

Audr Brown
New Sharon, Maine 04955

To Whom it may concern; I want to highly recommend that the Bill LD125 be supported for the future of our natural states beauty and the future of all wildlife. It has been scientifically proven that in Maine, birds and insects populations are on the decline. It is up to the steward of the Maine forest to protect all the most vulnerable of specie. The use of the strong chemicals do not match what the future of Me. forest need. Thank-you for your time and effort concerning this very important issue.
