LD 2013

It's important to take responsibility for one's actions. LD 2013 is a step in the direction of the Maine state government taking responsibility for its horrendous mistake. Anything asked of the State of Maine by victims of the dumping of PFAS sludge and septage on agricultural land should be granted. I also suggest an amendment to LD 2013 that, on behalf of the state legislature, apologizes to the people of Maine for allowing this poisoning of Maine soil and water to occur, and expresses remorse to those citizens who have been and will be harmed.
