I would like to see a Wabanaki Tribal member be part of the Baxter State Park Authority. The state of Maine was in very good shape before colonization and this is thanks to the good stewardship of the Wabanaki for thousands and thousands of years. I think it would be very beneficial to have a Tribal Member be part of this committee and this is long overdue. We work with Wabanaki in our business as outdoor guides and teaching about their culture. I am always impressed at how well they work with and respect the land.
