

Greetings from Farmington. I am submitting a video testimony in support of LD476. The link provided here will take you to a short video I co-produced in collaboration with the Maine Prisoner Advocacy Coalition. As the caregiver to my 80-year-old mother who, while not incarcerated does live with dementia, I understand the imperative of giving inmates and their families an opportunity to have an honorable release from life. I hope you support this legislation. Thank you! Gaelyn Aguilar
