

Edward Modell  
South Thomaston  
LD 178

I favor LD 178 and ask that the Committee vote favorably on it. The Commission that recommended the readoption of parole in Maine has spent great time and energy studying the issue. Their findings and recommendations are compelling. There will still be many hurdles for incarcerated people to gain their release and if they are able to overcome those hurdles, they should be given another chance to live peacefully and peaceably in society. Thank you for your consideration.
