

Michael Mosley
Waterville

To the honorable members of the Committee on Agriculture, Conservation and Forestry,

My name is Michael Isreal Mosley. I am the previous Chair of the KVCAP Head Start Policy Council and work with parents in the Head Start and Childcare Systems. I am offering my testimony today in support of the recommendations of the Ending Hunger by 2030 Advisory Group.

Hunger and food insecurity are serious issues in our State. I know that we have the capacity to meaningfully address this issue and believe in the work that has been done by the Advisory Group to bring you recommendations on how to do so. I believe you should follow their lead as well.

Thank you for your time,
Michael Isreal Mosley
