

Kelly Moulton
Dept of AODS

My name is Kelly Moulton & I am a Mental Health Crisis Worker out of the Bangor OADS office. I have worked continuously throughout the Pandemic from home, in our Crisis House & out in the community. By doing so, I have increased the risk of contracting Covid &/or bringing the disease home to my husband & eight year old daughter. This fear has weighed heavily on me but I also feel that the people we serve are going through a very tough time due to the restrictions & changes in their routine. Not working at this time is not an option due to financial obligations. The Hazzard Pay ended in December due to funding but our jobs & continued risk do not. I feel that we should receive the Hazzard Pay because our ongoing support of our clients & the risks involved has not changed.
Thank you for taking the time to read my testimony.
