LD 2013

Please support this initiative which will help our farmers navigate these difficult times. I co own and manage both Meridians: Wine Beer and Food, and Meridians Kitchen and Bar. Both businesses rely heavily on local farms to provide our customers with the best experience that Maine has to offer. If we want to support the continued growth of small businesses that support communities, generate revenue, and create gainful and meaningful jobs, we have to start by supporting the base of pyramid, which is our local farms.
