I am writing to ask that you OPPOSE LD 254 (An Act to Update Sex Education...). We do not need more tax dollars funding this kind of schooling. Sex education is a responsibility of parents not classroom teachers. I think we can all see where decades of publicly-funded sex education have brought our culture--and it's not to a better place.

Additionally, I would like to suggest that if the contents of any bill are not disclosed to the citizens of Maine well in advance of the date of the hearing, that bill should be automatically discarded rather than brought for discussion or vote. The legislature is doing us all a disservice by hiding content from citizens in what appears to be an attempt to stifle our voices. You cannot rightly represent us if you do not wish to hear what we have to say.

Respectfully,
