Being a guardian and attending 9 IEPS was hard on me and my grandson to get him help he needed. I wish before any changes can be made that all people involved in his placements be on board. I do not understand why one teacher or teachers can make changes on a wimp. The child has to have a team on board to get him where he needs to be. I want the best for kids who struggle to learn and nowhere to turn for help. Please pass this Bill for our children.
