

Pauline Bernardy  
North Yarmouth  
LD 51

I know many people that have lost their jobs over medical mandates and my son had a serious adverse reaction to childhood vaccines. People should be able to decide for themselves what goes into their bodies! There is a lot to consider when you are doing something irreversible to your body and that decision should NOT be made by a politician or employer. I pray this bill will pass ☐☐

Respectfully,  
Pauline Bernardy
