Cape Elizabeth
LD 168

The horrific back story on Canada's deadliest mass shooting in the Portland Press Herald of March 31, 2023, showed that background checks are necessary on all gun sales and transfers. It is a stain on Maine that 3 of the guns used in that mass casualty event came from here. LD168 is an obviously necessary addition to laws to protect the safety of all people. Shocking as well that the Boston Marathon bombers had a gun from Maine and killed an officer.

We need to be responsible citizens and protect ourselves and others from those who do not value life.
