. 561 (NEW).]

B. Establish procedures for handling assets of the association. [PL 1969, c. 561 (NEW).]

C. Establish the amount and method of reimbursing members of the board of directors under section 4437. [PL 1969, c. 561 (NEW).]

D. Establish procedures by which claims may be filed with the association and establish acceptable forms of proof of covered claims. Notice of claims to the receiver or liquidator of the insolvent insurer shall be deemed notice to the association or its agent and a list of such claims shall be periodically submitted to the association or similar organization in another state by the receiver or liquidator. [PL 1969, c. 561 (NEW).]

E. Establish regular places and times for meetings of the board of directors. [PL 1969, c. 561 (NEW).]

F. Establish procedures for records to be kept of all financial transactions of the association, its agents, and the board of directors. [PL 1969, c. 561 (NEW).]

H. Establish the procedures whereby selections for the board of directors will be submitted to the superintendent. [PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

I. Contain additional provisions necessary or proper for the execution of the powers and duties of the association. [PL 1969, c. 561 (NEW).]
[PL 1973, c. 585, §12 (AMD).]

4. Provisions. The plan of operation may provide that any or all powers and duties of the association, except those under section 4438, subsection 1, paragraph C, and section 4438, subsection 2, paragraph B, are delegated to a corporation, association or other organization which performs or will perform functions similar to those of the association, or its equivalent, in 2 or more states. Such a corporation, association or organization shall be reimbursed as a servicing facility would be reimbursed and shall be paid for its performance of any other functions of the association. A delegation under this subsection shall take effect only with the approval of both the board of directors and the superintendent, and may be made only to a corporation, association or organization which extends protection not substantially less favorable and effective than that provided by this subchapter.

§4440. Assessment of member insurers

1. Proportion. The assessments of each member insurer provided for under section 4438 must be in the proportion that the net direct written premiums of the member insurer for the calendar year preceding the assessment on the kinds of insurance in the account bears to the net direct written

premiums of all member insurers for the same calendar year on the kinds of insurance in the account, except that assessments to cover a shortfall in any account are determined in accordance with section 4440-A. In the case of a withdrawn insurer, the average of its net direct written premium for the 5 calendar years prior to withdrawal, excluding premium on business written as a workers' compensation residual market servicing carrier for assessments made on or after January 1, 1996, must be used as its assessment base for any year following withdrawal in which the insurer has no net direct written premium.

[PL 1995, c. 289, §16 (AMD).]

2. Notification. Each member insurer shall be notified of the assessment not later than 30 days before it is due.

[PL 1969, c. 561 (NEW).]

3. Limitation; types of assessments. Assessments shall be made as follows.

A. Each member insurer may be assessed in any calendar year on any account an amount up to 2% of that member insurer's net direct written premiums for the next preceding calendar year on the kinds of insurance in the account for purposes of paying claims and expenses of that account. [PL 1989, c. 67, §7 (NEW).]

B. To the extent that the maximum 2% has not been assessed, an assessment of up to that member's proportionate share of the applicable maximum as set forth in this paragraph shall be assessed when immediately necessary for the payment of claims and expenses. Any amount drawn by the association under any line of credit shall be considered a payment toward the member insurer's obligation provided for in this section. The maximum line of credit or preinsolvency assessment for each account shall be as follows:

| Account | Maximum |
|-----------------------|-------------|
| Workers' compensation | \$2,000,000 |
| Automobile | \$1,700,000 |
| All other | \$1,300,000 |

(1) The association shall obtain a line of credit for the benefit of each account, in an amount not to exceed the applicable maximum to ensure the immediate availability of funds for purposes of future claims and expenses attributable to an insurer insolvency in that account. The line of credit shall be obtained from qualified financial institutions. At no time may a qualified financial institution participate in the line of credit in excess of 20% of its equity capital. The line of credit shall provide for a 30-day notice of termination or nonrenewal to the superintendent and the association and shall provide funding to the association within one business day of receipt of written notice from the superintendent of an insolvent insurer in that account as defined in section 4435, subsection 5. Each member insurer upon receipt of notice from the association shall make immediate payment for its proportionate share of the amount borrowed based on the premium for the preceding calendar year. The line of credit provided for in this paragraph shall be subject to prior review and approval by the superintendent at the time of origination and any subsequent renewal.

(2) If the association cannot obtain a line of credit, a member insurer may obtain a line of credit from a qualified financial institution or may extend a line of credit itself directly to and for the benefit of the member insurer's account by submitting to the association a duly authorized and executed line of credit agreement providing that the member insurer shall provide funding to the association under the line of credit within one business day of receipt of a written notice from the superintendent of an insolvent insurer as defined in section 4435, subsection 5, and receipt of a written request from the association for a drawdown under the line of credit. The line of credit agreement shall be subject to prior review and approval by the superintendent at

the time of origination and any subsequent renewal. It shall include such commercially reasonable provisions as the association or the superintendent may deem advisable, including a provision that the line of credit is irrevocable or for a stated period of time and provides for a 30-day notice to the association and the superintendent that the line is being terminated or not renewed. Any line of credit issued under this paragraph may be replaced with another line of credit and the existing line of credit shall be released by the association once a substitute line of credit has been provided or the assessment provided for in this paragraph has been paid.

(3) If a line of credit is not given as provided for in subparagraph (2), the member insurer shall be responsible for payment of an assessment of up to that member's proportionate share of the applicable maximum as set forth in this paragraph which shall be paid into a preinsolvency assessment fund in each account. Funds in each account shall only be used for the payment of claims and expenses of an insolvent insurer in that account.

(4) All materials and information submitted or considered under this paragraph shall be matters of public record. [PL 1989, c. 67, §7 (NEW).]

[PL 1989, c. 67, §7 (RPR).]

4. Exemptions. The association may exempt or defer, in whole or in part, the assessment of any member insurer, if the assessment would cause the member insurer's financial statement to reflect amounts of capital or surplus less than the minimum amounts required for a certificate of authority by any jurisdiction in which the member insurer is authorized to transact insurance. It is a condition of any deferral that during the period of deferment no dividends may be paid by the member insurer to its shareholders or policyholders. A deferred assessment is paid when payment will not reduce capital or surplus below required levels, and the association shall then refund to its other member insurers an amount equal to the deferred assessment in the proportions corresponding to the increases in their assessments by virtue of that deferment.

[PL 1985, c. 279, §6 (AMD).]

5. Set off. Each member insurer may set off against any assessment, authorized payments made on covered claims and expenses incurred in the payment of such claims by the member insurer, if they are chargeable to the account for which the assessment is made.

[PL 1969, c. 561 (NEW).]

6. Delinquency. Delinquent assessments, except as provided in subsection 4, shall bear interest at the rate of 8% per annum, computed from the due date of the assessment.

§4440-A. Special assessment

1. Special assessment. If the maximum assessment, together with the other assets of the association in any account, does not provide in any one year in any account an amount sufficient to make all necessary payments from that account, the shortfall shall be assessed as an obligation of the other accounts of the association, with each member insurer's assessment to be in the proportion that its net direct written premiums for the calendar year preceding the assessment on the kinds of insurance in the accounts to be assessed bears to the total net direct written premiums of all member insurers for the same calendar year on the kinds of insurance in those accounts. The total of assessments against a member insurer under this section and section 4440 for any account in any one calendar year shall not exceed 2% of that member's net direct written premium on the kinds of insurance written in that account for the next preceding calendar year.

[PL 1989, c. 67, §8 (NEW).]

2. Limit on assessment. Subject to the 2% limitation, an assessment made under this section may not exceed 5% of the average of a member insurer's net income of the 3 years prior to the year in which the assessment is made for any member insurer:

A. That has surplus of less than \$15,000,000 and either a ratio of total net direct written premium to total surplus greater than 2 or net income of less than \$250,000 for the year preceding the assessment. For purposes of this subsection, "net income" means the sum of underwriting income and investment income, net of dividends to policyholders and federal and foreign income taxes incurred, as reported on the insurer's annual statement filed with the superintendent. "Total surplus" means surplus as regards policyholders, as reported on the insurer's annual statement filed with the superintendent; or [PL 1995, c. 289, §17 (AMD).]

B. That has a surplus of less than \$15,000,000 and has fewer than 3,000 policyholders. [PL 1995, c. 289, §17 (AMD).]
[PL 1995, c. 289, §17 (AMD).]

3. Repealer.

[PL 1989, c. 67, §8 (NEW); PL 1989, c. 751, §5 (RP).]

4. Notification to Legislature. Within 7 days after the board of directors votes to levy an assessment under this section, the chair of the board of directors shall notify the chairs of the legislative committee having jurisdiction over insurance matters that the association has voted to make such an assessment. The notification must:

A. Be in writing; and [PL 1989, c. 751, §6 (NEW).]

B. Include the total amount to be assessed against each account and the name of the account to which the assessed funds will be credited. [PL 1989, c. 751, §6 (NEW).]

§4441. Duties and powers of the superintendent

1. Duties and powers. The superintendent shall:

A. Notify the association of the existence of an insolvent insurer not later than 3 days after the superintendent receives notice of the determination of the insolvency. The association shall be entitled to a copy of any complaint seeking an order of liquidation with a finding of insolvency against a member insurer which is domiciled in this State at the same time that the complaint is filed with a court of competent jurisdiction; and [PL 1987, c. 707, §9 (AMD).]

B. Upon request of the board of directors, provide the association with a statement of the net direct written premiums of each member insurer. [PL 1969, c. 561 (NEW).]
[PL 1987, c. 707, §9 (AMD).]

2. Permission. The superintendent may:

A. Require that the association notify the insureds of the insolvent insurer and any other interested parties of the order of liquidation with a finding of insolvency and of their rights under this subchapter. Such notifications must be by mail at their last known addresses, where available, but

if required information for notification by mail is not available, notice by publication in a newspaper of general circulation in this State is sufficient. Any notification given under this paragraph must prominently display the date by which all claims must be filed with the association. [PL 2001, c. 478, §10 (AMD); PL 2001, c. 478, §11 (AFF).]

B. Suspend or revoke, after notice and hearing, the certificate of authority to transact insurance in this State of any member insurer which fails to pay an assessment when due or fails to comply with the plan of operation. [PL 1969, c. 561 (NEW).]

C. Revoke the designation of any servicing facility if the superintendent finds claims are being handled unsatisfactorily. [RR 2021, c. 1, Pt. B, §387 (COR).]

§4442. Effect of paid claims

Any person recovering on a covered claim under this subchapter must be deemed to have assigned the person's rights under the policy to the association to the extent of the person's recovery from the association. Every insured or claimant seeking the protection of this subchapter shall cooperate with the association to the same extent as such person would have been required to cooperate with the insolvent insurer. The association has no cause of action against the insured of the insolvent insurer for any sums it has paid out except such causes of action as the insolvent insurer would have had if such sums had been paid by the insolvent insurer. In the case of an insolvent insurer operating on a plan with assessment liability, payment of claims by the association does not operate to reduce the liability of insureds to the receiver, liquidator or statutory successor for unpaid assessments. [RR 2021, c. 1, Pt. B, §388 (COR).]

The receiver, liquidator or statutory successor of an insolvent insurer shall be bound by settlements of covered claims by the association or a similar organization in another state. The court having jurisdiction shall grant such claims priority equal to that which the claimant would have been entitled in the absence of this subchapter against the assets of the insolvent insurer. The expenses of the association or similar organization in handling claims shall be accorded the same priority as the liquidator's expenses. [PL 1969, c. 561 (NEW).]

The association shall periodically file with the receiver or liquidator of the insolvent insurer statements of the covered claims paid by the association and estimates of anticipated claims on the association, which shall preserve the rights of the association against the assets of the insolvent insurer. [PL 1969, c. 561 (NEW).]

§4443. Nonduplication of recovery

1. Insurance policy. Any person having a claim against an insurer under any provision in an insurance policy, other than that of an insolvent insurer, which is also a covered claim, shall be required to exhaust first the person's right under the policy. Any amount otherwise payable on a covered claim under this subchapter shall be reduced by the amount of any recovery under the insurance policy. [PL 1987, c. 707, §10 (NEW).]

2. Governmental insurance. Any person having a claim or legal right of recovery under any governmental insurance, which is also a covered claim, shall be required to exhaust first that person's right under that insurance. Any amount payable on a covered claim under this subchapter shall be reduced by the amount of any recovery under that insurance.

[PL 1987, c. 707, §10 (NEW).]

3. Insurance guaranty association. Any person having a claim which may be recovered from more than one insurance guaranty association or its equivalent shall seek recovery first from the association of the place of residence of the insured, except that, if it is a first party claim for damage to property with a permanent location, that person shall seek recovery first from the association of the location of the property, and, if it is a workers' compensation claim, that person shall seek recovery first from the association of the residence of the claimant. Any recovery under this subchapter shall be reduced by the amount of recovery from any other insurance guaranty association or its equivalent.

§4444. Prevention of insolvencies

To aid in the detection and prevention of insurer insolvencies: [PL 1969, c. 561 (NEW).]

1. Notification. The board of directors, upon majority vote, shall notify the superintendent of any information indicating that any member insurer may be insolvent or in a financial condition hazardous to policyholders or the public.

[PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

2. Examination. The board of directors may, upon majority vote, request that the superintendent order an examination of any member insurer which the board in good faith believes may be in a financial condition hazardous to policyholders or the public. Within 30 days of the receipt of such request, the superintendent shall begin such examination. The cost of the examination shall be paid by the association and the examination report shall be treated as are other examination reports. In no event shall the examination report, or any portion thereof, be released to the board of directors prior to its release to the public, but this shall not preclude the superintendent from complying with subsection 3. The superintendent shall notify the board of directors when the examination is completed. The request for an examination shall be kept on file by the superintendent but shall not be open to public inspection prior to the release of the examination report, or part thereof to the public, in accordance with section 227.

[PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

3. Report. The superintendent shall report to the board of directors when the superintendent has reasonable cause to believe that any member insurer examined or being examined at the request of the board of directors may be insolvent or in a financial condition hazardous to policyholders or the public. [RR 2021, c. 1, Pt. B, §389 (COR).]

4. Recommendations. The board of directors may, upon majority vote, make reports and recommendations to the superintendent upon any matter germane to the solvency, liquidation, rehabilitation or conservation of any member insurer. Such reports and recommendations shall not be considered public documents or be open to public inspection.

[PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

5. Prevention. The board of directors may, upon majority vote, make recommendations to the superintendent for the detection and prevention of insurer insolvencies.

[PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

6. Report. The board of directors shall, at the conclusion of any insurer insolvency in which the association was obligated to pay covered claims, prepare a report on the history and causes of such insolvency, based on the information available to the association, and submit such report to the superintendent.

§4445. Examination of the association

The association shall be subject to examination and regulation by the superintendent. [PL 1969, c. 561 (NEW); PL 1973, c. 585, §12 (AMD).]

The association is also subject to audit, enforcement and monitoring by the Workers' Compensation Board with respect to workers' compensation claims as provided for in the Maine Workers' Compensation Act of 1992. Notwithstanding any other provision of law, the association is liable for the payment of any compensation, interest, penalty or other obligation determined to be due by the Workers' Compensation Board as provided for in the Maine Workers' Compensation Act of 1992. §4447. Recognition of assessment in rates

The rates and premiums charged for insurance policies to which this subchapter applies shall include amounts sufficient to recoup a sum equal to the amounts paid to the association by the member insurer less any amounts returned to the member insurer by the association, and such rates shall not be deemed excessive because they contain an amount reasonably calculated to recoup assessments paid by the member insurer. [PL 1969, c. 561 (NEW).]

PL 1969, c. 561 (NEW).

§4448. Immunity

There is no liability on the part of and no cause of action of any nature arises against any member insurer, the association or its agents or employees, the board of directors, or the superintendent or the superintendent's representatives for any action taken by them in the performance of their powers and duties under this subchapter. All proceedings in which the insolvent insurer is a party or is obligated to defend a party in any court in this State shall be stayed for 60 days from the date the insolvency is determined, and may be stayed by the Superior Court for additional time solely as is deemed necessary to permit proper defense by the association of all pending causes of action. The association shall provide to the superintendent a copy of any such request for stay and supporting documents filed with the court. As to any covered

claims arising from a judgment under any decision, verdict or finding based on the default of the insolvent insurer or its failure to defend an insured, the association either on its own behalf or on behalf of such insured may apply to have such judgment, order, decision, verdict or finding set aside by the same court or administrator that made such judgment, order, decision, verdict or finding and shall be permitted to defend against such claim on the merits. [PL 1985, c. 279, §8 (AMD).]

The liquidator, receiver or statutory successor of an insolvent insurer covered by this subchapter shall permit access by the board of directors, or its authorized representative, to those records of the insolvent insurer which are necessary for the board to carry out its functions under this subchapter with regard to covered claims. The liquidator, receiver or statutory successor shall provide the board or its representative with copies of these records upon request by the board and at the expense of the board. [PL 1987, c. 707, §12 (NEW).]

This section does not authorize a stay of proceedings before the Workers' Compensation Board, or of proceedings in Superior Court to enforce orders of the Workers' Compensation Board. A stay of workers' compensation proceedings before the Workers' Compensation Board or the Superior Court may be granted if otherwise authorized by law, provided that good cause for a stay exists and that reasonable diligence was exhibited by the insurer, the employer, the association and their counsel to proceed with the proceeding prior to the insolvency. §4450. Termination of association

The superintendent shall by order terminate the operation of the association as to any kind of insurance with respect to which the superintendent has found, after notice and hearing, that there is in effect a statutory plan of the United States Government to avoid excessive delay or financial loss to claimants or policyholders because of insurer insolvency and that provides for protection and benefits to residents of this State not materially less favorable than provided under this subchapter. Such order for termination continues the operation of this subchapter with respect to prior insurer insolvencies not covered by such plan. The order must also provide for a proportionate distribution of the assets of the association to insurers that will cease to be members of the association on the effective date of the order. CHAPTER 62

MAINE LIFE AND HEALTH INSURANCE GUARANTY ASSOCIATION

§4601. Short title

This chapter may be known and cited as the Maine Life and Health Insurance Guaranty Association Act. [PL 2005, c. 346, §1 (AMD); PL 2005, c. 346, §16 (AFF).]

SECTION HISTORY

PL 1983, c. 846 (NEW). PL 2005, c. 346, §1 (AMD). PL 2005, c. 346, §16 (AFF).

§4602. Purpose

The purpose of this chapter, subject to certain limitations, is to maintain public confidence in the promises of insurers by providing a mechanism for protecting policyholders, insureds, beneficiaries, annuitants, payees and assignees of life insurance policies, health insurance policies, annuity contracts and supplemental contracts against failure in the performance of fair and equitable contractual obligations due to the impairment or insolvency of the member insurer issuing these policies or contracts. To provide this protection: [PL 2005, c. 346, §1 (AMD); PL 2005, c. 346, §16 (AFF).]

1. Creation of association. An association of insurers is created to enable the guaranty of payment of benefits and of continuation of coverages as limited by this chapter; [PL 2005, c. 346, §1 (AMD); PL 2005, c. 346, §16 (AFF).]

2. Assessment of members. Members of the association are subject to assessment to provide funds to carry out the purpose of this chapter; and [PL 1983, c. 846 (NEW).]

3. Assistance to superintendent. The association is authorized to assist the superintendent, in the prescribed manner, in the detection and prevention of insurer impairments and insolvencies. [PL 2005, c. 346, §1 (AMD); PL 2005, c. 346, §16 (AFF).]

SECTION HISTORY

PL 1983, c. 846 (NEW). PL 2005, c. 346, §1 (AMD). PL 2005, c. 346, §16 (AFF).

§4603. Scope

1. Application. This chapter applies to direct nongroup life insurance policies, health insurance policies, annuity contracts and contracts supplemental to life and health insurance policies and annuity contracts and to certificates under direct group life insurance policies, health insurance policies and annuity contracts, except as limited by this chapter. For the purposes of this chapter:

A. Health insurance policies include individual and group health maintenance organization enrollment contracts, and health maintenance organizations are considered to be health insurers; [PL 2017, c. 382, §2 (NEW).]

B. Annuity contracts and certificates under group annuity contracts include allocated funding agreements, structured settlement annuities and any immediate or deferred annuity contracts; and [PL 2017, c. 382, §2 (NEW).]

C. Benefits provided by a long-term care rider to a life insurance policy or annuity contract are considered the same type of benefits as the base life insurance policy or annuity contract to which the rider relates. [PL 2017, c. 382, §2 (NEW).]

[PL 2017, c. 382, §2 (AMD).]

1-A. Persons covered. This chapter provides coverage for the policies and contracts specified in subsection 1:

A. To any person, regardless of where the person resides, except for a nonresident certificate holder under a group policy or contract, who is the beneficiary, assignee or payee, including a health care provider rendering services covered under a health insurance policy or certificate, of a person covered under paragraph B; [PL 2017, c. 382, §3 (AMD).]

B. To any person who owns, or is a certificate holder or enrollee under, a policy or contract specified in subsection 1, other than a structured settlement annuity, who:

(1) Is a resident; or

(2) Is not a resident, if all the following conditions are met:

(a) The insurer that issued the policy or contract is domiciled in this State;

- (b) The insurer never held a license or certificate of authority in the state in which the person resides;
 - (c) The state in which the person resides has an association similar to the Maine Life and Health Insurance Guaranty Association; and
 - (d) The person is not eligible for coverage by the association in that state; and [PL 2017, c. 382, §3 (AMD).]
- C. To any person who is a payee under a structured settlement annuity, or to a beneficiary or beneficiaries of a payee if the payee is deceased, if the payee:
- (1) Is a resident, regardless of where the contract owner resides; or
 - (2) Is not a resident, if all of the conditions of either division (a) or (b) are met:
 - (a) The contract owner of the structured settlement annuity is a resident; or
 - (b) The contract owner of the structured settlement annuity is not a resident, but:
 - (i) The insurer that issued the structured settlement annuity is domiciled in this State;
 - (ii) The state in which the contract owner resides has an association similar to the association created by this chapter; and
 - (iii) The payee or beneficiary and the contract owner are not eligible for coverage by the association of the state in which the payee or contract owner resides.

This chapter does not provide coverage to a person who is a payee or beneficiary of a contract owner who is a resident of this State if the payee or beneficiary is afforded any coverage by a similar association of another state. [PL 2005, c. 346, §2 (NEW); PL 2005, c. 346, §16 (AFF).]

This chapter is intended to provide coverage to a person who is a resident, and, in special circumstances as provided by this section, to a person who is not a resident. In order to avoid duplicate coverage, if a person who would otherwise receive coverage under this chapter is provided coverage under the laws of any other state, that person may not be provided coverage under this chapter. In determining the application of the provisions of this subsection in a situation in which a person could be covered by the association of more than one state, whether as an owner, payee, beneficiary, enrollee or assignee, this chapter must be construed in conjunction with other state laws to result in coverage by only one association.

[PL 2017, c. 382, §3 (AMD).]

2. Exceptions. This chapter does not apply to:

- A. That portion of a policy or contract not guaranteed by an insurer; [PL 2005, c. 346, §2 (AMD); PL 2005, c. 346, §16 (AFF).]
- B. Any policies or contracts, or any part of these policies or contracts, under which the risk is borne by the policyholder; [PL 2005, c. 346, §2 (AMD); PL 2005, c. 346, §16 (AFF).]

- (2) On or after the date on which the member insurer becomes an impaired insurer or becomes an insolvent insurer under this chapter, whichever is earlier, exceeds the rate of interest determined by subtracting 3 percentage points from Moody's Corporate Bond Yield Average as most recently available; [PL 2017, c. 382, §4 (AMD).]

If a policy's or contract's interest or changes in value are credited less frequently than annually, then for purposes of determining the values that have been credited and are not subject to forfeiture under this paragraph, the interest or change in value determined by using the procedures defined in the policy or contract will be credited as if the contractual date of crediting interest or changing values was the date of impairment or insolvency, whichever is earlier, and will not be subject to forfeiture; and [PL 2017, c. 382, §7 (AMD).]

3. Benefits; limitations of coverage. The benefits that the association may become obligated to cover may not exceed the least of:

B. With respect to one life, regardless of the number of policies or contracts:

(1) Three hundred thousand dollars in life insurance death benefits, but not more than \$100,000 in net cash surrender and net cash withdrawal values for life insurance;

C. [PL 2005, c. 346, §6 (RP); PL 2005, c. 346, §16 (AFF).]

[PL 2017, c. 382, §16 (AMD).]

2. Foreign or alien impaired insurer; association action prior to final order of liquidation, rehabilitation or conservation.

[PL 2005, c. 346, §6 (RP); PL 2005, c. 346, §16 (AFF).]

3. Domestic impaired insurer under final order of liquidation or rehabilitation; association action.

[PL 2005, c. 346, §6 (RP); PL 2005, c. 346, §16 (AFF).]

