Are you in fact violating 21 code of Federal Regulations Sec 50.23.24?

Are you in fact violating 18 U.S code Sec 2331 which says it is illegal to coerce the population? This is a felony

It is illegal for you to curb our sovereign god given rights? For the love of God till you can rule out without complete certainty that vaccinations are not a bioweapon you will be held accountable.

Ignorance is not a defense for violating the law.
