LD 168

I strongly oppose LD 168.

This would be unnecessary burden on law abiding Mainers.

Please, support liberty and the rights of your constituents by opposing LD 168.

Following the horrific tragedy at MSU, the anti-gun democrats have already decided to politicize the shooting and introduce several unconstitutional bills that don't actually prevent things like this from happening.

Before the bodies were even cold, anti-gun figureheads were frothing at the mouth to spout how we need more gun laws that definitively would not have stopped this crime.

Background checks did not stop this murderer from obtaining a gun, not having a carry permit did not stop him from carrying the gun, the gun-free zone did not stop him from entering the zone with the gun, and the laws against murder did not stop him from murdering.

Criminals don't follow the law, and no amount of new gun control would have saved these lives.