3-A. Impaired and insolvent insurer; association action. If a member insurer is an insolvent insurer, the association may, in its discretion, either:

A. Take the following actions:

(1) Guarantee, assume, reissue or reinsure or cause to be guaranteed, assumed, reissued or reinsured the policies or contracts of the insolvent insurer, or assure payment of the contractual obligations of the insolvent insurer; and

(2) Provide money, pledges, loans, notes, guarantees or other means reasonably necessary to discharge the association's duties; or [PL 2017, c. 382, §17 (AMD).]

B. Provide benefits and coverages in accordance with this paragraph.

(1) With respect to life and health insurance policies and annuities, the association shall assure payment of benefits that would have been payable under the policies or contracts of the insolvent insurer, for claims incurred:

- (a) With respect to group policies and contracts, not later than the earlier of the next renewal date under those policies or contracts or 45 days, but in no event less than 30 days, after the date on which the association becomes obligated with respect to the policies and contracts; and
- (b) With respect to nongroup policies, contracts and annuities, not later than the earlier of the next renewal date if any under the policies or contracts and one year, but in no event less than 30 days, after the date on which the association becomes obligated with respect to the policies or contracts.
- (2) The association shall make diligent efforts to provide all known insureds, enrollees or annuitants for nongroup policies and contracts, or group policy or contract owners with respect to group policies and contracts, 30 days' notice of the termination of the benefits provided.
- (3) With respect to nongroup life and health insurance policies and annuities covered by the association, the association shall make available to each known insured, enrollee or annuitant, or owner if other than the insured, enrollee or annuitant, and, with respect to an individual formerly insured, formerly enrolled or formerly an annuitant under a group policy or contract who is not eligible for replacement group coverage, make available substitute coverage on an individual basis in accordance with the provisions of subparagraph (4), if the insureds, enrollees or annuitants had a right under law or the terminated policy or annuity to convert coverage to individual coverage or to continue an individual policy or annuity in force until a specified age or for a specified time, during which the insurer had no right unilaterally to make changes in any provision of the policy or annuity or had a right only to make changes in premium by class.
- (4) In providing substitute coverage, the association may offer either to reissue the terminated coverage or to issue an alternative policy in accordance with the following:
- (a) Alternative or reissued policies must be offered without requiring evidence of insurability and may not provide for any waiting period or exclusion that would not have applied under the terminated policy;
- (b) The association may reinsure any alternative or reissued policy;
- (c) Alternative policies adopted by the association and any amendments to reissued policies are subject to the approval of the superintendent. The association may adopt alternative policies of various types for future issuance without regard to any particular impairment or insolvency;
- (d) Alternative policies must contain at least the minimum statutory provisions required in this State and provide benefits that are not unreasonable in relation to the premium charged. The association shall set the premium in accordance with an actuarially justified table of rates that it adopts, subject to prior approval of the superintendent. The premium must reflect the amount of insurance to be provided and the age and class of risk of each insured, but may not reflect any changes in the health of the insured after the original policy was last underwritten; and
- (e) Any alternative policy issued by the association must provide coverage of a type similar to that of the policy issued by the impaired or insolvent insurer, as determined by the association.
- (5) If the association elects to reissue terminated coverage at a premium rate different from that charged under the terminated policy, the premium must be actuarially justified and set by the association in accordance with the amount of coverage provided and the age and class of risk, subject to approval of the superintendent.

(6) The association's obligations with respect to coverage under any policy of the impaired or insolvent insurer or under any reissued or alternative policy must cease on the date the coverage or policy is replaced by another similar policy by the policy owner, the insured, the enrollee or the association.

(7) When proceeding under this paragraph with respect to a policy or contract carrying guaranteed minimum interest rates, the association shall assure the payment or crediting of a rate of interest consistent with section 4603.

(8) Nonpayment of premiums within 31 days after the date required under the terms of any guaranteed, assumed, alternative or reissued policy or contract or substitute coverage terminates the association's obligations under the policy or coverage under this chapter with respect to the policy or coverage, except with respect to any claims incurred or any net cash surrender value that may be due in accordance with the provisions of this chapter.

(9) Premiums due for coverage after entry of an order of liquidation of an insolvent insurer belong to and are payable at the direction of the association, and the association is liable for unearned premiums due to policy or contract owners arising after the entry of the order.

(10) The protection provided by this chapter does not apply when any guaranty protection is provided to residents of this State by the laws of the domiciliary state or jurisdiction of the impaired or insolvent insurer other than this State. [PL 2017, c. 382, §17 (AMD).]

[PL 2017, c. 382, §17 (AMD).]

5-A. Policy liens; contract liens; moratoriums on payments. In carrying out its duties under subsection 3-A, the association may:

A. Subject to approval by a court in this State, impose permanent policy or contract liens in connection with a guarantee, assumption or reinsurance agreement, if the association finds that the amounts that can be assessed under this chapter are less than the amounts needed to assure full and prompt performance of the association's duties under this chapter or that the economic or financial conditions as they affect member insurers are sufficiently adverse to render the imposition of such permanent policy or contract liens to be in the public interest; and [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

B. Subject to approval by a court in this State, impose temporary moratoriums or liens on payments of cash values and policy loans or on any other right to withdraw funds held in conjunction with policies or contracts, in addition to any contractual provisions for deferral of cash or policy loan value. In addition, in the event of a temporary moratorium or moratorium charge imposed by the receivership court on payment of cash values or policy loans or on any other right to withdraw funds held in conjunction with policies or contracts, out of the assets of the impaired or insolvent insurer, the association may defer the payment of cash values, policy loans or other rights by the association for the period of the moratorium or moratorium charge imposed by the receivership court, except for claims covered by the association to be paid in accordance with a hardship procedure established by the liquidator or rehabilitator and approved by the receivership court. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

[PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

6. Association liability. The association has no liability under this section for any covered policy of a foreign or alien insurer whose domiciliary jurisdiction or state of entry provides by statute for

residents of this State protection substantially similar to that provided by this chapter for residents of other states.

[PL 2005, c. 346, §6 (AMD); PL 2005, c. 346, §16 (AFF).]

6-A. Failure to act. If the association fails to act within a reasonable period of time with respect to an insolvent insurer, as provided in subsection 3-A, the superintendent has the powers and duties of the association under this chapter with respect to the insolvent insurer.

[PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

6-B. Retention of deposit; final order of liquidation or rehabilitation plan. A deposit in this State, held pursuant to law or required by the superintendent for the benefit of creditors, including policy owners, not turned over to the domiciliary liquidator upon the entry of a final order of liquidation or order approving a rehabilitation plan of a member insurer domiciled in this State or in a reciprocal state, pursuant to this Title must be promptly paid to the association. The association is entitled to retain a portion of any amount so paid to it equal to the percentage determined by dividing the aggregate amount of policy owners' claims related to that insolvency for which the association has provided statutory benefits by the aggregate amount of all policy owners' claims in this State related to that insolvency and shall remit to the domiciliary receiver the amount so paid to the association and not retained pursuant to this subsection. Any amount so paid to the association less the amount not retained by it must be treated as a distribution of estate assets pursuant to chapter 57 or similar provision of the state of domicile of the impaired or insolvent insurer.

[PL 2017, c. 382, §18 (AMD).]

7. Assistance and advice to superintendent. The association may render assistance and advice to the superintendent, upon the superintendent's request, concerning rehabilitation, payment of claims, continuations of coverage or the performance of other contractual obligations of any impaired or insolvent insurer.

[PL 2005, c. 346, §6 (AMD); PL 2005, c. 346, §16 (AFF).]

8. Standing to appear before court. The association has standing to appear or intervene before any court or agency in this State with jurisdiction over an impaired or insolvent insurer concerning which the association is or may become obligated under this chapter or with jurisdiction over any person or property against whom the association may have rights through subrogation or otherwise. This standing extends to all matters germane to the powers and duties of the association, including, but not limited to, proposals for reinsuring, reissuing, modifying or guaranteeing the covered policies or contracts and contractual obligations of the impaired or insolvent insurer and the determination of the covered policies or contracts and contractual obligations. The association also has the right to appear or intervene before a court or agency in another state with jurisdiction over an impaired or insolvent insurer for which the association is or may become obligated or with jurisdiction over any person or property against whom the association may have rights through subrogation or otherwise.

[PL 2017, c. 382, §19 (AMD).]

9. Subrogation rights. Any person receiving benefits under this chapter is deemed to have assigned that person's rights under, and any causes of action against any person for losses arising under, resulting from or otherwise relating to, the covered policy or contract to the association to the extent of the benefits received because of this chapter whether the benefits are payments of or on account of contractual obligations, continuation of coverage or provision of substitute or alternative coverages. The association may require an assignment to it of these rights and cause of action by any payee, policy or contract owner, beneficiary, insured, enrollee or annuitant as a condition precedent to the receipt of any rights or benefits conferred by this chapter upon that person. The association is subrogated to these rights against the assets of any impaired or insolvent insurer.

The subrogation rights of the association under this subsection must have the same priority against the assets of the impaired or insolvent insurer as that possessed by the person entitled to receive benefits under this chapter.

In addition, the association has all common law rights of subrogation and any other equitable or legal remedy that would have been available to the impaired or insolvent insurer or owner, beneficiary, insured, enrollee or payee of a policy or contract with respect to the policy or contract, including without limitation, in the case of a structured settlement annuity, any rights of the owner, beneficiary or payee of the annuity, to the extent of benefits received pursuant to this chapter, against a person originally or by succession responsible for the losses arising from the personal injury relating to the annuity or payment therefor, excepting any such person responsible solely by reason of serving as an assignee in respect of a qualified assignment under Section 130 of the federal Internal Revenue Code.

If the provisions of this subsection are invalid or ineffective with respect to any person or claim for any reason, the amount payable by the association with respect to the related covered obligations must be reduced by the amount realized by any other person with respect to the person or claim that is attributable to the policies or portion thereof covered by the association.

If the association has provided benefits with respect to a covered obligation and a person recovers amounts as to which the association has rights as described in this subsection, the person shall pay to the association the portion of the recovery attributable to the policies or portion thereof covered by the association.

10. Association's contractual obligation; impaired insurer.

[PL 2005, c. 346, §6 (RP); PL 2005, c. 346, §16 (AFF).]

11. Other powers. The association may:

A. Enter into such contracts as are necessary or proper to carry out the provisions and purposes of this chapter; [PL 1983, c. 846 (NEW).]

B. Subject to the provisions of section 4617, sue or be sued, including taking any legal actions necessary or proper for recovery of any unpaid assessments under section 4609 or to settle claims or potential claims against it; [PL 2005, c. 346, §6 (AMD); PL 2005, c. 346, §16 (AFF).]

C. Borrow money to effect the purposes of this chapter. Any notes or other evidence of indebtedness of the association not in default are legal investments for domestic member insurers and may be carried as admitted assets; [PL 2017, c. 382, §20 (AMD).]

D. Employ or retain such persons as are necessary or appropriate to handle the financial transactions of the association and to perform such other functions as become necessary or proper under this chapter; [PL 2005, c. 346, §6 (AMD); PL 2005, c. 346, §16 (AFF).]

E. Negotiate and contract with any liquidator, rehabilitator, conservator or ancillary receiver to carry out the powers and duties of the association; [PL 1983, c. 846 (NEW).]

F. Take such legal action as may be necessary to avoid or recover payment of improper claims; [PL 2005, c. 346, §6 (AMD); PL 2005, c. 346, §16 (AFF).]

G. Exercise, for the purposes of this chapter and to the extent approved by the superintendent, the powers of a domestic life or health insurer or health maintenance organization, but in no case may the association issue policies or contracts other than those issued to perform the contractual obligations of the impaired insurer; [PL 2017, c. 382, §20 (AMD).]

H. Organize itself as a corporation or in other legal form permitted by the laws of this State; [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

I. Request information from a person seeking coverage from the association in order to aid the association in determining its obligations under this chapter with respect to the person, and the person shall promptly comply with the request; [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

J. Join an organization of one or more other state associations of similar purposes, to further the purposes and administer the powers and duties of the association; [PL 2017, c. 382, §21 (AMD).]

J-1. In accordance with the terms and conditions of the policy or contract, if not otherwise prohibited by applicable law, file for actuarially justified rate or premium increases for any policy or contract for which it provides coverage under this chapter; and [PL 2017, c. 382, §22 (NEW).]

K. Take necessary or appropriate action to discharge its duties and obligations under this chapter or to exercise its powers under this chapter. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

[PL 2017, c. 382, §§20-22 (AMD).]

12. Reinsurance of obligations; election by association. At any time within one year after the date on which the association becomes responsible for the obligations of a member insurer, the association may elect to succeed to the rights and obligations of the member insurer that accrue on or after the coverage date and that relate to contracts covered in whole or in part by the association under any one or more indemnity reinsurance agreements entered into by the member insurer as a ceding insurer and selected by the association. However, the association may not exercise an election with respect to a reinsurance agreement if the receiver, rehabilitator or liquidator of the member insurer has previously and expressly disaffirmed the reinsurance agreement. The election is effected by a notice to the receiver, rehabilitator or liquidator and to the affected reinsurers. If the association makes an election, the following requirements apply with respect to the agreements selected by the association.

A. For contracts covered in whole or in part by the association, the association is responsible for all unpaid premiums due under the agreements for periods both before and after the coverage date and for the performance of all other obligations to be performed after the coverage date. The association may charge contracts covered in part by the association, through reasonable allocation methods, the costs for reinsurance in excess of the obligations of the association. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

B. The association is entitled to any amounts payable by the reinsurer under the agreements with respect to losses or events that occur in periods after the coverage date and that relate to contracts covered by the association in whole or in part, except that, upon receipt of any such amounts, the association is obliged to pay to the beneficiary under the policy or contract on account of which the amounts were paid a portion of the amount equal to the excess of the amount received by the association over the benefits paid by the association on account of the policy or contract less the retention of the impaired or insolvent insurer applicable to the loss or event. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

C. Within 30 days following the association's election, the association and each indemnity reinsurer shall calculate the net balance due to or from the association under each reinsurance agreement as of the date of the association's election, giving full credit to all items paid by either the member insurer or its receiver, rehabilitator or liquidator or the indemnity reinsurer during the period between the coverage date and the date of the association's election. Either the association or indemnity reinsurer shall pay the net balance due the other within 5 days of the completion of the calculation. If the receiver, rehabilitator or liquidator has received any amounts due the association pursuant to paragraph B, the receiver, rehabilitator or liquidator shall remit them to the association as promptly as practicable. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

D. If the association, within 60 days of the election, pays the premiums due for periods both before and after the coverage date that relate to contracts covered by the association in whole or in part,

the reinsurer is not entitled to terminate the reinsurance agreements insofar as the agreements relate to contracts covered by the association in whole or in part and is not entitled to set off any unpaid premium due for periods prior to the coverage date against amounts due the association. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

E. In the event the association transfers its obligations to another insurer and if the association and the other insurer agree, the other insurer must succeed to the rights and obligations of the association under this chapter effective as of the date agreed upon by the association and the other insurer and regardless of whether the association has made the election referred to in this subsection, except that:

- (1) The indemnity reinsurance agreements automatically terminate for new reinsurance unless the indemnity reinsurer and the other insurer agree to the contrary; and
- (2) The obligations described in this chapter no longer apply on and after the date the indemnity reinsurance agreement is transferred to the 3rd-party insurer.

This paragraph does not apply if the association has previously expressly determined in writing that it will not exercise the election. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

F. This subsection supersedes the provisions of any law of this State or of any affected reinsurance agreement that provides for or requires any payment of reinsurance proceeds, on account of losses or events that occur in periods after the coverage date, to the receiver, liquidator or rehabilitator of an insolvent insurer. The receiver, rehabilitator or liquidator is entitled to any amounts payable by the reinsurer under the reinsurance agreement with respect to losses or events that occur in periods prior to the coverage date subject to applicable set-off provisions. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

G. Except as otherwise expressly provided, this subsection does not alter or modify the terms and conditions of the indemnity reinsurance agreements of an insolvent insurer. This subsection may not be construed to abrogate or limit any rights of any reinsurer to claim that it is entitled to rescind a reinsurance agreement. This subsection may not be construed to give a policy owner, contract owner, enrollee, certificate holder or beneficiary an independent cause of action against an indemnity reinsurer that is not otherwise set forth in the indemnity reinsurance agreement. [PL 2017, c. 382, §23 (AMD).]

[PL 2017, c. 382, §23 (AMD).]

13. Discretion. The board of directors of the association has discretion and may exercise reasonable business judgment to determine the means by which the association is to provide the benefits of this chapter in an economical and efficient manner.

[PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

14. No additional benefits. When the association has arranged or offered to provide the benefits of this chapter to a covered person under a plan or arrangement that fulfills the association's obligations under this chapter, the person is not entitled to benefits from the association in addition to or other than those provided under the plan or arrangement.

[PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

15. Venue. Venue in a suit against the association arising under this chapter is Kennebec County. The association may not be required to give an appeal bond in an appeal that relates to a cause of action arising under this chapter.

[PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

16. Issuance of substitute coverage. In carrying out its duties in connection with guaranteeing, assuming, reissuing or reinsuring policies or contracts under this section, the association may issue substitute coverage for a policy or contract that provides an interest rate, crediting rate or similar factor determined by use of an index or other external reference stated in the policy or contract employed in

calculating returns or changes in value by issuing an alternative policy or contract in accordance with this subsection.

A. In lieu of the index or other external reference provided for in the original policy or contract, the alternative policy or contract must provide for:

- (1) A fixed interest rate;
- (2) Payment or dividends with minimum guarantees; or
- (3) A different method for calculating interest or changes in value. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

B. There may not be a requirement for evidence of insurability, waiting period or other exclusion that would not have applied under the replaced policy or contract. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]

C. The alternative policy or contract must be substantially similar to the replaced policy or contract in all other material terms. [PL 2005, c. 346, §6 (NEW); PL 2005, c. 346, §16 (AFF).]
[PL 2017, c. 382, §24 (AMD).]

§4609. Assessments

1. Assessments; collection. For the purpose of providing the funds necessary to carry out the powers and duties of the association, the board of directors shall assess the member insurers, separately for each account, at such times and for such amounts as the board finds necessary. Assessments are due not less than 30 days after prior written notice to the member insurers and accrue interest at 10% annually on and after the due date.

[PL 2005, c. 346, §7 (AMD); PL 2005, c. 346, §16 (AFF).]

2. Classes of assessments.

[PL 2005, c. 346, §7 (RP); PL 2005, c. 346, §16 (AFF).]

2-A. Classes of assessments. There are 2 classes of assessments, as set out in this subsection.

A. Class A assessments are authorized and called for the purpose of meeting administrative costs and other general expenses. Class A assessments may be authorized and called whether or not related to a particular impaired or insolvent insurer. [PL 2005, c. 346, §7 (NEW); PL 2005, c. 346, §16 (AFF).]

B. Class B assessments are authorized and called to the extent necessary to carry out the powers and duties of the association under section 4608 with regard to an impaired or an insolvent insurer. [PL 2005, c. 346, §7 (NEW); PL 2005, c. 346, §16 (AFF).]
[PL 2005, c. 346, §7 (NEW); PL 2005, c. 346, §16 (AFF).]

3. Determination of assessments.

[PL 2005, c. 346, §7 (RP); PL 2005, c. 346, §16 (AFF).]

3-A. Determination of assessments. Assessments must be determined as follows:

A. The amount of any Class A assessment, as described in subsection 2-A, for each account must be determined by the board of directors and may be authorized and called on a pro rata or non-pro rata basis. If pro rata, it must be allocated in the same proportions as a Class B assessment under paragraph C, and the board has the power to credit it against future Class B assessments. [PL 2017, c. 382, §25 (AMD).]

B. [PL 2017, c. 382, §25 (RP).]

C. Class B assessments, as described in subsection 2-A, must be allocated as follows.

(1) Except for assessments related to long-term care insurance that are subject to allocation under subparagraph (2), the amount of the assessment must be allocated among the accounts pursuant to an allocation formula that may be based on the premiums or reserves of the impaired or insolvent insurer or any other standard determined by the board of directors in its sole discretion as being fair and reasonable under the circumstances.

(2) The amount of any Class B assessment for liabilities arising out of long-term care insurance written by the impaired or insolvent insurer, if the impairment or insolvency is declared on or after July 1, 2018, must be allocated among the accounts according to a methodology included in the plan of operation and approved by the superintendent. The methodology must provide for 50% of the assessment to be allocated to member insurers that are health insurers and 50% to be allocated to member insurers that are life and annuity insurers.

(3) All Class B assessments must be allocated among member insurers within each account in the proportion that the premiums received by each assessed member insurer, on business in this State covered by the account, bears to premiums received on such business by all assessed member insurers, for the most recent calendar year for which information is available preceding the year in which the insurer became insolvent or, in the case of an assessment with respect to an impaired insurer, preceding the year in which the insurer became impaired.

(4) Health maintenance organizations are not subject to Class B assessments arising out of impairments or insolvencies declared before July 1, 2018. [PL 2017, c. 382, §25 (AMD).]

D. Assessments for funds to meet the requirements of the association with respect to an impaired or insolvent insurer may not be authorized or called until necessary to implement the purposes of this chapter. Classification of assessments under subsection 2-A and computation of assessments under this paragraph must be made with a reasonable degree of accuracy, recognizing that exact determinations may not always be possible. [PL 2005, c. 346, §7 (NEW); PL 2005, c. 346, §16 (AFF).]

E. This subsection may not be a factor in determining whether the protection provided by laws for residents of this State by the domiciliary jurisdiction of a foreign or alien insurer is substantially similar to the protection provided by this chapter for residents of other states. [PL 2017, c. 382, §25 (NEW).]

[PL 2017, c. 382, §25 (AMD).]

4. Abatement or deferral of assessments. The association may abate or defer, in whole or in part, the assessment of a member insurer if, in the opinion of the board of directors, payment of the assessment would endanger the ability of the member insurer to fulfill its contractual obligations. Once the conditions that caused a deferral have been removed or rectified, the member insurer shall pay all assessments that were deferred pursuant to a repayment plan approved by the association. The total of all assessments upon a member insurer for each account may not in any one calendar year exceed 2% of the insurer's premiums in this State on the policies covered by the account. [PL 2005, c. 346, §7 (AMD); PL 2005, c. 346, §16 (AFF).]

5. Additional assessment for abatements or deferrals. In the event an assessment against a member insurer is abated or deferred, in whole or in part, because of the limitations set forth in subsection 4, the amount by which the assessment is abated or deferred must be assessed against the other member insurers in a manner consistent with the basis for assessments set forth in this section. [PL 2005, c. 346, §7 (AMD); PL 2005, c. 346, §16 (AFF).]

6. Refunds. The board of directors may, by an equitable method as established in the plan of operation, refund to member insurers, in proportion to the contribution of each insurer to that account, the amount by which the assets of the account exceed the amount the board finds is necessary to carry

out during the coming year the obligations of the association with regard to that account, including assets accruing from net realized gains and income from investments. A reasonable amount may be retained in any account to provide funds for the continuing expenses of the association and for future losses if refunds are impractical.

[PL 2005, c. 346, §7 (AMD); PL 2005, c. 346, §16 (AFF).]

7. Consideration of assessments in determining premium rates and dividends. It is proper for any member insurer in determining its premium rates and policyowner dividends as to any kind of insurance within the scope of this chapter, to consider the amount reasonably necessary to meet its assessment obligations under this chapter.

[PL 2005, c. 346, §7 (AMD); PL 2005, c. 346, §16 (AFF).]

8. Assessment shortfalls. If the maximum assessment, together with the other assets of the association in any account, does not provide in any one year in any one account an amount sufficient to make all necessary payments from that account, the shortfall must be assessed as an obligation of the other accounts of the association. Each member insurer's assessment must be in the proportion that its premium for the calendar year preceding the assessment on the kinds of insurance in the accounts to be assessed bears to the total premium of all member insurers for the same calendar year on the kinds of insurance in those accounts. The total of assessments against a member insurer for shortfalls under this section and section 4440 in any one calendar year may not exceed 2% of that member insurer's premiums in this State or for policies covered by the account.

[PL 2005, c. 346, §7 (AMD); PL 2005, c. 346, §16 (AFF).]

9. Certificate of contribution. The association shall issue to each insurer paying an assessment under this chapter, other than a Class A assessment, a certificate of contribution, in a form prescribed by the superintendent, for the amount of the assessment so paid. All outstanding certificates are of equal dignity and priority without reference to amounts or dates of issue.

§4610. Plan of operation

1. Establishment of plan. A plan of operation shall be established as follows.

A. The association shall submit to the superintendent a plan of operation and any amendments thereto necessary or suitable to assure the fair, reasonable and equitable administration of the association. The plan of operation and any amendments thereto shall become effective upon approval in writing by the superintendent. [PL 1983, c. 846 (NEW).]

