

Paula Hutton  
Howland

Why does anyone in the Maine legislature want to introduce Communist inspired curriculum into the social studies curriculum of the Maine public schools? As a retired social studies teacher, I can confirm that ideology harkens back to William Patterson who introduced this Communist subversive thinking in 1951. Those were the days of ducking under your school desk to save yourself during an A Bomb attack. This bill is just as ridiculous. Please regard this proposal as a piece of Marxist propaganda and wholeheartedly reject it.
