

Elaine Tselikis
South Portland

I am diametrically opposed to any attempts by corporate and profiteering forestry lobbies to pollute, fragment, cut up or harm and destroy our precious Maine Woods. The natural world, on which all life, health and economies depend, is teetering on collapse because of man's disrespect, destruction and greed. Maine has the capacity to lead as a green protector of wildlife, woods and waters, or to throw in the towel, ignore its citizens, and descend into ecocide.

Please OPPOSE this bill and preserve Maine's sense of place and irreplaceable biodiversity. Thank you.
