I oppose LD 1454 An Act To Prohibit Untraceable and Undetectable Firearms as the United States has a long history of making firearms such as pistols and rifles. There are several federal laws on the books on how to do so legally and lawfully which we all follow. This strips the citizens right to purchase and manufacture their own firearms for no reason as these items are not allowed to be sold unless you follow strict federal guidelines. I oppose this because this turns a long standing tradition into an illegal act for no reason. These guns are not showing up in crime scenes or being used in crimes because they take a lot of time to create and they are not easy to make regardless of how some would have you believe you can print a gun in under 30 minutes. That is absurd and not based in any facts. I oppse this legislation completely.
