

Sarah Maclaughlin
Windham
LD 2107

Please vote for LD2107 to make communication between DHHS and DOE easier. As a former teacher and current social worker I implore you to streamline the fingerprinting and background check process. I have been screened dozens of times due to my work history, and it is an undue stress and burden not only for the worker, but on the schools and agencies where they work too. Thank you for your consideration.
