PLEASE pass this critical bill. We all know Maine is an amazing state and place to live. We can be even more amazing - for more of our residents who call this home - if we further alleviate food insecurity. This is elemental to the health and productivity of our communities, and to keeping Maine strong. This bill is foundational to that goal. By passing it, we also set a true leadership example for the rest of New England, and our country. We owe it to each other and to Maine.

Please pass this bill to make fresh, local food at farmers' markets affordable for more people and to supplement more than 10K households' grocery budgets with healthy Maine-grown food.
