

Christopher Juntura  
Wiscasset

The sale of fireworks within the town has caused more harm since its opening. The business within the town of Wiscasset has been sued and lost for endangering the safety of others through improper storage of his fireworks at an off site building located within a residential area. The fireworks business also stores its fireworks inside 2 vans and a red storage container vessel. As a member of the town's ordinance committee I have brought up to the select board and to other members of the ordinance committee about the multiple violations on a state and local level to which they dismissed because the owner of said fireworks business resides on 2 of the town's committee seats. The continuation of the sale of fireworks is to jeopardize the safety of many businesses, homes, and the public.