B. If the association fails to submit a suitable plan of operation within 180 days following the effective date of this chapter or if at any time thereafter the association fails to submit suitable amendments to the plan, the superintendent shall, after notice and hearing, adopt and promulgate such reasonable rules as are necessary or advisable to effectuate the provisions of this chapter. These rules shall continue in force until modified by the superintendent or superseded by a plan submitted by the association and approved by the superintendent. [PL 1983, c. 846 (NEW).]

[PL 1983, c. 846 (NEW).]

2. Compliance. All member insurers shall comply with the plan of operation.

[PL 1983, c. 846 (NEW).]

3. Requirements of plan. The plan of operation shall, in addition to requirements enumerated elsewhere in this chapter:

A. Establish procedures for handling the assets of the association; [PL 1983, c. 846 (NEW).]

B. Establish the amount and method of reimbursing members of the board of directors under section 4607; [PL 1983, c. 846 (NEW).]

C. Establish regular places and times for meetings of the board of directors; [PL 1983, c. 846 (NEW).]

D. Establish procedures for records to be kept of all financial transactions of the association, its agents and the board of directors; [PL 1983, c. 846 (NEW).]

E. Establish the procedures whereby selections for the board of directors will be made and submitted to the superintendent; [PL 1983, c. 846 (NEW).]

F. Establish any additional procedures for assessments under section 4609; and [PL 1983, c. 846 (NEW).]

G. Contain additional provisions necessary or proper for the execution of the powers and duties of the association. [PL 1983, c. 846 (NEW).]

[PL 1983, c. 846 (NEW).]

4. Delegation of association powers and duties. The plan of operation may provide that any or all powers and duties of the association, except those under section 4608, subsection 11, paragraph C and section 4609, are delegated to a corporation, association or other organization which performs or will perform functions similar to those of this association, or its equivalent, in 2 or more states. Such a corporation, association or organization shall be reimbursed for any payments made on behalf of the association and shall be paid for its performance of any function of the association. A delegation under this paragraph shall take effect only with the approval of both the board of directors and the superintendent and may be made only to a corporation, association or organization which extends protection not substantially less favorable and effective than that provided by this chapter.

[PL 1983, c. 846 (NEW).]

SECTION HISTORY

PL 1983, c. 846 (NEW).

§4611. Duties and powers of the superintendent

In addition to the duties and powers enumerated elsewhere in this chapter: [PL 1983, c. 846 (NEW).]

1. Powers and duties. The superintendent shall:

A. Notify the board of directors of the existence of an impaired insurer not later than 3 days after a determination of impairment or insolvency is made or the superintendent has received the notice of impairment or insolvency; [PL 2005, c. 346, §8 (AMD); PL 2005, c. 346, §16 (AFF).]

B. Upon request of the board of directors, provide the association with a statement of the premiums in the appropriate states for each member insurer; [PL 1983, c. 846 (NEW).]

C. When an impairment is determined, as defined in section 4605-A, subsection 10, and the amount of the impairment is determined, serve a demand upon the impaired insurer to make good the impairment within a reasonable time. Notice to the impaired insurer constitutes notice to its shareholders, if any. The failure of the insurer to promptly comply with the demand does not excuse the association from the performance of its powers and duties under this chapter; and [PL 2005, c. 346, §8 (AMD); PL 2005, c. 346, §16 (AFF).]

D. In any liquidation or rehabilitation proceeding involving a domestic insurer, the superintendent shall be appointed as the liquidator or rehabilitator, pursuant to chapter 57. If a foreign or alien member insurer is subject to a liquidation proceeding in its domiciliary jurisdiction or state of entry other than this State, the superintendent may be appointed conservator or an ancillary receiver. [PL 1983, c. 846 (NEW).]

[PL 2005, c. 346, §8 (AMD); PL 2005, c. 346, §16 (AFF).]

2. Suspension or revocation of certificate of authority. The superintendent may suspend or revoke, after notice and hearing, the certificate of authority to transact business in this State of any member insurer that fails to pay an assessment when due or fails to comply with the plan of operation. In lieu of such suspension or revocation, any member insurer that fails to pay an assessment when due or fails to comply with the plan of operation may be punished by a fine not to exceed the greater of 5% of the unpaid assessment per month or \$100 per month.

[PL 2017, c. 382, §26 (AMD).]

3. Appeal of actions of board of directors or association. Any final action of the board of directors or the association may be appealed to the superintendent by any member insurer if such appeal is taken within 30 days of the action being appealed. Any final action or order of the superintendent is subject to judicial review pursuant to chapter 3.

[PL 2005, c. 346, §9 (AMD); PL 2005, c. 346, §16 (AFF).]

4. Notification of interested persons. The liquidator, rehabilitator or conservator of any impaired insurer may notify all interested persons of the effect of this chapter.

SECTION HISTORY

PL 1983, c. 846 (NEW). PL 2005, c. 346, §10 (RP). PL 2005, c. 346, §16 (AFF).

§4612-A. Prevention of impairments and insolvencies

To aid in the detection and prevention of insurer impairments and insolvencies, the following provisions apply. [PL 2005, c. 346, §11 (NEW); PL 2005, c. 346, §16 (AFF).]

1. Action by superintendent. The superintendent shall:

A. Notify the insurance commissioners of all the other states, territories of the United States and the District of Columbia, within 30 days following the action taken or the date the action occurs, when the superintendent takes any of the following actions against a member insurer:

(1) Revokes a license;

(2) Suspends a license; or

(3) Makes a formal order that the member insurer restrict its premium writing, obtain additional contributions to surplus, withdraw from the State, reinsure all or any part of its business or increase capital, surplus or any other account for the security of policy owners or creditors.

[PL 2005, c. 346, §11 (NEW); PL 2005, c. 346, §16 (AFF).]

B. Report to the board of directors when the superintendent has taken any of the actions set forth in paragraph A or has received a report from any other insurance commissioner indicating that any such action has been taken in another state. The report to the board of directors must contain all significant details of the action taken or the report received from another commissioner. [PL 2005, c. 346, §11 (NEW); PL 2005, c. 346, §16 (AFF).]

C. Report to the board of directors when the superintendent has reasonable cause to believe from an examination, whether completed or in process, of any member insurer that the insurer may be an impaired or insolvent insurer. [PL 2005, c. 346, §11 (NEW); PL 2005, c. 346, §16 (AFF).]

D. Furnish to the board of directors the National Association of Insurance Commissioners Insurance Regulatory Information System ratios and listings of companies not included in the ratios. The board may use the information contained therein in carrying out its duties and responsibilities under this section. The report and the information contained therein must be kept confidential by the board until such time as made public by the superintendent or other lawful authority. [PL 2005, c. 346, §11 (NEW); PL 2005, c. 346, §16 (AFF).]

2. Advice and recommendations. The superintendent may seek the advice and recommendations of the board of directors concerning any matter affecting the duties and responsibilities of the superintendent regarding the financial condition of member insurers and companies seeking admission to transact insurance or health maintenance organization business in this State.

[PL 2017, c. 382, §27 (AMD).]

3. Action by board of directors. The board of directors, upon majority ballot vote, shall:

A. Notify the superintendent of any information indicating that any member insurer may be impaired or insolvent; [PL 2017, c. 382, §27 (AMD).]

B. Make reports and recommendations to the superintendent upon any matter germane to the solvency, liquidation, rehabilitation or conservation of any member insurer or germane to the solvency of any company seeking to do insurance or health maintenance organization business in this State. These reports and recommendations must be treated as confidential by the superintendent; and [PL 2017, c. 382, §27 (AMD).]

C. Make recommendations to the superintendent for the detection and prevention of insolvencies. [PL 2017, c. 382, §27 (AMD).]

§4613. Appointment of association nominee

The association may recommend a natural person to serve as a special deputy to act for the superintendent and under the superintendent's supervision in the liquidation, rehabilitation or conservation of any member insurer. [RR 2021, c. 1, Pt. B, §392 (COR).]

SECTION HISTORY

PL 1983, c. 846 (NEW). RR 2021, c. 1, Pt. B, §392 (COR).

§4614. Miscellaneous provisions

1. Liability for unpaid assessments of insureds of an impaired insurer. Nothing in this chapter may be construed to reduce the liability for unpaid assessments of the insureds of an impaired insurer operating under a plan with assessment liability.

[PL 1983, c. 846 (NEW).]

2. Records. Records must be kept of all negotiations and meetings in which the association or its representatives are involved to discuss the activities of the association in carrying out its powers and duties under section 4608. Records of the negotiations or meetings may be made public only upon the termination of a liquidation, rehabilitation or conservation proceeding involving the impaired or insolvent insurer, upon the termination of the impairment of the insurer, or upon the order of a court of competent jurisdiction. Nothing in this subsection limits the duty of the association to render a report of its activities under section 4615.

[PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

3. Association deemed to be creditor of impaired or insolvent insurer. For the purpose of carrying out its obligations under this chapter, the association is deemed to be a creditor of the impaired insurer to the extent of assets attributable to covered policies reduced by any amounts to which the association is entitled as subrogee pursuant to section 4608, subsection 9. All assets of the impaired insurer attributable to covered policies must be used to continue all covered policies and pay all contractual obligations of the impaired insurer as required by this chapter. Assets attributable to covered policies, as used in this subsection, are to be construed as that proportion of the assets that the reserves that should have been established for these policies bear to the reserve that should have been established for all policies of insurance written by the impaired insurer.

As creditors of the impaired or insolvent insurer, the association and other similar associations are entitled to receive a disbursement of assets out of the marshaled assets, from time to time as the assets become available to reimburse it, as a credit against contractual obligations under this chapter. If the liquidator has not, within 120 days of a final determination of insolvency of an insurer by the receivership court, made an application to the court for the approval of a proposal to disburse assets out of marshaled assets to guaranty associations having obligations because of the insolvency, then the association is entitled to make application to the receivership court for approval of its own proposal to disburse these assets.

[PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

4. Factors considered in distributing assets. In distributing assets, the following factors must be considered.

A. Prior to the termination of any liquidation, rehabilitation or conservation proceeding, the court may take into consideration the contributions of the respective parties, including the association, the shareholders, policy owners, contract owners, certificate holders and enrollees of the impaired or insolvent insurer and any other party with a bona fide interest, in making an equitable distribution of the ownership rights of the impaired or insolvent insurer. In such a determination, consideration must be given to the welfare of the policy owners, contract owners, certificate holders and enrollees of the continuing or successor insurer. [PL 2017, c. 382, §28 (AMD).]

B. No distribution to stockholders, if any, of an impaired or insolvent insurer may be made until and unless the total amount of assessments levied by the association with respect to the insurer have been fully recovered by the association. [PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

[PL 2017, c. 382, §28 (AMD).]

5. Unfair trade practice.

[PL 2005, c. 346, §12 (RP); PL 2005, c. 346, §16 (AFF).]

6. Recovery procedure; provisions. The recovery procedure must provide that:

A. If an order for liquidation or rehabilitation of an insurer domiciled in this State has been entered, the receiver appointed under that order has a right to recover on behalf of the insurer, from any affiliate that controlled it, the amount of distributions, other than stock dividends paid by the insurer on its capital stock, made at any time during the 5 years preceding the petition for liquidation or rehabilitation subject to the limitations of paragraphs B to D; [PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

B. No distribution may be recoverable if the insurer shows that when paid the distribution was lawful and reasonable and that the insurer did not know and could not reasonably have known that the distribution might adversely affect the ability of the insurer to fulfill its contractual obligations; [PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

C. Any person who was an affiliate that controlled the insurer at the time the distributions were paid is liable up to the amount of distributions the person received. Any person who was an affiliate

that controlled the insurer at the time the distributions were declared is liable up to the amount of distributions the person would have received if they had been paid immediately. If 2 or more persons are liable with respect to the same distributions they are jointly and severally liable; [PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

D. The maximum amount recoverable under this section is the amount needed in excess of all other available assets of the impaired or insolvent insurer to pay the contractual obligations of the impaired or insolvent insurer on a fair and equitable basis; and [PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

E. If any person liable under paragraph C is insolvent, all its affiliates that controlled it at the time the distribution was paid are jointly and severally liable for any resulting deficiency in the amount recovered from the insolvent affiliate. [PL 2005, c. 346, §12 (AMD); PL 2005, c. 346, §16 (AFF).]

All proceedings in which the impaired insurer is a party in any court in this State shall be stayed 60 days from the date an order of liquidation, rehabilitation or conservation is final to permit proper legal action by the association on any matters germane to its powers or duties. As to a judgment under any decision, order, verdict or finding based on default, the association may apply to have the judgment set

§4621. Credits for assessments paid; tax offsets

1. Credit allowed. A member insurer may offset against its premium tax liability to this State an assessment described in section 4609, subsection 2-A, paragraph B and for which a certificate under section 4609, subsection 9 is issued, to the extent of 20% of the amount of the assessment for each of the 5 calendar years following the year in which the assessment was paid. [PL 2005, c. 346, §14 (NEW); PL 2005, c. 346, §16 (AFF).]

2. Refunds. Any sums that are acquired by refund, pursuant to section 4609, subsection 6, from the association by member insurers, and that have been offset against premium taxes as provided in subsection 1, must be recaptured in such manner as required by the State Tax Assessor under Title 36. The association shall notify the superintendent and the State Tax Assessor that refunds have been made. 2-A. Insurers not subject to premium tax. A member insurer that is not subject to premium taxation may take the credit allowed under subsection 1 against its income tax liability to this State. A member insurer that is exempt from both premium taxation and income taxation in this State may recoup its assessments by a surcharge on its premiums in an amount reasonably calculated to recoup the assessments over a reasonable period of time, as approved by the superintendent. Amounts recouped are not considered premiums for any other purpose, including medical loss ratio calculations and premium-based assessments. If a member insurer collects excess surcharges, the insurer shall remit the excess amount to the association, and the excess amount must be applied to reduce future assessments in the appropriate account.

A. The collection of the contract premium was, at commencement of the strike, a duty, charge or obligation of any of such agents, according to the records, books, instructions, practice or organization of the insurer, and [PL 1969, c. 374 (NEW).]

B. Such agents are represented for purposes of collective bargaining by a labor organization which has been so recognized or certified or has been a party to any collective bargaining agreement with the insurer. [PL 1969, c. 374 (NEW).]

§5002-A. Standards for policy provisions and authority to adopt rules

1. Duplicate benefits. A Medicare supplement policy or certificate in force in the State may not contain benefits that duplicate benefits provided by Medicare.

[PL 1991, c. 740, §4 (NEW).]

2. Standardization. The superintendent may adopt rules specifying the minimum Medicare supplement contract benefits required in the State and the new and innovative benefits available for sale in the State. All other benefits or options are prohibited in a Medicare supplement contract subject to this chapter.

[PL 1993, c. 154, §2 (AMD).]

3. Preexisting conditions. Notwithstanding any other provision of law of this State, a Medicare supplement policy or certificate may not exclude or limit benefits for losses incurred more than 6 months from the effective date of coverage because the medical condition involved a preexisting condition. The policy or certificate may not define a preexisting condition more restrictively than as a condition for which medical advice was given or treatment was recommended by or received from a physician within 6 months before the effective date of coverage.

[PL 1991, c. 740, §4 (NEW).]

4. Specific standards. The superintendent shall adopt rules to establish specific standards for policy provisions of Medicare supplement policies and certificates. These standards must be in addition to and in accordance with applicable laws of this State. No requirement of the insurance laws relating to minimum required policy benefits, other than the minimum standards contained in this chapter, applies to Medicare supplement policies and certificates. The standards may cover, but are not limited to:

 - G. Requirements for replacement; [PL 1991, c. 740, §4 (NEW).]
 - H. Recurrent conditions; and [PL 1991, c. 740, §4 (NEW).]

- [PL 1991, c. 740, §4 (NEW).]

5. Minimum standards for benefits, claims, marketing, compensation and reporting. The superintendent shall adopt reasonable rules to establish minimum standards for benefits, claims payment, marketing practices and compensation arrangements and reporting practices for Medicare supplement policies and certificates.
[PL 1991, c. 740, §4 (NEW).]

6. Other policies not prohibited. Nothing in this section may be construed to prohibit the sale of insurance policies or contracts to persons eligible for Medicare by reason of age because those policies or contracts fail to meet the requirements of this chapter. Such policies may not be advertised, marketed or designed as Medicare supplement policies.
[PL 1991, c. 740, §4 (NEW).]

7. Method of identification. The superintendent shall prescribe the method of identification of Medicare supplement policies. The superintendent shall prescribe a method of identification of health insurance policies other than Medicare supplement policies or contracts that are advertised, marketed or designed for persons eligible for Medicare by reason of age. That method may include, but is not limited to, a requirement that such policies clearly indicate they are limited benefit health coverage policies and clearly specify that they do not meet the minimum standards for Medicare supplement policies.
[PL 1991, c. 740, §4 (NEW).]

8. Conformance of policies to federal law. The superintendent may adopt from time to time such reasonable rules as are necessary to conform Medicare supplement policies and certificates to the requirements of federal law and rules adopted pursuant to federal law, including but not limited to:

- A. Requiring refunds or credits if the policies or certificates do not meet loss ratio requirements; [PL 1991, c. 740, §4 (NEW).]
- B. Establishing a uniform methodology for calculating and reporting loss ratios; [PL 1991, c. 740, §4 (NEW).]
- C. Assuring public access to policies, premiums and loss ratio information of issuers of Medicare supplement insurance; [PL 1991, c. 740, §4 (NEW).]

D. Establishing a process for approving or disapproving policy forms and certificate forms and proposed premium increases; [PL 1991, c. 740, §4 (NEW).]

E. Establishing a policy for holding public hearings prior to approval of premium increases; and [PL 1991, c. 740, §4 (NEW).]

F. Establishing standards for Medicare select policies and certificates. [PL 1991, c. 740, §4 (NEW).]
[PL 1991, c. 740, §4 (NEW).]

§5002-B. Continuity of coverage

1. Persons provided continuity of coverage. This section provides continuity of coverage for a person who has a Medicare supplement policy and seeks coverage under a new Medicare supplement policy with the same or lesser benefits if:

A. That person, including a person entitled to Medicare benefits due to disability, has been covered under a policy that supplemented benefits under Medicare or has been covered under a Medicare Advantage plan with no gap in coverage greater than 90 days beginning with the person's open enrollment period. A policy supplementing benefits payable under Medicare may include an individual health policy, a group health plan, a Medicare supplement policy or other coverage issued by the same or a different carrier. [PL 2009, c. 244, Pt. A, §1 (AMD).]

B. [PL 2003, c. 157, §1 (RP).]

C. [PL 2003, c. 157, §1 (RP).]
[PL 2009, c. 244, Pt. A, §1 (AMD).]

2. Prohibition against discontinuity. The insurer shall, for any person described in subsection 1, waive any medical underwriting or preexisting conditions exclusion to the extent that benefits would have been payable under the prior Medicare supplement policy and any earlier Medicare supplement policy if those policies were still in effect. This subsection does not require the succeeding insurer to pay any benefits that are not within the terms of coverage of the succeeding policy solely because they would have been paid by the prior policy.

[PL 2003, c. 157, §1 (AMD).]

2-A. Low-cost drugs for the elderly or disabled program.

[PL 2013, c. 94, §1 (RP).]

3. Determination of benefits. When a determination of benefits under the prior policy is required, the issuer of the prior policy shall, at the request of the issuer of the succeeding policy, furnish a statement of benefits available or pertinent information sufficient to permit verification of the benefit determination or the determination itself by the issuer of the succeeding policy. For purposes of this section, benefits of the prior policy are determined in accordance with the definitions, conditions and covered expense provisions of that policy rather than those of the succeeding policy. The benefit determination must be made as if coverage had not been replaced.

[PL 1999, c. 36, §4 (NEW).]

4. Rulemaking. The superintendent shall adopt rules concerning guaranteed issuance and continuity of Medicare supplement policies for certain eligible persons. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

Except in the case of direct response insurance policies, the superintendent may require by regulation that the informational brochure be provided to any prospective insureds eligible for Medicare concurrently with the delivery of the outline of coverage. With respect to direct response insurance policies, the superintendent may require by rule that the prescribed brochure be provided upon request to any prospective insureds eligible for Medicare, but in no event later than the time of policy delivery.

An issuer including health status questions in an application or enrollment form employed during an applicant's open enrollment period shall disclose that coverage in any plan offered by the issuer is guaranteed to be issued and will be provided without regard to health status. [PL 1991, c. 740, §7 (NEW).]

2. Insured's right to replace coverage. Insureds under Medicare supplement policies issued prior to January 1, 1992 shall be permitted at any time to replace their coverage with any of the standardized plans offered by the same insurer, subject to the following conditions.

A. The issuer may decline to issue a particular standardized plan to an existing insured if:

(2) The insured does not otherwise qualify for the standardized plan. [PL 1991, c. 740, §13 (NEW).]

The issuer shall designate the standardized plan, if any, that has substantially similar benefits to the policy issued prior to January 1, 1992. For any of the policies that the superintendent determines are substantially similar to one of the offered standardized plans, the issuer shall replace the policy with the similar standardized plan or, at the option of the insured, one of the other standardized plans selected by the insured pursuant to subsection 2, on or before the first policy anniversary after June 30, 1993.

An issuer shall also offer standardized Medicare Supplement Plan A to persons entitled to Medicare benefits due to disability during the guaranteed issue period as set forth in section 5012. An individual who is entitled to Medicare benefits due to disability must be provided continuity of coverage in accordance with section 5002-B. A. Rates for policies subject to this subsection may not vary based on age, gender, health status, claims experience, policy duration, industry or occupation. [PL 1991, c. 740, §13 (NEW).]

B. In revising rates for standardized plans, an issuer shall pool all experience for standardized plans under individual policies. Experience may be pooled separately for each standardized plan or experience for similar benefits in different standardized plans may be pooled, including, but not limited to, basing the component of the rate for skilled nursing coinsurance on the pooled experience of all standardized plans that include that benefit. Group plans may be rated separately. A group with credible experience may be rated differently than other groups. [PL 2001, c. 258, Pt. F, §4 (AMD).]

§5016. Notification prior to cancellation; restrictions on lapse or termination due to cognitive impairment or functional incapacity

1. Notice of cancellation. An insurer that issues Medicare supplement policies shall provide notification to the insured person and another person, if designated by the insured, prior to cancellation of a Medicare supplement policy for nonpayment of premiums. [PL 2011, c. 123, §4 (NEW); PL 2011, c. 123, §5 (AFF).]

2. Right to reinstatement. Within 90 days after cancellation, termination or lapse of coverage due to nonpayment of premium, a policyholder, a person authorized to act on behalf of the policyholder or a dependent of the policyholder covered under the policy may request reinstatement of the policy on the basis that the loss of coverage was a result of the policyholder's cognitive impairment or functional incapacity. An insurer may require a medical demonstration that the policyholder suffered from cognitive impairment or functional incapacity at the time of cancellation, termination or lapse. If the medical demonstration is waived or substantiates the existence of a cognitive impairment or functional incapacity at the time of policy cancellation to the satisfaction of the insurer, the policy must be reinstated. The medical demonstration may be at the expense of the policyholder.

A policy reinstated pursuant to this subsection must cover any loss or claim occurring from the date of the termination, cancellation or lapse and must be issued without any evidence of insurability. been in effect had the policy remained in force. If the premium is not paid as required, the policy may not be reinstated and the insurer is not responsible for claims incurred after the initial date of cancellation. If an insurer denies a request for reinstatement, the insurer shall notify the policyholder that the policyholder may request a hearing before the superintendent.

1. Innovative long-term care products permitted. Notwithstanding section 5051-A, an insurer, organization or plan may offer a long-term care policy, within the meaning of section 5051, subsection 1, which does not meet one or more of the requirements of section 5051-A if the Superintendent of Insurance finds that:

B. The total package of benefits provided is at least as comprehensive as that required by section 5051-A; and [PL 1989, c. 556, Pt. B, §3 (NEW).]

C. Availability of the policy would be in the best interest of the public taking into consideration the following factors:

(2) Whether the plans for marketing the policy contain adequate safeguards to minimize any confusion that may be caused to consumers by the failure of the policy to fall within the established guidelines of this section. [PL 1989, c. 556, Pt. B, §3 (NEW).]

[PL 1989, c. 556, Pt. B, §3 (NEW).]

This chapter is not intended to supersede the obligations of entities subject to this chapter to comply with the substance of other applicable insurance laws to the extent that these laws are not inconsistent with the requirements of this chapter, except that laws and rules designed and intended to apply to Medicare supplement insurance may not be applied to long-term care insurance. Notwithstanding this chapter, any product advertised, marketed or offered as long-term care insurance is subject to this chapter. [PL 1999, c. 292, §2 (NEW).]

