Please do not roll back Home Rule in Maine. Maine is an independent state and our legislators have repeatedly resisted the continual efforts by corporate special interests to grab our property rights. Eliminating Home Rule means ceding property rights from our towns and cities to corporate actors too often based out-of-state. LD 1407 is the latest power grab of Maine's property rights. Please do everything in your power to reject this terrible bill for Maine. Thank you for reading testimony.
