I strongly support the passage of the Pine Tree Amendment. It is a critical piece of legislation that aligns all future law-making with the Climate Action Plan that Maine released in December 2020.

The climate crisis demands swift, coordinated action across many sectors. Passing the Pine Tree Amendment would establish a solid foundation for that coordinated response.

I am a parent of two young kids. It is simply true that the right to clean air and water, and a stable climate, are rights that belong to all. Those are rights that my generation, and every generation before us, has taken for granted. What's different now is that we are finally seeing that while they are rights that absolutely belong to all, they are not a given. They are under dire threat.

We have barely a decade to turn around global warming before it is too late -- please, for the sake of all kids here in Maine and beyond, let's continue to be a leader in climate solutions! Please pass the Pine Tree Amendment.
