LD 51

I am writing in support of LD 51. We were lied to by the Government and especially Fauci. You legislatures obviously had not done your homework. This vaccine and all vaccines are meant to harm the human race world wide. This is genocide pure and simple, you choose to ignore well documented events of death and massive injuries. If these happened to you and your family and friends you would be devastated. I'll bet it has happened to those you know, but you choose to say, oh they had underlying illness. Well we have had friends and family injured and died from these mandated vaccines. You choose to ignore obituaries that say, died suddenly, died unexpectedly.. Look at all the pilots that are all in perfect health to be able to fly die suddenly or have cardiac arrest in flight. Also all the children that have cardiac events that die or are permanently injured, athletes that suddenly drop dead. One could go on and on, justice is coming for all those that push these vaccines and yes, possibly you if you continue to push this agenda. The CDC, FDA, Big Pharma are all lying including Dr. Shaw and the current head of the Maine CDC. Did you know Dr. Shaw got his wife a \$21million grant for her company. Did you know he came to Maine under suspicion of illegal issues, yet Maine hired him. He does not deserve to be called a Doctor. I believe justice is coming for him. Anyway, I support LD 51. If you want to get a vaccine, knock yourself out. Its your choice, once you do its too late, you own it and what happens to you. You have no right to force anyone to take the kill shot or deny them any exemptions. Covid was started by Fauci and big pharma many years ago. It was a plan, all you have to do is look up his patents going back to 1984. They had patents on covid vaccines going back to 2012. Now why did they need a vaccine on something that did not exist yet but planned to bring out in 2019. Again, please start with passing LD 51.