§5073. Extraterritorial jurisdiction; group long-term care insurance

1. Groups other than employer, union, trustee and association groups. 2. Trustee groups. Group long-term care insurance may not be offered to an employee of an employer covered under a group policy issued in another state to a trustee group as described in section 2806 if a plurality of the employer's employees are based in this State unless the superintendent has made a determination that the requirements of this chapter have been met.

§5074. Disclosure standards for long-term care insurance

The following standards apply to disclosures relating to long-term care insurance. [PL 1999, c. 292, §2 (NEW).]

1. Disclosures. The superintendent may adopt rules that include standards for full and fair disclosure setting forth the manner, content and required disclosures for the sale of long-term care insurance policies and certificates; terms of renewability; initial and subsequent conditions of eligibility; nonduplication of coverage provisions; coverage of dependents; preexisting conditions; termination of insurance; continuation or conversion; probationary periods; limitations, exceptions and reductions; elimination periods; requirements for replacement; recurrent conditions; and definitions of terms. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

[PL 1999, c. 292, §2 (NEW).]

2. Outline of coverage. An outline of coverage must be delivered to a prospective applicant for long-term care insurance at the time of initial solicitation through means that prominently direct the attention of the recipient to the document and its purpose. In the case of producer solicitations, an insurance producer shall deliver the outline of coverage prior to the presentation of an application or enrollment form. In the case of direct response solicitations, the outline of coverage must be presented in conjunction with any application or enrollment form. In the case of a policy issued to an employer group as described in section 2804, a labor union group as described in section 2805 or a trustee group as described in section 2806, an outline of coverage is not required to be provided if the information described in this subsection is contained in other materials relating to enrollment that have been filed with and approved by the superintendent. The outline of coverage must be in a standard format,

including style, arrangement, overall appearance and content, prescribed by the superintendent and must include the following information:

A. A description of the principal benefits and coverage provided in the policy or certificate; [PL 1999, c. 292, §2 (NEW).]

B. A statement of the principal exclusions, reductions and limitations contained in the policy or certificate; [PL 1999, c. 292, §2 (NEW).]

C. A statement of the terms under which the policy or certificate, or both, may be continued in force or discontinued, including any reservation in the policy of a right to change premium. Continuation or conversion provisions of group coverage must be specifically described; [PL 1999, c. 292, §2 (NEW).]

D. A statement that the outline of coverage is a summary only, not a contract of insurance, and that the policy or group master policy contains governing contractual provisions; [PL 1999, c. 292, §2 (NEW).]

E. A description of the terms under which the policy or certificate may be returned and premium refunded; [PL 1999, c. 292, §2 (NEW).]

F. A statement as to whether the policy or certificate is intended to be qualified for purposes of federal and state individual income taxes; and [PL 1999, c. 292, §2 (NEW).]

[PL 1999, c. 292, §2 (NEW).]

3. Qualification for purposes of federal and state individual income taxes. The face page of all long-term care insurance policies and certificates must contain a prominent statement as to whether the policy or certificate is intended to be qualified for purposes of federal and state individual income taxes.

[PL 1999, c. 292, §2 (NEW).]

4. Individual life insurance policy that provides long-term care benefits. At the time of policy or certificate delivery, a policy summary must be delivered for an individual life insurance policy that provides long-term care benefits within the policy or by rider. In the case of direct response solicitations, the insurer shall deliver the policy summary upon the applicant's request but, regardless of a request, the insurer shall make such delivery no later than at the time of policy delivery. In addition to complying with all applicable requirements, the summary also must include:

A. An explanation of how the long-term care benefits interact with other components of the policy, including deductions from death benefits; [PL 1999, c. 292, §2 (NEW).]

B. An illustration of the amount of benefits, the length of benefits and the guaranteed lifetime benefits, if any, for each covered person; [PL 1999, c. 292, §2 (NEW).]

C. Any exclusions, reductions and limitations on benefits of long-term care; [PL 1999, c. 292, §2 (NEW).]

D. A statement indicating whether any long-term care inflation protection option required by law is available under this policy; and [PL 1999, c. 292, §2 (NEW).]

E. If applicable to the policy or certificate type, the summary must also include:

(1) A disclosure of the effects of exercising other rights under the policy;

(2) A disclosure of guarantees related to long-term care costs of insurance charges; and

(3) Current and projected maximum lifetime benefits. [PL 1999, c. 292, §2 (NEW).]

The provisions of the policy or certificate summary listed in this subsection may be incorporated into a basic illustration required to be delivered in accordance with the life insurance policy summary that is required to be delivered in accordance with this Title governing life insurance policy summaries or with comparable statutory requirements in any other state.

[PL 1999, c. 292, §2 (NEW).]

5. Certificates of group long-term care insurance. A certificate issued pursuant to a group long-term care insurance policy that is delivered or issued for delivery in this State must include:

A. A description of the principal benefits and coverage provided in the policy; [PL 1999, c. 292, §2 (NEW).]

B. A statement of the principal exclusions, reductions and limitations contained in the policy; and [PL 1999, c. 292, §2 (NEW).]

C. A statement that the group master policy determines governing contractual provisions and that the policy is available for viewing in the offices of the policyholder and will be copied for the certificate holder upon request at no cost. [PL 1999, c. 292, §2 (NEW).]

[PL 1999, c. 292, §2 (NEW).]

SECTION HISTORY

PL 1999, c. 292, §2 (NEW).

§5075. Required provisions; prohibitions; loss ratio standards for long-term care insurance

1. Prohibitions. A long-term care insurance policy or certificate may not:

A. Be canceled, nonrenewed or otherwise terminated on the grounds of the age or the deterioration of the mental or physical health of the insured individual; [PL 1999, c. 292, §2 (NEW).]

B. Contain a provision establishing a new waiting period in the event existing coverage is converted to or replaced by a new or other form within the same company, except with respect to an increase in benefits voluntarily selected by the insured individual or group policyholder; or [PL 1999, c. 292, §2 (NEW).]

C. Provide coverage for skilled nursing care only or provide significantly more coverage for skilled care in a facility than for lower levels of care. [PL 1999, c. 292, §2 (NEW).]

[PL 1999, c. 292, §2 (NEW).]

2. Preexisting condition. A long-term care insurance policy or certificate must provide coverage for preexisting conditions in accordance with the following.

A. A policy or certificate may not define "preexisting condition" in a manner that is more restrictive than the following: "Preexisting condition" means a condition for which medical advice or treatment was recommended by or received from a provider of health care services within 6 months preceding the effective date of coverage of an insured person. [PL 1999, c. 292, §2 (NEW).]

B. A policy or certificate may not exclude coverage for a loss or confinement that is the result of a preexisting condition unless such loss or confinement begins within 6 months following the effective date of coverage of an insured person. [PL 1999, c. 292, §2 (NEW).]

C. The definition of "preexisting condition" in paragraph A does not prohibit an insurer from using an application form designed to elicit the complete health history of an applicant and, on the basis of the answers on that application, from underwriting in accordance with that insurer's established underwriting standards. Unless otherwise provided in the policy or certificate, a preexisting condition, regardless of whether it is disclosed on the application, need not be covered until the waiting period described in paragraph B expires. A long-term care insurance policy or certificate may not exclude, or use waivers or riders of any kind to exclude, limit or reduce, coverage or

benefits for specifically named or described preexisting diseases or physical conditions beyond the waiting period described in paragraph B. [PL 1999, c. 292, §2 (NEW).]

D. The superintendent may extend the limitation periods set forth in paragraphs A and B with regard to specific age group categories in specific policy forms upon findings that the extension is in the best interest of the public. [PL 1999, c. 292, §2 (NEW).]
[PL 1999, c. 292, §2 (NEW).]

3. Prior hospitalization or institutionalization. A long-term care insurance policy or certificate that contains provisions regarding prior hospitalization or institutionalization must comply with the following requirements.

A. A long-term care insurance policy or certificate may not be delivered or issued for delivery in this State if the policy:

- (1) Conditions eligibility for any benefits on a prior hospitalization requirement;
- (2) Conditions eligibility for benefits provided in an institutional care setting on the receipt of a higher level of institutional care; or
- (3) Conditions eligibility for any benefits other than waiver of premium, post-confinement, post-acute care or recuperative benefits on a prior institutionalization requirement. [PL 1999, c. 292, §2 (NEW).]

B. A long-term care insurance policy or certificate containing post-confinement, post-acute care or recuperative benefits must clearly label such limitations or conditions, including any required number of days of confinement, in a separate paragraph of the policy or certificate entitled "Limitations or Conditions on Eligibility for Benefits." [PL 1999, c. 292, §2 (NEW).]

C. A long-term care insurance policy, certificate or rider that conditions eligibility of noninstitutional benefits on the prior receipt of institutional care may not require a prior institutional stay of more than 30 days. [PL 1999, c. 292, §2 (NEW).]

D. The superintendent may adopt rules further restricting the use of prior institutionalization requirements. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter II-A. [PL 1999, c. 292, §2 (NEW).]
[PL 1999, c. 292, §2 (NEW).]

4. Free-look provision. Applicants for long-term care insurance have the right to return the policy or certificate within 30 days of its delivery and to have the premium refunded if, after examination of the policy or certificate, the applicant is not satisfied for any reason. A long-term care insurance policy or certificate must have a notice prominently printed on the first page or attached to the policy or certificate stating in substance that the applicant has the right to return the policy or certificate within 30 days of its delivery and to have the premium refunded if, after examination of the policy or certificate, the applicant is not satisfied for any reason.
[PL 1999, c. 292, §2 (NEW).]

5. Benefit payment status report on long-term care benefits. Any time a long-term care benefit that is funded through a life insurance policy or certificate by the acceleration of the death benefit is in benefit payment status, a monthly report must be provided to the policyholder or certificate holder. The report must include:

A. Any long-term care benefits paid out during the month; [PL 1999, c. 292, §2 (NEW).]

B. An explanation of any changes in the policy, including changes in death benefits or cash values, due to long-term care benefits being paid out; and [PL 1999, c. 292, §2 (NEW).]

C. The amount of long-term care benefits existing or remaining. [PL 1999, c. 292, §2 (NEW).]
[PL 1999, c. 292, §2 (NEW).]

6. Loss ratios. The superintendent may adopt rules establishing loss ratio standards for long-term care insurance policies if a specific reference to long-term care insurance policies or certificates is contained in the rules. Any loss ratio standards for employer groups as described in section 2804 and labor union groups as described in section 2805 apply to the group policy and not to certificates. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

[PL 1999, c. 292, §2 (NEW).]

7. Marketing as long-term care or nursing home insurance. This chapter applies to any policy, certificate or rider advertised, marketed or offered as long-term care or nursing home insurance.

2. Determination. Within 60 days after receipt of a request for certification, the superintendent shall in writing:

A. Certify that the policy or contract complies with this section; [PL 2001, c. 679, §1 (NEW); PL 2001, c. 679, §6 (AFF).]

B. Deny the request and state the reasons for the denial; or [PL 2001, c. 679, §1 (NEW); PL 2001, c. 679, §6 (AFF).]

C. Notify the insurer, nonprofit hospital or medical service organization or nonprofit health care plan that an insufficient basis exists for determining whether a certification should be made and indicate the nature of the insufficiency. [PL 2001, c. 679, §1 (NEW); PL 2001, c. 679, §6 (AFF).]

[PL 2001, c. 679, §1 (NEW); PL 2001, c. 679, §6 (AFF).]

3. Standards for compliance. The superintendent shall certify a policy or contract submitted for review under this section as a long-term care insurance policy if the superintendent finds that the policy or contract complies with all the standards applicable to long-term care policies set forth in this chapter and in chapters 27, 33 and 35 and rules adopted pursuant to those chapters by the superintendent. Waivers granted under the rules must be taken into consideration.

§5076. Incontestability period

1. Policies or certificates in effect for less than 6 months. For a policy or certificate that has been in effect for less than 6 months, an insurer may rescind a long-term care insurance policy or certificate or deny an otherwise valid long-term care insurance claim upon a showing of misrepresentation that was material to the acceptance for coverage.

[PL 1999, c. 292, §2 (NEW).]

2. Policies or certificates in effect for more than 6 months but less than 2 years. For a policy or certificate that has been in effect for at least 6 months but less than 2 years, an insurer may rescind

a long-term care insurance policy or certificate or deny an otherwise valid long-term care insurance claim upon a showing of misrepresentation that was both material to the acceptance for coverage and that pertains to the condition for which benefits are sought.

[PL 1999, c. 292, §2 (NEW).]

3. Policies or certificates in effect for 2 years or more. After a policy or certificate has been in effect for at least 2 years, the policy or certificate may not be contested upon the grounds of misrepresentation alone. The policy or certificate may be contested only upon a showing that the insured knowingly and intentionally misrepresented relevant facts relating to the insured's health.

[PL 1999, c. 292, §2 (NEW).]

4. Field-issued policies or certificates. A long-term care insurance policy or certificate may not be field-issued if the compensation to the field issuer is based on the number of policies or certificates issued. For the purposes of this subsection, "field-issued" means a policy or certificate issued by a producer or a 3rd-party administrator pursuant to the underwriting authority granted to the producer or 3rd-party administrator by an insurer using the insurer's underwriting guidelines.

[PL 2007, c. 232, §1 (AMD).]

5. Recovery of benefit payments by the insurer. If an insurer has paid benefits under the long-term care insurance policy or certificate, the benefit payments may not be recovered by the insurer if the policy or certificate is rescinded.

[PL 1999, c. 292, §2 (NEW).]

6. Death of the insured. Upon the death of the insured, this section does not apply to the remaining death benefit of a life insurance policy that accelerates benefits for long-term care and the remaining death benefits under these policies are governed by sections 2507 and 2615 relating to the incontestability requirements for individual and group life insurance. In all other events, this section applies to life insurance policies that accelerate benefits for long-term care.

§5077. Nonforfeiture benefits

1. Offer required. Except as provided in subsection 2, a long-term care insurance policy or certificate may not be delivered or issued for delivery in this State unless the policyholder or certificate holder has been offered the option of purchasing a policy or certificate that includes a nonforfeiture benefit. The offer of a nonforfeiture benefit may be in the form of a rider that is attached to the policy. If the policyholder or certificate holder declines the nonforfeiture benefit, the insurer shall provide a contingent benefit upon lapse that must be made available for a specified period of time following a substantial increase in premium rates.

[PL 1999, c. 292, §2 (NEW).]

2. Group policyholders. When a group long-term care insurance policy is issued, the offer required in subsection 1 must be made to the group policyholder. If the group long-term care insurance policy is issued to a group described in section 2808 other than to a continuing care retirement community or other similar entity, the offer must be made to each proposed certificate holder.

[PL 1999, c. 292, §2 (NEW).]

3. Rules. The superintendent shall adopt rules specifying the type or types of nonforfeiture benefits to be offered as part of long-term care insurance policies and certificates, the standards for nonforfeiture benefits and the standards regarding contingent benefit upon lapse, including a determination of the specified period of time during which a contingent benefit upon lapse is available and the substantial premium rate increase that triggers a contingent benefit upon lapse as described in subsection 1. Rules

adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter II-A.

SECTION HISTORY

PL 1999, c. 292, §2 (NEW).

§5078. Rulemaking

The superintendent shall adopt rules to promote premium adequacy, to protect a policyholder and a certificate holder in the event of substantial rate increases and to establish minimum standards for marketing practices, insurance producer compensation, insurance producer education, insurance producer testing, penalties and reporting practices for long-term care insurance. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. [PL 2007, c. 232, §2 (AMD).]

[PL 1999, c. 292, §2 (NEW).]

SECTION HISTORY

PL 1999, c. 292, §2 (NEW).

This chapter applies to long-term care policies and certificates issued or delivered in this State on or after January 1, 2000. Policies and certificates issued prior to January 1, 2000 and remaining in effect on that date are subject to the requirements of chapter 68. Those policies and any certificates issued pursuant to those policies prior to January 1, 2000 continue in effect subsequent to the enactment of this chapter. [PL 1999, c. 292, §2 (NEW).]

All certificates of coverage issued or delivered to residents of this State after January 1, 2000 must meet the requirements of this chapter and any rules adopted pursuant to this chapter, except that long-term care policies or certificates issued pursuant to a provision included in a policy approved in accordance with chapter 68 giving a policyholder or certificate holder a right to purchase or increase coverage at a later date may be issued with benefits consistent with chapter 68 after January 1, 2000. An individual licensed as a life or health insurance provider and who is actively selling, soliciting or negotiating long-term care insurance as of the effective date of this section must complete a one-time training course by July 1, 2008 and ongoing training every 24 months thereafter in order to continue selling, soliciting or negotiating long-term care insurance.

The training required by this subsection must meet the requirements set forth in subsection 2. The training requirements of subsection 2 may be approved as continuing education courses under chapter 16, subchapter 7.

[PL 2007, c. 232, §3 (NEW).]

2. Content of training. The one-time training required by this section must consist of topics related to long-term care insurance, long-term care services and, if applicable, qualified state long-term care insurance partnership programs, including, but not limited to:

B. Available long-term care services and providers; [PL 2007, c. 232, §3 (NEW).]

C. Changes or improvements in long-term care services or providers; [PL 2007, c. 232, §3 (NEW).]

D. Alternatives to the purchase of private long-term care insurance; [PL 2007, c. 232, §3 (NEW).]

E. The effect of inflation on benefits and the importance of inflation protection; and [PL 2007, c. 232, §3 (NEW).]

F. Consumer suitability standards and guidelines. [PL 2007, c. 232, §3 (NEW).]

The training required by this section may not include training that is specific to an insurer or company product or that includes any sales or marketing information, materials or training other than that required by state or federal law.

[PL 2007, c. 232, §3 (NEW).]

3. Verification. An insurer shall:

A. Obtain verification that a producer has received training required by this section before the producer may sell, solicit or negotiate the insurer's long-term care insurance products; [PL 2007, c. 232, §3 (NEW).]

B. Maintain records of the verification under paragraph A for at least 3 years; and [PL 2007, c. 232, §3 (NEW).]

C. Make verification records available to the superintendent upon request. [PL 2007, c. 232, §3 (NEW).]

[PL 2007, c. 232, §3 (NEW).]

4. Records. An insurer shall maintain records with respect to the training of its producers concerning the distribution of its partnership policies that will allow the superintendent to provide assurance to the Department of Health and Human Services that producers have received the training required by this section and that its producers have demonstrated an understanding of the partnership policies and their relationship to public and private coverage of long-term care, including Medicaid, in this State. The records must be maintained for a period of at least 3 years after each producer has received the training required by this section and must be made available to the superintendent upon request.

[PL 2007, c. 232, §3 (NEW).]

§5082. Long-term Care Partnership Program; availability of qualified policies

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Eligible policyholder" means:

(1) An individual who holds a qualified individual policy issued before or during the notice period by an insurer that actively markets individual partnership policies in this State on or after the effective date of this section and is not receiving benefits or in a waiting period to receive benefits; or

(2) An employer or other group policyholder that holds a qualified group policy issued before or during the notice period by an insurer that actively markets group partnership policies in this State on or after the effective date of this section. [PL 2011, c. 198, §1 (NEW).]

B. "Long-term Care Partnership Program" means the Long-term Care Partnership Program established in Title 22, section 3174-GG. [PL 2011, c. 198, §1 (NEW).]

C. "Notice period" means the period between July 1, 2004 and the date an insurer begins actively marketing partnership policies in this State. [PL 2011, c. 198, §1 (NEW).]

D. "Partnership policy" means a long-term care insurance policy with an effective date of July 1, 2009 or later that is offered with the intent to meet the requirements of the Long-term Care Partnership Program. [PL 2011, c. 198, §1 (NEW).]

E. "Qualified policy" means a long-term care insurance policy that is offered with the intent to meet the requirements of 26 United States Code, Section 7702B(b). [PL 2011, c. 198, §1 (NEW).]
[PL 2011, c. 198, §1 (NEW).]

2. Notice. The following provisions apply to an insurer that actively markets a partnership policy in this State on or after the effective date of this section. With respect to an employer group, an insurer shall provide any notice required under this section to the employer that is the policyholder of a qualified policy.

A. An insurer that actively markets partnership policies in this State as of the effective date of this section shall provide notice to an eligible policyholder that purchased a qualified policy during the notice period that the policyholder may be able to participate in the Long-term Care Partnership Program. The insurer shall initiate the exchange process in accordance with subsection 4 within 12 months of the effective date of this section. [PL 2011, c. 198, §1 (NEW).]

B. An insurer that begins to actively market partnership policies in this State after the effective date of this section shall provide notice to an eligible policyholder that purchased a qualified policy during the notice period that the policyholder may be able to participate in the Long-term Care Partnership Program. The insurer shall initiate the exchange process in accordance with subsection 4 within 12 months of the date the insurer begins to market partnership policies in this State. [PL 2011, c. 198, §1 (NEW).]

[PL 2011, c. 198, §1 (NEW).]

3. Request for review. In addition to the requirements of subsection 2, at the request of an eligible policyholder of a qualified policy issued prior to the notice period, an insurer that actively markets partnership policies in this State shall review the qualified policy to identify whether the qualified policy meets the requirements of the Long-term Care Partnership Program and take an action described in subsection 4, paragraph A or B. If a request for review under this subsection is made more than 12 months after the effective date of this section, the insurer has no obligation to review the policy. [PL 2011, c. 198, §1 (NEW).]

4. Exchange process. An insurer that actively markets partnership policies in this State shall identify those qualified policies issued during the notice period that currently meet all the requirements of the Long-term Care Partnership Program as specified in Bureau of Insurance Bulletin 368 dated January 22, 2010 for use with the Long-term Care Partnership Program and those that do not meet all of the requirements and:

A. For those qualified policies that currently meet all of the requirements, issue to each policyholder the Important Notice Regarding Your Policy's Long-term Care Insurance Partnership Status, as prescribed in the Appendix of Bureau of Insurance Bulletin 368 dated January 22, 2010, along with a policy amendment reflecting the effective date of the partnership status; and [PL 2011, c. 198, §1 (NEW).]

B. For those qualified policies that do not meet all of the requirements, notify each policyholder that the policy may be eligible for an exchange to a partnership policy. The insurer shall also notify the policyholder that the exchange is subject to underwriting and that the premium for the new policy is based on the policyholder's attained age on the date of the exchange. The policyholder has 60 days from the date of the notice to consider this offer. If the policyholder accepts the offer after 60 days, the insurer is not obligated to process an exchange. If the policyholder requests additional coverage, the additional coverage is also subject to underwriting and the premium for the additional coverage must be based on the policyholder's attained age on the date the changes take effect. [PL 2011, c. 198, §1 (NEW).]

[PL 2011, c. 198, §1 (NEW).]

5. Individual policyholder no longer receiving benefits. If an individual policyholder is not an eligible policyholder because the policyholder is receiving benefits or is in a waiting period to receive benefits, that individual policyholder has 12 months from the expiration of any waiting period after which the policyholder does not begin to receive benefits or from the expiration of any period when benefits have ended to request a review by an insurer as otherwise provided under subsection 3. [PL 2011, c. 198, §1 (NEW).]

6. Applicability. If an insurer does not actively market both individual and group partnership policies in this State, this section applies to that insurer only with respect to the particular market in which the insurer actively markets partnership policies. [PL 2011, c. 198, §1 (NEW).]

SECTION HISTORY

PL 2011, c. 198, §1 (NEW).

§5083. Payment of claims

1. Notice of claim for benefits; response by insured. Notwithstanding any other provision of this Title, upon receipt of a notice of claim for benefits under a policy or certificate of long-term care insurance delivered or issued for delivery in this State, an insurer, whether actively marketing or renewing long-term care insurance in this State, shall provide the insured a written statement with sufficient detail to permit the insured to understand and respond with the documentation specified in subsection 2. The written statement must be provided by the insurer within 10 business days following

receipt of the notice of claim. For purposes of this section, "insured" includes a person designated by the insured as the insured's representative.

[PL 2013, c. 278, §2 (NEW).]

2. Documentation. The documentation an insurer may require of an insured for the payment of a claim for benefits under a policy or certificate of long-term care insurance includes, but is not limited to:

- A. A statement from the insured making the claim for benefits; [PL 2013, c. 278, §2 (NEW).]
- B. A signed release permitting the insurer to obtain personal health care information about the insured pursuant to the federal Health Insurance Portability and Accountability Act of 1996; [PL 2013, c. 278, §2 (NEW).]
- C. A statement from the insured's physician, including the appropriate diagnosis and a treatment and care plan for the insured; [PL 2013, c. 278, §2 (NEW).]
- D. A statement from the long-term care provider rendering services to the insured, including an itemized bill for services, the provider's license number and any daily nursing notes; and [PL 2013, c. 278, §2 (NEW).]
- E. A copy of any power of attorney executed by the insured. [PL 2013, c. 278, §2 (NEW).]

