

Hello. I am emailing to ask you for support for LD 1376. I went to a special needs school who used restraint and seclusion as a child. It was extremely traumatic for me and now I am in therapy as an adult to heal from this. There are so many options other than this. It is not therapeutic. It is abusive to the kids that are being restrained and secluded.

[Hi! Thank you for responding. Yes it is LD 1373.]
