

Jerome Watson
Pittston

Dear Committee members,

I am writing in support of LD1052.

Never should the law abiding citizens of the,State of Maine or the United States be deprived of any Constitutional right in a state of emergency. There is already a federal law prohibiting the seizure of firearms from citizens in a state of emergency, and this bill will strengthen that right in the State of Maine. Please vote for this protection for our law abiding citizens.

Respectfully,
Jerome Watson
