

Gregory Hunnewell  
Belgrade Lakes

Thank You for allowing me to give testimony today, I am in favor of the passage of LD 1138 because it makes sense, for example if I am threatened in my dooryard on my own property and it escalates to a dangerous threat to my life, why in gods name would I want to take that threat inside my house and further endanger my family to deal with it. My property is my property, please allow me to Stand my Ground and keep the threat outside away from my family and friends. It's common sense if there is still such a thing. Thank You Again