Except for information solely in the possession of the insured, the burden is on the insurer to obtain any information other than that described in paragraphs A to E that is reasonably necessary to pay or continue paying the claim. The insured has a continuing obligation to cooperate with the insurer in order for the insurer to obtain needed information.

[PL 2013, c. 278, §2 (NEW).]

3. Payment of claim. A claim for payment of benefits under a policy or certificate of long-term care insurance delivered or issued for delivery in this State is payable within 30 days after the documentation and information identified in subsection 2 as reasonably necessary to pay the claim for benefits have been received by the insurer. Within 30 days after receipt of that documentation and information, the insurer shall either pay the claim or issue a written notice to the insured declining to pay all or part of the claim and the specific reason for denial in accordance with this subsection.

A. An insurer may not extend the time for payment of a claim beyond 30 days after receipt of documentation and information related to a technical issue as designated in rules adopted by the bureau. [PL 2013, c. 278, §2 (NEW).]

B. Except as provided in paragraph A, an insurer may delay payment of a claim and request additional documentation and information related to a substantive issue as designated in rules adopted by the bureau. [PL 2013, c. 278, §2 (NEW).]

[PL 2013, c. 278, §2 (NEW).]

4. Ongoing claim. Except for information solely in the possession of the insured, if, during the course of an ongoing claim for benefits paid on a monthly or recurring basis, the insurer identifies the need for additional reasonable documentation to ensure the insured remains entitled to benefits under the policy or certificate of long-term care insurance, the burden is on the insurer to obtain that information. The insured has a continuing obligation to cooperate with the insurer in order for the insurer to obtain needed information.

[PL 2013, c. 278, §2 (NEW).]

5. Appeals of claims denials. An insured who receives a claims denial in accordance with this section has the right to internal appeal and, after exhausting an insurer's internal appeals process, the right to request an external review. The superintendent shall adopt rules to determine the standards for internal appeal and external review in a manner consistent with model legislation adopted by the National Association of Insurance Commissioners, or its successor organization. The written notice to

the insured declining to pay all or part of the claim as required by subsection 3 must include a statement informing the insured of the insured's rights to internal appeal and external review and a statement of the insured's right to seek assistance or file a complaint with the bureau and the toll-free telephone number of the bureau.

[PL 2013, c. 278, §2 (NEW).]

6. Interest on overdue claim. An undisputed claim that is not paid within 30 days is overdue. If an insurer fails to pay an undisputed claim or any undisputed part of the claim when due, the amount of the overdue claim or part of the claim bears interest at the rate of 1 1/2% per month after the due date.

[PL 2013, c. 278, §2 (NEW).]

7. Attorney's fees. Reasonable attorney's fees for advising and representing a claimant on an overdue claim or action for an overdue claim must be paid by the insurer if overdue benefits are recovered in an action against the insurer or if overdue benefits are paid after receipt of notice of the attorney's representation.

[PL 2013, c. 278, §2 (NEW).]

8. No limitation on action by insured. This section does not prohibit or limit any claim or action for a claim that the insured has against the insurer.

[PL 2013, c. 278, §2 (NEW).]

9. Rules. The superintendent may adopt or amend rules in order to carry out the purposes of this section. Rules adopted pursuant to this section, including amendments to existing rules designated as major substantive, are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

§5084. Notice to policyholders of rate increase

1. Notice. An insurer shall notify a policyholder of a long-term care insurance policy issued in accordance with this chapter or chapter 68 of a proposed premium rate increase that affects the policyholder no later than 30 days after the filing by the insurer of the premium rate increase. An insurer shall provide written notice by first-class mail to the last known mailing address of all affected individual and group policyholders and others who are directly billed for group coverage. The notice must:

(1) Either of the following applies:

(a) Deposits for at least 10% of the entrance fee have been received from prospective subscribers for not less than 70% of the facility's residential units for which entrance fees will be charged or not less than 70% of the total entrance fees due or expected at full occupancy and the prospective subscribers have agreed in writing to such use of the deposits; or

(b) Deposits for at least 25% of the entrance fee have been received from prospective subscribers for not less than 60% of the facility's residential units for which entrance fees will be charged or not less than 60% of the total entrance fees due or expected at full occupancy and the prospective subscribers have agreed in writing to such use of the deposits;

(2) The superintendent has issued a final certificate of authority to the provider;

(3) The superintendent is satisfied that the provider has demonstrated an ability to finance and complete construction in a reasonable manner, without limitation, by showing that:

(a) The deposits together with other funds held by or loaned to the provider are reasonably expected to be sufficient to pay for all costs of construction and equipping of the facility; and

(b) The provider has obtained or has the benefit of performance and payment bonds with respect to construction of the facility; and

(4) The superintendent is satisfied that the provider has obtained all necessary governmental permits and approvals necessary to construct the facility in accordance with all applicable laws, regulations, building codes and ordinances. [PL 1995, c. 452, §19 (NEW).]

[RR 1995, c. 2, §§54, 55 (COR).]

4. Separate facilities. If the provider intends to provide continuing care at more than one facility, the provider must obtain a separate certificate of authority for each facility at which the provider intends to provide continuing care. With the exception of unencumbered surplus funds, funds collected by one facility may not be expended for the benefit of any other facility.

[PL 1987, c. 482, §1 (NEW).]

5. Material changes. Within 60 days prior to any change in the approved continuing care agreement, any other approved form or the health care or supportive services offered, the provider shall submit the proposed change in duplicate to the superintendent for approval. The superintendent shall forward one copy to the department.

[PL 1987, c. 482, §1 (NEW).]

6. Provision of services to nonresidents. The final certificate of authority must state whether any skilled nursing facility that is part of a life-care community or a continuing care retirement community may provide services to persons who have not been bona fide residents of the community prior to admission to the skilled nursing facility. If the life-care community or the continuing care retirement community admits to its skilled nursing facility only persons who have been bona fide residents of the community prior to admission to the skilled nursing facility, then the community is exempt from the provisions of Title 22, chapter 103-A, but is subject to the licensing provisions of Title 22, chapter 405,

and is entitled to only one skilled nursing facility bed for every 4 residential units in the community. Any community exempted under Title 22, chapter 103-A may admit nonresidents of the community to its skilled nursing facility only during the first 3 years of operation. For purposes of this subsection, a "bona fide resident" means a person who has been a resident of the community for a period of not less than 180 consecutive days immediately preceding admission to the nursing facility or has been a resident of the community for less than 180 consecutive days but who has been medically admitted to the nursing facility resulting from an illness or accident that occurred subsequent to residence in the community. Any community exempted under Title 22, chapter 103-A is not entitled to and may not seek any reimbursement or financial assistance under the MaineCare program from any state or federal agency and, as a consequence, that community must continue to provide nursing facility services to any person who has been admitted to the facility.

Notwithstanding this subsection, a life-care community that holds a final certificate of authority from the superintendent and that was operational on November 18, 2002 and that is barred from seeking reimbursement or financial assistance under the MaineCare program from a state or federal agency may continue to admit nonresidents of the community to its skilled nursing facility after its first 3 years of operation with the approval of the superintendent. A life-care community that admits nonresidents to its skilled nursing facility as permitted under this subsection may continue to admit nonresidents after its first 3 years of operation only for such period as approved by the superintendent after the superintendent's consideration of the financial impact on the life-care community and the impact on the contractual rights of subscribers of the community.

[PL 1995, c. 452, §21 (NEW).]

3. Monthly statement; withdrawal of funds. The agreement must require the escrow agent to furnish the provider with a monthly statement indicating the amount of any disbursements from or deposits to the escrow account and the condition of the account during the monthly period covered by the statement. On or before the 20th day of the month following the month for which the monthly statement is due, the provider shall file with the superintendent a copy of the escrow agent's monthly statement.

The escrow agent or the escrow agent's designee and the provider shall notify the superintendent in writing 10 days before the payment to the provider of any portion of any funds required to be escrowed under the provisions of this chapter.

§6215-A. Reserves

A provider shall establish and maintain the following reserves: [PL 1995, c. 625, Pt. A, §29 (NEW).]

1. Mortgage debt. A liquid amount equal to the aggregate amount of all principal and interest payments due during the fiscal year on any mortgage loan or other long-term financing of the facility, which reserve may be held by a lender, mortgagee or trustee for bondholders in a debt service reserve fund or similar fund, including, without limitation, any reserve fund of the Maine Health and Higher Educational Facilities Authority established pursuant to Title 22, chapter 413; [PL 1995, c. 625, Pt. A, §29 (NEW).]

2. Operating reserve. A liquid amount equal to 20% of the total cash operating expenses, other than principal and interest payments on any mortgage loan or other long-term financing of the facility, projected for the forthcoming 12-month period, which reserve may be held by the provider in an operating fund; provided, however, that the percentage of the total cash operating expenses must be increased from 20% to 25% in the case of a provider who offers an extensive health care guarantee. For purposes of this section, "extensive health care guarantee" means a term in a continuing care agreement requiring the provision of health care to the subscriber on a prepaid basis for more than one year; and [PL 1995, c. 625, Pt. A, §29 (NEW).]

3. Reserve liabilities; actuarial value. Each provider shall establish and maintain reserve liabilities that place a sound value on the provider's liabilities under its contracts with subscribers. The reserve must equal the excess of the present value of future benefits promised under the continuing care agreement over the present value of future revenues and any other available resources, based on conservative actuarial assumptions. The provider shall provide every 3 years to the superintendent an actuarial valuation or statement of actuarial opinion as to the adequacy of the reserve, signed by a qualified actuary, that, based on reasonable assumptions, the continuing care retirement community's assets, including the present value of estimated future maintenance fees and any other available resources, are at least equal to the present value of estimated future liabilities.

Unless otherwise approved by the superintendent, the actuarial opinion must be based on reasonable assumptions with the following provisions and margins.

A. The liabilities of a continuing care retirement community must include, but not be limited to:

(1) An amount equal to the present value of future health care expenses guaranteed pursuant to the continuing care contract; and

(2) The liabilities under this section must be calculated for the continuing care retirement community population existing on the valuation date under assumptions that, in the actuary's opinion, fairly represent the expected value of future costs and population decrements adjusted by the margins specified in paragraph B. [PL 1995, c. 625, Pt. A, §29 (NEW).]

B. Margins required to be included in the valuation assumptions to be added to the actuary's best estimate assumptions are as follows.

(1) Health care costs per resident or per health care facility bed must be assumed to increase at a rate at least one percentage point higher than the general inflation rate.

(2) A mortality margin of 5% must be subtracted from that assumed for active residents and 10% subtracted from those in the health care facilities.

(3) A health care utilization margin of 5% must be added to the assumed rates at which residents require permanent transfer to a health care facility.

(4) The discount rate used to calculate present values may not be more than 2 1/2 percentage points higher than the rate used in the valuation of long-term life insurance contracts to be issued in the year of valuation in this State.

(5) All other assumptions must include margins that are adequate in the opinion of the actuary. [PL 1995, c. 625, Pt. A, §29 (NEW).]

[PL 1995, c. 625, Pt. A, §29 (NEW).]

The assessment rate is intended to result in collections no greater than \$500,000 per assessment year. The superintendent shall notify affected parties of any assessment rate adjustment and the effective date of that adjustment.

The program fund balance may be used to pay assistance to qualified eligible physicians in prior years for which there were insufficient funds. If all prior years' eligible qualified physicians have received assistance, any excess funds must be carried forward to subsequent plan years as part of the program fund balance. Excess funds must be applied first to the assessment year commencing July 1, 1998 and then to each successive assessment year.

For the purposes of this section, "program fund balance" means the total funds collected in excess of assistance paid for all years.

[PL 2013, c. 170, §1 (AMD).]

4. Establishment of assessment rate by rule. The superintendent may adopt rules pursuant to section 6311 establishing an assessment rate or a methodology for calculating an assessment rate designed to provide an adequate and reliable funding source for the program and allow for the orderly and prudent drawdown of any long-term fund balance in excess of reasonable program needs. The assessment rate may not result in expected collections exceeding \$500,000 per assessment year and may not exceed 0.75% of premium unless the program fund balance is \$50,000 or less, in which case the assessment rate must be set to a higher rate but may not exceed 1% of premium.

For policy years beginning on or after July 1, 1991, the Bureau of Insurance shall determine the amount available, except that the amount may be no less than the assessment determined for that year.

[PL 1991, c. 734, §5 (AMD).]

2. Determination of participants in the program. The superintendent shall apply the standards of prioritization adopted by the Commissioner of Health and Human Services to determine the physicians who are eligible for the program. The funding available for each qualified physician is the amount equal to the difference between the physician's medical malpractice insurance premiums with obstetrical care coverage and the physician's premiums without obstetrical care coverage; however, the funding must be at least \$5,000 but may not be more than \$15,000 as determined by the superintendent. Program payments must be made to the individual or entity paying the medical malpractice premium for the qualified physician.

SECTION HISTORY

PL 1991, c. 828, §33 (NEW). PL 2017, c. 169, Pt. E, §8 (AMD).

§6404. Minimum standards

1. Applicability. This section applies as follows.

A. This section applies if, in any calendar year, the aggregated amount of gross written premium on business placed with a controlled insurer by a controlling producer is equal to or greater than 5% of the admitted assets of the controlled insurer as of September 30th of the preceding year, as reported in the controlled insurer's quarterly statement. [PL 2017, c. 169, Pt. E, §9 (AMD).]

B. Notwithstanding paragraph A, this section does not apply if:

(1) The controlling producer:

- (a) Places insurance only with the controlled insurer, only with the controlled insurer and a member or members of the controlled insurer's holding company system or only with the controlled insurer's parent, affiliate or subsidiary and receives no compensation based upon the amount of premiums written in connection with such insurance; and
- (b) Accepts insurance placements only from nonaffiliated subproducers and not directly from insureds; and

(2) The controlled insurer, except for insurance business written through a residual market facility such as the workers' compensation residual market mechanism or the State's automobile

assigned risk plan, accepts insurance business only from a controlling producer, a producer controlled by the controlled insurer or a producer that is a subsidiary of the controlled insurer.

[PL 2017, c. 169, Pt. E, §9 (AMD).]

[PL 2017, c. 169, Pt. E, §9 (AMD).]

2. Required contract provisions. A controlled insurer may not accept business from a controlling producer and a controlling producer may not place business with a controlled insurer unless there is a written contract between the controlling producer and the controlled insurer specifying the responsibilities of each party. The contract must be approved by the board of directors of the insurer and must contain the following minimum provisions.

A. The controlled insurer may terminate the contract for cause upon written notice to the controlling producer. The controlled insurer shall suspend the authority of the controlling producer to write business during the pendency of any dispute regarding the cause for the termination. [PL 2017, c. 169, Pt. E, §9 (AMD).]

B. The controlling producer shall render timely accounts to the controlled insurer detailing all material transactions including information necessary to support all commissions, charges and other fees received by or owed to the controlling producer. [PL 2017, c. 169, Pt. E, §9 (AMD).]

C. The controlling producer shall remit all funds due under the terms of the contract to the controlled insurer on at least a monthly basis. The due date must be fixed so that premiums or installments of premiums collected are remitted no later than 90 days after the effective date of any policy placed with the controlled insurer under the contract. [PL 2017, c. 169, Pt. E, §9 (AMD).]

D. All funds collected for the controlled insurer's account must be held in trust by the controlling producer in a fiduciary capacity, in one or more appropriately identified bank accounts in banks that are members of the Federal Reserve System, in accordance with applicable insurance laws. Funds of a controlling producer not licensed in this State must be maintained in compliance with the requirements of the controlling producer's domiciliary jurisdiction. [PL 2017, c. 169, Pt. E, §9 (AMD).]

E. The controlling producer shall maintain separately identifiable records of business written for the controlled insurer. The controlled insurer must have access and may copy all accounts and records related to its business in a form usable by the insurer. The records must be retained according to section 3408. [PL 2017, c. 169, Pt. E, §9 (AMD).]

F. The contract may not be assigned in whole or in part by the controlling producer. [PL 2017, c. 169, Pt. E, §9 (AMD).]

G. The controlled insurer shall provide the controlling producer with its underwriting standards, rules, procedures, rates and conditions, including manuals setting forth the rates to be charged and the conditions for the acceptance or rejection of risks. The controlling producer shall comply with those standards, rules, procedures, rates and conditions, which must be the same as those applicable to comparable business placed with the controlled insurer by a producer other than the controlling producer. [PL 2017, c. 169, Pt. E, §9 (AMD).]

H. The rates of the controlling producer's commissions, charges and other fees may not be greater than those applicable to comparable business placed with the controlled insurer by producers other than controlling producers. For purposes of this paragraph and paragraph G, examples of "comparable business" include the same lines of insurance, the same kinds of insurance, the same kinds of risks, similar policy limits and similar quality of business. [PL 2017, c. 169, Pt. E, §9 (AMD).]

I. If the contract provides that the controlling producer, on insurance business placed with the insurer, must be compensated contingent upon the insurer's profits on that business, then that compensation may not be determined and paid until at least 5 years after the premiums on liability

insurance are earned and at least one year after the premiums are earned on any other insurance. The commissions may not be paid until the adequacy of the controlled insurer's reserves on remaining claims are independently verified pursuant to subsection 3. [PL 2017, c. 169, Pt. E, §9 (AMD).]

J. The controlled insurer shall place a limit on the controlling producer's writings in relation to the controlled insurer's surplus and total writings. The insurer may establish a different limit for each line or subline of business. The controlled insurer shall notify the controlling producer when the applicable limit is approached and may not accept business from the controlling producer if the limit is reached. The controlling producer may not place business with the controlled insurer if notified by the controlled insurer that the limit has been reached. [PL 2017, c. 169, Pt. E, §9 (AMD).]

K. The controlling producer may negotiate but may not bind reinsurance on behalf of the controlled insurer on business the controlling producer places with the controlled insurer, except that the controlling producer may bind facultative reinsurance contracts pursuant to obligatory facultative agreements. All such contracts with the controlled insurer must contain underwriting guidelines including, for reinsurance both assumed and ceded, a list of reinsurers with which the automatic agreements are in effect, the coverages and amounts or percentages that may be reinsured and schedules of the commissions allowed. [PL 2017, c. 169, Pt. E, §9 (AMD).]

[PL 2017, c. 169, Pt. E, §9 (AMD).]

3. Audit committee. Every controlled insurer must have an audit committee of the board of directors composed of independent directors. The audit committee shall annually meet with management, the insurer's independent certified public accountants and an independent casualty actuary acceptable to the superintendent to review the adequacy of the insurer's loss reserves.

[PL 1991, c. 828, §33 (NEW).]

4. Reporting requirements. A controlled insurer shall make the following reports.

A. In addition to any other required loss reserve certification, by April 1st of each year, the controlled insurer shall file with the superintendent an opinion of an independent casualty actuary acceptable to the superintendent reporting loss ratios for each line of business written and attesting to the adequacy of loss reserves established for losses incurred and outstanding at the preceding year end, including incurred but not reported losses, on business placed by the controlled producer. [PL 2017, c. 169, Pt. E, §9 (AMD).]

B. The controlled insurer shall report annually to the superintendent the amount of commissions paid to the controlling producer, the percentage that amount represents of the net premiums written and comparable amounts and percentage paid to noncontrolling producers for placement of the same kinds of insurance. [PL 2017, c. 169, Pt. E, §9 (AMD).]

§6405. Disclosure

Before the effective date of any policy placed with a controlled insurer by a controlling producer or a controlling producer's subproducer, the controlling producer shall deliver written notice to the prospective insured disclosing the relationship between the producer and the controlled insurer, except that if the business is placed through a subproducer who is not a controlling producer, the controlling producer shall retain and enforce a signed commitment from the subproducer that the subproducer is aware of the relationship between the insurer and the controlling producer and that the subproducer has notified or will notify the insured. If the superintendent has good cause to believe that a controlled insurer or any policyholder of the controlled insurer has suffered any loss or damage resulting from a violation of this chapter, the superintendent may maintain a civil action or intervene in an action brought by or on behalf of the insurer or policyholder for recovery of compensatory damages or other appropriate relief for the benefit of the insurer or policyholder.

[PL 2017, c. 169, Pt. E, §11 (RPR).]

2. Civil action by receiver. If an order for liquidation or rehabilitation of a controlled insurer is entered pursuant to chapter 57 and a receiver is appointed, and the receiver has good cause to believe that the controlling producer or any other person has not complied with this chapter or any rule or order made under this chapter and that the insurer suffered any loss or damage because of that noncompliance, the receiver may maintain a civil action for recovery of damages or other appropriate sanctions for the benefit of the insurer.

[PL 2017, c. 169, Pt. E, §12 (AMD).]

3. Other action. Nothing contained in this section affects the right of the superintendent to impose any penalties or other remedies authorized under section 12-A or other applicable law.

C. Provide projections of the insurer's financial results in the current year and at least the 4 succeeding years, with consideration given to the effect of implementing and not implementing the proposed corrective actions, including projections of statutory operating income, net income, capital and surplus. The projections for new and renewal business may include separate projections for each major line of business and separately identify each significant income, expense and benefit component; [PL 1993, c. 634, Pt. [PL 1999, c. 113, §26 (AMD).]

4. Review by superintendent. Within 60 days after the submission by an insurer of a risk-based capital plan to the superintendent pursuant to this section, the superintendent shall notify the insurer whether the risk-based capital plan may be implemented or is, in the judgment of the superintendent, unsatisfactory. If the superintendent determines the risk-based capital plan is unsatisfactory, the notification to the insurer must set forth the reasons for the determination and may set forth proposed

revisions that will render the risk-based capital plan satisfactory, in the judgment of the superintendent. Upon notification from the superintendent, the insurer shall prepare a revised risk-based capital plan, which may incorporate by reference any revisions proposed by the superintendent, and shall submit the revised risk-based capital plan to the superintendent:

A. Within 45 days after the notification from the superintendent; or [PL 1993, c. 634, Pt. A, §1 (NEW).]

A. That state has a risk-based capital provision substantially similar to that required by this chapter; and [PL 1993, c. 634, Pt. A, §1 (NEW).]

B. The insurance regulator of that state has notified the insurer of its request for the filing in writing, in which case the insurer shall file a copy of the risk-based capital plan or revised risk-based capital plan in that state no later than the later of:

(1) Fifteen days after the receipt of notice to file a copy of its risk-based capital plan or revised risk-based capital plan with the state; or

1. Regulatory action level event; defined. "Regulatory action level event" means, with respect to any insurer, any of the following events:

A. The filing of a risk-based capital report by the insurer that indicates that the insurer's total adjusted capital is greater than or equal to its authorized control level risk-based capital but less than its regulatory action level risk-based capital; [PL 1993, c. 634, Pt. A, §1 (NEW).]

B. Provided the insurer does not challenge the adjusted risk-based capital report under section 6457, the notification by the superintendent to an insurer of an adjusted risk-based capital report that indicates the event in paragraph A; [PL 1993, c. 634, Pt. A, §1 (NEW).]

G. If the insurer, under section 6457, challenges a determination by the superintendent under paragraph F, the notification by the superintendent to the insurer that the superintendent has, after a hearing, rejected that challenge; [PL 1993, c. 634, Pt. A, §1 (NEW).]

H. Provided the insurer has not challenged the determination under section 6457, the notification by the superintendent to the insurer that the insurer has failed to adhere to its risk-based capital plan or revised risk-based capital plan, but only if that failure has a substantial adverse effect on the ability of the insurer to eliminate the company action level event or regulatory action level event in accordance with its risk-based capital plan or revised risk-based capital plan and the superintendent has so stated in the notification; or [PL 1999, c. 113, §28 (AMD).]

I. If the insurer, under section 6457, challenges a determination by the superintendent under paragraph H, the notification by the superintendent to the insurer that the superintendent has, after a hearing, rejected the challenge unless the failure of the insurer to adhere to its risk-based capital plan or revised risk-based capital plan has no substantial adverse effect on the ability of the insurer to eliminate the company action level event or regulatory action level event with respect to the insurer. [PL 1999, c. 113, §28 (AMD).]

[PL 1999, c. 113, §28 (AMD).]

C. Subsequent to the examination or analysis, issue a corrective order specifying corrective actions that the superintendent considers necessary. [PL 1993, c. 634, Pt. A, §1 (NEW).]

[PL 1993, c. 634, Pt. A, §1 (NEW).]

