I whole heartedly encourage you to support this bill. My son spent his final 3 years of high school at MSSM, graduating in 2009. The knowledge and mentoring he received at MSSM helped he and his classmates develop strong bonds and achieve great success in college and beyond. It is a place where high standards in academics are developed and supported to the highest degree. It's an educational experience that produce young people excited to excel in their further education. I want to see this opportunity continue for any eligible student and not become limited by parental income. That would be a tragedy. These MSSM students are part of our future. Thank you for your support.
