Testimony in support of LD 142, An Act to Fund Climate-related Service Work

To: Sen. Joseph Rafferty, Representative Michael Brennan, and Members of the Committee On Education and Cultural Affairs From: Mainely Agriculture Newspaper

Dear Senator Rafferty, Representative Brennan and members of the Committee on Education and Cultural Affairs, my name is Wallace Sinclair and I live in Brownville. I am a journalist and write about any and all subjects kindred to science, conservation, economics, education and climate change, witnessed for many of my 75 years. I am writing to testify in support of LD 142.

[Progressively we must monitor all things in "the pursuit of happiness" in this modern world as is the present day lot in life, we now find ourselves a part of. This not to say all things are or can be negatively construed. Often progress can mean or lean towards a not in my back yard sort of mentality that is counter to the public good, if one were to equate anti-vaccinationists or non-masking folks by example whilst in the midst of a 100 year pandemic or a suffering a continuous inability to find a legal argument that several people truly own enough submerged ocean frontage by questionable deeds to stop fish farming on dry land v submerged ocean penning. There are times when common sense is a forgotten matter as if not unreasonable. Thank you for reading my testimony.
