Dear Senator, Representative and Honorable Members of the Education and Cultural Affairs Committee, we urge that you vote against LD 187 a bill regarding African Americans and Genocide. We oppose this bill as it is a tool of a Socialistic/Communitistic tactic being utilized to divide Americans. Our country has come so far in race relations electing a two term President Obama (African American), many Senators, Representatives etc, as well as Vice President Harris a person of color to our government. We have been improving our race relations greatly in America, Please help stop the division of our citizens. Vote no on this bill we implore you! Gratefully,
