I support this bill.

I expect our elected officials to use the Federal covid \$\$ coming to schools and every level of govt nationwide, for partnerships and support. Workers, mentors & teams to reimagine & restore families, homes & neighborhoods. To stop funding the failed criminal Injustice system, and to stop adding new crimes to a system that already has TOO MANY reasons to cage people.

Recently in NY, 2 cops bought a homeless shoplifter the socks he was trying to steal. Kudos for those cops. And SHAME on US, for accepting that kind act, as enough!