3. Determination of corrective actions. In determining corrective actions, the superintendent may take into account those factors that the superintendent considers relevant with respect to the insurer based upon the superintendent's examination or analysis of the assets, liabilities and operations of the insurer, including, but not limited to, the results of any sensitivity tests undertaken pursuant to the risk-based capital instructions. The risk-based capital plan or revised risk-based capital plan must be submitted:

A. Within 45 days after the occurrence of the regulatory action level event; [PL 1993, c. 634, Pt. A, §1 (NEW).]

B. If the insurer challenges an adjusted risk-based capital report under section 6457 and the challenge is not, in the judgment of the superintendent, frivolous, within 45 days after the notification to the insurer that the superintendent has, after a hearing, rejected the insurer's challenge; or [PL 1993, c. 634, Pt. A, §1 (NEW).]

C. If the insurer challenges a revised risk-based capital plan under section 6457, within 45 days after notification to the insurer that the superintendent has, after a hearing, rejected the insurer's challenge. [PL 1993, c. 634, Pt. A, §1 (NEW).]

[PL 1993, c. 634, Pt. A, §1 (NEW).]

For insurers offering managed care plans as defined in section 4301-A, the analysis of the insurer's operations may include an analysis of its contractual relationships with providers and the ability of the providers to fulfill their contractual obligations. The fees, costs and expenses relating to consultants must be borne by the affected insurer or such other party as directed by the superintendent.

If the superintendent takes those actions, the mandatory control level event is deemed sufficient grounds for the superintendent to take action under chapter 57, and the superintendent has the rights, powers and duties with respect to the insurer as are set forth in chapter 57. If the superintendent takes actions pursuant to an adjusted risk-based capital report, the insurer is entitled to those protections that are afforded to insurers under the provisions of chapter 57, subchapter 2 pertaining to summary proceedings.

A. The superintendent may forgo action for up to 90 days after the mandatory control level event if the superintendent finds there is a reasonable expectation that the mandatory control level event may be eliminated within the 90-day period. [PL 2017, c. 169, Pt. F, §1 (NEW).]

§6458. Confidentiality and prohibition on announcements

1. Confidentiality. The following constitute information that might be damaging to the insurer if made available to its competitors and must be kept confidential by the superintendent:

- A. Risk-based capital reports, with respect to any domestic insurer or foreign insurer, that are filed with the superintendent, to the extent that the information in the reports is not required to be set forth in a publicly available annual statement schedule; and [PL 1993, c. 634, Pt. by any insurer, agent, broker or other person engaged in any manner in the insurance business would be misleading and is prohibited; provided, however, that if any materially false statement with respect to the comparison between an insurer's total adjusted capital to its risk-based capital levels or an inappropriate comparison of any other amount to the insurer's risk-based capital levels is published in any written publication and the insurer is able to demonstrate to the superintendent with substantial proof the falsity of that statement, or the inappropriateness, as the case may be, then the insurer may publish an announcement in a written publication if the sole purpose of the announcement is to rebut the materially false statement.

[PL 1993, c. 634, Pt. A, §1 (NEW).]

3. Prohibition on use in ratemaking. Risk-based capital instructions, risk-based capital reports, adjusted risk-based capital reports, risk-based capital plans and revised risk-based capital plans may not be used by the superintendent for purposes of rate review, considered or used as evidence in any rate proceeding or used by the superintendent to calculate or derive any elements of an appropriate premium level or appropriate rate of return. This subsection does not prohibit the consideration of premium rates and projected or realized rates of return for purposes of company action or regulatory action taken under this chapter.

"Multiple-employer welfare arrangement" or "arrangement" means an employer welfare benefit plan or any other arrangement that is established or maintained for the purpose of offering or providing health benefits to the employees of 2 or more employers or to their beneficiaries. For the purposes of this chapter only, an employer welfare benefit plan or any other arrangement that, after April 30, 1996, is established or maintained for the purpose of offering or providing health benefits to employees leased to client companies by an employee leasing company required to be registered under Title 32, chapter 125 must be treated as a multiple-employer welfare arrangement within the meaning of this chapter. "Multiple-employer welfare arrangement" does not include a plan or arrangement established or maintained before January 1, 1993 by the State, a political subdivision of the State or an association composed of political subdivisions of the State primarily to cover its employees, former employees or their dependents, nor does it include a plan or arrangement established or maintained under or pursuant to one or more agreements deemed collective bargaining agreements under the federal Employee Retirement Income Security Act of 1974, Section 3(40)(A)(i), as amended. For purposes of this chapter, 2 or more trades or businesses, whether or not incorporated, are deemed a single employer if those trades or businesses are under common ownership or within the same control group as defined under the federal Employee Retirement Income Security Act of 1974, Section 3(40)(B). For the purposes of this chapter only, each of an employee leasing company's client companies, as defined in Title 32, section 14051, is considered a separate employer as long as it is not deemed a single employer under this subsection.

[PL 1995, c. 618, §5 (AMD).]

6. Participation agreement. "Participation agreement" means the document pursuant to which an employer undertakes and agrees to fulfill the obligation of employers imposed by the declaration of trust.

- (3) With respect to any health care benefits provided on other than a fully insured basis, that specific excess insurance is maintained with a retention level adequate for the plan; and
- (4) With respect to any health care benefits provided on other than a fully insured basis, that appropriate loss and loss expense reserves are maintained that are adequate for the plan. [PL 1995, c. 618, §7 (NEW).]

D. Any necessary excess insurance must be purchased from an insurer licensed to transact health or casualty insurance in the State. [PL 1995, c. 618, §7 (NEW).]

E. The arrangement shall issue to each covered employee a contract, certificate, summary plan description or other evidence of the benefits and coverages provided. This evidence of the benefits and coverages provided must contain in boldface print in a conspicuous location the following statement: "The benefits and coverages described herein are provided by [name of employee leasing company] on a self-insured basis, not through a contract with a commercial insurance carrier." If the benefit plan or arrangement was in existence before April 30, 1996 and had previously issued benefit descriptions to the covered employees, the arrangement shall issue to each employee the additional written material necessary to meet the requirements of this paragraph. If any information is not available at the time of application, the arrangement shall specify in the letter when that information will be provided. [PL 1995, c. 618, §7 (NEW).]

3. Other provisions. An arrangement approved pursuant to the requirements of this section is also subject to the requirements of sections 6606, 6607, 6610, 6614 and 6616.

[PL 1995, c. 618, §7 (NEW).]

4. Grounds for denial, suspension or revocation of arrangement. The superintendent, in the superintendent's discretion, may deny, suspend or revoke the authorization granted pursuant to this section if the superintendent finds that the arrangement has failed to meet the requirements of this section, has refused to produce the required financial information or has refused to correct a deficiency determined pursuant to section 6606. When failure to maintain compliance with the requirements of this section is the grounds for suspension or revocation of authority of an arrangement, the arrangement has 60 days after notification by the superintendent to take action necessary to correct the deficiency.

SECTION HISTORY

PL 1993, c. 688, §1 (NEW).

§6606. Deficiency in reserves, assets or reinsurance

1. Examination of finances. The superintendent may conduct, upon reasonable notice, an examination to determine the financial condition of an arrangement. For arrangements subject to the requirements of section 6603-A, the examination must be limited to the work of the certified public accountant conducting the annual audit or submitting the quarterly filings required by that section. For all other arrangements, examiners duly qualified by the superintendent may examine the loss reserves, assets, liabilities, excess insurance and working capital of a multiple-employer welfare arrangement. If

the superintendent finds that the reserves, excess insurance or assets may be inadequate, or that the arrangement does not have working capital in an amount establishing the financial strength and liquidity of the arrangement to pay claims promptly and showing evidence of the financial ability of the arrangement to meet its obligations to covered employees, the superintendent shall notify the arrangement of the inadequacy. Upon notification, the arrangement shall file within 30 days with the superintendent its written plan specifying remedial action to be taken and the time for implementation of that plan.

[PL 1995, c. 618, §10 (AMD).]

2. Correction of deficiency. If the superintendent determines, after reviewing the information filed, that a hazardous financial condition exists, the arrangement shall implement within 30 days its plan to correct any deficiencies and shall file with the superintendent proof of remedial action taken within 60 days. §6607. Trust deposit or surety bond

If the superintendent determines that a multiple-employer welfare arrangement has failed to establish or maintain the actuarially indicated level of funding as required, the superintendent may require the arrangement to file a security deposit or a surety bond in accordance with this section. [PL 1995, c. 618, §11 (AMD).]

1. Deposit. If required, deposit funds, which may consist of cash, securities or any combination of cash and securities acceptable to the superintendent, must be filed with the superintendent for deposit with the Treasurer of State in an amount equal to the greater of either 25% of the immediately preceding 12 months' health care claims expenditures or 15% of the expected gross annual contributions for the current year. In no case may the amount of the deposit be less than \$50,000 or more than \$1,000,000 except that the superintendent, after due notice to all interested parties and opportunity for hearing, and after consideration of the records, may prescribe an amount in excess of \$1,000,000. All income from deposits belongs to the depositing arrangement and must be paid to it when received. An arrangement that has made a security deposit, subject to approval of the superintendent, may withdraw that deposit or any part of that deposit after making a substitute deposit of cash, securities or any combination of cash and securities of equal amount and value. A judgment creditor or other claimant of a multiple-employer welfare arrangement may not levy upon any of the assets or securities held in this State as a deposit under this section.

[PL 1993, c. 688, §1 (NEW).]

2. Surety bond in lieu of deposit. In lieu of the deposit required under subsection 1, an arrangement may file with the superintendent a surety bond in like amount. The bond must be one issued by an authorized surety insurer, must be for the same purpose as the deposit in lieu of which it is filed and must be in a form prescribed by the superintendent. A bond may not be canceled or subject to cancellation unless at least 60 days' advance notice of cancellation in writing is filed with the superintendent and the chair of the trustees.

[PL 1993, c. 688, §1 (NEW).]

3. Insolvency termination. In the event of a termination of an arrangement due to insolvency, a determination of impairment or the failure of the arrangement to pay any final judgment rendered against it in this State within 30 days after the judgment becomes final, the deposit held by the superintendent pursuant to subsection 1 or the bond held by the superintendent pursuant to subsection

2 must be applied to the extent of the insolvency or to the extent of any default in payment of benefit claims. Any deposit funds remaining in excess of the amount needed to make the arrangement solvent must be distributed in accordance with section 6610.

[PL 1993, c. 688, §1 (NEW).]

2. Grounds for disapproval of forms by superintendent. The superintendent may disapprove a form filed under this section or withdraw previous approval of a form only if the form:

A. Violates or does not comply with this chapter; [PL 1993, c. 688, §1 (NEW).]

B. Contains or incorporates by reference inconsistent, ambiguous or misleading clauses or exceptions and conditions that deceptively affect the risk proposed to be assumed in the general coverage of the contract; [PL 1993, c. 688, §1 (NEW).]

C. Has any title, heading or other indication of its provisions that is misleading; [PL 1993, c. 688, §1 (NEW).]

D. Is printed or otherwise reproduced in such manner as to render any material provision of the form substantially illegible; or [PL 1993, c. 688, §1 (NEW).]

E. Contains provisions that are unfair, inequitable or encourage misrepresentation. [PL 1993, c. 688, §1 (NEW).]

1. Liability of each employer participant. The liability of each employer participant for the obligations of the multiple-employer welfare arrangement is joint and several.

[PL 1993, c. 688, §1 (NEW).]

2. Contingent assessment liability. Each employer participant has a contingent assessment liability pursuant to section 6610 for payment of actual losses and expenses incurred while the participation agreement was in force.

[PL 1993, c. 688, §1 (NEW).]

3. Statement of contingent liability. Each participation agreement or contract issued by the arrangement must contain a statement of the contingent liability of employer participants. Both the application for participation and the participation agreement must contain, in contrasting color and not less than 10-point type, the following statement: "This is a fully assessable contract. In the event the arrangement is unable to pay its obligations, participating employers will be required to contribute through an equitable assessment the money necessary to meet any unfulfilled obligations."

SECTION HISTORY

PL 1993, c. 688, §1 (NEW).

§6610. Termination

If an arrangement is terminated for any reason, the trust may not be dissolved until all outstanding claims, debts and obligations of the arrangement are paid. The arrangement may retain sufficient funds to provide coverage for an additional period as the trustees of the arrangement consider prudent. In addition, the trustees may purchase additional insurance they consider necessary for protection against potential future claims. Any funds remaining in the arrangement after satisfaction of all obligations must be paid to participating employers or covered employees in an equitable manner meeting with the approval of the superintendent, including, without ruling out other alternatives, equally on a per capita basis to each participating employer or employee who is covered under the arrangement as of the effective date of termination. Written notice of the termination of the arrangement must be provided to each covered employee, the Department of Labor, Bureau of Labor Standards and the superintendent at least 10 days before the effective date of the termination. [PL 1995, c. 618, §12 (AMD).]

If an arrangement provided by a registered employee leasing company is terminated for any reason, written notice of the termination of the arrangement must be provided by the employee leasing company to each covered employee, the client companies involved, the Department of Labor, Bureau of Labor Standards and the superintendent at least 10 days before the effective date of the termination. §6611. Annual report; actuarial report

1. Filing required. Annually within 4 months of the end of the fiscal year or within such extension of time as the superintendent for good cause may grant, every arrangement shall file a report with the superintendent, verified by the oath of the chair of the board of trustees. The report must summarize the business activities of the trust for the immediately preceding year and must contain a financial statement of the arrangement, including its balance sheet and a statement of operations for the preceding year certified by an independent certified public accountant. The report must also include an analysis of the adequacy of reserves and contributions or premiums charged based on a review of past and projected claims and expenses. [PL 1993, c. 688, §1 (NEW).]

1-A. Accountant's letter or qualification. The annual financial statement of the arrangement must include a letter of qualification from the certifying accountant stating:

A. That the accountant is independent with respect to the arrangement and conforms to the standards of the accountant's profession as contained in the code of professional ethics and pronouncements of the American Institute of Certified Public Accountants and the rules of professional conduct of the appropriate state Board of Accountancy or similar code; [PL 1995, c. 618, §13 (NEW).]

B. The background and experience in general and the experience in audits or arrangements of the staff assigned to the engagement and whether each is an independent certified public accountant. This requirement may not be construed as prohibiting the accountant from utilizing staff as the accountant considers appropriate where that is consistent with the standards prescribed by generally accepted auditing standards; [PL 1995, c. 618, §13 (NEW).]

C. That the accountant understands the annual audited financial report and the accountant's opinion will be filed in compliance with this requirement and that the accountant knows the superintendent will be relying on this information in the monitoring and regulation of the financial position of the arrangement; [PL 1995, c. 618, §13 (NEW).]

D. That the accountant consents and agrees to make available for review by the superintendent or the superintendent's designee or appointed agent, the accountant's workpapers relating to the arrangement. For purposes of this paragraph, workpapers are the records kept by the accountant of the procedures followed, the tests performed, the information obtained and the conclusions reached pertinent to the accountant's examination of the financial statements of the arrangement. Workpapers may include audit planning documents, work programs, analyses, memoranda, letters of confirmation and representation, abstracts of arrangement documents and schedules or commentaries prepared or obtained by the accounts in the course of the accountant's examination; and [PL 1995, c. 618, §13 (NEW).]

E. A representation that the accountant is properly licensed by an appropriate state licensing authority and that the accountant is a member in good standing in the American Institute of Certified Public Accountants. [PL 1995, c. 618, §13 (NEW).]
[PL 1995, c. 618, §13 (NEW).]

2. Actuarial report. At least once every 2 years each arrangement must have a report prepared by an actuary who is an associate or fellow of the Society of Actuaries and the American Academy of Actuaries as to the actuarial soundness of the arrangement. After an arrangement has filed 2 actuarial reports pursuant to this subsection, an arrangement may request that the superintendent grant a waiver of the filing requirement to the arrangement. If required, the report must be filed with the superintendent. The report must consist of at least the following:

A. An assessment of the adequacy of contribution rates in meeting the level of benefits provided and changes, if any, needed in the contribution rates to achieve or preserve a level of funding adequate to enable payment of the benefit amounts provided under the arrangement, which must include a valuation of present assets, valued in accordance with insurance accounting precepts, and prospective assets and liabilities of the plan and the extent of unfunded accrued liabilities; [PL 1993, c. 688, §1 (NEW).]

B. A plan and schedule to amortize any unfunded liabilities and a description of actions taken to reduce unfunded liabilities; [PL 1993, c. 688, §1 (NEW).]

C. A description and explanation of actuarial assumptions; [PL 1993, c. 688, §1 (NEW).]

Failure to maintain actuarially appropriate loss reserves as determined by the superintendent, except that the superintendent shall issue at least one warning to the captive insurance company requiring it to correct the problem prior to suspending or revoking the license; and [PL 1997, c. 435, §1 (NEW).]

§6721. Rules for controlled unaffiliated business

The superintendent may adopt rules establishing standards to ensure that a parent or affiliated company is able to exercise control of the risk management function of any controlled unaffiliated business to be insured by a pure captive insurance company. In the absence of any rules, the superintendent may approve the coverage of such risks by a pure captive insurance company upon request. Any rules adopted by the superintendent pursuant to this section are routine technical rules as described in Title 5, chapter 375, subchapter 2-A. [PL 2009, c. 335, §21 (NEW).]

SECTION HISTORY

PL 2009, c. 335, §21 (NEW).

§6722. Conversion to or merger with reciprocal insurer

1. Authority for conversion or merger. A captive insurance company, association captive insurance company or industrial insured captive insurance company formed as a stock or mutual insurer may convert to or merge with a reciprocal insurer with the approval of the superintendent in accordance with a plan of operation and with the requirements of this section. Any plan for conversion or merger must provide a fair and equitable mechanism for purchasing, retiring or otherwise extinguishing the interests of stockholders and policyholders of a stock insurer and the interests of members and policyholders of a mutual insurer, including a fair and equitable provision for the rights and remedies of dissenting stockholders, members or policyholders. [PL 2009, c. 335, §22 (NEW).]

2. Conversion. The superintendent may not approve a plan of conversion unless the plan:

A. Provides notice of the opportunity to request a hearing to directors, officers, stockholders, members and policyholders of the captive insurance company. If no request for a hearing is received, the superintendent is not required to hold a hearing in the superintendent's discretion; [PL 2009, c. 335, §22 (NEW).]

B. Provides a fair and equitable plan for the conversion of stockholder, member or policyholder interests into subscriber interests in the resulting reciprocal insurer in a substantially proportionate manner to the corresponding interest in the stock or mutual insurer except that the resulting reciprocal insurer is not precluded from applying underwriting criteria that may affect ongoing ownership interests; [PL 2009, c. 335, §22 (NEW).]

C. In the case of a stock insurer, has been approved by a majority of voting shares represented in person or by proxy at a duly called regular or special meeting at which a quorum is present; and [PL 2009, c. 335, §22 (NEW).]

D. In the case of a mutual insurer, has been approved by a majority of the voting interests of policyholders represented in person or by proxy at a duly called regular or special meeting at which a quorum is present. [PL 2009, c. 335, §22 (NEW).]

The superintendent shall approve a plan of conversion if the superintendent finds that the conversion will promote the general good of the State in conformity with this chapter. If the superintendent approves the plan, the superintendent shall amend the converting insurer's certificate of authority to reflect conversion to a reciprocal insurer and issue the amended certificate of authority to the converting insurer's designated attorney. The conversion is effective upon the issuance of the amended certificate

of authority by the superintendent. Upon the conversion, the corporate existence of the converting insurer ceases and the resulting reciprocal insurer shall notify the Secretary of State of the conversion. [PL 2009, c. 335, §22 (NEW).]

3. Merger. A plan of merger may not be approved by the superintendent unless the plan of merger satisfies the same requirements in subsection 2, paragraphs A to D. The superintendent may permit the formation, without surplus, of a captive insurance company organized as a reciprocal insurer into which an existing captive insurance company may be merged for the purpose of facilitation of a transaction under this section except that no more than one authorized insurance company may survive the merger. An alien insurer may be a party to a merger authorized under this section if the requirements of this Title for a merger between a domestic and foreign insurer are met. For the purposes of this section, the alien insurer is treated as a foreign insurer and the jurisdiction of the alien insurer is considered a state. [PL 2009, c. 335, §22 (NEW).]

4. Effect. A conversion or merger pursuant to this section has all of the effects of a conversion or merger approved pursuant to this Title to the extent that such effects are not inconsistent with the provisions of this chapter.

B. "Participant contract" means a contract by which a sponsored captive insurance company insures the risks of a participant. [PL 2009, c. 335, §23 (NEW).]

C. "Protected cell" means a separate account established by a sponsored captive insurance company formed or licensed under the provisions of this chapter in which assets are maintained for one or more participants in accordance with the terms of one or more participant contracts to fund the liability of the sponsored captive insurance company assumed on behalf of the participants as set forth in the participant contracts. [PL 2009, c. 335, §23 (NEW).]

D. "Sponsor" means an entity that meets the requirements of subsection 5 and is approved by the superintendent to provide all or part of the capital and surplus required by applicable law and to organize and operate a sponsored captive insurance company. [PL 2009, c. 335, §23 (NEW).]

E. "Sponsored captive insurance company" means a captive insurance company:

(1) In which the minimum capital and surplus required by applicable law is provided by one or more sponsors;

(2) That is formed or licensed under the provisions of this chapter;

(3) That insures the risks only of its participants through separate participant contracts; and

(4) That funds its liability to each participant through one or more protected cells and segregates the assets of each protected cell from the assets of other protected cells and from the assets of the sponsored captive insurance company's general account. [PL 2009, c. 335, §23 (NEW).]

[PL 2009, c. 335, §23 (NEW).]

2. Formation. One or more sponsors may form a sponsored captive insurance company under this chapter. In addition to the general provisions of this chapter, the provisions of this section apply to sponsored captive insurance companies. A sponsored captive insurance company must be incorporated as a stock insurer with its capital divided into shares and held by the stockholder, as a nonprofit corporation with one or more members or as a limited liability company with a limited liability company agreement approved by the superintendent.

[PL 2017, c. 169, Pt. G, §10 (AMD).]

3. Supplemental application materials. In addition to the information required by section 6702, each applicant sponsored captive insurance company shall file with the superintendent the following:

A. Materials demonstrating how the applicant will account for the loss and expense experience of each protected cell at a level of detail found to be sufficient by the superintendent and how it will report the experience to the superintendent; [PL 2009, c. 335, §23 (NEW).]

B. A statement acknowledging that all financial records of the sponsored captive insurance company, including records pertaining to any protected cells, will be made available for inspection or examination by the superintendent or the superintendent's designated agent; [PL 2009, c. 335, §23 (NEW).]

C. All contracts or sample contracts between the sponsored captive insurance company and any participants; and [PL 2009, c. 335, §23 (NEW).]

D. Evidence that expenses will be allocated to each protected cell in a fair and equitable manner. [PL 2009, c. 335, §23 (NEW).]

[PL 2009, c. 335, §23 (NEW).]

4. Protected cells. A sponsored captive insurance company formed or licensed under the provisions of this chapter may establish and maintain one or more protected cells to insure risks of one or more participants, subject to the following conditions:

A. The shareholders of a sponsored captive insurance company must be limited to its participants and sponsors, except that a sponsored captive insurance company may issue nonvoting securities to other persons on terms approved by the superintendent; [PL 2009, c. 335, §23 (NEW).]

B. Each participant contract must specify one or more protected cells as the sole source of the participant's coverage and limit the covered losses of the participant to an amount not to exceed the amount recoverable from the assets of the protected cell or cells identified in the contract and shall provide for pro rata distribution if the assets of a cell are insufficient to pay all liabilities to participants. If the sponsored captive insurance company enters into a contract involving more than one protected cell, the rights and obligations relating to each protected cell must be several rather than joint and the contract must make clear provisions for apportionment of the rights and obligations between protected cells; [PL 2017, c. 169, Pt. G, §11 (AMD).]

B-1. A sponsored captive insurance company may only reinsure risks of its participants, and its liability to a ceding insurer must be limited to amounts recoverable from the assets of the protected cell or cells participating in the risks giving rise to the underlying losses in accordance with paragraph B. Any management fees or other unallocated expenses payable to a ceding insurer or its affiliate or contractor must be charged pro rata to the protected cell or cells assuming the reinsurance and may not be a liability of the general account; [PL 2017, c. 169, Pt. G, §12 (NEW).]

C. Each protected cell must be accounted for separately on the books and records of the sponsored captive insurance company to reflect the financial condition and results of operations of each protected cell, net income or loss, dividends or other distributions to participants and such other factors as may be provided in the participant contract or required by the superintendent. All attributions of assets and liabilities between a protected cell and the general account must be in

accordance with the plan of operation approved by the superintendent; [PL 2017, c. 169, Pt. G, §13 (AMD).]

D. The assets of a protected cell may not be chargeable with liabilities arising out of any other insurance business the sponsored captive insurance company may conduct; [PL 2009, c. 335, §23 (NEW).]

E. A sale, exchange or other transfer of assets may not be made by a sponsored captive insurance company between or among any of its protected cells without the consent of the protected cells; [PL 2009, c. 335, §23 (NEW).]

