LD1454 is yet another attempt to create unnecessary, unenforceable, 'window-dressing' legislation that is not needed here in Maine. When was the last time we had a crime committed with an "untraceable" gun that would be covered by this law? Stolen firearms are often recovered with their manufacturer's applied serial number REMOVED, which is AGAINST FEDERAL LAW, but it routinely happens anyway. All one need to end-run this piece of law is a flat file. This is bad legislation and I urge you to vote against it.
