Please oppose LD 1454 An Act To Prohibit Untraceable and Undetectable Firearms. Citizens of Maine and the United States have a long history of building our own firearms. The majority of people who build their own firearms are law abiding citizens. This bill and all gun related bills go against the Maine constitution, specifically Article 1, Section 16: "To keep and bear arms. Every citizen has a right to keep and bear arms and this right shall never be questioned." . Law abiding citizens have the right to build, purchase and own any firearm without question.
