

Peter Harring
Washington

"Dear Chairman/chairwoman and members of the Joint Standing Committee on Agriculture, Conservation and Forestry.

My name is Pete Harring and my testimony for LD 493 is

LD 493 - An Act To Allow Custom Slaughterhouses To Produce Cuts of Meat To Be Sold Commercially in the State.

One thing Covid -19 has taught us is that it is very important that Maine be capable of producing and supplying our own food. I can not think of a single reason why Custom Slaughterhouses should not be allowed to sell what they produce in our own State. I strongly encourage you all to vote YES and pass this bill out of committee.
