An Act To Require Legislative Approval For Certain Leases Of Land

Dear Chairperson and Committee members

The Maine people deserve the right for transparency in dealing with public lands. The old fashioned ways of making backroom deals and the good old boy system is inappropriate and frankly a disservice to Maine people. Politicians and people in positions of power need to be held accountable for their actions. This act will help to keep all public land dealings above board and in the public eye. I whole heartedly support this Act.
