

Janet Drew
York

I support this bill. There must be transparency, environmental assessments and community input to legislators with use of public lands
I oppose the CMP Corridor - Disrupts wildlife habitat with CA same, MEcorridor & it's inroads, Soil destabilization creates risks of pollution and avalanche, as has happened in other places. Last, as both the corridor and broadband get promoted, there must be a moratorium on build out of 5G RFR. Insurers rate it as a Biohazard because it heats living tissue (bodies/trees..)
Protect people on earth. Stop CMP corridor
