

To: The Members Committee on Criminal Justice and Public Safety

Subj: LD 1454 "An Act To Prohibit Untraceable and Undetectable Firearms"

My name is Craig Caffrey of Bowdoinham ME and I have submitted this testimony in opposition to LD 1454 "An Act To Prohibit Untraceable and Undetectable Firearms"

We live in a Constitutional Republic, and as such our unalienable rights should be protected and upheld by all levels of government. One of those rights is our 2nd Amendment which states: A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed. Technology might change, but our rights do not! Maine's own Constitution also states under Article 1, Section 16 To keep and bear arms "Every citizen has a right to keep and bear arms and this right shall never be questioned."

Those two Amendments clearly tells the gun control fanatics they have no legal recourse to infringe on any American rights when it comes to firearms, firearm accessories or even ammunition.

Lastly, this bill is mute. Since Constitutional Carry was implemented, Maine has repeatedly been one of the safest states in the union year after year. So why regulate an issue that does not exists? Simple answer: tyrants always look for ways to oppress, restrict, regulate, or take away.

I strongly encourage this committee to vote "Ought Not to Pass" on LD 1454 "An Act To Prohibit Untraceable and Undetectable Firearms."

Thank you for your time,

Craig Caffrey