F. A sale, exchange, transfer of assets, dividend or distribution may not be made from a protected cell to a sponsor or participant without the superintendent's approval and in no event may approval be given if the sale, exchange, transfer, dividend or distribution would result in insolvency or impairment with respect to a protected cell; [PL 2009, c. 335, §23 (NEW).]

G. Each sponsored captive insurance company must annually file with the superintendent such financial reports as the superintendent requires, which must include, without limitation, accounting statements detailing the financial experience of each protected cell; [PL 2009, c. 335, §23 (NEW).]

H. Each sponsored captive insurance company must notify the superintendent in writing within 10 business days of any protected cell that is insolvent or otherwise unable to meet its claim or expense obligations; [PL 2009, c. 335, §23 (NEW).]

I. A participant contract may not take effect without the superintendent's prior written approval, and the addition of each new protected cell and withdrawal of any participant or termination of any existing protected cell constitutes a change in the business plan requiring the superintendent's prior written approval; [PL 2009, c. 335, §23 (NEW).]

J. The business written by a sponsored captive insurance company, with respect to each protected cell, must be:

- (1) Fronted by a properly licensed insurance company;
- (2) Reinsured by a reinsurer authorized or approved by the superintendent; or
- (3) Secured by a trust fund in the United States for the benefit of policyholders and claimants or funded by an irrevocable letter of credit or other arrangement that is acceptable to the superintendent. The amount of security provided must be no less than the reserves associated with those liabilities that are neither fronted nor reinsured, including reserves for losses, allocated loss adjustment expenses, incurred but not reported losses and unearned premiums for business written through the participant's protected cell. The superintendent may require the sponsored captive insurance company to increase the funding of any security arrangement established under this subparagraph. If the form of security is a letter of credit, the letter of credit must be established, issued or confirmed by a bank chartered in this State or a member of the Federal Reserve System and established in a form and upon such terms approved by the superintendent; [PL 2009, c. 335, §23 (NEW).]

K. In any action or proceeding involving the potential for monetary recovery by or against a sponsored captive insurance company or for nonmonetary relief relating to a particular protected cell or cells, any process, pleading or order must name the specific protected cell or cells affected, including if applicable the general account; and [PL 2009, c. 335, §23 (NEW).]

L. A sponsored captive insurance company shall notify the superintendent in writing within 10 business days after the company or any protected cell becomes impaired or insolvent. [PL 2017, c. 169, Pt. G, §14 (AMD).]

[PL 2017, c. 169, Pt. G, §§11-14 (AMD).]

5. Qualification of sponsors. A sponsor of a sponsored captive insurance company must be an insurer licensed under the laws of any state, a reinsurer authorized or approved under the laws of any state, a captive insurance company formed or licensed under this chapter, a broker-dealer licensed pursuant to the Maine Uniform Securities Act, a financial institution or financial institution holding company authorized under Title 9-B, including any affiliate or subsidiary of such financial institution holding company, or any other person approved by the superintendent in the exercise of the superintendent's discretion after finding that the approval of a person as a sponsor is not inconsistent with the purposes of this chapter. A risk retention group authorized pursuant to chapter 72-A may not be either a sponsor or a participant of a sponsored captive insurance company.
[PL 2009, c. 335, §23 (NEW).]

6. Participants in sponsored captive insurance companies. The following may be participants in a sponsored captive insurance company:

A. Associations, corporations, limited liability companies, partnerships, trusts and other business entities may be participants in any sponsored captive insurance company formed or licensed under this chapter; [PL 2009, c. 335, §23 (NEW).]

B. A sponsor may be a participant in a sponsored captive insurance company; [PL 2009, c. 335, §23 (NEW).]

C. A participant need not be a shareholder of the sponsored captive insurance company or any affiliate thereof; and [PL 2009, c. 335, §23 (NEW).]

D. A participant may insure only its own risks through a sponsored captive insurance company.
[PL 2009, c. 335, §23 (NEW).]

[PL 2009, c. 335, §23 (NEW).]

7. Investments by sponsored captive insurance companies. Notwithstanding the provisions of subsection 5, the assets of 2 or more protected cells may be combined for purposes of investment, and such a combination may not be construed as defeating the segregation of assets for accounting or other purposes. Sponsored captive insurance companies shall comply with the investment requirements contained in this Title, as applicable, except that compliance with such investment requirements must be waived for sponsored captive insurance companies to the extent that credit for reinsurance ceded to reinsurers is allowed pursuant to section 6711 or to the extent otherwise considered reasonable and appropriate by the superintendent. Section 6707 applies to sponsored captive insurance companies except to the extent it is inconsistent with approved accounting standards in use by the company. Notwithstanding any other provision of this Title, the superintendent may approve the use of alternative reliable methods of valuation and rating.

[PL 2009, c. 335, §23 (NEW).]

8. Delinquency of sponsored captive insurance companies or protected cells. In the case of a sponsored captive insurance company, the provisions of section 6714 apply, except as otherwise provided in this subsection.

A. The insolvency of one protected cell does not constitute the insolvency of any other protected cell or of the sponsored captive insurance company itself. The insolvency of a sponsored captive insurance company does not constitute the insolvency of any of its solvent protected cells and is not a basis for the receivership of any solvent protected cell capable of independent operation. [PL 2009, c. 335, §23 (NEW).]

B. Notwithstanding the insolvency of the sponsored captive insurance company or of any other protected cell, the obligations attributed to any solvent protected cell must continue to be paid as they become due. [PL 2009, c. 335, §23 (NEW).]

C. The assets attributed to a protected cell may not be applied to the liabilities attributed to another protected cell or to the sponsored captive insurance company generally, except that:

(1) If the insolvency of the sponsored captive insurance company renders a protected cell incapable of being managed independently, a receiver may, after consultation with the creditors of a protected cell, contract for the management of the protected cell and charge to the protected cell a reasonable amount for those services;

(2) A general liability of an insolvent sponsored captive insurance company may be apportioned equitably in whole or in part to one or more of its protected cells if the Superior Court determines that the liability arises out of the operations of the protected cell or cells and that the interests of innocent creditors of the protected cell or cells are not unreasonably impaired; and

(3) If assets or liabilities have been commingled, or have been wrongfully transferred between protected cells or between a protected cell and the general account, the Superior Court shall trace the assets and attribute them to the proper accounts, giving due consideration to the terms of any relevant governing instrument or contract. [PL 2009, c. 335, §23 (NEW).]

D. The plan of rehabilitation or liquidation of any sponsored captive insurance company must make reasonable provision for the continued operation of all solvent protected cells, which may involve the formation of one or more new sponsored captive insurance companies or the transfer of one or more protected cells. [PL 2009, c. 335, §23 (NEW).]

[PL 2009, c. 335, §23 (NEW).]

D. "Branch operations" means any business operations of a branch captive insurance company in this State. [PL 2009, c. 335, §24 (NEW).]

[PL 2009, c. 335, §24 (NEW).]

2. Establishment of a branch captive insurance company. A branch captive insurance company may be established in this State in accordance with the provisions of this chapter to write in this State only insurance or reinsurance of the employee benefit business of its parent and affiliated companies that is subject to the provisions of the federal Employee Retirement Income Security Act of 1974, as amended. In addition to the general provisions of this chapter, the provisions of this section apply to branch captive insurance companies. A branch captive insurance company may not do any insurance business in this State unless it maintains the principal place of business for its branch operations in this State.

[PL 2009, c. 335, §24 (NEW).]

3. Security required. In the case of a branch captive insurance company, as security for the payment of liabilities attributable to the branch operations, the superintendent shall require that either

a trust fund funded by assets acceptable to the superintendent or an irrevocable letter of credit be established and maintained in the United States for the benefit of United States policyholders and United States ceding insurers under insurance policies issued or reinsurance contracts issued or assumed by the branch captive insurance company through its branch operations. The amount of the security may be no less than the amount set forth in section 6704, subsection 1, paragraph A and the reserves on the insurance policies or reinsurance contracts, including reserves for losses, allocated loss adjustment expenses, incurred but not reported losses and unearned premiums with regard to business written through the branch operation, except that the superintendent may permit a branch captive insurance company that is required to post security for loss reserves on branch business by its reinsurer to reduce the funds in the trust account or the amount payable under the irrevocable letter of credit required by this subsection by the same amount as long as the security remains posted with the reinsurer. If the form of security selected is a letter of credit, the letter of credit must be established by, or issued or confirmed by, a bank chartered in this State or a member bank of the Federal Reserve System.
[PL 2009, c. 335, §24 (NEW).]

4. Certificate of general good. In the case of a captive insurance company licensed as a branch captive insurance company, the alien captive insurance company shall petition the superintendent to issue a certificate setting forth the superintendent's finding that, after considering the character, reputation, financial responsibility, insurance experience and business qualifications of the officers and directors of the alien captive insurance company, the licensing and maintenance of the branch operations will promote the general good of the State. The alien captive insurance company may register to do business in this State after the superintendent's certificate is issued.
[PL 2009, c. 335, §24 (NEW).]

5. Reports. Prior to March 1st of each year, or with the approval of the superintendent within 60 days after its fiscal year-end, a branch captive insurance company shall file with the superintendent a copy of all reports and statements required to be filed under the laws of the jurisdiction in which the alien captive insurance company is formed, verified by oath of 2 of its executive officers. If the superintendent is satisfied that the annual report filed by the alien captive insurance company in its domiciliary jurisdiction provides adequate information concerning the financial condition of the alien captive insurance company, the superintendent may waive the requirement for completion of the captive annual statement for business written in the alien jurisdiction.
[PL 2009, c. 335, §24 (NEW).]

6. Examination of branch captive insurance companies. The examination of a branch captive insurance company pursuant to section 6708 must be of the branch business and branch operations only, as long as the branch captive insurance company provides annually to the superintendent a certificate of compliance, or its equivalent, issued by or filed with the licensing authority of the jurisdiction in which the branch captive insurance company is formed and demonstrates to the superintendent's satisfaction that it is operating in sound financial condition in accordance with all applicable laws and regulations of that jurisdiction. As a condition of licensure, the alien captive insurance company must grant authority to the superintendent for examination of the affairs of the alien captive insurance company in the jurisdiction in which the alien captive insurance company is formed.

C. Subject to the provisions of section 6806, records required to be retained by this subsection must be legible and complete and may be retained in paper, photographic, microprocess, magnetic, mechanical or electronic media or by any process that accurately reproduces or forms a durable medium for the reproduction of a record. [PL 2003, c. 636, §10 (AMD).]

5. Conduct of examinations. The following provisions govern the conduct of examinations.

A. Upon determining that an examination should be conducted, the superintendent shall issue an examination warrant appointing one or more examiners to perform the examination and instructing them as to the scope of the examination. In conducting the examination, the examiner shall observe those guidelines and procedures as the superintendent considers appropriate. [PL 2003, c. 636, §10 (NEW).]

The officers, directors, employees and agents of the licensee or person shall facilitate the examination and aid in the examination insofar as it is in their power to do so. The refusal of a licensee, by its officers, directors, employees or agents, to submit to examination or to comply with any reasonable written request of the superintendent is grounds for suspension or refusal of, or nonrenewal of, any license or authority held by the licensee to engage in the business of settlements or other business subject to the superintendent's jurisdiction. Any proceedings for suspension, revocation or refusal of any license or authority must be conducted pursuant to Title 5, chapter 375, subchapter 4. [PL 2003, c. 636, §10 (NEW).]

[PL 2003, c. 636, §10 (NEW).]

E. Findings of fact and conclusions made pursuant to any examination are prima facie evidence in any legal or regulatory action. [PL 2003, c. 636, §10 (NEW).]

F. This chapter may not be construed to limit the superintendent's authority to use and, if appropriate, to make public any final or preliminary examination report, any examiner or licensee workpapers or other documents or any other information discovered or developed during the course of any examination in the furtherance of any legal or regulatory action that the superintendent may, in the superintendent's sole discretion, consider appropriate. 6. Examination reports. Examination reports may be composed only of facts appearing upon the books, records or other documents of the licensee or its agents or other persons examined or as ascertained from the testimony of its officers or agents or other persons examined concerning its affairs and of such conclusions and recommendations as the examiners find reasonably warranted from the facts. No later than 60 days following completion of the examination, the examiner in charge shall file under oath with the superintendent a verified written report of examination. Upon receipt of the verified report, the superintendent shall transmit the report to the licensee examined, together with a notice that affords the licensee examined a reasonable opportunity of not more than 30 days to make a written submission or rebuttal with respect to any matters contained in the examination report. In the event the superintendent determines that regulatory action is appropriate as a result of an examination, the superintendent may initiate any proceedings or actions provided by law. [PL 2003, c. 636, §10 (NEW).]

7. Confidentiality of examination information. The disclosure of information is governed by this subsection.

and international regulatory agencies, with the National Association of Insurance Commissioners, or its successor organization, and its affiliates and subsidiaries and with state, federal and international law enforcement authorities, as long as the recipient agrees to maintain the confidentiality and privileged status of the documents, materials, communication or other information; and

[PL 2003, c. 636, §10 (NEW).]

G. A privilege established under the law of any state or jurisdiction that is substantially similar to the privilege established under this subsection is available and enforced in any proceeding in, and in any court of, this State. [PL 2003, c. 636, §10 (NEW).]

H. This chapter may not prevent or be construed as prohibiting the superintendent from disclosing the content of an examination report or preliminary examination report or results, or any matter relating thereto, to the superintendent of insurance of any other state or country or to law enforcement officials of this State or any other state or an agency of the Federal Government at any time or to the National Association of Insurance Commissioners, or its successor organization, as long as such agency or office receiving the report or matters relating thereto agrees in writing to hold it confidential and in a manner consistent with this chapter. A. An examiner may not be appointed by the superintendent if the examiner, either directly or indirectly, has a conflict of interest or is affiliated with the management of or owns a pecuniary interest in any person subject to examination under this chapter. [PL 2003, c. 636, §10 (AMD).]

3. State tax implications. The fact that some or all of the proceeds of the settlement may be free from state income tax under section 6809 and that restrictions, qualifications and other tax laws, including those of the state in which the viator resides, may apply and assistance should be sought from a professional tax advisor;
[PL 2003, c. 636, §10 (AMD).]

4. Claims of creditors. The fact that proceeds of the settlement could be subject to the claims of creditors;
[PL 2003, c. 636, §10 (AMD).]

5. Effect on government benefits. The fact that receipt of the proceeds of the settlement may adversely affect the recipient's eligibility for Medicaid or other means-based government programs, benefits or entitlements and that advice should be obtained from the appropriate agencies;
[PL 2003, c. 636, §10 (AMD).]

6. Right to rescind. The fact that the viator has the right to rescind a settlement contract before the earlier of 30 calendar days after the date upon which the settlement contract is executed by all parties or 15 calendar days after the date upon which payment is received by the viator as provided in section 6809. If exercised by the viator, rescission is effective only if both notice of the rescission is given and repayment of all proceeds and any premiums, loans and loan interest to the settlement provider is made within the rescission period. If the insured dies during the rescission period, the settlement contract is deemed to have been rescinded, subject to repayment of all proceeds and any premiums, loans and loan interest to the settlement provider;
[PL 2003, c. 636, §10 (AMD).]

7. Potential reduction or loss of benefits to beneficiary. The fact that entering into a settlement contract may cause other rights or benefits, including conversion rights and waiver of premium benefits that may exist under the policy or certificate, to be forfeited by the viator and that assistance should be sought from a financial adviser;
[PL 2003, c. 636, §10 (AMD).]

7-A. Potential inability to purchase additional insurance. The fact that, because of limits insurers may set on the amount of insurance on a single life, a change of ownership could leave the viator without the ability to purchase insurance in the future to replace the transferred policy; [PL 2009, c. 376, §9 (NEW).]

8. Funds. The fact that funds will be sent to the viator within 3 business days after the settlement provider has received the insurer's or group administrator's acknowledgment that ownership of the policy or interest in the certificate has been transferred and the beneficiary has been designated; and [PL 2003, c. 636, §10 (NEW).]

9. Privacy disclosure. A statement containing the following language: "All medical, financial or personal information solicited or obtained by a settlement provider or settlement producer about an insured, including the insured's identity or the identity of family members, a spouse or a significant other, may be disclosed as necessary to effect the settlement contract between the viator and the settlement provider. If you are asked to provide this information, you will be asked to consent to the disclosure. The information may be provided to someone who buys the policy or provides funds for the purchase. You may be asked to renew your permission to share information every 2 years." [PL 2003, c. 636, §10 (NEW).]

If known, the settlement provider shall also disclose the availability of any additional guaranteed insurance benefits, the dollar amount of any accidental death and dismemberment benefits under the policy or certificate and the settlement provider's interest in those benefits; [PL 2009, c. 376, §10 (AMD).]

The disclosures must be conspicuously displayed in the settlement contract or in a separate document signed by the viator and the settlement producer and must provide the following information:

B. A description of all offers, counteroffers, acceptances and rejections relating to any proposed settlement of the policy; [PL 2009, c. 376, §11 (NEW).]

(3) Of the definitions of common industry terms. [PL 2009, c. 376, §12 (NEW).]

B. The brochure must contain the following statement in large, bold or otherwise conspicuous typeface calculated to draw the eye: "Life insurance is a critical part of a broader financial plan.

There are many options available, and you have the right to shop around and seek advice from different financial advisers in order to find the option best suited to your needs." [PL 2009, c. 376, §12 (NEW).]

C. The brochure may include brief descriptions of common products available from settlement providers. These products must be described in general terms for informative purposes only and not identify any specific settlement provider. [PL 2009, c. 376, §12 (NEW).]

D. If the insured under an individual life insurance policy is 60 years of age or older, or is known by the insurer to be terminally ill or chronically ill, the insurer shall send notice to the policyowner that there may be alternative transactions available, including a copy of the superintendent's brochure, whenever:

- (1) The policyowner has requested the surrender of the policy in whole or in part;

§6809. General provisions for settlement contracts

1. Prior conditions. A settlement provider entering into a settlement contract with a viator shall first obtain:

A. If the viator is the insured, a written statement from a licensed attending physician that the viator is of sound mind and under no constraint or undue influence to enter into a settlement contract; [PL 2003, c. 636, §12 (AMD).]

B. Prior to or at the time of execution of the settlement contract, a witnessed document in which the viator consents to the settlement contract, represents that the viator has a full and complete understanding of the settlement contract and that the viator has a full and complete understanding of the benefits of the life insurance policy, acknowledges that the viator has entered into the settlement contract freely and voluntarily and, for persons who are terminally ill or chronically ill, acknowledges that the insured is terminally ill or chronically ill and that the terminal or chronic illness was diagnosed after the life insurance policy was issued; and [PL 2003, c. 636, §12 (AMD).]

C. Notwithstanding section 2159, subsection 3 or any other provisions of state law, a document in which the insured consents to the release of the insured's medical records to a settlement provider and, if the life insurance policy was issued less than 2 years from the date of application for a settlement contract to the insurance company that issued the life insurance policy covering the life of the insured. [PL 2003, c. 636, §12 (AMD).]

The insurer shall respond to a request for verification of coverage submitted by a settlement provider not later than 30 calendar days from the date the request is received. The request for verification of coverage must be made on a form approved by the superintendent. In its response, the insurer shall indicate whether, based on the medical evidence and documents provided, the insurer intends to pursue an investigation regarding the validity of the insurance contract.

[PL 2003, c. 636, §12 (AMD).]

2. Confidentiality of medical information. All medical information solicited or obtained by any licensee is subject to the applicable provisions of state law relating to confidentiality of medical information.

[PL 1997, c. 430, §1 (NEW); PL 1997, c. 430, §2 (AFF).]

3. Unconditional rescission. All settlement contracts must contain a provision that the viator has the right to rescind a settlement contract before the earlier of 30 calendar days after the date upon which the settlement contract is executed by all parties or 15 calendar days after the date upon which payment is received by the viator as provided in section 6808. Rescission if exercised by the viator is effective only if both notice of the rescission is given and a full repayment of all proceeds and any premiums, loans and loan interest to the settlement provider is made within the rescission period. If the insured dies during the rescission period, the settlement contract is deemed to have been rescinded, subject to repayment of all proceeds and any premiums, loans and loan interest to the settlement provider.
[PL 2003, c. 636, §12 (AMD).]

4. Transfer of insurance policy. The settlement provider shall designate an independent escrow agent and instruct the viator to send the executed documents required to effect the change in ownership or assignment or change in beneficiary directly to the independent escrow agent. Within 3 business days after the date the escrow agent receives the document, or from the date the settlement provider receives the documents, if the viator erroneously provides the documents directly to the provider, the settlement provider shall pay or transfer the proceeds of the settlement into an escrow or trust account maintained in a state or federally chartered financial institution whose deposits are insured by the Federal Deposit Insurance Corporation or its successor. Upon payment of the settlement proceeds into the escrow account, the escrow agent shall deliver the original change in ownership or assignment or change in beneficiary forms to the settlement provider or related provider trust. Upon the escrow agent's receipt of the acknowledgment of the properly completed transfer of ownership or assignment or designation of beneficiary from the insurance company, the escrow agent shall pay the settlement proceeds to the viator.
[PL 2009, c. 376, §13 (AMD).]

5. Effect of failure to tender consideration. Failure to tender consideration for the settlement under the terms of the settlement contract renders the contract voidable for lack of consideration until the time consideration is tendered to and accepted by the viator.
[PL 2003, c. 636, §12 (AMD).]

6. Unlicensed provider.
[PL 2003, c. 636, §12 (RP).]

7. Income.
[PL 2003, c. 636, §12 (RP).]

8. Advertising standards.
[PL 2003, c. 636, §12 (RP).]

9. Contacts with the insured. An insured may designate one or more adult individuals in regular contact with the insured as the individual for all inquiries regarding the insured's health status and, if that designation is made, a settlement provider may not make these inquiries to the insured unless the settlement provider is unable, for more than 30 days, to contact the designee after diligent effort. The insured may change this designation at any time upon written notice to the settlement provider. Contacts with the insured for the purpose of determining the health status of the insured after the settlement has occurred are limited to once every 3 months for insureds with an estimated life expectancy of more than one year and once per month for insureds with a life expectancy of one year or less. The settlement provider shall explain to the insured the procedure for these contacts prior to the time the settlement contract is entered into. The limitation in this rule on contacts does not apply to contacts made for reasons other than determining the insured's health status or necessary to maintain the policy in force. Settlement providers are responsible for the actions of their authorized representatives.

1. Standards for evaluating reasonableness of payments. Establish standards for evaluating the reasonableness of payments to viators under a settlement contract only when the insured in the policy that is the subject of a settlement contract is terminally ill or chronically ill. This authority includes, but is not limited to, regulation of discount rates used to determine the amount paid in exchange for assignment, transfer, sale, devise or bequest of a benefit under a life insurance policy; [PL 2003, c. 636, §13 (NEW).]

§6811. Prohibited practices and provisions under policies

1. Assignment. The following provisions govern assignment.

A. A policy of individual or group life insurance that permits assignment issued or delivered in this State may not, in any way, restrict a person from making an absolute assignment of rights for consideration. Prohibited restrictions include, but are not limited to, assignments only as a gift and without consideration, assignments only to a limited class of persons and assignments only to a natural person and not to a legal entity. [PL 2003, c. 636, §13 (AMD).]

B. A life insurance company that acknowledges and records an absolute assignment of life insurance policy or rights under a group life insurance policy may rely solely on the authorization of the assignor to make the assignment and the life insurance company is not obligated to inquire into the validity, sufficiency or terms of the assignment. In acknowledging and recording an assignment, a life insurance company acting in good faith and reliance on the presentation of the absolute assignment, acts in a ministerial capacity and may exhibit no discretion as to whether an assignor may make the assignment or whether the assignment conforms with applicable law. [PL 1997, c. 430, §1 (NEW); PL 1997, c. 430, §2 (AFF).]
[PL 2003, c. 636, §13 (AMD).]

2. Rights under an assignment. The following provisions apply to an assignment.

A. For life insurance contracts that permit assignment:

(1) A person has the right to assign, transfer, sell or bequeath the ownership of or death benefit payable under a life insurance policy or certificate at any time for any remaining portion of that coverage after exercising any option for accelerated benefits;

(2) A person also has the right to assign, transfer, sell, devise or bequeath the ownership of or death benefit payable under a life insurance policy or certificate if that coverage is on disability waiver of premium at any time; and

(3) The absolute assignee of an individual life insurance policy or of all rights under a group life insurance policy has all rights at law or in equity as the assignor held under that policy, including, but not limited to, the right to convert the coverage to an individual policy, the right to timely notice of the right to that conversion at the time that right accrues, the right to make premium payments or take such other action as may be necessary under the policy in order to preserve the value of the coverage assigned, the right to receive information concerning the coverage, the right to receive notice of a lapse or discontinuation of coverage, the exclusive right to exercise any options concerning the assigned coverage during an open enrollment period and all such other rights and privileges initially granted to a person under the terms of the individual or group life insurance policy. [PL 2003, c. 636, §13 (AMD).]

