

Matthew Rhodes  
Parsonsfield

It is shameful to believe that there are men and women in our government who serve the public trust, that these men and women who serve us have brokered a business alliance with a foreign consortium to use Maine as a vessel for their own benefit. CMP's ads are lies full of deception, half truths and exaggerations with no quantifiable evidence or data to sustain them. Ads that prey on the ignorance of uninformed voters are a testimony to the moral depravity of CMP and those that support them. Because of its lies and treachery against the people of Maine, CMP should be barred from ever conducting business in Maine again. This corridor needs to be shut down and removed and reseeded to be restored to its original condition. Those who served on the committee to allow CMP to begin this corridor should be arrested and prevented from ever serving in public office again.
