I am not sure why this is even a question. I am a parent of 4 from the MSAD6 district and very active with all 4 of my children including talking about real life and real situations more than I wish I have to. I do not need the state or school system to intervene. I am not for Chapter 117. They are children and have parents for a reason. You DO NOT have the right to take that away from me unless I do something terrible to them. Until that time, I will parent my children and still have something to say about it. You want respect from us than you need to give that same respect. I understand that cannot speak for other parents and their ability however, I will always stick up for my family and our rights. Please do not let this pass. It is a disgrace to many parents. School is for EDUCATION not deciding what gender you think they should be and keeping that from the parents. Absolutely appalling and cannot believe I even have to fight for this right I should already have.
