LD 1557

I strongly urge you to oppose LD1557.

To allow a person with a concealed weapon permit to Possess Handguns on School Property to increase and enhance School Safety does not make sense to me.

I speak from 5 decades of working in education, both as a teacher and an administrator both department of defense schools as well as Kansas, Vermont and Maine!

This proposes a fear for me and cannot imagine how active educators, children, parents and the communities would feel if passed.

Please sincerely consider my request to oppose LD 1557.