B. A person has the right to exercise any option for accelerated benefits under the terms of any individual or group life insurance policy at any time for any unassigned portion of that policy or certificate. [PL 2003, c. 636, §13 (AMD).]

[PL 2003, c. 636, §13 (AMD).]

3. Failure to give notice under group life insurance policy. If the rights under a group life insurance policy have been assigned and the administrator of the policy fails to give notice to the assignee that a person is no longer a covered person under the group and of the right to convert the policy to an individual life insurance policy, the period of time during which the assignee must make application for conversion under the terms of the group life insurance policy begins from the date the notice is given to the assignee.

[PL 2003, c. 636, §13 (AMD).]

4. Riders and postsettlement increases or additions. With respect to policies containing a provision for double or additional indemnity for accidental death or any other riders or additional death benefits, including the increase in the death benefit in excess of the amount of the death benefits of the date the settlement contract is effected at the time the policy is assigned, transferred, sold, devised or bequeathed, unless otherwise mutually agreed to in writing by the viator and the settlement provider, the additional amount remains payable to the beneficiary last named by the viator prior to entering into the settlement contract or to such other beneficiary other than the settlement provider as the viator may thereafter designate or, in the absence of a designation, to the estate of the viator.

[PL 2003, c. 636, §13 (AMD).]

5. Prohibition on settlements. It is a violation of this chapter for any person to enter into a settlement contract at any time prior to, or at the time of the application for, the issuance of a policy or within a 2-year period commencing with the date of issuance of the insurance policy or certificate unless the viator certifies to the settlement provider that one or more of the following conditions have been met within the 2-year period:

A. The policy was issued upon the viator's exercise of conversion rights arising out of a group or individual policy, as long as the total of the time covered under the conversion policy plus the time covered under the prior policy is at least 24 months. The time covered under a group policy must be calculated without regard to any change in insurance carriers, as long as the coverage has been continuous and under the same group sponsorship; and [PL 2003, c. 636, §13 (NEW).]

B. The viator submits independent evidence to the settlement provider that one or more of the following conditions have been met within the 2-year period:

- (1) The viator or insured is terminally ill or chronically ill; or
- (2) The viator or insured disposes of the viator's entire ownership interest in a closely held corporation pursuant to the terms of a buyout or other similar agreement in effect at the time the insurance policy was initially issued. [PL 2003, c. 636, §13 (NEW).]

[PL 2007, c. 543, §6 (AMD).]

6. Submission of certification. If the settlement provider submits to the insurer a copy of the owner's or insured's certification described in subsection 5 when the settlement provider submits a request to the insurer to effect the transfer of the policy or certificate to the settlement provider, the copy is deemed to conclusively establish that the settlement contract satisfies the requirements of this section and the insurer shall timely respond to the request.

§6812. Insurance company practices

1. Duty to provide information. In addition to the provisions in section 6809, an insurance company that is licensed to do business in this State shall promptly respond to reasonable requests for policy information from a settlement provider or settlement producer upon the receipt of the following documents in the office of the insurance company:

- A. An authorization signed by the viator to release specified information regarding the policy or certificate to a named licensed settlement provider or settlement producer; and [PL 2003, c. 636, §13 (AMD).]
- B. A request in writing from the settlement provider or settlement producer for the specified policy or certificate information. [PL 2003, c. 636, §13 (AMD).]

Requests for the following items related to the policy or certificate that is the subject of a settlement transaction are deemed to be reasonable: ownership of and death benefits under the policy or certificate; premium information on the policy or certificate; liens, assignments and additional benefits; waiver of premium; and ownership and assignment provisions. The information provided must be the most recent information on file. By rule, the superintendent may specify additional criteria for information requests deemed reasonable under this section by a settlement provider.

[PL 2003, c. 636, §13 (AMD).]

2. Conversion of group insurance. An issuer or 3rd-party administrator of a group life insurance policy shall promptly issue an individual conversion policy if the conversion is being requested for the purpose of entering into a settlement contract. For the purposes of this section, issuance of such a policy is deemed timely if it meets relevant standards for timeliness under chapter 23. This subsection may not be construed to create any new conversion rights not already granted by the policy or certificate being acquired pursuant to a settlement contract.

[PL 2003, c. 636, §13 (AMD).]

3. Right to assign rights or benefits. Subsection 1 or 2 does not prohibit a viator under a group life insurance policy from assigning rights or benefits under the policy to a licensed settlement provider or converting the coverage to an individual life insurance policy.

[PL 2003, c. 636, §13 (AMD).]

4. Assignment restrictions prohibited. A policy of group life insurance issued or in existence in this State that permits any assignment of a viator's rights may not restrict the viator from making assignments other than by gift.

[PL 1997, c. 430, §1 (NEW); PL 1997, c. 430, §2 (AFF).]

5. Purchase of securities. This chapter does not require notice to the superintendent of, or restrict an insurance company from investing in, or participating in, or purchasing any securities issued in any transaction including without limitation any financing, securitization transaction or securities offering in which the licensed settlement provider sells, assigns, transfers, pledges, hypothecates or otherwise disposes of settlement contracts, policies acquired pursuant to settlement contracts or any interest therein.

[PL 2003, c. 636, §13 (AMD).]

6. Protection of policyholder's rights. An insurer may not engage in a transaction, act, practice or course of business or dealing that restricts, limits or impairs in any way the lawful transfer of ownership, change of beneficiary or assignment of a policy. This subsection does not prohibit a lawful contract provision granting irrevocable rights to a beneficiary or lawfully prohibiting assignment.

§6812-A. Inquiries and optional disclosures by life insurers

1. Permitted inquiries regarding premium financing. In addition to any other information a life insurer may lawfully request in an application for insurance, the insurer may ask whether the proposed owner intends to pay premiums with the assistance of financing from a lender that will use the policy as collateral to support the financing, and if so, whether:

A. The applicant has entered into any agreement or arrangement providing for the future sale of this life insurance policy; [PL 2009, c. 376, §15 (NEW).]

B. The loan arrangement for the policy provides funds sufficient to pay for some or all of the premiums, costs and expenses associated with obtaining and maintaining the applicant's life insurance policy; [PL 2009, c. 376, §15 (NEW).]

C. The applicant has entered into any agreement by which the applicant is to receive consideration in exchange for procuring the policy; and [PL 2009, c. 376, §15 (NEW).]

D. The borrower has an insurable interest in the insured. [PL 2009, c. 376, §15 (NEW).]

[PL 2009, c. 376, §15 (NEW).]

2. Prohibited transactions. If the information obtained by the life insurer demonstrates that the loan provides funds that can be used for a purpose other than paying for the premiums, costs and expenses associated with obtaining and maintaining the life insurance policy and loan or that the transaction otherwise violates this chapter, the insurer shall reject the application.

[PL 2009, c. 376, §15 (NEW).]

3. Optional disclosures by the life insurer. The insurer may make disclosures to the applicant, the insured and other affected persons, either on the application, an amendment to the application or a separate document, in the following form:

"If you have entered into a loan arrangement in which the policy is used as collateral and the policy does change ownership at some point in the future in satisfaction of the loan, the following may be true:

A. A change of ownership could lead to a stranger owning an interest in the insured's life; [PL 2009, c. 376, §15 (NEW).]

B. Your ability to purchase future insurance on the insured's life could be limited because there is a limit to how much coverage insurers will issue on one life; [PL 2009, c. 376, §15 (NEW).]

C. Should there be a change of ownership and should you wish to obtain more insurance coverage on the insured's life in the future, the insured's higher issue age, a change in health status or other factors may reduce the ability to obtain coverage or may result in significantly higher premiums; and [PL 2009, c. 376, §15 (NEW).]

D. You should consult a professional advisor because a change in ownership in satisfaction of the loan may result in tax consequences to the owner, depending on the structure of the loan." [PL 2009, c. 376, §15 (NEW).]

[PL 2021, c. 354, §15 (NEW).]

2. Deceptive travel insurance. Offering or selling a travel insurance policy that could never result in payment of any claims for any insured under the policy is an unfair trade practice under chapter 23.

[PL 2021, c. 354, §15 (NEW).]

3. Marketing. All persons offering travel insurance to residents of this State shall comply with the marketing requirements in this subsection.

A. All documents provided to consumers prior to the purchase of travel insurance, including but not limited to policy summaries, sales materials, advertising materials and marketing materials, must be consistent with the travel insurance policy, including but not limited to forms, endorsements, policies, rate filings and certificates of insurance. [PL 2021, c. 354, §15 (NEW).]

When travel insurance is marketed directly to a consumer through an insurer's website or by others through an aggregator site, it is not an unfair trade practice or other violation of law for an accurate summary or short description of coverage to be provided on the website or through an aggregator site, so long as the consumer has access to the full provisions of the policy through electronic means. [PL 2021, c. 354, §15 (NEW).]

[PL 2021, c. 354, §15 (NEW).]

4. Opt-out format. A person offering, soliciting or negotiating travel insurance or travel protection plans on an individual or group basis may not do so by using a negative option or opt-out format that requires a consumer to take an affirmative action to deselect coverage, such as unchecking a box on an electronic form, when the consumer purchases a trip.

The notice must require that the deficiency or deficiencies be corrected.

After receipt of the notice, the person has 30 days to comply with the superintendent's request for correction, and if the person fails to comply the superintendent shall notify the person of the findings of noncompliance and require the person to show cause, on a date set by the superintendent, why its registration should not be suspended, revoked or refused. 1. Exclude coverage. Notwithstanding section 2902 or Title 29-A, section 1605, an insurer that writes automobile insurance in this State may exclude coverage afforded under the policy issued to an owner or operator of a personal vehicle for any loss or injury that occurs while a transportation network company driver is logged into a transportation network company's digital network or while a driver is engaged in a prearranged ride. - E. Collision physical damage coverage. [PL 2015, c. 279, §1 (NEW).]

Nothing in this section requires that a personal automobile insurance policy provide coverage while the driver is logged into the transportation network company's digital network, the driver is engaged in a prearranged ride or the driver otherwise uses a vehicle to transport riders for compensation.

Nothing in this section may be construed to preclude an insurer from entering into a contract to provide coverage for a transportation network company driver's personal vehicle. [PL 2015, c. 279, §1 (NEW).]

2. No duty to indemnify. If an insurer has excluded coverage described in section 7303, the insurer has no duty to defend or indemnify any claim expressly excluded. Nothing in this chapter may be construed to invalidate or limit an exclusion contained in a policy, including any policy in use or approved for use in this State prior to the effective date of this chapter, that excludes coverage for vehicles used to carry persons or property for a charge or available for hire by the public. [PL 2015, c. 279, §1 (NEW).]

3. Right of contribution. An automobile insurer that defends or indemnifies a claim against a driver that is excluded under the terms of its policy has a right of contribution against other insurers that provide automobile insurance to the same driver in satisfaction of the coverage requirements of section 7303 at the time of loss. [PL 2015, c. 279, §1 (NEW).]

4. Cooperation. In a claims coverage investigation, a transportation network company and any insurer potentially providing coverage under section 7303 shall cooperate to facilitate the exchange of relevant information with directly involved parties and any insurer of the transportation network company driver if applicable, including but not limited to:

A. The precise times that a transportation network company driver logged into and off of the transportation network company's digital network in the 12-hour period immediately preceding and in the 12-hour period immediately following the accident; and [PL 2015, c. 279, §1 (NEW).]

B. Notwithstanding the definition of "car sharing termination time" as set forth in section 7402, subsection 5, the assumption of liability under paragraph A does not apply when:

- (1) A shared vehicle owner makes an intentional or fraudulent material misrepresentation or omission to the peer-to-peer car sharing program before the car sharing period in which the loss occurred; or
- (2) A shared vehicle owner is acting in concert with a shared vehicle driver who fails to return the shared vehicle pursuant to the terms of car sharing program agreement. [PL 2021, c. 352, §8 (NEW).]

C. Notwithstanding the definition of "car sharing termination time" as set forth in section 7402, subsection 5, the assumption of liability under paragraph A applies to bodily injury or property damage to 3rd parties or uninsured and underinsured motorist or personal injury protection losses as required by Title 29-A, section 1605. [PL 2021, c. 352, §8 (NEW).]

D. A peer-to-peer car sharing program shall ensure that, during each car sharing period, the shared vehicle owner and the shared vehicle driver are insured under a motor vehicle liability insurance policy that provides insurance coverage in amounts not less than the minimum amounts set forth in Title 29-A, section 1605 and:

- (1) Recognizes that the shared vehicle insured under the policy is made available and used through a peer-to-peer car sharing program; or
- (2) Does not exclude use of a shared vehicle by a shared vehicle driver. [PL 2021, c. 352, §8 (NEW).]

E. The requirement for insurance coverage described under paragraph D may be satisfied by providing evidence of a motor vehicle liability insurance maintained by:

- (1) A shared vehicle owner;
- (2) A shared vehicle driver;
- (3) A peer-to-peer car sharing program; or
- (4) A shared vehicle owner, a shared vehicle driver and a peer-to-peer car sharing program collectively. [PL 2021, c. 352, §8 (NEW).]

F. Insurance coverage that meets the requirements of paragraph D and obtained in accordance with paragraph E must be primary coverage during each car sharing period and, in the event that a claim occurs in another state with minimum financial responsibility limits higher than in Title 29-A, section 1605, during the car sharing period the coverage maintained under paragraph E must satisfy the difference in minimum coverage amounts up to the applicable policy limits. [PL 2021, c. 352, §8 (NEW).]

G. The insurer, insurers or peer-to-peer car sharing program providing coverage in accordance with paragraph D or E shall assume primary liability for a claim when:

- (1) A dispute exists as to who was in control of the shared motor vehicle at the time of the loss and the peer-to-peer car sharing program does not have available, did not retain or fails to provide the information required by section 7404-A, subsection 4; or
- (2) A dispute exists as to whether the shared vehicle was returned to the alternatively agreed upon location as required under section 7402, subsection 5, paragraph B. [PL 2021, c. 352, §8 (NEW).]

H. If insurance maintained by a shared vehicle owner or shared vehicle driver in accordance with paragraph E has lapsed or does not provide the required coverage, insurance maintained by a peer-to-peer car sharing program must provide the coverage required by paragraph D beginning with the first dollar of a claim, and the peer-to-peer car sharing program has the duty to defend that claim except under circumstances set forth in paragraph B. [PL 2021, c. 352, §8 (NEW).]

I. Coverage under a motor vehicle liability insurance policy maintained by the peer-to-peer car sharing program may not be dependent on another insurer's first denying a claim or a requirement in another insurance policy to first deny a claim. [PL 2021, c. 352, §8 (NEW).]

[PL 2021, c. 352, §8 (NEW).]

2. Exclusions in motor vehicle liability insurance policies. An insurer that writes motor vehicle liability insurance in the State may exclude any and all coverage and the duty to defend or indemnify for any claim afforded under a shared vehicle owner's motor vehicle liability insurance policy, including but not limited to:

- A. Liability coverage for bodily injury and property damage; [PL 2021, c. 352, §8 (NEW).]
- B. Personal injury protection coverage; [PL 2021, c. 352, §8 (NEW).]
- C. Uninsured and underinsured motorist coverage; [PL 2021, c. 352, §8 (NEW).]
- D. Medical payments coverage; [PL 2021, c. 352, §8 (NEW).]
- E. Comprehensive physical damage coverage; and [PL 2021, c. 352, §8 (NEW).]
- F. Collision physical damage coverage. [PL 2021, c. 352, §8 (NEW).]

This subsection does not invalidate or limit an exclusion contained in a motor vehicle liability insurance policy, including any insurance policy in use or approved for use that excludes coverage for motor vehicles made available for rent, sharing or hire or for any business use. This subsection does not

invalidate, limit or restrict an insurer's ability under existing law to underwrite any insurance policy or to cancel or not renew any insurance policy.

[PL 2021, c. 352, §8 (NEW).]

3. Exemption; vicarious liability. A peer-to-peer car sharing program and a shared vehicle owner are exempt from vicarious liability consistent with 49 United States Code, Section 30106 and under any state or local law that imposes liability solely based on vehicle ownership.

[PL 2021, c. 352, §8 (NEW).]

4. Contribution against indemnification. An insurer that defends or indemnifies a claim against a shared vehicle that is excluded under the terms of its policy has the right to seek recovery against the insurer of the peer-to-peer car sharing program if the claim is:

A. Made against the shared vehicle owner or the shared vehicle driver for loss or injury that occurs during the car sharing period; and [PL 2021, c. 352, §8 (NEW).]

B. Excluded under the terms of its policy. [PL 2021, c. 352, §8 (NEW).]

[PL 2021, c. 352, §8 (NEW).]

5. Insurable interest. Notwithstanding any other law, statute, rule or regulation to the contrary, a peer-to-peer car sharing program has an insurable interest in a shared vehicle during the car sharing period. This section does not impose liability on a peer-to-peer car sharing program to maintain the coverage mandated by subsection 1. A peer-to-peer car sharing program may own and maintain as the named insured one or more policies of motor vehicle liability insurance that provides coverage for:

A. Liabilities assumed by the peer-to-peer car sharing program under a peer-to-peer car sharing program agreement; [PL 2021, c. 352, §8 (NEW).]

B. Any liability of the shared vehicle owner; [PL 2021, c. 352, §8 (NEW).]

C. Damage or loss to the shared motor vehicle; or [PL 2021, c. 352, §8 (NEW).]

D. Any liability of the shared vehicle driver. [PL 2021, c. 352, §8 (NEW).]

[PL 2021, c. 352, §8 (NEW).]

6. Construction. This section does not limit the liability of the peer-to-peer car sharing program for any act or omission of the peer-to-peer car sharing program itself that results in injury to any person as a result of the use of a shared vehicle through a peer-to-peer car sharing program or limit the ability of a peer-to-peer car sharing program to, by contract, seek indemnification from the shared vehicle owner or the shared vehicle driver for economic loss sustained by the peer-to-peer car sharing program resulting from a breach of the terms and conditions of the car sharing program agreement.

§7404-A. Responsibilities of peer-to-peer car sharing programs

1. General disclosures. Each car sharing program agreement made in the State must disclose to the shared vehicle owner and the shared vehicle driver:

A. Any right of the peer-to-peer car sharing program to seek indemnification from the shared vehicle owner or the shared vehicle driver for economic loss sustained by the peer-to-peer car

sharing program resulting from a breach of the terms and conditions of the car sharing program agreement; [PL 2021, c. 352, §10 (NEW).]

C. That the peer-to-peer car sharing program's insurance coverage on the shared vehicle owner and the shared vehicle driver is in effect only during each car sharing period and that, for any use of the shared vehicle by the shared vehicle driver after the car sharing termination time, the shared vehicle driver and the shared vehicle owner may not have insurance coverage; [PL 2021, c. 352, §10 (NEW).]

D. The daily rate, fees and, if applicable, any insurance or protection package costs that are charged to the shared vehicle owner or the shared vehicle driver; [PL 2021, c. 352, §10 (NEW).]

[PL 2021, c. 352, §10 (NEW).]

2. Notification of implications of lien. At the time a vehicle owner registers as a shared vehicle owner with a peer-to-peer car sharing program and prior to the time when the shared vehicle owner makes a shared vehicle available for car sharing with the peer-to-peer car sharing program, the peer-to-peer car sharing program shall notify the shared vehicle owner that, if the shared vehicle has a lien against it, the use of the shared vehicle through a peer-to-peer car sharing program, including use without physical damage coverage, may violate the terms of the contract with the lienholder.

[PL 2021, c. 352, §10 (NEW).]

3. Motor vehicle safety recalls. This subsection applies to motor vehicle safety recalls of shared vehicles.

A. At the time a vehicle owner registers as a shared vehicle owner with a peer-to-peer car sharing program and prior to the time when the shared vehicle owner makes a shared vehicle available for car sharing with the peer-to-peer car sharing program, the peer-to-peer car sharing program shall:

(1) Verify that the shared vehicle does not have any safety recalls on the vehicle for which the repairs have not been made; and

(2) Notify the shared vehicle owner of the requirements under paragraph B. [PL 2021, c. 352, §10 (NEW).]

B. If the shared vehicle owner has received an actual notice of a safety recall on the vehicle, a shared vehicle owner may not make a vehicle available as a shared vehicle with a peer-to-peer car sharing program until the safety recall repair has been made.

(1) When the notice of a safety recall is received while the shared vehicle is made available with the peer-to-peer car sharing program, the shared vehicle owner shall remove the shared vehicle as available with the peer-to-peer car sharing program, as soon as practicably possible after receiving the notice of the safety recall and until the safety recall repair has been made; and

(2) When the notice of a safety recall is received while the shared vehicle is being used in the possession of a shared vehicle driver, as soon as practicably possible after receiving the notice of the safety recall the shared vehicle owner shall notify the peer-to-peer car sharing program about the safety recall so that the shared vehicle owner may address the safety recall repair.

[PL 2021, c. 352, §10 (NEW).]

[PL 2021, c. 352, §10 (NEW).]

4. Recordkeeping; use of vehicle in car sharing. A peer-to-peer car sharing program shall collect and verify records pertaining to the use of a vehicle, including, but not limited to, times used, car sharing period pick up and drop off locations, fees paid by the shared vehicle driver and revenues received by the shared vehicle owner, and shall provide that information upon request to the shared vehicle owner, the shared vehicle owner's insurer or the shared vehicle driver's insurer to facilitate a claim coverage investigation, settlement, negotiation or litigation. The peer-to-peer car sharing program shall retain the records for a time period not less than the applicable personal injury statute of limitations.

[PL 2021, c. 352, §10 (NEW).]

5. Driver's license verification and data retention. A peer-to-peer car sharing program may not enter into a peer-to-peer car sharing program agreement with a driver unless the driver who will operate the shared vehicle:

[PL 2021, c. 352, §10 (NEW).]

6. Responsibility for equipment. A peer-to-peer car sharing program has sole responsibility for any equipment, such as a GPS system or other special equipment that is put in or on the vehicle to monitor or facilitate the car sharing transaction, and shall agree to indemnify and hold harmless the vehicle owner for any damage to or theft of such equipment during the sharing period not caused by the vehicle owner. The peer-to-peer car sharing program has the right to seek indemnity from the shared vehicle driver for any loss or damage to such equipment that occurs during the sharing period.

§7604. Authority of self-storage providers

1. Requirements for employees and authorized representatives of self-storage providers. An employee or authorized representative of a self-storage provider may sell or offer self-storage insurance to a customer and is not subject to licensure as an insurance producer under this chapter if:

A. The self-storage provider obtains a limited lines license to authorize its employees or authorized representatives to sell or offer self-storage insurance pursuant to this section; [PL 2021, c. 676, Pt. A, §42 (NEW).]

B. The insurer issuing the self-storage insurance either directly supervises or appoints a supervising entity to supervise the administration of the sale of insurance, including development of a training program for employees and authorized representatives of the self-storage providers.

- (1) The training must be delivered to all employees and authorized representatives of the self-storage provider who are directly engaged in the activity of selling or offering self-storage insurance. The training may be provided in electronic form. If the training is conducted in electronic form, the supervising entity shall implement a supplemental education program that is conducted and overseen by licensed employees of the supervising entity to supplement the electronic training.

- (2) Each employee and authorized representative must receive basic instruction about the self-storage insurance offered to customers and the disclosures required under section 7603, subsection 1; and [PL 2021, c. 676, Pt. A, §42 (NEW).]

C. The employee or authorized representative of the self-storage provider does not advertise, represent or otherwise hold that employee or authorized representative out as other than a limited lines licensed insurance producer. [PL 2021, c. 676, Pt. A, §42 (NEW).]
[PL 2021, c. 676, Pt. A, §42 (NEW).]

2. Charges. The charges for self-storage insurance coverage may be billed and collected by the self-storage provider. Any charge to the customer for coverage that is not included in the cost associated with the rental or lease of self-storage or related services must be separately itemized on the customer's bill. If the self-storage insurance coverage is included with the rental or lease of self-storage or related services, the self-storage provider shall clearly and conspicuously disclose to the customer that the self-storage insurance coverage is included with the rented or leased storage space. A self-storage provider billing and collecting charges for coverage is not required to maintain those funds in a segregated account as long as the self-storage provider is authorized by the insurer to hold such funds in an alternative manner and remits the funds to the supervising entity within 60 days of receipt. All funds received by a self-storage provider from a customer for the sale of self-storage insurance are considered funds held in trust by the self-storage provider in a fiduciary capacity for the benefit of the insurer. A self-storage provider may receive compensation for billing and collection services.
